1	Toronto, Ontario 09:01:25AM	1	introduce the the representatives of the 09:02:43AM
2	Upon commencing on Monday, February 15, 2016 09:01:25AM	2	claimants in this in this hearing. 09:02:50AM
3	at 9:01 a.m. 09:01:25AM	3	MR. TERRY: Yes. Thank you, 09:02:51AM
4	OPENING REMARKS: 09:01:26AM	4	Mr. President. 09:02:52AM
5	PRESIDENT: Good morning, 09:01:26AM	5	There we go. Does that work? 09:02:59AM
6	ladies and gentlemen. Welcome to the arbitration 09:01:28AM	6	Okay. John Terry, Myriam Seers, Nick Kennedy, and 09:03:01AM
7	proceedings conducted under the North American 09:01:33AM	7	Emily Sherkey are our legal team. David Mars is 09:03:09AM
8	Free Trade Agreement, Chapter 11, and the 2010 09:01:38AM	8	our client representative. 09:03:11AM
9	UNCITRAL Arbitration Rules between Windstream LLC 09:01:46AM	9	And then in the next row we 09:03:13AM
10	and the Government of Canada. 09:01:47AM	10	have three of our experts from Deloitte: Robert 09:03:16AM
11	The secretary of services in 09:01:49AM	11	Lowe, Anna DiCerbo, and Richard Taylor. 09:03:22AM
12	this arbitration are provided by the Permanent 09:01:52AM	12	And finally in the back, we 09:03:29AM
13	Court of Arbitration, so the case has also been 09:01:56AM	13	have Chris Walker from our office. He is 09:03:32AM
14	assigned a PCA No. 2013-22. 09:01:58AM	14	providing technical assistance. 09:03:33AM
15	We have met before. It's 09:02:02AM	15	PRESIDENT: Thank you. 09:03:36AM
16	quite some time ago. So I believe there's no need 09:02:05AM	16	And, Mr. Neufeld, for the 09:03:37AM
17	to introduce the members of the Tribunal, but 09:02:08AM	17	Respondent. 09:03:39AM
18	there has been a change in the secretariat, so we 09:02:10AM	18	MR. NEUFELD: Yes. Good 09:03:40AM
19	have Jennifer Nettleton acting as the secretary of 09:02:14AM	19	morning. I'm Rodney Neufeld. My colleagues 09:03:41AM
20	the Tribunal in the coming two weeks. 09:02:19AM	20	Sylvie Tabet, Shane Spelliscy, Heather Squires, 09:03:45AM
21 22	Arbitration Place has kindly 09:02:21AM	21 22	Melissa Perrault, Darian Parsons, Jenna Wates, 09:03:55AM
23	provided court reporting services as well as the 09:02:25AM technicians for handling the audio and video feed 09:02:30AM	23	Susanna Kam, and Valentina Amalraj are from the 09:03:55AM Government of Canada. 09:03:59AM
24	that will be provided during the next two weeks. 09:02:37AM	24	Donnie Guillory is our is 09:03:59AM
25	May I ask perhaps Mr. Terry to 09:02:40AM	25	our technical assistant from Core Legal. 09:04:02AM
			5710 110 E E E
	Page 6		Page 7
1	We have BRG and then a whole 09:04:05AM	1	the fact that there will be some confidential 09:05:17AM
2	slew of and URS, our expert witnesses, and a 09:04:08AM	2	information on the record, which the parties will 09:05:19AM
3	whole slew of Ontario government people. Would 09:04:13AM	3	address perhaps already during the opening 09:05:23AM
4	you like me to go through and introduce everyone? 09:04:15AM	4	statements but also in particular during the 09:05:26AM
5	I'm happy to do so if you'd like. 09:04:18AM	5	examination of the witnesses, I would ask counsel 09:05:29AM
6	PRESIDENT: Perhaps not. We 09:04:20AM	6	to draw the Tribunal's attention when they are 09:05:32AM
7	will get to we will get to know them during the 09:04:21AM	7	about to enter into confidential information, draw 09:05:35AM
8	next two weeks. 09:04:23AM	8	our attention so that we can interrupt the video 09:05:39AM
10	[Laughter.] 09:04:25AM	10	feed for that period. And then also indicate to 09:05:42AM
11	MR. NEUFELD: Thank you. 09:04:27AM PRESIDENT: Just to go first 09:04:28AM	11	us when they are done with the confidential 09:05:48AM information so that we can — we can continue with 09:05:51AM
12	through a few of the preliminaries, the parties 09:04:29AM	12	the with the video feed. 09:05:54AM
13	have agreed and the Tribunal has decided in 09:04:33AM	13	So this is a bit of an unusual 09:05:56AM
14	Procedural Order No. 1 that this hearing will be 09:04:37AM	14	feature in an arbitration proceeding, but because 09:05:59AM
15	open to the public. Access to the public has been 09:04:40AM	15	of the public access, we have to have have this 09:06:00AM
16	organized by way of a video feed, which will go to 09:04:45AM	16	particular particular way of dealing with it. 09:06:04AM
17	one of the rooms here in the Arbitration Place. 09:04:50AM	17	I believe we will all get used to it in the coming 09:06:09AM
18	And there has been a certain 09:04:53AM	18	days. 09:06:12AM
19	protocol that has been followed in order to 09:04:56AM	19	Now, this hearing will run as 09:06:12AM
20	register those who are attending. After the 09:04:58AM	20	of today, February 15, until Friday February 26. 09:06:17AM
21	hearing, I understand there will also be a the 09:05:01AM	21	The Tribunal will be sitting on every day, except 09:06:23AM
22	video will also be placed on the on the PCA 09:05:05AM	22	next Saturday, February 20. There will be a 09:06:26AM
23	website will be available to the public there 09:05:08AM	23	sitting also on Sunday, and we will have a day off 09:06:32AM
24	after the hearing. 09:05:11AM	24	on Thursday, February 25 for the parties to 09:06:36AM
25	Now, because of because of 09:05:12AM	25	prepare for the for their closing statements. 09:06:40AM

	Page 8		Page 9
1	We will start each day at nine 09:06:44AM	1	
2	o'clock, and we will have a one-hour lunch break 09:06:46AM	2	morning. 09:08:08AM We'll also try to stick to the 09:08:09AM
3	at a convenient time; coffee breaks, 15 minutes, 09:06:53AM	3	preliminary timetable provided by the parties, and 09:08:13AM
4	in the morning and in the afternoon. 09:06:55AM	4	which has been agreed by the parties, and we are 09:08:18AM
5	There is no firm time for the 09:06:58AM	5	grateful for that, as to the tentative timetable 09:08:20AM
6	end of the day. That depends a little bit on us 09:07:02AM	6	for the hearing of the of the witnesses. 09:08:26AM
7	as well, the members of the Tribunal, and the 09:07:07AM	7	Today's program will be 09:08:31AM
8	questions we will put to the parties, but the idea 09:07:09AM	8	opening statements. Each party will have an 09:08:33AM
9	is that we will finish every day at the convenient 09:07:12AM	9	opening statement up to two hours. If you would 09:08:36AM
10	time, after the parties have used effective time 09:07:14AM	10	like to spend less than two hours, that is for 09:08:38AM
11	of approximately six hours during the day. So 09:07:18AM	11	each party to decide. And according to the 09:08:41AM
12	there will be some flexibility in that regard. 09:07:21AM	12	tentative program, we will also start with the 09:08:44AM
13	The time spent by the Tribunal on their questions 09:07:25AM	13	examination of the of the witnesses in the 09:08:46AM
14	will not be accounted against the time available 09:07:28AM	14	afternoon. 09:08:48AM
15	for the parties. 09:07:31AM	15	Are there is there anything 09:08:49AM
16	Effectively, this means six 09:07:33AM	16	that my co-arbitrators would like to add to this? 09:08:54AM
17	hours per day that there will be a sixty hours 09:07:37AM	17	Any administrative or housekeeping issues that 09:08:58AM
18	total hearing time, divided equally between the 09:07:41AM	18	either party would like to raise? 09:09:01AM
19	parties, 30 hours for each party. And you will 09:07:45AM	19	I should just thank, on behalf 09:09:03AM
20	receive at the end of each day, from the secretary 09:07:51AM	20	of the Tribunal, the parties for providing the 09:09:05AM
21	of the Tribunal, an accounting of the time spent 09:07:53AM	21	chronology last night or this morning, depends on 09:09:07AM
22	by each party, deducting the time spent by the 09:07:57AM	22	your time zone, that we are very grateful for 09:09:11AM
23	Tribunal on any questions. And if there are any 09:08:00AM	23	that. It's I'm sure it's going to be a useful 09:09:15AM
24	issues arising out of that accounting, please 09:08:03AM	24	tool in particular because it also identifies at 09:09:19AM

6	Secondly, the moratorium and 09:12:09AM	6	Natural Resources, MNR, had had a deferral on 09:13:22AM
7	the de facto project cancellation. And I'll be 09:12:11AM	7	offshore wind applications since 2006 while it 09:13:27AM
8	going in some detail over the documents relevant 09:12:15AM	8	studied environmental and related issues. 09:13:32AM
9	to those facts. 09:12:17AM	9	And you'll see here the 09:13:34AM
10	Third, Canada's NAFTA 09:12:18AM	10	announcement, the press release, that Ontario has 09:13:36AM
11	breaches. And I will be spending some time on the 09:12:22AM	11	lifted the deferral and existing proposals for 09:13:40AM
12	law, but consistent with the purpose of an 09:12:25AM	12	offshore wind projects and will be accepting new 09:13:42AM
13	opening, the focus will be on the facts, law at 09:12:27AM	13	onshore and offshore applications, and you will 09:13:45AM
14	the more high level now. We'll come back to that 09:12:31AM	14	see, in the text highlighted at the bottom, a 09:13:47AM
15	in our closing. 09:12:33AM	15	description that they are preparing to accept new 09:13:51AM
16	And finally the damages that 09:12:34AM	16	applications for both onshore and offshore 09:13:53AM
17	that we say arise from Canada's NAFTA breaches. 09:12:37AM	17	developments. 09:13:56AM
18	So we will start in the first 09:12:40AM	18	At the same time that that 09:13:56AM
19	section, which, again, breaks down into four 09:12:44AM	19	announcement is made, the Minister at the time, 09:14:02AM
20	sections. First of all, Ontario's encouragement 09:12:46AM	20	Ms. Cansfield, is speaking in the House with 09:14:06AM
21	as to investment in offshore wind development, and 09:12:51AM	21	respect to this, and these are the House notes at 09:14:10AM
22	then I'll tell you about Windstream and its 09:12:54AM	22	the time which we put in here to help explain, and 09:14:12AM
23	investors, then the particular encouragements 09:12:56AM	23	there are other documents in the record explaining 09:14:15AM
24	Ontario made for Windstream to apply and enter 09:13:00AM	24	this exactly, the rationale for lifting the 09:14:16AM
25	into the FIT contract and, finally, when 09:13:02AM	25	deferral at that time. 09:14:21AM

6	to take the energy to 09:22:04AM	6	So the whole orientation here 09:22:43AM
7	market." 09:22:06AM	7	was urgency. We have to get these projects 09:22:45AM
8	And then he talks about the 09:22:06AM	8	developed. We have to bring investment in. We 09:22:47AM
9	experiences, because Ontario had had a previous 09:22:11AM	9	have to get shovels in the ground because not only 09:22:50AM
10	programs, and you'll hear a little bit about this 09:22:15AM	10	are we phasing out our coal-fired plants and we 09:22:52AM
11	during the evidence today. It had previous 09:22:18AM	11	need the electricity for this, but we are also 09:22:54AM
12	programs in which renewable energy products had 09:22:19AM	12	creating jobs to replace those that are being 09:22:57AM
13	been developed. So Ontario had experience with 09:22:22AM	13	lost. 09:23:00AM
14	this and and what was required to attract 09:22:24AM	14	And, finally, there is this 09:23:00AM
15	investment. 09:22:26AM	15	provision about streamlining coordination. The 09:23:04AM
16	"Our Green Energy 09:22:27AM	16	proposed legislation would coordinate approvals 09:23:07AM
17	experience over these 09:22:28AM	17	from the Ministries of the Environment and Natural 09:23:09AM
18	past several years have 09:22:29AM	18	Resources because both Ministries, as you know 09:23:12AM
19	told us volumes about 09:22:30AM	19	from reviewing the materials, are involved in the 09:23:14AM
20	where our best renewable 09:22:31AM	20	review of these projects into a streamlined 09:23:16AM
21	opportunities lie. 09:22:33AM	21	process within a service guarantee. And so long 09:23:21AM
	Working proactive with 09:22:33AM	22	as all necessary documentation is successfully 09:23:22AM

	Page 24		Page 25
1	"My Ministry, the energy 09:23:31AM	1	and produce and sell 09:24:22AM
2	Ministry, would emerge 09:23:33AM	2	renewable energy." 09:24:23AM
3	with new capabilities and 09:23:34AM	3	The major components, the 09:24:24AM
4	new leadership to support 09:23:36AM	4	press release says, would be a Feed-In Tariff 09:24:28AM
5	the facilitation of 09:23:37AM	5	tariff which: 09:24:30AM
6	renewable energy 09:23:38AM	6	"Allows individuals and 09:24:31AM
7	projects." 09:23:39AM	7	companies to sell 09:24:32AM
8	So that is what the Minister 09:23:39AM	8	renewable energy into the 09:24:32AM
9	states in the House on introducing the Bill. Very 09:23:45AM	9	grid at set rates." 09:24:34AM
10	clear statements to potential investors. 09:23:48AM	10	And then skipping over the 09:24:36AM
11	Now, this is a news release 09:23:51AM	11	domestic content: 09:24:38AM
12	that came out at the time which I would like to 09:23:54AM	12	"A streamlined approvals 09:24:38AM
13	take you to briefly. Again, this is September 09:23:55AM	13	process and a service 09:24:40AM
14	2009. So the earlier remarks in the House were in 09:24:01AM	14	guarantee to bring 09:24:41AM
15	February 2009. This is the point at which the 09:24:04AM	15	developers greater 09:24:41AM
16	the Act and the regulations have been worked out 09:24:07AM	16	certainty." 09:24:42AM
17	and are being announced. 09:24:09AM	17	And: 09:24:43AM
18	So there is a description of 09:24:11AM	18	"A new Ontario Renewable 09:24:43AM
19	the regulations here: 09:24:13AM	19	Energy Facilitation 09:24:43AM
20	"Providing a stable 09:24:14AM	20	Office a one-stop shop 09:24:47AM
21	investment environment 09:24:15AM	21	to help renewable energy 09:24:48AM
22	where companies know what 09:24:17AM	22	projects get off the 09:24:49AM
23	the rules are, giving 09:24:18AM	23	ground faster." 09:24:50AM
24	them confidence to invest 09:24:20AM	24	And as a result of this, the 09:24:51AM
25	in Ontario, hire workers, 09:24:21AM	25	Minister, pursuant to his authority to direct the 09:24:58AM
1 2	OPA because the Minister, as you know, has 09:25:01AM	1 2	design, build, and operate the facility. The 09:25:45AM
3	these powers to direct the OPA to carry out 09:25:03AM certain acts directs the OPA to establish a FIT 09:25:06AM	3	exchange is a guaranteed long-term pricing for the 09:25:47AM output of renewable generating facilities, so 09:25:50AM
4	program, and it says: 09:25:10AM	4	two-way obligations under the under the 09:25:53AM
5	"The FIT program should 09:25:11AM	5	contract once it's signed. 09:25:55AM
6	provide for a 20-year 09:25:12AM	6	Now, this is an excerpt from 09:25:57AM
7	power purchase agreement 09:25:14AM	7	one of our expert witness reports. This is Sarah 09:26:02AM
8	in respect of all 09:25:15AM	8	Powell, who you'll hear is is a leading 09:26:06AM
,	renewable fuels" 09:25:16AM	9	environmental lawyer, and who is particularly in 09:26:08AM
10	Twenty years is significant, 09:25:17AM	10	the renewable industry here in Ontario. And she, 09:26:13AM
11	and we'll hear more from the experts and others 09:25:18AM	11	as you'll hear, has extensive experience in 09:26:17AM
12	about that amount of time. 09:25:21AM	12	dealing with developers and FIT contracts on 09:26:20AM
13	"The contract should 09:25:23AM	13	everything from obtaining the environmental 09:26:22AM
14 15	require the developer to 09:25:25AM	15	approvals to dealing with financing issues. 09:26:24AM
16	design, build and operate 09:25:26AM	16	She explains here that a FIT 09:26:26AM
17	a renewable generating 09:25:27AM facility and in exchange 09:25:29AM	17	contract this is from the perception in the 09:26:28AM
18	•	18	industry as to how developers would have viewed 09:26:32AM
19	should provide for 09:25:31AM	19	them: 09:26:35AM
20	guaranteed, long-term 09:25:32AM	20	"[a] FIT contract would 09:26:35AM
21	pricing for the output of 09:25:33AM	21	have been generally 09:26:36AM
22	the renewable generating 09:25:34AM	22	viewed by the regulated 09:26:36AM
23	facility." 09:25:36AM So just to pause, there are 09:25:36AM	23	community as the key 09:26:38AM
	So just to pause, there are 09:25:36AM the contractors imposing obligations, once it's 09:25:38AM	24	'hard gate' (i.e., 09:26:39AM required before any other 09:26:40AM
	THE CONTRACTORS INDUSTRIE CONTRACTORS, ORCC ITS U7.43.38AM	1 ""	required before any other 09.20.40AM
24 25	signed, on the developer. The obligations are to 09:25:41AM	25	material milestone in the 09:26:42AM

	Page 28		Page 29
1	project development 09:26:43AM	1	parties is what the expectations would have been 09:27:23AM
2	process would have been 09:26:43AM	2	of Windstream as to as to whether it would be 09:27:26AM
3	pursued. In other words, 09:26:44AM	3	able to obtain other permits, whether it was 09:27:28AM
4	in my experience, a 09:26:46AM	4	reasonable for it to, assuming it got into the 09:27:32AM
5	developer would not 09:26:47AM	5	process, to obtain those permits in a timely 09:27:34AM
6	typically invest heavily 09:26:47AM	6	manner. 09:27:37AM
7	in project development 09:26:49AM	7	Now, Ontario, at this time, in 09:27:37AM
8	activities until a FIT 09:26:50AM	8	terms of their adoption of the FIT the REA 09:27:42AM
9	contract is awarded." 09:26:51AM	9	regulation, this is an excerpt from the 09:27:44AM
10	So it's the key hard gate, the 09:26:53AM	10	regulation, which, as you might expect, is a long 09:27:48AM
11	material milestone, and then she goes on to say: 09:26:56AM	11	and complex regulation. It required a number of 09:27:51AM
12	"Once awarded a FIT 09:27:00AM	12	permitting requirements that had to be fulfilled 09:28:00AM
13	contract for an offshore 09:27:01AM	13	in order for a project to get REA approval. The 09:28:02AM
14	wind project pursuant to 09:27:02AM	14	part that we have highlighted here is just making 09:28:05AM
15	the FIT program, it would 09:27:03AM	15	it clear that there was a section dealing with 09:28:10AM
16	have been commercially 09:27:05AM	16	offshore wind. So offshore wind was clearly 09:28:12AM
17	reasonable for a 09:27:05AM	17	included within the regulation. 09:28:14AM
18	developer to assume that 09:27:06AM	18	And the regulation, we'll be, 09:28:16AM
19	it would obtain the 09:27:08AM	19	again going over more of this during the hearing, 09:28:19AM
20	requisite Crown land 09:27:09AM	20	but for for wind projects in general, the whole 09:28:22AM
21	tenure in due course and 09:27:10AM	21	approach here was to have the developers and their 09:28:25AM
22	in a timely manner" 09:27:11AM	22	consultants carry out all the environmental 09:28:30AM
23	And, again, that will be 09:27:15AM	23	studies that the Ministries directed should be 09:28:32AM
24 25	important in the evidence you'll hear about that 09:27:19AM	24 25	done, both MNR and MOE. 09:28:34AM
23	issue because one of the disputes between the 09:27:21AM	23	They would go out. They would 09:28:36AM
	Page 30		Page 31
1	do the fieldwork. They would do the 09:28:37AM	1	emphasis on the proponent to develop, to do the 09:29:40AM
2	investigations. Those studies would be provided 09:28:39AM	2	investigation, to assess, to do the field studies, 09:29:44AM
3	to the Ministries, MNR and MOE. And MNR and MOE 09:28:41AM	3	to do all of the studies that were required to 09:29:47AM
4	would have to be satisfied that those studies were 09:28:46AM	4	determine whether or not the project was 09:29:48AM
5	properly done and satisfied them as to the various 09:28:48AM	5	environmentally safe, but but, without 09:29:50AM
6	environmental issues. 09:28:51AM	6	question, gave the final say to the Ministry of 09:29:53AM
7	So that was their an 09:28:52AM	7	the Environment and the Ministry of Natural 09:29:56AM
8	extensive set of studies for for wind projects 09:28:54AM	8	Resources to evaluate those studies. If they 09:29:57AM
9	in general, and then there were these additional 09:28:57AM	9	weren't sufficient to say, "Go back and do more 09:29:59AM
10	requirements under the REA regulations for an 09:29:00AM	10	study," to, in the end, have the final say as to 09:30:02AM
11	offshore wind facility report, and there's a 09:29:02AM	11	whether or not the project was one that should go 09:30:06AM
12	general description here, and you'll see there are 09:29:06AM	12	ahead. 09:30:08AM
13	more there are added further descriptions of it 09:29:10AM	13	And I I make that point in 09:30:13AM
14	as well that talks about the nature of what should 09:29:11AM	14	part because Canada, in their Memorial, at one 09:30:14AM
15 16	be provided for the offshore wind facility report. 09:29:13AM Now, we'll be getting to 09:29:17AM	15 16	point says that that essentially what we're 09:30:17AM
17	Now, we'll be getting to 09:29:17AM another slide in a moment because, in addition to 09:29:18AM	17	asking for is for, you know, the project to go 09:30:20AM
18	the REA regulation, there was a specific set of 09:29:20AM	18	ahead and for us to sort of hope for the best that 09:30:24AM there wouldn't be any environmental issues that 09:30:27AM
19	requirements from the MNR as well as to what had 09:29:23AM	19	arose. 09:30:29AM
20	to be carried out in terms of of an offshore 09:29:25AM	20	And, in fact, that's a 09:30:30AM
21	wind project. 09:29:28AM	21	mischaracterization of the system. It wasn't a 09:30:31AM
22	But the the essential point 09:29:29AM	22	hope-for-the-best system. It was a system that 09:30:34AM
	to remember, from our perspective and and 09:29:32AM	23	required developers to do all the studies 09:30:35AM
23	to remember, from our perspective and and 07.27.32 Avi		
23 24	you'll hear it also from Sarah Powell and others 09:29:34AM	24	thoroughly that were required, to then have the 09:30:39AM

	Page 32		Page 33
1	Ministry of Natural Resources with respect to 09:30:44AM	1	exceed a noise level of 40 decibels. They say 09:31:52AM
2	those studies. 09:30:46AM	2	approximately the noise level experienced in a 09:31:56AM
3	Now, there was another 09:30:47AM	3	quiet office or a library. 09:31:58AM
4	document which came out at the time, a fact sheet 09:30:53AM	4	And that was that was the 09:31:59AM
5	from the Ministry of Environment which, again, 09:30:55AM	5	basis of the 550-metre exemption or the setback 09:31:59AM
6	sums up this approach here. Specific description 09:30:58AM	6	for onshore wind turbines was that was designed to 09:32:03AM
7	here of what has to happen for offshore wind 09:31:00AM	7	avoid a situation in which wind turbine noise 09:32:06AM
8	turbines. And you'll see that offshore wind 09:31:03AM	8	would exceed 40 decibels. 09:32:08AM
9	facilities require a REA. They do not have 09:31:05AM	9	So so there is there is 09:32:10AM
10	province-wide standard setbacks at this time. 09:31:08AM	10	what, in our view, is being communicated here 09:32:14AM
11	Now, with respect to 09:31:12AM	11	is that, in the absence of such standards, the 09:32:18AM
12	province-wide standard setbacks, there was, for 09:31:14AM	12	applicants conduct the noise study, and they 09:32:20AM
13	example, for onshore wind projects, there was a 09:31:17AM	13	you'll see in the last line: 09:32:23AM
14	noise requirement that that you had to be at 09:31:19AM	14	"They must identify any 09:32:24AM
15	least 550 metres from a residence. 09:31:22AM	15	negative impacts to the 09:32:26AM
16	And at the time that the 09:31:25AM	16	natural environment that 09:32:27AM
17	offshore at the time, in September 2009, when 09:31:28AM	17	the project may have and 09:32:28AM
18	the these materials were were put forward, 09:31:32AM	18	explain how they will 09:32:29AM
19	there was no similar setback for offshore wind 09:31:32AM	19	mitigate any impacts." 09:32:30AM
20	turbines, and you'll see that this becomes 09:31:37AM	20	So, again, the 09:32:31AM
21	important later on when the Ministry makes certain 09:31:39AM	21	proponent-driven process where the developer does 09:32:33AM
22	proposals as to what the setbacks should be. 09:31:42AM	22	the field testing, the science. The developer 09:32:35AM
23	So what they said instead with 09:31:44AM	23	assesses what the noise levels are likely to be. 09:32:38AM
24	respect to noise issues is that applicants need to 09:31:46AM	24	They have to explain how they'll mitigate any 09:32:41AM
25	conduct noise studies demonstrating they do not 09:31:49AM	25	issues, and it has to be approved by the 09:32:44AM

Two things to note 09:33:14AM on this slide: First of all, if you look at the 09:33:18AM orange box, there's a reference here to the MNR's 09:33:21AM Approval and Permitting Requirement Document for 09:33:24AM Renewable Energy Projects. And this was a 09:33:29AM document you'll see a copy of it a lengthy 09:33:29AM document that was provided at the time in 09:33:32AM September 2009 when this was all being rolled out, 09:33:34AM and it had various provisions for onshore wind 09:33:41AM projects and detailed provisions for offshore wind 09:33:41AM projects as well. And you'll see the same 09:33:45AM statement here from the MNR, that: 09:33:46AM "The review of the 09:33:48AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	will be completed within 09:33:51AM the established service 09:33:52AM guarantee." 09:33:53AM So, again, the emphasis on 09:33:53AM "guarantees" from the Ministries in September 09:33:56AM 2009. 09:33:58AM And you'll see here we've 09:33:58AM included this reference from Mr. Smitherman's 09:34:01AM Minister Smitherman's former Minister 09:34:04AM Smitherman's witness statement: 09:34:06AM "I intended for investors 09:34:07AM to rely on the 09:34:09AM commitments I made in 09:34:10AM this speech" 09:34:11AM So he is talking here about 09:34:12AM his February 2009 speech. 09:34:13AM " and others 09:34:16AM (including our commitment 09:34:19AM applications within a 09:34:19AM six-month time frame)." 09:34:22AM And you'll be hearing from 09:34:22AM

And you will see at this time 09:32:47AM the MOE, making the commitment we've highlighted, 09:32:57AM is providing the six-month service guarantee so 09:32:59AM that the same commitment that was reflected in 09:33:01AM Mr. Smitherman's speech when he introduced this is 09:33:04AM reflected in the news release September 2009. 09:33:06AM And this is a document from 09:33:09AM Ministry of Natural Resources. 2	and the point I just want to make on this slide is 09:34:39AM	2	the energy industry, and you'll be hearing from 09:35:50AM
3	what you see here is an effort on behalf of MNR to 09:34:41AM	3	him this week, and David Mars, who works with 09:35:53AM
4	align its activities with the Green Energy Act 09:34:45AM	4	with Mr. Ziegler and has basically been, you'll 09:35:58AM

9	it goes through a process of determining whether 09:34:59AM	9	projects in Ontario. 09:36:18AM
10	Crown land should be made available and to 09:35:01AM	10	Now, we have also Windstream 09:36:23AM
11	eliminate duplication. 09:35:04AM	11	Energy Inc., which is a management company, but 09:36:25AM
12	So the message, in our view, 09:35:06AM	12	the key in terms of the chain here, it's 09:36:27AM
13	is consistently is consistent between Minister 09:35:08AM	13	Windstream Energy LLC, which has 100 percent 09:36:29AM
14	Smitherman's speech and what we what we hear 09:35:12AM	14	ownership of Windstream Wolfe Island Shoals, and 09:36:32AM

3	point, and it had a substantial megawatt capacity 09:39:41AM	3	essentially exactly almost to the day when MNR 09:40:32AM
4	as well. 09:39:44AM	4	opened up their window to be able to apply, 09:40:35AM
5	So Ian Baines, engineer, had 09:39:45AM	5	because they had had this deferral on for close to 09:40:38AM
6	that expertise and experience. 09:39:48AM	6	two years. They opened up the window to apply for 09:40:40AM
7	So what happens, then, in 09:39:50AM	7	offshore wind, and and Windstream applies very 09:40:43AM
8	that causes Windstream to make its investment? 09:39:55AM	8	quickly, because, of course, it's important for, 09:40:46AM
9	First of all, as Mr. Mars says and we go back 09:39:59AM	9	in this process, to be, if possible, the first 09:40:48AM

Apply o9:42:35AM into this into the FIT contract process, and if o9:42:39AM you get a FIT contract, you get priority o9:42:44AM So this, again, is is from o9:42:44AM So this, again, is is from o9:42:44AM o9:42:51AM decided to apply, and he lists here the various o9:42:54AM bases on which they decide to apply for a FIT o9:42:56AM contract: o9:42:59AM Minister Cansfield's o9:42:59AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	priority position within 09:41:40AM MNR site release process, 09:41:42AM you must submit an 09:41:43AM application to the FIT 09:41:45AM launch program within the FIT 09:41:45AM launch program launch 09:41:47AM period." 09:41:47AM So a clear statement here. 09:41:48AM And we think this is important that, if you want 09:41:51AM to preserve your rights to be able to develop an 09:41:53AM offshore wind and get priority on that, you have 09:41:56AM to apply into the FIT program. 09:41:58AM And you see this followed up 09:42:00AM in a letter sent in 2000 and in November of 09:42:04AM 2009: 09:42:11AM "Existing Crown land 09:42:11AM applicants who apply for 09:42:14AM FIT during the launch 09:42:17AM awarded contracts by the 09:42:17AM OPA" 09:42:17AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	for. This means these applicants will take o9:42:24AM applicants will take o9:42:26AM precedence over all o9:42:27AM others for this site." o9:42:27AM others for this site." o9:42:27AM so if there are other people o9:42:27AM who applied for this site, it'll take precedence. o9:42:27AM "And, additionally, it o9:42:30AM will receive priority o9:42:31AM attention from MNR." o9:42:32AM so this is the communication o9:42:33AM that the investors are getting at the time. Apply o9:42:35AM into this into the FIT contract process, and if o9:42:39AM you get a FIT contract, you get priority o9:42:44AM So this, again, is is from o9:42:44AM So this, again, is is from o9:42:44AM Mr. Mars' statement, and you can see that they o9:42:51AM decided to apply, and he lists here the various o9:42:54AM bases on which they decide to apply for a FIT o9:42:56AM contract: o9:42:59AM Minister Cansfield's o9:42:59AM announcement that Ontario was "open for business," o9:43:02AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	priority position within 09:41:40AM MNR site release process, 09:41:42AM you must submit an 09:41:43AM application to the FIT 09:41:45AM launch program within the FIT 09:41:45AM launch program launch 09:41:47AM period." 09:41:47AM So a clear statement here. 09:41:48AM And we think this is important that, if you want 09:41:51AM to preserve your rights to be able to develop an 09:41:53AM offshore wind and get priority on that, you have 09:41:56AM to apply into the FIT program. 09:41:58AM And you see this followed up 09:42:00AM in a letter sent in 2000 and in November of 09:42:04AM 2009: 09:42:11AM "Existing Crown land 09:42:11AM period and who are 09:42:17AM awarded contracts by the 09:42:17AM OPA 09:42:17AM So if they get a FIT contract. 09:42:18AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	for. This means these applicants will take o9:42:24AM applicants will take o9:42:26AM precedence over all o9:42:27AM others for this site." o9:42:27AM others for this site." o9:42:27AM So if there are other people o9:42:27AM who applied for this site, it'll take precedence. o9:42:27AM "And, additionally, it o9:42:30AM will receive priority o9:42:31AM attention from MNR." o9:42:32AM So this is the communication o9:42:33AM that the investors are getting at the time. Apply o9:42:35AM into this into the FIT contract process, and if o9:42:39AM you get a FIT contract, you get priority o9:42:41AM attention. o9:42:44AM So this, again, is is from o9:42:44AM Mr. Mars' statement, and you can see that they o9:42:51AM decided to apply, and he lists here the various o9:42:54AM bases on which they decide to apply for a FIT o9:42:59AM contract: o9:42:59AM Minister Cansfield's o9:42:59AM announcement that Ontario was "open for business," o9:43:02AM the various statements the Ministers have made o9:43:04AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	priority position within 09:41:40AM MNR site release process, 09:41:42AM you must submit an 09:41:43AM application to the FIT 09:41:45AM launch program within the FIT 09:41:45AM launch program launch 09:41:47AM period." 09:41:47AM So a clear statement here. 09:41:48AM And we think this is important that, if you want 09:41:51AM to preserve your rights to be able to develop an 09:41:53AM offshore wind and get priority on that, you have 09:41:56AM to apply into the FIT program. 09:41:58AM And you see this followed up 09:42:00AM in a letter sent in 2000 and in November of 09:42:04AM 2009: 09:42:11AM "Existing Crown land 09:42:11AM applicants who apply for 09:42:14AM FIT during the launch 09:42:15AM period and who are 09:42:17AM awarded contracts by the 09:42:17AM OPA" 09:42:17AM So if they get a FIT contract. 09:42:18AM " will be given the 09:42:20AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	for. 3	assurances from them, as you'll see, as to what 09:47:32AM	3	obtain the following letter from the Ministry of 09:48:56AM
4	they expected would happen as the project 09:47:35AM	4	Natural Resources. And you'll recall that what 09:49:03AM
5	proceeded. 09:47:39AM	5	the way in which Mr. Baines and Windstream 09:49:06AM
6	And you will see this, just to 09:47:39AM	6	proposed to deal with the 5-kilometre setback, in 09:49:07AM
7	to run through these examples, there's Mr. 09:47:41AM	7	addition to getting the extension of one year, was 09:49:12AM
8	Ungerman, who is the policy adviser for the Energy 09:47:46AM	8	to swap the grid cells they had applied for, for 09:49:15AM
9	Minister at the time on this. There was a key 09:47:49AM	9	other grid cells that were outside 5 kilometres, 09:49:18AM
10	meeting, which you'll hear about, in July 7th, 09:47:51AM	10	so the project could be developed consistent with 09:49:20AM
11	where Mr. Ungerman indicates this is from the 09:47:53AM	11	the 5-kilometre setback. 09:49:22AM
12	witness statement of Ian Baines that the 09:47:58AM	12	And you'll see here that the 09:49:24AM
13	project had the support of the Ontario government. 09:48:00AM	13	Ministry says this is this is August, August 09:49:27AM
14	And this was in a conference call that involved 09:48:07AM	14	9th, 2010: 09:49:31AM
15	not just Mr. Baines, but also Mr. Mars and 09:48:10AM	15	"Given that Windstream 09:49:32AM
16	Mr. Ziegler. 09:48:12AM	16	Wolfe Island Shoals was 09:49:35AM
17	There was an effort made and a 09:48:18AM	17	successful in obtaining a 09:49:35AM
18	successful effort by Mr. Ungerman to intervene 09:48:19AM	18	FIT contract offer from 09:49:36AM
19	with the Ontario Power Authority to obtain an 09:48:23AM	19	the Ontario Power 09:49:37AM
20	extension of the Milestone Date for Commercial 09:48:25AM	20	Authority" 09:49:38AM
21	Operation from four years to five years, because, 09:48:28AM	21	So a recognition of the 09:49:38AM
22	as I said, there was concern at the time from 09:48:33AM	22	importance of obtaining a FIT contract and how it 09:49:39AM
23	Windstream's part that they wouldn't be able to 09:48:35AM	23	puts them in a different category than others. 09:49:41AM
24	finish the project within the four-year period 09:48:38AM	24	" the Ministry of 09:49:44AM
25	because of the uncertainty caused by this issue 09:48:41AM	25	Natural Resources is 09:49:46AM
	Page 50		Page 51
1	prepared to discuss 09:49:46AM	1	there had to be a determination first by the 09:50:24AM
2	limited reconfiguration 09:49:47AM	2	government, which, as you'll see, in our 09:50:26AM
3	of your existing 09:49:48AM	3	submission, was expected at the time soon with 09:50:29AM
4 5	applications to allow a 09:49:48AM	4 5	respect to the 5-kilometre setback. Once that had 09:50:32AM
	sufficient size of area 09:49:50AM		been settled, then, as the MNR is saying here, is 09:50:34AM
6 7	to site your proposed 09:49:51AM	6 7	they would proceed with this issue of of 09:50:38AM
8	300-megawatt offshore 09:49:52AM	8	discussions of the grid cell swap. 09:50:41AM
9	wind farm." 09:49:54AM	9	And you will see that: 09:50:43AM
-	Now, just to go back, a 09:49:55AM	10	"Once the reconfiguration 09:50:45AM
10	statement there, which certainly Windstream 09:50:04AM	11	of applications has been 09:50:46AM
11 12	acknowledged: 09:50:06AM	12	finalized, the amended 09:50:49AM applications can begin to 09:50:50AM
13	"That any discussion of 09:50:07AM	13	•
14	this would occur once the 09:50:08AM policy proposal, 09:50:10AM	14	move through the normal 09:50:52AM Crown land application 09:50:53AM
15	environmental registry 09:50:11AM	15	process, including 09:50:54AM
16	posting regarding the 09:50:12AM	16	holding a site 09:50:55AM

18	exclusion zone has been 09:50:15AM	18	cetera." 09:50:56AM
19	concluded as well as 09:50:16AM	19	So, again, once the 09:50:58AM
20	MNR's own consideration 09:50:17AM	20	reconfiguration of applications has been 09:51:00AM
21	of where, when, and how 09:50:19AM	21	finalized, in our submission, a clear statement 09:51:00AM
22	the government will make 09:50:20AM	22	that you will see that our that the Claimants 09:51:04AM
23	Crown land available for 09:50:21AM	23	relied on of an intention to work with once the 09:51:08AM
24	offshore wind projects." 09:50:22AM	24	setbacks were finalized, to work with Windstream 09:51:12AM
25	So it was understood that 09:50:24AM	2.5	in dealing with their Crown land site release 09:51:16AM

2	And then you can see: 09:51:20AM	2	And also another 09:52:02AM
3	"Finally, an 09:51:21AM	3	contemporaneous document, this is an e-mail from 09:52:03AM

6	So, in our submission, a clear 09:52:43AM	6	document showing reliance on the statements, 09:53:32AM
7	indication at that point in time MNR intended and 09:52:46AM	7	showing reliance on the various meetings I've 09:53:34AM
8	had made a bona fide statement to Windstream which 09:52:50AM	8	described, including representations of government 09:53:36AM
9	it intended to follow through on. 09:52:57AM	9	and Premier's Office support, and showing reliance 09:53:39AM
10	You can see here this is a 09:52:59AM	10	on the statements made with respect to the setback 09:53:43AM
11	letter, again a contemporaneous document, from 09:53:04AM	11	rules and when they would be dealt with and what 09:53:46AM
12	David Mars to Windstream's investors. You saw the 09:53:07AM	12	would be expected to happen after the setback 09:53:48AM
13	group in the chart before. He says: 09:53:09AM	13	rules. 09:53:50AM
14	"We were able to 09:53:11AM	14	Now, just to briefly, again, 09:53:51AM
15	negotiate with multiple 09:53:12AM	15	pause on this issue, because Canada talks about 09:53:59AM
16	agencies in the Ontario 09:53:15AM	16	the fact that that that particular reliance 09:54:05AM
17	government to give us 09:53:16AM	17	that you saw there of Mr. Mars was not reasonable. 09:54:09AM
18	relief on the new 09:53:17AM	18	And our submission is that, first of all, 09:54:12AM
19	proposed setback rules 09:53:18AM	19	Windstream could not have reasonably anticipated 09:54:16AM
20	and the time frame in 09:53:19AM	20	that a moratorium was forthcoming at this time. 09:54:18AM
21	which the site needs to 09:53:20AM	21	No one ever suggested anything about a moratorium. 09:54:21AM
22	be construed. The 09:53:21AM	22	Clearly at the time there was the issue of the 09:54:24AM
23	support we received from 09:53:22AM	23	5-kilometre setback that had to be completed by 09:54:28AM
24 25	the government agencies 09:53:23AM	24	the government, and clearly at that time 09:54:30AM
	was driven by the office 09:53:24AM	25	Windstream had a plan to resolve that by getting 09:54:32AM

	Page 56		Page 57
1	the additional time, the additional one year, and 09:54:38AM	1	that there would be a block on being able to 09:55:42AM
2	by trading the grid the grid cell locations. 09:54:42AM	2	proceed at all through the regulatory approvals 09:55:45AM
3	But no one and Canada has not suggested, and 09:54:46AM	3	process. 09:55:47AM
4	there is no indication whatsoever that anyone ever 09:54:48AM	4	Windstream legitimately 09:55:48AM
5	anticipated that the process would be pulled right 09:54:51AM	5	expected it would be granted AOR status in a 09:55:50AM
6	out from under the investors in this case, that a 09:54:53AM	6	timely manner, and Windstream relied on the 09:55:53AM
7	moratorium was coming. 09:54:56AM	7	government's support of the FIT program and its 09:55:55AM
8	We say Windstream legitimately 09:54:57AM	8	commitment to providing investor certainty. And I 09:55:58AM
9	expected that it would be allowed to proceed 09:55:01AM	9	can't overemphasize the importance of the 09:56:00AM
10	through the regulatory approvals process, and 09:55:02AM	10	statements that were made early on and really 09:56:03AM
11	we're not I'm not I have to make it clear 09:55:05AM	11	carried through until the date of the moratorium 09:56:06AM
12	here. We're not Windstream is not saying, you 09:55:07AM	12	was announced that this was a process that, once 09:56:13AM
13	know, "We deserve to be able to build this project 09:55:09AM	13	it started, was going to be one that was 09:56:17AM

17	Our clients are asking for the 09:55:16AM	17	So next, in terms of what 09:56:30AM
18	ability here to proceed through the regulatory 09:55:22AM	18	Windstream did to move the project forward here, 09:56:36AM
19	approvals process, which, as I indicated before, 09:55:24AM	19	now this is before this is at a point at which 09:56:38AM
20	is a process that is and you'll see in further 09:55:26AM	20	the 5-kilometre setback issue has not yet been 09:56:43AM
21	documents that is a robust process that the 09:55:29AM	21	resolved, but the expectation is that it's going 09:56:45AM
22	Ministries have designed to ensure the appropriate 09:55:31AM	22	to be resolved by the end of the year so that 09:56:48AM
23	studies are are carried out by the developers 09:55:34AM	23	they'll any regulations with respect to that 09:56:52AM
24	and there's appropriate review of those. And 09:55:38AM	24	will be put into place in in January. 09:56:54AM
25	there was no indication whatsoever at the time 09:55:40AM	25	They do testing, wind resource 09:56:57AM

1 Now, that was before we 10:00:39AM 2 obtained disclosure of many different documents 10:00:40AM 3 from the government, both through freedom of 10:00:44AM 4 information processes and from the government and 10:00:46AM 5 from Canada. And you'll see how it evolves in 10:00:47AM 6 Canada's rejoinder. It now becomes in 10:00:50AM 7 consultation with three other Ministers who 10:00:53AM 8 brought the interests of their Ministries and 10:00:55AM 9 constituents to the table. They're talking about 10:00:58AM 10 the -- the way this decision was made. 10:00:59AM 11 This included consideration of 10:01:01AM 12 the cost of additional offshore and energy 10:01:04AM 13 procurement, so the cost considerations; demand 10:01:07AM 14 for renewable energy in the context of Ontario's 10:01:08AM 15 overall supply mix, so, again, financial 10:01:11AM 16 considerations about energy supply; and public 10:01:13AM 17 opposition to offshore wind. 10:01:14AM 18 So clearly, as Canada, to 10:01:17AM 19 their credit, saw here, once we saw the additional 10:01:21AM 20 documents, it's clear that there were -- there 10:01:23AM 21 were various other considerations that played a 10:01:27AM 22 part in this -- in this decision. 10:01:30AM 23 And, in our submission, the 10:01:31AM 24 key documents that show the decision being made 10:01:36AM 25 are the following: We see -- and this is -- this 10:01:40AM

1 is in a period -- now, there had been a number of 10:01:46AM 2 discussions among Ministries in the fall of 10:01:48AM 3 October and November discussing different ways in 10:01:53AM which offshore wind can be dealt with. 11 Now, this is a point in 10:02:12AM 12 December and January where there is a discussion 10:02:14AM 13 of using transmission capacity as a wall for 10:02:17AM 14 offshore wind. So the idea is to see whether or 10:02:21AM 15 not

And then what happens here --10:03:56AM and this is really when we get down to the short 10:03:57AM strokes in terms of days when this decision was 10:04:00AM made -- we have a draft communications plan, which 10:04:02AM is forwarded -- which is prepared by the Ministry 10:04:07AM of Energy. And you will see here in the 10:04:12AM communications plan: 10:04:13AM "The government is 10:04:14AM providing clarity today 10:04:15AM on offshore wind by 10:04:16AM designating eastern Lake 10:04:17AM Ontario and eastern Lake 10:04:18AM Erie areas for potential 10:04:20AM development to be setback 10:04:21AM at least 5 kilometres 10:04:22AM from the shoreline." 10:04:23AM 10:04:25AM So the proposal here is to designate certain areas and so long as the 10:04:27AM projects are 5 kilometres from the shoreline, 10:04:30AM they'd be allowed. 10:04:32AM And you'll see -- I want to 10:04:32AM

draw attention to this section. This is, again, 10:04:35AM in the communications plan. The -- the plan is to 10:04:37AM -- is to make clear that successful projects will 10:04:42AM meet vigorous requirements, including REA 10:04:44AM approval, which they describe here as: 10:04:48AM "A vigorous process that 10:04:48AM 10:04:50AM protects human and environmental health on a 10:04:51AM case-by-case basis for 10:04:53AM each and every project." 10:04:54AM And I -- I emphasize that 10:04:55AM because, again, it's showing internally what the 10:04:56AM 10:05:00AM government's perspective at that time, in preparation of its communication plan is with 10:05:04AM respect to the REA process, which, as I say, it's 10:05:06AM not like you had to just hope for the best. There 10:05:08AM was a process that was in place that the 10:05:11AM government is recognizing with respect to this 10:05:15AM proposal that would allow certain projects to be 10:05:17AM 10:05:19AM developed. So what happens? This is sent 10:05:21AM out to the Premier's Chief of Staff, a very short 10:05:23AM e-mail. So this is Chris Morley, Chief of Staff 10:05:29AM of the Premier's Office to the Ministry of the 10:05:32AM

Environment -- or, sorry, Ministry of Energy

Page 67 1 official who's forwarded this communications plan: 10:05:38AM 2 "Sorry folks. This isn't 10:05:41AM 3 good enough. The purpose 10:05:43AM 4 of this release is to 10:05:44AM 5 kill all projects except 10:05:45AM 6 the Kingston one, not 10:05:46AM 7 suck and blow. Please 10:05:48AM 8 turn this around so it 10:05:49AM 9 kills the projects, not 10:05:51AM 1.0 sounds like we're in 10:05:53AM 11 favour of offshore wind." 10:05:54AM 12 So this is Ministry of Energy: 10:05:55AM 13 10:06:08AM 16 And then not too long later 10:06:17AM 17 Chris Morley decided he's going to write the press 10:06:20AM 18 release himself: 10:06:22AM 19

1		1	And so here we see a 10:07:19AM
		2	communication. So this is an official in the 10:07:20AM
		3	Ministry of Energy communicating to her colleague 10:07:23AM
		4	in the Ministry of Environment, passing on the 10:07:27AM
		5	moratorium decision. And, again, this is 10:07:29AM
		6	significant because it shows, in our view, that 10:07:31AM
		7	the Ministry of Environment officials aren't 10:07:33AM
		8	involved in this decision, and they're being told 10:07:36AM
		9	about it from Ministry of Energy passing on what 10:07:38AM
		10	Premier's Office says. 10:07:41AM

That's not true. 10:09:10AM As explained above, I 10:09:11AM made the decision as the 10:09:12AM Minister of the 10:09:14AM Environment, a decision 10:09:14AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	and policies in 10:08:00AM collaboration with the 10:08:00AM Great Lakes states. 10:08:00AM "The preferred option 10:08:03AM will also involve 10:08:05AM discussions with the 10:08:05AM developer of the Wolfe 10:08:05AM Island Shoals project 10:08:08AM such that the project 10:08:08AM won't proceed until the 10:08:09AM science and uniform rules 10:08:10AM and policies have been 10:08:11AM developed." 10:08:12AM So I emphasize, again, that 10:08:12AM all the way through this and remember that our 10:08:14AM that our complaint is is the combination of 10:08:16AM the moratorium and the failure of the government 10:08:18AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	And just briefly we highlight 10:08:46AM this, again, was a was a statement that 10:08:48AM Minister Wilkinson said in his witness statement 10:08:53AM that accompanied the Counter-Memorial. His he 10:08:55AM says that he made the decision as the Minister of 10:09:01AM the Environment. 10:09:04AM He says: 10:09:05AM "I understand the 10:09:06AM Claimant has alleged the 10:09:07AM deferral decision was 10:09:08AM made by the Premier's 10:09:09AM Office. That's not true. 10:09:10AM As explained above, I 10:09:11AM made the decision as the 10:09:12AM Minister of the 10:09:14AM Environment, a decision 10:09:14AM Environment, a decision 10:09:14AM that was supported by my 10:09:15AM

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	and policies in 10:08:00AM collaboration with the 10:08:00AM Great Lakes states. 10:08:00AM "The preferred option 10:08:03AM will also involve 10:08:05AM discussions with the 10:08:05AM developer of the Wolfe 10:08:05AM Island Shoals project 10:08:08AM such that the project 10:08:08AM won't proceed until the 10:08:09AM science and uniform rules 10:08:10AM and policies have been 10:08:11AM developed." 10:08:12AM So I emphasize, again, that 10:08:12AM all the way through this and remember that our 10:08:14AM that our complaint is is the combination of 10:08:16AM the moratorium and the failure of the government 10:08:21AM to do what it said it was going to do with respect 10:08:21AM to the Windstream project. And throughout all of 10:08:23AM this, you see that there is a government intent to 10:08:25AM treat the Wolfe Island Shoals differently. And, 10:08:28AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	And just briefly we highlight 10:08:46AM this, again, was a was a statement that 10:08:48AM Minister Wilkinson said in his witness statement 10:08:53AM that accompanied the Counter-Memorial. His he 10:08:55AM says that he made the decision as the Minister of 10:09:01AM the Environment. 10:09:04AM He says: 10:09:05AM "I understand the 10:09:06AM Claimant has alleged the 10:09:07AM deferral decision was 10:09:08AM made by the Premier's 10:09:09AM Office. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	and policies in 10:08:00AM collaboration with the 10:08:00AM Great Lakes states. 10:08:00AM "The preferred option 10:08:03AM will also involve 10:08:05AM discussions with the 10:08:05AM developer of the Wolfe 10:08:05AM Island Shoals project 10:08:08AM such that the project 10:08:08AM won't proceed until the 10:08:10AM and policies have been 10:08:11AM developed." 10:08:12AM So I emphasize, again, that 10:08:12AM all the way through this and remember that our 10:08:14AM that our complaint is is the combination of 10:08:16AM to do what it said it was going to do with respect 10:08:21AM to the Windstream project. And throughout all of 10:08:23AM this, you see that there is a government intent to 10:08:25AM treat the Wolfe Island Shoals differently. And, 10:08:28AM here, the project won't proceed until the science 10:08:32AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	And just briefly we highlight 10:08:46AM this, again, was a was a statement that 10:08:48AM Minister Wilkinson said in his witness statement 10:08:53AM that accompanied the Counter-Memorial. His he 10:08:55AM says that he made the decision as the Minister of 10:09:01AM the Environment. 10:09:04AM He says: 10:09:05AM "I understand the 10:09:06AM Claimant has alleged the 10:09:07AM deferral decision was 10:09:08AM made by the Premier's 10:09:10AM As explained above, I 10:09:11AM made the decision as the 10:09:12AM Minister of the 10:09:14AM Environment, a decision 10:09:14AM Environment, a decision 10:09:15AM colleagues at the 10:09:17AM Ministries of Natural 10:09:18AM Resources and Energy." 10:09:19AM So that was his statement 10:09:20AM before we received these documents, and, of 10:09:21AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	and policies in 10:08:00AM collaboration with the 10:08:00AM Great Lakes states. 10:08:00AM "The preferred option 10:08:03AM will also involve 10:08:05AM discussions with the 10:08:05AM developer of the Wolfe 10:08:05AM Island Shoals project 10:08:08AM such that the project 10:08:08AM won't proceed until the 10:08:10AM and policies have been 10:08:11AM developed." 10:08:12AM So I emphasize, again, that 10:08:12AM all the way through this and remember that our 10:08:14AM that our complaint is is the combination of 10:08:16AM to do what it said it was going to do with respect 10:08:21AM to the Windstream project. And throughout all of 10:08:23AM this, you see that there is a government intent to 10:08:25AM treat the Wolfe Island Shoals differently. And, 10:08:23AM here, the project won't proceed until the science 10:08:32AM and rules have been developed, so so the clear 10:08:34AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	And just briefly we highlight 10:08:46AM this, again, was a was a statement that 10:08:48AM Minister Wilkinson said in his witness statement 10:08:53AM that accompanied the Counter-Memorial. His he 10:08:55AM says that he made the decision as the Minister of 10:09:01AM the Environment. 10:09:04AM He says: 10:09:05AM "I understand the 10:09:06AM Claimant has alleged the 10:09:07AM deferral decision was 10:09:08AM made by the Premier's 10:09:09AM Office. That's not true. 10:09:10AM As explained above, I 10:09:11AM made the decision as the 10:09:12AM Minister of the 10:09:14AM Environment, a decision 10:09:14AM that was supported by my 10:09:15AM colleagues at the 10:09:17AM Ministries of Natural 10:09:18AM Resources and Energy." 10:09:19AM So that was his statement 10:09:20AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	and policies in 10:08:00AM collaboration with the 10:08:00AM Great Lakes states. 10:08:00AM "The preferred option 10:08:03AM will also involve 10:08:05AM discussions with the 10:08:05AM developer of the Wolfe 10:08:05AM Island Shoals project 10:08:08AM such that the project 10:08:08AM won't proceed until the 10:08:10AM and policies have been 10:08:11AM developed." 10:08:12AM So I emphasize, again, that 10:08:12AM all the way through this and remember that our 10:08:14AM that our complaint is is the combination of 10:08:16AM to do what it said it was going to do with respect 10:08:21AM to the Windstream project. And throughout all of 10:08:23AM this, you see that there is a government intent to 10:08:25AM treat the Wolfe Island Shoals differently. And, 10:08:28AM here, the project won't proceed until the science 10:08:32AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	And just briefly we highlight 10:08:46AM this, again, was a was a statement that 10:08:48AM Minister Wilkinson said in his witness statement 10:08:53AM that accompanied the Counter-Memorial. His he 10:08:55AM says that he made the decision as the Minister of 10:09:01AM the Environment. 10:09:04AM He says: 10:09:05AM "I understand the 10:09:06AM Claimant has alleged the 10:09:07AM deferral decision was 10:09:08AM made by the Premier's 10:09:09AM Office. That's not true. 10:09:10AM As explained above, I 10:09:11AM made the decision as the 10:09:14AM Environment, a decision 10:09:14AM Environment, a decision 10:09:14AM that was supported by my 10:09:15AM colleagues at the 10:09:17AM Ministries of Natural 10:09:18AM Resources and Energy." 10:09:19AM So that was his statement 10:09:20AM before we received these documents, and, of 10:09:21AM course, we'll have to see what he says in terms of 10:09:24AM

	Page 72
1	issue about the Premier's Office e-mails, because 10:09:35AM
2	the Tribunal will remember the issues we had with 10:09:37AM
3	respect to that. 10:09:39AM
4	This is from a report by the 10:09:41AM
5	Information and Privacy Commissioner, and she is 10:09:44AM
6	discussing her investigation or complaints 10:09:46AM
7	received to her with respect to deletion of 10:09:51AM
8	e-mails in relation to the a project that's not 10:09:55AM
9	related to Windstream but is related to the 10:10:00AM
10	TransCanada project at the time, which we will 10:10:03AM
11	come to. 10:10:06AM
12	And she says: 10:10:07AM
13	"While I cannot state 10:10:07AM
14	with certainty that there 10:10:09AM
15	was an inappropriate 10:10:10AM
16	deletion of e-mails by 10:10:11AM
17	the former Premier's 10:10:12AM
18	staff, it is difficult to 10:10:14AM
19	escape that conclusion." 10:10:16AM
20	Certainly, our our 10:10:18AM
21	perspective, given the interactions we've had with 10:10:19AM
22	Canada - Canada's counsel on this file, is that 10:10:28AM
23	there there certainly were documents in the 10:10:30AM
24	Premier's Office that were deleted. It's hard - 10:10:31AM
25	difficult to know, I think, for either side, you 10:10:34AM

	8
know, how many of those documents might h	nave 10:10:36AM
related to this case, and and we're not	10:10:37AM
alleging that there was a particular effort to	10:10:41AM
delete documents for this case, just that it	10:10:43AM
appears to be the case that there were deletion	ns 10:10:46AM
and that there may well have been documents	in 10:10:49AM
this case. 10:10:5	52AM
We certainly know that we	10:10:52AM
don't have documents that were just any	10:10:53AM
documents or texts or other information from	10:10:55AM
Premier's Office officials to other Premier's	10:10:58AM
Office officials. 10:11	:01AM
So with respect to the adverse	10:11:02AM
inference here, what we're asking for is that the	he 10:11:03AM
deleted documents - we say the adverse infe	rence 10:11:06AM
is the deleted documents would have further	10:11:08AM
established the Premier's Office directed the	10:11:10AM
adoption of the moratorium. And they would	have 10:11:12AM
further established the moratorium was motiv	rated 10:11:14AM
by concerns over costs and public opposition	or 10:11:17AM
other issues. 10:11:	20AM
Of course, we don't know what	10:11:20AM
they would say, but we think it's reasonable to	o 10:11:22AM
assume that there were documents from the	10:11:26AM
Premier's Office with respect to these issues.	10:11:29AM

	Page 84		Page 85

2	exercise any rights and 10:20:53AM	2	made. And TCA was kept whole through a set of 10:22:02AM
3	remedies at any time and 10:20:55AM	3	negotiations. 10:22:08AM
4	from time to time. 10:20:56AM	4	You can see here the Ministry 10:22:10AM
5	So very clear here that the 10:20:56AM	5	of Energy announced the OPA had reached an 10:22:14AM
6	OPA is not in a mood to extend or to facilitate 10:20:57AM	6	agreement with TransCanada to build and operate a 10:22:16AM
7	extension here. But it's very clear that it will 10:21:03AM	7	generation facility. And there were also damages 10:22:18AM
8	rely on its rights to terminate the contract once 10:21:04AM	8	paid as part of that agreement. And then we see 10:22:25AM
9	force majeure has expired. 10:21:08AM	9	here very clearly this is this is JoAnne 10:22:27AM
10	And you'll know that we, in 10:21:10AM	10	Butler of the OPA. She has explained what the 10:22:29AM
11	our submissions, have compared this treatment to 10:21:14AM	11	instructions were. 10:22:34AM
12	the treatment that Ontario gave to TransCanada. 10:21:16AM	12	The instructions basically 10:22:35AM
13	And these slides show, in our submission and I 10:21:19AM	13	were, the commitments that the government had made 10:22:36AM
14	think it's very clear from the public record 10:21:22AM	14	with TransCanada, prior to letting the OPA know, 10:22:38AM
15	that, in those cases, as a result of discussions 10:21:24AM	15	were basically outlined in the letter that the OPA 10:22:40AM
16	with the Premier's Office and others, that the 10:21:27AM	16	wrote to TransCanada, because we had the contract 10:22:42AM
17	that the Premier's Office was able to ensure that 10:21:31AM	17	which basically said, "We're going to work 10:22:44AM
18	the OPA, in that case, because of the cancellation 10:21:33AM	18	together to come up with a new proposal and that 10:22:47AM
19	of contracts that it had resulted, just prior to 10:21:37AM	19	you would get the financial value of your 10:22:50AM
20	the Ontario election, that the OPA the 10:21:41AM	20	contract." 10:22:51AM
21	Premier's Office ensured that the OPA kept the 10:21:44AM	21	So in our submission, in that 10:22:52AM
22	commitment to keep TransCanada whole. 10:21:47AM	22	particular case, it's very clear that the OPA, on 10:22:54AM
23	And you will see there the 10:21:52AM	23	instructions from the government, carries out the 10:22:57AM
24	Premier's Office made its commitment to keep TCA 10:21:54AM	24	steps to keep TransCanada, the company in that 10:23:01AM
25	whole. The OPA confirmed with the Premier's 10:21:58AM	25	case, whole. And as we argue in this case, that's 10:23:05AM

Page 88 15 --- CONFIDENTIAL END 10:25:59AM 16 MR. TERRY: And just to 10:26:08AM 17 contrast this, throughout this period, Windstream 10:26:08AM 18 is making proposals to whoever it can reach in the 10:26:10AM 19 government -- the Premier's office, various 10:26:13AM 20 agencies -- saying, "Let us do the studies. We 10:26:15AM 21 can do the studies. We want to proceed with 10:26:17AM

this," and, again, in direct contrast to the

apparent lack of interest in the government in

pursuing the studies they had talked about

And you can see some 10:26:31AM description of the nature of the studies that were 10:26:37AM being discussed here by Windstream. 10:26:38AM So I want to pause on this 10:26:41AM slide, which -- which sets out why our submission 10:26:49AM is that the project is now worthless. And it's 10:26:54AM important, again, to keep in mind this force 10:26:59AM majeure provision, which allows the -- you 10:27:02AM remember the contract is -- the basic timelines 10:27:05AM are that you -- you have a certain period of time 10:27:09AM to start after you signed the FIT contract to get 10:27:12AM the project done. There is an idea -- there's a 10:27:16AM milestone COD. 10:27:20AM 10:27:24AM And then -- and in this particular case, since the project had started, 10:27:26AM the FIT contract date where it had been, it was 10:27:28AM deemed to be the date when the offer was -- was 10:27:32AM May 4, 2010. You count five years after that to 10:27:34AM the COD date when it's supposed to come up in 10:27:40AM commercial operation. You then have an additional 10:27:43AM buffer there after that where you can still start 10:27:46AM the project after that date, but you have to pay 10:27:48AM certain penalties if you do that. But you have a 10:27:51AM total of 18 months of buffer. 10:27:54AM But importantly you also have 10:27:56AM

this force majeure. So if there is various events 10:27:58AM that occurred, force majeure events, you can also 10:28:00AM extend your timeline under the FIT contract by a 10:28:03AM total of 24 months. 10:28:07AM Now, in this particular case, 10:28:10AM there's an automatic force majeure which the OPA 10:28:11AM grants for an appeal of an environmental -- of a 10:28:14AM REA decision. So when the Ministry of Environment 10:28:20AM approves the REA, there's an automatic right of 10:28:22AM appeal, if a citizen wants to bring a right of 10:28:24AM appeal. That happens in most projects, so there's 10:28:28AM been an automatic six months there. And that 10:28:30AM means you use up six months of your 24 months of 10:28:33AM force majeure. So you are left with 18 months. 10:28:36AM Now, in this case, the project 10:28:38AM was put into force majeure. The OPA granted force 10:28:40AM majeure as of November 22, 2010. So what happens 10:28:43AM here is you click by. Once you get past this 10:28:46AM date, May 22, 2012, you've got no more force 10:28:51AM majeure left. So the force majeure that you would 10:28:56AM have, normally the six months for the ERT appeal, 10:28:59AM 10:29:02AM has expired. So at that point the project 10:29:04AM is not financeable and cannot proceed, and that's 10:29:06AM

why we fix on that date of May 22, 2012. And you 10:29:09AM

pursuing when they put into place the moratorium. 10:26:29AM

10:29:13AM can see this in the report of Deloitte. They -they explain this date, and they say: 10:29:19AM "Without an enforceable 10:29:20AM contract, the project, 10:29:21AM the FIT contract, and 10:29:22AM Windstream became 10:29:24AM substantially worthless 10:29:25AM as of May 22, 2012...and 10:29:25AM it continues to remain 10:29:29AM 10:29:31AM substantially worthless." Now we get to the NAFTA 10:29:39AM breaches. And as I --10:29:41AM PRESIDENT: Mr. Terry, please 10:29:50AM let us know when would be a convenient time to 10:29:51AM break. We could have a break in the middle of 10:29:53AM your presentation or at the end. 10:29:56AM MR. TERRY: We could break 10:29:57AM right now. By my timing, I have somewhere maybe 10:29:58AM just over 40 minutes left. I don't know the exact 10:30:01AM time. But we could break now. That would be 10:30:04AM 10:30:05AM PRESIDENT: Okay. 3	PRESIDENT: Okay. Welcome. 10:47:58AM	3	we say. And I think everyone on this side agrees 10:49:10AM
4	Welcome back. 10:47:59AM	4	that the project now, once that force majeure is 10:49:14AM
5	Mr. Terry, please go on. 10:48:00AM	5	used up, is not no longer has value. 10:49:17AM
6	MR. TERRY: Thank you, 10:48:03AM	6	Now, in this particular case, 10:49:19AM
7	Mr. President. So if I could start this section 10:48:04AM	7	we explain why the failure to freeze the FIT 10:49:23AM
8	about the NAFTA breaches with the events. So 10:48:07AM	8	contract is attributable to Canada. 10:49:26AM
9	we've got in this particular case, the sequence 10:48:11AM	9	First of all, it's a failure 10:49:29AM
10	is the moratorium does apply to the project. Now, 10:48:14AM	10	of the Ministry of the Energy. The Ministry of 10:49:32AM
11	of course, it's stated at the time in February 10:48:19AM	11	Energy promised that the FIT contract would be 10:49:36AM
12	2011 when it's announced that Windstream will be 10:48:23AM	12	"frozen," and we see that both in the internal 10:49:37AM
13	frozen. So to that extent, the intent, you know, 10:48:28AM	13	e-mails that led to the to the statement and in 10:49:41AM
14	there seems to be evidence that the intent was not 10:48:32AM	14	the statement itself. 10:49:46AM
15	to have a bite at the project. It becomes applied 10:48:37AM	15	We see MEI's involvement, 10:49:47AM
16	to the project when the promise to freeze is not 10:48:40AM	16	Ministry of Energy, when they approve OPA's 10:49:50AM
17	implemented. 10:48:42AM	17	counteroffer to Windstream and how meetings with 10:49:52AM
18	The actual when the force 10:48:43AM	18	OPA about negotiations with Windstream. So, 10:49:55AM
19	majeure time is used up and remember that, in 10:48:44AM	19	again, MEI is involved. 10:49:57AM
20	the case of force majeure, once the 24 months 10:48:46AM	20	We also see energy's 10:49:59AM
21	once the project has exceeded its particular 10:48:48AM	21	involvement here in their failure because they 10:50:01AM
22 23	timeline and used up all its force majeure time of 10:48:54AM	22	exercise both formal and informal control over the 10:50:04AM
24	the 24 months, it's is clear then that the OPA is 10:49:00AM entitled to terminate the contract. That's why 10:49:02AM	24	OPA. And that's set out in more detail in our 10:50:06AM
25	entitled to terminate the contract. That's why 10:49:02AM the force majeure is so key. 10:49:05AM	25	in our materials, but the reality is that that 10:50:10AM we see this both in the legislation where there is 10:50:13AM
	the force inagenic is so key.	25	we see this both in the registation where there is 10.50.157441

And the same with respect to justify the expropriation. And the same with respect to 11:00:00AM you'll recall the statement in the ADM case about looking at legitimate expectations in the 11:00:06AM context of expropriation, and Canada appears to be 11:00:09AM making an argument in their rejoinder that that it's important that somehow an expropriation can justified if the investor does not have justified if the investor does not have And, again, we argue that the 11:00:26AM moratorium and the failure to freeze is contrary to Windstream's legitimate expectations, contrary to the commitment to freeze the FIT contract, express commitment, contrary to the investor 11:00:38AM certainty commitments, contrary to the commitment 11:00:41AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	supported the project. And, again, I have to 11:00:49AM emphasize that, when the Tribunal's examining this 11:00:50AM expropriation issue, you have to look not only at 11:00:53AM arguments Canada makes about how the moratorium 11:00:56AM might have — or the deferral might have been justified, you know, but how it is that they could justify not freezing the Windstream project and how that would fit with the public purpose of protecting the environment. 11:01:08AM 1105, and the Tribunal is 11:01:10AM aware, and we have seen from your questions, which 11:01:21AM about the 1105 concepts and the FTC note of interpretation, customary international law, minimum standards. They 11:20:18AM assumed that that's the point that the project 11:20:22AM would restart in the but-for world. But they 11:20:25AM don't include they take out the 16 months of 11:20:27AM force majeure because, of course, it was all used 11:20:34AM up by that point, but Canada doesn't put it back in. They don't put Windstream in the place it 11:20:38AM would have been but-for the moratorium. 11:20:41AM So that's the point we make on 11:20:43AM the left-hand side there. All available force 11:20:44AM majeure time is used up before the project 11:20:49AM It's also, in our submission, 11:20:49AM	moratorium only after 16 months, so not consistent 11:20: with reasonable assumptions. 11:20:59AM And it's important to see that 11:21:01AM BRG and Green Giraffe both agree that Canada's 11:21: but-for scenario would lead to certain project 11:21:09. failure. And why is it? We see this excerpt from 11:21:1 the URS reports: 11:21:12AM "URS considers this 11:21:14AM schedule, Canada's one 11:21:15AM and BRG's one, to be 11:21:16AM unrealistic since both 11:21:17AM investors and lenders 11:21:19AM would not be willing to 11:21:20AM accept the proposed 11:21:21AM timeline. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	The crucial and I want to 11:19:53AM emphasize this. If you look at the orange 11:19:55AM version, there's also an additional 16 months of 11:19:59AM force majeure that's available under this 11:20:02AM scenario. And that's consistent with what was 11:20:04AM available at the time at which the moratorium was 11:20:06AM put into place. There was 16 months left, because 11:20:08AM you will recall what happens is that moratorium 11:20:11AM time gets used up by May. 11:20:14AM The problem with Canada's 11:20:16AM but-for scenario, they started on May 2012. They 11:20:18AM assumed that that's the point that the project 11:20:22AM would restart in the but-for world. Mr. President, members of the Tribunal, it 11:50:04AM is telling that this morning Mr. Terry spent, in 11:50:06AM	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Canada has extensively set out 11:50:26AM these legal standards in its submissions, and today I will focus only on a few key points. 11:50:33AM First I will address the 11:50:38AM nature of the non-discriminatory obligation under 11:50:39AM Articles 1102 and 1103. 11:50:42AM Second, I will comment on the 11:50:45AM applicable legal analysis for an indirect 11:50:48AM expropriation under Article 1110. 11:50:52AM And, third, I will comment on 11:50:55AM the proper standard to be applied under Article 11:50:57AM 1105, and in doing so, I will address the 11:51:02AM Tribunal's questions. 11:51:04AM Before I start, I want to 11:51:06AM emphasize that Canada's position on the proper 11:51:11AM interpretation of these articles is consistent 11:51:17AM arbitration as well as the interpretation given by 11:51:21AM the other NAFTA parties. 11:51:23AM
7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	declined the OPA's offer, demanding instead to rewrite the standard form FIT contract that it had 11:47:40AM with the OPA. And here we are today. 11:47:43AM That concludes my introduction 11:47:47AM to the case. I would like to turn now to 11:47:50AM Ms. Tabet to provide you an introduction of the 11:47:52AM law at issue. 11:47:54AM OPENING STATEMENT BY MS. TABET: 11:47:57AM Ms. Tabet. 11:47:57AM Ms. Tabet. 11:47:57AM Ms. Tabet. 11:47:59AM [Reporter's note: Technical problems re 11:48:37AM realtime feed.] 11:50:02AM PRESIDENT: Let's go. 11:50:02AM Ms. Tabet. 11:50:03AM MS. TABET: Sure. Thank 11:50:04AM you. Mr. President, members of the Tribunal, it 11:50:04AM	6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Canada has extensively set out 11:50:26AM these legal standards in its submissions, and today I will focus only on a few key points. 11:50:33AM First I will address the 11:50:38AM nature of the non-discriminatory obligation under 11:50:39AM Articles 1102 and 1103. 11:50:42AM Second, I will comment on the 11:50:45AM applicable legal analysis for an indirect 11:50:48AM expropriation under Article 1110. 11:50:55AM And, third, I will comment on 11:50:55AM the proper standard to be applied under Article 11:50:57AM 1105, and in doing so, I will address the 11:51:02AM Tribunal's questions. 11:51:04AM Before I start, I want to 11:51:06AM emphasize that Canada's position on the proper 11:51:11AM interpretation of these articles is consistent 11:51:17AM arbitration as well as the interpretation given by 11:51:21AM

12	So, here, the Article 1128 11:51:44AM	12	have been referred to by Mr. Terry, and they're 11:53:11AM
13	submissions of the United States and of Mexico and 11:51:48AM	13	well established, and they have been agreed to by 11:53:13AM
14	Canada's reply to these submissions clearly 11:51:51AM	14	the NAFTA parties. 11:53:17AM
15	provide evidence of a common shared interpretation 11:51:55AM	15	So I won't go through them 11:53:18AM

17	should give them significant weight. 11:52:00AM	17	elaborate further later, the Claimant has not met 11:53:22AM
18	Previous NAFTA Tribunals, like 11:52:02AM	18	the burden of establishing all three necessary 11:53:26AM

1 2	object of the taking of the alleged taking. 11:53:59AM	1 2	is the impact of the measure on the investment. 11:55:16AM But the Claimant would have the analysis stop 11:55:18AM
3	So the Tribunal must consider 11:54:02AM the nature and the scope of the investment that is 11:54:04AM	3	But the Claimant would have the analysis stop here. That is inconsistent with customary 11:55:21AM
4	alleged to have been expropriated, and a right 11:54:06AM	4	international law on expropriation. 11:55:26AM
5	that is only potential or speculative cannot be 11:54:15AM	5	It is also inconsistent with 11:55:30AM

7	Now, Mr. Terry recognized this 11:54:20AM	7	constitutes indirect expropriation under Article 11:55:36AM

Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM	13 14	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM
13 14 15	FTT contract until those relevant permits were obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the project, let alone that it has been expropriated. And Mr. Neufeld will come back of the hat in his comments later on this afternoon. 11:54:48AM	13 14 15 16	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM
13 14 15 16 17 18	FTT contract until those relevant permits were obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM	13 14 15 16 17	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM

Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM satisfied that there is a right that can be 11:54:55AM	13 14 15 16 17 18	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM
13 14 15 16 17 18	FTT contract until those relevant permits were obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM	13 14 15 16 17 18 19	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM commitment not to regulate offshore wind or 11:56:17AM
13 14 15 16 17 18 19	FTT contract until those relevant permits were 11:54:33AM obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM satisfied that there is a right that can be 11:54:55AM expropriated, several factors must be considered 11:54:57AM to determine whether this is indeed an indirect 11:55:00AM	13 14 15 16 17 18 19 20	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM commitment not to regulate offshore wind or 11:56:17AM further develop setbacks and whether there was a 11:56:20AM
13 14 15 16 17 18 19 20 21	FTT contract until those relevant permits were 054:33AM obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM satisfied that there is a right that can be 11:54:57AM expropriated, several factors must be considered 11:54:57AM to determine whether this is indeed an indirect 11:55:00AM expropriation or if it's only the legitimate 11:55:03AM	13 14 15 16 17 18 19 20 21	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM commitment not to regulate offshore wind or 11:56:17AM further develop setbacks and whether there was a 11:56:20AM commitment not that the Claimant did not have 11:56:24AM

Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM satisfied that there is a right that can be 11:54:57AM expropriated, several factors must be considered 11:55:00AM expropriation or if it's only the legitimate 11:55:03AM	13 14 15 16 17 18 19 20 21 22	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM commitment not to regulate offshore wind or 11:56:17AM further develop setbacks and whether there was a 11:56:20AM
13 14 15 16 17 18 19 20 21 22 23	FTT contract until those relevant permits were 11:54:33AM obtained. Therefore, the Claimant cannot claim it 11:54:36AM has a right to these revenue streams or to the 11:54:39AM project, let alone that it has been expropriated. 11:54:43AM And Mr. Neufeld will come back 11:54:46AM to that in his comments later on this afternoon. 11:54:48AM So but if the Tribunal is 11:54:51AM satisfied that there is a right that can be 11:54:55AM expropriated, several factors must be considered 11:55:00AM expropriation or if it's only the legitimate 11:55:03AM exercise of police powers by the state. 11:55:06AM	13 14 15 16 17 18 19 20 21 22 23	Contrary to what the Claimant argues, interference 11:55:59AM with the expectation itself is not a breach of the 11:56:02AM treaty. It is only one of the relevant 11:56:05AM considerations in the context of an indirect 11:56:08AM expropriation analysis. 11:56:11AM So the Tribunal would have to 11:56:12AM consider whether, for example, there was a 11:56:15AM commitment not to regulate offshore wind or 11:56:17AM further develop setbacks and whether there was a 11:56:20AM commitment not that the Claimant did not have 11:56:24AM to go through the permitting process. But, in 11:56:27AM

10	and applied to protect legitimate public welfare 11:57:08AM	10	my presentation will be with respect to the 11:58:29AM
11	objectives, such as the environment, do not 11:57:11AM	11	fundamental errors that the Claimant adopted in 11:58:31AM
12	constitute indirect expropriations except in rare 11:57:13AM	12	its approach on this article. 11:58:35AM
13	circumstances. 11:57:18AM	13	Article 1105 guarantees 11:58:38AM
14	Now, the reference to 11:57:19AM	14	investors the customary international law minimum 11:58:44AM
15	proportionality in the Tecmed case that Mr. Terry 11:57:20AM	15	standard of treatment with respect to the 11:58:49AM
16	pointed to has been heavily criticized as 11:57:24AM	16	treatment of foreigners and this and their 11:58:49AM
17	inappropriately borrowing from the ECA 11:57:27AM	17	property. And this was definitely determined by 11:58:52AM
18	jurisprudence. And rather, as is set out in the 11:57:33AM	18	the Free Trade Commission 2001 Note of 11:58:55AM
19	NAFTA parties' subsequent agreement, in TPP, the 11:57:36AM	19	Interpretation. And that has also been recognized 11:58:59AM
20	analysis is much more general and should amount 11:57:39AM	20	by every NAFTA Tribunal since the note was issued. 11:59:01AM
21	to only in very rare circumstances are these 11:57:44AM	21	So to answer the Tribunal's 11:59:04AM
22	type of legislations an expropriation. 11:57:48AM	22	question, the Note of Interpretation leaves really 11:59:07AM
23	So, in summary, and to 11:57:51AM	23	no space for a Tribunal to construe the meaning of 11:59:11AM
24	conclude, the NAFTA does not require governments 11:57:53AM	24	the words "fair and equitable treatment" as an 11:59:13AM

According to Article 11:59:48AM 38(1)(b) of the statute of the ICJ, custom has two 11:59:57AM elements. The first element requires 12:00:00PM consideration of whether there is an extensive, uniform, consistent general practice by states. And the second refers to the state's belief that such practice is required by law, which is the element that is generally referred to as the 12:00:13PM element that is generally referred to as the 12:00:22PM this double requirement to identifying whether a 12:00:23PM rule of customary international law exists. 12:00:26PM 12:00:26PM 12:00:26PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Tribunal considered the prevalence of domestic competition legislation in various legal systems around the world, the scope and nature of that legislation, and whether the legislation was 12:00:53PM adopted out of a sense of legal obligation. 12:00:58PM It also looked to the WTO 12:00:58PM framework to see if there were any general rules 12:01:02PM prohibiting anti-competitive behaviour. 12:01:06PM And ultimately because of the 12:01:08PM lack of conformity in the domestic competition law 12:01:10PM and the lack of a opinio juris, the UPS Tribunal 12:01:12PM concluded that there was simply no rule 12:01:15PM prohibiting anti-competitive conduct at customary 12:01:18PM international law. 12:01:23PM Now, the Tribunal asked 12:01:24PM whether the content of the standard depends upon 12:01:32PM the general consensus of most states or whether 12:01:32PM that is regional only and, specifically, whether 12:01:39PM the standard referred to is based upon a general 12:01:45PM 12:01:45PM consensus of most states or only of the NAFTA 12:01:48PM

And, instead, what the parties invite the Tribunal to do is to look at the content of the standard at customary international law. So in light of the Tribunal's 11:59:33AM customary international law. So in light of the Tribunal's 11:59:39AM task, it is useful to recall how custom is established, who bears the burden of proof, and 38(1)(b) of the statute of the ICJ, custom has two 11:59:45AM what this means in practice. According to Article 11:59:48AM 38(1)(b) of the statute of the ICJ, custom has two 11:59:57AM elements. A good example is in the UPS 12:00:35PM Tribunal's consideration of whether the minimum 12:00:35PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Tribunal considered the prevalence of domestic competition legislation in various legal systems around the world, the scope and nature of that legislation, and whether the legislation was adopted out of a sense of legal obligation. 12:00:53PM 12:00:53PM 12:00:56PM 12:00:58PM 12:00:58PM 12:01:02PM 12:01:06PM 12:01:06PM 12:01:06PM 12:01:06PM 12:01:06PM 12:01:08PM 12:01:10PM 12:01:10PM 12:01:10PM 12:01:10PM 12:01:12PM 12:01:15PM 12:01:15PM 12:01:15PM 12:01:15PM 12:01:15PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:23PM 12:01:32PM 12:01:34PM 12:01:44PM 12:01:52PM

5	to show the specific and actual consent of Canada 12:02:15PM	5	The Cargill Tribunal also 12:03:21PM
6	to a rule or in the formation of a general custom, 12:02:18PM	6	recognized that the proof of change in a custom is 12:03:23PM
7	nevertheless the fact that many states, including 12:02:21PM	7	not an easy matter to establish. However, as the 12:03:26PM
8	the NAFTA parties, object to a rule such as 12:02:24PM	8	Tribunal said, the burden of doing so clearly 12:03:29PM
9	legitimate expectation is certainly a strong 12:02:27PM	9	falls on the Claimant. If the Claimant does not 12:03:33PM
10	indication that such rules have not crystallized 12:02:30PM	10	provide the Tribunal with the proof of such 12:03:36PM
11	into custom. 12:02:33PM	11	evolution, it is not the place of the Tribunal to 12:03:38PM
12	Now, I have addressed what is 12:02:34PM	12	assume this task. Rather, the Tribunal in such an 12:03:42PM
13	required to establish the content. Let me say a 12:02:37PM	13	instance should hold that the Claimant fails to 12:03:49PM
14	few words about who bears the burden. And the 12:02:40PM	14	establish the particular standard asserted. 12:03:53PM
15	Tribunal has asked whether both parties bear the 12:02:45PM	15	So, again, here the Claimant 12:03:59PM
16	burden of proving their affirmative assertions as 12:02:48PM	16	bears the burden of proving that custom has 12:04:01PM
17	to the content of the standard. 12:02:52PM	17	changed to include certain rules that it inserts 12:04:03PM
18	As the International Court of 12:02:54PM	18	such as legitimate expectation. 12:04:06PM
19	Justice and scholars and the NAFTA parties all 12:02:56PM	19	Now this brings me to the 12:04:08PM
20	agree, and Tribunals have confirmed, the burden of 12:02:59PM	20	content of the standard, and the Tribunal has 12:04:11PM
21	proving a rule rests on the party that alleges it, 12:03:03PM	21	asked whether it is bound by the parties' position 12:04:14PM
22	and specifically so in the context of customary 12:03:05PM	22	on that content. 12:04:16PM
23	international law. 12:03:10PM	23	Interpreting 1105 is a 12:04:17PM
24 25	In the words of the NAFTA 12:03:11PM	24	question of law, of course, and, therefore, the 12:04:22PM
23	Cargill Tribunal: 12:03:12PM	23	Tribunal is not strictly bound by the parties' 12:04:24PM
	Page 154		Page 155
1	position in this arbitration. However, certainly 12:04:27PM	1	the origin of the standard. 12:05:46PM
2	the statement of Canada and those of other NAFTA 12:04:31PM	2	Now, to clarify, Canada's 12:05:47PM
3	parties as to the content of the standard are 12:04:34PM	3	position what what can be shown in in the 12:05:51PM
4	relevant as they constitute state practice. 12:04:37PM	4	standards that I just referred to is that the 12:05:56PM
5	Moreover, the Tribunal is bound by the record 12:04:41PM	5	types of standards that have crystallized into 12:06:00PM
6	before it, and the Claimant has not adduced any 12:04:44PM	6	custom are the type of a certain type of 12:06:03PM
7	evidence of state practice and the opinio juris 12:04:47PM	7	egregious conduct. 12:06:06PM
8	necessary to support its allegation regarding the 12:04:51PM	8	And while Canada's position is 12:06:08PM
9	content of that standard. 12:04:54PM	9	not that egregious is the standard for a minimum 12:06:10PM
10	So what is the content then? 12:04:56PM	10	standard of treatment, in the abstract, it's 12:06:15PM
11 12	The United States has referred 12:04:59PM	11	certainly an indication of the type of conduct 12:06:17PM
13	to it as an umbrella concept reflecting a 12:05:00PM different set of rules that, over time, have 12:05:03PM	13	that have crystallized into rules of customary international law vis-à-vis the protection of 12:06:21PM
14	crystallized into custom in specific content 12:05:06PM	14	foreigners and their property. 12:06:26PM
15	contexts, sorry. 12:05:09PM	15	So, for example, the Tribunal 12:06:28PM
16	The OECD and UNCTAD have 12:05:09PM	16	has asked whether bad faith is required, and while 12:06:38PM
17	recently attempted to identify this content, and 12:05:15PM	17	bad faith will often be present in the types of 12:06:42PM
18	what they concluded was that it applied in certain 12:05:18PM	18	extreme conduct that will breach the minimum 12:06:45PM
19	contexts like administration of justice cases 12:05:21PM	19	standard of treatment, it will not always be the 12:06:48PM
20	involving foreign nationals usually linked to 12:05:25PM	20	case. 12:06:50PM
21	denial of justice, treatment of aliens under 12:05:28PM	21	The Tribunal then has posited 12:06:51PM
22	detention and full protection and security. And 12:05:32PM	22	whether conduct that surprises the judicial mind 12:07:01PM
23	they also later noted that this led to the 12:05:37PM	23	would be sufficient. And I think that language is 12:07:04PM
24	development of a rule providing for compensation 12:05:39PM	24	taken from a context where the where a 12:07:08PM
25	in case of expropriation, which was very much at 12:05:42PM	25	particular Tribunal was looking at the minimum 12:07:11PM

	Page 156		Page 157
1	standard of treatment in relation to a court 12:07:14PM	1	note that a number of NAFTA Tribunals have 12:08:32PM
2	decision. And, really, the answer to that 12:07:18PM	2	suggested that a certain level of arbitrariness 12:08:35PM
3	question will depend on the nature and the context 12:07:21PM	3	would form part of the standard, but really none 12:08:38PM
4	of the governmental action at issue and where it's 12:07:24PM	4	of these Tribunals have looked at what constitute 12:08:41PM
5	the type of measure. Is it a court measure or 12:07:28PM	5	or have done a proper analysis of state practice 12:08:43PM
6	a government measure? But it is important not to 12:07:31PM	6	and opinio juris to identify any content to that 12:08:46PM
7	turn the minimum standard of treatment into a 12:07:33PM	7	rule. 12:08:50PM
8	mechanism for judicial review of the type that 12:07:35PM	8	And whether or not the 12:08:51PM
9	domestic courts would undertake. 12:07:39PM	9	prohibition against a general prohibition 12:08:53PM
10	So, to conclude, the nature of 12:07:41PM	10	against arbitrary conduct falls outside of 12:08:56PM
11	the standard as a floor, because it is a minimum 12:07:44PM	11	expropriation, for example, where it originates, 12:09:00PM
12	standard, means that government action must meet a 12:07:48PM	12	whether this has crystallized into a custom or has 12:09:03PM
13	very high threshold for a breach to be 12:07:51PM	13	yet to crystallize, what is very clear is that it 12:09:06PM
14	established. But to establish the content of the 12:07:53PM	14	should not be assimilated to a standard of 12:09:09PM
15	standard, one must look at custom. 12:07:57PM	15	reasonableness or an invitation to second-guess 12:09:11PM
16	So it may be that standards 12:07:59PM	16	government action. 12:09:14PM
17	beyond those identified by the OECD and UNCTAD 12:08:03PM	17	Arbitrariness entails the 12:09:15PM
18	that I've just referred to are in the process of 12:08:08PM	18	complete lack of legitimate justification for 12:09:18PM
19	becoming a rule of custom, but the burden would be 12:08:11PM	19	government action, or really any absence of 12:09:21PM
20	on the investor to establish that they have 12:08:13PM	20	rational connection between the government measure 12:09:24PM
21	crystallized into such rule. 12:08:15PM	21	and the purported justification. 12:09:27PM
22	Okay. So with respect to the 12:08:17PM	22	So in the words of the S.D. 12:09:29PM
23	prohibition, for example, on arbitrary measures on 12:08:24PM	23	Myers Tribunal: 12:09:35PM
24	which the Claimant has relied and Mr. Terry has 12:08:26PM	24	"It is not an open-ended 12:09:35PM
25	referred to in his opening statements, I would 12:08:29PM	25	mandate to second-guess 12:09:37PM
	Page 158		Page 159
1	government 12:09:38PM	1	I will simply refer you to Article 38 sorry. 12:10:56PM
2	decision-making." 12:09:39PM	2	Could you go back to Article 38 of the Statute of 12:11:01PM
3	In fact, domestic courts 12:09:40PM	3	the International Court of Justice, which clearly 12:11:03PM
4	themselves have recognized that it is not their 12:09:46PM	4	sets out the fact that judicial decisions are a 12:11:07PM
5	role to question core policy decisions of 12:09:49PM	5	subsidiary mean for the determination of rules of 12:11:10PM
6	government unless they are irrational or taken in 12:09:51PM	6	law. So states, not Tribunals, create customs, 12:11:13PM
7	bad faith. It would really be surprising, 12:09:53PM	7	and awards can only be relied on to the extent 12:11:17PM
8	therefore, that a broader, a more large role would 12:09:55PM	8	that they provide appropriate evidence of such 12:11:20PM
9	be imparted on international arbitration tribunals 12:10:02PM	9	custom. 12:11:23PM
10	by virtue of the minimum standard of treatment. 12:10:04PM	10	As special repreter Michael 12:11:24PM
11	And as my colleague 12:10:07PM	11	Wood notes in his third report: 12:11:31PM
12	Mr. Neufeld will develop and explain a little bit 12:10:09PM	12	"The weight to be given 12:11:33PM
13	later, Ontario courts in this case have considered 12:10:13PM	13	to such a decision will 12:11:34PM
14	the Ontario government measure, the moratorium on 12:10:16PM	14	depend on the 12:11:35PM
15	offshore wind, and they have concluded that it was 12:10:20PM	15	authoritative nature, 12:11:36PM
16	not in their rational government action. 12:10:22PM	16	stature of the Court 12:11:38PM
17	So let me turn to my 12:10:28PM	17	which has rendered the 12:11:39PM
18	presentation on 1105, which is the interpretation 12:10:30PM	18	decision as well as the 12:11:40PM
19	advanced by the Claimant is fundamentally flawed 12:10:34PM	19	quality of the 12:11:41PM
20	and really is meant to enlarge the minimum 12:10:37PM	20	reasoning." 12:11:43PM
21	standard of treatment without the requirement to 12:10:39PM	21	The Tribunal has asked how, in 12:11:44PM
22	prove state practice and opinio juris. 12:10:42PM	22	practice, customary international law has been 12:11:47PM
23	The first error the Claimant 12:10:46PM	23	properly proved to the satisfaction of Tribunals 12:11:50PM
24	makes is to improperly rely on arbitral awards as 12:10:47PM	24	in past cases. 12:11:53PM
25	evidence of that the standard has evolved, and 12:10:51PM	25	One recent example of this is 12:11:54PM

The Court rejected this and 12:15:03PM 8 So for these reasons, as the 12:16:15PM 12:16:20PM 10 included in BITs is not sufficient, and in the 12:15:07PM 10 these other treaties cannot serve to identify and 12:16:20PM 11 words of the Court: 12:15:11PM 11 don't provide any guidance in determining the 12:16:26PM 12 contents of Article 1105. 12:16:28PM 13 Through some of the standards asserted by the 12:16:30PM 14 Professor Dunberry in his soon 12:15:14PM 15 to be published book on the formation and 12:15:20PM 15 identification of rules of customary international 12:15:22PM 16 identification of rules of customary international 12:15:22PM 17 and BITs had not transformed into a customary 12:15:33PM 18 question, and he concluded that the FET standards 12:15:28PM 19 and BITs had not transformed into a customary 12:15:33PM 19 reasons, including the fact that FET provisions 12:15:38PM 12:15:37PM 12:15:33PM 13 are not uniform; they're worded differently; and 12:15:44PM 14 the practice of states outside of this treaty is 12:15:46PM 14 through some of the standards asserted by the 12:16:3PM 15 Claimant to show why they are not a proper basis 12:16:3PM 16 against which to consider Canada's conduct. 12:16:40PM 17 On discrimination, I will just 12:16:49PM 18 say that Canada, as set out in our pleadings, does 12:16:49PM 19 preventing host states from providing different 12:16:55PM 12:16:55PM 12:16:57PM 12:16:57PM 12:16:57PM 12:16:57PM 12:16:57PM 12:16:57PM 12:16:57PM 12:16:59PM	2 3 4	The Court in Diallo also 12:14:38PM considered specifically the issues of whether BITs 12:14:43PM could establish a new rule of customary 12:14:45PM international law, and in that case it referred to 12:14:50PM the fact that BITs allow for a corporation, 12:14:52PM	application of this broader standard. And, 12:15:51PM indeed, the NAFTA parties have done so. 12:15:57PM As the Cargill Tribunal noted 12:16:02PM in its analysis of Article 1105, such clauses 12:16:05PM referring to the autonomous FET provisions were 12:16:08PM
noted the fact that such propositions are often 12:15:04PM included in BITs is not sufficient, and in the 12:15:07PM words of the Court: 12:15:11PM 10 these other treaties cannot serve to identify and 12:16:20PM these other treaties cannot serve to identify and 12:16:20PM don't provide any guidance in determining the 12:16:26PM contents of Article 1105. 12:16:28PM 13 Now, let me just briefly go 12:16:30PM 14 Professor Dunberry in his soon 12:15:14PM 15 to be published book on the formation and 12:15:20PM 15 Claimant to show why they are not a proper basis 12:16:37PM 16 identification of rules of customary international 12:15:22PM 16 against which to consider Canada's conduct. 12:16:40PM 17 In and BITs had not transformed into a customary 12:15:33PM 19 not believe that there is a general rule of custom 12:16:52PM 19 are not uniform; they're worded differently; and 12:15:40PM 10 The Claimant has also alleged 12:17:04PM 10 The Claimant has also alleged 12:17:04PM 10 The Claimant has also alleged 12:17:06PM	2 3 4 5 6	The Court in Diallo also 12:14:38PM considered specifically the issues of whether BITs 12:14:43PM could establish a new rule of customary 12:14:45PM international law, and in that case it referred to 12:14:50PM the fact that BITs allow for a corporation, 12:14:52PM incorporated locally but owned by foreign 12:14:58PM	application of this broader standard. BISHOP: Could I take you back for a moment to the burden of proof issue? 12:19:48PM Your position — and I have 12:19:51PM certainly seen it in — in various NAFTA cases — is that it's the Claimant's burden to prove what the custom is for purposes of the minimum the custom is for purposes of the minimum But there's no disagreement 12:20:07PM But there is a minimum standard of treatment as 12:20:12PM part of customary international law; correct? MR. TABET: Certainly Canada 12:20:21PM does not disagree with that. 12:20:22PM MR. BISHOP: Yeah. And so the 12:20:24PM question is: What is the content of that minimum MS. TABET: Yes. 12:20:28PM MR. 1	2012 report actually makes that kind of a 12:22:27PM	1 And certainly there's 12:23:35PM
2	statement that it is a highly imprecise standard, 12:22:31PM	2 international case law out there that asserts 12:23:38PM
3	but there are clear rules that are part of it 12:22:33PM	3 certain things are part of the standard. I don't 12:23:43PM
4	that, if you go back even to the Amidor reports in 12:22:36PM	think there is any doubt about that. 12:23:46PM
5	the in 1959, at that time, certain of the rules 12:22:40PM	5 But you have made the point 12:23:47PM
6	were more or less clear. But over time, I think 12:22:43PM	6 that, to prove a custom, it's not sufficient to 12:23:50PM
7	they have become clearer, like denial of justice, 12:22:46PM	7 simply cite the case law, although both parties 12:23:54PM
8	like compensation for expropriation. 12:22:50PM	8 clearly do, and as everyone does, but that you 12:23:58PM
9	So certainly there is no 12:22:53PM	9 have to prove what is general state practice and 12:24:01PM
10	question that there are some rules that have 12:22:55PM	opinio juris. And you don't try, in the course of 12:24:05PM
11	crystallized as part of that standard, physical 12:22:57PM	your submissions, to prove what state practice is 12:24:11PM
12	full protection and security. 12:23:00PM	or opinio juris on any of the issues that you say 12:24:15PM
13	The question is, going beyond 12:23:01PM	13 are agreed. 12:24:19PM
14	these rules that everybody agree are part of the 12:23:03PM	14 Where do we find the agreement 12:24:20PM
15	standard, what what else is there? 12:23:06PM	and, thus, where do we find evidence what is 12:24:23PM
16	And if the Claimant alleges 12:23:08PM	16 customary international law on the minimum 12:24:26PM
17	that there is more, such as legitimate 12:23:11PM	17 standard? 12:24:29PM
18	expectation, that is certainly beyond what most 12:23:14PM	18 MS. TABET: Well, to be 12:24:30PM
19	states recognize are part of the standard, and the 12:23:19PM	honest, Canada has not done so in this case, 12:24:32PM
20	Claimant would have to positively establish that 12:23:20PM	because none of the standards that we believe are 12:24:34PM
21	the rules are part of the standard. 12:23:23PM	agreed as part of the standard are at issue here. 12:24:38PM
22	MR. BISHOP: Just one more 12:23:26PM	So, you know, when it comes to legitimate 12:24:42PM
23	question in that regard. You say that everyone 12:23:27PM	expectation or the what is called abrupt 12:24:43PM
24	agrees that certain things are part of the 12:23:31PM	repudiation of the legal framework, which seems to 12:24:48PM be allowing the government to change the 12:24:51PM

And to what what is the 12:25:30PM content of the rule and custom? 12:25:34PM DR. CREMADES: Well, I will 12:25:38PM ask you just a concrete question. I mean, the 12:25:39PM	international investment law by it seems like 12:26:02PM it has been introduced by Professor Walde and has 12:26:06PM been certainly repeated in a number of arbitral 12:26:10PM awards relying on that comment by Professor Walde. 12:26:13PM But, you know, if you look at 12:26:17PM most domestic legislations, they don't contain a 12:26:19PM substantive protection for a legitimate 12:26:22PM expectation. It would be a 12:25:02PM bit irrelevant to the case before you today. 12:25:04PM And you don't have to 12:25:07PM pronounce on what, in the abstract, is part of the 12:25:09PM standard as part of your role. You have to 12:25:12PM consider what are the allegations? Here. And are 12:25:14PM things like legitimate expectations or this vague 12:25:18PM notion of arbitrariness that the Claimant has put 12:25:21PM forward — what is the content of these rules? 12:25:24PM Have they been established as part of customary international law? And to what — what is the 12:25:31PM content of the rule and custom? 12:25:34PM mask you just a concrete question. I mean, the 12:25:39PM problem is the expectations. Where do we find the 12:25:42PM opinio juris? 12:25:44PM MS. TABET: Yes. Well, where 12:25:49PM	international investment law by it seems like 12:26:02PM it has been introduced by Professor Walde and has 12:26:06PM been certainly repeated in a number of arbitral 12:26:10PM awards relying on that comment by Professor Walde. 12:26:13PM But, you know, if you look at 12:26:17PM most domestic legislations, they don't contain a 12:26:19PM substantive protection for a legitimate 12:26:22PM expectation. Sometimes, in some legal systems, 12:26:26PM there is such a concept in the content sorry, 12:26:27PM in the context of procedural rights, but it's 12:26:31PM often limited to that. 12:26:37PM So it can't be that states 12:26:38PM believe they have an obligation to protect 12:26:40PM investors' expectations at large. They certainly 12:26:41PM don't have not adopted domestic legislation 12:26:45PM pursuant to that sense of international 12:26:51PM And when you look at it in the 12:26:57PM broader context, for example, international law 12:26:59PM does not recognize that a violation of contract, 12:27:02PM even, is a breach of minimum standard of 12:27:05PM treatment. Well, where 12:25:49PM	international investment law by it seems like 12:26:02PM it has been introduced by Professor Walde and has 12:26:06PM been certainly repeated in a number of arbitral 12:26:10PM awards relying on that comment by Professor Walde. 12:26:13PM But, you know, if you look at 12:26:17PM most domestic legislations, they don't contain a 12:26:19PM substantive protection for a legitimate 12:26:22PM expectation. Sometimes, in some legal systems, 12:26:26PM there is such a concept in the content sorry, 12:26:27PM in the context of procedural rights, but it's 12:26:31PM often limited to that. 12:26:37PM So it can't be that states 12:26:38PM believe they have an obligation to protect 12:26:40PM investors' expectations at large. They certainly 12:26:41PM don't have not adopted domestic legislation 12:26:45PM pursuant to that sense of international 12:26:51PM And when you look at it in the 12:26:57PM broader context, for example, international law 12:26:59PM does not recognize that a violation of contract, 12:27:02PM even, is a breach of minimum standard of 12:27:05PM treatment. And in that context, there is 12:27:12PM

2	reject the notion that a breach of contract is 12:27:22PM	2	is something more that I'm missing 12:28:54PM
3	automatically a breach of legitimate expectation. 12:27:24PM	3	PRESIDENT: There is perhaps 12:28:56PM
4	So this idea of trying to 12:27:28PM	4	more It goes to the question of the relationship 12:28:56PM

4	Claimant from it. 01:31:39PM	4	The same holds true for the 01:32:51PM
5	The date of the first measure 01:31:39PM	5	Claimant's Article 1102 and 1103 claims. The 01:32:53PM
6	is clear. It's February 11, 2011. However, this 01:31:42PM	6	claimant has not alleged that the mere 01:32:57PM
7	date is irrelevant for the second measure. A 01:31:48PM	7	implementation of the deferral constitutes a 01:33:00PM
8	deferral lasting only a day could not amount to an 01:31:52PM	8	breach of either of these articles. According to 01:33:02PM
9	expropriation or a breach of national treatment. 01:31:54PM	9	the Claimant, it's only the failure to treat the 01:33:05PM
10	It's no wonder the Claimant hasn't even attempted 01:31:58PM	10	Claimant like TransCanada or Samsung after the 01:33:09PM
11	to value a one-day deferral for the sake of its 01:32:00PM	11	deferral that leads to the alleged discriminatory 01:33:11PM

2	morphed in this regard. It hasn't. We have 01:33:52PM	2	The Claimant also argues that 01:34:55PM
3	always said that the decision was based on the 01:33:54PM	3	the deferral violates Article 1105 because it's 01:34:57PM
4	need to finalize a regulatory framework. 01:33:56PM	4	arbitrary or grossly unfair, and it abruptly 01:35:01PM
5	In the face of Canada's 01:33:58PM	5	repudiates the applicable regulatory framework. 01:35:05PM
6	argument, the Claimant clings to its scatter gun 01:34:00PM	6	Again, as Ms. Tabet pointed, out the Claimant is 01:35:09PM
7	of allegations that the deferral was arbitrary, 01:34:04PM	7	incorrect on the law here too because Article 1105 01:35:11PM
8	taken in bad faith, grossly unfair, contrary to 01:34:07PM	8	was never meant to be a guarantee against 01:35:15PM
9	its expectations and discriminatory. And not only 01:34:10PM	9	regulatory change, but again the Claimant's 01:35:17PM
10	do these allegations lack a legal basis, as 01:34:13PM	10	position is not defensible on the facts either. 01:35:18PM
11	Ms. Tabet has pointed out, they're also 01:34:16PM	11	As the 2009 decision notice 01:35:22PM
12	unsupported by the facts. 01:34:19PM	12	for the REA regulation made clear, the new 01:35:26PM
13	It's worth pausing here on the 01:34:20PM	13	regulation would operate through transparent, 01:35:30PM
14	matter of legitimate expectations. Our pleadings 01:34:23PM	14	clear, upfront provincial rules, unlike before. 01:35:32PM
15 16	show clearly that the Claimant was well aware of 01:34:26PM	15	The REA requires the regulator to decide in 01:35:37PM
17	the regulatory uncertainty surrounding offshore 01:34:28PM	16 17	advance what criteria proponents have to fulfil. 01:35:41PM
18	wind development, but that's a matter I'll come 01:34:31PM back to with respect to Article 1110. As 01:34:34PM	18	It communicates those requirements and evaluates a 01:35:46PM proponent's application against the standards 01:35:48PM
19	Ms. Tabet pointed out, an investor's expectations 01:34:37PM	19	specified in those rules. 01:35:51PM
20	impose no obligations on a state under the minimum 01:34:39PM	20	However, when the REA 01:35:53PM

direction from the Premier's office to stop all 01:45:33PM development because of political motivations. It 01:45:35PM asks you to reject Minister Wilkinson's evidence 01:45:37PM and to ignore all of the evidence that shows that 01:45:40PM the MOE had been concerned for at least six months 01:45:43PM prior about the lack of standards and the lack of 01:45:45PM science to justify the new standards. 01:45:48PM And it asks you to dismiss as 01:45:50PM meaningless the concerns of the council of the 01:45:52PM Great Lakes research managers and the atmosphere 01:45:55PM of disarray and uncertainty across the Great 01:45:57PM Lakes. We can go back to public session now. 01:46:01PM --- CONFIDENTIAL END 01:46:08PM MR. NEUFELD: In the end, the 01:46:08PM Claimant's theory must be rejected because the 01:46:09PM evidence simply doesn't support it. The lacking 01:46:11PM science wasn't a pretext that was quickly 01:46:13PM scrambled together, but a fact resulting from the 01:46:16PM government's efforts to complete the unfinished 01:46:20PM 01:46:23PM approvals framework. The fact that additional 01:46:25PM research was needed arose out of that June 2010 01:46:26PM policy proposal for offshore wind setbacks. It 01:46:30PM 01:46:33PM arose out of public concern and the Great Lakes jurisdictional review. It also arose out of the 01:46:35PM

01:46:38PM IJC's communication and the conclusions from expert workshops on noise and water quality. 01:46:42PM MEI's concerns about ratepayer 01:46:45PM costs and surplus of energy were not the reason 01:46:48PM for the decision to defer offshore wind 01:46:52PM development. Yes, they were raised. Yes, they 01:46:54PM were considered. It even aligned with the final 01:46:56PM decision, but they do not detract from the fact 01:46:59PM that the Ontario government had determined that 01:47:02PM the most prudent course of action in light of the 01:47:04PM pressing environmental questions was not to 01:47:07PM proceed with any development of offshore wind 01:47:09PM projects until the necessary scientific research 01:47:12PM was completed and an adequately informed policy 01:47:14PM framework could be developed. 01:47:18PM But let's say -- let's just 01:47:23PM say that MEI's concerns were the basis for the 01:47:24PM decision, and this -- you know, they weren't, but 01:47:27PM let's assume so in order to answer your question 01:47:29PM of whether a decision can be considered as not 01:47:33PM having been taken in good faith if it was made for 01:47:35PM reasons other than those publicly stated. Would this, in itself, violate the minimum standard of 01:47:42PM treatment? 01:47:45PM Now, interestingly, Ontario 01:47:46PM

From the government's point of 02:04:24PM view, nothing prevents the Claimant from going 02:04:25PM through the Crown land site release process and 02:04:27PM from applying for a REA once the policy framework 02:04:29PM is finally in place. However, as the Claimant has 02:04:32PM indicated, it's no longer in a position to secure 02:04:34PM financing, which makes moving forward impossible. 02:04:37PM Now, the Claimant only has 02:04:40PM itself to blame in this regard. In its reply, it 02:04:42PM admits to having declined the OPA's offer of a 02:04:44PM five-year freeze, arguing that it shouldn't be 02:04:47PM faulted for doing so because the government never 02:04:50PM intended to conduct the science necessary to put 02:04:52PM in place the framework for offshore wind 02:04:55PM development within five years. Its allegation is 02:04:57PM 02:05:00PM baseless. 02:05:01PM There is absolutely no documentary evidence to support its premise in 02:05:02PM contrast to all the evidence that shows the 02:05:05PM

efforts made by the Government of Ontario to

evidence in a moment, but in terms of the

Claimant's decision to decline the offer, its

Page 205

decision must be assessed at the time it was made, 02:05:18PM not retrospectively five years later, as my friend 02:05:22PM now asks you to do. 02:05:25PM

The fact is that the Claimant 02:05:26PM

was not satisfied with the offer of a freeze. It 02:05:27PM responded to the OPA's offer with totally 02:05:31PM unreasonable demands, which demonstrate what the 02:05:33PM Claimant wanted all along: the right to have the 02:05:35PM option to develop a project on its own terms, on 02:05:37PM its own timeline, rather than the terms stipulated 02:05:40PM in the standard form FIT contract. They wanted to 02:05:44PM dump its deal, and it wanted something different, 02:05:47PM something better. 02:05:50PM

Not only has the Claimant not 02:05:51PM proven this measure -- that this measure has 02:05:54PM breached a rule of customary international law or 02:05:57PM expropriation, the fact is that any negotiated solution to put the Claimant's project on hold depended on the Claimant to negotiate within the parameters that have been set. It was simply not 02:06:08PM willing to do that. 02:06:08PM

You have asked what the status 02:06:09PM is of the scientific research projects necessary 02:06:13PM for a decision on moving forward with offshore 02:06:16PM wind projects. 02:06:18PM

You will recall that the 02:06:20PM deferral was adopted following three signals, and 02:06:26PM the public response to the policy proposal, work 02:06:28PM undertaken within the Ministries, including on 02:06:30PM noise and drinking water and the various 02:06:33PM communications from U.S. governments and 02:06:36PM international bodies. 02:06:38PM 02:06:39PM These signals, which it must be said, highlighted the international -- or the 02:06:41PM collaboration that needed to happen with the 02:06:43PM federal government as well as U.S. government. It 02:06:45PM started in the summer of 2010. And became 02:06:48PM stronger throughout the fall. 02:06:51PM I am going to have to flip to 02:06:52PM confidential session for a second again. 02:06:54PM --- CONFIDENTIAL BEGIN 02:06:59PM MS. 02:10:49PM Now, we can resume the public 02:10:50PM feed again. 02:10:51PM

--- CONFIDENTIAL END 02:10:54PM MR. NEUFELD: And with respect 02:10:54PM

to drinking water quality, Minister Wilkinson's 02:10:54PM concerns were partially addressed in an internal 02:10:57PM study on water quality impacts within Lake Ontario 02:10:59PM and near shore. 02:11:02PM

The literature review, 02:11:03PM fieldwork, and modelling were conducted, and a 02:11:05PM report provided a preliminary conclusion in 02:11:07PM December 2012 that, in Lake Ontario at least, any 02:11:09PM impacts from construction of an offshore wind 02:11:13PM turbine would likely be quite small. Similar 02:11:16PM studies would have to be conducted in other Great 02:11:19PM

02:11:19PM

Ontario's not planning to 02:11:23PM commence further scientific studies in the near 02:11:25PM Page 211

02:11:28PM

term to address areas initially set out in its earlier plans. However, it should not be faulted 02:11:31PM for not prioritizing this work. Given the 02:11:33PM

Claimant's decision not to freeze its FIT 02:11:36PM

contract, no project will be proceeding in the 02:11:40PM near future. By the Claimant's own admission, its 02:11:42PM

project failed as of May 2012. So any science 02:11:47PM 02:11:50PM that Ontario undertook after this point is

irrelevant to the Claimant's ability to develop 02:11:53PM

its project. 02:11:55PM

That said, once the noise and 02:11:56PM decommissioning studies are completed, Ontario 02:12:00PM 02:12:02PM will analyze the findings, look to see whether there are any gaps, and determine whether any 02:12:05PM study -- any further study is required. 02:12:07PM

16 And you've asked whether any 02:12:10PM 17 scientific research projects since 2011 have shown 02:12:11PM 18 whether offshore wind projects can be -- are 02:12:14PM 19 environmentally safe or sound. And the quick 02:12:17PM 20 answer to that is no. But, again keep, in mind 02:12:19PM 21 the purpose that Ontario is undertaking for the 02:12:21PM

22 studies was never to test whether the project 02:12:23PM 23 itself was sound, but whether it could adopt the 02:12:25PM 24

prescriptions, the rules necessary for its 02:12:28PM approvals framework. 02:12:31PM

Page 213 Page 212 1 1 Looking at the issue from this 02:12:32PM 02:13:46PM solar energy, geothermal, tidal, the specific 2 2 rules on offshore, they weren't dealt with in that 02:13:49PM perspective also answers your question at C.9 of 02:12:37PM 3 3 whether Ontario has any present intent with regard 02:12:43PM Act. Define mention of offshore when you've had 02:13:51PM 4 4 02:13:54PM to the future of the Windstream project. You see, 02:12:45PM to turn to the REA. 5 5 the issue has never been about Windstream and 02:12:48PM But when the MOE -- MOE 02:13:57PM 6 6 always about the lack of provincial rules for 02:12:51PM decided to adopt that regulation, it specifically 02:13:58PM 7 7 offshore wind. Once those rules are in place, MOE 02:12:54PM stated that MOE and MNR continue to work on a 02:14:00PM 8 will have the necessary benchmarks to approve any 02:12:58PM 8 collaborative approach to wind facilities. And, 02:14:03PM 9 9 project. 02:13:01PM some, while the framework legislation was aimed at 02:14:07PM 10 10 The fact that the Claimant's 02:13:01PM attracting investment, in any type of renewable 02:14:10PM 11 project will not be able to proceed to permitting 02:13:03PM 11 energy the message that the REA communicated was 02:14:13PM 12 is because the Claimant declined the opportunity 02:13:05PM 12 the government was ready to receive applications 02:14:15PM 13 02:13:08PM 13 for onshore wind, solar, bioenergy, but it was to have its contract frozen. 02:14:18PM 14 14 02:14:20PM Lastly, I would like to spend 02:13:10PM still working on the rules for offshore wind. 15 1.5 some time on one of the factors used to determine 02:13:13PM Former Minister Smitherman's 02:14:23PM 16 16 whether there's been an indirect expropriation, 02:13:16PM statements don't change that fact. They were made 02:14:26PM 17 17 namely, the investor's reasonable 02:13:18PM in 2009, February 2009, before the REA was even 02:14:28PM 18 investment-backed expectations. 02:13:21PM 18 crafted and interestingly, they cite the words -- 02:14:32PM 19 The questions you have posed 02:13:23PM 19 his -- his statement cite the words "universal" or 02:14:36PM 20 20 in Section A go to this issue, this issue of province-wide setback. As we know, those setbacks 02:14:40PM 02:13:25PM 21 21 inducement. In September 2009, the Minister of 02:13:28PM were never created for offshore wind. 02:14:43PM 22 22 Energy directed the OPA to develop a FIT program 02:13:33PM And Mr. Smitherman's testimony 02:14:45PM 23 23 to procure energy. We know that. And it was from 02:13:35PM today doesn't change this fact. What is perhaps 02:14:47PM a wide source of -- of energy sources that 24 02:13:38PM 24 most interesting for Mr. Smitherman is what he has 02:14:55PM 25 included wind, water, biomass, biogas, biofuel, 02:13:41PM 25 released after stepping down as Minister. 02:14:57PM Page 214 Page 215 1 02:15:02PM 1 02:16:08PM He has since admits to having offshore rules. 2 2 overlooked the barriers presented by the 02:15:04PM And -- and in her letter, as 02:16:09PM 3 3 government's own regulatory structures. 02:15:06PM well, what's most interesting about her letter to 02:16:13PM 4 It is those regulatory 02:15:08PM 4 every Crown land applicant is that it specifically 02:16:15PM 5 structures that a reasonable investor would have 02:15:09PM 5 said that it did not grant any right to enter onto 02:16:18PM 6 relied on in assessing whether it could bring a 6 Crown land. It does not constitute any 02:15:12PM 02:16:22PM 7 7 FIT project to commercial operation, not the 02:15:15PM commitment, obligation, or approval. 02:16:25PM 8 8 general statements of the Energy Minister made 02:15:17PM But there is better evidence 02:16:27PM 9 9 than all that, that the Claimant was not, in fact, 02:16:28PM prior to their implementation. 02:15:19PM 10 Now, I could take you to 10 02:16:31PM 02:15:20PM induced by these statements. It's its own 11 11 Minister Cansfield's statements as well in 2008 02:15:24PM contemporaneous view of whether it had a clear 02:16:33PM 12 12 and 2009 as well as her letter. But I think you 02:15:27PM path to regulatory approvals that clearly 02:16:36PM 13 13 indicates that it did not think so. Our Rejoinder 02:16:40PM can -- you can turn to our pleadings to -- to find 02:15:31PM 14 14 -- to find -- to find that these issues have been 02:15:35PM Memorial raises over 20 instances of 02:16:46PM 15 fully briefed. Her first speech was made in 2008, 02:15:36PM 15 acknowledgment by the Claimant that it understood 02:16:47PM 16 16 before the system was created. It specifically 02:15:39PM the rules for offshore wind were not yet written 02:16:48PM 17 17 referred to an environmental assessment that 02:15:42PM and that the Crown land site release process was 02:16:51PM 18 18 needed to be done, not an REA. 02:15:45PM under review. 02:16:53PM 19 19 02:16:54PM Her second speech was purely 02:15:47PM Prior to applying for a FIT 20 20 contract, the Claimant understood that the REA was 02:16:56PM prospective. It called for greater clarity 02:15:49PM 21 21 upfront around permits because that's what -brand new. Yet it didn't even pick up the phone 02:16:58PM 02:15:54PM 22 22 to inquire with MOE about what it might that's what investors need. That's where investor 02:15:59PM 02:17:01PM 23 23 confidence is created, when companies know exactly 02:16:00PM involve. And shortly after being offered a FIT 02:17:01PM 24 24 what the rules are, as you said. Of course, this 02:16:02PM contract, its advisers and expert, warned that --02:17:01PM 25 was true for the onshore rules, just not for the 25 Offshore permitting is a new area and lacks 02:17:11PM

As Ms. Tabet made clear, different 02:20:39PM treatment does not amount to a breach of Article 102:20:41PM 1102. 02:20:43PM In conclusion, the 02:20:44PM government's decision to defer offshore wind 02:20:46PM development and its alleged failure not to direct 02:20:50PM amount to a violation of NAFTA Chapter 11. 02:20:54PM Neither decision is discriminatory, expropriatory, 02:20:57PM or contrary to the minimum standard of treatment 02:21:01PM at customary international law. 11	contract escalated until the project would fall 02:31:05PM	11	And at that time where were 02:32:17PM
12	off the cliff 18 months after the milestone date 02:31:09PM	12	they in their development process? In reality, 02:32:18PM
13	had passed. At that time, the breach would amount 02:31:12PM	13	nowhere. They had achieved none of the milestones 02:32:22PM
14	to an event of supplier default, and you heard my 02:31:14PM	14	required to proceed with their project. In fact, 02:32:25PM
15	colleague Mr. Terry, talk about this. 02:31:17PM	15	the audit of the claims expenditures done by BRG 02:32:29PM
16	If you look at Article 9 of 02:31:18PM	16	shows they had spent only a few hundred thousand 02:32:32PM
17	the FIT contract, after 18 months of missing your 02:31:20PM	17	dollars. 02:32:38PM
18	Commercial Operation Date, the contract could be 02:31:24PM	18	And you will see on the screen 02:32:38PM
19	unilaterally terminated by the OPA. 02:31:25PM	19	and I'm going to do it a couple times I'm 02:32:42PM
20	So let's look at the 02:31:28PM	20	referring to a public version of the document 02:32:42PM
21	Claimant's timeline specifically. Its FIT 02:31:31PM	21	here, so there is no need to cut the confidential 02:32:44PM
22	contract had an effective date of May 4, 2010. 02:31:35PM	22	feed, if the information is redacted. We're going 02:32:46PM
23	The Milestone Commercial Operation Date was, thus, 02:31:40PM	23	to do that for a little bit further. You have the 02:32:48PM
24	May 4th, 2015. We talked about this, this 02:31:43PM	24	non-redacted versions in the paper copy in front 02:32:51PM
25	morning. The supplier default date at which point 02:31:48PM	25	of you, so I won't refer to the confidential 02:32:53PM

2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	information, but we can all see it, and we can 02:32:55PM proceed on that basis. 02:32:55PM After signing the FIT 02:32:59PM contract, Mr. Baines writes to Windstream's board 02:33:04PM of directors on August 30, 2010. And he writes of 02:33:08PM a comprehensive project management plan for the 02:33:10PM next eight-month period to set the priorities and 02:33:14PM budget for this period. 02:33:17PM He explains that adherence to 02:33:18PM this plan is essential to achieve commercial 02:33:22PM success with the project. Mr. Baines' plan 02:33:26PM required the spending of substantial sums over 02:33:30PM eight months and recommended a substantial amount 02:33:33PM more. 02:33:36PM Mr. Baines' plan identified 02:33:38PM certain critical tasks, explaining that tasks 02:33:41PM deemed critical must be initiated in September, 02:33:45PM and, if delayed, the project is at high risk of 02:33:53PM Now, the task that needed to 02:33:57PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	had to be started no later than February 2011. 02:34:15PM And on this permitting side, 02:34:18PM Mr. Baines states that: 02:34:22PM "Based on this field 02:34:24PM study schedule and what 02:34:26PM is known about the time 02:34:27PM required for reporting, 02:34:28PM public consultation, 02:34:29PM agency review, and 02:34:32PM approval, timeline 02:34:33PM concessions will be 02:34:35PM required to achieve this 02:34:36PM REA milestone." 02:34:36PM So essentially Mr. Baines knew 02:34:40PM in August 2010 that meeting the FIT contract 02:34:45PM timelines would not be possible for Windstream without timeline concessions even if his proposed development plan was followed. But his proposed development plan wasn't followed. The Claimant 02:35:02PM did not complete the items or spend the money 02:35:05PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	information, but we can all see it, and we can 02:32:55PM proceed on that basis. 02:32:55PM After signing the FIT 02:32:59PM contract, Mr. Baines writes to Windstream's board 02:33:04PM of directors on August 30, 2010. But, again, what had the 02:37:55PM Claimant done? Not enough. It had certainly not 02:37:55PM met its own deadlines as they were laid out by 02:38:02PM Mr. Baines. 02:38:04PM Its own experts had prepared 02:38:06PM for this arbitration for the first time using 2014 02:38:09PM and 2015 hindsight, schedules and development 02:38:14PM plans for all of the activities that would need to 02:38:17PM be done, all the studies, all the work required to 02:38:21PM bring this project into commercial operation. 02:38:25PM None of these had been completed as of February 02:38:28PM 11, 2011. The activities in their schedule start 02:38:31PM on or after that date. 02:38:34PM Further, as BRG has shown, by 02:38:36PM the time of the February 11 deferral, the Claimant 02:38:40PM had still not spent even \$1 million out of the 02:38:47PM billion. 02:38:52PM So, in short, by the time the 02:38:57PM deferral was adopted, the Claimant had wasted 10 02:38:57PM percent of the total time it had to develop the 02:39:00PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	of 1 percent of the money needed. By the time of 02:39:09PM the deferral, the Claimant had still done nothing 02:39:14PM of essence nothing importance except hope and dream. 02:39:19PM Now, they ask this Tribunal to 02:39:21PM engage in utter speculation and conclude with 02:39:25PM certainty that they could have brought this 02:39:27PM project into operation within the timelines 02:39:39PM required by the FIT contract. 02:39:32PM Now, earlier today my 02:39:35PM colleague Mr. Terry explained and focused on the 02:39:38PM additional force majeure time that could be used 02:39:41PM to withstand the deadlines in the FIT contract. 02:39:44PM And we saw earlier how that worked. 02:39:44PM majeure is not an extension of development time. 02:39:55PM You get put into force majeure because of an event 02:39:55PM that prevents you from developing your project. 02:39:59PM That is, of course, the nature of a force majeure 02:40:02PM event. 02:40:04PM So contrary to what Mr. Terry 02:40:05PM suggested this morning, force majeure is not extra 02:40:08PM development time for the Claimant to complete its 02:40:10PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	They had used seven months of 02:37:50PM the total period, 10 percent of the time. Time 02:37:55PM was of the essence. 2	But I think even when you come 02:40:19PM	2	obtaining its permits. And after all of that 02:41:40PM
3	back to focus on what the real world experience 02:40:25PM	3	work, all of the money, and after receiving its 02:41:44PM
4	has been to date, there was still not enough time 02:40:28PM	4	permits, Cape Wind has still not proceeded to 02:41:47PM
5	for this project, given where the Claimant started 02:40:31PM	5	construction. In essence, its project has ground 02:41:50PM
6	when it signed its FIT contract. 02:40:34PM	6	to a halt because it lost its contracts when it 02:41:52PM
7	As Green Giraffe has 02:40:37PM	7	did not hit construction and development 02:41:55PM
8	explained, they're aware of only three projects 02:40:39PM	8	milestones. That should sound familiar when we 02:41:57PM
9	worldwide that were able to go from site control 02:40:41PM	9	think about the Windstream project. And Cape 02:42:00PM
10	to the start of construction, not to operation, to 02:40:45PM	10	Wind's experience is not generally different than 02:42:05PM
11	the start of construction in 60 months. 02:40:48PM	11	other offshore projects even when those other 02:42:06PM
12	And URS has concluded using 02:40:50PM	12	projects are being built by experienced wind 02:42:08PM
13	data compiled by the Claimant's own experts, 4C, 02:40:55PM	13	developers in markets with not only revenue 02:42:11PM
14	that the average time from permitting to 02:40:56PM	14	support like a FIT contract, but an established 02:42:14PM

16	project the size of Windstream's is 65 months. 02:41:03PM	16	with supporting local industries and financing. 02:42:19PM
17	We're talking 10 years here from start to finish, 02:41:08PM	17	None of these things existed 02:42:21PM
18	not 53 months. Not even enough time if you add in 02:41:14PM	18	with respect to this project, and yet the Claimant 02:42:23PM
19	the additional buffer for force majeure. 02:41:17PM	19	asks that the Tribunal ignore all of this and 02:42:27PM
20	And this time period of 10 02:41:19PM	20	speculate that its project would essentially be 02:42:29PM
21	years is, in fact, a favourable assumption for the 02:41:21PM	21	the best and most successfully developed in the 02:42:31PM
22	Claimant when compared with the experience of 02:41:24PM	22	world. 02:42:34PM

25	same size of the Claimant's proposed project, and 02:41:33PM	25	assumptions. First, the Claimant asks the 02:42:40PM
	Page 238		Page 239
1	Tribunal to ignore reality, the reality of what 02:42:43PM	1	The Claimant also asks the 02:43:55PM
2	had already been done and what remained to be done 02:42:46PM	2	Tribunal to ignore the realities about the fact of 02:43:58PM
3	in favour of their own hopes and wishes. For 02:42:49PM	3	where it was trying to site its project, and that 02:43:59PM
4	example, the Claimant signed a binding contract 02:42:52PM	4	it was impossible. Prior to its signature of the 02:44:03PM
5	with Siemens for wind turbines. 02:42:55PM	5	FIT contract the government had announced it was 02:44:06PM
6	My colleague Mr. Terry 02:42:58PM	6	considering a 5-kilometre shoreline exclusion 02:44:09PM
7	addressed this, this morning and suggested this 02:43:00PM	7	zone. The Claimant wants this Tribunal to believe 02:44:11PM
8	was merely a placeholder. He even suggested that 02:43:02PM	8	that this was proposed as an average 5-kilometre 02:44:13PM
9	it was only somehow binding. But it was more than 02:43:05PM	9	setback. There is no evidence for that. It was 02:44:15PM
10	somehow binding. It is a signed, binding, legally 02:43:08PM	10	proposed as a minimum setback from shoreline, and 02:44:19PM
11	enforceable contract. 02:43:11PM	11	the science was ongoing. 02:44:22PM
12	Now, why does the Claimant 02:43:13PM	12	Twenty-four turbines are sited 02:44:23PM
13	want you to pay no attention to this contract? 02:43:16PM	13	within 5 kilometres of shore. That's almost 20 02:44:28PM
14	The reason is simple. As BRG has shown, merely 02:43:18PM	14	percent of the project's turbines that would not 02:44:30PM
15	having to comply with this contract wipes out the 02:43:23PM	15	be able to be installed. And that is with the 02:44:32PM
16	entire value of the Claimant's project. So what 02:43:27PM	16	reconfiguration of the Claimant's project that it 02:44:35PM
17	does the Claimant ask? 02:43:31PM	17	has asked you to assume it could obtain. 02:44:38PM
18	For you to assume that not 02:43:33PM	18	The Claimant has also ignored 02:44:40PM
19	only that they could renegotiate the contract to 02:43:34PM	19	the existence of an international shipping lane 02:44:43PM
20	get about a 10 percent reduction in the price, but 02:43:36PM	20	when designing its layout. They asked the 02:44:45PM
21	that they would also, at the same time, be able to 02:43:39PM	21	Tribunal to believe that the permitting 02:44:48PM
22	renegotiate a faster delivery schedule and more 02:43:43PM	22	authorities at the federal government would not 02:44:49PM
23	favourable payment terms, faster and cheaper. It 02:43:46PM	23	require any sort of buffer from this shipping lane 02:44:52PM
24	in our payment terms, ruster and encuper. It 02.73.701 W	1	require any port of ourier from the shipping time 02.77.321 W
24	sounds pretty good. 02:43:51PM	24	for the wind farm, a manmade obstruction. This is 02.44.54PM
25	sounds pretty good. 02:43:51PM It's simply not reasonable. 02:43:52PM	24 25	for the wind farm, a manmade obstruction. This is 02:44:54PM simply not reasonable. 02:44:59PM

1	If the buffer is one nautical 02:45:00PM	1	ask you to make unreasonable assumptions and 02:46:10PM

3	buffer is two nautical miles, you lose 62 02:45:06PM	3	they cannot do a project with only 44 turbines. 02:46:15PM
4 5	turbines. In fact, together, with the shipping 02:45:11PM	5	It would be impermissible under their FIT 02:46:17PM
6	lane and the shoreline exclusion zone, nearly 65 02:45:15PM	6	contract, which requires them to achieve 75 02:46:20PM
7	percent of the turbines planned by the Claimant 02:45:18PM	7	percent of their promised capacity. 02:46:22PM
8	would be lost, down to 44 turbines. 02:45:20PM	8	Second, the Claimant asks the 02:46:24PM
9	Now, why do they do this? Why 02:45:23PM	9	Tribunal to assume that everything is going to 02:46:30PM
10	did this Claimant ask you to assume that they 02:45:26PM could place the turbines in an area where they 02:45:28PM	10	work out exactly the way it needs it to work out 02:46:32PM every single time the first time. This is most 02:46:35PM
11	could place the turbines in an area where they almost certainly could not be placed? Because 02:45:30PM 02:45:30PM	11	every single time the first time. This is most 02:46:35PM evident in its schedule which contains 02:46:38PM
12	they must. The Claimant was already intending to 02:45:32PM	12	
13	put its turbines on gravity-based foundations in 02:45:36PM	13	unreasonably optimistic assumptions often that are 02:46:40PM simply impossible. 02:46:43PM
14	deeper water than had ever been used before, and, 02:45:38PM	14	* * *
15	thus, they had to stay on the shoals off of Wolfe 02:45:42PM	15	For example, it proposes a 02:46:46PM rate of manufacturing for the gravity-based 02:46:47PM
16	Island. 02:45:45PM	16	foundations, which is just impossible using the 02:46:49PM
17	And if you look at the map as 02:45:45PM	17	design, the specific design they have proposed. 02:46:52PM
18	it appears on the screen now, you can see the 02:45:46PM	18	It employs a logic that assumes, as URS explains, 02:46:55PM
19	contour lines under the turbine locations. Those 02:45:49PM	19	that the next workstation in the production line 02:46:58PM
20	are the shoals. As you can see, Windstream has 02:45:52PM	20	will always be free. But according to their 02:47:01PM
21	turbines using the full extent of those shoals. 02:45:55PM	21	design, that's not the case. 02:47:03PM
22	There is nowhere else to go, 02:45:59PM	22	As another example, the 02:47:04PM
23	but into substantially deeper water which would 02:46:01PM	23	Claimant assumes it could simply access the 02:47:06PM
24	change the whole nature of the project. 02:46:04PM	24	vessels needed to erect its wind turbines. But as 02:47:09PM
25	So they have no choice but to 02:46:05PM	25	Green Giraffe notes, availability of vessels was a 02:47:13PM

As URS 02:47:34PM explains, in their opinion, deep pocket investors 02:47:38PM would have been needed even to entice banks to 02:47:41PM participate in the financing. As they further 02:47:44PM explain on the Claimant's plans, those investors 02:47:48PM would needs to be willing to put over tens of 02:47:50PM millions of dollars and possibly over \$300 million 02:47:50PM at risk before even obtaining the permits required 02:47:56PM to build the site. 02:47:59PM Green Giraffe makes clear that 02:48:01PM is massive and unreasonable and even Claimant's 02:48:04PM own expert agrees, noting that it would have been 02:48:10PM Claimant has said it would spend prior to 02:48:14PM governmental authorization. 02:48:16PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	had to. It is clear that the Claimant has 02:48:25PM developed its schedule working backwards from the 02:48:30PM just making whatever assumptions were required to 02:48:34PM make the schedule fit. 02:48:36PM The reality is that the 02:48:38PM Claimant has not put in sufficient evidence to prove that it had the resources necessary to 02:48:42PM develop and construct this project. And nor has it put in sufficient evidence to prove that anyone with the required funds was willing to do so. So where does this leave us? 02:48:54PM There is no presumption at international law that damages will be due for every breach of an obligation. Damages in international law are about compensating for loss caused by a breach. Over the next couple of weeks 02:49:02PM all of the experts presented by Canada will show O2:49:14PM This project had failed by the time of the 02:49:19PM allegedly breaching measures in question, from a 02:49:22PM

Again, 02:52:38PM because if it used more reasonable and appropriate 02:52:40PM	to explain away the complete and utter lack of 02:52:59PM evidence with a suggestion saying it's been 02:53:01PM destroyed, and the Tribunal should just assume it 02:53:04PM existed and draw an inference. 02:53:08PM Why, again, is the Claimant 02:53:10PM forced to take this position? Because if the 02:53:12PM Tribunal does not engage in a speculation about 02:53:14PM conspiracy theories, its claims fail. 02:53:17PM Over the course of the next 02:53:21PM week, you will hear from the Ontario officials who 02:53:23PM were there when the decision was made. They will 02:53:25PM confirm that Ontario decided to wait on the 02:53:28PM development of offshore wind projects in its 02:53:30PM sources of drinking water and its Great Lakes 02:53:32PM until it had the opportunity to complete further 02:53:35PM science. This morning Mr. Terry suggested that the 02:52:13PM claimant's legal interpretations are consistent 02:52:17PM with those accepted under the NAFTA. This is not 02:52:19PM right. As Ms. Tabet has made apparent in her 02:52:22PM explanation of the law, the Claimant has been 02:52:25PM forced to try to stretch the language of NAFTA in 02:52:27PM ways that the NAFTA parties have consistently 02:52:29PM rejected as inappropriate. 02:52:34PM lengths to legally support its claims? 9	PRESIDENT: Thank you, 02:54:24PM	9	its purpose was. 02:55:26PM
10	Mr. Spelliscy. 02:54:25PM	10	And so when we talk about some 02:55:26PM
11	Any questions? 02:54:26PM	11	of the extensions and the deadlines and we talk 02:55:28PM
12	QUESTIONS FROM THE TRIBUNAL: 02:54:30PM	12	about the short time periods and tight time 02:55:32PM
13	MR. BISHOP: Yeah. I have 02:54:30PM	13	pressure even the Claimant's documents admit 02:55:33PM
14	just one question. With respect to the time 02:54:30PM	14	they were under that is the exact reason. One 02:55:36PM
15	deadlines issue under the FIT contract, what was 02:54:33PM	15	can't look necessarily at the FIT program and 02:55:38PM
16	the purpose of the time deadlines being imposed in 02:54:37PM	16	think, "Okay. Well, why would there be five years 02:55:40PM

20	week and there are witnesses who can speak to 02:54:47PM	20	the context. Only two companies applied for FIT 02:55:46PM
21	it was designed as the Claimant mentioned this 02:54:49PM	21	contracts who were offshore wind developers. Why 02:55:49PM
22	morning, in the context of the financial collapse 02:54:51PM	22	is that? Because most people looking at that 02:55:53PM
23	of the system. There was a financial crisis, so 02:54:55PM	23	would look at that and understand that, in order 02:55:55PM
24	the FIT program was designed to bring jobs. It 02:54:57PM	24	to meet such an aggressive timeline, you needed to 02:55:57PM
25	didn't want to bring jobs 15 years from now. It 02:55:01PM	25	be in advance stage of your development. You 02:55:59PM

19	MR. SPELLISCY: This is, 02:59:15PM	19	program was standardized in that way 03:00:12PM
20	again, probably a question that Mr. Cecchini can 02:59:17PM	20	standardized in that way, yes. There was no 03:00:13PM
21	answer. And Windstream remains in force majeure 02:59:19PM	21	there wasn't you'll hear evidence this week 03:00:15PM
22	today on on the contract. They have not been 02:59:22PM	22	about the the extension that was negotiated by 03:00:17PM
23	terminated by the OPA. They remain in force 02:59:24PM	23	Windstream for its offshore contract, the only one 03:00:20PM
24	majeure. 02:59:28PM	24	to get an offshore project, and I think you'll 03:00:23PM
25	So I think technically and 02:59:28PM	25	hear evidence about how that would have applied to 03:00:25PM

NETTLETON: It should not 03:20:04PM be on live stream? 03:20:04PM PRESIDENT: No. 03:20:08PM MR. TERRY: the key player 03:20:08PM in making determinations as to expenditures on the 03:20:09PM project. As I have discussed with my friend 03:20:13PM Mr. Spelliscy and I'm happy to be corrected on 03:20:15PM this, but I asked him 03:20:20PM MS. NETTLETON: It's not 03:20:22PM working. 03:20:22PM [Reporter's Note: Technical issues.] 03:20:38PM simply that Mr. Spelliscy, in his opening 03:20:50PM argument, is making various assertions basically 03:20:53PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	other offshore projects, should that extension 03:00:27PM should they have actually gotten contracts in the future. 03:00:32PM But as for the size of the 03:00:32PM particular projects, yes, it was not relevant. So 03:00:34PM a 5-megawatt project had five years to be built, 03:00:37PM and a 300-megawatt project had five years to be 03:00:39PM built. 03:00:42PM PRESIDENT: Okay. Thank you. 03:00:43PM So we will start next with the 03:00:45PM examination of witnesses. I suggest we have a 03:00:50PM break of 15 minutes now. We will continue at 03:00:52PM 3:15. Thank you. 03:00:57PM Recess at 3:01 p m. 03:01:02PM Upon resuming at 3:18 p.m. 03:17:30PM Off the record discussion re procedural issue. 03:18:49PM PRESIDENT: On the record. 03:19:21PM MS. NETTLETON: Sure. The 03:19:27PM video is not yet recording. It's definitely not 03:19:27PM on the live stream, yeah. 03:19:28PM PRESIDENT: But we go you 03:19:30PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	complicated. 03:19:46PM [Laughter.] 03:19:47PM MR. TERRY: The issue that has 03:19:48PM arisen is just Mr. Mars is, as the Tribunal knows 03:19:49PM or as he will explain, the founder of Windstream 03:19:56PM and 03:20:00PM MS. NETTLETON: It should not 03:20:04PM be on live stream? 03:20:04PM PRESIDENT: No. 03:20:08PM MR. TERRY: the key player 03:20:08PM in making determinations as to expenditures on the 03:20:09PM project. As I have discussed with my friend 03:20:13PM Mr. Spelliscy and I'm happy to be corrected on 03:20:15PM this, but I asked him 03:20:20PM MS. NETTLETON: It's not 03:20:22PM working. 03:20:22PM [Reporter's Note: Technical issues.] 03:20:38PM MR. TERRY: So the issue is 03:20:43PM simply that Mr. Spelliscy, in his opening 03:20:59PM stating that Windstream should have been spending 03:20:59PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	other offshore projects, should that extension 03:00:27PM should they have actually gotten contracts in the future. 03:00:32PM But as for the size of the 03:00:32PM particular projects, yes, it was not relevant. So 03:00:34PM a 5-megawatt project had five years to be built, 03:00:37PM and a 300-megawatt project had five years to be built. 03:00:39PM built. 03:00:42PM PRESIDENT: Okay. And he 03:21:06PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	other offshore projects, should that extension 03:00:27PM should they have actually gotten contracts in the future. 03:00:32PM But as for the size of the 03:00:32PM particular projects, yes, it was not relevant. 1	they weren't expending the money. 03:21:16PM	1	opportunity that Mr. Mars will have to respond or 03:22:28PM
2	That is an issue that, to the 03:21:19PM	2	provide the appropriate evidence in the record on 03:22:31PM
3	best of our knowledge is not something it arose 03:21:21PM	3	this. That's that's my concern. 03:22:34PM
4	for, at least in this form, the first time in oral 03:21:23PM	4	PRESIDENT: You would like to 03:22:35PM
5	argument this morning as opposed to in the 03:21:29PM	5	be able to put questions to 03:22:36PM
6	materials before it. 03:21:31PM	6	MS. NETTLETON: What Franco? 03:22:40PM
7	Mr. Mars is the individual who 03:21:32PM	7	PRESIDENT: You would like to 03:22:43PM
8	is best placed to respond to that, and I simply 03:21:34PM	8	be able to put questions on direct examination to 03:22:44PM
9	want to make sure he has an opportunity during his 03:21:37PM	9	Mr. Mars on what was just 03:22:47PM
10	examination to respond. I'm happy to we do 03:21:39PM	10	MR. TERRY: I mean to I'm 03:22:50PM
11	have a procedure which the parties have agreed on 03:21:43PM	11	happy to have anyone put the questions. In fact, 03:22:51PM
12	that witnesses, whether expert or fact witnesses, 03:21:45PM	12	if if they were put in cross-examination, if 03:22:54PM
13	can respond to new matters that have arisen. And 03:21:49PM	13	the Tribunal wanted to put it to him, I just 03:22:56PM
14	we had agreed, for example, that Mr. Mars could 03:21:52PM	14	wanted him to have an opportunity to provide 03:22:59PM
15	respond to new matters that had arisen in the BRG 03:21:54PM	15	evidence in response to that, and I think it would 03:23:01PM
16	Rejoinder report or URS' Rejoinder report because, 03:21:59PM	16	be helpful to the Tribunal because I don't believe 03:23:03PM
17	again, they related to issues that involve his 03:22:02PM	17	we have evidence well, there's there's 03:23:05PM
18	involvement in the project. 03:22:04PM	18	certainly evidence that the project was being 03:23:08PM
19	But this is an issue that we 03:22:05PM	19	blocked in various ways at the time, but we don't 03:23:10PM
20	would say would be in the same category as a new 03:22:11PM	20	have evidence responding to that specific 03:23:14PM
21	assertion, a new allegation that's being made that 03:22:14PM	21	allegation. 03:23:16PM
22	he is the appropriate person to respond to. 03:22:17PM	22	PRESIDENT: Mr. Spelliscy. 03:23:17PM
23	And, as I say, we we were 03:22:19PM	23	MR. SPELLISCY: Yes, thank 03:23:18PM
24	really hearing this for the first time put in this 03:22:22PM	24	you. I guess I would wanted to point out that 03:23:19PM
25	way, and I just want to make sure that there's an 03:22:25PM	25	what I was doing was really actually pointing to 03:23:22PM
	Page 258		Page 259
1	documents that are in the record, in fact, the 03:23:24PM	1	All the other fact witnesses 03:24:24PM
2	Claimant's documents that are in the record, 03:23:26PM	2	in this case are sequestered. There were 03:24:26PM
3	documents that were directed to and, I think, from 03:23:28PM	3	certainly statements, insinuations or allegations, 03:24:29PM
4	Mr. Mars in 2010, August 30, 2010. 03:23:32PM	4	or whatever Mr. Terry would like to call it, that 03:24:32PM
5	He filed two witness 03:23:36PM	5	the Claimant has made in its opening presentations 03:24:34PM
6	statements since then. The way that we might look 03:23:38PM	6	that we could have fact witnesses respond to on 03:24:37PM
7	at it and characterize those documents now, I 03:23:40PM	7	direct examination. But we're prohibited from 03:24:39PM
8	don't think makes that new evidence or new opinion 03:23:42PM	8	discussing those with our witnesses because 03:24:41PM
9	in any particular way. These are their documents 03:23:45PM	9	they're not designated client representatives. 03:24:45PM
10	from 2010. He has had the full opportunity to 03:23:47PM	10	Mr. Mars is a designated 03:24:47PM
11	address it knowing the entire time, and in the two 03:23:51PM	11	client representative. We don't have any concern 03:24:49PM
12	minutes that we had to look at it, I couldn't find 03:23:54PM	12	with him being here. But it seems to put our own 03:24:51PM
13	a specific way to this. But the idea that 03:23:57PM	13	witnesses at a bit of a disadvantage in that he 03:24:54PM
14	Windstream was not moving this project forward has 03:23:59PM	14	has now had the opportunity to hear what we've 03:24:57PM
15	clearly been an issue in this arbitration right 03:24:02PM	15	said. He's now had the break to discuss it with 03:25:00PM
16	from the very beginning. 03:24:04PM	16	counsel. And that's an opportunity that we won't 03:25:02PM
17	So the fact that we have tied 03:24:05PM	17	have with our witnesses. 03:25:05PM
18	this particular document, the Claimant's own 03:24:07PM	18	So I guess my concern is both 03:25:06PM
19	document, into the story in a particular way now, 03:24:09PM	19	I don't think this is a new evidence argument 03:25:07PM
20	I don't think affects the fact that it's new 03:24:13PM	20	at all. I think the claimant made a choice not to 03:25:10PM
21	evidence at all, and I don't think that it would 03:24:15PM	21	proceed with Mr. Mars in his testimony in this way 03:25:13PM
22	apply here. 03:24:17PM	22	in their witness statements, but even, you know, 03:25:16PM
23	Now, here is my more general 03:24:18PM	23	if the Tribunal is interested, I recognize sort of 03:25:17PM
24	formass consideration. It evises from the 02:24:20DM	24	a fundamental imbalance in the way that we can 02:25:10DM

03:24:20PM

a fundamental imbalance in the way that we can

proceed here, and I think that's my concern from a 03:25:22PM

03:25:19PM

fairness consideration. It arises from the

particular status of Mr. Mars.

number of years later, nine years later, we're 03:33:58PM
here. 03:34:00PM

Q. Okay. Mr. Mars, before 03:34:01PM
my friend from Canada asks you some questions, I'd 03:34:05PM
like to ask you questions with respect to things 03:34:08PM
that have origon out of a well first of all 03:34:10PM

that have arisen out of -- well, first of all, 03:34:10PM

Canada's counsel, Mr. Spelliscy, in his opening, 03:34:18PM

asserted that -- made assertions that Windstream 03:34:21PM

had not been expending the funds that it had 03:34:27PM

stated it intended to spend in the fall of 2010. 03:34:29PM

Could you comment on that 03:34:34PM

Could you comment on that 03:34:34PM assertion, please? 03:34:37PM

A. Sure. So the funds that 03:34:38PM were detailed specifically in the document that I 03:34:41PM believe was -- was raised in the opening 03:34:44PM statements, those were funds to push the project 03:34:46PM forward. We began to expend those funds and I had 03:34:48PM approved the expenditure of those funds, and 03:34:51PM unfortunately, a lot of the funds that were in 03:34:53PM

Page 265

specific drilling, then different things that you 03:35:00PM would need to do about the site attributes. 03:35:03PM We tried to get permits for 03:35:05PM those, from the Ontario government or from the 03:35:07PM relevant agencies, but were not awarded any 03:35:10PM permits to actually move forward. And ultimately 03:35:13PM most of which was basically -- I don't want to say 03:35:16PM blocked because it was just not approved because 03:35:20PM they said there was not setback rules in place, so 03:35:22PM they couldn't actually allow us to go forward, at 03:35:24PM which point we wound up claiming a force majeure 03:35:27PM that got backdated to -- to November 22, although 03:35:31PM we had asked for it from the start of the 03:35:36PM contract, but -- they backdated it to November 22. 03:35:39PM And we spent every penny that we could, but we 03:35:43PM were blocked in many instances from spending the 03:35:45PM money, not through our sources, but, really, 03:35:48PM through regulatory non-approval, I guess you would 03:35:51PM call it. 03:35:55PM 03:35:56PM Q. Secondly, in response to

that budget were related to REA work as well as to 03:34:55PM

Q. Secondly, in response to 03:35:56PM

-- this is a question in response to Green 03:36:02PM

Giraffe's Rejoinder report. And in that report, 03:36:04PM

Green Giraffe makes comments about the turbine 03:36:09PM

supply agreement and talks about the fact that it 03:36:13PM

Page 266

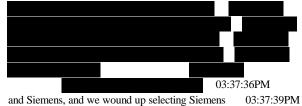

wasn't bankable and also says that, if it was to 03:36:16PM be negotiated further, that the prices would 03:36:19PM actually go up. And he also makes comments in the 03:36:24PM schedule. Could you respond to those, please? 03:36:28PM

A. Yes. So on -- on the 03:36:30PM surface of it being bankable, I agree 100 percent 03:36:33PM with what the gentleman from Green Giraffe said. 03:36:36PM It wasn't bankable.

The purpose of that 03:36:40PM contract was we were sighing up to a FIT contract 03:36:42PM specifically for something that was put in front of us by the OPA and really put in front of all 03:36:45PM wind proponents, and it was a waiver of an NTP -- 03:36:49PM or it was called the NTP waiver, it was a waiver of a clause in the contract. And you had to sign up for a turbine supply agreement to get that. 03:36:55PM

We basically had four months 03:37:01PM from beginning to end to actually do that, and, in 03:37:03PM that time frame, we also needed to certify that 03:37:05PM that turbine supply -- supplier would be able to 03:37:08PM meet the 50 percent domestic content requirements 03:37:11PM along with other parties that we were bringing in 03:37:14PM to the -- to the contract. 03:37:17PM

Page 267

and Siemens, and we wound up selecting Siemens 03:37:39PM and -- however, with that said, you can't really 03:37:42PM enter into a turbine supply agreement if you don't 03:37:45PM have a date of delivery. 03:37:48PM

So we were sort of in this -- 03:37:49PM this position where we were being asked to do one 03:37:51PM thing, and, on the other side, had no ability to 03:37:54PM really effect it. 03:37:57PM

 $So \ we focused our primary \\ negotiations \ with Siemens on our ability to \\ our ability$

In terms of the price 03:38:13PM schedule, which this is -- I know a lot has been 03:38:14PM made about the price schedule, the payment terms, 03:38:16PM and the delivery date. We didn't actually 03:38:18PM negotiate that at all. It was put in at the end 03:38:19PM of the process. And it was put in specifically 03:38:22PM

Page 268 Page 269 1 1 because Siemens 03:39:29PM in URS' Rejoinder report, there's some specific 2 additional statements about investors' willingness 03:39:35PM 3 and ability to expend funds before financial 03:39:37PM 4 close. Could you please respond to those 03:39:39PM 5 03:38:36PM statements? 03:39:41PM 6 6 A. Yes. So I believe -- and 03:39:42PM So they put in the schedules. 03:38:37PM 7 7 We signed the contract effectively probably the I'm not looking at their report in front of me, so 03:39:44PM 03:38:38PM 8 next day or the day after, and we moved forward, 03:38:41PM 8 if I -- if I misstate anything, you know, I'm 03:39:46PM 9 9 but there was no reason for us to actually 03:38:43PM happy to grab that section of the report and read 03:39:48PM 10 10 negotiate on those points because, at the end of 03:38:45PM it to you. 03:39:51PM 11 the day, what was important to us was the ability 03:38:48PM 11 But I believe what they were 03:39:51PM 12 to truly negotiate at the time that we would have 12 03:38:51PM inferring is they were stating that, number one, 03:39:53PM 13 been able to go forward, and we didn't know what 13 we had no commitment to actually expend funds on 03:39:56PM 03:38:54PM 14 14 that was. That could have been, you know, months. 03:38:56PM development, and, you know, that's false. It's in 03:39:59PM 15 1.5 It could have been years. It could have been 03:38:58PM multiple witness statements, including that of my 03:40:02PM 16 16 decades. We just didn't know because we with 03:39:00PM business partner. And, two, we had no ability to 03:40:04PM 17 17 weren't provided -- we weren't provided from the 03:39:02PM do that. 03:40:07PM 18 -- the OPA, the Ministries, anything in terms of 03:39:06PM 18 And so from the same time 03:40:07PM 19 how long the moratorium was going to be or what 19 frame as actually being awarded this contract back 03:40:09PM 03:39:10PM 20 20 in May of 2010 to today, our business partners, they were studying at all. They never have -- as 03:39:12PM 03:40:12PM 21 21 a proponent to the contract, they have never 03:39:15PM all of our investors, our investor group, we have 03:40:17PM 22 22 03:39:17PM expended substantial funds in many other 03:40:19PM actually spoken to us about, even up to this day 23 23 as we sit here, about what it is they're studying 03:39:20PM countries, many other companies, including a 03:40:22PM pipeline business. One of our business partners 24 and how long it's going to take. 03:39:23PM 24 03:40:25PM 25 Q. And, finally, Mr. Mars, 03:39:26PM 25 has expended, I think at this point with the 03:40:28PM Page 270 Page 271 1 1 CROSS-EXAMINATION BY MS. KAM: 03:41:28PM currency exchange rate, about a billion dollars 03:40:30PM 2 2 for new vessels in the exact same time frame, and 03:40:31PM Q. Good afternoon, Mr. Mars. 03:42:11PM 3 3 they're all -- actually, as of today, I think 03:40:35PM My name is Susanna Kam, and I am counsel for the 03:42:12PM 4 they're all launched and operating. And other 03:40:37PM 4 Government of Canada. I will be asking you a 03:42:15PM 5 5 series of questions today regarding your testimony 03:42:17PM projects that we are involved in. 03:40:39PM 6 So for them to make the 03:40:41PM 6 in this arbitration. It's important that we 03:42:20PM 7 7 understand each other, so if at any time you don't 03:42:23PM statement in there, I just want to clarify that we 03:40:42PM 8 8 understand my question, please just let me know, 03:42:26PM were prepared to spend the money to get to 03:40:45PM 9 9 and I can clarify. 03:42:28PM financial close, and we were prepared to move this 03:40:46PM 10 10 If the answer to my question 03:42:30PM forward. Unfortunately, we were unable to 03:40:49PM 11 11 is a yes or no, please ensure that you answer that 03:42:31PM actually do that because it was blocked, and then 03:40:51PM 12 12 way first. Then you may offer additional with the -- first with sort of the setback and 03:40:54PM 03:42:34PM 13 13 explanation if you feel it's necessary. 03:42:37PM then ultimately with the moratorium. 03:40:56PM 14 14 If you need to take a break, And you can see in the record 03:40:59PM 03:42:40PM 15 15 please also let me know, and I can find an 03:42:42PM we put in numerous times requests to do lots of 03:41:00PM 16 16 different steps, and none of which was actually - 03:41:04PM appropriate time to do so as soon as possible. 03:42:44PM 17 17 you know, we weren't allowed to do any of them. 03:41:08PM So before we begin, I just 03:42:46PM 18 18 Q. Those were my questions. 03:41:11PM want to mention that I will be referring to a 03:42:49PM 19 19 number of exhibits during my questions, and 03:42:51PM Thank you. 03:41:13PM 20 20 they're contained in the binder in front of you. 03:42:53PM PRESIDENT: Thank you, 03:41:15PM 21 21 What I when I ask you to turn to these documents, 03:42:56PM Mr. Terry. 03:41:15PM 22 22 I will refer to the exhibit number, for the 03:42:59PM And it will be? 03:41:17PM 23 23 record, as well as the tab number in your binder 03:43:00PM MR. NEUFELD: Ms. Kam. 03:41:20PM 24 24 03:43:03PM PRESIDENT: Ms. Kam for the so you can locate the document. 03:41:27PM

7	caution you that some of the information regarding 03:43:21PM	7	A. 2007? Yes. 03:44:14PM
8	specific investments has been designated as 03:43:23PM	8	Q. And other than Windstream 03:44:16PM
9	confidential. So if you wish to elaborate on the 03:43:26PM	9	Energy LLC, none of White Owl's investments are 03:44:18PM
10	details of a specific investment in your response, 03:43:29PM	10	renewable energy companies? 03:44:21PM
11	please just let me know in advance, and I can ask 03:43:32PM	11	A. None of White Owl's other 03:44:22PM
12	to cut the public feed. 03:43:34PM	12	investments are renewable energy companies. It's 03:44:25PM
13	So you're a private equity 03:43:36PM	13	well, no, I actually take that back. 03:44:27PM
14	investor with more than 10 years of experience; 03:43:39PM	14	We have an investment in a 03:44:30PM
15	correct? 03:43:41PM	15	company called West Wind Energy. They're a 03:44:31PM
16	A. That is correct. 03:43:42PM	16	Wyoming-based wind farm company. We also have 03:44:34PM
17	Q. And this includes 03:43:43PM	17	some other investments that are no longer in our 03:44:38PM
18	companies in the energy, technology, and media 03:43:45PM	18	portfolio, but one was a biocrude investment and 03:44:41PM
19	sectors? 03:43:47PM	19	but it's not in our portfolio anymore. It was 03:44:47PM
20	A. That's correct. 03:43:49PM	20	sold. 03:44:51PM
21	Q. However, prior to 03:43:50PM	21	Q. Okay. But other than 03:44:51PM
22	founding White Owl, you were not involved in 03:43:52PM	22	Windstream Wolfe Island Shoals Inc., none of these 03:44:54PM
23	investing in any renewable energy companies? 03:43:54PM	23	companies were involved in the development of an 03:44:56PM
24 25	A. That's correct. 03:43:57PM	24 25	offshore wind project? 03:44:58PM A. That is correct. 03:44:59PM
25	Q. And prior to Windstream, 03:43:58PM	23	A. That is confect. 05.44.59FW

I do not believe they 03:45:55PM have any experience in offshore wind. They have a 03:45:57PM lot of experience in the marine space and 03:46:00PM developing offshore drill rigs and obviously I 03:46:02PM stated earlier in developing ships, but I'm not 03:46:06PM

And prior to investing in 03:45:08PM Windstream, none of these other investors had any 03:45:09PM prior experience in renewable energy? 03:45:13PM A. I'm not sure, so I can't 03:45:14PM	2 3 4 5 6 7 8	projects? 03:45:54PM A. I do not believe they 03:45:55PM have any experience in offshore wind. They have a 03:45:57PM lot of experience in the marine space and 03:46:00PM developing offshore drill rigs and obviously I 03:46:02PM stated earlier in developing ships, but I'm not 03:46:06PM I don't believe they have specific direct 03:46:10PM offshore wind experience, but they have developed 03:46:11PM
2 3 4 5 6 7 8	Q. Okay. So aside from 03:45:00PM White Owl, Windstream has other private investors; 03:45:02PM correct? 03:45:04PM A. Well, yes. 03:45:05PM Q. And prior to investing in 03:45:08PM Windstream, none of these other investors had any 03:45:09PM prior experience in renewable energy? 03:45:13PM A. I'm not sure, so I can't 03:45:14PM I can't answer that 100 percent. I I 03:45:19PM	2 3 4 5 6 7 8	projects? O3:45:54PM A. I do not believe they 03:45:55PM have any experience in offshore wind. They have a 03:45:57PM lot of experience in the marine space and 03:46:00PM developing offshore drill rigs and obviously I 03:46:02PM stated earlier in developing ships, but I'm not 03:46:02PM I don't believe they have specific direct 03:46:10PM offshore wind experience, but they have developed 03:46:11PM I think they you know, I'd say it's probably 03:46:14PM
2 3 4 5 6 7 8 9	Q. Okay. So aside from 03:45:00PM White Owl, Windstream has other private investors; 03:45:02PM correct? 03:45:04PM A. Well, yes. 03:45:05PM Q. And prior to investing in 03:45:08PM Windstream, none of these other investors had any 03:45:09PM prior experience in renewable energy? 03:45:13PM A. I'm not sure, so I can't 03:45:14PM I can't answer that 100 percent. I I 03:45:19PM believe they haven't, but I'm not entirely sure, 03:45:21PM	2 3 4 5 6 7 8 9	projects? A. I do not believe they 03:45:55PM have any experience in offshore wind. Okay. So let's turn to 03:46:20PM paragraph 23 of your first witness statement in 03:46:22PM the Memorial. 03:46:25PM A. Is that in here or in 03:46:26PM here? 03:46:28PM Q. I believe your counsel 03:46:28PM provided you with copies of your witness 03:46:31PM A. Okay. Which page? 03:46:31PM Q. Paragraph 23. And it 03:46:32PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. Okay. So aside from 03:45:00PM White Owl, Windstream has other private investors; 03:45:02PM correct? 03:45:04PM A. Well, yes. 03:45:05PM Q. And prior to investing in 03:45:08PM Windstream, none of these other investors had any 03:45:09PM prior experience in renewable energy? 03:45:13PM I can't answer that 100 percent. I I 03:45:19PM believe they haven't, but I'm not entirely sure, 03:45:21PM because some of our investors are pretty large in 03:45:23PM LPs and big private equity funds 03:45:27PM Q. Okay. 03:45:29PM A as well as they do a 03:45:30PM lot of co-investing and direct investing, so I 03:45:31PM can't speak to and in terms of them not being 03:45:35PM part of White Owl, we we consider them what you 03:45:37PM call limited partners, so I would be a general 03:45:39PM we do the primary amount of the work, and they 03:45:45PM they'll put money in and as well, you know, 03:45:48PM participate as requested. 03:45:49PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	projects? A. I do not believe they 03:45:55PM have any experience in offshore wind. They have a 03:45:57PM lot of experience in the marine space and 03:46:00PM developing offshore drill rigs and obviously I 03:46:02PM stated earlier in developing ships, but I'm not 03:46:06PM I don't believe they have specific direct 03:46:10PM offshore wind experience, but they have developed 03:46:11PM I think they you know, I'd say it's probably 03:46:14PM about \$10 or \$15 billion worth of offshore drill 03:46:16PM rigs. 03:46:20PM Q. Okay. So let's turn to 03:46:20PM paragraph 23 of your first witness statement in 03:46:22PM the Memorial. 03:46:25PM A. Is that in here or in 03:46:26PM here? 03:46:28PM Q. I believe your counsel 03:46:28PM provided you with copies of your witness statement. 03:46:31PM A. Okay. Which page? 03:46:31PM Q. Paragraph 23. And it 03:46:32PM states here that, in 2007, you and Mr. William 03:46:43PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. Okay. So aside from 03:45:00PM White Owl, Windstream has other private investors; 03:45:02PM correct? 03:45:04PM A. Well, yes. 03:45:05PM Q. 1	Q. And in paragraph 25 03:46:52PM	1	logistics for the current Wolfe Island project and 03:48:03PM
2	so, in paragraph 25, it states that you were first 03:47:06PM	2	bringing the turbines here and and developing 03:48:06PM
3	introduced to Mr. Ian Baines in July 2007. 03:47:09PM	3	something that that needed underwater cables 03:48:10PM
4	A. Yes, that's what it 03:47:15PM	4	and everything else, he did not have experience in 03:48:13PM
5	states. 03:47:16PM	5	developing an offshore wind farm. 03:48:15PM
6	Q. And so you were 03:47:16PM	6	Q. Right. But that prior 03:48:17PM
7	interested in working with Mr. Baines because of 03:47:17PM	7	experience related to the onshore Wolfe Island 03:48:18PM
8	his past experience in the wind energy sector; 03:47:19PM	8	Shoals project; correct? 03:48:21PM
9	right? 03:47:22PM	9	A. Yes, that's correct. 03:48:22PM
10	A. Yes. We were interested 03:47:23PM	10	Which is, as you guys have obviously seen, it's 5 03:48:23PM
11	in working with him because of his experience, 03:47:24PM	11	kilometres from the the project we were 03:48:27PM
12	specifically with the projects that were detailed 03:47:27PM	12	proposing. 03:48:29PM
13	in the opening statement, Melancthon and the Wolfe 03:47:29PM	13	Q. So let's turn now to 03:48:30PM

15	hydro and gas-fired power plants and a number of 03:47:36PM	15	And it states here that you first learned about 03:48:47PM
16	other projects in Ontario. So we were interested 03:47:41PM	16	the possibility of developing an offshore wind 03:48:49PM
17	in it from the perspective of he had developed 03:47:43PM	17	project on the Wolfe Island Shoals from Mr. Baines 03:48:52PM
18	wind projects in Ontario or he had developed wind 03:47:45PM	18	in 2007; correct? 03:48:54PM
19	projects and then had specific experience in the 03:47:48PM	19	A. That's correct. I don't 03:48:56PM
20	province of Ontario that we were attempting to 03:47:50PM	20	remember exactly when it was, but at some point 03:49:00PM
21	enter. 03:47:52PM	21	it was either 2007 or very early 2008 we 03:49:02PM
22	Q. Okay. But you would 03:47:53PM	22	actually travelled to Wolfe Island, and I got the 03:49:05PM
23	agree that Mr. Baines did not have any prior 03:47:54PM	23	opportunity to ride the ferry over with Mr. Baines 03:49:08PM
24	experience in developing an offshore wind project? 03:47:56PM	24	and, you know, see the response he got from the 03:49:11PM
25	A. Other than the overlap in 03:48:00PM	25	landowners. Actually, one of them on the ferry 03:49:14PM

1	So as each of these steps 03:51:29PM	1	first in line, and they were requiring us to apply 03:52:32PM
2	happened in sort of sequential order, we looked at 03:51:31PM	2	in that period. 03:52:35PM
3	each one, and we moved the project a little bit 03:51:34PM	3	So at all of these steps along 03:52:36PM
4	more forward, a little bit more forward, a little 03:51:37PM	4	the way, they weren't were to some degree. 03:52:38PM
5	bit more forward. Had any of these steps, like, 03:51:40PM	5	[Reporter's note: Technical problem with 03:52:43PM
6	for instance, it not be included in the FIT 03:51:44PM	6	microphone.] 03:52:44PM
7	program, we clearly wouldn't have applied for the 03:51:46PM	7	THE WITNESS: They were to 03:52:49PM
8	FIT program. 03:51:49PM	8	some degree binary. If the government or I'm 03:52:51PM
9	If it if they hadn't said, 03:51:49PM	9	sorry. I apologize. If the agencies of the 03:52:55PM
10	encouraged us with the FIT application, you know, 03:51:51PM	10	government had not said, "You can do this step," 03:52:58PM
11	to apply, we not only wouldn't have done it, but 03:51:53PM	11	we couldn't move forward, and you can do this 03:53:01PM
12	we physically couldn't because one of the 03:51:56PM	12	step, and you can do this step. So some of them 03:53:03PM
13	attributes of the FIT program was that you had to 03:51:59PM	13	were speeches that we relied on the certainty, but 03:53:05PM
14	have the land. 03:52:01PM	14	some of them were very specific gating periods 03:53:08PM
15	And so we actually had no 03:52:02PM	15	that had the government not stepped up and said, 03:53:11PM
16	ability to apply into the FIT program without the 03:52:04PM	16	"Please go forward. Here's what we're going to 03:53:14PM
17	land until the MNR, through this letter, said: 03:52:08PM	17	propose to you," we wouldn't actually be sitting 03:53:16PM
18	Are you guys not only must apply or should apply, 03:52:11PM	18	here right now. 03:53:19PM
19	but you must apply to keep that Crown land 03:52:15PM	19	Q. Okay. So we're going to 03:53:20PM
20	position, and you must apply. 03:52:17PM	20	get into each of those specific documents, but I 03:53:21PM
21	And the FIT program had 03:52:19PM	21	just want to confirm, though, these are all of the 03:53:24PM
22	multiple stages, and the first of which was this 03:52:20PM	22	representations that you relied on in determining 03:53:26PM
23 24	what they called this early I'm blanking on 03:52:24PM	23 24	that you would move forward with the project? 03:53:28PM
25	it. It was the the original period. It was a 03:52:28PM very small window that you had to apply to be 03:52:30PM	25	A. I don't know that these 03:53:30PM
23	very small window that you had to apply to be 03:32:30FM	23	are all of the representations. These are a set 03:53:31PM
	Page 282		Page 283
1	of the representations. There were probably 03:53:34PM	1	Crown land applications for onshore and offshore 03:54:29PM
2	additional things that we were I mean, we were 03:53:36PM	2	wind projects. 03:54:32PM
3	in the marketplace. We were speaking to other 03:53:40PM	3	Do you see that? 03:54:33PM
4	investors. We were speaking to banks. We were 03:53:42PM	4	A. Yes. 03:54:34PM
5	doing a lot of other diligence. 03:53:43PM	5	Q. And so approximately 03:54:36PM
6	So beyond this set of 03:53:45PM	6	two-thirds down the page, it states that: 03:54:38PM
7	representations, there was a lot of other 03:53:46PM	7	"All applicants must 03:54:41PM
8	information that was available to us as we went 03:53:49PM	8	undergo a review before 03:54:42PM
9	through our diligence process as we moved this 03:53:51PM	9	they can be awarded 03:54:43PM
10	project along. 03:53:53PM	10	applicant of record 03:54:44PM
11	Q. Okay. So let's go to 03:53:54PM	11	status." 03:54:45PM
12	Exhibit C-0058, which is at Tab 1 of your binder. 03:53:56PM	12	It is about two-thirds down. 03:54:46PM
13	A. Tab 1? 03:54:04PM	13	So if you look at the screen. Donnie has 03:54:51PM
14 15	Q. Mm-hmm. 03:54:05PM	14 15	highlighted it for you. 03:54:54PM
16	A. Yes. 03:54:06PM	16	So, Mr. Mars, you would agree 03:54:56PM
17	Q. And so, for the record, 03:54:07PM this is a press release from the Ministry of 03:54:08PM	17	that merely applying for Crown land did not 03:55:05PM
18	- · · · · · · · · · · · · · · · · · · ·	18	guarantee that Applicant of Status would have been 03:55:08PM
19	Natural Resources, which is titled, "Ontario Lays 03:54:10PM Foundation for Offshore Wind Power," dated January 03:54:13PM	19	awarded? 03:55:10PM A. I don't know that we've 03:55:12PM
20	17, 2008; right? 03:54:15PM	20	ever made the assertion that applying for Crown 03:55:13PM
21	And in this press release 03:54:18PM	21	land meant that it would be awarded and that we 03:55:16PM
22	Natural Resources Minister Donna Cansfield 03:54:22PM	22	would we would move forward. 03:55:20PM
23	announced that the Ontario government has lifted 03:54:22PM	23	You know, we relied on on 03:55:21PM
24	the deferral on existing proposals for offshore 03:54:24PM	24	obviously this to to put in the application, 03:55:22PM
25	wind projects and that it would be accepting new 03:54:27PM	25	but, again, had the Ministry not come back and 03:55:26PM

	Page 284		Page 285
1	come back with this letter, we wouldn't have been 03:55:30PM	1	island and said, this 03:56:44PM
2	able to move forward. 03:55:32PM	2	PRESIDENT: Please go ahead. 03:56:50PM
3	THE WITNESS: So if they I'm 03:55:34PM	3	THE WITNESS: I'm sorry. So 03:56:52PM
4	killing these mics. Is it because you need it in 03:55:36PM	4	as I said before, we stood on that that shore 03:56:53PM
5	the system, or can I just speak loudly? 03:55:41PM	5	of the island and said, "Wow, this would be 03:56:55PM
6	MS. NETTLETON: It needs to be 03:55:44PM	6	something that would be would be something we 03:56:57PM
7	in the system. 03:55:45PM	7	would have some interest in moving forward with." 03:56:59PM
8	[Reporter's Note: Technical difficulty with 03:55:48PM	8	Obviously on that date I mean, I you know, 03:57:01PM
9	mic system.] 03:55:51PM	9	we didn't do the proper due diligence on that date 03:57:04PM
10	BY MS. KAM: 03:56:04PM	10	way back in either late 2007 or early 2008. 03:57:06PM
11	Q. I think you have to turn 03:56:04PM	11	However, as we started to step 03:57:09PM
12	it on. 03:56:05PM	12	through this, the first thing was they said, "Can 03:57:12PM
13	A. Sorry. So I think what I 03:56:06PM	13	you apply? You can now apply." 03:57:14PM
14	was thank you. Seriously technologically 03:56:07PM	14	So from this step forward, we 03:57:15PM
15	challenged here for me; right? 03:56:11PM	15	went and we did a whole bunch of work to see, 03:57:17PM
16	MR. TERRY: Take that one. 03:56:14PM	16	well, where do we want to apply? And because 03:57:20PM
17	THE WITNESS: So I think where 03:56:23PM	17	we weren't trying to go which a pray-and-spray 03:57:22PM
18	I was and what I was saying is that, you know 03:56:24PM	18	approach. We wanted to be very conscious in what 03:57:25PM
19	this this only granted this this this 03:56:27PM	19	we were doing, and it wasn't just offshore. As 03:57:27PM
20	press release here basically said, look, we're 03:56:31PM	20	you can see here, it was onshore. 03:57:30PM
21	going to actually now lift this deferral or move 03:56:33PM	21	And so we actually applied for 03:57:31PM
22	on from this deferral and allow people to apply in 03:56:36PM	22	hundreds of thousands of acres in total, and it 03:57:33PM
23	for offshore wind. 03:56:39PM	23	was after doing a lot of research, but that did 03:57:36PM
24	So, as I said when I 03:56:41PM	24	not mean that, at that point, we were committed to 03:57:39PM
25	before, we stood on the shore of, you know, this 03:56:42PM	25	building a project. 03:57:41PM

1	enacted as law. I think the previous process, 03:59:47PM	1	And so we were not relying on 04:00:50PM
2	which we thought was going to be in place at the 03:59:50PM	2	any one individual thing. We were relying on the 04:00:53PM
3	time, was the RFP process that pre-dated this. 03:59:52PM	3	aggregation of everything that we knew, learned, 04:00:56PM
4	This was just an exciting new, you know, program 03:59:57PM	4	studied, and all of these things that were put out 04:01:00PM
5	that captured everything that an investor could 04:00:00PM	5	there into into public domain. 04:01:03PM
6	possibly want, you know, simplicity, certainty, 04:00:03PM	6	Q. But you would agree 04:01:06PM
7	you know, something really exciting. Something 04:00:06PM	7	what's important are the specific regulatory 04:01:07PM
8	that was building upon the amazingness that was 04:00:08PM	8	requirements that applied to your project; right? 04:01:10PM
9	going on in in Europe. 04:00:11PM	9	A. I would actually say 04:01:13PM
10	Q. And now, Mr. Mars, you 04:00:12PM	10	what's most important is that your counterparty in 04:01:14PM
11	would agree that, in deciding to invest in an 04:00:14PM	11	an agreement is 100 percent behind building it and 04:01:18PM
12	offshore wind project, that a prudent investor 04:00:17PM	12	100 percent behind wanting it. 04:01:24PM
13	would not rely solely on the general statements of 04:00:19PM	13	And so, you know, if none of 04:01:26PM
14	public officials, but instead on specific rules 04:00:21PM	14	this had existed, none of this framework, you 04:01:28PM
15	and regulatory requirements; right? 04:00:25PM	15	know, all of the from the Ministers all the way 04:01:32PM
16	A. We relied on a lot of 04:00:29PM	16	up to the Premier pushing this, I would agree with 04:01:35PM
17	things. So I don't think that any prudent 04:00:30PM	17	maybe what you're saying. But I think, at the end 04:01:39PM
18	investor would rely on any one of those individual 04:00:32PM	18	of the day, for me, we have to look at everything 04:01:41PM
19	items you just you just mentioned. 04:00:34PM	19	in aggregate. 04:01:43PM
20	We we do a lot of due 04:00:37PM	20	And I don't think this 04:01:44PM
21	diligence. And the way that that projects work 04:00:38PM	21	permits 04:01:46PM
22	or even investments is you start at the top of the 04:00:40PM	22	[Reporter's Note: Technical difficulty with 04:01:48PM
23	funnel with a lot of projects, and you go through 04:00:44PM	23	mic.] 04:01:49PM
24	various screens, and at the end of it, what comes 04:00:46PM	24	PRESIDENT: Maybe we should 04:01:54PM
25	out is the purest of the pure. 04:00:49PM	25	have a technical review of the microphones at the 04:01:55PM

2	please. 04:02:04PM	2	A. It's a pretty long title. 04:02:45PM
3	THE WITNESS: All I was 04:02:05PM	3	Q. Right. And despite the 04:02:46PM
4	saying is this on? 04:02:06PM	4	long title, you would agree that this is the 04:02:47PM
5	BY MS. KAM 04:02:06PM	5	legislation enacted by the government, which is 04:02:49PM
6	Q. Yes. 04:02:06PM	6	also known as the Green Energy and Green Economy 04:02:51PM
7	A. Sorry. All I was saying 04:02:10PM	7	Act and GEGEA or GEGEA, which Mr. Smitherman 04:02:55PM
8	is that, at the end of the day, you look at 04:02:11PM	8	was talking about in his speech. 04:02:57PM
9	everything as an investor. You don't just base it 04:02:13PM	9	A. I would assume so. 04:03:00PM
10	on one individual thing. 04:02:15PM	10	Q. Okay. And just below the 04:03:02PM
11	Q. But part of the things 04:02:16PM	11	title of the Act it states that: 04:03:03PM
12	that you would have looked at would have included 04:02:18PM	12	"The legislation received 04:03:04PM

1	Q. Okay. So let's go to 04:03:26PM	1	the rules or the requirements for the FIT program 04:04:08PM
2	Section 25.35(1) of the Electricity Act, and I've 04:03:29PM	2	or how it would operate? 04:04:11PM
3	flagged it for you. It's around page 15. 04:03:32PM	3	A. I'm not sure based on 04:04:14PM
4	A. 25? Say again. 04:03:36PM	4	that definition. I would agree with that. I 04:04:15PM
5	Q. 25.35(1). 04:03:38PM	5	would have to go back and and you know, it's 04:04:18PM
6	A. Yep. 04:03:41PM	6	been it's been five years, so I'd have to go 04:04:20PM
7	Q. And for the record, this 04:03:42PM	7	back and reread all of this. 04:04:22PM
8	provision is titled, "The Feed-In Tariff program," 04:03:43PM	8	Q. Okay. But you're not 04:04:24PM
9	and it states that: 04:03:46PM	9	specifically aware of any provision in the GEGEA? 04:04:25PM
10	"The Minister may direct 04:03:46PM	10	A. I'm not specifically 04:04:28PM
11	the OPA to develop a 04:03:47PM	11	aware in here, but it's possible that it exists, 04:04:31PM
12	Feed-In Tariff program 04:03:49PM	12	but obviously this was one part of a program, you 04:04:34PM
13	that is designed to 04:03:50PM	13	know. You weren't applying at this point. You 04:04:38PM

21	may require." 04:04:01PM	21	Q. Yes. And so this 04:04:54PM
22	Do you see that? 04:04:02PM	22	provision is titled, "Requirement for renewable 04:04:56PM
23	A. Yes. 04:04:03PM	23	energy Approval." And it states that: 04:05:00PM
24	Q. But you would agree that 04:04:03PM	24	"A person shall not 04:05:01PM
25	the GEGEA does not provide any details regarding 04:04:05PM	25	engage in a renewable 04:05:02PM

2	under the authority of 04:05:04PM	2	A. I honestly don't remember 04:06:02PM
3	and in accordance with a 04:05:06PM	3	exactly where it was, but it was a strong tenet of 04:06:04PM
4	renewable energy approval 04:05:07PM	4	the FIT program. You know, there were a number of 04:06:08PM
5	issued by the Director." 04:05:08PM	5	a number things that were part of the FIT 04:06:10PM
6	Right? 04:05:10PM	6	contract effectively or this entire program that 04:06:11PM
7	A. I mean, that's what it 04:05:13PM	7	made up ultimately what you would be required to 04:06:15PM
8	says, and then it clearly has a whole set of other 04:05:14PM	8	do. 04:06:17PM
9	things here. 04:05:16PM	9	Q. Okay. So let's go to 04:06:18PM
10	Q. Okay. But you would 04:05:17PM	10	Exhibit R-0072, which is at Tab 4 of your binder. 04:06:21PM
11	agree that nothing in the GEGEA specifies the 04:05:18PM	11	And this is a Regulation Decision Notice, which 04:06:29PM
12	requirements or the process for applying for 04:05:22PM	12	was posted on Ontario's Environmental Bill of 04:06:31PM
13	renewable energy approval? 04:05:24PM	13	Rights Registry, titled "Proposed Ministry of the 04:06:34PM
14	A. I mean, I don't know 04:05:27PM	14	Environment Regulations to Implement the Green 04:06:38PM

17	this in many years. You know, I know, when we 04:05:31PM	16	So it states in the first 04:06:43PM
18	signed up for the FIT contract, it did have all 04:05:35PM	17 18	sentence that: 04:06:45PM
19	these definitions that you're referring to, but I 04:05:38PM	19	"On September 24, 2009, 04:06:45PM

5	A. I don't remember the 04:07:12PM	5	A. The one that starts with 04:08:09PM

12	So that letter is dated 04:07:27PM	12	water other than 04:08:16PM
13	September 24, 2009; correct? 04:07:29PM	13	wetlands. These 04:08:18PM
14	A. It is. I'm not sure why 04:07:31PM	14	facilities require an REA 04:08:19PM
15	it has a cross through Andersen, and it just says 04:07:35PM	15	and are required to 04:08:21PM
16	Mr. Colin. 04:07:39PM	16	submit an offshore wind 04:08:22PM
17	Q. That's his first name, 04:07:39PM	17	facility report as part 04:08:24PM
18	but I think it was to informalize the letter? 04:07:41PM	18	of the application. The 04:08:25PM
19	A. Okay. So this so this 04:07:44PM	19	Ministry of Environment 04:08:27PM

So we knew that there was 04:10:03PM additional distance from shore to sensitive 04:10:05PM receptor. 04:10:08PM
7 8 9 10 11 12 13 14	that, prior to Windstream's application to the FIT 04:08:43PM program, it was known that Ontario was continuing 04:08:45PM to work on a coordinated approach for offshore 04:08:54PM wind projects? 04:08:50PM A. Well, I mean, it was 04:08:52PM known, and I don't know that we've ever said it 04:08:53PM wasn't, but it was known that they were trying to 04:08:56PM set a setback in place, and obviously, you know, 04:08:58PM we've always assumed a setback is based upon 04:09:02PM noise, because the setbacks for onshore were 04:09:04PM deemed 550 metres from the nearest receptor point, 04:09:08PM	5 6 7 8 9 10 11 12 13 14 15	So we, internally, had always 04:09:44PM thought that the setback would be we never 04:09:48PM thought it would be 5 kilometres, but we did think 04:09:50PM that 550 metres was not going to be what it was. 04:09:52PM And so we took a distance of 2 04:09:54PM kilometres from shore, and specifically on this 04:09:58PM project the nearest home to shore is not right on 04:10:00PM the shoreline. So we knew that there was 04:10:03PM additional distance from shore to sensitive 04:10:05PM receptor. 04:10:08PM So we thought that we had, you 04:10:10PM
7 8 9 10 11 12 13 14 15	that, prior to Windstream's application to the FIT 04:08:43PM program, it was known that Ontario was continuing 04:08:45PM to work on a coordinated approach for offshore 04:08:48PM wind projects? 04:08:50PM A. Well, I mean, it was 04:08:52PM known, and I don't know that we've ever said it 04:08:53PM wasn't, but it was known that they were trying to 04:08:56PM set a setback in place, and obviously, you know, 04:08:58PM we've always assumed a setback is based upon 04:09:02PM noise, because the setbacks for onshore were 04:09:04PM deemed 550 metres from the nearest receptor point, 04:09:08PM and the reason for that is it was based upon 04:09:12PM	5 6 7 8 9 10 11 12 13 14 15	So we, internally, had always 04:09:44PM thought that the setback would be we never 04:09:48PM thought it would be 5 kilometres, but we did think 04:09:50PM that 550 metres was not going to be what it was. 04:09:52PM And so we took a distance of 2 04:09:54PM kilometres from shore, and specifically on this 04:09:58PM project the nearest home to shore is not right on 04:10:00PM the shoreline. 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that, prior to Windstream's application to the FIT 04:08:43PM program, it was known that Ontario was continuing 04:08:45PM to work on a coordinated approach for offshore 04:08:48PM wind projects? 04:08:50PM A. Well, I mean, it was 04:08:52PM known, and I don't know that we've ever said it 04:08:53PM wasn't, but it was known that they were trying to 04:08:56PM set a setback in place, and obviously, you know, 04:08:58PM we've always assumed a setback is based upon 04:09:02PM noise, because the setbacks for onshore were 04:09:04PM deemed 550 metres from the nearest receptor point, 04:09:08PM and the reason for that is it was based upon 04:09:12PM noise. 11	A. Right. And like I said, 04:11:00PM	11 A. No. 04:12:04PM	
12	you could see above it talks about the 550-metre 04:11:02PM	12 Q. You didn't know 04:12:05PM	
13	minimum setback. And so based upon noise, the 04:11:06PM	13 A. I think we we assumed 04:12:06PM	
14	likely outcome of 5 kilometres was actually not 04:11:08PM	at the time of applying for the FIT contract that, 04:12:08PM	
15	something that was likely. I mean, we never 04:11:11PM	if they didn't feel comfortable moving forward 04:12:12PM	
16	contemplated this, because we didn't know. But, 04:11:15PM	with an offshore wind project, they wouldn't give 04:12:15PM	
17	yes, we contemplated it, and we were told at the 04:11:17PM	17 us a contract. 04:12:18PM	
18	time when we received our contract that this was 04:11:20PM	So we we applied and the 04:12:19PM	
19	the issue that they still needed to work out. And 04:11:23PM	province, or at least the Ontario Power Authority, 04:12:24PM	
20	it's a reason why our contract was extended. We 04:11:25PM	provided us with a winning contract that I think 04:12:26PM	
21	didn't just sign our contract back. We wanted to 04:11:29PM	you guys saw earlier in the day, the notice. 04:12:29PM	
22	understand what that meant and get clarity around, 04:11:31PM	So, you know, as you go 04:12:31PM	
23	what was the setback; right? 04:11:34PM	through these things, we never anticipated that 04:12:33PM	
24	Again, you asked about being a 04:11:36PM	the counterparty and I know I said it in my 04:12:36PM	
25	prudent investor and a prudent developer. Well, I 04:11:38PM	witness statement, but we never anticipated the 04:12:39PM

So, Mr. Mars, we 04:14:04PM will get to the FTT contract in a bit, but perhaps 04:14:06PM before we get there, I'd just like to go through a 04:14:08PM few more letters and exhibits relating to the 04:14:11PM Ontario Government. 04:14:15PM A. Sure. 04:14:16PM Q. Okay? So let's go to 04:14:16PM Exhibit C-0140, which is at Tab 5 of your binder. 04:14:18P And so this is a policy proposal notice, which is 04:14:26PM also posted on the EBR registry, titled: 04:14:30PM Power and Wind Power Site 04:14:30PM	PM 1
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	counterparty which ultimately is the province. I 04:12:42PM know there's some discussion about the OPA, but 04:12:44PM the reality is the province is the counterparty to 04:12:44PM these contracts. Otherwise, you know, to be 04:12:48PM honest, a thinly capitalized company wouldn't be 04:12:50PM viewed as credible for maintaining tens of 04:12:53PM billions of dollars worth of contracts. 04:12:57PM So we always believed that, at 04:13:00PM the end of the day, if the province is pushing 04:13:02PM you, if the province is making announcements, if 04:13:04PM the province is providing you with a contract, you 04:13:07PM go forward; right? You look at your screens to 04:13:11PM make sure you feel comfortable about investing, 04:13:14PM but, you know, every single sign was: We want you 04:13:17PM guys to move forward, and they were making 04:13:19PM announcements that they wanted to be the leaders, 04:13:22PM or they're making announcements, and effectively 04:13:27PM North America. 04:13:30PM And we thought, wow, this is a 04:13:31PM	to build a lot more jobs, and you get to build a 04:13:48PM lot more industry by issuing these contracts. 04:13:50PM So the fact that two people 04:13:53PM you know, two people applied, I don't know that 04:13:56P that's relevant. The fact that you gave the 04:13:58PM province provided a contract to us, I do believe 04:14:01PM is relevant. 04:14:03PM Q. Okay. So, Mr. Mars, we 04:14:04PM will get to the FTT contract in a bit, but perhaps 04:14:06PM before we get there, I'd just like to go through a 04:14:08PM few more letters and exhibits relating to the 04:14:11PM Ontario Government. 04:14:15PM A. 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	counterparty which ultimately is the province. I 04:12:42PM know there's some discussion about the OPA, but 04:12:44PM the reality is the province is the counterparty to 04:12:46PM these contracts. Otherwise, you know, to be 04:12:50PM viewed as credible for maintaining tens of 04:12:53PM billions of dollars worth of contracts. 04:12:57PM So we always believed that, at 04:13:00PM the end of the day, if the province is pushing 04:13:02PM you, if the province is making announcements, if 04:13:04PM the province is providing you with a contract, you 04:13:07PM go forward; right? 1	"His notice was 04:14:39PM	1 review of its site release policies and 04:15:23PM
2	originally published on 04:14:39PM	² procedures; right? 04:15:26PM
3	the Environmental 04:14:41PM	A. I would say the answer to 04:15:27PM
4	Registry on September 24, 04:14:42PM	4 this is yes. It appears if you go back and you 04:15:32PM
5	2009." 04:14:43PM	5 look at sort of all of the all of the EBR stuff 04:15:36PM
6	Do you see that? 04:14:45PM	6 and legislations is that the MNR was always 04:15:39PM
7	A. I do see that, yes. 04:14:46PM	7 continually reviewing their site release process 04:15:42PM
8	Q. And so this was also the 04:14:48PM	8 and procedures. 04:15:44PM
9	same date as the REA regulations, the date when 04:14:50PM	9 And so I don't know at this 04:15:45PM
10	they came into force as well as the Minister of 04:14:54PM	point that we fully believed that our project, 04:15:47PM
11	Energy and infrastructure's direction to the OPA 04:14:57PM	which had already applied into an existing 04:15:51PM
12	to create the FIT program; correct? 04:14:59PM	process, and you can see there is a number of 04:15:53PM
13	A. Yes. 04:15:02PM	places where they say the process was in place 04:15:56PM
14	Q. Okay. So let's turn to 04:15:02PM	sort of over and over. I don't know that we could 04:15:58PM
15	the second page. And it states in the first 04:15:04PM	have anticipated that, all of a sudden, the 04:16:01PM
16	paragraph that: 04:15:08PM	process for somebody who already applied, who 04:16:03PM
17	"MNR is undertaking a 04:15:10PM	already put money down, who already did work would 04:16:05PM
18	review of its water power 04:15:11PM	all of a sudden just change. 04:16:08PM
19	and wind power site 04:15:12PM	19 And the other thing is that 04:16:10PM
20	release policies and 04:15:12PM	this is, you know, water power and offshore wind. 04:16:12PM
21	procedures over the 04:15:16PM	21 And the province has a lot of hydro power and a 04:16:15PM
22	coming year." 04:15:16PM	22 lot of hydro that's been applied into the FIT 04:16:19PM
23	And so you would agree that, 04:15:17PM	23 program. 04:16:21PM
24	prior to Windstream's application to the FIT 04:15:19PM	So, you know, I think for both 04:16:22PM
25	program, it was also known MNR was undergoing a 04:15:21PM	parties, it makes sense. And I know, since then, 04:16:25PM

That's actually Tab 6, so 04:17:45PM we can go there right now. 04:17:47PM A. Perfect. Fantastic. 04:17:50PM is dated September 24, 2009. And so for the 04:17:51PM record, this is a letter titled: 04:17:54PM "Wind Power on Crown Land 04:17:59PM Acknowledgement Letter." 04:17:59PM And it's Exhibit C-0144. And 04:17:59PM it's addressed to Mr. Baines from the Minister of 04:18:02PM Natural Resources, Donna Cansfield. 04:18:07PM this letter was sent to all Crown land applicants 04:18:08PM

	Page 308		Page 309
1	it was, but I don't know, because I don't know 04:18:15PM	1	actually disagree with that. And I think the 04:18:59PM
2	what they received. 04:18:18PM	2	at least the intent as we understood it of this 04:19:03PM
3	Q. Okay. 04:18:18PM	3	letter came at the behest of various 04:19:07PM
4	A. But as I understand, it 04:18:19PM	4	counterparty or various industry people who 04:19:11PM
5	was sent to all Crown land, people who applied, 04:18:21PM	5	said, "How can these how can these specific 04:19:14PM
6	specifically in the block when Donna Cansfield 04:18:25PM	6	sites be applied into the FIT if they don't have 04:19:18PM
7	opened it up prior to. 04:18:27PM	7	the land?" 04:19:21PM
8	Q. Okay. And so in the 04:18:30PM	8	So as I said earlier, there is 04:19:21PM
9	sixth paragraph, which is the third from the 04:18:32PM	9	a gating issue on the FIT contract. And the 04:19:23PM
10	bottom, if that's easier to count up, the letter 04:18:33PM	10	gating issue is, if you don't have land, you 04:19:26PM
11	informs applicants that: 04:18:36PM	11	cannot apply. 04:19:28PM
12	"In order to maintain a 04:18:37PM	12	So if you don't have site 04:19:28PM
13	priority position within 04:18:38PM	13	access, you can't apply. 04:19:30PM
14	MNR's site release 04:18:40PM	14	So this letter was sent to 04:19:31PM
15	policy, you must submit 04:18:41PM	15	proponents as best as I understand in relation to 04:19:33PM
16	an application to the FIT 04:18:43PM	16	telling them, "No, no, no, you can apply, because 04:19:35PM
17	program within the FIT 04:18:44PM	17	of this." 04:19:39PM
18	program launch period." 04:18:45PM	18	And it actually, for me, it 04:19:40PM
19	Right? 04:18:46PM	19	not only says you can apply, but it's actually 04:19:42PM
20	A. Yes, yes. 04:18:47PM	20	I think it's encouraging by saying: 04:19:44PM
21	Q. You would agree, though, 04:18:48PM	21	"You must submit an 04:19:47PM
22	that this letter doesn't actually encourage 04:18:49PM	22	application to the FIT 04:19:48PM
23	Windstream to apply to the FIT program, to develop 04:18:52PM	23	program within the FIT 04:19:49PM
24	its offshore wind project? 04:18:54PM	24	program launch period. 04:19:51PM
25	A. No. I think I would 04:18:58PM	25	Otherwise you are going 04:19:52PM
	Page 310		Page 311
	Ç		
1	to lose your priority 04:19:52PM	1	attributes about this. 04:20:42PM
2	position." 04:19:54PM	2	So we actually looked at 04:20:43PM
3	So, I mean, I guess if 04:19:56PM	3	multiple offshore projects when we put our FIT 04:20:45PM
4	everybody was willing to lose their priority 04:19:57PM	4	applications in. And one of them was off the 04:20:47PM
5	position, then they wouldn't have applied; right? 04:20:00PM	5	coast of the Nanticoke coal plant, which we knew 04:20:50PM
6	Q. Okay. Well, I would like 04:20:03PM	6 7	they were closing, so we knew the grid was 04:20:53PM
7 8	to stay on this letter for a little bit longer and 04:20:04PM	8	incredibly strong there. We knew the depth of 04:20:55PM water. We knew we had a pretty good 04:20:57PM
0	take a look now at the fourth paragraph because it 04:20:06PM	"	water. We knew we had a pretty good 04:20:57PM
۵	states that:	٥	
9 1.0	states that: 04:20:09PM	10	understanding of the wind resource, but we didn't 04:20:59PM
10	"The initial applicants 04:20:09PM	10	understanding of the wind resource, but we didn't 04:20:59PM actually apply that into the FIT specifically, 04:21:01PM
10 11	"The initial applicants 04:20:09PM may make a business 04:20:10PM	10 11	understanding of the wind resource, but we didn't 04:20:59PM actually apply that into the FIT specifically, 04:21:01PM because we didn't know we didn't feel we knew 04:21:03PM
10 11 12	"The initial applicants 04:20:09PM may make a business 04:20:10PM decision not to apply to 04:20:11PM	10 11 12	understanding of the wind resource, but we didn't 04:20:59PM actually apply that into the FIT specifically, 04:21:01PM because we didn't know we didn't feel we knew 04:21:03PM enough about it. 04:21:06PM
10 11 12 13	"The initial applicants 04:20:09PM may make a business 04:20:10PM decision not to apply to 04:20:11PM the FIT program." 04:20:13PM	10 11 12 13	understanding of the wind resource, but we didn't 04:20:59PM actually apply that into the FIT specifically, 04:21:01PM because we didn't know we didn't feel we knew 04:21:03PM enough about it. 04:21:06PM Wolfe Island was very, very 04:21:07PM
10 11 12 13 14	"The initial applicants 04:20:09PM may make a business 04:20:10PM decision not to apply to 04:20:11PM the FIT program." 04:20:13PM So you would agree that the 04:20:14PM	10 11 12 13 14	understanding of the wind resource, but we didn't 04:20:59PM actually apply that into the FIT specifically, 04:21:01PM because we didn't know we didn't feel we knew 04:21:03PM enough about it. 04:21:06PM Wolfe Island was very, very 04:21:07PM unique to to us, because our management team 04:21:08PM

1	the stuff all the way through, which logistics is 04:21:48PM	1	We had predictability that they had to accept the 04:22:45PM
2	actually very hard. 04:21:51PM	2	power if we were awarded the contract, and we also 04:22:47PM
3	And the reality is we would 04:21:52PM	3	had significant predictability of what the wind 04:22:51PM
4	have actually staged all the turbines on Wolfe 04:21:53PM	4	resource was, which, since then, we have done a 04:22:53PM
5	Island or somewhere in the vicinity. So we knew 04:21:56PM	5	ton more modelling on and feel pretty comfortable 04:22:56PM
6	how to get it from Europe, anything we needed, all 04:22:00PM	6	with the three companies that we've utilized to do 04:22:59PM
7	the way through. We knew that an underwater cable 04:22:02PM	7	that. 04:23:01PM
8	could be laid in that area because it had already 04:22:05PM	8	Q. So, Mr. Mars, I am trying 04:23:01PM
9	been done. EA work was done on that also, which 04:22:07PM	9	to understand what you understood from this 04:23:03PM
10	we knew because our team did a lot of these 04:22:10PM	10	letter, then. So are you saying that you applied 04:23:04PM
11	things. 04:22:12PM	11	to the FIT program regardless of this letter? And 04:23:07PM
12	So we applied, and then we had 04:22:12PM	12	what did you interpret from this letter, then? 04:23:09PM
13	to deal with I think it was CanHydro at the 04:22:15PM	13	A. Well, again, without this 04:23:11PM
14	time, which ultimately turned into TransAlta, for 04:22:18PM	14	letter, we couldn't apply to the FIT program. So 04:23:13PM
15	all of the data on the the wind data on the 04:22:21PM	15	this letter gave us the ability to apply to the 04:23:17PM
16	shore. 04:22:24PM	16	FIT program. This letter told us that we were 04:23:19PM
17	So you're talking about tons 04:22:25PM	17	going to lose our land without maintaining this 04:23:22PM
18	of points on that shore which would allow us, in 04:22:26PM	18	priority position, but we decided to apply to the 04:23:26PM
19	conjunction with the data we ultimately acquired, 04:22:29PM	19	FIT program based upon all the knowledge we had, 04:23:28PM
20	to extrapolate out what does the wind resource 04:22:32PM	20	all aggregated and reviewed. This was one of the 04:23:32PM
21	look like offshore. 04:22:35PM	21	parts. 04:23:35PM
22	You know, one of the questions 04:22:36PM	22	Q. Okay. 04:23:36PM
23	that was asked earlier was in relation to the 04:22:37PM	23	A. And, again, I just want 04:23:37PM
24	predictability of revenue. Well, we had 04:22:40PM	24	to be clear. This was a gating issue. If we 04:23:37PM
25	predictability of the dollar amount to be paid. 04:22:42PM	25	didn't get this letter, even if we had even if 04:23:40PM

But in terms of 04:23:47PM actually proceeding with your project, if we look 04:23:48PM to the second-last paragraph on the first page, it 04:23:51PM states that: 04:23:53PM "This letter and the 04:23:54PM attached mapping 04:23:55PM information do not in any 04:23:56PM way constitute any 04:23:57PM commitments, obligation, 04:23:59PM or approval of your 04:23:59PM project by the Government 04:24:01PM of Ontario." 04:24:02PM Do you see that? 04:24:02PM A. Yes. We have never once 04:24:04PM taken for granted the work that we needed to do to 04:24:06PM get this approved. And, you know, even in the 04:24:12PM financial models we're going to present here, you 04:24:12PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	exactly the same, but had done a lot of work and 04:24:33PM what we knew is, "Look, we're going to hire the 04:24:36PM best of the best," and I think Mr. Terry 04:24:38PM previously showed you Stantec, who has probably 04:24:41PM done more EA work or REA work and EA work in this 04:24:44PM province than any other firm. 04:24:47PM You know, we were going to 04:24:49PM hire the best of the best to push this forward. 04:24:50PM Q. Okay. So I understand 04:24:51PM you did a lot of work. But I just want to focus 04:24:52PM on my question specifically. 04:24:55PM A. That's correct. We did 04:24:56PM do a lot of work. 04:24:57PM Q. But you would agree that 04:24:58PM there's no commitment in this letter that MNR 04:25:00PM would approve your Crown land applications; right? 04:25:02PM A. Absolutely agree. 04:25:05PM Q. And there is no 04:25:06PM assurances that Windstream could proceed with 04:25:06PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	we had all of the money, we had everything in 04:23:42PM place, we actually couldn't apply. 04:23:44PM Q. Okay. But in terms of 04:23:47PM actually proceeding with your project, if we look 04:23:48PM to the second-last paragraph on the first page, it 04:23:51PM states that: 04:23:53PM "This letter and the 04:23:55PM attached mapping 04:23:55PM information do not in any 04:23:56PM way constitute any 04:23:57PM commitments, obligation, 04:23:59PM or approval of your 04:23:59PM project by the Government 04:24:01PM of Ontario." 04:24:02PM Do you see that? 04:24:02PM A. Yes. We have never once 04:24:04PM taken for granted the work that we needed to do to 04:24:09PM financial models we're going to present here, you 04:24:12PM know, it's all discounted. So we've never taken 04:24:14PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	exactly the same, but had done a lot of work and 04:24:33PM what we knew is, "Look, we're going to hire the 04:24:36PM best of the best," and I think Mr. Terry 04:24:38PM previously showed you Stantec, who has probably 04:24:41PM done more EA work or REA work and EA work in this 04:24:44PM province than any other firm. 04:24:47PM You know, we were going to 04:24:49PM hire the best of the best to push this forward. 04:24:50PM Q. All I know is, at the time of this 04:24:20PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	exactly the same, but had done a lot of work and 04:24:33PM what we knew is, "Look, we're going to hire the 04:24:36PM best of the best," and I think Mr. Terry 04:24:38PM previously showed you Stantec, who has probably 04:24:41PM done more EA work or REA work and EA work in this 04:24:44PM province than any other firm. 04:24:47PM You know, we were going to 04:24:49PM hire the best of the best to push this forward. 04:24:50PM Q. And there is no 04:25:06PM developing its project; right? 04:25:08PM A. Absolutely agree. 04:25:10PM Q. And in this letter, there 04:25:11PM

	Page 316		Page 317
1	because they weren't the contracting body, so no 04:25:17PM	1	guess the agencies can take forever. And if there 04:26:21PM
2	assurances. 04:25:19PM	2	are you know, from a government perspective. 04:26:24PM
3	Q. Okay. And you would 04:25:20PM	3	And if there's no requirement of the proponent to 04:26:25PM
4	agree that there's no commitment as to when the 04:25:20PM	4	build the project, well, then that could take 04:26:29PM
5	review of applications would actually take place? 04:25:22PM	5	forever too. So pushing in both directions 04:26:32PM
6	A. That's correct. We just 04:25:25PM	6	achieves the goal of jobs now, investment, and 04:26:35PM
7	assumed that, if you were given a contract that 04:25:28PM	7	spinning turbines. 04:26:39PM
8	I mean I guess, as we understood, based on the 04:25:32PM	8	Q. Okay. So I understand 04:26:40PM
9	Green Energy Act, is that the agencies were 04:25:36PM	9	there's a lot of factors at play, but I want to 04:26:42PM
10	working in concert to acquire to achieve the 04:25:38PM	10	focus on the documents that I'm asking. 04:26:45PM
11	goal which was to add jobs and investment in the 04:25:42PM	11	So if we have some limited 04:26:46PM
12	province. 04:25:45PM	12	time. So if you could just focus on answering the 04:26:48PM
13	So we just assumed they were 04:25:46PM	13	questions that I ask you, that would be 04:26:50PM
14	working in concert, and that REFO office that was 04:25:47PM	14	appreciated. 04:26:52PM
15	discussed earlier, the job of what REFO, at least 04:25:50PM	15 16	A. Okay. 04:26:53PM
16 17	explained to us, was they were supposed to be the 04:25:53PM people that, if you weren't getting responsiveness 04:25:55PM	17	Q. Okay. So you were 04:26:54PM
18	from MOE, MNR, and MEI, that you would go to REFO, 04:25:59PM	18	personally involved in overseeing the details of 04:26:54PM Windstream's FIT applications; right? 04:26:57PM
19	and REFO had the ability to push in the other 04:26:03PM	19	A. I have been involved 04:27:00PM
20	direction. 04:26:06PM	20	every day since 2007 in all the decisions of this 04:27:01PM
21	I mean, there's a reason why 04:26:07PM	21	company. 04:27:05PM
22	guarantees were provided and a reason why there 04:26:08PM	22	I take that back. I have been 04:27:06PM
23	were requirements of the project holder. It was 04:26:11PM	23	involved in all of the major decisions of this 04:27:07PM
24	pushing in both directions to get this built. If 04:26:15PM	24	company and inclusive of a lot of smaller ones. 04:27:10PM
25	there are no guarantees on one side, well, then I 04:26:19PM	25	Q. And so ultimately it was 04:27:12PM
	Page 318		Page 319
1	yourself and Mr. Ziegler who authorized WWIS to 04:27:13PM	1	know that the counterparty of these contracts is 04:28:11PM
2	enter into the FIT contract? 04:27:16PM	2	the province because, otherwise, you're talking 04:28:14PM
3	A. It was actually myself, 04:27:18PM	3	about an agency that, you know, at the time, I 04:28:17PM
4	Mr. Ziegler, and Mr. Baines 04:27:19PM	4	don't even think they had \$50 million worth of 04:28:19PM
5	Q. Okay. 04:27:21PM	5	assets. 04:28:21PM
6	A in concert with our 04:27:22PM	6	So you are stating that it 04:28:22PM
7 8	investors that authorized this, yes. 04:27:23PM	7 8	would be bankable to have a very thinly 04:28:24PM
9	Q. And so in deciding to 04:27:26PM enter into the FIT contract, you would have 04:27:27PM	9	capitalized agency guaranteeing all of these 04:28:28PM contracts. I mean. I don't think that is it 04:28:32PM
10	reviewed its terms and conditions? 04:27:29PM	10	doesn't make sense to me and I know in the 04:28:36PM
11	A. 100 percent correct, yes. 04:27:32PM	11	industry it was known. The province stood behind 04:28:37PM
12	Q. Okay. So let's take a 04:27:34PM	12	this. 04:28:41PM
13	look at Exhibit R-0092, which is at Tab 7 of your 04:27:35PM	13	Q. So that was your 04:28:41PM
14	binder. 04:27:40PM	14	understanding that 04:28:42PM
15	A. Yes. 04:27:44PM	15	A. That was absolutely my 04:28:43PM
16	Q. And this is Version 1.3 04:27:45PM	16	understanding as well as, you know, all of the 04:28:44PM
17	of the FIT contract, which is dated March 9, 2010. 04:27:46PM	17	people I was speaking with and have since spoken 04:28:45PM
18	And I know you made some statements prior about 04:27:51PM	18	with. 04:28:48PM
19	the contract counterparty being with the 04:27:55PM	19	Q. So let's turn to Section 04:28:49PM
20	Government of Ontario, but it clearly states here 04:27:57PM	20	2.5, which is titled "Milestone Date for 04:28:53PM
21	that the contract counterparty is with the OPA; 04:27:59PM	21	Commercial Operation." It is on page 9. 04:28:56PM
22	right? 04:28:02PM	22	A. Okay. 04:29:01PM
23	A. Yes. The signatory on 04:28:04PM	23	Q. And this provision states 04:29:02PM
23 24 25	A. Yes. The signatory on 04:28:04PM this contract is with the OPA. But, you know, I 04:28:06PM think the industry, the banks all large investors 04:28:08PM	23 24 25	Q. And this provision states 04:29:02PM in the first sentence that: 04:29:05PM "The supplier 04:29:06PM

	Page 320		Page 321
1	acknowledges that time is 04:29:07PM	1	force majeure, which happened after is that 04:29:59PM
2	of the essence to the OPA 04:29:08PM	2	everybody has more or less used six months of 04:30:01PM
3	with respect to attaining 04:29:10PM	3	force majeure, as Mr. Terry alluded to earlier, 04:30:04PM
4	commercial operation of 04:29:11PM	4	for the REA approval. It's pretty consistent. 04:30:07PM
5	the contract facility by 04:29:12PM	5	Beyond that, no, we were 04:30:10PM
6	the Milestone Date for 04:29:13PM	6	definitely not intending to rely on force majeure. 04:30:12PM
7	Commercial Operation." 04:29:17PM	7	We thought our counterparty wanted this project 04:30:14PM
8	Do you see that? 04:29:17PM	8	and wanted to move forward. 04:30:17PM
9	A. Yes. 04:29:18PM	9	In terms of the 18 months that 04:30:18PM
10	Q. And so, as the FIT 04:29:20PM	10	we could purchase, we were hopeful not to, but we 04:30:20PM
11	supplier, you would agree that Windstream's 04:29:23PM	11	did understand that that existed and that we could 04:30:23PM
12	responsibility was to bring its project into 04:29:25PM	12	utilize that. 04:30:25PM
13	commercial operation by the Milestone Date of 04:29:27PM	13	Q. Okay. So let's take a 04:30:27PM
14	Commercial Operation; right? 04:29:30PM	14	look now at Section 2.6(a) which is at the bottom 04:30:28PM
15	A. It was our responsibility 04:29:32PM	15	of Page 9, which sets out the requirements for 04:30:31PM
16	to bring it into to develop the project by the 04:29:34PM	16	commercial operation. And under subsection (a), 04:30:35PM
17	Milestone Date of Commercial Operation or by 04:29:37PM	17	under paragraph (i) 04:30:40PM
18	additional time as contemplated in this contract 04:29:41PM	18	[Reporter's Note: Technical difficulty with 04:30:46PM
19	and/or be extended by force majeure provisions, so 04:29:45PM	19	mic.] 04:30:47PM
20	yes. 04:29:47PM	20	BY MS. KAM: 04:30:54PM
21	Q. Were you intending to 04:29:48PM	21	Q. So we're looking at 04:30:54PM
22	rely on those extensions? 04:29:49PM	22	Section 2.6(a). And under subsection (a)(i), the 04:30:56PM
23	A. We were not intending to 04:29:51PM	23	first requirement for bringing a project into 04:31:01PM
24	rely on force majeure. Force majeure is clearly 04:29:52PM	24	commercial operation is that the OPA issue a 04:31:04PM
25	I mean, well, we were not intending to rely on 04:29:56PM	25	notice to proceed to the supplier pursuant to 04:31:07PM

NTP prerequisites is 04:31:28PM defined in the at the end of the subsection. I 04:31:37PM mean, it appears that what that's what it is, 04:31:40PM yes. 04:31:42PM Q. Okay. And so under 04:31:43PM subsection (b)(i), it states that: 04:31:44PM "In order for 04:31:44PM Windstream's project to 04:31:48PM reach commercial 04:31:48PM operation, it was 04:31:49PM required to obtain a REA 04:31:50PM as well as other 04:31:53PM equivalent environmental 04:31:55PM Right? 04:31:56PM A. Yes. We knew that at the 04:31:57PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	activities necessary to hopefully be granted that. 04:32:05PM Q. So you would agree that 04:32:08PM it was Windstream's responsibility to ensure that 04:32:09PM it obtained an REA in order to reach commercial 04:32:11PM operation? 04:32:14PM A. Yes, 100 percent. I 04:32:14PM mean, this process has always been 04:32:16PM proponent-driven, and we've never even when 04:32:18PM later on we were in the moratorium and we proposed 04:32:21PM aside from the pilot, we proposed to actually 04:32:25PM pay and utilize our project as an active I 04:32:27PM think we called it an active research project. 04:32:30PM What we were doing there was the REA work. 04:32:33PM So, yes, we have always known 04:32:36PM it was up to us to do and up to us to make sure 04:32:37PM that it got finished. 04:32:40PM Q. But you would agree that 04:32:41PM there is nothing in this FIT contract that 04:32:42PM guarantees that Windstream would be able to obtain 04:32:45PM an REA; right? 04:32:47PM A. No. The only thing that 04:32:48PM was in this contract was basically that we would 04:32:50PM have the ability to go through the process. 04:32:53PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Section 2.4; right? A. That's what it says 04:31:13PM there. 04:31:14PM Q. Okay. So let's take a 04:31:14PM look now at Section 2.4 (b), which is on page 8. 04:31:16PM And you would agree that this subsection sets out 04:31:22PM the NTP prerequisites; right? 04:31:24PM A. NTP prerequisites is 04:31:28PM defined in the at the end of the subsection. I 04:31:37PM mean, it appears that what that's what it is, 04:31:40PM yes. 04:31:42PM Q. Okay. were a number of sources of power being acquired 04:35:57PM

is anything that would guarantee any regulatory

for any of the sources of power, because there

at the same time. But, you know, I guess -- I

1	granted an REA. Like I said, we never viewed the 04:33:01PM	spend that money, and we said, "Look, whatever the 04:33:59PM	
2	REA as like this rubber stamp or anything like 04:33:04PM	2 province wants us to do in relation to that, we're 04:34:01PM	
3	that. We viewed the REA as an essential part of 04:33:06PM	doing it, and we're going to do it right, and 04:34:03PM	
4	doing these projects. 04:33:09PM	4 we're going to do it with the right firm, and 04:34:05PM	
5	And prior to the FIT, we 04:33:10PM	5 we're going to spend the money." 04:34:07PM	
6	reviewed the EA as an essential part of doing 04:33:11PM	Q. So you said that this 04:34:09PM	
7	these projects, and we knew there might be 04:33:14PM	7 contract provided for Windstream to have the 04:34:09PM	
8	mitigation points that we would have to we knew 04:33:16PM	8 ability to go through the REA process. Can you 04:34:13PM	
9	there might be some extra studies. So some of the 04:33:18PM	9 point to where it states that? 04:34:15PM	
10	things that weren't told to us, you know, as 04:33:22PM	10 A. I may have 04:34:20PM	
11	myself and then to our investor group is that 04:33:25PM	11 [Reporter Note: Microphone technical 04:34:22PM	
12	there was some uncertainty around kind of what was 04:33:27PM	12 difficulty.] 04:34:23PM	
13	going to be precisely in the box of the REA for 04:33:29PM	THE WITNESS: You're getting a 04:34:25PM	
14	offshore wind, but that, you know, the box existed 04:33:32PM	14 workout. 04:34:26PM	
15	and you would meet you would meet with MOE, and 04:33:35PM	I may have misspoken in terms 04:34:28PM	
16	they would say, "Well, you know, we want you to do 04:33:38PM	of if it was in this contract or if it was in the 04:34:33PM	
17	all this stuff, but we'd also like you to study 04:33:40PM	surrounding rules and regulations that were part 04:34:35PM	
18	I don't know how many waves hit the shore or 04:33:45PM	of this entire Green Energy Act. I don't 04:34:37PM	
19	something you know, something in addition. 04:33:48PM	remember. But what I know is that we had what 04:34:41PM	
20	And so what was told to me by 04:33:49PM	we were signing up to and what I believe at the 04:34:45PM	
21	our management team was that we're going to have 04:33:51PM	time was the right to go through the REA process, 04:34:48PM	
22	to spend more money on this EA. It's not going to 04:33:54PM	not to be blocked at the front end of that. 04:34:51PM	
23	be cheap. 04:33:57PM	Q. But you would agree, 04:34:54PM	
24	Q. So you spent 04:33:57PM	based on the EBR postings that we just looked at 04:34:55PM	
25	A. And we were prepared to 04:33:58PM	that, that MNR and MOE were both continuing to 04:34:58PM	
	Page 326	Page 327	7
1	work on a coordinated approach for offshore wind 04:35:00PM	¹ investors understood, and, you know, in working 04:36:05PM	
2	at this time; right? 04:35:04PM	with experts what we understood was that, you 04:36:07PM	
3	A. Well, so at that time, in 04:35:05PM	know, we could we would have the ability to 04:36:10PM	
4	September 2009, there was no offshore wind 04:35:08PM	4 push this forward. 04:36:11PM	
5	project; right? And so they were going through a 04:35:13PM	5 And at the end of the day, 04:36:14PM	
6	coordinated effort, but, as a proponent, I'm not 04:35:15PM	again, I get back to this, you know, I've never 04:36:16PM	
7	sure that you could understand that there were 04:35:20PM	been in a situation before I've actually never 04:36:19PM	
8	things that were going on in the background that 04:35:22PM	had to testify either, but I have never been in a 04:36:21PM	
9	nobody was telling us. 04:35:24PM	9 situation before where somebody issued me a 04:36:23PM	
10	What we understood is, 04:35:26PM	contract and then later on said, "Oh, sorry, 04:36:26PM	
11	"Listen, you told us to" not you, sorry. The 04:35:27PM	there's not a lot of things in place for you to go 04:36:30PM	
12	province told us to apply for this contract or 04:35:31PM	12 forward." 04:36:33PM	
13	gave us the opportunity, gave us all of these 04:35:33PM	You know, we felt pretty 04:36:34PM	
14	reasons why, and then we applied, and then they 04:35:35PM	comfortable. What was on the record was what we 04:36:35PM	
15	provided us a contract. They didn't have to. 04:35:38PM	needed to push forward. Would we have to do extra 04:36:38PM	
16	Q. Well, you would agree 04:35:42PM	work? Sure. Would there be some unique things 04:36:41PM	
17	that there's nothing in this FIT contract that 04:35:43PM	because the project was offshore? Absolutely. 04:36:43PM

1	right? And there was no guarantee in this 04:37:05PM	1	A. We couldn't initiate a 04:38:02PM
2	contract that the REA could be attained within the 04:37:07PM	2	REA process because, number one, it didn't exist 04:38:05PM
3	timelines of this FIT contract? 04:37:10PM	3	ahead of these contracts. So nobody in the 04:38:08PM
4	A. Well, I mean there were 04:37:12PM	4	province had initiated an REA process. You know, 04:38:10PM
5	service level guarantees that were provided to us, 04:37:13PM	5	big, small, it didn't matter. Nobody had 04:38:14PM
6	and it was a central tenet of the Green Energy 04:37:16PM	6	initiated. It was a new process. 04:38:16PM
7	Act. I mean, there's a reason why they put those 04:37:20PM	7	A lot of people had done EAs. 04:38:18PM
8	in there. If they didn't want to obligate the 04:37:21PM	8	REA and EA are very, very similar, and I think the 04:38:22PM
9	agencies to meeting these, they would have never 04:37:24PM	9	experts can talk about that better than I can. 04:38:24PM
10	put them in there. I mean, using the word 04:37:27PM	10	But the tenets of the REA was 04:38:27PM
11	"guarantee" in the things you are writing is 04:37:30PM	11	that it offered guarantees. It offered more 04:38:30PM
12	pretty specific as far as I am concerned and, you 04:37:32PM	12	teeth. And the reason for it was because and 04:38:34PM
13	know, as far as we believed as investors. You 04:37:34PM	13	you can see it in the speeches. You can see it in 04:38:37PM
14	know, we relied on these things. 04:37:37PM	14	everything is that they said, you know, "We 04:38:39PM
15	O. But in terms of this 04:37:38PM	15	want to eliminate all of the delay that has been 04:38:41PM
16	six-month service guarantee, you understood that 04:37:40PM	16	created by local requirements and agencies not 04:38:46PM
17	it applied to a complete REA application? Right? 04:37:42PM	17	finishing work and so forth." So they bound 04:38:50PM
18	A. That's right. And we 04:37:46PM	18	themselves to this. 04:38:54PM
19	were prepared to put one forth. You know, we were 04:37:48PM	19	Q. In terms of no other 04:38:56PM
20	prepared to meet with MOE. We were prepared to 04:37:49PM	20	proponents starting initiating this REA process 04:38:57PM
21	spend the money, and we were prepared to move 04:37:52PM	21	you're not aware of other offshore wind proponents 04:39:00PM
22	forward. 04:37:54PM	22	such as Trillium or Erie who had applied for a REA 04:39:03PM
23	Q. But you would agree, at 04:37:55PM	23	or initiated that process? 04:39:08PM
24	this point, when Windstream was offered a FIT 04:37:56PM	24	A. Well, you know, I'm aware 04:39:10PM
25	contract, it had not initiated a REA process yet? 04:37:58PM	25	of Erie the LEEDCo project because the bankers 04:39:11PM

I don't remember the 04:40:38PM exact timing of that, but I think the question you 04:40:38PM asked was ahead of the FIT contract, and I don't 04:40:40PM believe — I think their REA came in post-FIT 04:40:43PM contract. Like, they pushed their REA and 04:40:47PM
2 3 4 5 6 7 8 9 10 11 12	that we worked with, KeyBank, they they they 04:39:14PM were tasked with helping LEEDCo because it was a 04:39:18PM Cleveland project. 04:39:23PM And so we actually had been 04:39:24PM approached by LEEDCo a couple of times to invest 04:39:26PM in the project, and the reason why, you know, we 04:39:28PM shied away from it was because they don't have any 04:39:31PM sort of PPA. 04:39:33PM So the gating factor that they 04:39:34PM have is they have to actually negotiate a PPA with 04:39:36PM the various utilities in Ohio, and the utilities 04:39:39PM don't want to pay the price that they're 04:39:45PM requesting. So the utilities have said, we're not 04:39:45PM	2 3 4 5 6 7 8 9 10 11 12	accept Trillium's application or accept their REA? 04:40:21PM Now, they haven't ruled on it, but why would they 04:40:26PM accept it if the process didn't exist at all? 04:40:28PM Q. Right. So they initiated 04:40:31PM the process for the REA; right? Because you had 04:40:32PM said that no one had initiated the process for an 04:40:35PM REA. 04:40:37PM A. I don't remember the 04:40:38PM exact timing of that, but I think the question you 04:40:38PM asked was ahead of the FIT contract, and I don't 04:40:40PM believe I think their REA came in post-FIT 04:40:43PM contract. I mean, did it do you know the date 04:41:05PM that it actually started? 04:41:10PM enter any evidence in, but my questions are 04:41:11PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that we worked with, KeyBank, they they they 04:39:14PM were tasked with helping LEEDCo because it was a 04:39:18PM Cleveland project. 04:39:23PM And so we actually had been 04:39:24PM approached by LEEDCo a couple of times to invest 04:39:26PM in the project, and the reason why, you know, we 04:39:28PM shied away from it was because they don't have any 04:39:31PM sort of PPA. 04:39:33PM So the gating factor that they 04:39:34PM have is they have to actually negotiate a PPA with 04:39:36PM the various utilities in Ohio, and the utilities 04:39:39PM don't want to pay the price that they're 04:39:43PM requesting. So I don't know what 04:39:55PM their process is specifically for them, but they 04:39:59PM wouldn't go through the REA. 04:40:02PM In terms of Trillium, Trillium 04:40:03PM was in a similar area to us. They were trying to 04:40:05PM work through their REA, and, to be honest, you 04:40:05PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	accept Trillium's application or accept their REA? 04:40:21PM Now, they haven't ruled on it, but why would they 04:40:26PM accept it if the process didn't exist at all? 04:40:28PM Q. I mean, did it do you know the date 04:41:05PM that it actually started? 04:41:08PM Q. Well, I'm not going to 04:41:10PM enter any evidence in, but my questions are 04:41:13PM relating to when Windstream was offered a FIT 04:41:13PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	that we worked with, KeyBank, they they they 04:39:14PM were tasked with helping LEEDCo because it was a 04:39:18PM Cleveland project. 04:39:23PM And so we actually had been 04:39:24PM approached by LEEDCo a couple of times to invest 04:39:26PM in the project, and the reason why, you know, we 04:39:28PM shied away from it was because they don't have any 04:39:31PM sort of PPA. 04:39:33PM So the gating factor that they 04:39:34PM have is they have to actually negotiate a PPA with 04:39:36PM the various utilities in Ohio, and the utilities 04:39:39PM don't want to pay the price that they're 04:39:43PM requesting. So the utilities have said, we're not 04:39:45PM giving you a PPA, and they're trying to utilize 04:39:48PM this. I know the U.S. government has given them a 04:39:51PM bunch of money for testing and such, but on top of 04:39:53PM it, LEEDCo is a US company. So I don't know what 04:39:55PM their process is specifically for them, but they 04:39:59PM wouldn't go through the REA. 04:40:02PM In terms of Trillium, Trillium 04:40:03PM was in a similar area to us. They were trying to 04:40:05PM work through their REA, and, to be honest, you 04:40:05PM know, the government actually accepted their REA. 04:40:12PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	accept Trillium's application or accept their REA? 04:40:21PM Now, they haven't ruled on it, but why would they 04:40:26PM accept it if the process didn't exist at all? 04:40:28PM Q. Right. So they initiated 04:40:31PM the process for the REA; right? Because you had 04:40:32PM said that no one had initiated the process for an 04:40:35PM REA. 04:40:37PM A. I don't remember the 04:40:38PM exact timing of that, but I think the question you 04:40:38PM asked was ahead of the FIT contract, and I don't 04:40:40PM believe I think their REA came in post-FIT 04:40:40PM contract. Like, they pushed their REA and 04:40:47PM post-FIT contract even though they didn't have a 04:40:50PM FIT contract or apply for a FIT contract. 04:40:51PM The REA process and I'm not 04:40:54PM exactly sure of the date that it came into effect, 04:40:58PM but the REA process didn't exist prior to the FIT 04:41:01PM contract. I mean, did it do you know the date 04:41:05PM that it actually started? 04:41:08PM Q. Well, I'm not going to 04:41:10PM enter any evidence in, but my questions are 04:41:13PM relating to when Windstream was offered a FIT 04:41:13PM contract. And that was in April 2010; correct? 04:41:16PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	that we worked with, KeyBank, they they they 04:39:14PM were tasked with helping LEEDCo because it was a 04:39:18PM Cleveland project. 04:39:23PM And so we actually had been 04:39:24PM approached by LEEDCo a couple of times to invest 04:39:26PM in the project, and the reason why, you know, we 04:39:28PM shied away from it was because they don't have any 04:39:31PM sort of PPA. 04:39:33PM So the gating factor that they 04:39:34PM have is they have to actually negotiate a PPA with 04:39:36PM the various utilities in Ohio, and the utilities 04:39:39PM don't want to pay the price that they're 04:39:43PM requesting. 	I guess. 04:41:26PM	1	issue that was, you know, raised after we received 04:42:17PM
2	Q. Okay. Let's turn now to 04:41:27PM	2	the contract. 04:42:20PM
3	paragraph 67 of your Memorial witness statement. 04:41:31PM	3	Q. Okay. So in paragraph 04:42:21PM
4	A. Is that that's the 04:41:33PM	4	68, it states that Mr. Baines reported to you 04:42:23PM
5	first one? 04:41:34PM	5	daily with respect to the meetings and discussions 04:42:25PM
6	Q. The first one. So it 04:41:34PM	6	he had with various government officials, which 04:42:28PM
7	states here that: 04:41:42PM	7	you reported back to Windstream's investors, 04:42:30PM
8	"Before signing the FIT 04:41:42PM	8	including Mr. Ziegler; right? 04:42:32PM
9	contract, Windstream 04:41:45PM	9	A. Yeah. You know, Ian and 04:42:34PM
10	sought comfort from the 04:41:45PM	10	I speak pretty much on a daily basis, inclusive of 04:42:36PM
11	Ontario Government that 04:41:45PM	11	weekends, sadly. My wife doesn't like him very 04:42:41PM
12	certain regulatory issues 04:41:46PM	12	much. 04:42:44PM
13	would be resolved." 04:41:47PM	13	And we I speak to 04:42:44PM
14	See that? 04:41:49PM	14	Mr. Ziegler every single day because he's my 04:42:48PM
15	A. Sorry, I didn't get there 04:41:51PM	15	business partner. He has been my business partner 04:42:50PM
16	yet. Paragraph 67 you said? 04:41:52PM	16	since 2007, so yes. 04:42:53PM
17	Q. Yes. So you see that; 04:41:55PM	17	Q. Okay. Let's take a look 04:42:54PM
18	right? That: 04:41:55PM	18	at Exhibit C-0258, which is at tab 15 of your 04:42:55PM
19	"Windstream sought 04:41:55PM	19	binder. Tab 15. 04:42:59PM
20	comfort from the Ontario 04:41:55PM	20	A. Tab 15, yes. This 04:43:07PM
21	Government that certain 04:41:55PM	21	letter? 04:43:09PM
22	regulatory issues would 04:42:11PM	22	Q. Yes. And this is a 04:43:09PM
23	be resolved." 04:42:11PM	23	letter from Ian Baines to Mirrun Zaveri of the 04:43:11PM
24	A. Yes. This was, you know, 04:42:13PM	24	Ministry of Energy's Renewable Energy Facilitation 04:43:11PM
25	primarily and specifically around the setback 04:42:14PM	25	Office, dated May 13, 2010. 04:43:18PM
1	Page 334 Can you please read the second 04:43:20PM	1	Page 335 in the setback. It was facing uncertainty in 04:43:59PM
2	paragraph out loud for the record: 04:43:22PM	2	relation to, you know, when that was going to be 04:44:03PM
3	A. As the developer of the 04:43:23PM	3	set, how far it was going to be offshore, and then 04:44:06PM
4	first offshore wind 04:43:25PM	4	obviously exactly what was going to sit in that 04:44:09PM
5	facility in Ontario, 04:43:26PM	5	box because we weren't allowed to go and sit with 04:44:13PM
6	Windstream is struggling 04:43:27PM	6	the MOE until this setback was put in place. 04:44:15PM
7	with the expectation in 04:43:30PM	7	So we wanted to have you 04:44:18PM
8	the FIT contract that the 04:43:31PM	8	know, we wanted to have those meetings, and we 04:44:20PM
9	project will achieve 04:43:32PM	9	wanted to really understand exactly what they 04:44:21PM
10	commercial operation in 04:43:34PM	10	wanted us to do, but we weren't actually provided 04:44:23PM
11	four years, on the one 04:43:35PM	11	that opportunity because of the setback. 04:44:26PM
12	hand, and considerable 04:43:36PM	12	Q. Were you ever refused a 04:44:29PM
13	regulatory uncertainty 04:43:38PM	13	meeting with MOE to discuss the setback 04:44:30PM
14	caused by unknown setback 04:43:38PM	14	requirements? 04:44:34PM
15	requirements for offshore 04:43:41PM	15	A. Well, as we understood 04:44:34PM
16	wind, uncertainty in the 04:43:41PM	16	it, the setback requirements were to be discussed 04:44:35PM
	site release process for 04:43:43PM	17	were being handled. We discussed it with we 04:44:38PM
17	Crown land, and 04:43:44PM	18	met with MNR because it was a specific outcome of 04:44:41PM
17 18	uncertainty in the 04:43:45PM	19	this, but I don't think MOE was actually handling 04:44:44PM
	uncertainty in the 04.43.43FWI	1	
18	detailed requirements of 04:43:46PM	20	at that point the setbacks. 04:44:48PM
18 19	· · · · · · · · · · · · · · · · · · ·	20 21	at that point the setbacks. 04:44:48PM Q. Well, let's turn to 04:44:49PM
18 19 20	detailed requirements of 04:43:46PM		
18 19 20 21	detailed requirements of 04:43:46PM the REA, on the other." 04:43:47PM	21	Q. Well, let's turn to 04:44:49PM
18 19 20 21 22	detailed requirements of 04:43:46PM the REA, on the other." 04:43:47PM Q. Okay. So you would agree 04:43:50PM	21 22	Q. Well, let's turn to 04:44:49PM Exhibit C-0296, which is at tab 04:44:51PM

	Page 336		Page 337
1	was still open here. Which one? 04:45:01PM	1	Do you see that? 04:45:43PM
2	Q. Tab 16. C-0296. 04:45:02PM	2	A. Yes, I see it. The REA 04:45:44PM
3	A. Yes. Yes. 04:45:05PM	3	regulation that was in place, correct. And we 04:45:46PM
4	Q. And so this is a Policy 04:45:09PM	4	hadn't signed the contract at this point. It was 04:45:49PM
5	Proposal Notice on Ontario's EBR Registry, which 04:45:10PM	5	one of the reasons why we delayed signing of the 04:45:51PM
6	is dated June 25, 2010, titled: 04:45:13PM	6	contract. 04:45:53PM
7	"Renewable Energy 04:45:16PM	7	So we received it in April and 04:45:54PM
8	Approval Requirements for 04:45:18PM	8	had the May 5 date, but June 25, we hadn't signed 04:45:57PM
9	Offshore Wind Facilities, 04:45:19PM	9	it. We didn't sign it until, I think, August 10 04:46:01PM
10	an Overview of the 04:45:19PM	10	or August 20. I forget the exact date. But this 04:46:04PM
11	Proposed Approach." 04:45:22PM	11	was one of the reasons why. 04:46:06PM
12	And if you look at page 2, 04:45:22PM	12	Q. Okay. So if we look at 04:46:08PM
13	about four lines down, it states that: 04:45:27PM	13	the bottom of page 2, it states that: 04:46:09PM
14	"The Ontario government 04:45:29PM	14	"This proposal was posted 04:46:11PM
15	is proposing an approach 04:45:30PM	15	for a 74-day public 04:46:13PM
16	and is seeking input from 04:45:31PM	16	review and comment 04:46:15PM
17	interested members of the 04:45:32PM	17	period, ending September 04:46:16PM
18	public early in the 04:45:33PM	18	7, 2010." 04:46:18PM
19	process to inform the 04:45:35PM	19	A. Yes. 04:46:19PM
20	work that will be 04:45:36PM	20	Q. Right? And so you would 04:46:20PM
21	completed to finalize the 04:45:37PM	21	agree that both before and after Windstream signed 04:46:21PM
22	approach and the offshore 04:45:38PM	22	its FIT contract, in I believe it's August 20, 04:46:24PM
23	wind specific 04:45:39PM	23	2010, the Ontario government was consulting on its 04:46:27PM
24	requirements under the 04:45:40PM	24	proposed policy for setback policy for offshore 04:46:30PM
25	REA regulation." 04:45:42PM	25	wind? 04:46:34PM

2	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM	2	referring only to the publicly-available 04:47:44PM
2	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM	2	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM
2 3 4	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM	2 3 4	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM
2 3 4 5	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward with. So we went, and we met with them, and 04:46:49PM	2 3 4 5	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM
2 3 4 5	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM	2 3 4 5 6	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you – which is dated 04:47:52PM
2 3 4 5 6 7	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM	2 3 4 5 6 7	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM
2 3 4 5 6 7 8	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM and research around whether that was possible, 04:46:59PM	2 3 4 5 6 7 8	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM A. That's correct. 04:47:58PM
2 3 4 5 6 7 8	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM and research around whether that was possible, 04:46:59PM because as you guys detailed earlier, you know, 04:46:59PM	2 3 4 5 6 7 8	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM A. That's correct. 04:47:58PM Q. And you sent this memo. 04:47:59PM
2 3 4 5 6 7 8 9	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM and research around whether that was possible, 04:46:59PM because as you guys detailed earlier, you know, 04:46:59PM you have to be considerate of depth of water. You 04:46:59PM	2 3 4 5 6 7 8 9	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM A. That's correct. 04:47:58PM Q. And you sent this memo. 04:47:59PM Is that correct? 04:48:01PM
2 3 4 5 6 7 8 9 10	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM and research around whether that was possible, 04:46:59PM because as you guys detailed earlier, you know, 04:46:59PM you have to be considerate of depth of water. You 04:46:59PM have to be considerate of a lot of other factors. 04:47:02PM	2 3 4 5 6 7 8 9 10	referring only to the publicly-available 04:47:44PM information. But you have the confidential 04:47:47PM version in front of you. 04:47:50PM So this is an internal 04:47:50PM Windstream memorandum which you – which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM A. That's correct. 04:47:58PM Q. And you sent this memo. 04:47:59PM Is that correct? 04:48:01PM A. That's correct. I 04:48:01PM
2 3 4 5 6 7 8 9 10 11 12 13	had met with them. We had discussed, you know, a 04:46:37PM because we found out it was going to be a 04:46:41PM 5-kilometre setback, and obviously that severely 04:46:43PM impacted the project that we were going forward 04:46:46PM with. So we went, and we met with them, and 04:46:49PM proposed a grid cell swap. We did a bunch of work 04:46:51PM and research around whether that was possible, 04:46:59PM because as you guys detailed earlier, you know, 04:46:59PM you have to be considerate of depth of water. You 04:46:59PM have to be considerate of a lot of other factors. 04:47:05PM So we actually did that 04:47:05PM research, realized that it was doable. But we 04:47:23PM to make the decision whether we were comfortable 04:47:26PM with that. 04:47:28PM Q. Okay. So let's turn now 04:47:29PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	referring only to the publicly-available information. But we 04:47:23PM to make the decision whether we were comfortable 04:47:26PM with that. 04:47:28PM Q. Okay. So let's turn now 04:47:29PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	referring only to the publicly-available information. But you have the confidential 04:47:44PM version in front of you. 04:47:48PM So this is an internal 04:47:50PM Windstream memorandum which you which is dated 04:47:52PM August 20, 2010; right? 04:47:56PM A. That's correct. 04:47:58PM Q. And you sent this memo. 04:47:59PM Is that correct? 04:48:01PM A. That's correct. I 04:48:01PM authored it and sent it. 04:48:02PM Q. Okay. And this informs 04:48:04PM Windstream's investors of the decision to sign the 04:48:06PM FIT contract that day. 04:48:08PM A. It goes through a number 04:48:12PM of things, but, you know, that would be one of 04:48:13PM them, yes. 04:48:16PM Q. Okay. And so in the 04:48:19PM second sentence, it states that: 04:48:19PM aware, we were able to 04:48:22PM

3	frame in which the site 04:48:31PM	3	with the OPA so that MEI was sort of negotiating 04:49:22PM
4	needs to be constructed." 04:48:32PM	4	with the OPA on our behalf. He was able to 04:49:26PM
5	Right? 04:48:34PM	5	convince them to add one year to our contract to 04:49:28PM
6	A. That's correct. It says 04:48:34PM	6	account for delays that were happening in the 04:49:31PM
7	that. We had we started with the MNR. We 04:48:36PM	7	province in relation to the setback rules. 04:49:34PM
8	wound up negotiating. 04:48:40PM	8	Q. So, Mr. Mars, I will get 04:49:35PM
9	So the reason why there's a 04:48:41PM	9	to that in a bit, but I just want to confirm. The 04:49:37PM
10	five-year term on this and not a four-year term 04:48:42PM	10	last sentence in this memo states that: 04:49:40PM
11	was because we were able to negotiate with MEI, 04:48:45PM	11	"The two agreed changes 04:49:43PM
12	who then went and directed OPA to change the 04:48:48PM	12	that will benefit the 04:49:45PM
13	contract. 04:48:52PM	13	project are the land swap 04:49:47PM
14	We were asking for something 04:48:53PM	14	and the contract 04:49:49PM
15	of, you know, and we have asked for similar things 04:48:55PM	15	amendments." 04:49:49PM
16	throughout. I know there has been some discussion 04:48:57PM	16	Right? 04:49:50PM
17	that we were asking for wholesale rewrites of the 04:48:59PM	17	A. Can you ask that again? 04:49:51PM
18	contract. 04:49:01PM	18	Q. So according to the last 04:49:52PM
19	But all we were asking for was 04:49:01PM	19	sentence, the changes that were agreed that will 04:49:54PM
20	delays until decisions were made. We didn't 04:49:04PM	20	benefit the project are the land swap and the 04:49:56PM
21	really ask for anything else. So we were asking 04:49:06PM	21	contract amendment. That's what you're referring 04:49:59PM
22	for well, we asked for other things, but mostly 04:49:09PM	22	to? 04:50:01PM
23	we were asking for delays of when decisions were 04:49:11PM	23	A. Yes. I'm saying these 04:50:01PM
24	made so that we weren't penalized under this 04:49:14PM	24	are things that would would tell us or would 04:50:02PM
25	contract. 04:49:17PM	25	give us some more clarity around whether we should 04:50:05PM

They 04:50:40PM said they wanted to wait until the setback was in 04:50:43PM place, and then they would sit with us, and I 04:50:43PM believe the letter, which you may have in here, it 04:50:46PM said very specifically, in essentially in an 04:50:49PM	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	which is at Tab 17. 04:50:59PM A. Seventeen. 04:51:01PM Q. And so this is a letter 04:51:06PM dated August 9, 2010, titled "Reconfiguration of 04:51:07PM Wind Power Applications," and it is addressed to 04:51:13PM Mr. Baines from Eric Boysen, Director of Renewable 04:51:14PM Energy Program at the Ministry of Natural 04:51:20PM Resources? 04:51:22PM In the first sentence, it 04:51:22PM states that: 04:51:24PM "This letter was in 04:51:24PM response to Windstream's 04:51:25PM request to initiate 04:51:26PM discussions on the 04:51:27PM potential reconfiguration 04:51:28PM of Crown land 04:51:29PM applications." 04:51:30PM Right? 04:51:31PM
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	contract," we likely wouldn't have signed it. If they said when we came 04:50:16PM to them and said, "Listen, we need to swap these 04:50:17PM cells," if MNR said either, "Hey, we have no 04:50:20PM interest in meeting with you," or, "We're just not 04:50:24PM willing to do this," it would have impacted our 04:50:25PM decision to sign this contract. So, yes, that's 04:50:27PM what I'm referring to in this e-mail. 04:50:30PM Q. Okay. So I want to 04:50:32PM explore these two items with you because you would 04:50:33PM agree that Ontario never provided Windstream with 04:50:35PM a land swap; right? 04:50:38PM A. No. They didn't. They 04:50:40PM said they wanted to wait until the setback was in 04:50:41PM place, and then they would sit with us, and I 04:50:43PM believe the letter, which you may have in here, it 04:50:49PM said very specifically, in essentially in an 04:50:49PM expedited manner. 04:50:52PM	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	which is at Tab 17. 04:50:59PM A. That's what it says. 04:51:32PM
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	contract," we likely wouldn't have signed it. That's what it says. 04:51:33PM Q. And so just so I 04:51:33PM
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	contract," we likely wouldn't have signed it. 1	cells located outside of the 5-kilometre zone? 04:51:45PM	1	things we couldn't be building near or around. 04:52:46PM
2	A. Correct. We were you 04:51:48PM	2	And we got comfort on, if the 04:52:48PM
3	know, we were basically trying to adapt the 04:51:50PM	3	MNR was willing to provide us with a grid cell 04:52:51PM
4	project. We had a contract at this point that was 04:51:53PM	4	swap, so take the closer to shore cells we had 04:52:54PM
5	issued to us. Although we hadn't signed the 04:51:55PM	5	applied for and swap them for essentially, I 04:52:57PM
6	contract, we did have a contract that was issued 04:51:58PM	6	don't want to say it was an exact equal number of 04:53:01PM
7	to us. And a new rule was being effectively 04:52:00PM	7	acres, because the way the cells work is they kind 04:53:03PM
8	thrust upon us at that moment in time. 04:52:04PM	8	of have like blocks across. 04:53:05PM
9	So we said, okay. You know, 04:52:05PM	9	But it was it was an equal 04:53:07PM
10	the first reaction is, "Oh, my God, this could 04:52:07PM	10	amount of land that would allow us to build this 04:53:09PM
11	kill the project"; right? I mean that was the 04:52:10PM	11	300-megawatt project. 04:53:13PM
12	first reaction. 04:52:12PM	12	Q. Okay. So 04:53:15PM
13	And I think we actually sent a 04:52:13PM	13	A. And 04:53:16PM
14	letter saying something to that effect to the MNR, 04:52:15PM	14	Q. I just want to walk 04:53:17PM
15	saying, like, "What's going on here? You know, 04:52:19PM	15	through this letter itself; right? 04:53:18PM
16	and what's the basis?" 04:52:22PM	16	A. Okay. 04:53:20PM
17	And then what we had 04:52:23PM	17	Q. So MNR's response to 04:53:20PM
18	essentially been told by our GR rep is that, you 04:52:25PM	18	Windstream is that it was prepared to discuss the 04:53:22PM
19	know, this is a fait accompli. This is what 04:52:31PM	19	limited reconfiguration of Windstream's existing 04:53:24PM
20	they're doing. And so we set out for several days 04:52:32PM	20	Crown land applications; right? 04:53:27PM
21	trying to figure out, like, what could we do, what 04:52:34PM	21	A. Yeah. And if you turn to 04:53:29PM
22	could we do. And we cranked through financial 04:52:36PM	22	the second page, you can see they went into this 04:53:30PM
23	models. We cranked through proposed layouts. We 04:52:38PM	23	where they basically said, once the 04:53:32PM
24	looked at the depth of water. We looked at, where 04:52:40PM	24	reconfiguration of applications has been 04:53:35PM
25	the you know, the stuff that we knew were 04:52:43PM	25	finalized, the amended applications will begin to 04:53:38PM

2 3 4 5	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM	2 3 4 5	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM

They wanted this setback to be in 04:54:38PM place. 04:54:41PM
2 3 4 5 6 7	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM	2 3 4 5 6 7	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM
2 3 4 5 6 7 8	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM	2 3 4 5 6 7 8	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM
2 3 4 5 6 7 8	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM	2 3 4 5 6 7 8	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. 2 3 4 5 6 7 8 9	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM	2 3 4 5 6 7 8 9	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:46PM So they didn't want to swap 04:54:48PM
2 3 4 5 6 7 8 9 10	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:56PM	2 3 4 5 6 7 8 9 10	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM So they didn't want to swap 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM
2 3 4 5 6 7 8 9 10 11	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:56PM record status in a timely 04:53:57PM	2 3 4 5 6 7 8 9 10 11	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM So they didn't want to swap 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM
2 3 4 5 6 7 8 9 10 11 12	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:57PM record status in a timely 04:53:58PM	2 3 4 5 6 7 8 9 10 11 12 13	it and our understanding of the expediency with 04:54:26PM which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. It 04:54:09PM just merely stated that they're willing to have a 04:54:12PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM So I read this letter, and 04:54:54PM this is my and my management team and our 04:54:56PM consultants and our lawyers and our investors. We 04:55:00PM read this letter as saying, you know, we're going 04:55:05PM to do this. It's just uncertain exactly the time. 04:55:07PM Q. But there is no 04:55:11PM A. But we're going to do it 04:55:11PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:56PM record status in a timely 04:53:57PM manner." 04:53:58PM So we read this. I'm sorry. 04:53:59PM Go ahead. I apologize. 04:54:01PM Q. Okay. So but I just want 04:54:02PM to confirm with you, though, that you agree that 04:54:04PM there was no guarantee that MNR would approve 04:54:06PM Windstream's reconfiguration request; right? It 04:54:09PM just merely stated that they're willing to have a 04:54:12PM discussion? 04:54:13PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM So I read this letter, and 04:54:54PM this is my and my management team and our 04:54:56PM consultants and our lawyers and our investors. We 04:55:00PM read this letter as saying, you know, we're going 04:55:05PM to do this. It's just uncertain exactly the time. 04:55:07PM Q. But there is no 04:55:11PM A. But we're going to do it 04:55:14PM in a timely fashion, and we're going to move 04:55:14PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:54PM record status in a timely 04:53:54PM manner." 04:53:55PM So we read this. I'm sorry. 04:53:59PM Go ahead. I apologize. 04:54:01PM Q. Okay. So but I just want 04:54:02PM to confirm with you, though, that you agree that 04:54:04PM there was no guarantee that MNR would approve 04:54:06PM Windstream's reconfiguration request; right? It 04:54:09PM just merely stated that they're willing to have a 04:54:13PM discussion? 04:54:13PM A. I mean, I guess there is 04:54:15PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM So I read this letter, and 04:54:54PM this is my and my management team and our 04:54:56PM consultants and our lawyers and our investors. We 04:55:00PM read this letter as saying, you know, we're going 04:55:05PM to do this. It's just uncertain exactly the time. 04:55:10PM commitment 04:55:11PM A. But we're going to do it 04:55:11PM in a timely fashion, and we're going to move 04:55:15PM forward as quick as possible to give you this 04:55:15PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:51PM process in order that you 04:53:53PM may obtain applicant of 04:53:53PM may obtain applicant of 04:53:55PM process in order that you 04:53:55PM manner." 04:53:58PM So we read this. I'm sorry. 04:53:59PM Go ahead. I apologize. 04:54:01PM Q. Okay. So but I just want 04:54:02PM to confirm with you, though, that you agree that 04:54:04PM there was no guarantee that MNR would approve 04:54:06PM Windstream's reconfiguration request; right? It 04:54:09PM just merely stated that they're willing to have a 04:54:13PM A. I mean, I guess there is 04:54:15PM no explicit guarantee in here. But when you read 04:54:18PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:46PM So they didn't want to swap 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM So I read this letter, and 04:54:54PM this is my and my management team and our 04:54:56PM consultants and our lawyers and our investors. We 04:55:00PM read this letter as saying, you know, we're going 04:55:05PM to do this. It's just uncertain exactly the time. 04:55:07PM Q. But there is no 04:55:11PM A. But we're going to do it 04:55:11PM in a timely fashion, and we're going to move 04:55:15PM applicant of record status. 04:55:17PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	move through their normal Crown land application 04:53:41PM process, and then they kind of go on further to 04:53:43PM say here that: 04:53:46PM "I appreciate your need 04:53:47PM for certainty on this 04:53:48PM file, and we will move as 04:53:49PM quickly as possible 04:53:50PM through the remainder of 04:53:51PM the application review 04:53:52PM process in order that you 04:53:53PM may obtain applicant of 04:53:54PM record status in a timely 04:53:54PM manner." 04:53:55PM So we read this. I'm sorry. 04:53:59PM Go ahead. I apologize. 04:54:01PM Q. Okay. So but I just want 04:54:02PM to confirm with you, though, that you agree that 04:54:04PM there was no guarantee that MNR would approve 04:54:06PM Windstream's reconfiguration request; right? It 04:54:09PM just merely stated that they're willing to have a 04:54:13PM discussion? 04:54:13PM A. I mean, I guess there is 04:54:15PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	it and our understanding of the expediency with which they met with us and were willing to discuss 04:54:29PM this was their willingness to work with us to be 04:54:32PM able to move this forward, and there was, again, a 04:54:36PM gating factor. They wanted this setback to be in 04:54:38PM place. 04:54:41PM So if the setback wound up 04:54:41PM being two and a half kilometres instead of five, 04:54:43PM that's a completely different grid cell swap. 04:54:48PM grid cells without knowing where to swap the grid 04:54:50PM cells. 04:54:53PM So I read this letter, and 04:54:54PM this is my and my management team and our 04:54:56PM consultants and our lawyers and our investors. We 04:55:00PM read this letter as saying, you know, we're going 04:55:05PM to do this. It's just uncertain exactly the time. 04:55:10PM commitment 04:55:11PM A. But we're going to do it 04:55:11PM in a timely fashion, and we're going to move 04:55:15PM forward as quick as possible to give you this 04:55:15PM

	Page 348		Page 349
1	they would do the swap? 04:55:20PM	1	Right? 04:56:03PM
2	A. There is no actual 04:55:21PM	2	So you understood that MNR 04:56:04PM
3	commitment in here explicitly stating that they 04:55:22PM	3	could not proceed through the Crown land 04:56:08PM
4	would guarantee they would do this. 04:55:24PM	4	application process until the grid cell swap had 04:56:10PM
5	Q. And you would also agree 04:55:26PM	5	occurred? 04:56:13PM
6	that this letter doesn't have any assurances 04:55:27PM	6	A. Yes. That's correct, 04:56:15PM
7	regarding the outcome of the setback policy 04:55:29PM	7	because they didn't know where what they were 04:56:16PM
8	review. They don't guarantee you what the outcome 04:55:33PM	8	going to give us. So they didn't know you 04:56:18PM
9	would be. 04:55:35PM	9	can't move through the process until they 04:56:21PM
10	A. I don't know that they 04:55:36PM	10	determine exactly what they're going to provide us 04:56:23PM
11	were entirely driving it. So I'm not really sure 04:55:37PM	11	with. 04:56:25PM
12	that they could actually guarantee the 100 percent 04:55:40PM	12	So once they would figure 04:56:25PM
13	outcome of this. 04:55:43PM	13	once they knew the setback, they, as I understood 04:56:27PM
14	Q. And in terms of timing, 04:55:43PM	14	the process would be, they would then be able to 04:56:30PM
15	the statement that MNR would move as quickly as 04:55:46PM	15	look at what we had requested and make sure that 04:56:32PM
16	possible through the remainder of the application 04:55:49PM	16	that fits with the setback and then they would 04:56:35PM
17	review process, as you read in the paragraph 04:55:52PM	17	immediately begin moving it through the Crown land 04:56:37PM
18	above, it states that: 04:55:55PM	18	process, and ultimately would do this, you know, 04:56:40PM
19	"The applications cannot 04:55:55PM	19	in as quickly as possible. And they really did 04:56:43PM
20	begin to move through the 04:55:57PM	20	recognize that, hey, we needed certainty around 04:56:47PM
21	Crown land process until 04:55:58PM	21	this because you're asking us to put \$6 million at 04:56:49PM
22 23	after the successful 04:56:00PM	22	risk, which we ultimately did, in addition to the 04:56:52PM
24	reconfiguration of 04:56:01PM Windstream's 04:56:02PM	24	money we were going to spend to build this 04:56:54PM
25	applications." 04:56:03PM	25	project. 04:56:57PM You know, we they 04:56:57PM
23	applications. 04.50.05FW	23	100 know, we they 04.30.371 W
	Page 350		Page 351
1	understood that certainty is what we were looking 04:56:59PM	1	Spanish? 04:57:58PM
2	for, and this Green Energy Act was effectively 04:57:01PM	2	A. Or Spanish. It says 04:57:59PM
3	built on the idea of certainty. 04:57:04PM	3	that; right? It says August 9; right? 04:58:00PM
4	Q. And so in terms of 04:57:05PM	4	Q. I believe that's the 04:58:05PM
5	timing, though, you would agree that the letter 04:57:06PM	5	date. 04:58:06PM
6	didn't provide any specific assurances as to when 04:57:08PM	6	A. Okay. 04:58:06PM
7	Windstream could receive applicant of record 04:57:12PM	7	Q. So in his e-mail, 04:58:07PM
8	status? 04:57:14PM	8	Mr. Benedetti requests that the date the 04:58:10PM
9	A. I would agree, other than 04:57:15PM	9	contract date in Windstream's FIT contract be 04:58:12PM
10	the expediency that they were going to employ. 04:57:16PM	10	amended to the date that applicant of record 04:58:14PM
11	Q. So I'd like to discuss 04:57:19PM	11	status is granted by the MNR; right? 04:58:16PM
12	Windstream's FIT contract amendment, which you 04:57:22PM	12	A. Can you repeat that? I'm 04:58:19PM
13	brought up already, which is so let's turn to 04:57:24PM	13	sorry. 04:58:22PM
14	Exhibit C-0341, which is at Tab 19 of your binder. 04:57:27PM	14	Q. So in Mr. Benedetti's 04:58:23PM
15	And so what I would like to do 04:57:32PM	15	e-mail, he requests that the contract date in 04:58:26PM
16 17	first is just to walk through the document, and 04:57:34PM	16 17	Windstream's FIT contract be amended to the date 04:58:28PM
18	then we can talk about it. 04:57:35PM	18	that applicant of record status is granted by the 04:58:30PM
19	So let's go to the first 04:57:37PM e-mail, which is on page 3. And it's titled, 04:57:39PM	19	Ministry of Natural Resources; right? 04:58:34PM A. That's correct. 04:58:36PM
20	"Windstream Request to Amend the Contract Date," 04:57:43PM	20	
21	and it's from Chris Benedetti to JoAnne Butler of 04:57:45PM	21	Q. And so in response, 04:58:38PM Ms. Butler states: 04:58:40PM
22	the OPA on August 9, 2010; right? 04:57:49PM	22	"We do not intend to 04:58:41PM
23	A. Yes. Yes. Is that 04:57:53PM	23	amend the Milestone Date 04:58:42PM
24	French the language there? 04.57.55PM	24	for Commercial Cheration 04.58.43PM
24 25	French, the language there? 04:57:55PM Q. Actually, I think it's 04:57:57PM	24	for Commercial Operation 04:58:43PM in this contract. Your 04:58:44PM

	Page 352		Page 353
1	client knew that, when it 04:58:46PM	1	case as well as the TransCanada case where the 04:59:42PM
2	submitted their 04:58:47PM	2	Premier's Office and Ministry of Energy was 04:59:45PM
3	application, that there 04:58:48PM	3	directing the OPA to settle the claim, make 04:59:47PM
4	were many unknowns, and 04:58:49PM	4	offers. And the OPA does what they say. 04:59:50PM
5	they were obviously 04:58:50PM	5	Q. So I understand that you 04:59:54PM
6	prepared to take those 04:58:52PM	6	may have had conversations with Mr. Ungerman, but 04:59:55PM
7	risks." 04:58:53PM	7	in JoAnne's response, she does not mention that 04:59:58PM
8	Right? 04:58:54PM	8	she is being directed by the OPA, or she Paul 05:00:01PM
9	A. It does say that. I 04:58:55PM	9	Ungerman is not on this e-mail chain, is he? 05:00:05PM
10	mean, I think there is a set of missing e-mails 04:58:57PM	10	A. Right. It right, 05:00:07PM
11	that maybe they weren't on this string that 04:58:59PM	11	because I think it happened after this date, and, 05:00:07PM
12	shows Mr. Ungerman effectively telling the OPA to 04:59:02PM	12	you know, our reaction to this was clearly not one 05:00:09PM
13	do this and the OPA doing giving us an 04:59:06PM	13	of, "What is this?" We felt, you know, this is 05:00:11PM
14	amendment of one year. And I think that that's 04:59:09PM	14	not the resolution we needed, and, therefore, how 05:00:14PM
15	the I think that's the relatively normal 04:59:13PM	15	can we sign this? I don't think at this point 05:00:19PM
16	process is that the OPA the Ministry of Energy 04:59:16PM	16	we've even signed the contract. 05:00:22PM
17	instructs the OPA on what to do, and the OPA is 04:59:19PM	17	Q. No. 05:00:23PM
18	the contract administrators for all of these 04:59:23PM	18	A. So we weren't going to 05:00:24PM
19	contracts. 04:59:26PM	19	sign the contract until we got that amendment. So 05:00:25PM
20	And I know now they're 04:59:26PM	20	we went to the people we understood effectively 05:00:28PM
21	absorbed into the IESO, and there is a whole bunch 04:59:28PM	21	directed and controlled the OPA, and we told them 05:00:31PM
22	of things going on, but as best I understand, the 04:59:30PM	2.2	our issue. They got involved. There is a whole 05:00:34PM
23	Ministry of Energy directs the OPA, and the OPA 04:59:33PM	2.3	series of e-mails that I think we have put on the 05:00:37PM
24 25	does what the Ministry of Energy wants, and you 04:59:36PM	24 25	record in relation to what happened, and I guess 05:00:39PM JoAnne Butler got overruled. 05:00:42PM
23	can see it sort of consistently throughout this 04:59:39PM	23	JOAnnie Butter got overtuied. 05.00.42PW

2 3 4 5 6 7	Q. Well, I would like to 05:00:44PM continue walking through this e-mail chain 05:00:46PM because, in response, Chris Benedetti and it's 05:00:48PM in the bolded paragraph towards the end of his e-mail. He revises his request, and he proposes that the contract date be amended to the earlier 05:00:53PM of the date upon which applicant of record status 05:00:58PM is obtained by Windstream or April 24, 2011, which 05:01:02PM would allow for two months for the setbacks to be 05:01:06PM	2 3 4 5 6 7 8	our GR rep put forward in this this e-mail, 05:01:45PM correct. 05:01:48PM Q. That was his 05:01:56PM expectation? 05:02:01PM A. July of 2011? So 05:02:03PM Q. So that is stated in the 05:02:08PM third paragraph from the top. 05:02:10PM A. This is August. If 05:02:11PM that's what that, I guess, adds up to, but this 05:02:14PM part right here? 05:02:19PM Q. The third paragraph from 05:02:20PM the top. So you would expect the MNR to take 05:02:21PM several months, and in the last sentence he states 05:02:25PM that: 05:02:27PM "Adding all elements 05:02:27PM described above together 05:02:30PM record status being 05:02:31PM obtained in July 2011 or 05:02:33PM later." 05:02:35PM Right? 05:02:35PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. Well, I would like to 05:00:44PM continue walking through this e-mail chain 05:00:46PM because, in response, Chris Benedetti and it's 05:00:48PM in the bolded paragraph towards the end of his e-mail. He revises his request, and he proposes 05:00:53PM that the contract date be amended to the earlier of the date upon which applicant of record status 05:00:58PM is obtained by Windstream or April 24, 2011, which 05:01:02PM would allow for two months for the setbacks to be 05:01:06PM finalized and six months for the applicant of 05:01:10PM Right? Do you see that in the 05:01:12PM bolded section of this e-mail. 05:01:15PM Q. And so you would agree 05:01:16PM that, as explained in the paragraphs above, this 05:01:23PM would likely not come for two months or more and 05:01:23PM would likely not come for two months to finalize 05:01:32PM that the MNR would take several months to finalize 05:01:35PM consideration of Windstream's application could 05:01:35PM take in excess of six months; right? 05:01:37PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	our GR rep put forward in this this e-mail, 05:01:45PM correct. 05:01:48PM Q. And according to 05:01:49PM Mr. Benedetti's e-mails, all of these elements 05:01:50PM taken together could have seen AOR status being 05:01:52PM obtained in July 2011 or later. That was his 05:01:56PM expectation? 05:02:01PM A. July of 2011? So 05:02:03PM Q. So that is stated in the 05:02:08PM third paragraph from the top. 05:02:10PM A. This is August. 1	information that we had at the time, I think that 05:02:38PM	1	Q. Okay. So on August 11th, 05:03:34PM
2	that's what he was looking at, yes. 05:02:40PM	2	2010, Ms. Butler then responds to state that she 05:03:36PM
3	Q. Okay. In August 11th, 05:02:43PM	3	has found a mutually agreeable solution. 05:03:39PM
4	2010 05:02:46PM	4	A. Yes, exactly. And what 05:03:42PM
5	A. But just to be clear, 05:02:47PM	5	she is referring to there is that is where 05:03:43PM
6	that doesn't mean that we wouldn't have been able 05:02:48PM	6	Mr. Ungerman got involved and directed OPA to 05:03:46PM
7	to go forward with work, you know. Once this 05:02:50PM	7	resolve this. 05:03:49PM
8	site this setback that was the gating issue was 05:02:54PM	8	And I don't know I don't 05:03:51PM
9	resolved, we sort of assumed that we could turn on 05:02:57PM	9	remember in the e-mails to the exact extent of 05:03:52PM
10	the rest of the work again. 05:02:59PM	10	what he asked them to do. But it was effectively 05:03:54PM
11	I mean, you guys you guys 05:03:01PM	11	to resolve our situation. 05:03:57PM
12	presented a budget earlier, and you showed work 05:03:02PM	12	So this e-mail here, it meant 05:03:58PM
13	that we wanted to do, and we still wanted to do 05:03:06PM	13	to us that MEI wanted this project to go forward, 05:04:02PM
14	it. So the fact of the matter is a lot of these 05:03:08PM	14	and MEI directs the OPA. So the two elements 05:04:06PM
15	things in this project, they run in parallel. 05:03:11PM	15	there, and then OPA is listening to direction from 05:04:11PM
16	It's not everything is not sequential. You're 05:03:14PM	16	MEI. 05:04:13PM
17	doing multiple things in parallel. You have a 05:03:15PM	17	So it was a very, very 05:04:14PM
18 19	team of experts in different areas doing different 05:03:18PM	18	important thing for us, because it showed that 05:04:15PM
20	levels of work. 05:03:21PM	19 20	this the people who are procuring power 05:04:19PM
21	Q. But in terms of the 05:03:21PM	21	ultimately and in charge of this whole thing, 05:04:22PM
22	obtaining applicant of record status, 05:03:23PM Mr. Benedetti's e-mail states that it would be 05:03:26PM	22	they're behind this project and want to move it 05:04:23PM forward. 05:04:26PM
23	obtained in July 2011 or later. That was his 05:03:28PM	23	Q. But you would agree that 05:04:26PM
24	expectation? O5:03:32PM	24	Mr or Ms. Butler's e-mail does not mention the 05:04:29PM
25	A. That is what he states. 05:03:32PM	25	Ministry of Energy, and she doesn't state that 05:04:291M
	71. That is what he states. 05.05.521 M		initially of Energy, and she doesn't state that 05.04.511 in

13	e-mail chain that we are looking at. 05:06:47PM	13	MS. NETTLETON: We are about 05:07:53PM
14	A. Yeah. I mean, this is 05:06:49PM	14	25 minutes shy of six hours of party time. 05:07:54PM
15	what we're requesting here is that, you know, we 05:06:50PM	15	PRESIDENT: Yes. Because 05:07:57PM
16	move through the process as sort of stated 05:06:53PM	16	there have been questions from the from the 05:07:58PM
17	throughout all of these e-mails, throughout all of 05:06:56PM	17	Tribunal. So we still have 25 minutes to go to 05:08:01PM
18	this communication and back and forth. 05:06:59PM	18	reach the six hours. 05:08:04PM
19	And, you know, it's just we 05:07:01PM	19	Now the question is: How long 05:08:06PM
20	stuck to the position we had, and we continued to 05:07:04PM	20	do you still have? Would this be a convenient 05:08:07PM
21	reiterate it, so that's what's happening here. 05:07:06PM	21	time to have a short break? Ten minutes perhaps? 05:08:10PM
22	Q. Well, let's take a look 05:07:09PM	22	MS. KAM: Is it possible for 05:08:13PM
23	at the OPA's offer which is at Tab 14, and it's 05:07:10PM	23	us to go through this one more document and then 05:08:15PM
24	Exhibit C-0343. 05:07:13PM	24	take a break afterwards? I was proposing I was 05:08:18PM
25	MR. TERRY: Mr. President, 05:07:22PM	25	going to propose a break. 05:08:21PM

So this is a document titled 05:28:53PM "Transcription of Conference Call, February 11, 05:29:04PM 2011"; correct? 05:29:05PM A. That's correct. 05:29:07PM Q. And this was a transcript 05:29:08PM taken from an audio recording of the call between 05:29:10PM Windstream Ontario and the OPA prior to the 05:29:12PM announcement of the deferral? 05:29:14PM A. That's correct. 05:29:16PM Q. Okay. So let's 05:29:17PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	you know, the knowledge of what we needed to do. 05:12:10PM I mean, they did a lot of research at the front 05:12:12PM end to come up with the program, to come up with 05:12:14PM the pricing, to come up with all of these things. 05:12:14PM And, I mean, you know, we 05:12:19PM believed they did research as well, and, you know, 05:12:20PM I know there's a lot of made about how long it takes to build an offshore wind farm, but the reality is what we need to start with is we 05:12:23PM started this project in 2008, not in 2011. So 05:12:33PM there is three years of work that we did do. 05:12:36PM Would we have liked to have done more? 05:12:38PM Absolutely, and we tried but there's a there 05:12:40PM was a lot of work that was going on here, and we 05:12:42PM just I guess we assumed. Clearly it hasn't 05:12:45PM proved out that way, but that's what we assumed. 05:12:50PM assumption? 05:12:51PM A. Yes. 05:12:52PM Q. I believe we can take a 05:12:52PM break now. 05:12:53PM PRESIDENT: Okay. Thank you 05:12:55PM very much. Let's break for 10 minutes, and we 05:12:55PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Upon resuming at 5:27 p.m. 05:27:17PM PRESIDENT: Okay. Yes, 05:28:24PM please, go on. 05:28:25PM MS. KAM: Great. Thank you. 05:28:27PM BY MS. KAM: 05:28:27PM Q. So I've looked at my 05:28:28PM questions, and I think, Mr. Mars, I only have 05:28:29PM about 15 to 20 minutes left, but could we please 05:28:32PM just stay focused on the questions themselves and 05:28:36PM not go into too much greater context, and that 05:28:39PM will make it go faster? 05:28:44PM A. Okay. 05:28:46PM Q. So I would like to turn 05:28:47PM now to Exhibit C-0484, which is at Tab 30 of the 05:28:48PM binder. So this is a document titled 05:28:53PM "Transcription of Conference Call, February 11, 05:29:04PM 2011"; correct? 05:29:05PM A. That's correct. 05:29:07PM Q. And this was a transcript 05:29:08PM taken from an audio recording of the call between 05:29:10PM Windstream Ontario and the OPA prior to the 05:29:12PM announcement of the deferral? 05:29:14PM A. That's correct. 05:29:16PM

	Page 368		Page 369
1	think they may have put their press release out 05:29:20PM	1	Q. Sure. 05:30:19PM
2	during the phone call. 05:29:22PM	2	A. Okay. 05:30:19PM
3	Q. Okay. 05:29:23PM	3	Q. So my question is that he 05:30:35PM
4	A. I don't know if it was 05:29:25PM	4	specifically referred to those three provisions. 05:30:37PM
5	necessarily prior. I think it was, while they 05:29:26PM	5	A. Yes. It says that we're 05:30:48PM
6	were announcing this to the public, they were 05:29:28PM	6	we're particularly unique because we have a FIT 05:30:53PM
7	telling us. They did start the conversation ahead 05:29:30PM	7	contract and that they're going to the OPA is 05:30:55PM
8	of the press release, but I believe the press 05:29:33PM	8	going to sit down with us and negotiate inclusive 05:30:57PM
9	release may have come out while we were on the 05:29:35PM	9	of those provisions, a number of pieces including 05:31:02PM
10	phone. 05:29:37PM	10	those provisions. 05:31:05PM
11	Q. Okay. But it was the 05:29:37PM	11	So, I mean, I think it it 05:31:06PM
12	same day? 05:29:38PM	12	sort of states that it's broader than just those 05:31:08PM
13	A. Yes. 05:29:40PM	13	pieces, but it does specifically list those 05:31:10PM
14	Q. Okay. So I would like to 05:29:42PM	14	pieces. 05:31:12PM
15	turn to the bottom of page 2. This is where 05:29:43PM	15	Q. Okay. But it was never 05:31:13PM
16	Andrew Mitchell he's a senior policy adviser of 05:29:50PM	16	stated during the call that the OPA would agree to 05:31:16PM
17	the Minister of Energy's office. 05:29:53PM	17	negotiate any other specific provisions; right? 05:31:19PM
18	And he states that sorry. 05:29:55PM	18	These were the only three provisions that were 05:31:22PM
19	So, in particular, Mr. Mitchell states that the 05:30:02PM	19	listed? 05:31:24PM
20	OPA would negotiate the force majeure provisions, 05:30:04PM	20	A. So I haven't reviewed 05:31:25PM
21	the two-year force majeure termination clause 05:30:07PM	21	this in a long time. The call was more than five 05:31:30PM
22	associated with those provisions, and the security 05:30:09PM	22	years ago. So I believe that what you're stating 05:31:33PM
23	deposits in Windstream's FIT contract; correct? 05:30:11PM	23	is accurate. However, you know, it does say a 05:31:35PM
24	A. Can I read it? Is it all 05:30:14PM	24	number of pieces including the force majeure, the 05:31:38PM
25	right if I read it really quick? 05:30:16PM	25	two-year force majeure termination clause, and 05:31:41PM

And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM	2 3 4	during the February 11 call that the OPA would negotiate amendments relating to its general offer of a one-year extension to the MCOD for all FIT of:32:53PM contract holders and domestic content of:32:56PM
2 3 4 5 6 7	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM	2 3 4 5 6 7	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM
2 3 4 5 6 7 8	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM	2 3 4 5 6 7 8	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM
2 3 4 5 6 7 8	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM	2 3 4 5 6 7 8	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:09PM
2 3 4 5 6 7 8 9	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM	2 3 4 5 6 7 8 9	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:10PM A. Well, I think we were 05:33:10PM
2 3 4 5 6 7 8 9 10	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM	2 3 4 5 6 7 8 9 10	during the February 11 call that the OPA would negotiate amendments relating to its general offer of a one-year extension to the MCOD for all FIT of:32:53PM contract holders and domestic content of:32:56PM requirements, the change of control and assignment provisions, the contract facility amendment, the of:33:03PM reporting requirements, and preconstruction development costs provisions; right? There was no of:33:03PM express agreement? of:33:09PM A. Well, I think we were of:33:10PM being faced with a great deal of uncertainty. You of:33:11PM
2 3 4 5 6 7 8 9 10 11	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM Q. Okay. So I would like to 05:32:07PM	2 3 4 5 6 7 8 9 10 11	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:10PM A. Well, I think we were 05:33:10PM being faced with a great deal of uncertainty. You 05:33:11PM know, on February 11, when they announced this, we 05:33:16PM
2 3 4 5 6 7 8 9 10 11 12	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM Q. Okay. So I would like to 05:32:07PM discuss Windstream and the OPA's post-deferral 05:32:09PM	2 3 4 5 6 7 8 9 10 11 12	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:10PM A. Well, I think we were 05:33:10PM being faced with a great deal of uncertainty. You 05:33:11PM know, on February 11, when they announced this, we 05:33:16PM had no indication at all that there would be a 05:33:18PM
2 3 4 5 6 7 8 9 10 11 12 13	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM Q. Okay. So I would like to 05:32:07PM discuss Windstream and the OPA's post-deferral 05:32:09PM discussions, and for that, we're going to have to 05:32:11PM	2 3 4 5 6 7 8 9 10 11	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:10PM A. Well, I think we were 05:33:10PM being faced with a great deal of uncertainty. You 05:33:11PM know, on February 11, when they announced this, we 05:33:16PM had no indication at all that there would be a 05:33:21PM moratorium. And, you know, we knew there was a 05:33:21PM
2 3 4 5 6 7 8 9 10 11 12	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM Q. Okay. So I would like to 05:32:07PM discuss Windstream and the OPA's post-deferral 05:32:11PM cut the feed and go into confidential session. 05:32:13PM	2 3 4 5 6 7 8 9 10 11 12 13 14	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? There was no 05:33:06PM express agreement? 05:33:10PM A. Well, I think we were 05:33:10PM being faced with a great deal of uncertainty. You 05:33:11PM know, on February 11, when they announced this, we 05:33:16PM had no indication at all that there would be a 05:33:21PM moratorium. And, you know, we knew there was a 05:33:21PM moratorium, so we sort of never anticipated the 05:33:24PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15	associated provisions with security deposits. 05:31:44PM Q. Okay. 05:31:47PM A. And there's some 05:31:48PM terminology later on, I believe, in here that 05:31:49PM talks about sort of something to the effect of 05:31:53PM keeping us, you know, in a position that we're in 05:31:56PM now, freezing us, or something to that effect. 05:31:59PM Q. Right. I believe the 05:32:01PM terminology is "deferred" or frozen, which is on 05:32:02PM page 7? 05:32:05PM A. Yes. Okay, yes. 05:32:06PM Q. Okay. So I would like to 05:32:07PM discuss Windstream and the OPA's post-deferral 05:32:09PM discussions, and for that, we're going to have to 05:32:11PM cut the feed and go into confidential session. 05:32:13PM CONFIDENTIAL BEGIN 05:32:20PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15	during the February 11 call that the OPA would negotiate amendments relating to its general offer 05:32:51PM of a one-year extension to the MCOD for all FIT 05:32:53PM contract holders and domestic content 05:32:56PM requirements, the change of control and assignment 05:32:59PM provisions, the contract facility amendment, the 05:33:01PM reporting requirements, and preconstruction 05:33:03PM development costs provisions; right? 1	knowing that our inability knowing that our 05:38:06PM
2	inability to get the land because of the setback 05:38:09PM
3	issue, that didn't start on November 22. I 05:38:12PM
4	actually never understood why somebody would 05:38:15PM
5	arbitrarily pick November 22nd, 2010. That 05:38:17PM
6	started the day we received the contract. 05:38:20PM
7	So we were trying to rectify 05:38:22PM
8	what we believe was an absolute wrong in the way 05:38:24PM
9	that the OPA ruled in terms of our original force 05:38:26PM
10	majeure. And, you know, I still even, as I sit 05:38:31PM
11	here today, to be honest, I still don't understand 05:38:33PM
12	the logic of going from and maybe Mr. Cecchini 05:38:35PM
13	could actually would be able to provide this in 05:38:39PM
14	his testimony, but I didn't understand the logic 05:38:41PM
15	of we got a contract on May 4th. 05:38:43PM
16	They prevented us from going 05:38:46PM
17	forward, but then they didn't give us a full, all 05:38:47PM
18	the way back to May 4th, force majeure, which is 05:38:50PM
19	what they should have done, in my opinion. So we 05:38:52PM
20	were requesting it here. 05:38:55PM
21	Q. But you would agree the 05:38:56PM
22	purpose of the post-deferral discussions with the 05:38:57PM
23	OPA to freeze or defer the project was meant to 05:38:59PM
24	address the effects of the February 11, 2011 05:39:03PM
25	deferral? 05:39:06PM

A. That's -- that's what it 05:39:09PM was meant to do. I believe your answer is 05:39:10PM correct. But all of the stuff that led up to that 05:39:13PM was part of that decision, I guess. 05:39:16PM So we were just trying to fix 05:39:19PM it. I mean, I don't -- like I said, I mean, you 05:39:21PM know, you're not the contracting part, so I can't 05:39:24PM ask you, but the logic to go back to May 4, 2010, 05:39:26PM I think -- I think, again, just me -- I think it's 05:39:31PM reasonably sound, and I don't think it penalizes 05:39:33PM the OPA in any way, shape, or form. 05:39:36PM It just gives us -- you know, 05:39:38PM it just -- it just -- we wanted to perform under 05:39:40PM this contract. We -- we -- we believe that 05:39:43PM there's a sanctity to a contract, when you sign 05:39:45PM it, and you're signing up to obligations, and we 05:39:48PM just wanted -- we just wanted to correct that, 05:39:51PM make sure that it was on face value, and when we 05:39:53PM were allowed to move forward, move forward. 05:39:56PM Now, remember, we're taking on 05:39:59PM a lot of costs and a lot of -- a lot of detriment 05:40:00PM

to this -- you know, having this moratorium in

point in the future, and it starts from the exact 05:40:14PM

place; right? You start a project. You can't

just turn it off and then start it again some

1 same place. I mean, you're mothballing something; 05:40:17PM 2 right? So you have to remobilize. You have to 05:40:20PM 3 restart. You have to do all this stuff. 05:40:22PM 4 And so we're agreeing to that, 05:40:23PM 5 and we're just asking for what I believed was a 05:40:25PM 6 pretty simple give on the OPA's part. 05:40:27PM 7 I don't -- I still don't see 05:40:31PM 8 why they wouldn't do that. And what it would cost 05:40:32PM 9 them. I don't think it cost them anything. 05:40:35PM 10 Q. Okay. Well, let's take a 05:40:37PM 11 look at Windstream's proposal for the security 05:40:39PM 12 requirements, which is at the bottom of page 3. 05:40:41PM 13 A. Yes. 05:40:44PM 14 Q. And Windstream requested 05:40:44PM 15 a waiver of the obligation to provide completion 05:40:46PM 16 and performance security for the duration of the 05:40:48PM 17 event of force majeure; right? 05:40:51PM 18 A. Right. And we stated 05:40:53PM 19 here that, you know, ultimately we would have put 05:40:55PM 20 this back -- we would have given them this 05:40:59PM 21 security back when they told us the project could 05:41:01PM 22 go forward. 05:41:04PM 23 I mean, why -- what's the 05:41:04PM 24 sense in holding our money which they have done 05:41:05PM 25 now for, what, six years? They have held our 05:41:08PM

money. And then if you pre-date that, because we 05:41:11PM had a original LC in place all the way back to 05:41:13PM November 2010 -- I might be wrong on the date, but 05:41:16PM I'm pretty sure -- they have held our money. 05:41:19PM And what you have to 05:41:21PM understand is we actually have money in a bank 05:41:22PM account that is frozen to our access. So we 05:41:24PM cannot only -- we can't use it for other 05:41:28PM investments. So there's a big opportunity cost to 05:41:29PM it but it's also 100 percent at risk. 05:41:31PM 05:41:34PM So they have made commentary around -- you guys have made commentary around 05:41:37PM sunk costs. We'll get into line item detail, but 05:41:39PM one of the sunk costs for us is \$6 million sitting 05:41:42PM in a bank account that we can't access 05:41:56PM Q. But you would agree, Mr. Mars, that all FIT applicants are required to 05:41:57PM provide security in order to participate in the 05:41:59PM

A. Correct. And we provided 05:42:02PM

that exactly as detailed in the FIT program. We

did everything they asked us to do. But we

1	was because it had to do with very specific things 06:01:03PM	1	Q. But you would agree that, 06:02:04PM
2	under the law. But you can see, the we went to 06:01:06PM	2	if you did terminate your contract, you understand 06:02:06PM
3	REFO, the REFO office, on May 13 to explain to 06:01:09PM	3	that you would get your \$6 million letter of 06:02:09PM
4	them that, you know, we were in this position and 06:01:13PM	4	credit back? 06:02:11PM
5	so forth. So we didn't wait all the way to this 06:01:16PM	5	A. At some point in the 06:02:13PM
6	point to start notifying agencies that, you know, 06:01:19PM	6	future, that's I think there is that 06:02:14PM
7	the other agencies weren't meeting their 06:01:22PM	7	possibility. I think it's exactly May it's 06:02:16PM
8	requirements. 06:01:24PM	8	either May 4 or May 22, 2017, I think. We could 06:02:21PM
9	Q. Right. But the date 06:01:25PM	9	have the ability to do that. 06:02:25PM
10	itself is selected by you? 06:01:27PM	10	But, again, we wanted to build 06:02:26PM
11	A. Yes, yes, yes. 06:01:29PM	11	this project, and, you know, our assertion is that 06:02:28PM
	Q. Okay. Now, I just want 06:01:29PM	12	this contract had real value. So us going forward 06:02:31PM
12		13	and cancelling it, it wasn't it wasn't on the 06:02:34PM
13	to ask you a question about the letter of credit 06:01:31PM	2.4	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1
13 14	because you would not have terminated your FIT 06:01:33PM	14	horizon, but I can't tell you that, if we've 06:02:37PM
13 14 15	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM	15	gotten nowhere with it on in May 2017, we 06:02:40PM
13 14 15 16	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM	15 16	gotten nowhere with it on in May 2017, we wouldn't move forward in cancelling it. But at 06:02:43PM
13 14 15 16 17	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM	15 16 17	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM
13 14 15 16 17	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM	15 16 17 18	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM Q. So your decision not to 06:02:47PM
13 14 15 16 17 18	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM read the writing? 06:01:52PM	15 16 17 18 19	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM Q. So your decision not to 06:02:47PM terminate your contract means that your \$6 million 06:02:48PM
13 14 15 16 17 18 19 20	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM read the writing? 06:01:52PM A. We have not. If we were 06:01:53PM	15 16 17 18 19 20	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM Q. So your decision not to 06:02:47PM terminate your contract means that your \$6 million 06:02:48PM letter of credit is still at risk, or as you 06:02:51PM
13 14 15 16 17 18 19 20 21	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM read the writing? 06:01:52PM A. We have not. If we were 06:01:53PM to terminate our contract right now, for force 06:01:54PM	15 16 17 18 19 20 21	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM Q. So your decision not to 06:02:47PM terminate your contract means that your \$6 million 06:02:48PM letter of credit is still at risk, or as you 06:02:51PM said 06:02:55PM
13 14 15 16 17 18 19 20 21 22	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM read the writing? 06:01:52PM A. We have not. If we were 06:01:53PM to terminate our contract right now, for force 06:01:54PM majeure, or any other reason, we would be 06:01:57PM	15 16 17 18 19 20 21 22	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. But at 06:02:43PM this point, it's completely at risk. 06:02:45PM Q. So your decision not to 06:02:47PM terminate your contract means that your \$6 million 06:02:48PM letter of credit is still at risk, or as you 06:02:51PM said 06:02:55PM A. There's no decision, 06:02:55PM
13 14 15 16 17 18 19 20 21	because you would not have terminated your FIT 06:01:33PM contract for force majeure; right? Sorry, you 06:01:36PM would not have terminated your FIT contract for 06:01:42PM force majeure. You have not terminated your 06:01:44PM contract for force majeure; right? Sorry I can't 06:01:49PM read the writing? 06:01:52PM A. We have not. If we were 06:01:53PM to terminate our contract right now, for force 06:01:54PM	15 16 17 18 19 20 21	gotten nowhere with it on in May 2017, we 06:02:40PM wouldn't move forward in cancelling it. 1	I would lose my money. 06:03:07PM	1	RE-EXAMINATION BY MR. TERRY: 06:04:07PM
2	Q. Your understanding is 06:03:11PM	2	Q. Mr. Mars, I just want to 06:04:07PM
3	that you would lose your letter of credit? 06:03:12PM	3	put a few documents to you that arise out of 06:04:17PM
4	A. They have the ability to 06:03:14PM	4	documents that my friend put to you and just ask 06:04:20PM
5	I mean, we can bring up the specific language, 06:03:15PM	5	you some questions with respect to them. This is 06:04:25PM
6	and I'm sorry this is going long, but the OPA has 06:03:17PM	6	a Document R-264. 06:04:52PM
7	the ability to basically be awarded an equivalent 06:03:20PM	7	And, Mr. Mars, do you 06:05:02PM
8	amount to the letter of credit. So, yes, we would 06:03:24PM	8	recognize this document? 06:05:03PM
9	lose our money. 06:03:27PM	9	A. Yes. I mean, this is the 06:05:05PM
10	MS. KAM: Can I just take a 06:03:29PM	10	response that I referred to previous that the OPA 06:05:06PM
11	minute? 06:03:30PM	11	basically believes that that their views remain 06:05:10PM
12	PRESIDENT: Sure. 06:03:31PM	12	unchanged to the previous letters. 06:05:16PM
13	MS. KAM: That concludes my 06:03:36PM	13	Q. And I'm just going to ask 06:05:18PM
14	cross-examination. 06:03:38PM	14	you a couple of questions with respect to this 06:05:19PM
15	THE WITNESS: Thank you very 06:03:39PM	15	document. 06:05:21PM
16	much, and thank you to the Panel here and 06:03:40PM	16	A. Sure. 06:05:21PM
17	everybody working here. 06:03:42PM	17	Q. So you will recall that 06:05:22PM
18	PRESIDENT: Just a second. 06:03:44PM	18	Canada's counsel had asked you questions about the 06:05:29PM
19	Thank you, Ms. Kam. The question is whether there 06:03:45PM		correspondence between the OPA and Windstream with 06:05:32PM
20	will be any questions in redirect from counsel for 06:03:49PM	20	respect to contract negotiations? 06:05:35PM
21	Claimant. 06:03:51PM	21	A. Yes. 06:05:39PM
22	MR. TERRY: I just have a few 06:03:51PM	22	Q. Now, I'm not 100 percent 06:05:39PM
23	questions arising out of my friend's questions. 06:03:53PM	23	sure whether this is confidential or not. 06:05:43PM
24	PRESIDENT: Okay. Please go 06:03:56PM	24	MS. KAM: It is confidential. 06:05:46PM
25	ahead. 06:03:57PM	25	MR. TERRY: Okay. So we 06:05:48PM

		1	
	Page 404		Page 405
1	A. Thank you. 06:08:24PM	1	you could just look at those and, please, 06:09:45PM
2	Q. Mr. Mars, if you could 06:08:40PM	2	explain 06:09:50PM
3	flip back in the document book that Canada gave to 06:08:41PM	3	A. I don't have 341. 06:09:50PM
4	you to Tab 19, which is Document C-341. 06:08:45PM	4	Q. 341 is Tab 19. 06:09:52PM
5	A. Yes. 06:08:50PM	5	A. Oh, okay. I'm sorry. 06:09:54PM
6	Q. And is this confidential 06:08:50PM	6	I'm sorry. 06:09:55PM
7	or not? I don't think so. I think we can go back 06:08:54PM	7	Q. So if you could please 06:09:55PM
8	on the live stream for this. 06:08:57PM	8	explain what you understand from your review of 06:09:57PM
9	CONFIDENTIAL ENDS 06:09:04PM	9	these documents, and perhaps you could also 06:10:02PM
10	BY MR. TERRY: 06:09:04PM	10	indicate whether you received copies of these 06:10:07PM
11	Q. Do you recall when 06:09:04PM	11	documents at the time. 06:10:09PM
12	Canada's counsel was discussing this document at 06:09:05PM	12	A. Yeah. I had these. I 06:10:13PM
13	Tab 19 with you? 06:09:08PM	13	believe I had these copies at the time, and, you 06:10:15PM
14	A. Yes. 06:09:09PM	14	know, I communicated these this, effectively, 06:10:19PM
15	Q. All right. And do you 06:09:10PM	15	but yes. And so, you know, what I believe this to 06:10:21PM
16	recollect that you mentioned to her that there 06:09:11PM	16	say is what I testified to before, which was that 06:10:25PM
17	were other e-mails that you recalled in the record 06:09:14PM	17	Mr. Ungerman got involved and said that he would 06:10:29PM
18	at the time that explained the role of 06:09:18PM	18	help resolve it. And as you can see, you know, 06:10:32PM
19	Mr. Ungerman? 06:09:23PM	19	the e-mail that was sent to Chris was forwarded to 06:10:36PM
20	A. Yes, I do. 06:09:25PM	20	Mr. Ungerman with the language of this is not 06:10:39PM
21 22	Q. Okay. I would like you 06:09:28PM	21 22	good. 06:10:42PM
23	to look at, first of all, Document 338. 06:09:28PM	23	Q. And just for the 06:10:42PM
24	A. Yes. 06:09:38PM O. And if you could so 06:09:38PM	24	record 06:10:44PM
25	Q. And if you could so 06:09:38PM 338, 340, and 341, if we've all got those out. If 06:09:41PM	25	A. Sorry, I apologize. 06:10:44PM Q what is the exhibit 06:10:45PM
23	336, 340, and 341, if we've an got those out. If 00.07.411 W	23	Q what is the exhibit 00.10.431 W
