2	Upon resuming on Tuesday, February 16, 2016, 08:59:43AM	2	PRESIDENT: Good morning, 09:00:42AM
3	at 8:59 a.m. 08:59:44AM	3	Mr. Ziegler. 09:00:43AM
4	PRESIDENT: Good morning, 08:59:44AM	4	THE WITNESS: Good morning. 09:00:44AM
5	everybody. We are at Day 2 in the hearing of a 08:59:47AM	5	PRESIDENT: To begin with, for 09:00:45AM
6	NAFTA case, Windstream Energy LLC v. Government of 08:59:53AM	6	the record, can you please state your full name 09:00:48AM
7	Canada. 08:59:57AM	7	and then read the declaration of witness that you 09:00:50AM
8	Are there any housekeeping or 08:59:58AM	8	have in front of you. 09:00:54AM
9	admin issues to be raised by either party, 08:59:59AM	9	THE WITNESS: Yes. My name is 09:00:55AM
10	Mr. Terry? 09:00:02AM	10	William R. Ziegler. I solemnly declare on my 09:00:56AM
11	MR. TERRY: Nothing from us, 09:00:03AM	11	honours and conscience that, in my evidence before 09:01:01AM
12	thanks. 09:00:05AM	12	this tribunal, I shall speak the truth, the whole 09:01:04AM
13	PRESIDENT: Mr. Spelliscy? 09:00:05AM	13	truth, and nothing but the truth. 09:01:06AM
14	MR. SPELLISCY: No, nothing 09:00:06AM	14	AFFIRMED: WILLIAM ZIEGLER 09:00:37AM
15	from us. 09:00:08AM	15	PRESIDENT: Thank you very 09:01:09AM
16	PRESIDENT: Thank you. So we 09:00:08AM	16	much. 09:01:10AM
17	continue with the examination of witnesses. 09:00:09AM	17	I also see you have your two 09:01:10AM
18	The next witness will be 09:00:12AM	18	witness statements in front of you. 09:01:15AM
19	Mr. Ziegler. He is available. We have made some 09:00:14AM	19	THE WITNESS: Yes, I do. 09:01:18AM
20	rearrangements which can be, again, of course 09:00:24AM	20	PRESIDENT: You have submitted 09:01:19AM
21	rearranged 09:00:27AM	21	two statements in this proceeding. The first one 09:01:20AM
22	[Laughter.] 09:00:29AM	22	is dated August 18, 2014; the second one, June 17, 09:01:22AM
23	PRESIDENT: if it looks 09:00:29AM	23	2015. That's correct? 09:01:27AM
24	like it won't work. But hopefully this will be a 09:00:31AM	24	THE WITNESS: I don't see the 09:01:28AM
25	bit more comfortable for both counsel and the 09:00:33AM	25	dates on them, sir, but I recall that that's 09:01:37AM
	Page 6		Page 7
1	PRESIDENT: You confirm these 09:01:40AM	1	some information about your background? 09:02:27AM
2	are your statements. 09:01:41AM	2	A. Yes, I would be glad to. 09:02:29AM
3	THE WITNESS: Yes, yes. 09:01:42AM	3	I am a long-time private investor, based in New 09:02:32AM
4	PRESIDENT: Do you have any 09:01:42AM	4	York City. I originally started my career as an 09:02:37AM
5	corrections or changes to be made? 09:01:43AM	5	attorney, doing transactional work in New York 09:02:42AM
6	THE WITNESS: No, I do not. 09:01:45AM	6	City, from New York. 09:02:48AM
7	PRESIDENT: Thank you very 09:01:46AM	7	Along the way, I I met my 09:02:49AM
8	much. I understand you know what the procedure 09:01:47AM	8	future and now long-time business partner, a 09:02:52AM
9	is. You will be first briefly examined by counsel 09:01:50AM	9	gentleman named Stephen Webster, who persuaded me 09:02:55AM
10	for the Claimant, and then there will be a 09:01:53AM	10	that I could better use my inadequate legal 09:02:59AM
11	cross-examination by counsel for the Respondent. 09:01:55AM	11	talents in an effort to help him in his business 09:03:02AM
12	The tribunal may ask questions at any time. And 09:01:58AM	12	ventures. And together we began a series of 09:03:07AM
13	there may be a re-examination by counsel for the 09:02:03AM	13	investments in the energy business, oil and gas 09:03:12AM
14	Claimant. 09:02:07AM	14	services, oil and gas exploration, and various 09:03:15AM

16	understand. 09:02:08AM	16	different disciplines such as renewables. 09:03:23AM
17	PRESIDENT: Thank you very 09:02:08AM	17	MR. TERRY: That's all I would 09:03:28AM
18	much. 09:02:09AM	18	like to ask for now. Thank you. 09:03:31AM
19	And, Mr. Terry. 09:02:09AM	19	PRESIDENT: Thank you, 09:03:34AM
	EXAMINATION-IN-CHIEF BY MR. TERRY: 09:02:09AM	20	Mr. Terry. And it will be Ms. Squires. 09:03:35AM

	Page 8		Page 9
1	Q. How are you this morning? 09:03:45AM	1	A. Yes. 09:04:33AM
2	A. I'm well. 09:03:46AM	2	Q. And you're also an 09:04:34AM
3	Q. Good. My name is Heather 09:03:47AM	3	officer and director of Windstream and its 09:04:35AM
4	Squires, and I am counsel for the Government of 09:03:48AM	4	subsidiaries, Windstream Energy Inc. and 09:04:37AM
5	Canada in this proceeding. I'm going to ask you a 09:03:50AM	5	Windstream Wolfe Island Shoals Inc; correct? 09:04:40AM
6	few questions so I can understand your statements 09:03:54AM	6	A. Yes. 09:04:42AM
7	that you submitted for the Claimant in this 09:03:56AM	7	Q. And you're currently the 09:04:42AM
8	arbitration. 09:03:58AM	8	managing partner of White Owl Capital Partners 09:04:43AM
9	If you don't understand a 09:03:58AM	9	LLC? 09:04:46AM
10	question, let me know. I can rephrase it. It's 09:03:59AM	10	A. That's correct. 09:04:47AM
11	very important that we understand each other. 09:04:02AM	11	Q. Now, prior to this, you 09:04:48AM
12	Also, in that regard, if the 09:04:04AM	12	worked as counsel at the law firm Saterlee 09:04:50AM
13	answer to my question is yes or no, I would 09:04:07AM	13	Stephens Burke & Burke, as well as several other 09:04:54AM
14	appreciate that as the first part of your answer, 09:04:09AM	14	law firms; correct? 09:04:55AM
15	and then I can provide you the time to provide the 09:04:12AM	15	A. That's correct. 09:04:56AM
16	relevant context that you think is required. 09:04:14AM	16	Q. And in these positions, 09:04:56AM
17	We do have limited time this 09:04:16AM	17	you practised corporate, banking, and securities 09:04:57AM
18	morning, but if you need a break let me know. I 09:04:17AM	18	law? 09:04:59AM
19	will note, given my state of affairs, I'm probably 09:04:20AM	19	A. Correct. 09:05:00AM
20	the one to need a break before you, but we'll see 09:04:22AM	20	Q. Now, your witness 09:05:00AM
21	how this we'll see how this goes. 09:04:25AM	21	statement indicates that you have been a private 09:05:02AM
22	A. We'll hold our breath. 09:04:26AM	22	investor for over 30 years. And as you've 09:05:03AM
23	Q. All right. Now, you're 09:04:28AM	23	indicated to Mr. Terry this morning, but you have 09:05:05AM
24	the chairman and board of directors and majority 09:04:29AM	24	never invested any money in an offshore wind 09:05:08AM
25	investor in Windstream Energy; correct? 09:04:32AM	25	project prior to Windstream. Is that correct? 09:05:10AM
	Page 10		Page 11
1	A. That's correct. 09:05:12AM	1	explore the FIT contract for a bit, so I'd like 09:06:21AM
2	Q. Or the wind energy sector 09:05:12AM	2	you to turn to Tab 1 in your binder, which is the 09:06:24AM
3	in general prior to that time? 09:05:15AM	3	binder there to your right-hand side. 09:06:27AM
4	A. Well, we we invested 09:05:16AM	4	A. Thank you. 09:06:33AM
5	in some onshore projects. I began my interest in 09:05:18AM	5	Q. Now, this is the standard 09:06:34AM
6	in wind energy by a small investment in a 09:05:23AM	6	form FIT contract, Version 1.3. So this is the 09:06:39AM
7	company in Canada, a company called Barrington. 09:05:26AM	7	FIT contract that Windstream signed with the 09:06:42AM
8	And that's where I met Ian 09:05:29AM	8	Ontario Power Authority. Is that correct? 09:06:44AM
9	Baines, and I brought with me my long-time 09:05:32AM	9	A. This may sound odd, but I 09:06:45AM
10	associate, David Mars, who basically does most of 09:05:35AM	10	don't believe I have ever seen the FIT contract. 09:06:50AM
11	the hands-on work for me, into that situation. 09:05:39AM	11	Q. Okay. 09:06:50AM
12	Q. And do you recall the 09:05:43AM	12	A. It's been described to me 09:06:53AM
13	time period of that? That was post Windstream; 09:05:44AM	13	many times 09:06:54AM
14	correct? 09:05:46AM	14	Q. Okay. So you have no 09:06:54AM
15	A. It was pre-Windstream, 09:05:46AM	15	A by my attorneys and my 09:06:56AM
16	and I would say 2007/2008, something in that area. 09:05:49AM	16	management. 09:06:57AM
17	There was a at that point, there was a program 09:05:58AM	17	Q. Sorry. So you have no 09:06:57AM
18	in force in Ontario to encourage smaller wind 09:06:02AM	18	you have never reviewed the FIT contract prior to 09:06:59AM
19	projects, and this company was basically pursuing 09:06:06AM	19	my bringing you to it today, the terms itself? 09:07:01AM
20	those situations. 09:06:10AM	20	A. In a document form? No. 09:07:05AM
21	Q. So roughly around the 09:06:11AM	21	Q. Okay. Well, maybe we 09:07:06AM
22		22	could just walk through a couple provisions, and 09:07:08AM
	same time, then, 2007/2008, you began to 09:06:14AM		
23	A. I believe that's right. 09:06:17AM	23	I'll give you the time to familiarize yourself 09:07:10AM

	Page 12		Page 13
1	is the Ontario Power Authority. Is that correct? 09:07:16AM	1	A. Yes. 09:08:06AM
2	A. Yes. 09:07:18AM	2	Q. And for the Windstream 09:08:07AM
3	Q. Okay. And let's start 09:07:20AM	3	project, the MCOD was five years from the date 09:08:09AM
4	with Section 2.5 of the FIT contract. So I'll ask 09:07:24AM	4	that the contract was signed; correct? If we 09:08:11AM
5	you to turn there. 09:07:26AM	5	leave aside any extension for force majeure. 09:08:14AM
6	A. Yes, I've got it. 09:07:43AM	6	A. I'll take your word for 09:08:17AM
7	Q. Now, we'll just read 09:07:44AM	7	it, yes. 09:08:19AM
8	through what it says there. It notes that it 09:07:46AM	8	Q. Okay. So based on 09:08:20AM
9	notes that: 09:07:46AM	9	Section 2.5, then, and that five years, Windstream 09:08:22AM
10	"The supplier 09:07:49AM	10	and the Ontario Power Authority had agreed in that 09:08:25AM
11	acknowledges that time is 09:07:50AM	11	contract that or that Windstream had committed 09:08:28AM
12	of the essence to the 09:07:51AM	12	that the contract the commercial operation 09:08:31AM
13	Ontario Power Authority, 09:07:53AM	13	would be reached by May 4, 2015, if the contract 09:08:33AM
14	with respect to obtaining 09:07:54AM	14	was signed on May 4, 2010; correct? 09:08:35AM
15	commercial operation." 09:07:55AM	15	A. That's correct, yes. 09:08:38AM
16	And in the next sentence it 09:07:56AM	16	Q. Okay. Now, once the 09:08:42AM
17	notes that: 09:07:58AM	17	supplier meets that commercial operation within 09:08:43AM
18	"The parties agree that 09:07:58AM	18	the FIT contract timelines, it's only then that 09:08:45AM
19	commercial operation 09:07:59AM	19	the supplier is entitled to the revenue stream 09:08:48AM
20	shall be achieved in a 09:08:00AM	20 21	under the FIT contract; correct? 09:08:51AM
21 22	timely manner and by the 09:08:01AM	22	A. Yes. 09:08:52AM
23	MCOD, or the Milestone 09:08:03AM	23	Q. Okay. Now, I want to 09:08:53AM take a couple of more minutes here just to explore 09:08:57AM
24	Date of Commercial 09:08:05AM Operation." 09:08:05AM	24	how the OPA determines whether or not a project 09:08:59AM
25	Operation." 09:08:05AM Do you see that? 09:08:06AM	25	has reached commercial operation. 09:09:01AM
23	Do you see that: 09.08.00AM		has reached commercial operation.

Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM
2 3 4 5 6 7 8 9	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM	2 3 4 5 6 7 8 9	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM
2 3 4 5 6 7 8 9 10	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM	2 3 4 5 6 7 8 9 10	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM
2 3 4 5 6 7 8 9 10 11	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM	2 3 4 5 6 7 8 9 10 11	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM
2 3 4 5 6 7 8 9 10 11 12	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM	2 3 4 5 6 7 8 9 10 11 12 13	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM
2 3 4 5 6 7 8 9 10 11 12 13	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And — okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM	2 3 4 5 6 7 8 9 10 11 12 13 14	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM confirmations of financing; correct? 09:10:48AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM confirmations of financing; correct? 09:10:48AM A. Yes. 09:10:51AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FTT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM confirmations of financing; correct? 09:10:48AM A. Yes. 09:10:51AM Q. And the FTT contract, as 09:10:52AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM Power Authority issuing that Notice to Proceed. 09:09:51AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM confirmations of financing; correct? 09:10:48AM A. Yes. 09:10:51AM Q. And the FIT contract, as 09:10:52AM well, provides no guarantee that a supplier will 09:10:54AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM Power Authority issuing that Notice to Proceed. 09:09:51AM Do you see that? 09:09:52AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by - 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Well, if we move 09:10:41AM to the next prerequisite then, subsection 2, it 09:10:42AM indicates that a supplier needs to obtain certain 09:10:45AM confirmations of financing; correct? 09:10:51AM Q. And the FIT contract, as 09:10:52AM well, provides no guarantee that a supplier will 09:10:54AM be able to obtain that financing; correct? 09:10:55AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM Power Authority issuing that Notice to Proceed. 09:09:51AM Do you see that? 09:09:53AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	necessary for the construction of the contract that is slated to commence. Do you see that? A. Yes. O9:10:10AM Q. And, to your knowledge, O9:10:13AM the FIT contract provides no guarantee that the supplier will obtain this Renewal Energy Approval; O9:10:20AM A. Well, we understood there O9:10:21AM was some very specific service undertakings by - O9:10:25AM necessarily characterize them as a guarantee, no. O9:10:38AM Q. Okay. Well, if we move O9:10:41AM to the next prerequisite then, subsection 2, it O9:10:45AM confirmations of financing; correct? O9:10:51AM Q. And the FIT contract, as O9:10:52AM well, provides no guarantee that a supplier will O9:10:55AM A. That's correct. But the O9:10:58AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:45AM Power Authority issuing that Notice to Proceed. 09:09:51AM Do you see that? 09:09:53AM Q. And if we look at the 09:09:54AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	necessary for the construction of the contract that is slated to commence. Do you see that? O9:10:08AM A. Yes. O9:10:10AM Q. And, to your knowledge, O9:10:13AM the FIT contract provides no guarantee that the O9:10:15AM supplier will obtain this Renewal Energy Approval; O9:10:20AM A. Well, we understood there O9:10:21AM was some very specific service undertakings by - O9:10:24AM with respect to permitting. But I wouldn't O9:10:35AM necessarily characterize them as a guarantee, no. O9:10:38AM Q. Okay. Well, if we move O9:10:41AM to the next prerequisite then, subsection 2, it O9:10:42AM indicates that a supplier needs to obtain certain O9:10:45AM confirmations of financing; correct? O9:10:51AM Q. And the FIT contract, as O9:10:52AM well, provides no guarantee that a supplier will O9:10:55AM A. That's correct. But the O9:10:58AM FIT contract gives us tremendous advantage in that O9:11:01AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM Power Authority issuing that Notice to Proceed. 09:09:51AM Do you see that? 09:09:52AM A. Yes. 09:09:53AM Q. And if we look at the 09:09:56AM first one there, it indicates that the first 09:09:56AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	necessary for the construction of the contract that is slated to commence. Do you see that? O9:10:08AM A. Yes. O9:10:10AM Q. And, to your knowledge, O9:10:13AM the FIT contract provides no guarantee that the O9:10:15AM supplier will obtain this Renewal Energy Approval; O9:10:20AM A. Well, we understood there O9:10:21AM was some very specific service undertakings by - O9:10:24AM with respect to permitting. But I wouldn't O9:10:35AM necessarily characterize them as a guarantee, no. O9:10:38AM Q. Okay. Well, if we move O9:10:41AM to the next prerequisite then, subsection 2, it O9:10:42AM indicates that a supplier needs to obtain certain O9:10:45AM confirmations of financing; correct? O9:10:51AM Q. And the FIT contract, as O9:10:52AM well, provides no guarantee that a supplier will O9:10:55AM A. That's correct. But the O9:10:58AM FIT contract gives us tremendous advantage in that O9:11:01AM regard. O9:11:03AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	So we'll just move to the next 09:09:03AM provision, which is 2.6. I believe this section 09:09:04AM deals specifically with the requirements for 09:09:10AM commercial operation. 09:09:11AM If we look at subsection 09:09:13AM 2.6(a)(i), it indicates there that a Notice to 09:09:15AM Proceed or an NTP, as I will refer to it, under 09:09:19AM Section 2.4 of the FIT contract is needed. Do you 09:09:23AM see that. 09:09:26AM A. I do. 09:09:26AM Q. And okay. So let's 09:09:26AM turn to Section 2.4, then. So we'll ask you to go 09:09:28AM back a couple of pages to Section 2.4, and we'll 09:09:32AM look specifically at Section 2.4(b). 09:09:39AM So this section lists off what 09:09:42AM are known as the NTP prerequisites, so certain 09:09:45AM conditions that must be met prior to the Ontario 09:09:48AM Power Authority issuing that Notice to Proceed. 09:09:51AM Do you see that? 09:09:52AM A. Yes. 09:09:53AM Q. And if we look at the 09:09:54AM first one there, it indicates that the first 09:09:56AM prerequisite is a completed Renewable Energy 09:09:57AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	necessary for the construction of the contract 09:10:06AM that is slated to commence. Do you see that? 09:10:08AM A. Yes. 09:10:10AM Q. And, to your knowledge, 09:10:13AM the FIT contract provides no guarantee that the 09:10:15AM supplier will obtain this Renewal Energy Approval; 09:10:18AM correct? 09:10:20AM A. Well, we understood there 09:10:21AM was some very specific service undertakings by 09:10:24AM with respect to permitting. But I wouldn't 09:10:35AM necessarily characterize them as a guarantee, no. 09:10:38AM Q. Okay. Is that correct. 09:12:51AM A. Well, I looked at the FIT 09:12:53AM contract as the key to obtaining a viable project. 09:12:56AM You you normally have to spend considerable 09:13:05AM money, time, and effort to get to the point where 09:13:08AM you're eligible for a Power Purchase Agreement in 09:13:10AM any normal, let's say, power-type transaction, and 09:13:13AM the FIT basically gave that to you upfront. 09:13:19AM So you could essentially be 09:13:22AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15	fixed price is a tremendous advantage. You don't 09:13:59AM have to go into bid into the system to sell your 09:14:02AM power. You know what the price is going in. Your 09:14:06AM financiers know what the price is going in. And 09:14:11AM it it puts you in a totally different category, 09:14:14AM in terms of your your chances of success in 09:14:17AM in building your project and getting it up and 09:14:21AM spinning, in the case of a wind wind wind 09:14:23AM farm. 09:14:26AM So, yes, it does say these 09:14:26AM things. But, you know, it doesn't say in 09:14:29AM paragraph 2 that you have to have your financing 09:14:32AM on the table to get a Notice to Proceed. It just 09:14:34AM says you have to submit a plan. 09:14:37AM Q. Well, if we focus on the 09:14:39AM

They arranged it. 09:27:25AM They're – they're in the shipping business, and 09:27:27AM they provide – have – have numerous banking 09:27:28AM arrangements, and they – they suggested we use 09:27:31AM one of their banks to issue the letter of credit. 09:27:34AM Q. Okay. So it says there 09:27:37AM in that provision that they will provide and 09:27:38AM maintain the \$6 million completion and performance 09:27:41AM security that Windstream had to give to the OPA; 09:27:43AM correct? 09:27:47AM A. Correct. 09:27:48AM Q. Okay. So that's the 09:27:48AM letter of credit we were talking about a couple 09:27:50AM minutes ago? 09:27:52AM A. Yes. 09:27:52AM Q. All right. Now, if we 09:27:55AM read a bit further down in that section, it says: 09:27:55AM "The amount of any 09:27:58AM security provided by the 09:28:00AM letter of credit provider 09:28:00AM letter of credit provider 09:28:01AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	loan by the letter of 09:28:06AM credit provider to 09:28:07AM Windstream at an interest 09:28:08AM rate of 17.5 percent." 09:28:10AM And you can see on the screen 09:28:11AM here we're highlighting it for you if it makes it 09:28:13AM easier to pick out exactly where I am. 09:28:15AM A. How many points is that 09:28:18AM over libor? 09:28:19AM Q. Sorry, what was that? 09:28:21AM A. It's quite a few points 09:28:22AM over libor. 09:28:24AM Q. It sounds like it, hey? 09:28:27AM All right. 09:28:29AM Now, we've already confirmed 09:28:30AM that there have been no draws against the letter 09:28:33AM of credit. So Windstream has not had to reimburse 09:28:35AM Lucky Star pursuant to this provision; correct? 09:28:39AM A. Yes. 09:28:41AM Clause 2. This clause indicates that the this 09:28:42AM clause is entitled "Participation by 09:28:51AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	look at the section entitled "Provision of 09:27:17AM Security." And it indicates there that the letter 09:27:19AM of credit provider, who was Lucky Star; correct? 09:27:22AM A. Yes. They arranged it. 09:27:25AM They're they're in the shipping business, and 09:27:27AM they provide have have numerous banking 09:27:28AM arrangements, and they they suggested we use 09:27:31AM one of their banks to issue the letter of credit. 09:27:34AM Q. This clause indicates that the this 09:28:42AM clause is entitled "Participation by 09:28:49AM

	Page 36		Page 37
1	the letter of credit 09:28:55AM	1	Q. Now it indicates that: 09:29:53AM
2	provider for any amount 09:28:55AM	2	"Each of the co-investors 09:29:54AM
3	of drawn funds on the 09:28:57AM	3	further agrees" 09:29:56AM
4	percentage share 09:28:59AM	4	If we continue on further. 09:29:57AM
5	indicated in Schedule A 09:29:00AM	5	" that the obligation 09:29:58AM
6	of the agreement." 09:29:02AM	6	to reimburse" 09:30:00AM
7	Do you see that? 09:29:03AM	7	The loan we just talked about. 09:30:02AM
8	A. I do, yes. 09:29:03AM	8	" will be secured by 09:30:03AM
9	Q. And back in Schedule A, 09:29:04AM	9	depositing in an 09:30:04AM
10 it indicated t	hat the percentage share for you and 09:29:06AM	10	interest-bearing account 09:30:05AM
11 Mr. Webster	was 25 percent. 09:29:10AM	11	of Lucky Star at the 09:30:06AM
12	A. Each, yes. 09:29:13AM	12	Royal Bank of Scotland, 09:30:08AM
13	Q. Okay. So, again, if 09:29:14AM	13	U.S. dollars, the amount 09:30:10AM
14 they're draw	n funds, the loan that we just talked 09:29:17AM	14	of the participation 09:30:11AM
15 about materi	alizes; you and Mr. Webster would 09:29:20AM	15	percentage of the amount 09:30:13AM
16 agree to imr	nediately reimburse Lucky Star based on 09:29:22AM	16	of cash collateral 09:30:14AM
	share of 25 percent each; correct? 09:29:25AM	17	required by RBS to 09:30:16AM
18	A. Well, I haven't studied 09:29:29AM	18	provide and maintain a \$6 09:30:17AM
	, that sounds what the import is. 09:29:30AM	19	million letter of 09:30:19AM
20	Q. Okay. All right. So 09:29:34AM	20	credit." 09:30:20AM
21 we'll go abo	ut halfway we'll go back to the 09:29:38AM	21	Do you see that? 09:30:20AM
22 second claus	the there when you're ready. And we're 09:29:40AM	22	A. Yes. 09:30:21AM
23 going to go	about halfway down the paragraph to a 09:29:47AM	23	Q. Okay. So bear with me 09:30:21AM
24 sentence that	t starts, "Each of the co-investors." 09:29:50AM	24	again. I'll try and figure out what this means. 09:30:23AM
25	A. Yes. 09:29:52AM	25	So Royal Bank of Scotland, then, says they need a 09:30:26AM
	unt of cash collateral to secure the 09:30:28AM	1 2	flip to the next tab in your binder. So that 09:31:11AM
3 that you and	dit, and this provision indicates 09:30:30AM d Mr. Webster will provide some of that 09:30:32AM	3	would put us to tab that would put us to Tab 8, 09:31:13AM I believe no, Tab 9, sorry. 09:31:18AM
	ral based on the percentages that we 09:30:34AM	4	A. Yes, I see it. 09:31:20AM
	about, so 25 percent each. 09:30:37AM	5	Q. And this is Exhibit 09:31:27AM
6	A. Right. And we, in fact, 09:30:39AM	6	C-0692, and it's a letter from the Royal Bank of 09:31:29AM
7 did so.	09:30:40AM	7	Scotland. Do you see that? 09:31:32AM
8	Q. Okay. So so that 09:30:42AM	8	A. Yes. 09:31:34AM
	into an account at the Royal bank of 09:30:46AM	9	Q. And it's dated April 20, 09:31:34AM
· ·	nd that account bears interest? 09:30:48AM	10	2014, so four years after that FIT security 09:31:36AM
11	A. Yes. 09:30:50AM	11	provision agreement took effect. We just 09:31:39AM
12	Q. Now, do you recall what 09:30:51AM	12	discussed that was in May of 2014. 09:31:42AM
	rate on that account was? 09:30:52AM	13	A. Yes. I'm reading it, 09:31:44AM
14	A. I know it wasn't 17 and a 09:30:54AM	14	yes. 09:31:46AM
half percent		15	Q. Okay. And if we look at 09:31:46AM
16	[Laughter.] 09:30:58AM	16	the last sentence there, it indicates that the 09:31:48AM
	BY MS. SQUIRES: 09:30:58AM	17	current amount held in U.S. dollars securing the 09:31:50AM
18	Q. We'd all like that 09:30:58AM	18	letter of credit is just over \$6.6 million U.S.; 09:31:52AM
	ount, I think. 09:31:00AM	19	correct? 09:31:56AM
20	A. No, I'm afraid I don't. 09:31:01AM	20	A. Yes. 09:31:57AM
	ay know that. 09:31:03AM	21	Q. So, as of April 2014, 09:31:57AM
2.2	Q. Okay. No problem. 09:31:05AM	22	this \$6.6 million represents the money that you 09:32:00AM
22	NT T '11 1 00 01 06 13 5		
23	Now, I will get you to keep 09:31:06AM	23	and Mr. Webster had put in at 25 percent each, 09:32:04AM
2324 your finger	Now, I will get you to keep 09:31:06AM there for a second because we're going 09:31:07AM k, but in the meantime, if you could 09:31:09AM	24 25	and Mr. Webster had put in at 25 percent each, 09:32:04AM money that Lucky Star put in to make up the other 09:32:07AM 50 percent of what was required 09:32:10AM

	Page 40		Page 41
1	A. Correct. 09:32:12AM	1	on that account in between? 09:33:03AM
2	Q plus any interest that 09:32:12AM	2	A. I don't know for sure, 09:33:06AM
3	has accrued on that account between the time the 09:32:13AM	3	but it sounds right. 09:33:07AM
4	money was put in and April of 2014? 09:32:15AM	4	Q. Okay. All right. Let's 09:33:09AM
5	A. I'm not sure that's what 09:32:17AM	5	go back to the security agreement, then, that was 09:33:10AM
6	it represents. But we did put in we 09:32:18AM	6	at Tab 8 of your binder. And we're going to go 09:33:12AM
7	over-collateralized the letter because our bank 09:32:23AM	7	back to Clause 2. 09:33:17AM
8	was concerned about fluctuations in the U.S. 09:32:26AM	8	A. Okay. 09:33:19AM
9	dollar and the Canadian dollar, and they wanted to 09:32:28AM	9	Q. Now, it says there at the 09:33:20AM
10	make sure that there was at least \$6 million of 09:32:32AM	10	bottom I believe in the last sentence that: 09:33:23AM
11	Canadian money in that account, if there was a 09:32:35AM	11	"The letter of credit 09:33:27AM
12	draw on the letter. I believe that's why the 09:32:39AM	12	provider will return any 09:33:28AM
13	variations. 09:32:41AM	13	funds deposited in that 09:33:30AM
14	Q. Okay. Do you recall what 09:32:42AM	14	Royal Bank of Scotland 09:33:31AM
15	they required, then, originally to secure that 09:32:42AM	15	account at the end of the 09:33:33AM
16	letter of credit? 09:32:44AM	16	term along with any 09:33:34AM
17	A. Cash. 09:32:45AM	17	interest accrued." 09:33:35AM
18	Q. But you don't the 09:32:47AM	18	Do you see that? The very 09:33:36AM
19	exact quantum of cash, you're not sure of? 09:32:49AM	19	last sentence? 09:33:37AM
20	A. No, I don't know the 09:32:51AM	20	A. I'm sorry. 09:33:39AM
21	exact amount. I think I think it was, like, a 09:32:52AM	21	Q. It's in Clause 2. 09:33:41AM
22	10 percent or a 12 percent overage, something 09:32:55AM	22	A. Okay. That helps. I'm 09:33:43AM
23	along that order. 09:32:58AM	23	not sure what "end of the term" means in that 09:33:52AM
24	Q. Okay. But some of that 09:32:59AM	24	context. Our understanding was that, when we 09:33:54AM
25	money would make up the interest that has accrued 09:33:01AM	25	received the letter of credit back, we would 09:33:59AM
	D 42		D 42
-	Page 42		Page 43
1	settle up the account. 09:34:01AM	1	return on the U.S. 09:34:41AM
2	Q. Okay. But it does 09:34:03AM	2	dollars deposited in the 09:34:42AM
3	indicate there that what at the end of the 09:34:05AM	3	RBS cash collateral 09:34:44AM
4	term, whenever that term might be, that the money 09:34:07AM	4	account." 09:34:46AM
5	that you deposited in that account would be 09:34:09AM	5	Do you see that? 09:34:46AM
6	returned to you; correct? 09:34:11AM	6	A. Yes. That was accruing. 09:34:48AM
7	A. Yes. 09:34:12AM	7	Q. Okay. So Windstream 09:34:53AM
8	Q. With accompanying 09:34:14AM	8	agrees to pay its investors so you, 09:34:55AM
9	interest? 09:34:15AM	9	Mr. Webster, and Lucky Star a fee of 12.5 09:34:58AM
10	A. Right. 09:34:15AM	10	percent that will accrue on a pro rata basis on 09:35:01AM
11	Q. Okay. Now, I'm almost 09:34:15AM	11	cash that you have deposited into that Royal Bank 09:35:05AM
12	done here, but let's look at Clause 3. And that 09:34:16AM	12	of Scotland account? 09:35:07AM
13	clause is entitled "fees." 09:34:22AM	13	A. Correct. 09:35:09AM
14	A. Correct. 09:34:24AM	14	Q. So this part of the 09:35:10AM
15	Q. We'll make it a bit 09:34:25AM	15	agreement, then, is a way for Windstream to pay a 09:35:12AM
16	bigger here on the screen. 09:34:26AM	16	return to its investors of 12.5 percent for having 09:35:15AM
17	A. Thank you. 09:34:28AM	17	that money tied up in the RBS account; correct? 09:35:18AM
18	Q. All right. Now, in the 09:34:28AM	18	A. That was the idea. 09:35:21AM
19	first sentence there, it says that: 09:34:30AM	19	Q. Okay. 09:35:24AM
20	"Windstream agrees to pay 09:34:32AM	20	A. All of these investors 09:35:24AM
		21	were also equity investors in the company. And 09:35:25AM
21	to the investors, in 09:34:34AM		
21 22	accordance with their 09:34:35AM	22	the percentages of ownership in the equity side of 09:35:30AM
21 22 23	accordance with their 09:34:35AM respective participation 09:34:36AM	23	the investment differed from the percentage of 09:35:33AM
21 22	accordance with their 09:34:35AM		

	Page 44		Page 45
1	So I think we we tried to 09:35:41AM	1	counsel, about the interest rate in the RBS 09:37:41AM
2	equalize that by putting a 12 and a half percent 09:35:44AM	2	account, in the Royal Bank of Scotland account, 09:37:44AM
3	return on the letter of credit, which would have 09:35:50AM	3	whether you knew what the interest rate was? 09:37:48AM
4	basically would have been an expected return 09:35:52AM	4	A. I I was surprised to 09:37:52AM
5	that we would look at, an IRR in any project we 09:35:56AM	5	read the 17 and a half percent number, yes, just 09:37:53AM
6	did. So that was the idea. I think that was the 09:36:00AM	6	now. But I don't recall that I ever focused on 09:37:56AM
7	basis for setting this fee. Is that 09:36:03AM	7	that before. 09:37:59AM
8	Q. Sorry. 09:36:07AM	8	Q. It wasn't the 17.5 09:38:00AM
9	A. Is that clear? 09:36:08AM	9	percent number. Remember she asked you about the 09:38:01AM
10	Q. Yes. I just have one - 09:36:09AM	10	actual the account in which the letter of 09:38:03AM
11	if you can give me one second. 09:36:11AM	11	credit is held, and you said 09:38:05AM
12	You are free to go, 09:37:11AM	12	A. Yes. Accruing interest 09:38:06AM
13	Mr. Ziegler, from my perspective anyway. Your 09:37:12AM	13	on it? 09:38:08AM
14	counsel may have different views. 09:37:14AM	14	Q. Yes. 09:38:08AM
15	THE WITNESS: Thank you. 09:37:16AM	15	A. I just didn't have any 09:38:10AM
16	PRESIDENT: Thank you, 09:37:18AM	16	recollection of that arrangement. 09:38:11AM
17	Ms. Squires. 09:37:18AM	17	Q. And do you recall that 09:38:12AM
18	Any questions on redirect? 09:37:19AM	18	you said that it would be better to ask Mr. Mars? 09:38:13AM
19	MR. TERRY: Just two brief 09:37:21AM	19	A. Yes. 09:38:19AM
20	questions. 09:37:23AM	20	Q. And who would be the 09:38:19AM
21	RE-EXAMINATION BY MR. TERRY: 09:37:23AM	21	person to ask detailed questions about these 09:38:21AM
22	Q. Mr. Ziegler, just a 09:37:32AM	22	security arrangements? 09:38:25AM
23	couple of questions in re-examination. 09:37:33AM	23	A. Well, Mr. Mars is 09:38:26AM
24	First of all, do you recall 09:37:35AM	24	probably the best source for that kind of 09:38:28AM
25	when you were asked by Ms. Squires, Canada's 09:37:37AM	25	information. I was not, you know, involved in the 09:38:30AM
	Page 46		Page 47
1	detailed side of a lot of these arrangements, and 09:38:35AM	1	And at that point, we wanted 09:39:42AM
2	he was my representative, and and I looked to 09:38:38AM	2	to get a little assurances on where our project 09:39:44AM
3	him as essentially the chief operating and chief 09:38:43AM	3	stood, and he assured us in that phone call that 09:39:49AM
4	in some ways, chief executive officer in 09:38:47AM	4	the province was behind the FIT program and wind 09:39:53AM
5	Windstream. He was making a lot of decisions, 09:38:50AM		
6	\mathcal{E}	5	energy development and they were and 09:39:57AM
	but, you know, I was quite often involved in those 09:38:52AM	5 6	energy development and they were and 09:39:57AM directly supported our our offshore wind 09:40:02AM

7 8	but, you know, I was quite often involved in those 09:38:52AM decisions, yes. 09:38:54AM Q. All right. And and do 09:38:56AM	6	directly supported our our offshore wind 09:40:02AM
8 9	but, you know, I was quite often involved in those 09:38:52AM decisions, yes. 09:38:54AM Q. All right. And and do 09:38:56AM you recall that you were asked by Ms. Squires 09:38:59AM	6 7 8 9	directly supported our our offshore wind 09:40:02AM project. 09:40:05AM In fact, he noted in that 09:40:06AM conversation that the Premier had indicated his 09:40:08AM
8 9 10	but, you know, I was quite often involved in those 09:38:52AM decisions, yes. 09:38:54AM Q. All right. And and do 09:38:56AM you recall that you were asked by Ms. Squires 09:38:59AM whether it was David Mars who carried out most of 09:39:03AM	6 7 8 9	directly supported our our offshore wind 09:40:02AM project. 09:40:05AM In fact, he noted in that 09:40:06AM conversation that the Premier had indicated his 09:40:08AM support as well. Mr. Ungerman was also, I 09:40:11AM

19	perhaps Mr. Mars is the best person to to speak 09:42:06AM	19	for them doing it. It was not it was not 09:43:30AM
20	about this issue, and if this isn't a question 09:42:10AM	20	interest rate risk. It was really counterparty 09:43:33AM
21	that's really should be asked of you, just say 09:42:15AM	21	risk. 09:43:36AM
22	that. 09:42:19AM	22	We were concerned, you know, 09:43:36AM
23	But I thought that I saw you 09:42:19AM	23	if, in some case, we were not able to get to the 09:43:39AM
24	say that this was a way to get a 12 and a half 09:42:22AM	24	point where we got the letter back. We still 09:43:44AM
25	percent return for Windstream's investors. I 09:42:28AM	25	don't have the letter back. The letter is still 09:43:47AM

O9:45:21AM Again, could you explain what you meant by that? O9:45:25AM THE WITNESS: Well, you know, When when we when notice went out to the O9:45:35AM to the world at large that we had received a FIT O9:45:36AM contract, we had any number of approaches from the 09:45:39AM financiers, private equity banks, project O9:45:46AM And we had hired an investment O9:45:52AM bank, KeyBanc, to help us in that process. But we O9:45:57AM thought that we should proceed with the project, O9:46:00AM get our arms around what was required, get our O9:46:05AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	held by outstanding by RBS and held by OPA. We 09:43:49AM have tried to get it back. But, you know, it's 09:43:52AM still out there ticking. And the only way, I 09:43:56AM believe, we can get it back is if this project is 09:44:00AM declared cancelled, and the OPA returns it to us. 09:44:02AM But so far that hasn't happened. 09:44:06AM And we're, you know, holding 09:44:08AM ourselves in readiness to perform the contract in 09:44:11AM case some day we get that call, but right now that 09:44:13AM letter of credit is sitting at RBS ticking off 09:44:16AM interest. 09:44:19AM MR. 2	And, in fact, I had told in 09:46:23AM	2	agreement, but the FIT program gave it to you 09:47:37AM
	one of the meetings that I describe in my witness 09:46:27AM	3	upfront, which was a big advantage, and a fixed 09:47:43AM
3	statement, I explained to some gentlemen at the 09:46:29AM		price. 09:47:46AM
4	OPA that we were prepared to do that. 09:46:32AM	4	What due diligence or what 09:47:47AM
5 6	MR. BISHOP: At what point 09:46:35AM	5 6	preparations had the company done by the time it 09:47:54AM
	would you have expected financial close to occur 09:46:36AM	7	signed the FIT contract on August 20, 2010? 09:47:57AM
7 8	in terms of what needed to be done on the project? 09:46:39AM	8	THE WITNESS: Well, again, 09:47:59AM
9	THE WITNESS: Well, Mr. Mars 09:46:42AM	9	that's Mr. Mars' province. 09:48:00AM
10	would be better at answering that question than I, 09:46:44AM	10	I was generally aware of the 09:48:03AM
11	but it would be someway down the line from where 09:46:47AM	11	process that we were going through. We obviously 09:48:08AM
12	we were then. 09:46:53AM	12	didn't want to sign a FIT contract that we could 09:48:11AM
13	MR. BISHOP: Okay. Was there 09:46:54AM	13	not perform. And we were very careful about 09:48:14AM
14	a budget for how much the project needed to be 09:46:56AM	14	making sure that our end of it was feasible and 09:48:17AM
15	able to get to finance financial close? 09:47:00AM	15	and, you know, very doable. 09:48:23AM
16	THE WITNESS: We had made some 09:47:03AM	16	But in terms of the actual 09:48:25AM
17	rough calculations, and we understood we did 09:47:06AM	17	individual steps we did, I think Mr. Mars would be 09:48:29AM
18	have internal budgets, but not anything that we 09:47:10AM	18	more capable of explaining those than I. 09:48:33AM
19	were prepared to sign off on. 09:47:13AM	19	MR. BISHOP: Thank you, 09:48:36AM Mr. Ziegler. That's all. 09:48:37AM
20	MR. BISHOP: Okay. Do you 09:47:16AM recall what that rough budget was? 09:47:17AM	20	E
21		21	PRESIDENT: Thank you. 09:48:39AM
22	THE WITNESS: Mr. Mars would 09:47:20AM be able to tell you that number. 09:47:22AM	22	Anything? Dr. Cremades. 09:48:40AM DR. CREMADES: Well, probably 09:48:44AM
23	MR. BISHOP: Okay. One other 09:47:22AM	23	my question is, you, as a lawyer by background and 09:48:44AM
24	question: You said, I think, that usually you 09:47:27AM	24	as an experienced investor 09:48:51AM

2	success of it. That's what we had done in the 09:51:40AM	2	investment. 09:52:54AM
3	past, and that's what we hoped to do with our FIT 09:51:43AM	3	Sometimes they are blamed to 09:52:55AM
4	contract in Ontario. 09:51:48AM	4	be speculative persons. What is the difference 09:52:59AM
5	DR. CREMADES: Did you face 09:51:49AM	5	between investor and a speculator? 09:53:04AM
6	THE WITNESS: Sorry for the 09:51:51AM	6	THE WITNESS: Well, I try not 09:53:09AM
7	longwinded answer. 09:51:51AM	7	to speculate. I I don't like risk. Risk is 09:53:14AM
8	DR. CREMADES: No, no. Did 09:51:52AM	8	what keeps you up at night. And I think that 09:53:21AM
9	you face at that time the risk of of 09:51:53AM	9	prudent investors try to anticipate what can get 09:53:28AM
10	bureaucratic and slowly reaction from the 09:51:57AM	10	thrown at them as they go through the process and 09:53:34AM
11	governments? 09:52:02AM	11	try to, you know, mitigate those risks in any way 09:53:37AM
12	THE WITNESS: I'm sorry. 09:52:03AM	12	possible. 09:53:40AM
13	Could you could you say that again, please? 09:52:05AM	13	The government risk or a 09:53:44AM
14	DR. CREMADES: At that time, 09:52:07AM	14	political risk is very hard to understand and 09:53:45AM
15	when you were making the risk assessment, doing 09:52:07AM	15	appraise if you're not part of that world, and, 09:53:47AM
16	your decision to invest, did you face, at that 09:52:11AM	16	you know, for this project we hired people that 09:53:50AM
17	time, the risk of dealing with bureaucratic 09:52:17AM	17	would help us try to understand what what was 09:53:53AM
18	entities? 09:52:23AM	18	happening in the province. And from everything we 09:53:56AM
19	THE WITNESS: Always. Yes, 09:52:24AM	19	saw, it was embracing wind energy and embracing, 09:53:58AM
20	sir. 09:52:27AM	20	in particular, offshore wind. 09:54:03AM
21	DR. CREMADES: I come from a 09:52:30AM	21	It had a moratorium in effect 09:54:06AM
22	country in which we had experience of investors to 09:52:31AM	22	in the province, and they erased it and said, 09:54:08AM
23	the sector of renewable energies. And sometimes 09:52:38AM	23	"Come on up." And we were very attracted to that. 09:54:11AM
24	they try well, from the government point of 09:52:42AM	24	DR. CREMADES: Thank you. I 09:54:16AM
25	view, they say that they come to to make 09:52:45AM	25	see that you continue to be a very experienced 09:54:17AM

All right. And the work 10:09:49AM that you did for Windstream in this case, how 10:09:52AM would it compare to the work that you do with the 10:09:55AM other companies? 10:09:57AM A. Very, very typical. We 10:09:58AM were engaged by Windstream. Given the the 10:09:59AM large degree of interaction that the government 10:10:03AM has in mandating the electricity space here in 10:10:05AM Ontario, the fact that they had been awarded a 10:10:08AM Feed-In Tariff contract, we were retained to help 10:10:10AM them through various different approvals processes 10:10:13AM that are part of that particular contract regime. 10:10:17AM O. And how would that 10:10:19AM compare with the work you do for other renewable 10:10:21AM energy companies? 10:10:24AM A. Very similar. So we work 10:10:24AM for probably the majority of the contracted asset 10:10:27AM owner/operators in the energy/electricity space 10:10:30AM here in Ontario. 10:10:34AM

6	CROSS-EXAMINATION BY MS. KAM: 10:10:53AM	6	front of you. 10:11:45AM
7	Q. Good morning, 10:10:53AM	7	Donnie will also be pulling up 10:11:46AM
8	Mr. Benedetti. My name is Susanna Kam, and I am 10:10:54AM	8	exhibits electronically, so if you prefer, you can 10:11:48AM
9	counsel for the Government of Canada. I will be 10:10:57AM	9	also look up at the screens around the room. 10:11:50AM
10	asking you some questions today regarding your 10:10:59AM	10	A. Okay. 10:11:52AM
11	testimony in this arbitration. It's important 10:11:02AM	11	Q. So I'd like to discuss 10:11:53AM
12	that we understand each other, so if at any time 10:11:04AM	12	your involvement in Windstream's project. And so 10:11:55AM
13	you don't understand my question, please just stop 10:11:07AM	13	you just provided an overview of your role at 10:11:59AM
14	me, and I can clarify. 10:11:10AM	14	Sussex Strategy, but just to confirm, you're a 10:12:02AM
15	If the answer to my question 10:11:11AM	15	government relations adviser? 10:12:05AM
16	is a yes or a no, please answer in that way first. 10:11:13AM	16	A. That's correct. 10:12:06AM
17	Then you may offer an additional explanation, if 10:11:16AM	17	Q. Okay. And just to be 10:12:06AM
18	you feel it's necessary. However, please ensure 10:11:19AM	18	clear, you're not an engineer or scientific 10:12:07AM
19	that your responses are directly relevant to my 10:11:22AM	19	expert? 10:12:10AM
20	question. 10:11:24AM	20	A. That's correct. 10:12:10AM
21	I don't propose that we go for 10:11:25AM	21	Q. Okay. And so you began 10:12:11AM
22	very long, but if you need to take a break, please 10:11:28AM	22	working with Windstream in June 2010? 10:12:13AM
23	let me know, and I will try to find a time to do 10:11:30AM	23	A. That's correct. 10:12:15AM
24	so as soon as possible. 10:11:32AM	24	Q. And this was after 10:12:16AM
25	A. Great, thank you. 10:11:33AM	25	Windstream was offered a FIT contract? 10:12:17AM

This was Windstream's assessment of 10:13:22AM the impact of the 5-kilometre setback based on the 10:13:24AM location of its grid cells that it had submitted 10:13:27AM Crown land applications for. 10:13:30AM A. Yes. At that particular 10:13:32AM point in time, there had been rumours through 10:13:34AM media and whatnot that the government was 10:13:36AM considering a setback. Up until that point, the 10:13:38AM regulatory process for wind power development, be 10:13:41AM it onshore or offshore, had been established by 10:13:44AM Ontario Regulation 359.09. 10:13:47AM So this e-mail was in response 10:13:49AM to assertions that were in the public domain that 10:13:51AM the government of Ontario was considering an exclusion zone for offshore wind projects. 10:13:57AM Q. 6	So according to your e-mail, 10:18:10AM	6	look now at C-0318 which is at Tab 6 of your 10:18:56AM
7	you and Mr. Linley had set up a call at 10:30 10:18:11AM	7	binder. And I believe these are your meeting 10:19:01AM
8	later that morning. And you state that: 10:18:16AM	8	notes from the July 21, 2010 call. Is that 10:19:03AM
9	"The MNR has not made any 10:18:17AM	9	correct? 10:19:07AM

12	Windstream's input." 10:18:21AM	12	notes, a number of issues were discussed, 10:19:10AM
13	So I just want to clarify. 10:18:22AM	13	including the fact that new grid cells cannot be 10:19:12AM
14	This was in reference to Windstream's request for 10:18:24AM	14	added unless there is an open window. 10:19:15AM
15	a grid cell swap; correct? 10:18:28AM	15	And if we turn to the second 10:19:18AM
16	A. That's correct. 10:18:29AM	16	page, on the second line, an issue that was 10:19:20AM
17	Q. And as you explained, 10:18:30AM	17	identified regarding Windstream's request was how 10:19:22AM
18	Mr. Linley could not provide MNR's direction or 10:18:31AM	18	to deal with this from an equity standpoint. 10:19:25AM
19	feedback to Windstream because he needed to 10:18:33AM	19	A. Mm-hmm. 10:19:28AM
20	further consult with Ministry staff. 10:18:35AM	20	Q. And furthermore, if you 10:19:28AM
21	So based on your e-mail, you 10:18:38AM	21	look at the first asterisk around line 8, it says: 10:19:30AM
22	would agree that Mr. Linley was not in a position 10:18:40AM	22	"There is an existing 10:19:33AM

25	A. Again, not at that time, 10:18:46AM	25	Mr. Linley would need to 10:19:37AM

3	A. Mm-hmm. 10:19:40AM	3	e-mail from the top, it's dated August 9th or 10:20:32AM
4	Q. So according to your 10:19:41AM	4	August 4, 2010, at 9:01 a m. It's an e-mail from 10:20:36AM
5	notes, Mr. Linley did not provide any assurances 10:19:42AM	5	you to Mr. Linley, and it appears that you are 10:20:40AM
6	that Windstream could build a 300-megawatt project 10:19:44AM	6	trying to arrange a time to connect with him. 10:20:43AM
7	at this meeting. 10:19:48AM	7	A. Correct. 10:20:45AM
8	A. Certainly the nature of 10:19:49AM	8	Q. In the second line of 10:20:46AM
9	the conversation that was taking place at the time 10:19:50AM	9	your e-mail, it states: 10:20:47AM
10	was preserving, and I believe what I meant at the 10:19:53AM	10	"In the meantime, can you 10:20:48AM
11	time in terms of equity was the principle of 10:19:55AM	11	flip me a draft of the 10:20:50AM
12	maintaining the 300 megawatts, so maintaining the 10:19:59AM	12	letter? I'll keep it to 10:20:51AM
13	contracted capacity for the project. 10:20:02AM	13	myself." 10:20:52AM
		14	A. Mm-hmm. 10:20:52AM
14	Again, this was part of an 10:20:05AM		
14 15	Again, this was part of an 10:20:05AM ongoing conversation. So it wasn't our 10:20:06AM	15	Q. And so this draft letter 10:20:53AM
		15 16	Q. And so this draft letter 10:20:53AM was regarding Windstream's request for a grid cell 10:20:54AM
15	ongoing conversation. So it wasn't our 10:20:06AM		
15 16	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM Q. Okay. So let's turn now 10:20:14AM	16	was regarding Windstream's request for a grid cell 10:20:54AM
15 16 17	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM	16 17	was regarding Windstream's request for a grid cell 10:20:54AM swap? 10:20:57AM
15 16 17 18	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM Q. Okay. So let's turn now 10:20:14AM	16 17 18	was regarding Windstream's request for a grid cell 10:20:54AM swap? 10:20:57AM A. That's correct. 10:20:58AM
15 16 17 18 19	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM Q. Okay. So let's turn now 10:20:14AM to Exhibit C-0328, which is at Tab 8 of your 10:20:16AM binder. 10:20:20AM A. Tab? 10:20:21AM	16 17 18 19	was regarding Windstream's request for a grid cell 10:20:54AM swap? 10:20:57AM A. That's correct. 10:20:58AM Q. Okay. So I'd just like 10:20:59AM
15 16 17 18 19 20	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM Q. Okay. So let's turn now 10:20:14AM to Exhibit C-0328, which is at Tab 8 of your 10:20:16AM binder. 10:20:20AM A. Tab? 10:20:21AM Q. Eight. 10:20:21AM	16 17 18 19 20	was regarding Windstream's request for a grid cell 10:20:54AM swap? 10:20:57AM A. That's correct. 10:20:58AM Q. Okay. So I'd just like 10:20:59AM to follow along with this e-mail chain. 10:21:00AM A. Mm-hmm. 10:21:02AM Q. And about halfway down 10:21:03AM
15 16 17 18 19 20 21	ongoing conversation. So it wasn't our 10:20:06AM expectation at the time that anything definitive 10:20:09AM was to be given at this particular juncture. 10:20:12AM Q. Okay. 8	7	Q. Okay. And your e-mail 10:21:24AM	7	
Page 78 letter with Windstream's comments. 10.21.28AM 10.22.15AM 10.22.25AM 11 c-mail. Windstream's proposed changes included the 10.21.32AM 12 letter that was discussed in the previous c-mail. 10.22.27AM 12 letter that was discussed in the previous c-mail. 10.22.27AM 13 letter that was discussed in the previous c-mail. 10.22.27AM 14 letter that was discussed in the previous c-mail. 10.22.27AM 15 letter that was discussed in the previous c-mail. 10.22.27AM 16 letter that was discussed in the previous c-mail. 10.22.27AM 16 letter that was discussed in the previous c-mail. 10.22.27AM 16 letter that was discussed in the previous c-mail. 10.22.27AM 17 letter that was discussed in the previous c-mail. 10.22.27AM 18 letter that was discussed in the previous c-mail. 10.22.27AM 18 letter that was discussed in the previous c-mail. 10.22.27AM 18 letter that was discussed in the previous c-mail. 10.22.27AM 18 letter that was discussed in the previous c-mail. 10.22.27AM 19 letter that was discussed in the previous c-mail. 10.22.27AM 19 letter that was discussed in the previous c-mail. 10.22.27AM 10.22	8		8	
10	9		9	Exhibit C-0334, which is at Tab 9. And you would 10:22:15AM
2	10	Okay. And according to your 10:21:31AM	10	
13	11	e-mail, Windstream's proposed changes included the 10:21:32AM	11	letter that was discussed in the previous e-mail. 10:22:25AM
14	12	addition of language that provided specificity 10:21:35AM	12	A. It is, yes. 10:22:27AM
15 A. That's correct. 10:21:40AM 15 So based on this final version 10:22:31AM 16 Q. And specifically 10:21:41AM 16 of the e-mail, you would agree that MNR did not 10:22:33AM 17 of the e-mail, you would agree that MNR did not 10:22:33AM 18 30 days following the finalization of the serback 10:21:45AM 18 specificity as to when the site release process 10:22:36AM 19 requirements? 10:21:48AM 19 would be finalized? 10:22:41AM 19:22:42AM 19:22:42AM 19:22:42AM 19:22:42AM 19:22:43AM 1	13	with regards to when the site release might be 10:21:37AM	13	Q. And it's dated August 9, 10:22:27AM
16	14	concluded. 10:21:39AM	14	2010. 10:22:29AM
17	15	A. That's correct. 10:21:40AM	15	So based on this final version 10:22:31AM
18 30 days following the finalization of the setback 10:21:45AM 18 specificity as to when the site release process 10:22:38AM 19 requirements? 10:21:48AM 19 would be finalized? 10:22:41AM 10:22:41AM 10:22:41AM 10:22:41AM 10:22:42AM 10:22:42AM 10:22:42AM 10:22:42AM 10:22:45AM 10:22:51AM	16	Q. And specifically 10:21:41AM	16	of the e-mail, you would agree that MNR did not 10:22:33AM
19	17	Windstream's proposal was for language to reflect 10:21:42AM	17	incorporate Windstream's request for more 10:22:36AM
A. Correct. 10:21:48AM 20 A. The no. The the 10:22:42AM 21	18	30 days following the finalization of the setback 10:21:45AM	18	specificity as to when the site release process 10:22:38AM
21	19	requirements? 10:21:48AM	19	would be finalized? 10:22:41AM
requested language as to when MNR agreed to or 10:21:51AM intends to provide site release. 10:21:54AM 23 that there would be sufficient time against. 10:22:51AM 24 A. Yes, that's correct. 10:21:55AM 24 again, the milestone commitments in the FIT 10:22:54AM 25 contract to obtain that swapping, if – if you can 10:22:57AM 26 contract to obtain that swapping, if – if you can 10:22:57AM 27 contract to obtain that swapping, if – if you can 10:22:57AM 28 contract to obtain that swapping, if – if you can 10:22:57AM 29 contract to obtain that swapping, if – if you can 10:23:45AM 29 contract to obtain that swapping, if – if you can 10:23:45AM 20 contract to obtain that swapping, if – if you can 10:23:45	20	A. Correct. 10:21:48AM	20	A. The no. The the 10:22:42AM
intends to provide site release. 10:21:54AM 23 that there would be sufficient time against, 10:22:51AM 24 again, the milestone commitments in the FIT 10:22:54AM 25 contract to obtain that swapping, if if you can 10:22:57AM 25 contract to obtain that swapping, if if you can 10:22:57AM 26 contract to obtain that swapping, if if you can 10:22:57AM 27 contract to obtain that swapping, if if you can 10:22:57AM 27 contract to obtain that swapping, if if you can 10:22:57AM 28 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:57AM 29 contract to obtain that swapping, if if you can 10:22:40AM 20:23:54AM 20:23:55AM	21	Q. And so Windstream also 10:21:49AM	21	intent of the the earlier exchange with Mr. 10:22:45AM
Page 78 Page 78 A. Yes, that's correct. 10:21:56AM 24 again, the milestone commitments in the FIT 10:22:57AM Page 78 Page 78 Page 78 Page 78 Page 78 And so certainly what we were 10:23:00AM 24 wind power in the 10:23:45AM 25 would be allowed in terms of the contractual 10:23:17AM 26 milestones in the FIT contract. 10:23:13AM 27 And so if you go to the second 10:23:15AM 28 page of the letter, while they didn't take the 10:23:17AM 29 precise wording that we were seeking, the intent 10:23:21AM 30 precise wording that we were seeking, the intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:21AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we were seeking. The intent 10:23:25AM 30 precise wording that we wer	22	requested language as to when MNR agreed to or 10:21:51AM	22	Linley was to seek the greatest degree of comfort 10:22:49AM
Page 78 Pag	23	intends to provide site release. 10:21:54AM	23	that there would be sufficient time against, 10:22:51AM
Page 78 Page 79 Wind power in the 10:23:44AM Process. 10:23:45AM Page 79 Page 7	24	A. Yes, that's correct. 10:21:56AM	24	again, the milestone commitments in the FIT 10:22:54AM
say that. 10:23:00AM 1 2 requirements for offshore 10:23:44AM wind power in the 10:23:45AM wind power in the 10:23:45AM 10:23:45AM 10:23:45AM 10:23:45AM 10:23:45AM 10:23:45AM 10:23:55AM 10:23:35AM 1	25	Q. And additionally 10:21:57AM	25	contract to obtain that swapping, if if you can 10:22:57AM
And so certainly what we were 10:23:00AM trying to do at the time was to align the process 10:23:02AM trying to do at the time was to align the process 10:23:02AM for swapping the grid cells with the MNR with what 10:23:07AM would be allowed in terms of the contractual 10:23:11AM milestones in the FIT contract. 10:23:13AM And so if you go to the second 10:23:15AM page of the letter, while they didn't take the 10:23:17AM precise wording that we were seeking, the intent 10:23:21AM was certainly reflected when it says: 10:23:25AM "Once the reconfiguration 10:23:25AM "Once the reconfiguration 10:23:26AM amended applications has been 10:23:29AM finalized, then the 10:23:29AM amended applications can 10:23:30AM begin to move through the 10:23:30AM normal Crown land 10:23:31AM including holding a site 10:23:35AM mind process 10:23:35AM Mr. Linley. 10:24:07AM Wind power in the 10:23:45AM renewable energy approval 10:23:46AM process. 10:23:47AM process. 10:23:47AM process. 10:23:49AM for certainty on this 10:23:49AM file and will move as 10:23:50AM procise wording that we were seeking, the intent 10:23:17AM through the remainder of 10:23:52AM the application review 10:23:53AM process in order that you 10:23:55AM amended applications can 10:23:26AM amended applications can 10:23:29AM finalized, then the 10:23:30AM finalized, then the 10:23:30AM for certainty aligned, in my 10:23:55AM for certainty aligned, in my 10:24:04AM for ecollection, with what we were trying to seek in 10:24:04AM for ecollection, with what we were trying to seek in 10:24:04AM for ecollection, with what we were trying to seek in 10:24:04AM for ecollection, with what we were trying to seek in 10:24:04AM for ecollection, with what were trying to seek in 10:24:04AM for ecollection, with what were trying to see		Page 78		Page 79

22	Q. And so starting in the 10:26:31AM	22	letter that we would 10:27:06AM
23	second paragraph of your e-mail, you describe your 10:26:33AM	23	receive a letter or some 10:27:06AM
24	discussions with Mr. Ungerman; right? Can you 10:26:35AM	24	other form of 10:27:07AM
25	please read that paragraph out loud? 10:26:39AM	25	communication from the 10:27:08AM

	Page 84		Page 85
1	OPA on this shortly. But 10:27:09AM	1	But that he was open to granting tail-end relief 10:28:07AM
2	he said that this was as 10:27:10AM	2	through an extension of the MCOD. 10:28:12AM
3	far as he's willing to go 10:27:12AM	3	Q. Right. And in that 10:28:14AM
4	with the OPA." 10:27:13AM	4	paragraph, you state that he was very dismissive 10:28:16AM
5	Q. Okay. So while 10:27:15AM	5	of asking the OPA to extend the sign-back to after 10:28:18AM
6	Mr. Ungerman was willing to ask the OPA about the 10:27:17AM	6	the setbacks had been confirmed and that was a 10:28:21AM
7	possibility of extending Windstream's FIT 10:27:19AM	7	request made by Windstream. Is that correct? 10:28:23AM
8	contract, he made clear that his discussion was 10:27:21AM	8	A. Yes. That's correct. I 10:28:26AM
9	not intended to mitigate the risks that Windstream 10:27:24AM	9	think that, as I recall, at that particular point 10:28:33AM
10	was would have to bear as a FIT contract 10:27:26AM	10	in time, there was a view that it wouldn't be a 10:28:36AM
11	holder. Is that correct? 10:27:29AM	11	very long period of time before the setback 10:28:42AM
12	A. No, no. What he was 10:27:30AM	12	exclusion zone was confirmed. 10:28:45AM
13	referring to at that period of time was that 10:27:31AM	13	So I think that what, as I 10:28:47AM
14	already the the proponent, Windstream, and the 10:27:35AM	14	recall, he what we were asking for at that 10:28:50AM
15	OPA had agreed to several extensions on the date 10:27:39AM	15	particular point in time was some degree of 10:28:54AM
16	at which they would sign back the the FIT 10:27:42AM	16	comfort that we would be able to sign back, or the 10:28:57AM
17	contract. 10:27:44AM	17	client would be able to sign back the contract and 10:29:01AM
18	And so usually a FIT contract 10:27:45AM	18	protect some of their interests until after we 10:29:03AM
19	is signed back within relatively close proximity 10:27:47AM	19	knew that the exclusion zone. 10:29:06AM
20	to the contract being offered. In this particular 10:27:50AM	20	But, again, the clock was 10:29:07AM
21	case, it had been extended a series of times. 10:27:54AM	21	ticking; time was elapsing, and so we needed some 10:29:09AM
22	And so, really, what 10:27:56AM	22	relief against the FIT contract milestones. 10:29:12AM
23	Mr. Ungerman was referring to, as I recall at that 10:27:58AM	23	Q. Okay. And in the next 10:29:15AM
24	point, was being dismissive of seeking further 10:28:00AM	24	paragraph of your e-mail, you further state that: 10:29:17AM
25	extensions for the signing back of the contract. 10:28:04AM	25	"He argued that all 10:29:19AM
1	Page 86 contract holders are 10:29:20AM	1	Page 87 turn now to Exhibit C-0343, which is at Tab 12 of 10:30:03AM
2	required to sign back the 10:29:21AM	2	your binder. This is an e-mail from Perry 10:30:07AM
3	contract without knowing 10:29:23AM	3	Cecchini of the OPA to yourself and Adam 10:30:14AM
4	whether they have a 10:29:24AM	4	Chamberlain, which is dated August 12, 2010. 10:30:16AM
5	developable project, so 10:29:25AM	5	And this e-mail confirms that 10:30:18AM
6	either from the 10:29:26AM	6	the OPA will be issuing a revised offer notice for 10:30:20AM
7	financial, domestic 10:29:28AM	7	Windstream's contract, and specifically, as you 10:30:23AM
8	content, or regulatory 10:29:28AM	8	had mentioned, the OPA had offered to extend the 10:30:25AM
9	perspective." 10:29:30AM	9	Milestone Date of Commercial Operation by one 10:30:29AM
10	A. Yes. 10:29:31AM	10	year. So instead of four years, they would have 10:30:31AM
11	Q. So you would agree that 10:29:31AM	11	five years following the contract date. 10:30:34AM
12	Mr. Ungerman did not provide any assurances to 10:29:32AM	12	A. Yes. 10:30:36AM
13	Windstream as to whether its project was 10:29:35AM	13	Q. So this was the only 10:30:36AM
14	developable or not? 10:29:37AM	14	offer that the OPA made to extend Windstream's 10:30:39AM
15	A. Nor would he have been in 10:29:39AM	15	contract. Is that correct? 10:30:43AM
16	a position to do so. Really, what what the FIT 10:29:40AM	16	A. That's correct. 10:30:43AM
17	contract provides is certainly the opportunity to 10:29:44AM	17	Q. And despite the fact that 10:30:44AM
18	develop a project. 10:29:47AM	18	you had stated in your witness statement that Paul 10:30:46AM
19	At that point in time, we did 10:29:48AM	19	Ungerman had told you that Energy was open to 10:30:48AM
20	have regulatory certainty through O. Reg. 359/09. 10:29:50AM	20	having the contract extended to when Windstream 10:30:51AM
21	What we really didn't have at that point in time 10:29:54AM	21	received applicant of record status, the OPA 10:30:54AM
22	was all of the various work that the developer 10:29:56AM	22	ultimately did not grant that request. Is that 10:30:56AM
23	would need to go through in order to commercialize 10:29:58AM	23	correct? 10:30:59AM
24	their project. 10:30:00AM	24	A. That's correct. And I 10:30:59AM
25	Q. Okay. So I'd like to 10:30:02AM	25	believe there there was other correspondence at 10:31:01AM

		1	
	Page 88		Page 89
1	the time with the OPA and, in particular, JoAnne 10:31:02AM	1	confirm that the OPA's offer does not contain any 10:32:07AM
2	Butler, that, using her words, she had offered a 10:31:05AM	2	assurances with respect to Windstream's ability to 10:32:09AM
3	compromise. 10:31:09AM	3	achieve commercial operation? 10:32:11AM
4	Really, our recollection my 10:31:10AM	4	A. Nor would we expect that 10:32:13AM
5	recollection was that the OPA was concerned about 10:31:13AM	5	it would. 10:32:15AM
6	an open-ended extension of a contract. And it has 10:31:17AM	6	Q. Okay. So I would like to 10:32:16AM
7	been the case where the OPA has offered contract 10:31:22AM	7	turn now to Exhibit C-0484, which is at Tab 13 of 10:32:17AM
8	contract extensions in the past. Typically 10:31:25AM	8	your binder. And this is the transcript of the 10:32:21AM
9	what they do is they offer it for a set period of 10:31:27AM	9	February 11, 2011 call with Windstream, Ontario 10:32:25AM
10	time, like 12 months. And so the compromise that 10:31:30AM	10	and the OPA. Right? 10:32:29AM
11	the OPA offered was a 12-month extension. 10:31:33AM	11	So let's turn to page 7. And 10:32:32AM
12	Q. Okay. 10:31:36AM	12	about halfway down the page, you intervene during 10:32:39AM
13	A. And at the time, we had 10:31:37AM	13	the call to help paraphrase the statements made by 10:32:41AM
14	every reason to believe that all of the decisions 10:31:39AM	14	Ontario about where things stood with Windstream's 10:32:44AM
15	that had to be made relative to an exclusion zone 10:31:42AM	15	project; right? 10:32:46AM
16	would have been made within that 12-month period; 10:31:45AM	16	A. Correct. 10:32:47AM
17	that it was more than sufficient time. 10:31:48AM	17	Q. And as you clarified: 10:32:47AM
18	Q. Okay. But the OPA's 10:31:50AM	18	"Things are essentially 10:32:49AM
19	offer itself does not contain any assurances with 10:31:52AM	19	on hold until such time 10:32:50AM
20	respect to the timing of when these regulatory 10:31:54AM	20	as the province can 10:32:52AM
21	requirements would be finalized? 10:31:58AM	21	establish the REA process 10:32:53AM
22	A. Nor would we expect that 10:31:59AM	22	for offshore wind." 10:32:55AM
23	it would. That's not really the job of the OPA 10:32:00AM	23	Right? 10:32:56AM
24 25	nor would it be pertinent to the contract. 10:32:03AM	24 25	A. Yes. 10:32:56AM
25	Q. Okay. And you can also 10:32:05AM	25	Q. And in your words, you 10:32:57AM

5	A. Yes. 10:36:47AM	this time in terms of your discussions on behalf 10:38:30AM
6	Q. And you mentioned that 10:36:48AM	6 of Windstream with Mr. Ungerman? 10:38:33AM
7	there was other correspondence that you recalled 10:36:49AM	7 A. Sure. So really my 10:38:34AM
8	in relation to that? 10:36:51AM	8 recollection is that there were two parallel 10:38:37AM
9	A. Yes. 10:36:52AM	themes of discussions that were taking place, both 10:38:40AM
10	Q. I would like to remind 10:36:52AM	with the government as well as with the OPA. One 10:38:42AM
11	you of that correspondence, and these are two 10:36:59AM	had to do with the exclusion zone based on our 10:38:45AM
12	documents that we looked at yesterday with another 10:37:03AM	belief that the government was moving forward, and 10:38:50AM
13	witness. 10:37:05AM	then that belief became made clear with the EBR 10:38:52AM
14	And if you could also 10:37:28AM	posting around a potential exclusion zone. 10:38:57AM
15	because the third part of this correspondence 10:37:29AM	15 So there were certainly 10:39:00AM
16	is at it's in Canada's materials at Tab 11, a 10:37:33AM	discussions taking place as they pertained to what 10:39:01AM
17	document Ms. Kam didn't take you to from her 10:37:38AM	would happen with the grid cells that Windstream 10:39:03AM
18	binder. So if you could turn to Tab 11 - 10:37:40AM	had and how those might exist in a future 10:39:06AM
19	A. Mm-hmm. 10:37:43AM	environment where there would be an exclusion 10:39:11AM
20	Q which is, I believe, 10:37:44AM	20 zone. 10:39:14AM
21	C-341. And just take a moment to look at these 10:37:47AM	Then how the second course 10:39:14AM
22	e-mails and to refresh yourself as to the 10:37:55AM	of discussions really had to do with what the FIT 10:39:16AM
23	conversations you were having at the time. 10:38:00AM	23 contract and what the OPA would do, from a 10:39:22AM
24	A. Mm-hmm. Yes. 10:38:03AM	24 contract management standpoint, given the fact 10:39:23AM
25	Q. So the three documents, 10:38:13AM	that there were still discussions or consternation 10:39:26AM

	Page 96		Page 97
1	going on within government about setting an 10:39:31AM	1	We had been proposing certain 10:40:36AM
2	exclusion zone. 10:39:33AM	2	potential solutions for consideration to both 10:40:38AM
3	So the nature of this 10:39:34AM	3	parties. Once we received the correspondence from 10:40:41AM
4	particular correspondence had to do predominantly 10:39:35AM	4	JoAnne Butler 10:40:47AM
5	with the OPA and what that resolution might look 10:39:38AM	5	Q. And just to make sure 10:40:50AM
6	like. 10:39:41AM	6	we're all looking at the same document, which 10:40:51AM
7	Q. All right. And, again 10:39:42AM	7	A. Yes. So this is document 10:40:52AM
8	looking at the e-mails, could you explain how, 10:39:44AM	8	C-0340. If you look at the e-mail sent from 10:40:54AM
9	from your recollection, that matter was resolved 10:39:47AM	9	JoAnne Butler to myself on August 10, at 12:36, it 10:41:00AM
10	with respect to your e-mails or other 10:39:49AM	10	says: 10:41:06AM
11	conversations with Mr. Ungerman and and 10:39:53AM	11	"Chris, we do not intend 10:41:06AM
12	references there to e-mails from the OPA? 10:39:57AM	12	to amend the milestone 10:41:07AM
13	A. Sure. So I think in 10:39:58AM	13	date for the COD on this 10:41:08AM
14 15	parallel, we were having discussions both with the 10:40:00AM	14 15	contract." 10:41:09AM
16	Ontario Power Authority as well as with the 10:40:02AM	16	I then go back to JoAnne with 10:41:10AM a response as well as with a potential resolution. 10:41:12AM
17	Ministry of the Energy and Infrastructure about 10:40:04AM the same subject matter, and certainly the OPA 10:40:07AM	17	She then came I also shared that with Minister 10:41:18AM
18	understanding that they too would have discussions 10:40:13AM	18	Duguid's office. 10:41:21AM
19	with the Ministry of Energy. We saw it as a 10:40:15AM	19	He asked to be kept in the 10:41:23AM
20	three-legged stool, if you can view it in that 10:40:18AM	20	loop. I had assumed at that point in time that he 10:41:25AM
21	way, with us, the OPA, and the Ministry of Energy. 10:40:21AM	21	was having discussions with the OPA. 10:41:27AM
22	The discussions that we were 10:40:25AM	22	Q. And just to be clear, 10:41:30AM
23	having with both parties was how might that 10:40:27AM	23	when you refer to Minister Duguid's office, who 10:41:31AM
24	resolution be found against the the FIT 10:40:32AM	24	was Minister Duguid and what was his relationship, 10:41:33AM

So as was 10:47:07AM referenced to earlier, there had been discussion 10:47:10AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	I guess stepping a little bit 10:47:23AM back, obviously we wanted to obtain a letter. We 10:47:25AM had requested that letter. And so they had agreed 10:47:28AM to provide us with the letter. 10:47:30AM We were, then, interacting 10:47:31AM with them to have the letter convey information 10:47:34AM that would be beneficial to our client. 10:47:36AM I can only assume, from this, 10:47:38AM that these points, as they were reflected in that 10:47:42AM letter, were being communicated back to other 10:47:44AM people within the provincial government in 10:47:49AM letter would be. That information had been shared 10:47:52AM with me. 10:47:55AM And then to my earlier point 10:47:55AM in terms of how this would affect the project, my 10:47:57AM assessment at the time that this met the needs 10:48:00AM that what we were trying to obtain from the 10:48:04AM Ministry of Natural Resources. 10:48:06AM Q. And what was the 10:48:07AM significance, if any, of this letter being shared 10:48:09AM with the Premier's Office before being provided to 10:48:13AM

1	I think that, certainly, on a 10:48:24AM	1	inception of the OPA in 2005, there have been 10:49:39AM
2	matter like this, I don't know how common it is 10:48:28AM	2	multiple rounds of contracting for energy assets, 10:49:43AM
3	that the Premier's Office would be involved in the 10:48:30AM	3	be it conventional energy assets or renewable 10:49:47AM
4	definition of a letter of this sort. The letter 10:48:34AM	4	energy assets. 10:49:49AM
5	itself wasn't signed by the minister. It was 10:48:37AM	5	In fact, the Feed-In Tariff 10:49:50AM
6	signed by a director-level within the Ministry of 10:48:40AM	6	program was the fifth iteration of a renewable 10:49:51AM
7	Natural Resources. 10:48:43AM	7	procurement that had been managed by, be it the 10:49:56AM
8	But certainly I take it from 10:48:44AM	8	Ministry of Energy or be it the OPA since 2003. 10:50:01AM
9	this correspondence that the Premier's Office is 10:48:47AM	9	We had had a RES 1, RES 2, RES 3, and a RESOP 10:50:03AM
10	giving tacit approval to what the contents of the 10:48:50AM	10	program before the Feed-In Tariff program had been 10:50:07AM
11	letter are. 10:48:53AM	11	established. 10:50:10AM
12	Q. Those are all of my 10:48:54AM	12	In all of those cases, there 10:50:11AM
13	questions. 10:48:55AM	13	were similar procurement means, maybe through 10:50:12AM
14	PRESIDENT: Thank you, 10:48:57AM	14	different measures, not a standard offer, but a 10:50:16AM
15	Mr. Terry. Any questions from the tribunal? 10:48:58AM	15	competitively procured program in which contracts 10:50:18AM
16	QUESTIONS FROM THE TRIBUNAL: 10:49:05AM	16	were offered. It's standard practice in Ontario 10:50:22AM
17	MR. BISHOP: Mr. Benedetti, 10:49:05AM	17	that those contracts are offered. The proponent 10:50:24AM
18	just one or two questions. Are there any 10:49:06AM	18	then has to go through a series of permitting and 10:50:26AM
19	analogies that we could look to in terms of the 10:49:10AM	19	approvals to obtain in this particular contract 10:50:29AM
20	kind of situation that occurred with the offshore 10:49:17AM	20	regime it's referred to as Notice to Proceed, 10:50:32AM
21	wind projects? Are there any analogies we could 10:49:20AM	21	which you are then able to go ahead and construct 10:50:35AM
22	look to with the OPA or with the other ministries 10:49:24AM	22	your project. So there wasn't anything 10:50:38AM
23	that would provide any sort of indication of what 10:49:29AM	23	particularly novel with that. 10:50:40AM
24	their general practice was? 10:49:32AM	24	In many cases, the government 10:50:41AM

4 5 6	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than 10:56:35AM	3 4 5 6	concerning renewable energies, the environment 10:57:43AM supporters, they are making a big pressure to 10:57:49AM politicians. 10:57:53AM I mean, what is, in your view, 10:57:55AM
4 5 6 7	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than onshore, given what the government had done 10:56:38AM	3 4 5 6 7	concerning renewable energies, the environment 10:57:43AM supporters, they are making a big pressure to 10:57:49AM politicians. 10:57:53AM I mean, what is, in your view, 10:57:55AM the impact of the elections results into the 10:57:57AM
4 5 6 7 8	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than onshore, given what the government had done vis-à-vis the Green Energy and Economy Act, the 10:56:42AM	3 4 5 6 7 8	concerning renewable energies, the environment 10:57:43AM supporters, they are making a big pressure to 10:57:49AM politicians. 10:57:53AM I mean, what is, in your view, 10:57:55AM the impact of the elections results into the moratorium on 2011 in our projects? 10:58:01AM
4 5 6 7 8 9	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than onshore, given what the government had done vis-à-vis the Green Energy and Economy Act, the establishment of a Renewable Energy Facilitation 10:56:44AM	3 4 5 6 7 8	concerning renewable energies, the environment 10:57:43AM supporters, they are making a big pressure to 10:57:49AM politicians. 10:57:53AM I mean, what is, in your view, 10:57:55AM the impact of the elections results into the 10:57:57AM moratorium on 2011 in our projects? 10:58:01AM THE WITNESS: Certainly. So 10:58:05AM
4 5 6 7 8 9	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than 10:56:35AM onshore, given what the government had done 10:56:38AM vis-à-vis the Green Energy and Economy Act, the establishment of a Renewable Energy Facilitation 10:56:44AM Office, and the development of O. So 10:58:05AM the election was in October of 2011, and to provide some context, at that particular point in 10:58:12AM time, there was a significant degree of criticism 10:58:14AM from different political parties in our system as 10:58:18AM
4 5 6 7 8 9 10 11 12 13	The risks associated with 10:56:27AM offshore were probably not all that greater, I 10:56:30AM would say at that particular point in time, than onshore, given what the government had done vis-à-vis the Green Energy and Economy Act, the establishment of a Renewable Energy Facilitation 10:56:42AM office, and the development of O. SPELLISCY: Sure. I do 11:01:31AM have a couple of clarifying questions, if that 11:01:32AM would work, and then we can go first. 11:01:35AM MR. TERRY: Can I just ask 11:01:35AM one, I guess, procedural question? I know we 11:01:38AM haven't had discussions about this, but does the 11:01:43AM Tribunal have a view as to two counsel being 11:01:48AM involved in cross-examination of a witness or not? 11:01:52AM I personally haven't 11:01:55AM encountered that before, and I am not sure what 11:01:56AM if the Tribunal has views on that. 11:02:02AM PRESIDENT: It is not an issue 11:02:05AM as long as it's not applied for the purpose of 11:02:07AM harassing a witness. 11:02:08AM MR. TERRY: Okay. 11:02:10AM PRESIDENT: So we can go 11:02:11AM either way. Mr. Terry, you go first. And if the 11:02:13AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	concern wasn't order. I think the appropriate 11:02:26AM order is — it's in terms of one side, typically, 11:02:28AM you nominate one person to ask questions of a 11:02:31AM witness, and you don't then turn it over to 11:02:33AM another. I don't have a particular objection, but 11:02:36AM I just 11:02:39AM PRESIDENT: So we don't see a 11:02:40AM problem with it as long as you are not covering 11:02:42AM the same ground. And the only issue — only area 11:02:45AM where there might be a problem is when you have — 11:02:49AM when you use two counsel to cross-examine the same 11:02:51AM witness for the purpose of apparently harassing or 11:02:54AM making it more difficult for the witness, but we 11:02:59AM are not in that territory, very far from it. So, 11:03:00AM Mr. Terry. 11:03:03AM MR. TERRY: Thank you for that 11:03:04AM clarification. So I will let Mr. Spelliscy go 11:03:05AM first. 11:03:08AM RE-EXAMINATION BY MR. SPELLISCY: 11:03:08AM O. 1	response to a question from from Mr 11:03:29AM	1	A. Prior to. 11:04:31AM
2	Dr. Cremades, which was that, in your opinion, 11:03:32AM	2	Q. So you are hired by 11:04:32AM
3	there was no relatively greater risk for offshore 11:03:35AM	3	Windstream when that comes out; correct? 11:04:34AM
4	versus onshore. 11:03:39AM	4	A. Around that time, yes. 11:04:35AM
5	I want to understand that, 11:03:41AM	5	Q. Around that time. So 11:04:36AM
6	because I'm not sure that I do. I think pretty 11:03:42AM	6	you're aware of that posting, and that posting 11:04:37AM
7	close to right before that you said that the issue 11:03:46AM	7	relates to just offshore wind; right? 11:04:39AM
8	here was, for you, that was novel with this 11:03:48AM	8	A. That's correct. 11:04:41AM
9	process, or novel with this situation, was that 11:03:51AM	9	Q. Okay. You are also aware 11:04:42AM
10	there was no regulatory process. Is that what you 11:03:54AM	10	that and you're aware that, in that posting, 11:04:43AM
11	said? 11:03:57AM	11	there are setbacks proposed. You talked about 11:04:46AM
12	A. No. I said that this was 11:03:57AM	12	that, the 5-kilometre setback? 11:04:50AM
13	the only offshore wind project. But the 11:04:00AM	13	A. Correct, yes. 11:04:51AM
14	regulatory process was known through O. Reg. 11:04:03AM	14	Q. You had mentioned an 11:04:52AM
15	359/09. 11:04:03AM	15	e-mail where you had said that there was a lot of 11:04:53AM
16	Q. But let me known 11:04:08AM	16	uncertainty about whether they would be 5 11:04:55AM
17	through O. Reg. 359/09. That's the REA regulation 11:04:10AM	17	kilometres or more. Correct? 11:04:57AM
18	for those who don't want to deal with the numbers. 11:04:13AM	18	A. Correct. 11:04:58AM
19	Let me understand that 11:04:16AM	19	Q. You were also aware of a 11:04:59AM
20	further, then. You testified right at the 11:04:19AM	20	posting that was made by the Ministry of Natural 11:05:02AM
21	beginning of your testimony that you were hired 11:04:23AM	21	Resources that came out on August 18, 2010? This 11:05:04AM
22	I think you said after the EBR posting was made on 11:04:26AM	22	is relating to the Crown land allocation process 11:05:07AM
23	June 11:04:29AM	23	for offshore wind projects. 11:05:10AM
24	A. Prior. 11:04:30AM	24	A. Yes. Yes. 11:05:11AM
25	Q. Prior to? 11:04:30AM	25	Q. You're aware of that. 11:05:11AM

The 11:06:33AM introduction of an exclusion zone was new. Was it 11:06:36AM particularly different than, say, other things 11:06:41AM that an onshore project? They all have their 11:06:47AM particular nuances or things that they have to go 11:06:49AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Okay. Both of these postings indicated reviews 11:05:12AM were ongoing; correct? 11:05:15AM A. Yes, that's correct. 11:05:16AM Q. And they only applied to 11:05:17AM offshore projects; correct? 11:05:20AM A. Correct. 11:05:21AM Q. And you're aware that 11:05:21AM Windstream signed its FIT contract on August 20, 11:05:23AM 2010; right? 11:05:26AM A. Yes. 11:05:27AM MR. TERRY: I have an 11:05:28AM objection about this line of questioning. I'm not 11:05:28AM sure that it arose from truly from a question 11:05:31AM from the Tribunal. Mr. Spelliscy 11:05:34AM MR. SPELLISCY: We'll see. We 11:05:36AM will get there. 11:05:37AM MR. TERRY: Could you let me 11:05:38AM finish my objection, please? 11:05:39AM MR. SPELLISCY: Well, you 11:05:42AM interrupted me. So I mean, I'm happy to let you 11:05:43AM two seconds you interrupted right before the 11:05:45AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	PRESIDENT: Please link it 11:05:49AM back to the questions from the Tribunal. 11:05:51AM MR. SPELLISCY: So this is my 11:05:54AM question. 11:05:55AM Q. My question is: In light 11:05:56AM of these events, in light of these postings, which 11:05:57AM only applied to offshore, you would agree with me, 11:06:02AM in fact, that there was actually relatively 11:06:05AM greater risk for offshore than there was for 11:06:08AM onshore, wouldn't you? 11:06:10AM A. Any contracted asset will 11:06:13AM have — so be it solar power, wind power, 11:06:16AM bioenergy, and whatnot, will have various permits 11:06:19AM and approvals that they have to go through that 11:06:22AM are tailored to their particular supply types. 11:06:25AM regulatory process for moving forward to 11:06:30AM commercialize the project was well known. The 11:06:33AM introduction of an exclusion zone was new. Was it 11:06:36AM particularly different than, say, other things 11:06:41AM that an onshore project? They all have their 11:06:44AM water power project? They all have their 11:06:47AM

2	setback, an exclusion zone. But the regulatory 11:06:58AM	2	MR. SPELLISCY: He's got 11:07:57AM
3	purpose around obtaining approvals was already 11:07:02AM	3	nothing further? No, that's it. 11:07:57AM
4	provided for by the renewable energy approval 11:07:05AM	4	PRESIDENT: Thank you very 11:07:58AM
5	process. 11:07:08AM	5	much. 11:07:59AM
6	Q. I'm not sure I got an 11:07:10AM	6	Mr. Terry. 11:07:59AM
7	answer to my question there. What I guess my 11:07:12AM	7	RE-EXAMINATION BY MR. TERRY: 11:08:02AM
8	question is to understand from your statement that 11:07:14AM	8	MR. TERRY: I have a question 11:08:02AM
9	there wasn't regulatory or greater risk for 11:07:18AM	9	arising for you from the question of Mr. Cremades. 11:08:08AM
10	offshore than onshore in light of the two policy 11:07:22AM	10	You will recall that he asked you about the 11:08:12AM
11	proposals made before Windstream signed its 11:07:25AM	11	election and the effects of the election with 11:08:14AM
12	contract that were specific to offshore; that 11:07:27AM	12	respect to offshore wind. 11:08:17AM
13	didn't create certainty for your client. 11:07:32AM	13	A. Mm-hmm. 11:08:20AM
14	MR. TERRY: I have an 11:07:35AM	14	Q. And if I could direct you 11:08:20AM
15	objection. That question was asked. It was 11:07:35AM	15	to your witness statement, paragraph 39 11:08:24AM
16	answered. It was also similar questions were 11:07:37AM	16	A. Yes. 11:08:34AM
17	asked in the previous round of cross-examination. 11:07:39AM	17	Q which deals with the 11:08:35AM
18	This isn't an opportunity to get a new counsel up 11:07:43AM	18	issue of the election at that time and its effect 11:08:38AM
19	to go over the same ground in cross-examination. 11:07:44AM	19 20	on the project. 11:08:41AM
20 21	That question was answered. 11:07:46AM	21	Could you explain what you're 11:08:42AM saying there? 11:08:43AM
22	PRESIDENT: Okay, 11:07:49AM Mr. Benedetti. Do you have anything else to add 11:07:50AM	22	saying there? 11:08:43AM A. Sure. So we had, based 11:08:44AM
23	to what you just said? 11:07:52AM	23	on our work for Windstream, had also learned that 11:08:47AM
24	THE WITNESS: No. 11:07:53AM	24	the government, let's say at a political level, 11:08:52AM
25	PRESIDENT: Okay. Anything 11:07:54AM	25	was concerned about the impact of proposed 11:08:56AM

3	becoming, as I say here, increasingly sensitive on 11:09:06AM	3	this area in southern Ontario. Is that the area 11:10:18AM
4	how the opposition to those projects might 11:09:10AM	4	where the Windstream project was? 11:10:22AM

8	Q. And can you say anything 11:09:19AM	8 9	region riding with respect to the Windstream 11:10:29AM
9	beyond what you said in the witness statement 11:09:22AM		project? 11:10:31AM
10	about in terms of that sensitivity and how it, 11:09:24AM	10	A. No, no. In fact 11:10:32AM
11 12	from your understanding and based on your 11:09:30AM experience, how it affected the decision of the 11:09:31AM	11 12	MR. SPELLISCY: I think I have 11:10:34AM
13	government to place a moratorium on offshore wind? 11:09:35AM	13	to object here. Were going to political 11:10:35AM sensitivities. I'm not sure how that arises out 11:10:38AM
14	government to place a moratorium on offshole white? 11.09:33AM	14	of Mr. Cremades' question on on the election. 11:10:41AM
	A Well perhaps the only 11:00:27 AM		
	A. Well, perhaps the only 11:09:37AM thing that I'll add is that permitting and 11:09:38AM		
15	thing that I'll add is that permitting and 11:09:38AM	15	PRESIDENT: True. It's going 11:10:43AM

6	break for let's break for 15 minutes until 11:11:11AM	6	interest in the Melancthon project, which is also 11:34:50AM
7	11:25. And then we will continue with Mr. Baines. 11:11:15AM	7	in Ontario. Those two were the largest wind 11:34:52AM
8	Thank you. 11:11:23AM	8	projects in Canada at the time. 11:34:55AM
9	Recess at 11:11 a.m. 11:11:24AM	9	And in 2007 with my partners, 11:34:57AM
10	Upon resuming at 11:32 a.m. 11:32:04AM	10	David Mars and Bill Ziegler, we founded Windstream 11:35:02AM
11	EXAMINATION-IN-CHIEF BY MS. SEERS: 11:33:49AM	11	Energy, which has a subsidiary firm, Windstream 11:35:05AM
12	Q. Good morning, Mr. Baines. 11:33:52AM	12	Wolfe Island Shoals; that is the owner of the 11:35:08AM
13	A. Good morning. 11:33:56AM	13	offshore wind project. 11:35:11AM
14	Q. Could you please explain 11:33:57AM	14	Q. Thank you, Mr. Baines. 11:35:12AM
15	for the Tribunal, very briefly, your experience in 11:34:00AM	15	And would you explain for the Tribunal your role 11:35:14AM
16	the renewable energy sector, please. 11:34:03AM	16	in connection with the Wolfe Island Shoals 11:35:17AM
17	A. Well, I'm an engineer and 11:34:06AM	17	project. 11:35:19AM
18	I've been an engineer for 41 years. The past 26 11:34:08AM	18	A. I'm its father is the 11:35:21AM
19	years I focused on renewable energy with my own 11:34:11AM	19	best way to describe it. Back in 1993, I I 11:35:23AM
20	ventures, my own firms. 11:34:14AM	20	have worked in Europe twice, lived and worked in 11:35:30AM
21	I'm a consulting engineer and 11:34:15AM	21 22	other languages and saw advanced European wind and 11:35:33AM
22 23	I've run a consulting firm that designed water 11:34:18AM power and wind projects for other people. 11:34:22AM	23	water power technology. 11:35:36AM So returning from one of my 11:35:38AM
24	I have also been an owner and 11:34:24AM	24	extended times in Europe, I decided that wind 11:35:39AM
25	operator and constructor of district energy 11:34:28AM	25	power, which was extensively used in Denmark, 11:35:43AM
	operator and compared or about city of		power, made was strong used in 20 minute, 1100 minute.
	Page 126		Page 127
1	Germany, France, and Spain at the time, could work 11:35:46AM	1	business. 11:36:54AM
2	in Ontario. There was no wind power here at that 11:35:49AM	2	We acquired several thousand 11:36:55AM
3	time. 11:35:54AM	3	acres of optioned land and Wolfe Island. We 11:36:58AM
4	So I founded a company called 11:35:55AM	4	erected met towers, meteorological towers, to 11:37:00AM
5	Wind Technique and looked for areas that we could 11:35:57AM	5	measure the wind. I had done all of the 11:37:03AM
6	develop. And Wolfe Island was very obvious to me, 11:36:00AM	6	engineering up to that point myself. 11:37:05AM
7	because I had gone to school for six years in 11:36:03AM	7	We brought in experts from 11:37:07AM
8	Kingston, which is adjacent. 11:36:06AM	8	Europe, and Ontario engineers, and we developed 11:37:11AM
9	I was there when the Olympic 11:36:08AM	9	that project to the point of doing environmental 11:37:14AM
10	Regatta was held sorry, the Olympics, sailing 11:36:10AM	10	assessments, two of them obtaining the permits, 11:37:17AM
11	Olympics was held in that spot. I was very 11:36:13AM	11	and ultimately obtaining a Power Purchase 11:37:20AM
12	familiar with the area and so it crossed my mind 11:36:16AM	12	Agreement. 11:37:22AM
13	that this was a place for the first wind project 11:36:18AM	13	However, the project was sold 11:37:22AM
14	in the province. 11:36:23AM	14	when the company was sold in 2005, and I was 11:37:25AM
15	And in 1995, Ontario Hydro 11:36:24AM	15	retained for a couple of years as a consultant to 11:37:29AM
16	the monopoly utility in Ontario brought out a 11:36:28AM	16	oversee the permitting and construction. 11:37:33AM
17	new program called the Renewable Energy Technology 11:36:31AM	17	Q. And specifically with 11:37:38AM
18	Program. 11:36:33AM	18	respect to the Wolfe Island Shoals project, could 11:37:39AM
19	They had they were looking 11:36:35AM	19	you please explain, again very briefly for the 11:37:42AM
20	for new technologies. I was one of ten winners 11:36:37AM	20	Tribunal, your involvement with that project and 11:37:45AM
21	with the Wolfe Island project. Unfortunately, 11:36:39AM	21	with Windstream more generally. 11:37:48AM
22	that program was cancelled. 11:36:42AM	22	A. Well, okay. In about 11:37:50AM
23	But in 1999, I founded a 11:36:45AM	23	2003, we were looking to expand the Wolfe Island 11:37:53AM
24	company called Canadian Renewable Energy to get 11:36:49AM	24	project. And this became obvious to me that the 11:37:58AM

at that time. I had two hydro projects. And so we focused on the wind 11:39:12AM 24 project. We actually ended up with eleven 11:39:14AM 25 project. We actually ended up with eleven 11:39:14AM 25 project. We actually ended up with eleven 11:39:14AM 25 page 130 Page 130 Page 130 Page 130 Page 131 And our assistant, Donnie, 11:41:36AM will be putting them up on the screen as well. So 11:41:30AM will be putting them up on the screen as well. So 11:41:40AM you. He blows them up nicely and sometimes it is 11:41:43AM a lot easier to follow than finding it in the 11:41:48AM written page. 11:40:41AM a lot easier to follow than finding it in the 11:41:51AM ask that you be as precise as possible, as to the 11:40:52AM point as possible which, you know, if that means 11:40:56AM point as possible which, you know, if that means 11:40:56AM like you to add the context as necessary. But again 11:41:05AM that, and then continue. There will be room for 11:41:01AM pout to add the context as necessary. But again 11:41:05AM lot because that is the answer that you will be 11:41:13AM lot of you, so I will flip you through those. It 11:41:13AM lot of you, so I will flip you through those. It 11:41:24AM lot of you, so I will flip you through those. It 11:41:24AM lot of you, so I will flip you through those. It 11:41:24AM lot of you, so I will flip you through those. It 11:41:24AM lot lot be distracted by that, that is for the 11:41:24AM lot lot be distracted by that, that is for the 11:41:23AM lot lot be distracted by that, that is for the 11:41:23AM lot lot be distracted by that, that is for the 11:41:23AM lot lot be distracted by that, that is for the 11:41:23AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by that, that is for the 11:41:31AM lot lot be distracted by				
And so we focused on the wind project. We actually ended up with eleven 11:39:14AM 25 project. We actually ended up with eleven 11:39:14AM 25 what you just presented, a couple of 11:40:31AM 26 project. be sure that you know that you should be stopping 11:40:37AM me if you don't get the question, if you don't 11:40:41AM understand it. If it is not clear enough, please 11:40:43AM stop me and get me to repeat it. That is crucial. 11:40:46AM And in answering it, we would 11:40:49AM ask that you be as precise as possible, as to the 11:40:52AM point as possible which, you know, if that means 11:40:56AM that, and then continue. There will be room for 11:41:01AM you to add the context as necessary. But again 11:41:09AM focusing on the question that I am asking, 11:41:09AM leads to provide. 11:41:13AM leads to probably looks more daunting than it is. 11:41:16AM leads to probably looks more daunting than it is. 11:41:21AM leads to provide the president of 11:42:21AM leads to probably looks more daunting than it is. 11:41:24AM leads to probably looks more daunting than it is. 11:41:29AM leads to provide the president of 11:42:21AM leads to provide the president of 11:42:21AM leads to provide the president of 11:42:06AM leads to provide the president of 11:42:06AM leads to provide that I am asking, 11:41:07AM leads to provide the president of 11:42:06AM like you to confirm that you're the president of 11:42:04AM leads the provide that I am asking, 11:41:07AM leads to provide the president of 11:42:06AM leads to provide that I am asking, 11:41:07AM leads to provide that I am asking, 11:41:09AM leads to provide that I am asking, 11:41:09AM leads to provide the president of 11:42:06AM leads to provide that I am asking, 11:41:09AM leads to provide the president of 11:42:06AM leads to provide that I am asking, 11:41:09AM leads to provide the president of 11:42:06AM leads t	1	clarifications out of that. 11:40:32AM	1	And our assistant, Donnie, 11:41:36AM
me if you don't get the question, if you don't 11:40:41AM 4 you. He blows them up nicely and sometimes it is 11:41:45AM 5 understand it. If it is not clear enough, please 11:40:43AM 5 a lot easier to follow than finding it in the 11:41:48AM written page. 11:41:51AM 6 written page. 11:41:51AM 6 And in answering it, we would 11:40:52AM 8 follow-up from what Ms. Seers asked you, I would 11:41:56AM 9 point as possible which, you know, if that means 11:40:52AM 8 follow-up from what Ms. Seers asked you, I would 11:41:56AM 9 point as possible which, you know, if that means 11:40:55AM 9 point as possible which, you know, if that means 11:40:55AM 10 windstream Incorporated, correct? 11:42:04AM 11 that, and then continue. There will be room for 11:41:01AM 11 A. I am. 11:42:06AM 11:41:206AM 12 you to add the context as necessary. But again 11:41:05AM 12 pour to add the context as necessary. understand it. If it is not clear enough, please 11:40:43AM 5 stop me and get me to repeat it. That is crucial. 11:40:46AM 6 stop me and get me to repeat it. That is crucial. 11:40:46AM 7 And in answering it, we would 11:40:49AM 7 All right. Well, as a 11:41:51AM 8 ask that you be as precise as possible, as to the 11:40:52AM 9 point as possible which, you know, if that means 11:40:56AM 11:40:56AM 11:40:56AM 12:40:40AM 12:40:40AM 13:40:40AM 14:40:40AM 15:40:40AM 15:40:40AM 15:40:40AM 15:40:40AM 16:40-40AM 16:40-40AM 17:40:40AM 18:40:40AM 18:40:40AM 18:40-40AM 18:40-4	3	be sure that you know that you should be stopping 11:40:37AM	3	feel free to read them off the screen in front of 11:41:43AM
stop me and get me to repeat it. That is crucial. 11:40:46AM And in answering it, we would 11:40:49AM And in answering it, we would 11:40:49AM And in answering it, we would 11:40:52AM Bask that you be as precise as possible, as to the 11:40:52AM point as possible which, you know, if that means 11:40:56AM point as possible which, you know, if that means 11:40:56AM that, and then continue. There will be room for 11:41:01AM you to add the context as necessary. But again 11:41:05AM focussing on the question that I am asking, 11:41:07AM focussing on the question that I am asking, 11:41:09AM I will be referring to a 11:41:14AM I will be referring to a 11:41:14AM for you, so I will flip you through those. It 11:41:16AM when asking you to refer to 11:41:24AM them, I will be mentioning the exhibit number. 11:41:29AM them, I will be mentioning the exhibit number. 11:41:31AM pont to appear to 11:40:52AM that right. Well, as a 11:41:51AM All right. Well, as a 11:41:51AM blike you to confirm that youire the president of 11:42:04AM Windstream Incorporated, correct? 11:42:04AM A. I am. 11:42:06AM A. 1	And I guess the clarification 11:42:36AM	1	I was involved in the construction of the 11:43:47AM
2	that I am looking for here is, is that you were 11:42:39AM	2	projects. 11:43:50AM
3	involved at the early stage development of those 11:42:42AM	3	I was not involved in the 11:43:50AM
4	projects, right? 11:42:44AM	4	financing of the projects; that was done by 11:43:52AM
5	A. Well, I think we should 11:42:45AM	5	Canadian Hydro. 11:43:55AM
6	break the two projects down. 11:42:49AM	6	Q. Or the permitting? 11:43:55AM
7	As I mentioned, the Wolfe 11:42:50AM	7	A. I was involved in all of 11:43:57AM
8	Island project, I was the originator of the 11:42:52AM	8	the permittings for Wolfe Island. I obtained two 11:43:58AM
9	project in 1993, and did the engineering of it, 11:42:55AM	9	environmental assessments. Melancthon, I was 11:44:00AM
10	permitting of it, through Canadian Renewable 11:43:00AM	10	no, I was not responsible directly for the 11:44:04AM
11	Energy until 2005. 11:43:03AM	11	permits. 11:44:06AM
12	I invited a sister company, 11:43:05AM	12	Q. And obtaining the PPA, 11:44:07AM
13	Canadian Hydro Developer, into the province to 11:43:10AM	13	that happened after, after they purchased the 11:44:09AM
14	join us about 2002. They brought the Melancthon 11:43:12AM	14	projects? 11:44:12AM
15	project with them. 11:43:17AM	15	A. It happened afterwards. 11:44:13AM
16	So to be clear, originally 11:43:17AM	16	I was a consultant on it. I assisted them with 11:44:14AM
17	Melancthon was their project. We had a 50 percent 11:43:20AM	17	writing the applications, but the PPA was obtained 11:44:17AM
18	option on it. 11:43:22AM	18	by Canadian Hydro. 11:44:20AM
19	I was involved in the 11:43:24AM	19	Q. And you were a consultant 11:44:21AM
20	Melancthon Canadian Hydro Developers was an 11:43:27AM	20	again on the permitting aspects at that stage? 11:44:23AM
21	experienced developer from Alberta, but they had 11:43:31AM	21	A. Correct. 11:44:25AM
22	no Ontario experience. So we did a great deal of 11:43:33AM	22	Q. Okay. All right. You 11:44:26AM
23	cross-pollination, if you, want that I would 11:43:37AM	23	have also described, in response to Ms. Seers, 11:44:28AM
24	assist them. So, for example, I was involved in 11:43:39AM	24	that you, in 2007, set out with Mr. Ziegler and 11:44:30AM
25	the negotiation of the turbines for both projects. 11:43:42AM	25	Mr. Mars to develop 1,000 megawatts of power in 11:44:34AM

That's correct. 11:57:03AM Q. Now, she wasn't telling 11:57:03AM you to apply to the FIT program, was she? That is 11:57:07AM not the way you see this letter? 11:57:11AM A. We had already applied to 11:57:12AM I'm sorry. You asked of the FIT program? 11:57:16AM Q. Yes. 11:57:17AM A. No. She was not telling 11:57:18AM us to apply to the FIT program. She was talking 11:57:22AM MNR, that if we wanted to follow the MNR's process 11:57:24AM and obtain applicant of record for these existing 11:57:30AM 11:57:30AM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Well, this is 2009. I 11:56:03AM think we're talking in 2009, aren't we? 11:56:04AM Q. Yes. 11:56:06AM A. You mentioned April, and 11:56:06AM that is 2010. So I 11:56:08AM Q. I was just wondering, by 11:56:10AM April 2010, if you received that site description 11:56:11AM package yet, by the time of your FIT contract 11:56:13AM offer. 11:56:15AM A. We had not received the 11:56:16AM site description package. We had received two 11:56:17AM letters from the Ministry of Natural Resources, 11:56:20AM which had given us considerable certainty and 11:56:23AM comfort. 11:56:26AM Q. Let's turn to the letter 11:56:26AM then. This is C-144 for the record, and you will 11:56:30AM referring to from Minister Cansfield, which is a 11:56:33AM letter of 24 September 2009; correct? 11:56:38AM A. Correct. 11:56:41AM Q. And this is the letter 11:56:41AM that was sent to all Crown land applicants, right? 11:56:42AM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	sixth full paragraph, please. A. Yes. A. 1	do within that program, isn't it? It is not the 11:57:42AM	1	contract? 11:58:37AM
2	Minister that will tell you that you must apply to 11:57:45AM	2	A. Well, Trillium didn't 11:58:37AM
3	a program or not. 11:57:47AM	3	have the money; that's what I understand. 11:58:39AM
4	A. That's correct. 11:57:48AM	4	Q. To apply for a FIT 11:58:42AM
5	Q. And in fact there are an 11:57:49AM	5	contract? 11:58:44AM
6	awful lot, there are many Crown land applicants 11:57:51AM	6	A. Correct. 11:58:44AM
7	for lake bed that decided not to apply? Right? 11:57:56AM	7	Q. Right. But they 11:58:45AM
8	You must be aware of 11:58:01AM	8	proceeded with their permitting and approached MOE 11:58:47AM
9	A. I am from within the 11:58:02AM	9	to discuss developing the project, had their 11:58:50AM
10	industry I am aware roughly that there are others, 11:58:05AM	10	pre-consultation meetings? 11:58:54AM
11	yes. 11:58:08AM	11	A. I believe their REA 11:58:57AM
12	Q. Including Trillium, for 11:58:08AM	12	application was accepted in June of 2010 11:58:58AM
13	example? 11:58:11AM	13	Q. Okay. 11:59:01AM
14	A. Trillium did not apply as 11:58:11AM	14	A for offshore. 11:59:03AM
15	far as I know. 11:58:13AM	15	Q. So you have confirmed 11:59:06AM
16	Q. Erie Wind? 11:58:13AM	16	already that in April you hadn't received your 11:59:08AM
17	A. I am aware of one other 11:58:15AM	17	site description package and this was a concern to 11:59:10AM
18 19	offshore project that did apply. 11:58:16AM	18 19	you. I mean you would say you say so in 11:59:12AM
20	Q. Gillead? Is that one 11:58:18AM	20	paragraph 75 of your witness statement. 11:59:15AM
21	A. I am not aware that 11:58:21AM	21	In your words: Upon being 11:59:17AM
22	Gillead had sites. I really don't concern myself 11:58:22AM about other companies. I was focused on our own. 11:58:26AM	22	awarded the FIT contract, we were concerned that 11:59:18AM this four-year timeline would be difficult for us 11:59:20AM
23	Q. Okay. But these other 11:58:29AM	23	to meet as we had not yet been granted applicant 11:59:22AM
24	companies, some of whom had applicant of record 11:58:31AM	24	of record status. 11:59:25AM
25	status by that point, they didn't apply for a FIT 11:58:33AM	25	You still maintain that? 11:59:27AM

And in my 12:03:58PM conversations with the MNR which were pretty 12:04:00PM continuous I heard no indication at all that 12:04:03PM our applications for offshore Crown lake bed would 12:04:08PM not be acceptable. 12:04:13PM Q. So they're on the maps. 12:04:15PM You haven't received a site description package. 12:04:17PM And you assume, based on that, that you would be 12:04:20PM proceeding under the 2008 policy? 12:04:24PM A. That's correct. That's 12:04:28PM what they've always done before. 12:04:30PM Q. Okay. And the fact that 12:04:31PM there was a policy review there, though, is 12:04:34PM something that you acknowledge that you need to be 12:04:37PM working on. I mean, the deliverables in your 12:04:38PM contract specifically say that you are to work 12:04:41PM with MNR to define the applicant rules of record. 12:04:43PM So this is something that you 12:04:46PM are cognizant of and need to work with MNR to be 12:04:48PM sure 12:04:50PM A. The MNR does a site 12:04:50PM
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. So you were aware that 12:02:40PM changes were coming to the site release process? 12:02:41PM A. I really think there is 12:02:44PM two parts to that answer, if I may. The answer to 12:02:49PM your question is, yes. Yes, I was aware there was 12:02:52PM changes. I was aware of this document, and I was 12:02:54PM even talking to the MNR about it. So it was not a 12:03:00PM surprise to me. 12:03:04PM The first thing is, we 12:03:04PM understood this document would apply to those 12:03:07PM future projects, future site release. In 2008, 12:03:10PM the MNR had a well-defined process to allow 12:03:15PM applicant of record and site release. 12:03:18PM We believed, based upon my 12:03:20PM previous experience and I have, I have held six 12:03:22PM applicants of records before, so I am familiar 12:03:26PM with the process that the current guidelines, 12:03:35PM the guidelines at the time you applied, would 12:03:35PM But the second part was, we 12:03:38PM were aware that consideration was could proceed 12:03:42PM to take areas out of future site release; that 12:03:45PM	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	was likely that it would apply to us. 1	Q. In 2004 the policy came 12:05:01PM	1 Act direction. 12:06:00PM
2	out. It is reviewed in 2008 and that is the 12:05:03PM	2 So to me that wouldn't include 12:06:01PM
3	policy 12:05:04PM	3 taking applications that were already accepted out 12:06:04PM
4	A. I believe even prior to 12:05:05PM	4 of service or, if they were, advising the 12:06:07PM
5	2004 they had public meetings. 12:05:06PM	5 proponent of that pretty quickly. 12:06:10PM
6	Q. Okay. 12:05:08PM	6 Q. Okay. But I mean your 12:06:13PM
7	A. About 2002, if I recall. 12:05:08PM	7 services contracts listed a deliverable for AOR as 12:06:16PM
8	The point is this is something we had experienced 12:05:12PM	8 of December 2010. 12:06:20PM
9	before, and we talked to the MNR about it. We 12:05:13PM	So you are expecting to be 12:06:22PM
10	were familiar with them. I held applicant of 12:05:16PM	to be getting AOR quickly, but your deliverable is 12:06:24PM
11	records on other sites at that time, for water 12:05:19PM	11 by December 2010. 12:06:27PM
12	power projects. I was proceeding under the old 12:05:23PM	12 A. Well, to be clear, we 12:06:28PM
13	rules. 12:05:25PM	expect to get the AOR when the MNR is ready to 12:06:30PM
14	Q. Yes. 12:05:26PM	release it. You can't control the timing, but we 12:06:33PM
15	A. MNR was not talking about 12:05:27PM	expected it would happen. 12:06:36PM
16	eliminating these sites. So this was something 12:05:28PM	16 It was impossible for me to 12:06:38PM
17	that we regarded as a normal process 12:05:32PM	put a deadline on it, because at that point the 12:06:40PM
18	Q. Yes. 12:05:35PM	MNR had released no applicants of record to 12:06:44PM
19 20	A that would lead to 12:05:35PM	thousands of applications. 12:06:48PM So they were in a process that 12:06:49PM
21	AOR. But we had every expectation that AOR, like 12:05:36PM it had always before, would result, particularly 12:05:41PM	So they were in a process that 121001 191111
22	given in 2009 the Green Energy Act was well known, 12:05:45PM	would happen, and would align with the Green 12:06:53PM Energy Act when it would happen. We made our best 12:06:57PM
23	if not there, it had at least been proposed, and I 12:05:49PM	efforts to work with the MNR to try to determine 12:07:00PM
24	think you made a very good point that you the 12:05:54PM	24 that. 12:07:02PM
25	MNR is committing to align with the Green Energy 12:05:57PM	25 Q. All right. Let's switch 12:07:03PM

2	Q. Please. 12:08:55PM	2	But under the new regulations, 12:09:53PM
3	A. The very first page, the 12:08:56PM	3	renewable energy, the MNR didn't. 12:09:55PM
4	very first point of that tab highlights what I 12:08:57PM	4	The MNR was it was supposed 12:09:57PM
5	just said: The MNR will be following the old site 12:09:00PM	5	to be a coordinated study under the auspices of 12:10:01PM
6	release process. That is the reference that I was 12:09:04PM	6	the Ministry of the Environment. And one didn't 12:10:05PM
7	making. I draw that to your record. 12:09:07PM	7	really have to deal with the MNR directly. It was 12:10:08PM
8	So to your question, I 12:09:10PM	8	a one-stop shop, if you want. 12:10:10PM
9	apologize for being 12:09:12PM	9	Q. Okay. But that's who you 12:10:12PM
10	Q. No, no, it's okay. 12:09:13PM	10	were dealing with was MNR. Did you have any 12:10:14PM
11	A slow here, the MNR is 12:09:15PM	11	did you ask for preconsultation meeting with the 12:10:17PM
12	suggesting that the REA process is to follow 12:09:17PM	12	MOE? 12:10:19PM
13	behind site release. 12:09:21PM	13	A. What time 12:10:20PM
14	Well, I don't know why the MNR 12:09:21PM	14	Q. On the REA? 12:10:21PM
15	is suggesting anything about the REA process. 12:09:23PM	15	A. What time 12:10:22PM
16	They're not responsible for it. 12:09:25PM	16	Q. Here we're talking, this 12:10:23PM
17	The REA process is in the 12:09:26PM	17	is June 7, 2010. 12:10:24PM
18	bailiwick of the Ministry of the Environment. The 12:09:27PM	18	A. Oh, yeah. We had spoken 12:10:27PM
19	MNR is responsible only for the site release. 12:09:30PM	19	to the MOE a couple of times by then. 12:10:29PM
20	Now, to be clear, in the past 12:09:35PM	20	Q. By April 2010. You sat 12:10:30PM
21	the MNR did have involvement under the 12:09:37PM	21	down with them in this April 19th meeting. Had 12:10:33PM
22	environmental screening regulations which water 12:09:40PM	22	you spoken to them prior to that? 12:10:36PM
23	power does and which previous wind projects had 12:09:43PM	23	A. About REA? 12:10:37PM
24	done, including Wolfe Island. So the MNR did have 12:09:46PM	24	Q. Yes. 12:10:38PM
25	an advisory step in the environmental screening 12:09:49PM	25	A. No. 12:10:39PM
	Page 162		Page 163
1	Q. Okay. 12:10:40PM	1	is trying to make is that if you are doing wind 12:11:38PM
2	A. I am not aware 12:10:43PM	2	testing, if you are doing wind testing, which is 12:11:41PM
3	pre-consultation being a normal course of business 12:10:44PM	3	not actually part of the REA process, but it is 12:11:45PM
4	with the Ministry of the Environment. 12:10:46PM	4	often done, and in order to do wind testing you 12:11:49PM
5	Q. Okay. Well, in the same 12:10:47PM	5	need MNR approval to place a tower on the lake 12:11:52PM
6	e-mail chain, let's just go into it. The last 12:10:50PM	6	bed. So that, I think, is what he's speaking 12:11:55PM
7	e-mail is the one starting from Ken Cain of MNR to 12:10:53PM	7	about. 12:11:57PM
8	Adam Chamberlain, who is your counsel. 12:10:58PM	8	I am not sure why he's talking 12:11:57PM
9	And he says: 12:11:04PM	9	about linking REA to AOR. They're not connected. 12:11:59PM
10	"Once through site 12:11:05PM	10	Q. Okay, okay. If you could 12:12:05PM
11	release, approval 12:11:07PM	11	turn to tab 17, please. This is the project 12:12:12PM
12	requirements are detailed 12:11:08PM	12	management plan that Ortech put together for you 12:12:15PM
13	in the REA." 12:11:09PM	13	on May 10th, 2010. 12:12:17PM
14	So is he mistaken then? I 12:11:13PM	14	A. Yes. 12:12:19PM
15	know you are saying that it is not MNR that does 12:11:14PM	15	Q. For the record, it is 12:12:20PM
16	the REA and that is a different department, 12:11:17PM	16	R-105. And in that please flip to page 11. Here 12:12:22PM
17	different ministry, and it is their, you know, 12:11:19PM	17	we've got page numbers on the top and page numbers 12:12:36PM
18	they're going to manage that process. 12:11:21PM	18	on the bottom. If you could focus on the top 12:12:39PM
19	But he's saying very clearly 12:11:22PM	19	right-hand pages, the ones on the top. There we 12:12:42PM
20	here that, you get through your site release and 12:11:24PM	20	go. That is easier to follow. 12:12:46PM
21	then you proceed with the REA; right? 12:11:27PM	21	In this section Ortech advises 12:12:47PM
22	A. Again, Mr. Cain works for 12:11:31PM	22	on the uncertain REA permitting. 12:12:51PM
23	the MNR. I am not sure why he is offering an 12:11:33PM	23	They write that: 12:12:55PM
24	opinion on the REA. 12:11:35PM	24	'REA permitting is new, 12:12:56PM
25	The specific point I think he 12:11:36PM	25	replaces the former 12:12:58PM

	Page 164		Page 165
1	provincial environmental 12:13:00PM	1	process for Crown land, and uncertainty in the 12:14:01PM
2	assessment process.' 12:13:00PM	2	detailed requirements for the REA. 12:14:04PM
3	And then they state clearly 12:13:03PM	3	Do you remember that? 12:14:07PM
4	that: The regulatory agencies meaning MNR and 12:13:05PM	4	A. Yes, I do. 12:14:07PM
5	MOE, those are the regulatory agencies? 12:13:08PM	5	Q. So you specifically had 12:14:08PM
6	A. Those are some of them, 12:13:11PM	6	three concerns, right? The setbacks, unknown 12:14:10PM
7	yes. 12:13:12PM	7	setback requirements; uncertainty in the site 12:14:13PM
8	Q. Okay, a couple of them, 12:13:12PM	8	release process; and uncertainty in the detailed 12:14:16PM
9	yes. They don't have well-established guidelines 12:13:14PM	9	requirements with the REA? 12:14:18PM
10	for offshore projects, adding to the uncertainty 12:13:16PM	10	A. Correct. 12:14:20PM
11	of the REA process. Do you see that? 12:13:18PM	11	Q. All right. So let's 12:14:20PM
12	A. Mm-hmm. 12:13:20PM	12	proceed along our chronology, then, with document 12:14:26PM
13	O. So this is what causes 12:13:20PM	13	C-270, which you will find at tab 9. 12:14:29PM
14	you to write to REFO on May 13th, 2010? You will 12:13:22PM	14	A. You've made a reference 12:14:35PM
15	find that at tab 8. 12:13:28PM	15	to the Ortech study. 12:14:36PM
16	A. Yes. I am aware of that 12:13:30PM	16	Q. Yes. 12:14:38PM
17	REFO letter. 12:13:32PM	17	A. Do you have a question 12:14:39PM
18	Q. Now, this is document 12:13:34PM	18	involving that statement you made about the 12:14:40PM
19	C-258. And you, you write in this letter to 12:13:40PM	19	agencies' uncertainty? 12:14:42PM
20	REFO is Renewable Energy Facilitation Office, 12:13:46PM	20	Q. Yes. I wanted you to 12:14:44PM
21	Ministry of the Environment, you write in the 12:13:49PM	21	confirm you were dealing with three areas of 12:14:45PM

23	with the considerable regulatory uncertainty 12:13:53PM	23	A. Okay, yes. 12:14:51PM
24	caused by unknown setback requirements for 12:13:56PM	24	Q. In the second e-mail of 12:14:52PM
25	offshore wind, uncertainty in the site release 12:13:59PM	25	this chain, at tab 9, Mr. Roeper writes to you on 12:14:55PM

	Page 168		Page 169
1	able to know whether you can meet the rules. 12:16:37PM	1	guidelines, which is something completely 12:17:37PM
2	A. Actually, I don't believe 12:16:40PM	2	different. 12:17:39PM
3	he's saying that at all. 12:16:41PM	3	Guidelines are something - 12:17:39PM
4	Q. What is he saying? 12:16:42PM	4	and remember Mr. Roeper had done hundreds of EAs, 12:17:41PM
5	A. He was indicating, in the 12:16:44PM	5	and I have done several, quite a few. 12:17:46PM
6	first time that you made a comment about his May 12:16:46PM	6	So we know you normally deal 12:17:49PM
7	30th I believe, when he was talking about the 12:16:49PM	7	with the agencies and get the nuts and bolts of 12:17:50PM
8	uncertainty, he said and I will follow the 12:16:52PM	8	the studies and the details worked out in advance, 12:17:53PM
9	chain through to here so I won't waste your time. 12:16:56PM	9	if you can, in order to proceed with the field 12:17:55PM
10	Q. Okay. 12:16:59PM	10	studies and don't waste your time. You can call 12:17:59PM
11	A. Thank you. The 12:17:00PM	11	it a mark of respect. You can just call it being 12:18:01PM
12	regulatory agencies do not have well-established 12:17:02PM	12	expedient. Those guidelines are separate from the 12:18:04PM
13	guidelines for offshore projects, adding to the 12:17:04PM	13	regulations. 12:18:06PM
14	uncertainty. 12:17:07PM	14	We knew what we had to study. 12:18:07PM
15	Let me be clear what a 12:17:08PM	15	What we didn't – what we weren't sure of and 12:18:11PM
16	"guideline" is. 12:17:09PM	16	wanted guidance on was the details. Some things 12:18:14PM
17	There are rules they're 12:17:10PM	17	that can be quite trivial but can trip you up. 12:18:18PM
18	regulations which are well postulated. They're 12:17:12PM	18	What fish are you studying? What areas are you 12:18:21PM
19	posted on the Environmental Bill of Rights. The 12:17:16PM	19	studying? Over what time frames are you studying? 12:18:23PM
20	REA rules were in place. They had been posted 12:17:19PM	20	So you do deal with the agencies. 12:18:26PM
21 22	since 2009. They defined a Class 5 project as an 12:17:22PM offshore wind project. All of the rules required 12:17:27PM	22	And just to be clear, the REA 12:18:28PM guidelines for onshore came out in 2011, a year 12:18:31PM
23	to obtain REA were there, and we knew them and the 12:17:31PM	23	after this process. So all of the REAs that were 12:18:35PM
24	public knew them. 12:17:35PM	24	happening in 2010, all of the 185 wind projects, 12:18:37PM
25	He was talking about the 12:17:35PM	25	were proceeding without guidelines, and we were 12:18:41PM
	1217/1007/1		}
	Page 170		Page 171
1	trying to obtain those. 12:18:44PM	1	are there. 12:19:42PM
2	So moving forward to Tab 8, 12:18:45PM	2	Q. Would guideline include a 12:19:43PM
3	where you talked about the three things and I 12:18:50PM	3	five kilometer setback? 12:19:45PM
	won't mention all three because you talked 12:18:52PM	4	five kilometer setback? 12:19:45PM A. Well, then you mention 12:19:46PM
3 4 5	won't mention all three because you talked 12:18:52PM specifically about one 12:18:54PM	4 5	five kilometer setback? 12:19:45PM A. Well, then you mention 12:19:46PM unknown setback requirements. 12:19:48PM
3 4 5 6	won't mention all three because you talked 12:18:52PM specifically about one 12:18:54PM Q. Mm-hmm. 12:18:56PM	4 5 6	five kilometer setback? 12:19:45PM A. Well, then you mention unknown setback requirements. 12:19:48PM At this point there was no 12:19:49PM
3 4 5 6 7	won't mention all three because you talked 12:18:52PM specifically about one 12:18:54PM Q. Mm-hmm. 12:18:56PM A sorry. I think I 12:18:57PM	4 5 6 7	five kilometer setback? 12:19:45PM A. 1	answer your question, if I may, and I apologize if 12:20:23PM	1	A. Well that is a separate 12:21:23PM
2	I am being too long-winded here. 12:20:29PM	2	discussion that came up later, yes. 12:21:24PM
3	Q. No, no, no. 12:20:31PM	3	Q. So just based on these 12:21:26PM
4	A. Uwe Roeper, who was our 12:20:33PM	4	lacking guidelines alone, you are unable to assess 12:21:28PM
5	project manager and highly seasoned 12:20:34PM	5	whether the project could meet a deadline or not? 12:21:30PM
6	environmentally, he ran Ortech Environmental. So 12:20:38PM	6	A. He couldn't give me a 12:21:34PM
7	they were environmental consultants. 12:20:41PM	7	definitive answer. 12:21:36PM
8	He said, if we don't get some 12:20:42PM	8	Q. Correct. 12:21:37PM
9	indication of where the government is on the 12:20:44PM	9	A. But I must say, it is 12:21:38PM
10	permitting guidelines and, again, that word 12:20:46PM	10	normal to proceed in projects without the 12:21:39PM
11	"guidelines" is key we cannot assess the 12:20:49PM	11	guidelines in place. In fact, all of the onshore 12:21:41PM
12	permitting risk. 12:20:51PM	12	projects were proceeding that way at that time. 12:21:44PM
13	So what he's saying is, we 12:20:52PM	13	Not having guidelines in place is the norm. 12:21:47PM
14	have a tight four-year schedule, and we know what 12:20:54PM	14	Q. And the REA, you 12:21:49PM
15	the rules are for REA. They were published. But 12:20:58PM	15	confirmed the REA replaced the EA system. I know 12:21:51PM
16	we, and everyone else involved in REA, onshore and 12:21:02PM	16	you said you had a lot of familiarity with the EA 12:21:54PM
17	offshore, were really hoping to get some 12:21:06PM	17	process, but the REA process was a new process, a 12:21:59PM
18	guidelines, some guidance. 12:21:09PM	18	different process than the EA process? 12:22:02PM
19	So he's telling me, I can't 12:21:10PM	19	A. Well, to be clear, it was 12:22:04PM
20	assess the risk. In other words, the timing. I 12:21:12PM	20	a subset of the original process. The changes 12:22:07PM
21	can't say whether you are going to be able to fit 12:21:15PM	21	were actually quite minor. 12:22:11PM
22	this into four years. 12:21:17PM	22	What really changed was the 12:22:13PM
23	Q. Based on the guidelines 12:21:19PM	23	timing, the service commitments to get it done, 12:22:15PM
24	alone, let alone the five kilometer setback, which 12:21:20PM	24	and moving it all under one roof, so that all of 12:22:18PM
25	is another 12:21:23PM	25	the studies would be done for the Ministry of the 12:22:21PM
	Page 174		Page 175
1	Environment, as opposed to MNR and others. 12:22:23PM	1	description package the MNR does. One of the 12:23:16PM
2	Q. Right. So there is a 12:22:25PM	2	requirements in the class 5 wind facility in the 12:23:19PM
3	shift in sort of responsibility over to MOE in a 12:22:26PM	3	REA 12:23:22PM
4	way. You would agree with that? 12:22:29PM	4	
5		1 7	O. I wasn't talking about 12:23:22PM
_	A. Yes. But to be clear. 12:22:30PM	5	Q. I wasn't talking about 12:23:22PM the draft site description package. I was talking 12:23:23PM
6	A. Yes. But to be clear, 12:22:30PM sir, the actual requirements: Almost the same. 12:22:32PM		the draft site description package. I was talking 12:23:23PM
6 7	sir, the actual requirements: Almost the same. 12:22:32PM	5	
	sir, the actual requirements: Almost the same. 12:22:32PM Q. What you saw as 12:22:37PM	5 6	the draft site description package. I was talking 12:23:23PM about the offshore wind facility report which was 12:23:25PM in the REA. 12:23:27PM
7	sir, the actual requirements: Almost the same. 12:22:32PM Q. What you saw as 12:22:37PM requirements in the REA, the offshore wind 12:22:39PM	5 6 7	the draft site description package. I was talking 12:23:23PM about the offshore wind facility report which was 12:23:25PM in the REA. 12:23:27PM A. Yes, that's correct. I 12:23:28PM
7 8	sir, the actual requirements: Almost the same. 12:22:32PM Q. What you saw as 12:22:37PM	5 6 7 8	the draft site description package. I was talking 12:23:23PM about the offshore wind facility report which was 12:23:25PM in the REA. 12:23:27PM
7 8 9	sir, the actual requirements: Almost the same. 12:22:32PM Q. What you saw as 12:22:37PM requirements in the REA, the offshore wind 12:22:39PM facility report or the APRD, you viewed those as 12:22:43PM	5 6 7 8 9	the draft site description package. I was talking 12:23:23PM about the offshore wind facility report which was 12:23:25PM in the REA. 12:23:27PM A. Yes, that's correct. I 12:23:28PM apologize. 12:23:29PM
7 8 9 10	sir, the actual requirements: Almost the same. 12:22:32PM Q. What you saw as 12:22:37PM requirements in the REA, the offshore wind 12:22:39PM facility report or the APRD, you viewed those as 12:22:43PM almost the same as what was in the EA? 12:22:46PM	5 6 7 8 9	the draft site description package. 12	any environmental assessment. 12:26:36PM	12	A. But this is specific to 12:27:21PM
13	Q. All right. But the 12:26:38PM	13	offshore, sir. 12:27:21PM
14	obvious unknown, the elephant in the room, the 12:26:38PM	14	Q. There is a clear 12:27:23PM
15	obvious thing that isn't known is whether there 12:26:41PM	15	universal province-wide setback for onshore wind 12:27:24PM
16	will be a five kilometer setback. 12:26:44PM	16	of 550 metres, and then your specific study will 12:27:26PM
17	A. At this point, yes. 12:26:46PM	17	take you outside of that, further outside of that, 12:27:31PM
18	Q. You're saying it is all 12:26:46PM	18	if that is what the study requires or shows is 12:27:34PM
19	clear in the rules, but those rules aren't in 12:26:48PM	19	required. 12:27:38PM

21	setback. 12:26:52PM	21	didn't exist. There was no setback for noise for 12:27:40PM
22	A. REA did not define a 12:26:52PM	22	offshore wind or a setback for anything else for 12:27:43PM
23	setback, no. There is no regulation under the REA 12:26:54PM	23	that matter. 12:27:46PM
24	that says a setback. 12:26:57PM	24	A. I don't think I explained 12:27:47PM
25	Q. No. But the REA sets up 12:26:59PM	25	myself very well. I'm sorry. It is a complicated 12:27:48PM

We did bathymetric studies, we did 13:46:46 water studies, we did geotechnical on land, we did 13:46:50 wind studies on land, and all the surrounding areas, 13:46:54 we did this is not just to be clear, not in 13:46:56 2014 or 2015, this is 2010. We did feasibility, 13:46:59 looking at all of these points to see if they could 13:47:04 be mitigated, because my role is to identify the 13:47:06 risks to my investors, which I hope I have done, try 13:47:11 to give them a balance point, and then to mitigate 13:47:13 these risks to determine how we deal with them. And 13:47:16 so we had a large number of ideas which we 13:47:22 incorporated in our layouts that would have 13:47:26 regulation. So we were not concerned that if they 13:47:32 them. But that said, we were the only 13:47:46 offshore project, so we knew that it was specific to 13:47:47 us. And we offered to work with government and pay 13:47:50 for the studies that were required. But, by the 13:47:52 way, under REA all these studies are required 13:47:55 anyway. Under the current REA regulations, you have 13:47:57 to do drinking water, coastal waves, ice, noise. 13:48:00 You don't have a choice 13:48:03 Q. But the REA doesn't have setbacks 13:48:05 or clear prescriptive rules upfront like a 550-metre 13:48:07 setback that's there for onshore wind, when you 13:48:13 don't have that for offshore wind, do you? 13:48:16 A. No, that doesn't exist. There is 13:48:18 no setback beyond that for offshore 13:48:19 Q. And that's what they were working 13:48:22 on, you would agree? 13:48:23 A. 11	released this document asking for public input and 13:52:49	11	read] 13:53:43
12	the MNR later also did it. 13:52:52	12	And then you write after all of that: 13:53:44
13	The first one terminated in August, 13:52:54	13	"All of these could come out of 13:53:45
14	I believe, the MOE, and the second one MNR 13:52:56	14	our REA study and become the next 13:53:46
15	terminated about middle of September. So it was 13:52:58	15	regulatory concerns. And of 13:53:49
16	a consultation document that the public was to 13:53:01	16	course it presumes that the 13:53:50
17	comment on. It was not a regulation at that point, 13:53:03	17	five-kilometre setback is not 13:53:52
18	but, yes, to answer your question, sir, we were 13:53:06	18	increased." 13:53:53
19	aware of it. 13:53:10	19	Now you would agree there that you are 13:53:54
20	Q. Okay. And then it continues the 13:53:11	20	articulating the uncertainty in the detailed 13:53:56
21	paragraph that starts: 13:53:12	21	requirements of the REA, aren't you? 13:53:59
22	"However, that does not allow any 13:53:13	22	A. Let's take them one at a time if 13:54:05

2	attempt. So we are indicating that there are risks 13:54:22	2	We've only had this contract six weeks 13:55:22
3	and concerns; risks meaning uncertainty, not 13:54:25	3	at this point, seven weeks. We haven't done the 13:55:24
4	necessarily fatal risks, but things we had to deal 13:54:29	4	detailed engineering that's necessary to really 13:55:27
5	with, things we have to mitigate. 13:54:31	5	determine if these are a concern. I'm identifying 13:55:29
6	So let's take a look at them one at 13:54:33	6	we have to study these. 13:55:33
7	a time. This has been reduced to 15 per cent. If 13:54:35	7	Q. Uh-hmm. 13:55:34
8	the five kilometres applied, we quickly realized 13:54:37	8	A. And they might be a concern. 13:55:35
9	that we would need additional site access, and we 13:54:40	9	I don't know at this point. That's my job, is to 13:55:36
10	approached the MNR and requested in fact we 13:54:43	10	bring in the experts to study, which, in fact, we 13:55:39
11	applied for additional lands, which the MNR 13:54:47	11	did later that fall. 13:55:42
12	indicated quite strongly on at least two occasions 13:54:51	12 13	And then they talk about, they presume 13:55:44
13 14	was possible, in fact probably likely, but they 13:54:56	14	that the five-kilometre setback is not increased. 13:55:48
15	certainly confirmed that it was a situation they 13:55:00	15	We always worked with five kilometres 13:55:50
16	would 13:55:01 Q. Well 13:55:02	16	presuming it was a given, and all we had in writing 13:55:52 or in discussions, and the Minister of Energy had 13:55:56
17		17	•
18	A we would consider 13:55:02 Q further question, you will be 13:55:02	18	given a public statement actually in Sault Ste. 13:55:59 Marie that five kilometres was the distance, so we 13:56:01
19	able to explore that topic. 13:55:04	19	had no reason to believe the distance would be 13:56:07
20	A. My opinion is it is likely. 13:55:06	20	increased. 13:56:10
21	We talked about the flexibility of 13:55:08	21	If it was increased, we'd have to work 13:56:11
22	needing additional lands, which is really just 13:55:12	22	with the agencies and change the grid cells we would 13:56:14
23	a continuation of the previous. You want to be able 13:55:14	23	be requesting. 13:56:17
24	to move it around as necessary. Things like weak 13:55:16	24	Q. Okay, but would you agree with me 13:56:18

6	A. To be clear, if it had rules, 13:56:43	6	If there is an unknown, and Mr. Roeper is far more 13:57:36
7	they'd be rules, they'd be written down, and we'd 13:56:45	7	qualified because he is the environmental 13:57:39

9	Q. But that wasn't my question. My 13:56:50	9	Q. We will be able to talk to 13:57:41
10	question was 13:56:51	10	Mr. Roeper as well. 13:57:42
11	A. If it had guidelines, yes. We 13:56:51	11	A. But if there is an unknown, as 13:57:43
12	were asking for the guidelines, how to interpret the 13:56:53	12	I understand it, what you do is you work with the 13:57:45
13	rules. There was no doubt that you had to do avian 13:56:55	13	agencies to determine if there is a risk involved, 13:57:46
14	studies and fish studies, okay, but which fish? 13:56:58	14	and if there's a risk involved, how serious is the 13:57:48
15	Which birds? Which fly-aways? 13:57:02	15	risk? 13:57:51
16	Q. If there was a setback that said 13:57:04	16	Q. And that's 13:57:51
17	you are not going to go within a kilometre of a fish 13:57:06	17	A. And you mitigate it 13:57:53
18	habitat area, doesn't that send a clear signal that 13:57:09	18	Q. Like I said, that's an environment 13:57:53
19	you know where your project can be sited and where 13:57:13	19	assessment system but 13:57:54
20	it can't be sited? 13:57:16	20	A. Here we 13:57:55
21	A. Does that rule exist? I don't 13:57:17	21	Q you replaced that with an REA 13:57:56
22	think it does. 13:57:19	22	process? 13:57:58
23	Q. No, it doesn't, no. 13:57:20	23	A. Right. And it is proponent 13:57:59
24	A. So if it's not a rule, how can 13:57:20	24	driven, where the proponent does these studies, 13:58:01
25	I follow it? I don't mean to be difficult, but the 13:57:22	25	submits to the agencies, and the agencies approve it 13:58:03

There is also a flicker standard, 14:03:51 yes. 14:03:52 Q. Okay. But that type of rule, that 14:03:52 type of requirement does not exist for offshore wind 14:03:54 isn't that right? 14:03:58 A. REA covers offshore wind. It is 14:03:59 called Class 5, yes. 14:04:03 Q. But — 14:04:04 A. This regulation covers Class 5 14:04:04 offshore wind, so the same regulations in terms of 14:04:08 distance from boundary, and so on, they would apply. 14:04:10 Q. So the 550 metres also applies to 14:04:13 offshore wind — 14:04:17	MS. SEERS: — if I may object. 14:04:18 Mr. Neufeld is putting to the witness that certain 14:04:19 things apply or don't apply to offshore wind 14:04:22 facilities, and he's not taking him to the 14:04:25 provisions of the regulation, and we would again 14:04:26 submit that it would be appropriate for him to do 14:04:29 so if he is putting questions to the witness about 14:04:31 regulatory requirements. 14:04:35 PRESIDENT: This is your 14:04:41 cross-examination, Mr. Neufeld, so it's up to you 14:04:42 how you wish to handle this, whether you put the 14:04:46 documents to the witness or whether you want to deal 14:04:51 with questions so — 14:04:52 BY MR. NEUFELD: 14:04:54 Q. And the document is before you, if 14:04:54 you want to look up the rule, if you want to scroll 14:04:56 through it to find the rule — 14:04:58 A. No, I don't need to look it up, 14:05:00 thank you. I've lived it several times. 14:05:02 Q. Very good, thanks. 14:05:04 A. Ten years actually. 14:05:06 Q. And the documents that I just 14:05:07 handed out on the EBR which said that — signaled, 14:05:08

12	THE WITNESS: Correct 14:05:51	12	right to change REA regulations in future. In fact, 14:06:51
13	PRESIDENT: do not make 14:05:51	13	two years later they did change REA regulations in 14:06:55
14	a distinction between offshore and onshore wind, and 14:05:52	14	some substantial ways. They did not include 14:06:58
15	your understanding is that they apply to both? 14:05:55	15	offshore because there was a moratorium, so that's 14:07:01
16	THE WITNESS: To be specific, sir, 14:05:57	16	not relevant. 14:07:04
17	Class 5 facilities are defined as offshore wind. 14:05:58	17	But the government does have the right 14:07:04
18	So, yes, the answer to your question is, yes, they 14:06:02	18	to change regulations, and we respect that, and we 14:07:06
19	applied to both. 14:06:04	19	follow the rules as they apply at that time. 14:07:09
20	PRESIDENT: Okay, thank you. 14:06:06	20	So the rules as they applied, the time 14:07:11
21	BY MR. NEUFELD: 14:06:09	21	we signed the FIT contract, were quite specific, 14:07:13
22	Q. Then would you also agree, which 14:06:09	22	Class 5 wind was clearly defined in the REA 14:07:16
23	I think we have already, but in R-0118, the sheet 14:06:10	23	regulations, and we read them very carefully. 14:07:18

1	solution we attempted was to talk to the agencies 14:09:48	1	A. And the rules were defined. And 14:10:52
2	and to seek clarity and to seek a new set of REA 14:09:50	2	we had the expert testimony of Ortech Environmental 14:10:56
3	rules, if that's what was happening. But there are 14:09:55	3	backing us up at that time. I shouldn't say 14:11:01
4	no new REA rules, and there is no setback today. 14:09:58	4	"testimony," but we'd spent a lot of time discussing 14:11:03
5	There is no setback under EBR. I know I'm jumping 14:10:02	5	this. 14:11:06
6	ahead, but it's 14:10:07	6	Q. So let's turn to the assurances 14:11:06
7	Q. Yeah, I'd like to focus now on 14:10:08	7	that you were looking for then. Maybe you can have 14:11:08
8	what you say was the cause of you entering into that 14:10:10	8	a look at Tab 12, which is Exhibit C-294. 14:11:11
9	FIT contract then. The rules didn't exist then, so 14:10:13	9	A briefing document dated June 24th, 2010, on 14:11:18
10	it couldn't have been the existence of these rules? 14:10:17	10	Wolfe Island shoals, and this I think you alluded to 14:11:24
11	A. The rules did exist. Please, the 14:10:18	11	earlier, you said we'd even written in to give our 14:11:27
12	rules did exist. The REA rules were in place. I'm 14:10:20	12	views on the proposals and the proposed changes. 14:11:30
13	sorry, there was uncertainty as to the guidelines. 14:10:23	13	A. What is the date of this, please? 14:11:34
14	Those are not the rules. The regulation, the laws 14:10:26	14	Q. June 24th, 2010. 14:11:36
15	are under the REA. This was a discussion paper. 14:10:29	15	A. Okay. 14:11:39
16	This is not a regulation. 14:10:34	16	Q. So you'll find first on page 2, if 14:11:39
17	Q. But it's a discussion paper that 14:10:35	17	you looked at page 2, you made three specific 14:11:45
18	said changes to the regulation were coming? 14:10:38	18	requests, and they're numbered there. 14:11:49
19	A. Might be coming. 14:10:42	19	The first one says: To address the 14:11:57
20	Q. Might be coming, okay. 14:10:42	20	five-kilometre setback, needed a Crown land swap 14:11:58
21	A. But they're not a rule. If you 14:10:43	21	from MNR? 14:12:01
22	are going to talk about changing the speed limit on 14:10:46	22	A. That's correct. 14:12:03
23	the highway, you don't start driving that speed, you 14:10:48	23	Q. The project was impossible to 14:12:03
24	go with what the current rule is. 14:10:51	24	build without that swap, right? 14:12:05
25	Q. Right. 14:10:52	25	A. It was impossible to build if 14:12:07

And then second you say: To 14:12:12 address the time lost to acquiring Crown land site 14:12:13 release, you asked for an extension from MEI? 14:12:17 A. Yes. 14:12:23 Q. And that extension that you asked 14:12:24 for specifically there in that paragraph it says: 14:12:25 "Equivalent to the amount of time 14:12:25 needed to obtain the grid cell 14:12:27 swap, Applicant of record status 14:12:29 and final approval of the 14:12:32 setbacks." 14:12:34 Right? 14:12:34 A. Which paragraph are you looking 14:12:35 at? 14:12:36 Q. The second paragraph. 14:12:38 A. That's correct. 14:12:45 Q. And then third: To address the 14:12:49 requirement, you wanted confirmation from MOE that 14:12:52 the five-kilometre setback wouldn't apply to Pigeon 14:12:55 Island; isn't that right? 14:13:01	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. It just defines it in this 14:13:08 discussion paper that we had just as the from the 14:13:09 water's edge, setback from the water's edge? 14:13:12 A. Right, but there is no concept of 14:13:14 shoreline. 14:13:16 Q. Now you didn't get any of these 14:13:17 three asks, did you? 14:13:20 A. Actually we did. We received 14:13:22 a one-year extension as requested. 14:13:27 Q. But you didn't request that, did 14:13:28 you? You requested conditional extensions based on 14:13:30 when you got AOR and the setback requirements being 14:13:33 firm and the grid cell swap? 14:13:37 A. Right. And we were given, in 14:13:40 fact, the one-year extension, which, to me, was 14:13:41 a very strong indication that the government felt 14:13:44 that these things would be resolved, and one year 14:13:46 was more than sufficient time. 14:13:50 it was sufficient time or that 14:13:51 A. We felt that because the 14:13:53 government took our request for certainty and 14:13:55
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	there was a five-kilometre setback enacted, yes. 14:12:09 Q. 2	Q. Okay. Turn to Tab 13, please, 14:14:11	2	A. Actually this is not the letter 14:15:07
3	R-542. Now this is a draft letter, you probably 14:14:17	3	because it doesn't say we can move forward to obtain 14:15:08
4	recognize it? 14:14:22	4	an AOR. 14:15:11
5	A. Yes. 14:14:23	5	Q. Maybe we can turn up, if we have 14:15:15
6	Q. A draft letter that was finalized 14:14:24	6	this draft letter open, which was given to you on 14:15:17
7	on August 9th that you received from Mr. Boysen, but 14:14:26	7	August 3rd, and then, Donnie, if you could call up 14:15:20
8	this was the letter in draft form that was given to 14:14:28	8	separately C-334 on the screen, then we can actually 14:15:22
9	you prior to that point; right? 14:14:31	9	compare the two as we go. 14:15:27
10	A. Yes, correct. 14:14:33	10	A. I think it's the second page that 14:15:44
11 12	Q. And you state in your witness 14:14:34	11	is the more interesting. 14:15:45
	statement that this is what sent the clear signal to 14:14:38	12	Q. Okay, but this is the letter that 14:15:46
13 14	you, right? This is the clear signal that MNR would 14:14:40	13 14	you are referring to. We've got the right document? 14:15:47
15	work with you to deal with the challenges facing the 14:14:43 project?	15	This is the August 9th letter. 14:15:49
16	project? 14:14:45 A. This is one of two. The second 14:14:46	16	A. I believe so. I can't see the 14:15:52 date, but I believe so. 14:15:53
17	one that was far more specific was August 9th, the 14:14:47	17	Q. Scroll up a bit there, Donnie. 14:15:55
18	letter from, I believe, Mr. Boysen 14:14:51	18	A. Yes, thank you. 14:15:56
19	Q. Well, this is the 14:14:53	19	Q. And the draft form of this letter 14:15:58
20	August 9th letter, just in draft form. 14:14:54	20	you received on August 3rd, 2010, correct? 14:15:59
21	A. Okay. 14:14:56	21	A. We took that as a very positive 14:16:03
22	Q. Do you see that? 14:14:56	22	sign that the MNR would ask our opinion on a letter 14:16:05
23	A. Thank you. 14:14:57	23	that they were sending to us, a comfort letter, but, 14:16:07
24	Q. So, again, I think what we'll find 14:14:58	24	yes, that is the one we received. 14:16:09
25	in this letter is that these assurances that you are 14:15:03	25	Q. What's interesting about this 14:16:12

And this was the concern that we 14:20:47 covered earlier that you'd brought up with Minister 14:20:48 Cansfield in October of 2008 already, right? 14:20:51 A. Well, I was concerned about the 14:20:57 time it was taken with Minister Cansfield. But to 14:20:58 be clear, what I'm commenting on here is simply 14:21:01 asking the MNR to include in the letter their own 14:21:04 process which they have put out to the public is how 14:21:09 get the setback. It seemed like a reasonable 14:21:15 it still existed in their regulation. I shouldn't 14:21:15	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. — so from May 4th, 2010, to 14:21:32 May 4th, 2011? 14:21:36 It didn't condition the extension on 14:21:37 Crown land site release in any way, the extension — 14:21:39 A. No. 14:21:42 Q. — or on AOR or on — 14:21:42 A. No, it didn't. No, as I said, we 14:21:44 took that as an indication that it would happen in 14:21:46 a timely manner, and one year was sufficient. 14:21:48 The alternative would be the OPA would 14:21:50 be saying we're going to give you a FIT program that 14:21:54 you can't possibly build. That's bad faith. 14:21:56 I certainly don't expect bad faith on the part of 14:22:00 government. 14:22:03 We went into this on the understanding 14:22:03 that there was clear desire on the part of 14:22:05 government to bring in shovel-ready, as they called 14:22:09 it, or advance stage projects, they were bragging 14:22:16 invested in the province. This was more than 14:22:19 a billion dollars. They were bragging about the 14:22:22

Well, you've made several points 14:38:55 there if you'd like me to address them? 14:38:57 Q. Sure. 14:38:59 A. We picked a turbine. It was 14:39:00 a Vestas. We were talking to Vestas at that point, 14:39:02 but it was just an example. We were in discussions 14:39:06 we thought with the MNR about site release, and had 14:39:08 received several letters, and had meetings, and had 14:39:12 a meeting on September 9th, which was ten days after 14:39:13 this with the MNR specifically to talk it about the 14:39:17 additional blocks. We provided them with a map. We 14:39:21 provided them with what was required. We were doing 14:39:23 our side to show how this project could move 14:39:27 forward. We were moving heaven and earth to show 14:39:30 the MNR what was needed. 14:39:32 For some reason the MNR was not giving 14:39:35

Page 245 Page 244 1 1 22nd, that they had said specifically to discuss the 14:39:48 saying we need to mitigate them, and then in the 14:41:01 2 2 configuration and the results of the public same document, I believe, I'm asking for \$8 million, 14:41:03 14:39:53 3 3 consultation. \$8.8 million to hire the experts to do the first 14:41:06 4 stage of these things, and we were already starting 14:41:10 4 We believed that we would receive AOR 14:39:56 5 the workaround because we couldn't obtain approval 14:41:11 5 shortly thereafter. And so we built a timeline, and 14:39:59 6 6 from the MNR to put a met tower in the water, we put 14:41:15 this is not contrary to what another engineer says, 14:40:03 7 7 this is not at the start of the project, a project 14:40:08 it on a spit of land, and then we put something 8 construction timeline. This is a high-level 8 called a sonar to do remote sensoring. We did 14:40:10 14:41:23 9 9 overview. This is written to my board of directors, 14:40:13 side-scan sonar and magnetometer readings, because 14:41:25 10 10 so they want to see something fairly specific and 14:40:15 the MNR wouldn't allow us to drill on the bottom, so 14:41:30 11 11 balanced -- they are very senior business people -- 14:40:18 we did remote sensing. 14:41:33 12 12 and shows that how it could be done. We did a lot of work to work around 14:41:35 14:40:22 13 But, to be clear, building projects is 14:40:24 13 the delays that were being promulgated by the 14:41:37 14 14 agencies, but I didn't perceive these to be fatal. 14:41:39 what I've done for 40 years, and we had multiple 14:40:26 15 15 I mean Wolfe Island was built in three 14:41:42 ways of meeting a tight timeline. We could do 14:40:29 16 16 things in parallel, okay. We would make sure that 14:40:32 and a half years, and it's just as complicated as 14:41:46 17 17 we brought in experienced people. We could also 14:40:37 this one. So I had a pretty good understanding of 14:41:49 18 purchase up to 18 months of delay for a cost of 14:40:41 18 what the risks were, but I also had a pretty good 14:41:53 19 a maximum of \$20 million to buy at the end, but at 14:40:43 19 idea how we could deal with them. They weren't 20 20 this point, I did not want to take those fatal risks, and there was certainly no moratorium 14:41:59 14:40:46 21 21 contingencies and say, okay, we are going to start 14:40:48 involved, or any thought of a moratorium. 14:42:03 22 22 off and assuming all the contingents. What I'm Q. If I could take to you, for the 14:42:23 14:40:52 23 23 record, it's document R-551. You know what, I don't 14:42:24 saying is it is tight and little room. 14:40:55 24 24 What you are hearing is the project 14:40:58 have it here, and I think I'm going to skip that 14:42:54 25 25 manager come out warning of these concerns and 14:42:56 14:40:59 Page 246 Page 247 1 1 A. Fine with me. 14:42:57 sorry. 14:44:01 2 2 Q. I'm sure you're not un-happy about 14:42:58 Q. So this is an email here recapping 14:44:02 3 3 that at all. It is a January 2011 document, and it 14:42:59 a conversation that you had with Craig MacLennan, 14:44:07 4 mirrors this one. We would be going over the same 14:43:03 4 and Craig MacLennan is from the Minister of Energy's 14:44:10 5 ground. 14:43:05 5 office, right? 14:44:17 6 A. Okay. 14:43:05 6 A. Yes. 14:44:17 7 Q. But there is one last subject area 14:43:06 7 Q. So let's have a look at the fourth 14:44:17 8 that I want to deal with, and it is only really a 14:43:08 8 point in the email first of all there. It says: 14:44:19 9 couple of questions, and this is now we can advance 14:43:10 9 "Craig indicated that the 14:44:22 1.0 the clock, post deferral. And your understanding -- 14:43:13 10 government was concerned with 14:44:23 11 your contemporaneous understanding that it was 11 legal challenges that were 14:44:24 12 Minister Wilkinson that was behind the decision to 14:43:21 12 occurring with onshore wind 14:44:25 13 not allow your project to proceed as a pilot 14:43:28 13 projects which required the future 14:44:28 14 project, and for that purpose, I'd like you to look 14:43:31 14 offshore regulations would be 14:44:30 15 at Tab 41, which is document C-0507. 14:43:35 15 bulletproof and survive 14:44:32 16 A. I'm not confirming that I thought 14:43:45 16 challenges." 14:44:33 17 Minister Wilkinson was behind it. I did not think 14:43:47 17 Do you see that? 14:44:34 18 Mr. Minister Wilkinson was behind it. That was the 14:43:49 18 A. Yes, I do. 14:44:35 19 public statement made by the government. 14:43:52 19 Q. And then he reiterated that MOE 14:44:35 20 Q. And you didn't think so at the 14:43:54 20 wants to get it right before proceeding with 14:44:37 21 time either? 14:43:55 21 offshore regulations, and he noted that MOE was 14:44:40 22 A. No. 14:43:56 22 calling the shots. Do you see that --14:44:43 23 Q. Did you -- well, let's have a look 14:43:56 23 A. Uh-hmm. 14:44:46

Q. -- there as well?

So you are hearing from Craig

MacLennan -- and this is a week after the 14:44:49
moratorium. You are hearing from Craig MacLennan 14:44:53
that it was the Ministry of Environment that made 14:44:56
the decision to defer offshore wind development? 14:45:00
A. That's what Mr. MacLennan was 14:45:03

saying, yes. 14:45:05

Q. You didn't believe him at that 14:45:07 time? 14:45:08

A. No. 14:45:08

Q. Did you have other reason to — 14:45:09 did you have reason to believe that it was somebody 14:45:11 else calling the shots and not the Ministry of 14:45:14

Environment? 14:45:17

A. I thought it was a political 14:45:18 decision. 14:45:20

Q. But Minister Wilkinson is 14:45:20

a politician? 14:45:23 A. Well, first of all, the 14:45:25

governments were not communicating with us before 14:45:26 that, so there is no direct communication, 14:45:28 meaningful communication, so I was speculating on 14:45:30 what was homeoning. But we had been told through 14:45:33

what was happening. But we had been told through 14:45:33 our government relations person that Canada – or, 14:45:36 sorry, Ontario wanted to advance this as they called 14:45:40

a pilot project, and then they referred to it as 14:45:43

Page 249

an active research project. 14:45:44

Just to be clear, in documents that 14:45:47

I've seen in 2014, pilot project in the 14:45:48
government-speak was for a smaller project, but 14:45:51
there was no discussion, never a discussion of 14:45:54
a smaller project. 14:45:55

What we had heard through our 14:45:57
government relations was that we would be allowed to 14:45:58
proceed for political reasons as a one-shot project. 14:46:00
In other words, we do all the studies that are 14:46:04
required under the renewable energy approvals, all 14:46:06
the studies we've spoken about, we would do them, we 14:46:09
he would pay for them, and the government would gain 14:46:12
experience from them, and based upon that they would 14:46:14
promulgate future regulations. That was the 14:46:17
understanding we had. That's what the position of 14:46:20
the Ministry of the Environment was, as we knew it. 14:46:21

When I was told that the Minister of 14:46:25
Environment killed the project, you can call it 14:46:27
a moratorium, but I'd say it's dead after five 14:46:31
years, that did not make sense to me. It didn't 14:46:33
make sense at all, because we went from being your 14:46:37
pilot, or active research, to being you're in 14:46:41
long-term moratorium with no date, but years, we 14:46:45
were told in the call years. 14:46:48

Page 250

Q. Specifically on the Ministry 14:46:51
involvement – Environment [sic], that's what your 14:46:53
question was, you are saying that it wasn't the 14:46:57
Ministry of the Environment, it was a political 14:46:59
decision, that's – 14:47:01
A. Yes – 14:47:02
Q. – the answer you provided? 14:47:02
A. That's what I thought at the time, 14:47:02
and in 2014 reading FOIs Und it confirmed. The 14:47:03

and in 2014, reading FOIs, I had it confirmed. The 14:47:03
Minister's office, the Premier's office was directly 14:47:07
involved at every step. 14:47:10

Q. Maybe we can cut the feed here to 14:47:12 go to a confidential document then, please. 14:47:14 — CONFIDENTIAL BEGIN 14:47:16 BY MR. NEUFELD: 14:47:16

BY MR. NEUFELD: 14:47:16 Q. If you can flip to Tab 47 at this 14:47:32

point in time in the binder. 14:47:34

A. Yes. This comes from the 14:47:35

A. Yes. This comes from the 14:47:35 Premier's office. 14:47:36

Q. Right. And it is sent on 14:47:37

January 11th, 2011, so a month before the decision. 14:47:38

Are we good? I'm sorry, Exhibit C-0910. It 14:47:43

contains a draft news release by the Premier's Chief 14:47:56

of Staff; do you see that? 14:47:59

[As read] 14:48:24

A. Which kind of flies in the face of 14:48:24
the promises that were made to us on 14:48:26
February 11th that our project would be allowed to 14:48:28
be placed — 14:48:31

Q. But let's focus on – the question 14:48:32 was: Did you think it was Minister Wilkinson at the 14:48:34 time? You said, No, it was a political decision 14:48:37

Page 252 Page 253 1 Minister Gerretsen went to bat for your project and 14:50:29 2 as a result had a serious confrontation with Lack of scientific data was one 14:49:06 14:50:33 3 3 the third after they'd run out of the first two 14:49:09 Mr. Wilkinson, right? Isn't that what that says? 14:50:36 4 4 options. They had no idea what they were doing. 14:49:11 A. I'm not privy to what the Cabinet 14:50:39 5 5 They are casting around for reasons to kill 14:49:14 does, what the Cabinet Ministers talk about. This 14:50:39 6 6 offshore. That became very clear from the 14:49:17 was information provided to us by the Kingston 14:50:43 7 7 documentary evidence. We were an unintended 14:49:18 Group. It was information but it didn't confirm 14:50:46 8 fallout. They promised to make us not whole, but to 14:49:21 8 anything either way to us. 14:50:48 9 9 keep us -- to keep us -- our project intact, and 14:49:23 Q. Didn't it suggest at the time, 14:50:50 10 they failed to do it. But that, to me, was 14:49:27 10 on the day of the deferral or the day after the 11 a political decision --14:49:31 11 deferral, that it was Minister Wilkinson who was the 14:50:53 12 Q. How about I want you to look at 14:49:32 12 one unwilling to see your project proceed? 14:50:55 13 one more document while you are here for you to 14:49:34 13 A. No, it didn't to me at all. I had 14:51:03 14 consider. It is at Tab 40. We can go back to -- 14:49:40 14 spoken to Minister Gerretsen three times, on the 14:51:05 15 this is R-0559, and this is February 12 document, so 14:49:47 15 phone, long, long conversations. I'd known him for 14:51:07 16 16 this is a day after the deferral. And it's Nancy 14:50:03 20 years, so he indicated to me various political 14:51:09 17 17 Baines writing to Chris Benedetti; do you see that? 14:50:05 concerns that were going on inside, but they are not 14:51:13 18 A. Yes. 14:50:09 18 on the record so they are not recorded. But 19 Q. It appears from this email that 14:50:11 19 certainly he did not mention Minister Wilkinson as 14:51:19 20 20 Jeff Garrah. the source of -- and nothing that I see here 14:51:24 14:50:14 21 A. Gerretsen. 14:50:15 21 indicates Minister Wilkinson. 14:51:25 22 22 Q. No, Jeff Garrah, the Kingston 14:50:18 But you asked what was my opinion at 14:51:27 23 23 Economic Development Company, he's the head of that. 14:50:18 the time? I felt it was a political decision, 14:51:32 24 A. Yes, dealing with him. 14:50:18 24 mainly because -- and it's regardless of whether 14:51:33 25 Q. KEDCO. He tells Nancy Baines that 14:50:18 25 Minister Wilkinson was the source or not -- we had 14:51:37 Page 254 Page 255 1 1 been told for over a month that we would proceed as 14:51:40 PRESIDENT: We will go on, Ms. Seers. 15:14:07 2 2 an active research project, and those words came 14:51:43 RE-EXAMINATION BY MS. SEERS: 15:14:11 3 3 from not Craig MacLennan -- who is the other one at 14:51:46 Q. Good afternoon, Mr. Baines. 15:14:14 4 the Ministry of the Environment? I've got 14:51:55 4 A. Good afternoon. 15:14:15 5 a mental -- anyway, it came from the Ministry of 14:51:58 5 Q. You will recall that Mr. Neufeld 15:14:15 6 Energy, one of the two people, Director of Policy, 14:52:01 6 asked you some questions about what MOE was telling 15:14:18 7 said to me it will be proceeding as an active 7 developers in 2009 about the setback that would 15:14:21 8 8 research project, stand by. We were expecting to 14:52:10 apply to offshore wind projects, and you said that 15:14:24 9 9 your understanding that was that the setback would 15:14:31 get a call to confirm. 14:52:13 10 10 On February 11th we discovered, to our 14:52:15 be determined on a site specific basis to meet 15:14:33 11 11 surprise, that it wasn't going to be confirming - 14:52:18 a 40-decibel limit. 15:14:36 12 12 it wasn't confirmed. It was actually a moratorium. 14:52:19 Now I'm going to hand you a document, 15:14:38 13 13 and to the Tribunal, for the record it is C-0791. 15:14:40 Q. Right, okay. Thank you, that's 14:52:38 14 14 all my questions for you today. 14:52:38 MR. TERRY: And what we'll do is we'll 15:14:46 15 PRESIDENT: Thank you, Mr. Neufeld. 14:52:39 15 hand up -- we've got a set of documents and we 16 16 We could have a break now if you want to gather your 14:52:40 thought it would be most efficient just to hand up 15:14:50 17 17 thoughts and come back. I trust the Tribunal would 14:52:42 the bundle altogether. 18 18 also have questions, so it may be better to have 14:52:45 MS. SEERS: I said I was going to hand 15:14:55 19 19 a break. 14:52:48 the document, but of course my colleague Mr. Terry, 15:14:57 20 MS. SEERS: We would be grateful for 14:52:48 20 will hand up the document. 15:15:01 21 21 that, thank you. 14:52:48 MR. TERRY: The junior. 15:15:03 22 22 PRESIDENT: Okay. So we will have now 14:52:48 MS. SEERS: It's a new one for me. 15:15:04 23 23 our afternoon break until 3:10. 14:52:50 15:15:06 He's good at it.

22	get a clear indication as to where they were going. 15:20:34	22	A. Well, this is what I was trying to 15:22:00
23	We were trying to get certainty, and, as I said, 15:20:37	23	explain to Mr. Neufeld when I was saying that 15:22:01
24	I reiterated our need for applicant of record 15:20:40	24	I understood that we needed a description of what 15:22:04

12	Does this help refresh your memory 15:22:58	12	Q. And perhaps you can walk us 15:24:06
13	about the requirements that applied at the time? 15:23:00	13	through it and tell us how you understood the 15:24:09
14	A. Well, I believe this is generic to 15:23:10	14	requirements to apply to your project. 15:24:12
15	all Crown land. It's not specific to offshore wind, 15:23:11	15	A. Well, it says: 15:24:14
16	but obviously it would include offshore wind, 15:23:15	16	"In addition to the requirements 15:24:14
17	because offshore wind was never delineated as being 15:23:18	17	outlined in the renewable energy 15:24:16

If you need 15:28:27 so, and we'll cut the feed, okay. 15:28:29 Now Mr. Neufeld took you to an email 15:28:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	move as quickly as possible 15:26:37 through the remainder of the 15:26:38 application review process." 15:26:39 And, again, he's talking about the 15:26:40 applications that we have made for additional lands: 15:26:42 " in order that you maintain 15:26:45 an applicant of record status in 15:26:46 a timely manner." 15:26:48 [As read] 15:26:49 So I took this to believe that he was 15:26:49 talking about the additional applications we have 15:26:52 made, and he was going to deal with them under the 15:26:54 existing process, and that he would do it in 15:26:56 a timely manner and "in order that you maintain 15:26:58 an applicant of record status in a timely manner." 15:27:01 Q. Now, Mr. Neufeld, took you to the 15:27:05 earlier draft of the letter where you had made some 15:27:08 requests that a timing window be placed in the 15:27:10 letter. What did you understand about the timing, 15:27:14 if anything, about AOR status as a result of this 15:27:20 version, the final version of the letter. 15:27:23	September 20th public consultation period was over, 15:27:36 we would hear, and probably at the 15:27:39 September 22nd meeting, which had been set by the 15:27:40 MNR to discuss the results, we would expect to move 15:27:44 forward with receiving applicant of record. We 15:27:47 couldn't envision a situation where we wouldn't. 15:27:52 Q. Right. Now I'd like to turn your 15:27:56 attention to document C-0911. Now this document, 15:27:59 Mr. Baines, has certain confidentiality designations 15:28:05 on it, so we're not going to pull it up on the 15:28:09 screen. I'm going to take you to a specific portion 15:28:12 of this document. If you need to refer to other 15:28:14 portions of this document, we'll need to cut the 15:28:17 feed, but the portion I'm going to take you to is 15:28:20 not confidential, so just bear with me. If you need 15:28:27 so, and we'll cut the feed, okay. 15:28:29 Now Mr. Neufeld took you to an email 15:28:37 from Premier McGuinty's Chief of Staff, Mr. Chris 15:28:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	move as quickly as possible 15:26:37 through the remainder of the 15:26:38 application review process." 15:26:39 And, again, he's talking about the 15:26:40 applications that we have made for additional lands: 15:26:42 " in order that you maintain 15:26:45 an applicant of record status in 15:26:46 a timely manner." 15:26:48 [As read] 15:26:49 So I took this to believe that he was 15:26:49 talking about the additional applications we have 15:26:52 made, and he was going to deal with them under the 15:26:54 existing process, and that he would do it in 15:26:56 a timely manner and "in order that you maintain 15:26:58 an applicant of record status in a timely manner." 15:27:01 Q. Now, Mr. Neufeld, took you to the 15:27:05 earlier draft of the letter where you had made some 15:27:08 requests that a timing window be placed in the 15:27:10 letter. What did you understand about the timing, 15:27:14 if anything, about AOR status as a result of this 15:27:20 version, the final version of the letter. 15:27:23 A. As I said to Mr. Neufeld, the 15:27:26	September 20th public consultation period was over, 15:27:36 we would hear, and probably at the 15:27:39 September 22nd meeting, which had been set by the 15:27:40 MNR to discuss the results, we would expect to move 15:27:44 forward with receiving applicant of record. We 15:27:47 couldn't envision a situation where we wouldn't. 15:27:52 Q. Right. Now I'd like to turn your 15:27:56 attention to document C-0911. Now this document, 15:27:59 Mr. Baines, has certain confidentiality designations 15:28:05 on it, so we're not going to pull it up on the 15:28:09 screen. I'm going to take you to a specific portion 15:28:12 of this document. If you need to refer to other 15:28:14 portions of this document, we'll need to cut the 15:28:17 feed, but the portion I'm going to take you to is 15:28:20 not confidential, so just bear with me. If you need 15:28:27 so, and we'll cut the feed, okay. 15:28:29 Now Mr. Neufeld took you to an email 15:28:37 from Premier McGuinty's Chief of Staff, Mr. Chris 15:28:40 Morley, in which Mr. Morley discussed the 15:28:46
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	move as quickly as possible 15:26:37 through the remainder of the 15:26:38 application review process." 15:26:39 And, again, he's talking about the 15:26:40 applications that we have made for additional lands: 15:26:42 " in order that you maintain 15:26:45 an applicant of record status in 15:26:46 a timely manner." 15:26:48 [As read] 15:26:49 So I took this to believe that he was 15:26:49 talking about the additional applications we have 15:26:52 made, and he was going to deal with them under the 15:26:54 existing process, and that he would do it in 15:26:56 a timely manner and "in order that you maintain 15:26:58 an applicant of record status in a timely manner." 15:27:01 Q. Now, Mr. Neufeld, took you to the 15:27:05 earlier draft of the letter where you had made some 15:27:08 requests that a timing window be placed in the 15:27:10 letter. What did you understand about the timing, 15:27:14 if anything, about AOR status as a result of this 15:27:20 version, the final version of the letter. 15:27:26 timing window, I was simply repeating the MNR's 15:27:27	September 20th public consultation period was over, 15:27:36 we would hear, and probably at the 15:27:39 September 22nd meeting, which had been set by the 15:27:40 MNR to discuss the results, we would expect to move 15:27:44 forward with receiving applicant of record. We 15:27:47 couldn't envision a situation where we wouldn't. 15:27:52 Q. Right. Now I'd like to turn your 15:27:56 attention to document C-0911. Now this document, 15:27:59 Mr. Baines, has certain confidentiality designations 15:28:05 on it, so we're not going to pull it up on the 15:28:09 screen. I'm going to take you to a specific portion 15:28:12 of this document. If you need to refer to other 15:28:14 portions of this document, we'll need to cut the 15:28:17 feed, but the portion I'm going to take you to is 15:28:20 not confidential, so just bear with me. If you need 15:28:22 to refer to a different portion of the document, say 15:28:27 so, and we'll cut the feed, okay. 15:28:29 Now Mr. Neufeld took you to an email 15:28:40 Morley, in which Mr. Morley discussed the 15:28:46 possibility of a moratorium on offshore wind. 15:28:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	move as quickly as possible 15:26:38 application review process." 15:26:39 And, again, he's talking about the 15:26:40 applications that we have made for additional lands: 15:26:42 " in order that you maintain 15:26:45 an applicant of record status in 15:26:46 a timely manner." 15:26:48 [As read] 15:26:49 So I took this to believe that he was 15:26:49 talking about the additional applications we have 15:26:52 made, and he was going to deal with them under the 15:26:54 existing process, and that he would do it in 15:26:56 a timely manner and "in order that you maintain 15:26:58 an applicant of record status in a timely manner." 15:27:01 Q. Now, Mr. Neufeld, took you to the 15:27:05 earlier draft of the letter where you had made some 15:27:08 requests that a timing window be placed in the 15:27:10 letter. What did you understand about the timing, 15:27:14 if anything, about AOR status as a result of this 15:27:20 version, the final version of the letter. 15:27:23 A. As I said to Mr. Neufeld, the 15:27:26 timing window, I was simply repeating the MNR's 15:27:27 30-day process to handle these things, but our 15:27:30	September 20th public consultation period was over, 15:27:36 we would hear, and probably at the 15:27:39 September 22nd meeting, which had been set by the 15:27:40 MNR to discuss the results, we would expect to move 15:27:44 forward with receiving applicant of record. We 15:27:47 couldn't envision a situation where we wouldn't. 15:27:52 Q. Right. Now I'd like to turn your 15:27:56 attention to document C-0911. Now this document, 15:27:59 Mr. Baines, has certain confidentiality designations 15:28:05 on it, so we're not going to pull it up on the 15:28:09 screen. If you need 15:28:22 to refer to a different portion of the document, say 15:28:27 so, and we'll cut the feed, okay. 15:28:29 Now Mr. Neufeld took you to an email 15:28:40 Morley, in which Mr. Morley discussed the 15:28:46 possibility of a moratorium on offshore wind. 15:28:49 A. Correct. 15:28:51

2	A. That was my understanding, yes. 15:29:08	2	A. Yes. Although I think that email 15:30:09
3	Q. And when did you learn that? 15:29:10	3	has something very important to say as well. 15:30:12
4	A. About May of 2014 when the Freedom 15:29:11	4	Q. All right, let's cut the feed then 15:30:14

21	actually part of the confidential feed. Perhaps we 15:29:58	21	except the Kingston one. Not suck 15:30:58
22	can cut the feed then. 15:30:01	22	and blow. Please turn this around 15:31:00
23	A. Okay, I won't read it out loud. 15:30:02	23	so it kills the projects, not 15:31:02
24	I won't need to. 15:30:04	24	sounds like we're in favour of 15:31:04

It is the 15:31:21 last tab in your binder, I believe. 15:31:36 A. Or perhaps let's see. 15:31:38 Q. So the email that you just read 15:31:40 is 15:31:42 A. Okay, sorry, I read the email up 15:31:46 from the 11th of January 15:31:48 Q. Right. 15:31:51 A at 13:53, and the previous one 15:31:51 was the same day at 2:12. 15:31:54 Q. So the email that Mr. Neufeld took 15:31:57 you to comes after the email from Mr. Morley 15:31:59 saying 15:32:02 A. 1	MR. BISHOP: Mr. Baines, good 15:33:05	Ortech do a wind assessment. We had Ortech do a 15:34:14
2	afternoon. 15:33:06	² feasibility study, a full feasibility, about 15:34:16
3	THE WITNESS: Good afternoon, sir. 15:33:07	3 30 pages, preliminary feasibility. Ortech did two 15:34:20
4	MR. BISHOP: On the one point earlier 15:33:09	financial assessments which were quite detailed, and 15:34:26
5	today, you said that Windstream had done 15:33:10	5 I should say, as background, Ortech does this for 15:34:29
6	an exhaustive analysis and extensive studies on the 15:33:17	6 major international banks. They are known both as 15:34:32
7	various considerations for offshore wind projects. 15:33:21	7 a wind company and they are also known as 15:34:35
8	What studies and analysis and reports were you 15:33:25	8 a financial advisor. 15:34:37
9	referring to? 15:33:29	9 So we did that work. We completed 15:34:39
10	THE WITNESS: Are we talking about the 15:33:33	a complete system impact assessment using the 15:34:42
11	summer of 2010 only? 15:33:34	Independent Electrical Systems Operator, IESO, which 15:34:45
12	MR. BISHOP: I didn't write down 15:33:37	is a requirement to see if you can obtain connection 15:34:53
13	a time period. 15:33:38	to the grid. That's how we knew the size of the 15:34:53
14	THE WITNESS: Mr. Neufeld and I were 15:33:39	project was 300-megawatts. In fact, we did two. 15:34:53
15	talking about the events of 2010 where he said there 15:33:41	The first one was about 273-megawatts, and then 15:34:59
16	were uncertainties. So what had happened was - 15:33:43	based upon that, the IESO indicated to us that they 15:35:02
17	MR. BISHOP: I appreciate the context. 15:33:46	wanted a change of position to the Lennox Generating 15:35:05
18	THE WITNESS: Prior of course we've 15:33:48	Station, where we currently are located, and 15:35:09
19	done a great deal of work since, but prior to 15:33:49	increase the size of the project to 300. The 15:35:10
20	signing the contract, initially I had done a great 15:33:53	benefit to them was it stabilized their grid. So 15:35:13
21	deal of work myself as professional engineer based 15:33:56	we'd done that grid assessment as well. 15:35:16
22	upon all the information I had from Wolfe Island. 15:34:00	Those the third-party reviews. We had 15:35:19
23	I had all the data for ten years of wind, and I had 15:34:03	seven staff inside Windstream, so they were 15:35:20
24	a data sharing agreement with TransAlta, the owner 15:34:05	experienced people. The past president of Invenergy 15:35:24
25	at that time, so we had Helimax, a third-party, and 15:34:09	was my sidekick, if you want, my vice-president. He 15:35:28

And 15:37:19 they looked almost 50 per cent of the actual project 15:37:24 area plus the whole transmission area. 15:37:38 What else did we do? Oh, we did 15:37:35
2 3 4 5 6 7 8 9 10 11 12 13 14 15	and I spent a lot of time talking about calculating 15:35:29 how this thing could be made to work. The 15:35:33 hydrological, the geological assessment I pulled out 15:35:35 all the geo core drilling that we'd done on 15:35:40 Wolfe Island, because we didn't have access of 15:35:44 course to the offshore. We looked at the 15:35:45 hydrographic maps in detail. We consulted 15:35:46 Environment Canada records, Kingston Airport 15:35:49 records. We basically did a good year's work before 15:35:49 we got into this thing. 15:35:55 MR. BISHOP: This question may overlap 15:36:01 with that question. In fact, it may be exactly the 15:36:03 same question in a different form, but between the 15:36:05 time that you signed the contract, the FIT contract 15:36:07	contract actually on the 17th of February. We had 15:36:46 chosen one. We had the scope of work. We were to 15:36:49 issue the purchase order. Page 296 Page 297 1 1 15:38:08 15:39:21 European and American companies in who we later preliminary engineering. 2 2 hired to give us advice. Now they didn't give us 15:38:11 Just to be clear, the 8.8 million was 15:39:22 3 3 formal reports, but as Mr. Roeper will attest, we 15:38:14 for the next year, and it was things that I had - 15:39:24 4 4 had dozens of people in, logistics peoples, critical and things that were nice to do, right, 15:39:27 15:38:16 5 5 foundation people. We were really asking a lot of 15:38:21 depending upon how quickly they wanted to spend. 15:39:30 6 6 15:38:23 Does that answer your question, or did 15:39:35 questions. 7 7 We thought the project was going to go 15:38:24 I miss something? 8 ahead, and we were worried about the timelines, so 15:38:26 8 MR. BISHOP: I think the other part of 15:39:39 9 9 we were going to have to do things in parallel. So 15:38:29 the question is: How much you had spent by 15:39:40 10 10 a lot of these studies were done, but, to be clear, 15:38:32 February 11, 2011? 15:39:43 11 11 they weren't the kind of formal design studies that 15:38:34 THE WITNESS: I've seen a table. 15:39:46 12 12 you do at the next stage. The next \$8 million would 15:38:38 I believe it was somewhere around -- if you include 15:39:48 13 have really pushed all of those forward. We did the 15:38:40 13 the letters of credit, which were \$6 million, 14 preliminary versions. Oh, we put a met tower up to 15:38:43 14 I believe we were something over \$10 million at that 15:39:53 15 15 too, and did an additional wind report -- wind point. Can I -- David Mars is the investors' rep, 15:39:56 15:38:50 16 16 assessment report. he is the financial guy. 17 17 MR. BISHOP: You said the next 15:38:55 MR. BISHOP: Okay, go back for 15:40:16 18 \$8 million. I had I had asked Mr. Ziegler this 15:38:56 18 a moment to the FIT contract. What does the -- what 15:40:17 19 morning, what was the budget to get to the financing 15:39:00 19 is required for you to be able to apply and get 15:40:24 20 20 of the project? Do you know what the budget was or 15:39:06 an FIT contract? That is, what are the OPA's 15:40:29 21 21 how much was spent? Those are probably two 15:39:10 requirements for you? Does it include, among other 15:40:35 22 22 15:39:13 things, showing financial ability, showing 15:40:37 different questions. 23 23 THE WITNESS: The budget, I believe, 15:39:15 background of the people behind the project? What's 15:40:42 24 24 was 25 million to get to NTP, notice to proceed, 15:39:15 required in those respects and other respects? 15:40:46 25 25 which is when you have your approvals and your 15:39:19 THE WITNESS: It was a fairly simple 15:40:50 Page 298 Page 299 1 1 process formally. The first thing you had to do was 15:40:51 say? 15:42:17 2 2 have site control, as they call it; in other words, 15:40:54 THE WITNESS: It was a clone of 15:42:17 3 3 you had to have either applicant of record or that 15:40:56 Wolfe Island. I dealt with the OPA and I dealt with 15:42:18 4 4 was later amended to an accepted application, or not 15:40:59 all the agencies on Wolfe Island. Wolfe Island is 15:42:22 5 5 case of private land, you had to have an option for 15:41:03 also an offshore project. It has the same 6 6 that land. 15:41:05 logistics; barge transport, underwater cable, the 15:42:27 7 7 You had to have transmission 15:41:06 foundations aren't that different, actually the 15:42:32 8 8 availability. You had to have, I believe -- and 15:41:08 turbines are identical, the connections are size - 15:42:35 9 9 I've been through enough of these RFPs that I start 15:41:14 it is a 200-megawatt project, so almost the size - 15:42:38 1.0 10 confusing them, but I believe you had to have 15:41:17 I think the easiest way to say it was that they 15:42:42 11 11 a certain worth. I believe we had to show 15:41:20 accepted that if we took the Wolfe Island project 15:42:46 12 12 and put it in the water, we'd have this offshore 15:42:47 \$150 million on our backer's balance sheet, net 15:41:22 13 13 Wolfe Island shoals. value, but I could be wrong, that could have been 15:41:26 15:42:51 14 a previous, but I believe that was necessary. 15:41:29 14 So was there a formal demonstration, 15:42:53 15 You had to basically be able to 15:41:35 15 a formal notice like reports? No. But there were 15:42:56 16 demonstrate that the project was in advance stage or 15:41:37 16 there discussions with the agencies, ongoing? Yeah. 15:43:00 17 17 shovel-ready, as they called it, so, in other words, 15:41:40 MR. BISHOP: Those are all my 15:43:22 18 it was a real project. And I believe they also 18 questions. 15:43:23 19 required, and I may be -- it's been six years --15:41:47 19 DR. CREMADES: You said to my 15:43:26 20 some proof that the proponents had done this before, 15:41:51 20 colleague that today the cost you have invested in 15:43:27 21 21 they had done a large comparable project before. 15:41:55 the project is around \$10 million? 15:43:32 22 22 MR. BISHOP: Do you recall at this 15:42:08 THE WITNESS: No, I believe that was 15:43:37 to the point of the moratorium. 23 point at least in general terms what kind of 15:42:09 23 15:43:38 DR. CREMADES: How about the situation 15:43:41 24 demonstration that you made to show that the project 15:42:10 24 25 was shovel-ready, that it was a real project, as you 15:42:14 25 now? 15:43:42

	Page 300	Page 301
1	THE WITNESS: About \$20 million. 15:43:44	DR. CREMADES: Not any more? 15:44:29
2	DR. CREMADES: Twenty. 15:43:45	THE WITNESS: I was chairman for three 15:44:31
3	THE WITNESS: Canadian dollars, yeah. 15:43:46	³ years, until 2009. 15:44:32
4	DR. CREMADES: Do you include among 15:43:48	DR. CREMADES: Nine. 15:44:33

6	THE WITNESS: Yes, of course. 15:43:50	6 that. 15:44:35
7	DR. CREMADES: So if you deduct the 15:43:52	7 DR. CREMADES: And what was the 15:44:36
8	letter of credit 15:43:53	8 function? 15:44:36
9	THE WITNESS: About 14 million. 15:43:55	9 THE WITNESS: It's an agency that is 15:44:37
10	DR. CREMADES: Fourteen million. 15:43:56	an umbrella group for all the water power producers 15:44:41
11	That's the actual situation? 15:43:58	in Ontario, public and private. 15:44:44
12	THE WITNESS: Well, sir, the letter of 15:43:59	12 Its members, as I said, produce about 15:44:46
13	credit requires cash. Mr. Ziegler could speak to 15:44:01	a quarter of the province's power, about 15:44:48
14	this better than me, but it requires cash to back it 15:44:04	6,000-megawatts, and it was you could say it's 15:44:53
15	up. You need to have that entire amount held on 15:44:07	partly a lobby group because it is looking to be 15:44:56
16	account 15:44:10	involved in industry regulations. It's also 15:44:59
17	DR. CREMADES: But supposing the 15:44:10	a consultation group that the government twice 15:45:01
18	government gives you back the letter of credit, the 15:44:11	a year once or twice a year would hold in-camera 15:45:04
19	amount is 14 million? 15:44:13	sessions, all-day sessions to talk about new 15:45:09
20	THE WITNESS: It would be, yes. 15:44:14	programs. And it holds an annual conference where 15:45:11
21	DR. CREMADES: It would be. Could you 15:44:16	it brings together suppliers and users. And it's 15:45:15
22	tell us what is the function of Ontario Water Power 15:44:17	at the time I was there, it was used very much 15:45:21
23	Association, you were chairman or you are 15:44:25	heavily by the MNR and the MEI to talk about the 15:45:24

To be more succinct as to why 15:47:17 I answered "no," the moratorium I saw as 15:47:21 a repudiation or cancellation of a large part of the 15:47:24 Green Energy Act, because it put on hold for years 15:47:28 one of the major portions, 20 per cent of all the 15:47:31 wind. 15:47:33 I have served for 20 years 15:47:35 continuously inside government policy advisory 15:47:46 I've served on two boards for six years, and ten 15:47:46

CREMADES: At that time you had 15:45:55 confrontations with the governments, as chairman of 15:45:56 the association, did you have any — well, 15:45:58 confrontations with the government? 15:46:02 THE WITNESS: Never a confrontation. 15:46:04 It was always working with them because they make 15:46:05 the regulations. We are bound to them. They buy 15:46:08 the power. 15:46:12 DR. CREMADES: So at that time, as 15:46:13 chairman of that association, you didn't intervene 15:46:16 in order to introduce this offshore — 15:46:19 THE WITNESS: No, it was never on our 15:46:23 agenda. It was wind power. Wind power has its own 15:46:24 lobbying group. I had to stay within the 15:46:31 boundaries. 15:46:35 DR. CREMADES: Okay. You are talking 15:46:36	politics." 15:46:55 Could you introduce to us what is 15:46:56 really behind these words, because I see that you 15:46:59 refer in our cross-examination about intervention of 15:47:03 Chris Morley? I mean is that the local politician 15:47:09 you are talking about? 15:47:13 THE WITNESS: Chris Morley is in the 15:47:16 Premier's Office. To be more succinct as to why 15:47:17 I answered "no," the moratorium I saw as 15:47:21 a repudiation or cancellation of a large part of the 15:47:24 Green Energy Act, because it put on hold for years 15:47:28 one of the major portions, 20 per cent of all the 15:47:31 wind. 15:47:33 I have served for 20 years 15:47:35 continuously inside government policy advisory 15:47:41 I've served on two boards for six years, and ten 15:47:46 I think I know a little about the 15:47:50

1	allowed to do that much damage to the Green Energy 15:48:01
2	Act without cabinet approval. That would come from 15:48:04
3	the Premier's Office. I believe the Premier's 15:48:06
4	Office is the only office that could authorize the 15:48:09
5	effective cancellation of the largest FIT contract. 15:48:12
6	That is why I said it. But you asked a very 15:48:15
7	specific question, and, I'm sorry, maybe you could 15:48:19
8	repeat it. I'm not I want to make sure 15:48:24
9	I understand it clearly. 15:48:27
10	DR. CREMADES: I want to be very 15:48:28
11	clear. The claimants are the claimants requested 15:48:29
12	in the arbitration proceeding that the government 15:48:34
13	presents to this Tribunal some emails exchanged from 15:48:38
14	the Premier's Office. 15:48:43
15	THE WITNESS: Yes. 15:48:46
16	DR. CREMADES: These emails were not 15:48:47
17	presented. Is that part of the local politics you 15:48:49
18	are talking about? 15:48:54
19	THE WITNESS: Well, it is a known fact 15:48:56
20	that the Premier's Office deleted, apparently 15:48:57
21	illegally, all of I believe 600,000 emails, all of 15:49:00
22	their emails, and there are criminal charges - 15:49:04
23	DR. CREMADES: It is very serious, 15:49:07
24	what you are saying, that illegally? 15:49:09
25	THE WITNESS: Yes, sir, there are 15:49:11

criminal charges against two of the Premier's staff 15:49:12 right now. And the Auditor General has found, 15:49:15

I believe, that the Premier's Office acted outside 15:49:17 of Parliamentary procedure, but that's not something 15:49:19

for me to comment on. 15:49:23

You asked the question: What was the 15:49:26 politics? A provincial election was coming up eight 15:49:28 months ahead, eight months hence. There was 15:49:31 considerable opposition to wind power in general, 15:49:36 large opposition. There was two industry -- two 15:49:40 ridings that -- and the liberals had a minority 15:49:44 government, they were just on the edge. Seven of 15:49:49 their ridings were at risk because of offshore wind, 15:49:51 or at least that was the perception. That's what 15:49:55

was written up in the newspapers at the time. 15:49:57

I'm not a political expert, but this 15:50:00

is what the newspapers were saying. One was here in 15:50:02

Toronto. The Ministry of Energy's riding was in 15:50:05

Scarborough, which is a part of Toronto, and there 15:50:07

was a proposal for an offshore wind. Very large 15:50:09

protest, huge protest. 15:50:13

There was also an area in Lake Erie, 15:50:15
large protest. They calling them swing ridings; 15:50:18
they could be either way. In fact, they lost them 15:50:21

all. They lost all seven of them. So regardless of 15:50:24

Page 306

the decision, they ended up losing. But our 15:50:26 understanding was those swing ridings were at risk, 15:50:29 and by canceling offshore publicly, well, the way 15:50:32 they did it is they cancelled offshore effectively, 15:50:37 but they didn't have to compensate Windstream. They 15:50:39 put us on long-term hold, so rather than dealing 15:50:43 with us as they dealt with two other projects that 15:50:47 were put in a moratorium, we were just put in the 15:50:49 sidelines. But they cancelled the offshore very 15:50:52 publicly, I believe in an attempt to mollify public 15:50:55 concerns and win the election. I'm sorry about the 15:51:00 long answer. 15:51:04

DR. CREMADES: Thank you, and sorry 15:51:06 for putting to you such a difficult and 15:51:07 uncomfortable questions. Thank you. 15:51:09

THE WITNESS: They are good questions, 15:51:16 sir. 15:51:17

PRESIDENT: A few more, and these are 15:51:18

more about engineering. I understand, and you 15:51:19 explain in your witness statement that you were 15:51:23 previously involved in an onshore wind project, and 15:51:26 actually in an area very close by? 15:51:29

THE WITNESS: I was involved in two 15:51:32
on-shore projects, one of which was adjacent, five 15:51:33
kilometres away, yes. 15:51:37

Page 307

PRESIDENT: Right. Now from a purely 15:51:38 engineering perspective, let's forget about regulations and guidelines and rules, purely from 15:51:42 an engineering perspective, what are, in your view, 15:51:44 the main differences between an onshore wind project 15:51:48 of a similar size, let's say 2 -- 300 megawatt, and 15:51:52 an offshore project, generally in this area? 15:51:57

THE WITNESS: The commonalities are 15:52:03 they both use underwater cables, which is actually 15:52:04 a benefit, because it allows you to connect to 15:52:07 a strong part of the grid. There is a backbone that 15:52:09 runs from Toronto to Ottawa that connects right into 15:52:12 there at an existing generating station where we had 15:52:18 a 300-megawatts' capacity, so we went right into the 15:52:19 grid positive. 15:52:22

The other benefit of offshore is that 15:52:23
you have steady winds. This is why they are 15:52:25
building -- over 10,000-megawatts is built in Europe 15:52:28
right now, because the winds, there is no 15:52:31
turbulence, it is steady, it's fast, the wind speeds 15:52:33
off Wolfe Island are about 30 per cent higher than 15:52:36
on Wolfe Island. So less wear and tear on the 15:52:41
turbines, higher output, and very, very predictable, 15:52:44
because the winds over the water are extremely 15:52:47
predictable and extremely reliable. They only vary 15:52:50

15:52:58 The commonality is you have water transport. The Wolfe Island we brought the turbines 15:52:59 to the Port of Ogdensburg from Germany, they are 15:53:03 from Siemens, transshipped them onto barges, took 15:53:03 them to Wolfe Island onto a dock, and then installed 15:53:07 them. Of course an offshore, the barge continues 15:53:09 all the way instead of dropping it off. And the 15:53:13 differences in the gravity foundations, gravity-based foundations are used everywhere. They 15:53:19 are commonly used for bridges. 15:53:21

In fact, the Wolfe Island foundations 15:53:23 on Wolfe Island are gravity-based foundations. They 15:53:25 look like a mushroom upside down. When you build 15:53:30 them offshore, you make the neck of the mushroom 15:53:34 taller because of the depth of the water, and you 15:53:36 make it broader and you make it hollow. Hollow, 15:53:37 because you want to float it out, so we were going 15:53:41 to manufacture these onshore. Whereas on 15:53:43 Wolfe Island we had concrete trucks that would pour 15:53:46 the concrete in the foundation with a steel plate 15:53:47 and then we put the steel tower. 15:53:50

Above the foundation, it is identical, 15:53:54 identical, same turbine, same tower, same 15:53:56 Page 309

everything. The only difference is we were going to 15:53:58 build 130 of these floating foundations, we'd put 15:54:02 a collar, steel pontoons around them so they could 15:54:06 be winched down using cables, so we could build them 15:54:11 at an existing. There are three cement plants on the 15:54:17 shores of Lake Ontario, big cement plants, they'd 15:54:19 been previous customers of mine, so I knew the sites 15:54:23 pretty well. Quarries, aggregate cement, everything 15:54:25 you needed, and a lot of space to build these things. You'd pull them out by a tug, prepare the 15:54:31 bottom, and you do the same thing onshore, you put 15:54:35 down a gravel base. You let them drop down and you 15:54:37 fill them with sand. From then on it is the exact 15:54:41 same. So your question is the similarities, underwater cable, logistics is similar, you are away 15:54:45 from people so you don't have the NIMBY, the people 15:54:52 worrying about not in my backyard, and you are not 15:54:55 worried about construction noise. 15:55:00

The differences, you are working in 15:55:03 the water, exactly the same as a water power plant, 15:55:04 so you do silt control. You want to make sure you 15:55:08 don't suspend silt and allow it to go too far. You 15:55:11 can build these one after the other, there is no 15:55:16 time delay. And the crane sits on a barge instead 15:55:18 of being on the land. But above the water, it's 15:55:22

Page 310

an identical project. 15:55:26

PRESIDENT: So the main challenges are 15:55:28 15:55:29

4 THE WITNESS: Almost entirely 15:55:30 5

15:55:31 logistics, sir.

PRESIDENT: Now these differences, how 15:55:33 would they translate to costs? How much more 15:55:35 expensive would it be to build a similarly-sized 15:55:39 offshore project as opposed to an onshore? 15:55:44

THE WITNESS: In the early days the 15:55:47 rule of thumb was two to one. So if it would cost 15:55:48 \$2 million per megawatt onshore, which is about what 15:55:52 Wolfe Island would cost. Wolfe Island cost 15:55:56 \$470 million for 200-megawatts. Offshore would cost 15:55:58

double that. 15:56:02

What has happened though, since there 15:56:03 has been so much European and Chinese expansion, the 15:56:05 Europeans have been building offshore projects at 15:56:08 a tremendous rate, and so the cost for the machinery 15:56:11 has come down. What's different though about our 15:56:13 project is in Europe they drive the piling, it is 15:56:16 a steel mono pile. They drive it 30-metres into the 15:56:19 North Sea bed, or the Baltic, because it is muck, 15:56:22 it's just soft sediment. Whereas here we have 15:56:26 a rocky base, so we can't do that, so that's why 15:56:28

Page 311 we're putting a big gravity foundation and floating 15:56:31

and sitting on it. So we don't need the European 15:56:35 custom ships. Those ships go out and they take a pylon that is about 80 metres tall and just knock 15:56:40 it down into the muck 30 metres, you know, it takes 15:56:44 a whole day to do that and it takes a ship that costs 300,000 -- \$400,000 a day to do, and there is 15:56:50 only seven of those ships in the world. 15:56:54

What we are proposing is something 15:56:56 that was all made in Lake Ontario. There is so much 15:56:57 extensive marine infrastructure already existing 15:57:00 here. We could use existing facilities to build it, 15:57:04 same barges, and of course we have a much better 15:57:09 weather window. We don't have the major storms. 15:57:11

We have 6-meter waves maximum, not 15:57:14 30-metre waves which they get in the North Sea. And 15:57:16 we also don't have historic artifacts. I mean in 15:57:20 the North Sea there is all sorts of cables and 15:57:23 pipelines, and we don't have those here. 15:57:26

PRESIDENT: Okay, then operationally, 15:57:28 once the project is up and running --15:57:31

THE WITNESS: Uh-hmm. 15:57:34

PRESIDENT: -- are there any major or 15:57:34 significant operational differences between running 15:57:38

an onshore facility as opposed to an offshore 15:57:41

	Page 312	Page 313
1	facility? 15:57:44	obviously, as we've heard previously, noise is the 15:58:54
2	THE WITNESS: Well, the onshore 15:57:45	concern for the distance. So the Ministry of the 15:58:58
3	facility, the maintenance is usually done in the 15:57:46	3 Environment has an onshore propagation model. You 15:59:04
4	area. On Wolfe Island we built a maintenance 15:57:48	don't have to actually measure the noise, you have 15:59:10
5	building right there. 15:57:51	to do a propagation model, and the Ministry was 15:59:11
6	Of course, you need a boat to go 15:57:52	6 concerned that it wouldn't work over the water. So 15:59:16
7	offshore, so what happens is you are using boat 15:57:54	one of the things they wanted to do was to study 15:59:19
8	transport. But there is, in the worst case, worst 15:57:57	8 whether their onshore noise would work, and so they 15:59:21
9	case, three months of ice when it's harder to get 15:58:01	9 held a couple of workshops, and the companies that 15:59:23
10	access. Now there are five ferries in the area, so 15:58:03	we hired actually went to those workshops. I don't 15:59:27
11	breaking ice with a ferry is common. You can go out 15:58:07	believe that they finished their actual studies. 15:59:30
12	there with a boat that is hardened against ice. Or 15:58:10	But what we did was we first of all hired a company 15:59:31
13	if you have a major failure, you may have to do 15:58:14	called HGC Engineers, who were approved by the 15:59:34
14	a helicopter, but that is your major risk that you 15:58:18	14 Ministry of the Environment for REA studies, and 15:59:38
15	lose a turbine during the ice season. And of course 15:58:21	they determined that the onshore model could work, 15:59:40
16	you need custom boats that will transport the men 15:58:24	but they looked at the European experience and came 15:59:42
17	and materials out there, so it costs a bit more. 15:58:28	up with a Swedish model which is standard and said 15:59:44
18	PRESIDENT: Okay, then the final 15:58:30	based upon our layout and either the European model 15:59:47
19	question on this subject, which comes close to the 15:58:31	or, sorry, the Swedish model or the Ontario model, 15:59:50
20	regulatory issues, the propagation of noise or sound 15:58:35	both would be well within the actual guidelines. 15:59:54
21	in an offshore environment. It will propagate more 15:58:39	Well, that wasn't good enough for us. 15:59:57
22	easily, right, than in an onshore environment. How 15:58:44	We were doing workarounds, because you have to 15:59:58
23	do you see that? 15:58:48	understand the moratorium in my mind could end 16:00:01
24	THE WITNESS: Well, it's a good 15:58:50	tomorrow. I mean I realize that that may not be 16:00:04
25	question, and one that concerned us, because 15:58:51	practical, but it is a two-way thing, and I have to 16:00:07
	D 214	D 215

2	be able to move this project forward on short 16:00:10 notice, so I can't stop the engineering, so I can't, 16:00:12 you know, just hope that the noise issue will 16:00:15	have any setback rules in Sweden? 16:01:19 THE WITNESS: No. I believe it's 16:01:22 entirely done with noise, with the Swedish model. 16:01:24
2 3 4	be able to move this project forward on short 16:00:10 notice, so I can't stop the engineering, so I can't, 16:00:12 you know, just hope that the noise issue will 16:00:15 resolve itself. So what we did was we actually 16:00:17	have any setback rules in Sweden? 16:01:19 THE WITNESS: No. I believe it's 16:01:22 entirely done with noise, with the Swedish model. 16:01:24 PRESIDENT: Now on another subject, 16:01:28
2 3 4 5	be able to move this project forward on short 16:00:10 notice, so I can't stop the engineering, so I can't, 16:00:12 you know, just hope that the noise issue will 16:00:15 resolve itself. So what we did was we actually put we have an 80-metre tower in the actual 16:00:20	have any setback rules in Sweden? 16:01:19 THE WITNESS: No. I believe it's 16:01:22 entirely done with noise, with the Swedish model. 16:01:24 PRESIDENT: Now on another subject, 16:01:28 you described how after or during the period leading 16:01:30

So what we did was we actually put we have an 80-metre tower in the actual 16:00:20 project area, we put 300-watt speakers on it, and 16:00:24	have any setback rules in Sweden? 16:01:19 THE WITNESS: No. I believe it's 16:01:22 entirely done with noise, with the Swedish model. 16:01:24 PRESIDENT: Now on another subject, 16:01:28 you described how after or during the period leading 16:01:30 up to the moratorium, there was discussion about two 16:01:33
2 3 4 5 6 7	be able to move this project forward on short 16:00:10 notice, so I can't stop the engineering, so I can't, 16:00:12 you know, just hope that the noise issue will 16:00:15 resolve itself. 2	a power producing project 16:02:29	2	turbines? 16:03:35
3	THE WITNESS: Yes. 16:02:33	3	THE WITNESS: No, that was never 16:03:35
4	PRESIDENT: and on the other hand, 16:02:33	4	discussed, and I didn't really think that was 16:03:36
5	a project that would be what you call an active 16:02:34	5	practical, had it been discussed. 16:03:38
6	research project 16:02:37	6	PRESIDENT: Did you make any 16:03:40
7	THE WITNESS: Yeah. 16:02:38	7	calculations as to what would have been the sort of 16:03:41
8	PRESIDENT: which I understand 16:02:39	8	a breakeven point in terms of the number of turbines 16:03:43
9	would be a project for purposes of doing the 16:02:39	9	that you would have had to have for this project to 16:03:47
10	research required for the regulations, but you are 16:02:42	10	be economically feasible? 16:03:50
11	saying that this was one in the same thing? 16:02:45	11	THE WITNESS: I never have, because 16:03:53
12	THE WITNESS: Yes, I didn't explain 16:02:48	12	until 2014, when I read the internal government 16:03:55
13	myself very well, I'm sorry. Active research 16:02:49	13	emails, it really never crossed our mind. The 16:03:58
14	project was the word given to us by the government. 16:02:51	14	Wolfe Island project is financially viable because 16:04:03
15	That's what they wanted to call it. They wanted to 16:02:54	15	it's 200-megawatts and the cost of the offshore 16:04:05
16	announce to the public this was an active research 16:02:56	16	wind, the cost of the underwater cable is justified 16:04:08
17	project. So, in other words, we would do all the 16:02:59	17	by a large project. 16:04:11
18	studies, get our environmental approvals, build the 16:03:02	18	Offshore at 300-megawatts, again, the 16:04:13
19	project and operate it, and then based upon the 16:03:07	19	cabling underwater is fairly expensive, so I've 16:04:15
20	science that came out of that, they could then 16:03:10	20	never done an assessment of how small it could go. 16:04:19
21 22	promulgate new regulations, if necessary. 16:03:14	21 22	PRESIDENT: Okay, thank you very much. 16:04:23 Yes. 16:04:26
23	PRESIDENT: Okay, I understand. Was 16:03:17 there any discussion, informal or otherwise, at the 16:03:18	23	Yes. 16:04:26 MR. BISHOP: I have just two other 16:04:27
24	time about implementing the project as a pilot 16:03:21	24	quick questions. If you turn to Tab 40 in your 16:04:29

6	Q. And there is nothing in there, is 16:07:59	6	Q. Mr. Baines, Dr. Heiskanen asked 16:09:16
7	there, that you have to demonstrate shovel-readiness 16:08:00	7	you about the difference in costs between building 16:09:20
8	or advanced stage of development, as you suggested, 16:08:03	8	an offshore wind project and an onshore wind 16:09:23
9	is there? 16:08:08	9	project. How were those differences accounted for 16:09:26
10	A. I'd have to review it again. 16:08:09	10	within the FIT program? 16:09:29
11	Please remember that I saw a draft versions of this 16:08:10	11	A. In the price. Onshore projects 16:09:31
12	several times, and it is quite possible that my 16:08:13	12	receive \$135 a megawatt hour and offshore is \$190. 16:09:36
13	memory is tempered by that. 16:08:15	13	The OPA did a calculation, as 16:09:40
14	Q. Okay. 16:08:18	14	I understand it, and these were in public documents, 16:09:42
15	A. That that may have been taken out. 16:08:18	15	that they determined what the appropriate cost 16:09:45
16	You could receive priority if you had 16:08:29	16	should be, what the appropriate power cost would be, 16:09:49
17	a project that was willing to advance itself. 16:08:31	17	based upon a number of assumptions. The price was 16:09:52
18	Q. Right. Did Windstream apply for 16:08:33	18	provided to us. We didn't have any say in it. 16:09:57
19	any of those 16:08:35	19	Q. Okay. And if you will turn back 16:10:00
20	A. No, that was not mandatory. 16:08:36	20	to Tab 40 of the binder, which is the document 16:10:03
21	Q. Okay. And you're suggesting that 16:08:39	21	Mr. Bishop just asked you about, that forwards 16:10:09
22	there was a draft that contained shovel-readiness 16:08:44	22	a press release called "Ontario scraps offshore wind 16:10:12
23	criteria in it before? 16:08:48	23	power plans" dated February 11, 2011, I don't have 16:10:15
24	A. I believe so, but I could be 16:08:49	24	the exhibit number for the record but let me find 16:10:21
25	confusing it from previous RFPs. I've participated 16:08:51	25	it. R-0559. 16:10:24

And can you just confirm again 16:24:54 when it was that you completed your term as 16:24:55 Minister? 16:24:59 A. I resigned as Minister in November 16:24:59 of 2009 for the ill-fated pursuit of being mayor of 16:25:01 Toronto. That did not go well. 16:25:08 Q. And, Mr. Smitherman, and I ask 16:25:09 this just because the question has come up from the 16:25:11 Tribunal, and otherwise, could you explain in the 16:25:14 legislative system that we have here in Ontario, 16:25:21 A. Well, we have the British 16:25:24 Parliamentary system here in Ontario. The Ontario 16:25:25 Legislature is the sole legislative body. That 16:25:28	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	of caucus. So it is fair to say that the Premier 16:25:50 was the penultimate power on all matters. 16:25:52 Q. In terms of the Premier's Office, 16:26:02 how was it organized? 16:26:03 A. The Premier's Office consisted of 16:26:05 about 60 staff, but of those, a few, a very few, 16:26:07 especially say the Chief of Staff and the principle 16:26:10 secretary could speak with the Premier's voice, so 16:26:11 that if a Cabinet Minister received communication 16:26:13 from those two, or perhaps a few others, it was 16:26:17 taken as if that was from the word of the Premier. 16:26:19 Q. Well, we have the British 16:25:24 Parliamentary system here in Ontario. The Ontario 16:25:25 Legislature is the sole legislative body. That 16:25:28 model is known I think for the lack of clear 16:25:32	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	of caucus. 	Page 328		Page 329
1	Q and ask to rephrase it. It is 16:27:00	1	Q. And during that one or two months 16:27:55
2	also important that you answer my questions. So in 16:27:03	2	you said you were running for the mayor of Toronto? 16:27:56
3	that sense, if you answer my question as a "yes" or 16:27:05	3	A. No, I left at that point in 16:27:59
4	"no" please answer it that way. Sometimes all I'm 16:27:08	4	January of 2010 to pursue, for almost the entirety 16:28:00
5	asking is for you to confirm a date or that 16:27:10	5	of 2010, that office. 16:28:03
6	a document says something, and then we'll get to 16:27:12	6	Q. And you started as 16:28:05
7	more substantive questions later. Of course if you 16:27:14	7	a Minister of Energy and Infrastructure on June 20, 16:28:06
8	need to add context, I'll let you do so, if it's 16:27:16	8	2008; is that right? 16:28:11
9	necessary. We do have limited time though, and so 16:27:21	9	A. That's right. 16:28:13
10	I'd appreciate very much if you could try to stay on 16:27:23	10	Q. Okay, we're still, even though it 16:28:13
11	point and on topic today, agreed? 16:27:26	11	may not seem like it to everybody here, we are 16:28:16
12	A. Agreed. 16:27:29	12	relatively early in the hearing, so let's get some 16:28:18
13	Q. You just gave a little bit of your 16:27:29	13	context around dates for you. The Green Energy and 16:28:21
14	background here, so one thing I wanted to just come 16:27:32	14	Green Economy Act, that receives royal assent on 16:28:25
15	back and clarify, one specificity. So you said you 16:27:34	15 16	May 14, 2009, right? 16:28:27
16	resigned as the Minister of Energy in November of 16:27:38	17	A. Yes. 16:28:29
17 18	2009, correct? 16:27:41	18	Q. And pursuant to that, pursuant to 16:28:30
19	A. Yes, sir. 16:27:42 O. That was November 9th, 2009, 16:27:43	19	the authority granted to you by the amendments that 16:28:30 act made to the Electricity Act, you directed the 16:28:33
20	Q. That was November 9th, 2009, 16:27:43 correct? 16:27:44	20	Ontario Power Authority to establish a feed-in 16:28:38
21	A. I believe so. 16:27:46	21	tariff program on September 24, 2009; is that right? 16:28:39
22	Q. You say that in your witness 16:27:46	22	A. That is correct, but I think it is 16:28:45
23	statement. Are you familiar 16:27:47	23	important to note that the Minister of Energy had 16:28:47
24	A. Yes. And I stayed in the 16:27:50	24	those directive powers. They weren't merely 16:28:49
25	legislature for just one or two months longer. 16:27:52	25	a creation of the Green Energy and Green Economy 16:28:50
	Page 330		Page 331
1	Act. The directive powers existed prior to that 16:28:54	1	A. Yes. 16:29:44
2	also. 16:28:57	2	Q. Thank you. And in that launch 16:29:45
3	Q. Right. But specifically for the 16:28:58	3	period, the OPA is receiving applications, it is not 16:29:47
4	FIT program, that comes in through the Green Energy 16:28:58	4 5	actually processing those applications yet; are you 16:29:51
5	and Green Economy Act? Sorry, you have to answer 16:29:01	6	aware of that? 16:29:53 A. I couldn't take your I couldn't 16:29:55
6 7	"yes" or "no" for the transcript. 16:29:05	7	take your interpretation I couldn't take your 16:29:57
8	A. No, I think that the powers, the 16:29:06 directive powers may have been restated in the Green 16:29:08	8	interpretation just as you've offered it, so, no, 16:29:59
9	Energy and Green Economy Act, but I believe that 16:29:11	9	I'm not sure exactly what you mean by that. 16:30:02
10	even if I had not implemented that piece of 16:29:15	10	Q. I guess my question is: Was the 16:30:06
11	legislation, as Minister of Energy, I had the 16:29:19	11	OPA actually putting through FIT applications in 16:30:08
12	directive power to initiate programs such as that. 16:29:20	12	that point as far as you're aware or were they 16:30:12
13	Q. Okay, but it was restated in the 16:29:23	13	actually just receiving those applications and would 16:30:14
14	Green Energy Act? 16:29:26	14	be processing them and assessing them later? 16:30:17
15	A. Yes. 16:29:26	15	A. Well, they weren't receiving them 16:30:20
16	Q. Now the OPA opens up the 16:29:27	16	to sit on them, so I believe that the processing 16:30:21
17	application period for the FIT program on 16:29:29	17	would have been initiated immediately. And in this 16:30:24
18	October 1st, 2009; is that right? 16:29:31	18	process versus the RESOP process, which as 16:30:26
19	A. Yes. 16:29:33	19	a previous model, we had sought to try to eliminate 16:30:29
20	Q. And when they open it up, they do 16:29:33	20	the queuing, and that is by attaching a grid 16:30:32
21	a 60-day launch period window; are you aware of 16:29:35	21 22	connectivity to FIT contract applications. We 16:30:37
22	that? 16:29:39	23	worked very hard to try and ensure that those that 16:30:40 were eventually to be contracted already had 16:30:42
23	A. Yes. 16:29:39	24	connection points. 16:30:42
24	Q. So that launch window expires on 16:29:39	25	So I think that this was different, 16:30:46
25	December the 1st, 2009, correct? 16:29:41		20 2 danie das das datoron, 10,0000

1	and we were trying to eliminate the pooling or 16:30:47	1	left the government, but I had been substantially 16:31:47
2	queuing effect of a whole bunch of people lining up 16:30:50	2	involved obviously in the development of the FIT 16:31:49
3	for something and oversubscribing it. So I do 16:30:52	3	model, the Green Energy Act and worked closely with 16:31:53
4	believe that as those applications came in, the 16:30:56	4	the Ontario Power Authority from the fall of 2008 16:31:55
5	Ontario Power Authority initiated the processing of 16:30:59	5	right through to the implementation of the program 16:31:59
6	them. 16:31:03	6	in the fall of 2009. 16:32:01
7	Q. So you believe now you weren't 16:31:04	7	Q. Right. And then you left your 16:32:03
8	involved in the day-to-day activities in the Ontario 16:31:05	8	position in November of 2009? 16:32:04
9	Power Authority; is that correct? 16:31:08	9	A. Yes, yes. 16:32:05
10	A. Day-to-day activities, no. 16:31:09	10	Q. So you left before Windstream also 16:32:07
11	Q. Now, Windstream I'm not sure if 16:31:12	11	applied to the FIT program, correct? 16:32:09
12	you're aware, are you aware that Windstream applies 16:31:15	12	A. Yes 16:32:11
13	for the FIT program on November 27th, 2009? 16:31:19	13	Q. You left November 27th 16:32:12
14	A. No, but that seems no, but 16:31:22	14	A. I should clarify for the panel 16:32:15
15	that's not surprising. 16:31:23	15	though that as a Minister I wouldn't have ever been 16:32:16
16	Q. Now the first round of FIT 16:31:24	16	involved in the direct selection of any applicant. 16:32:18
17	contracts is offered in April of 2010, right? 16:31:26	17	Q. And that's because that was up for 16:32:21
18	A. Yes. 16:31:28	18	the OPA to apply the FIT Rules and pursuant to those 16:32:24
19	Q. Or announced the offers anyways. 16:31:28	19	rules to determine which applicants were 16:32:26
20	So that I understand, you were the 16:31:31	20	A. Yes, as Minister, I had the 16:32:29
21	Minister for the launch of the FIT program, but you 16:31:34	21	directive powers to ask them to direct them to 16:32:30
22	had left that position and, in fact, left government 16:31:38	22	develop a program, but as a political Minister was 16:32:34
23	before a single before a single offer of contract 16:31:41	23	not involved in the assessment of individual 16:32:38
24	was made, correct? 16:31:44	24	applications or in decisions around who would be 16:32:40
25	A. I think from the yes, I had 16:31:45	25	awarded a contract. 16:32:42

So the timing is when you say that you 16:34:23
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. In the context of the 16:32:54 Feed-in-Tariff or 16:32:55 Q. Yes. 16:32:57 A. Yes. 16:32:57 Q. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:07 saying that, your testimony is then limited to the 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. I'm not sure I got an answer to my 16:33:49 exact question. Sorry, but that testimony is 16:33:51 obviously limited up until you left government. So 16:33:54 you're talking solely about prior to November of 16:33:56 2009, correct? 16:33:59 A. It was a comment about program — 16:34:00 it was a comment about program design. I'm not sure 16:34:01 the — I'm not sure the — I've already — I've 16:34:04 already answered your question to say that I wasn't 16:34:07 involved in the issuance of any contracts. I can 16:34:09 repeat — I can repeat that. 16:34:12 Q. I guess I'm trying to understand 16:34:15 the context of your statement, your witness 16:34:16 statement, and I'm just trying to get the timing 16:34:19 down, because you didn't have timing in your witness 16:34:21 statement. So the timing is when you say that you 16:34:23 are saying, while I was the Minister of Energy and 16:34:25
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:07 saying that, your testimony is then limited to the 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21 my witness statement was to say that during that 16:33:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. I'm not sure I got an answer to my 16:33:49 exact question. Sorry, but that testimony is 16:33:51 obviously limited up until you left government. So 16:33:54 you're talking solely about prior to November of 16:33:56 2009, correct? 16:33:59 A. It was a comment about program — 16:34:00 it was a comment about program design. I'm not sure 16:34:01 the — I'm not sure the — I've already — I've 16:34:04 already answered your question to say that I wasn't 16:34:07 involved in the issuance of any contracts. I can 16:34:09 repeat — I can repeat that. 16:34:12 Q. I guess I'm trying to understand 16:34:15 the context of your statement, your witness 16:34:16 statement, and I'm just trying to get the timing 16:34:19 down, because you didn't have timing in your witness 16:34:21 statement. So the timing is when you say that you 16:34:23 are saying, while I was the Minister of Energy and 16:34:25 Infrastructure 2008 to November of 2009, I didn't 16:34:31
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. In the context of the 16:32:54 Feed-in-Tariff or - 16:32:55 Q. Yes. 16:32:57 A. Yes. 16:32:57 Q. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21 my witness statement was to say that during that 16:33:25 very lengthy process where all government Ministers 16:33:27	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. So 16:33:54 you're talking solely about prior to November of 16:33:56 2009, correct? 16:33:59 A. It was a comment about program — 16:34:00 it was a comment about program design. I'm not sure 16:34:01 the — I'm not sure the — I've already — I've 16:34:04 already answered your question to say that I wasn't 16:34:07 involved in the issuance of any contracts. I can 16:34:09 repeat — I can repeat that. 16:34:12 Q. I guess I'm trying to understand 16:34:15 the context of your statement, your witness 16:34:16 statement, and I'm just trying to get the timing 16:34:19 down, because you didn't have timing in your witness 16:34:21 statement. So the timing is when you say that you 16:34:23 are saying, while I was the Minister of Energy and 16:34:31 have any feedback of any concern. That's the timing 16:34:35
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. In the context of the 16:32:54 Feed-in-Tariff or - 16:32:55 Q. Yes. 16:32:57 A. Yes. 16:32:57 Q. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:07 saying that, your testimony is then limited to the 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21 my witness statement was to say that during that 16:33:25 very lengthy process where all government Ministers 16:33:27 and all government Ministries were very aware of 16:33:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. I'm not sure I got an answer to my 16:33:49 exact question. Sorry, but that testimony is 16:33:51 obviously limited up until you left government. So 16:33:54 you're talking solely about prior to November of 16:33:56 2009, correct? 16:33:59 A. It was a comment about program — 16:34:00 it was a comment about program design. I'm not sure 16:34:01 the — I'm not sure the — I've already — I've 16:34:04 already answered your question to say that I wasn't 16:34:07 involved in the issuance of any contracts. I can 16:34:09 repeat — I can repeat that. 16:34:12 Q. I guess I'm trying to understand 16:34:15 the context of your statement, your witness 16:34:16 statement, and I'm just trying to get the timing 16:34:19 down, because you didn't have timing in your witness 16:34:21 statement. So the timing is when you say that you 16:34:23 are saying, while I was the Minister of Energy and 16:34:31 have any feedback of any concern. That's the timing 16:34:35 of your statement? 16:34:37
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. In the context of the 16:32:54 Feed-in-Tariff or 16:32:55 Q. Yes. 16:32:57 A. Yes. 16:32:57 Q. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21 my witness statement was to say that during that 16:33:25 very lengthy process where all government Ministers 16:33:30 what MEI, my Ministry, was up to, at no time 16:33:34	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. I'm not sure I got an answer to my 16:33:49 exact question. Sorry, but that testimony is 16:33:51 obviously limited up until you left government. So 16:33:54 you're talking solely about prior to November of 16:33:56 2009, correct? 16:33:59 A. It was a comment about program — 16:34:00 it was a comment about program design. I'm not sure 16:34:01 the — I'm not sure the — I've already — I've 16:34:04 already answered your question to say that I wasn't 16:34:07 involved in the issuance of any contracts. I can 16:34:09 repeat — I can repeat that. 16:34:12 Q. I guess I'm trying to understand 16:34:15 the context of your statement, your witness 16:34:16 statement, and I'm just trying to get the timing 16:34:19 down, because you didn't have timing in your witness 16:34:21 statement. So the timing is when you say that you 16:34:23 are saying, while I was the Minister of Energy and 16:34:25 Infrastructure 2008 to November of 2009, I didn't 16:34:31 have any feedback of any concern. That's the timing 16:34:35 of your statement? 16:34:37 A. Yes. And this is in response to 16:34:38
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. In the context of the 16:32:54 Feed-in-Tariff or 16:32:55 Q. Yes. 16:32:57 A. Yes. 16:32:57 Q. So then I want to understand 16:32:58 a statement that you made in your witness statement. 16:32:59 You testified in your statement that no one 16:33:02 discussed with you any concerns with the readiness 16:33:04 of Ontario to process offshore wind projects, but in 16:33:07 saying that, your testimony is then limited to the 16:33:10 time when you were Minister prior to November 2009, 16:33:12 correct? 16:33:15 A. The roll-out of the Green Energy 16:33:15 and Green Economy Act was lengthy and my comment in 16:33:21 my witness statement was to say that during that 16:33:25 very lengthy process where all government Ministers 16:33:30 what MEI, my Ministry, was up to, at no time 16:33:34 whatsoever did colleagues of mine, formally or 16:33:38	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. I'm not sure I got an answer to my 16:33:49 exact question. Sorry, but that testimony is 16:33:51 obviously limited up until you left government. That's the timing 16:34:35 of your statement? 16:34:37 A. Yes. And this is in response to 16:34:38 some of the witness statements that had been 16:34:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. Okay. Now you also left the 16:32:43 government before a single renewable energy approval 16:32:49 was ever granted, correct? 16:32:52 A. 4	said, and then you left government entirely is that 16:35:00	4	Do you see that? 16:35:54
5	right? 16:35:02	5	A. Yes. 16:35:55
6	A. That's right. 16:35:03	6	Q. And at the bottom you see that 16:35:55
7	Q. So by February 11th, 2011, the 16:35:03	7	there are quotes from three Ministers, Mr. 16:35:57
8	date of the measure that's in question in this 16:35:06	8	Wilkinson, Ministry of Environment, Minister Duguid, 16:36:00
9	arbitration, you'd been completely out of the 16:35:08	9	Minister of Energy, and Minister Jeffrey, Minister 16:36:06
10	Ontario Government for over a year, correct? 16:35:11	10	of Natural Resources, correct? 16:36:09

So, and to be clear, 16:36:42 you obviously had no involvement in the issuance of 16:36:44 this decision, you had left government a long time 16:36:47 before, correct? 16:36:50 A. Yes, sir. 16:36:51 Q. Now I want to come back to your 16:36:53 witness statement where you talk about the certainty 16:36:55 that you hoped created through the adoption of the 16:36:58 GEGA just to clarify what you meant, and I want to 16:37:02 look at paragraph 18 of your statement, which you 16:37:05 quote from a speech — 16:37:14 A. Just a second, let me get there. 16:37:15 Q. Sure. 16:37:20 Q. Okay. You quote from a speech 16:37:20 here that you gave in the Ontario Legislature when 16:37:21	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	your witness statement. It has the relevant part 16:37:39 there. 16:37:42 And if we look to the last line in the 16:37:43 first paragraph that you quote in paragraph 18 of 16:37:46 your witness statement, you say that you wanted to 16:37:48 create with the GEGA certainty that the government 16:37:51 would issue permits in a timely way; do you see 16:37:55 that? 16:37:57 A. Yes. 16:37:58 Q. And just to be clear here, you are 16:37:59 not promising that every project would get a permit, 16:38:00 were you? 16:38:03 A. Well, I think that the 16:38:03 government's commitment stood as a — stood as 16:38:04 a many promise, but no one would have suggested that 16:38:07 any permits would be issued absent of proponents 16:38:12 doing a — doing a good bit of necessary work. So 16:38:15 it's not that — there was no — there was no 16:38:18 issuance of a promise or guarantee that said just 16:38:21 come on to Ontario and we are going to issue you 16:38:24 a permit, so, yes, I would say that is correct. 16:38:27
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. That's correct. Q. He was the Minister of Revenue 16:36:35 before? 16:36:35 A. So, and to be clear, 16:36:42 you obviously had no involvement in the issuance of 16:36:44 this decision, you had left government a long time 16:36:47 before, correct? 16:36:50 A. Yes, sir. 16:36:51 Q. Now I want to come back to your 16:36:53 witness statement where you talk about the certainty 16:36:55 that you hoped created through the adoption of the 16:36:58 GEGA just to clarify what you meant, and I want to 16:37:02 look at paragraph 18 of your statement, which you 16:37:05 quote from a speech 16:37:14 A. Just a second, let me get there. 16:37:15 Q. Sure. Q. Okay. You quote from a speech 16:37:20 here that you gave in the Ontario Legislature when 16:37:21 introducing the GEGA in February of 2009. For the 16:37:24	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	your witness statement. It has the relevant part 16:37:39 there. 16:37:42 And if we look to the last line in the 16:37:43 first paragraph that you quote in paragraph 18 of 16:37:46 your witness statement, you say that you wanted to 16:37:48 create with the GEGA certainty that the government 16:37:51 would issue permits in a timely way; do you see 16:37:55 that? 16:37:57 A. Yes. 16:37:58 Q. And just to be clear here, you are 16:37:59 not promising that every project would get a permit, 16:38:00 were you? 16:38:03 A. Well, I think that the 16:38:03 government's commitment stood as a stood as 16:38:04 a many promise, but no one would have suggested that 16:38:07 any permits would be issued absent of proponents 16:38:12 doing a doing a good bit of necessary work. So 16:38:15 it's not that there was no there was no 16:38:15 it's not that there was no there was no 16:38:21 come on to Ontario and we are going to issue you 16:38:24 a permit, so, yes, I would say that is correct. 16:38:27 Q. In fact, you were consistently 16:38:32

So, and to be clear, 16:36:42 you obviously had no involvement in the issuance of 16:36:44 this decision, you had left government a long time 16:36:47 before, correct? 16:36:50 A. Yes, sir. 16:36:51 Q. Now I want to come back to your 16:36:53 witness statement where you talk about the certainty 16:36:55 that you hoped created through the adoption of the 16:36:58 GEGA just to clarify what you meant, and I want to 16:37:02 look at paragraph 18 of your statement, which you 16:37:05 quote from a speech 16:37:14 A. Just a second, let me get there. 16:37:15 Q. Sure. 16:37:18 A. Thank you. 16:37:20 here that you gave in the Ontario Legislature when 16:37:24 record, that's Exhibit C-0116, and if anybody wants 16:37:31	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	your witness statement. It has the relevant part 16:37:39 there. 16:37:42 And if we look to the last line in the 16:37:43 first paragraph that you quote in paragraph 18 of 16:37:46 your witness statement, you say that you wanted to 16:37:48 create with the GEGA certainty that the government 16:37:51 would issue permits in a timely way; do you see 16:37:55 that? 16:37:57 A. Yes. 16:37:58 Q. And just to be clear here, you are 16:37:59 not promising that every project would get a permit, 16:38:00 were you? 16:38:03 A. Well, I think that the 16:38:03 government's commitment stood as a stood as 16:38:04 a many promise, but no one would have suggested that 16:38:07 any permits would be issued absent of proponents 16:38:12 doing a doing a good bit of necessary work. So 16:38:15 it's not that there was no there was no 16:38:18 issuance of a promise or guarantee that said just 16:38:21 come on to Ontario and we are going to issue you 16:38:24 a permit, so, yes, I would say that is correct. 16:38:32 Clear in your public statements that developers 16:38:33
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. That's correct. Q. He was the Minister of Revenue 16:36:35 before? 16:36:35 A. Minister of Research and 16:36:37 Innovation, subsequently Revenue and then 16:36:38 Environment, if I have the order proper. 16:36:40 Q. Thank you. So, and to be clear, 16:36:42 you obviously had no involvement in the issuance of 16:36:44 this decision, you had left government a long time 16:36:47 before, correct? 16:36:50 A. Yes, sir. 16:36:51 Q. Now I want to come back to your 16:36:53 witness statement where you talk about the certainty 16:36:55 that you hoped created through the adoption of the 16:36:58 GEGA just to clarify what you meant, and I want to 16:37:02 look at paragraph 18 of your statement, which you 16:37:05 quote from a speech 16:37:14 A. Just a second, let me get there. 16:37:15 Q. Sure. Q. Okay. You quote from a speech 16:37:20 here that you gave in the Ontario Legislature when 16:37:21 introducing the GEGA in February of 2009. For the 16:37:24	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	your witness statement. It has the relevant part 16:37:39 there. 16:37:42 And if we look to the last line in the 16:37:43 first paragraph that you quote in paragraph 18 of 16:37:46 your witness statement, you say that you wanted to 16:37:48 create with the GEGA certainty that the government 16:37:51 would issue permits in a timely way; do you see 16:37:55 that? 16:37:57 A. Yes. 16:37:58 Q. And just to be clear here, you are 16:37:59 not promising that every project would get a permit, 16:38:00 were you? 16:38:03 A. Well, I think that the 16:38:03 government's commitment stood as a stood as 16:38:04 a many promise, but no one would have suggested that 16:38:07 any permits would be issued absent of proponents 16:38:12 doing a doing a good bit of necessary work. So 16:38:15 it's not that there was no there was no 16:38:18 issuance of a promise or guarantee that said just 16:38:21 come on to Ontario and we are going to issue you 16:38:24 a permit, so, yes, I would say that is correct. 16:38:32 Clear in your public statements that developers 16:38:33

	Page 340		Page 341
1	A. Yes. 16:38:39	1	necessarily bad? I don't really understand your use 16:39:43
2	Q. We can look at one now if you turn 16:38:42	2	of the expression "red tape." 16:39:46
3	to the third tab in your binder. This is 16:38:44	3	Q. I think in your witness statement 16:39:48
4	Exhibit C-0137 for the record. This is a press 16:38:47	4	and in your speech you had talked about a desire to 16:39:50
5	release that the Ministry of Energy and 16:38:55	5	eliminate red tape; is that not correct? 16:39:52
6	Infrastructure issued with the announcement of the 16:39:02	6	A. Well any perhaps you haven't 16:39:55
7	FIT program, and if we turn to page 3 of 5, there is 16:39:05	7	drawn that to my attention, so I'd have to take 16:39:57
8	a heading and a paragraph saying "Renewable Energy 16:39:09	8	a look at it, but I think that in this case in 16:39:59
9	approval." Are you with me? 16:39:14	9	this case, yes, the REA was designed to ensure that 16:40:02
10	A. Yes, sir. 16:39:16	10	Ontario's regulatory standards were maintained and 16:40:07
11	Q. And it says there that: 16:39:16	11	at the same time to enhance the capability of 16:40:10
12	"The renewable energy approval 16:39:18	12	government Ministries and agencies to be responsive 16:40:15
13	process becomes law today, 16:39:21	13	to appropriate applications. 16:40:18
14	September 24, 2009, and is 16:39:24	14	Q. But the REA was not a rubber 16:40:20
15	designed to ensure that renewable 16:39:26	15	stamp, correct? 16:40:21
16	energy projects are developed in 16:39:27	16	A. No, sir, that is correct, yes. 16:40:22
17	a way that is protective of human 16:39:28	17	Q. Thank you. And to be clear, as 16:40:23
18	health, the environment, and 16:39:30	18	a Minister of Energy and Infrastructure, it was not 16:40:28
19	Ontario's cultural and natural 16:39:32	19	your job to determine whether any particular 16:40:31
20 21	heritage." 16:39:34	20	development would accomplish the goals you state for 16:40:33
22	Do you see that? 16:39:35	21 22	the REA, protecting human health, the environment 16:40:35
23	A. Yes, sir. 16:39:36 O. So to be clear, you did not 16:39:36	23	and Ontario's cultural and natural heritage? That 16:40:38 was not your responsibility? 16:40:41
24	Q. So to be clear, you did not 16:39:36 believe that the REA was just red tape, right? 16:39:37	24	was not your responsibility? 16:40:41 A. One might argue, since I authored 16:40:42
25	A. In suggesting that red tape is 16:39:41	25	the piece of legislation, took it through Cabinet 16:40:44
	71. In suggesting that red tape is 10.37.41		the piece of legislation, took it through Caomet 10.40.44

1	and such, that it was my responsibility alongside my 16:40:47	1	is the decision notice issued by the Ministry of the 16:41:59
2	colleagues at a macro level, but at a micro level 16:40:50	2	Environment titled "Proposed Ministry of the 16:42:02
3	I wasn't involved in the I wouldn't have been 16:40:53	3	Environment Regulations to Implement Green Energy 16:42:04
4	involved in the evaluation of individual 16:40:55	4	and Green Economy Act." 16:42:08
5	applications to determine whether they had 16:40:58	5	For the record it is Exhibit R-0072. 16:42:10
6	whether they had met all of the obligations under 16:41:01	6 7	This is a document from the Ministry 16:42:16
7 8	REA. 16:41:04	8	of the Environment which explains the reason behind 16:42:17
9	Q. And the development of the REA was 16:41:05	9	the Ministry of the Environment's decision to adopt 16:42:19
10	a responsibility of the Ministry of the Environment, 16:41:06 correct? 16:41:08	10	the REA regulations, correct? 16:42:23 A. Yes. 16:42:24
11	A. Well these things were developed 16:41:10	11	Q. So this decision notice would have 16:42:25
12	in partnership with the Ministry of Energy and 16:41:12	12	been issued the same day and it would have been 16:42:26
13	Infrastructure in the lead. Yes, but REA recognized 16:41:16	13	available the same day for the proponents as the REA 16:42:29
14	the Ministry of the Environment's responsibilities 16:41:20	14	regulation? 16:42:31
15	very directly. 16:41:25	15	A. Well, it is not dated to the best 16:42:32
16	Q. So under the REA, the Ministry of 16:41:26	16	of my vision, so I don't believe I'm in a position 16:42:34
17	the Environment is a regulating agency? 16:41:27	17	to confirm that. 16:42:37
18	A. Yes. 16:41:30	18	Q. You don't know one way when it was 16:42:38
19	Q. I'd like to spend a few minutes 16:41:35	19	produced? 16:42:40
20	now speaking about the GEGA, and specifically 16:41:37	20	A. Not specifically, sir. 16:42:42
21	offshore wind projects. 16:41:43	21	Q. You said a few minutes ago that 16:42:49
		22	you were working in partnership with the Ministry of 16:42:51
22	So I want to first turn to what the 16:41:44		
23	government said publicly about the REA regulation as 16:41:46	23	the Environment on the REA regulation, I think, or 16:42:53

2	the application." 16:44:07
6 3	Then it says: 16:44:09
4	"The Ministry of the Environment 16:44:09
5	and the Ministry of Natural 16:44:11
6	Resources continue to work in 16:44:13
7	a coordinated approach to offshore 16:44:15
8	wind facilities which would 16:44:16
9	include province-wide minimum 16:44:18
10	separation distance standards for 16:44:20
11	noise." 16:44:21
12	[As read] 16:44:22
13	Do you see that? 16:44:22
14	A. Yes, sir. 16:44:23
15	Q. So you would not have objected to 16:44:23
16	this language at the time this was issued, correct? 16:44:25
17	A. Not at all. 16:44:27
18	Q. In fact, these separation 16:44:28
19	distances, they'd actually been one of the factors 16:44:29
20	that you'd been publicly speaking about when you 16:44:32
21	talked about certainty in the regulatory process, 16:44:34
22	correct? 16:44:36
23	A. Yes, but I can't recall whether 16:44:37
24	that was in the context of onshore or offshore. As 16:44:39
25	the setback matters, from my recollection, were 16:44:42
6	Page 347
1	municipalities have imposed 16:45:41
	varying setbacks on wind projects 16:45:42
3	would be replaced by universal 16:45:44
4	setbacks from adjacent homes and 16:45:46
5	other sensitive areas." 16:45:49
6	Do you see that? 16:45:51
7	A. Yes. 16:45:52
8	Q. And this is where you are talking 16:45:53
9	about setbacks, universal setbacks was the idea, 16:45:53
10	standardized setbacks, correct? 16:45:56
11	A. Yes, but I think that this 16:45:57
12	paragraph, which you refer to as the penultimate 16:45:58
I	
13	paragraph, is actually as much a reference to the 16:46:00
13	paragraph, is actually as much a reference to the 16:46:00 adoption of previous municipal planning powers by 16:46:04
	adoption of previous municipal planning powers by 16:46:04

14 15	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10
14 15 16	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. Okay, but you would at least agree 16:46:18
14 15 16 17	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. 14 15 16 17 18	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. Okay, but you would at least agree 16:46:18 with me, considering the EBR posting that we looked 16:46:19 at, dealing with setbacks for noise for offshore, 16:46:22
14 15 16 17 18 19	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. Okay, but you would at least agree 16:46:18 with me, considering the EBR posting that we looked 16:46:19 at, dealing with setbacks for noise for offshore, 16:46:22 and you are talking about universal setbacks, I take 16:46:24
14 15 16 17 18 19 20	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. 14 15 16 17 18 19 20 21	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. Okay, but you would at least agree 16:46:18 with me, considering the EBR posting that we looked 16:46:19 at, dealing with setbacks for noise for offshore, 16:46:22 and you are talking about universal setbacks, I take 16:46:24 it, you are saying for onshore — yes? 16:46:28 A. Well, I would have expected as the 16:46:31
14 15 16 17 18 19 20 21 22	adoption of previous municipal planning powers by 16:46:04 the province. So I think that paragraph is actually 16:46:07 more about something other than what you've raised. 16:46:10 Q. 2	Q. Right. And as we just saw from 16:46:45	the setback requirement would be, would mean that at 16:47:56	
3	the posting with the decision notice for the REA, 16:46:46	least as of this date, you could not be very certain 16:47:58	
4	you would agree with me that those setbacks had not 16:46:53	4 about developing your offshore wind project at all? 16:48:02	
5	yet been set for offshore facilities? 16:46:55	5 A. I think that the Ministry of 16:48:04	
6	A. Oh, for offshore, no. 16:46:58	6 Natural Resources had previously gone through 16:48:08	
7	Q. If we come back to this posting, 16:47:05	a process, and as you probably know, there was a 16:48:10	
8	which again was at Tab 5 of your binder, on the 16:47:06	8 I'm not sure if they used the word "moratorium" at 16:48:14	
9	second page, and it is in the last paragraph in the 16:47:14	9 the time, but that Ministry, which is in charge of 16:48:17	
10	requirements for renewable energy approval. I want 16:47:16	the allocation of lands, had given a lot of 16:48:18	
11	to focus on the word, the last sentence there again 16:47:20	consideration to the implementation of offshore 16:48:21	
12	where it says: 16:47:23	of offshore wind, and people invariably would have 16:48:25	
13	"The Ministry of the Environment 16:47:24	taken guidance would have taken guidance from 16:48:29	
14	and Ministry of Natural Resources 16:47:25	14 that. 16:48:31	
15	continue to work on a coordinated 16:47:27	Q. But you would agree with me that 16:48:32	
16	approach which would include 16:47:30	pursuant to this paragraph, that work is not yet 16:48:34	
17	province-wide setbacks." 16:47:31	17 done, correct? 16:48:37	
18	I want to focus on that word 16:47:34	A. That work is not yet completed. 16:48:37	
19	"include," because you would agree with me that 16:47:35	19 Q. Not yet completed 16:48:40	
20	they're continuing to work on a coordinated approach 16:47:38	A. But much had been there had 16:48:41	
21	and one of those things is setback distances, but 16:47:41	been quite a public record, I believe, around the 16:48:43	
22	not the only thing, right? 16:47:44	Ministry of Natural Resources processes. 16:48:46	
23	A. Yes. 16:47:46	Q. But they were continuing to work 16:48:47	
24	Q. You would also agree with me, 16:47:50	24 on it, correct? 16:48:49	
25	would you not, that not knowing where you could put 16:47:51	25 A. This says they were, yes. 16:48:50

Yes, I would think so, and I would 16:49:58 think that they would also look at the established 16:49:59	
2 3 4 5 6 7	Q. I'm not sure I got answers, but 16:48:51 you would agree with me, would you not, that if you 16:48:54 did not know what the setback distances would be, 16:48:56 you would not know where you could put your offshore 16:48:58 project, correct? 16:49:00	in forming whatever expectations they might have, 16:49:49 developers would have looked at the decision notice 16:49:52 from the Ministry of the Environment on the REA, 16:49:54 correct? 16:49:57 A. Yes, I would think so, and I would 16:49:58 think that they would also look at the established 16:49:59 metres for onshore. 16:50:01	
2 3 4 5 6 7 8	Q. I'm not sure I got answers, but 16:48:51 you would agree with me, would you not, that if you 16:48:54 did not know what the setback distances would be, 16:48:56 you would not know where you could put your offshore 16:48:58 project, correct? 16:49:00 A. Well I think that one can 16:49:01 determine for themselves where they want to bring 16:49:03 forward bring forward an application, and 16:49:06	in forming whatever expectations they might have, 16:49:49 developers would have looked at the decision notice 16:49:52 from the Ministry of the Environment on the REA, 16:49:54 correct? 16:49:57 A. Yes, I would think so, and I would 16:49:58 think that they would also look at the established 16:49:59 metres for onshore. 16:50:01 Q. Uh-hmm. 16:50:03	
2 3 4 5 6 7 8	Q. I'm not sure I got answers, but 16:48:51 you would agree with me, would you not, that if you 16:48:54 did not know what the setback distances would be, 16:48:56 you would not know where you could put your offshore 16:48:58 project, correct? 16:49:00 A. Well I think that one can 16:49:01 determine for themselves where they want to bring 16:49:03 forward bring forward an application, and 16:49:06 different people were in the midst of doing that. 16:49:10	in forming whatever expectations they might have, 16:49:49 developers would have looked at the decision notice 16:49:52 from the Ministry of the Environment on the REA, 16:49:54 correct? 16:49:57 A. Yes, I would think so, and I would 16:49:58 think that they would also look at the established 16:49:59 metres for onshore. 16:50:01 Q. Uh-hmm. 16:50:03 A. But perhaps some seeing some 16:50:03	
2 3 4 5 6 7 8 9	Q. I'm not sure I got answers, but 16:48:51 you would agree with me, would you not, that if you 16:48:54 did not know what the setback distances would be, 16:48:56 you would not know where you could put your offshore 16:48:58 project, correct? 16:49:00 A. I'm not sure I got answers, but 16:48:51 you would agree with me, would you not, that if you 16:48:54 did not know what the setback distances would be, 16:48:56 you would not know where you could put your offshore 16:48:58 project, correct? 16:49:00 A. Well I think that one can 16:49:01 determine for themselves where they want to bring 16:49:03 forward bring forward an application, and 16:49:06 different people were in the midst of doing that. 16:49:10 Q. So you are saying that it would 16:49:13 be 16:49:14 A. I think to answer your question 16:49:15 another way, Ontario had sent a very, very strong 16:49:17 signal that they were moving forward with the 16:49:19 implementation of more renewable energy, including 16:49:24 offshore. That creates a reasonable expectation 16:49:26 amongst developers that they should look at such 16:49:29 opportunities guided by the information that they 16:49:31 had, which at that time included quite a bit of work 16:49:34 that there was some effort there that individuals 16:49:37	in forming whatever expectations they might have, 16:49:49 developers would have looked at the decision notice 16:49:52 from the Ministry of the Environment on the REA, 16:49:54 correct? 16:49:57 A. Yes, I would think so, and I would 16:49:58 think that they would also look at the established 16:49:59 metres for onshore. 16:50:01 Q. Uh-hmm. 16:50:03 A. But perhaps some seeing some 16:50:03 guidance from that. 16:50:06 Q. They may have looked at the 16:50:07 exhibit. You believe they may have looked at 16:50:08 onshore and may have seen some guidance, but they 16:50:10 would also be you would expect the developers in 16:50:13 understanding what the province was proposing with 16:50:15 respect to specifically to offshore, they would have 16:50:17 paid attention to this particular paragraph, 16:50:20 correct? 16:50:24 A. One would think, but I can't speak 16:50:26 for them, sir. 16:50:26 a little bit about what the government was saying to 16:50:30	

	Page 352		Page 353
1	your witness statement before we move to a little 16:50:41	1	Q. No, I'm just pointing out in your 16:51:55
2	more general. In your witness statement you said 16:50:43	2	witness statement, you said it was to Mr. Baines and 16:51:58
3	that a letter sent from Minister Cansfield to 16:50:50	3	encouraged Mr. Baines to apply. I'm pointing out 16:52:00
4	Mr. Baines encouraged Mr. Baines to apply for a FIT 16:50:52	4	that this was a letter sent in fact to all FIT 16:52:03
5	contract. And you refer to a letter, and that 16:50:55	5	applicants, not specifically to Mr. Baines; isn't 16:52:06
6	letter is at Tab 6 of your binder, and it is 16:50:58	6	that correct? 16:52:09
7	Exhibit C-0144 for the record. If we could turn to 16:51:01	7	A. Yes. Well, I don't know that it 16:52:09
8	that now. Are you with me? 16:51:06	8	was sent to all, but I take your word for it, sir. 16:52:10
9	A. Yes, sir. 16:51:12	9	Q. If we look at the first 16:52:13
10	Q. Now you are aware that or I 16:51:13	10	sentence 16:52:14
11	assume that you are aware, but maybe not you were 16:51:14	11	A. But it doesn't really as best 16:52:14
12	aware prior to the FIT program, Windstream had 16:51:18	12	as I can tell it doesn't alter my point, which is 16:52:16

14	project? 16:51:23	14	recipient of this letter, could be guided by it and 16:52:21
15	A. I'm not sure that I made I'm 16:51:23	15	could find ways to take comfort from it. 16:52:24
16	not sure of that, no. I don't believe I made 16:51:26	16	Q. Right, but and we can come down to 16:52:27
17	comment on that in my witness statement. 16:51:28	17	the sixth paragraph here of this letter on the first 16:52:29

9	Ontario." 16:53:03	9	this, does she? 16:53:51
10	Then it says: 16:53:05	10	A. Well I believe she does, yes, 16:53:51
11	"Should you decide to proceed with 16:53:05	11	I believe in her in this and other public 16:53:53
12	your application, it will be 16:53:07	12	statements that she was making at the time, she 16:53:55

20	Do you see that? 16:53:23	20	and I believe would take some heart from. 16:54:14
21	A. Yes, sir. 16:53:24	21	Q. Well, you mentioned public 16:54:17
22	Q. In fact, Mr. Minister Cansfield is 16:53:25	22	statements she was making, so let's look at another 16:54:18
23	lacting it antically up to the various proposants 16.52.20	23	one of those, which is at the next tab in your 16:54:21
	leaving it entirely up to the various proponents 16:53:28		
24	that she is writing to determine if they are 16:53:29	24	binder, which is Tab 7. And you refer to this in 16:54:26
		24 25	

	Page 356		Page 357
1	that Minister Cansfield gave at a conference in late 16:54:33	1	[As read] 16:55:26

3	record. 16:54:42	3	A. Yes. 16:55:26
4	To be clear, now this speech is 16:54:43	4	Q. So she is telling developers in 16:55:27
5	obviously after the launch of the FIT program; do 16:54:44	5	October of 2009 that MNR is currently carrying out 16:55:28
6	you recall that, correct? 16:54:46	6	a review of the process to allocate Crown land and 16:55:32
7	A. Yes. 16:54:47	7	that it wouldn't be done until the end of 2010, 16:55:36
8	Q. And if we turn to page 5 of this 16:54:49	8	correct? 16:55:38
9	speech, halfway down, seven bullets down, and 16:54:52	9	A. That's as I read it, sir, yes. 16:55:39
10	I tried to count correctly this time, there is 16:55:03	10	Q. And you would agree with me that 16:55:41
11	a bullet that starts: 16:55:06	11	she doesn't give any indication here about what the 16:55:43
12	"We are also using this time." 16:55:07	12	ultimate policy on site release would be, right? 16:55:45
13	Do you see that? 16:55:09	13	A. Not here in a speech, sir, no. 16:55:48
14	A. Uh-hmm. 16:55:10	14	Q. No. So you would agree with me 16:55:52
15	Q. So it says: 16:55:10	15	then, would you not, that statements such as these 16:55:53
16	"We are also using this time to 16:55:11	16	after the launch of the FIT program, would not have 16:55:57

21	The next bullet says: 16:55:19	21	would have created would have been a step for any 16:56:10
22	"This review will be carried out 16:55:20	22	developer towards a positive step in the right 16:56:11

4	a number of regulatory delays where Ministries 16:56:32	4	finalizing those decision points. 16:57:31
5	needed to do remedial effort to get themselves 16:56:36	5	Q. But only that certainty at this 16:57:36
6	ready, so 16:56:39	6	point, correct? 16:57:38
7	Q. You are saying it would be seen as 16:56:41	7	A. Yes, but kind of grows. 16:57:42
8	a step in the right direction, but you would agree 16:56:42	8	Q. Let's look at some of that growth 16:57:48

It says: 17:05:03 "This document serves two 17:05:06 purposes." 17:05:07 Right. 17:05:08 "First, it discusses and solicits 17:05:10 inputs on a shoreline exclusion 17:05:12 zone for offshore wind project. 17:05:14 Secondly, it discusses various 17:05:17 considerations relevant to 17:05:19 offshore wind projects and the 17:05:20 protection of human health in the 17:05:22 environment, including the 17:05:23 Province's natural and cultural 17:05:24 heritage." [As read] 17:05:28 A. Yes, sir. 17:05:28 Q. I'm not asking you to comment on 17:05:30 meant when you said "certainty" or that the 17:05:33	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	because you would agree with me that each of the 17:05:37 points that we've looked at up until now, the 17:05:39 government has specifically said that work was still 17:05:42 going on offshore wind; correct? 17:05:44 A. My answer to, this sir, would be 17:05:46 from the time with the frame of reference from 17:05:47 the time that I was there, that to the extent that 17:05:50 any aspects of the REA were under-developed for any 17:05:52 energy source, be it at biomass or onshore wind or 17:05:57 solar, it was my reasonable expectation that the 17:06:03 government ministries had the wherewithal to 17:06:05 properly promulgate the REA in a fashion that people 17:06:07 could work with it. And I was never disabused of 17:06:10 that in any fashion or form and enjoyed strong 17:06:13 support for the GE Green Energy and Economy Act 17:06:17 at the Cabinet table from the two relevant 17:06:20 Ministers, the Ministry of the Environment and the 17:06:23 Ministry of Natural Resources. 17:06:26 Q. And while I understand your point 17:06:32 the wherewithal to do the work, I'm trying to 17:06:32 understand your point about certainty. 17:06:35 You would agree with me that while you 17:06:37 were the Minister and subsequent to it, looking at 17:06:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	I don't — you know, I haven't reviewed the document. If you want me to read all of these 17:04:54 pages, fire away, but I couldn't really answer that 17:04:56 question directly, sir I'm afraid. 17:04:59 Q. Let's go come back to the first 17:05:01 paragraph of this the introduction. It says: 17:05:03 "This document serves two 17:05:06 purposes." 17:05:07 Right. 17:05:08 "First, it discusses and solicits 17:05:10 inputs on a shoreline exclusion 17:05:12 zone for offshore wind project. 17:05:14 Secondly, it discusses various 17:05:17 considerations relevant to 17:05:19 offshore wind projects and the 17:05:20 protection of human health in the 17:05:22 environment, including the 17:05:24 heritage." [As read] 17:05:28 A. Yes, sir. 17:05:28 Q. I'm not asking you to comment on 17:05:29 the document. I'm trying to understand what you 17:05:30	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	because you would agree with me that each of the 17:05:37 points that we've looked at up until now, the 17:05:39 government has specifically said that work was still 17:05:42 going on offshore wind; correct? 17:05:44 A. My answer to, this sir, would be 17:05:46 from the time — with the frame of reference from 17:05:47 the time that I was there, that to the extent that 17:05:50 any aspects of the REA were under-developed for any 17:05:52 energy source, be it at biomass or onshore wind or 17:05:57 solar, it was my reasonable expectation that the 17:06:03 government ministries had the wherewithal to 17:06:05 properly promulgate the REA in a fashion that people 17:06:07 could work with it. And I was never disabused of 17:06:10 that in any fashion or form and enjoyed strong 17:06:13 support for the GE — Green Energy and Economy Act 17:06:21 at the Cabinet table from the two relevant 17:06:20 Ministers, the Ministry of the Environment and the 17:06:23 Ministry of Natural Resources. 17:06:26 Q. And while I understand your point 17:06:32 the wherewithal to do the work, I'm trying to 17:06:32 understand your point about certainty. 17:06:35 You would agree with me that while you 17:06:37

Page 368 Page 369 1 1 offshore wind projects, would you not? 17:06:49 applications being properly developed and submitted, 17:08:06 2 2 A. I would say certainty was 17:06:50 would be timely. 17:08:08 3 3 emerging, sir, but please remember by the time Q. Just two more questions: Prior to 17:08:11 17:06:53 4 4 I left the Ministry on the dates that we already 17:06:59 this, Ontario had never had an offshore wind 17:08:13 5 5 established in November of 2009, I had backed up by 17:07:01 project; correct? 6 6 the efforts that had been made to that point by the 17:07:04 17:08:19 A. Yes, sir. 7 7 Ministry of Natural Resources and in close 17:07:06 Q. And just to confirm, again, when 17:08:20 8 consultation with that Ministry and the Ministry of 17:07:08 8 you left, Minister Wilkinson was not, in fact the 17:08:22 9 17:07:10 9 the Environment, been given all indication of Minister of the Environment; correct? 17:08:27 10 10 Ontario's capability to deal with the implementation 17:07:14 A. That's correct. 17:08:28 11 of offshore wind projects. 17:07:18 11 Q. Thank you. 17:08:30 12 12 The formalized setback for on-shore 17:07:21 A. Thank you. 17:08:30 13 wind wasn't in place for decades and decades and 17:07:26 13 PRESIDENT: Thank you, Mr. Spelliscy. 17:08:31 14 decades; it was established -- it was established 17:07:30 14 Any questions on redirect? 17:08:34 15 15 rather readily by the Ministry of the Environment. 17:07:33 MR. TERRY: Yes, I do have some. I am 17:08:36 16 And the prevailing assumption associated with the 17:07:36 16 just going to organize some documents that I'll need 17:08:39 17 17 launch of the Green Energy Act, was that the same 17:07:39 to put to the witness. 17:08:43 18 capabilities to properly make a robust regulatory 17:07:43 18 I am using the same set of 17:10:25 19 environment that allowed developers to bring their 17:07:46 19 documents that you should have the previous 17:10:26 20 20 projects forward in a timely way for timely 17:07:49 17:10:28 examination. 21 21 evaluation was part and parcel of the certainty 17:07:51 RE-EXAMINATION BY MR. TERRY: 17:10:34 22 22 17:07:54 BY MR. TERRY: formula 17:10:37 23 23 A fair price, a connection to the - 17:07:55 Q. Mr. Smitherman, no need to look at 17:11:01 24 24 a fair price by a -- by someone able to pay, the documents until we come to them and I believe 17:11:02 25 a connection-point, and an REA process that upon 17:08:02 25 the panel also has -- there is one additional 17:11:05 Page 370 Page 371 1 1 documents that I may put to the witness. Good 17:11:08 The phenomenon that we had in Ontario 17:12:23 2 2 afternoon again, Mr. Smitherman. I'm going to take 17:11:12 is wind is attracted to remote places and very often 17:12:26 3 3 you to some of the documents that Mr. Spelliscy took 17:11:17 the most rural parts where the municipalities are 17:12:30 4 you to. 17:11:20 4 small and their capacity to evaluate the technical 17:12:34 5 So first of all, if you could turn to 17:11:20 5 nature of projects et cetera and so on, made for 17:12:39 6 the document at tab 2 which, for the record, is 17:11:22 6 tough-going for some of them. 17:12:42 7 Exhibit C-116 and you recall here that this is 17:11:26 7 So upon hearing that quite 17:12:43 8 an excerpt from the speech you gave which 17:11:30 8 extensively, I made the decision and the 17:12:45 9 you were introducing the Green Energy and Green 17:11:32 9 Green Energy Act and the law confirmed it, that we 17:12:51 1.0 Economy Act. 17:11:35 10 would to the Province, upload those Planning Act 17:12:53 11 A. Yes. 17:11:37 11 responsibilities and make the decisions around 12 Q. Mr. Spelliscy took you to the 17:11:37 12 siting, so in this paragraph that was referred to, 17:13:00 13 second page, the second to last paragraph where 17:11:39 13 the references here most directly are to on-shore 17:13:03 14 there was a discussion about setbacks and the idea 17:11:49 14 17:13:06 15 of replacing the -- differing municipal setbacks 17:11:52 15 The point I make is that different 17:13:06 16 with the universal model and you mention in your 17:11:57 16 municipalities were coming up with different 17 answer that you didn't have an opportunity to expand 17:12:00 17 suggestions about what appropriate setbacks should 17:13:10 18 on it as you started to say that the setback issue 17:12:03 18 be. We worked with the Ministry of the Environment 17:13:12 19 was really, from your perspective, really an issue 17:12:05 19 to establish a standard universal setback. 17:13:15 20 more for on-shore than offshore; do you recall 17:12:09 20 O. And what was the specific issue 17:13:18 21 saying that? 17:12:13 21 with respect to the setback, the 550-metre setback? 17:13:20 22 A. This reference -- well, the 22 What was it related to? Was it related to --17:13:24 23 politics -- the issue of varying setbacks that's 17:12:15 23 I mean -- tell us what it was designed to do? 17:13:26

24

25

A. Well, I could say it was broadly 17:13:29

related to the concerns of NIMBYs, about aesthetic 17:13:31

referred to in this paragraph was very specifically 17:12:19

17:12:22

about on-shore wind projects.

Page 372 Page 373 1 1 that, that the Ministry of the Environment which had 17:15:07 issues, noise issues and lots and lots of 17:13:38 2 2 the obligation to finalize and firm up that number, 17:15:10 concerns raised about the health issues of being - 17:13:42 3 3 of living in too close proximity to a wind turbine. 17:13:47 obviously might present that information in 4 4 So the decisions that we ended up with 17:13:54 a different -- in a different way, but I'd say that 17:15:15 5 5 created a universal standard and I believe that 17:13:56 the political science was a big aspect of the 17:15:18 6 6 standard was higher than most of what the permitted 17:13:58 decision. 17:15:21 7 7 projects built to that point in Ontario were asked 17:14:03 Q. If I could take you -- my friend 17:15:26 8 to achieve, in other words the setbacks were 17:14:06 8 took you to Tab 5, that EBR posting, of the Ministry 17:15:27 9 9 a little bit more generous. 17:14:08 of the Environment. 17:15:34 10 10 First of all, just to confirm, Q. And with respect to noise, 17:14:10 17:15:38 11 specifically, what was the 550-metre setback from a 17:14:11 11 I believe you may have already answered this 17:15:40 12 receptor designed to do? 12 question, but just in case it's not clear, were you 17:15:42 17:14:17 13 A. I couldn't -- I mean it's not 17:14:21 13 involved at all in the preparation of this --17:15:45 14 14 A. No. sir. perfectly -- I could say my answer would be that it 17:14:23 17:15:48 15 15 was designed to attempt to create a balance of - 17:14:25 O. -- posting. 17:15:48 16 a balance that would -- that would somewhat appease 17:14:32 16 A. Did you have any responsibility 17:15:49 17 17 some of the voices that were in opposition to wind, 17:14:37 with respect to the Ministry of Natural Resources? 17:15:53 18 by allowing the government to characterize the 17:14:41 18 A. No, sir. 17:15:57 19 universal setback as bigger, longer, a greater 17:14:44 19 Q. Did you have any responsibilities 17:15:58 20 20 with respect to the Ministry of the Environment? 17:15:58 distance than had been the case in the approximately 17:14:48 21 1,000-megawatts of windfarms that had been developed 17:14:52 21 A. No, sir. 17:16:00 22 22 to that point in Ontario. 17:14:55 Q. And if I could just ask you 17:16:00 23 23 Q. And if I turn to the document at 17:15:03 because my friend did spend some time on this, the 17:16:04 24 Tab 5. 17:15:04 24 statement -- the second half of that paragraph it 17:16:06 25 A. I'm sorry, I should just say on 17:15:06 25 17:16:09 Page 374 Page 375 1 1 "The Ministry of the Environment 17:16:11 that Mr. Smitherman was not involved in the 17:17:12 2 and the Ministry of Natural 2 17:17:13 17:16:12 preparation of this document at all. 3 3 Resources continue to work on 17:16:12 I don't think I had that clear 17:17:17 4 4 a coordinated approach to offshore 17:16:14 an answer, but he's now asking him to interpret what 17:17:18 5 5 wind facilities which would 17:16:16 other people who he just expressly said he had no 17:17:21 6 6 include province-wide minimum 17:16:19 responsibility for dealing with, meant. 17:17:24 7 7 separation distance standards for 17:16:21 So, I'm not sure. It seems that we're 17:17:26 8 noise." 8 going down the exact same line of questioning here, 17:17:28 17:16:23 9 17:16:25 9 but so I -- so I suggest that this is probably not 17:17:30 [As read] 1.0 10 What was your understanding or what is 17:16:25 an appropriate line. 17:17:34 11 11 your understanding in terms of reviewing this 17:16:29 MR. TERRY: Life takes an ironic turn. 17:17:37 12 document as to what the purpose of these -- of this 17:16:31 12 PRESIDENT: We are aware of this. 17:17:40 13 separation distance that's being referred to is, 17:16:34 13 THE WITNESS: I would say like the 17:17:41 14 this separation distance standard for noise? 17:16:38 14 EBR, did I edit the EBR? Did I write any of it? 17:17:43 15 A. Just an acknowledgement on their 17:16:45 15 No. But I was the point-man on Green Energy. 17:17:46 16 part that they were working together with a view 17:16:47 16 I brought forward a piece of legislation which 17:17:51 17 towards establishing the setback policies, 17 17:16:50 amended various statutes which had implication and 17:17:53 18 18 similar -- as they had done for on-shore wind. 17:16:54 effect for those various government ministries, so 17:17:58 19 O. And what would the reference for 17:16:59 19 the word "responsibility" is -- no, I didn't write 17:18:00 20 20 noise be referring to? 17:17:01 this, but -- and I'm not -- I'm not accountable for 17:18:03 21 21 MR. SPELLISCY: I think I just have to 17:17:03 it as a government minister. It is not an act that 17:18:06 22 22 put in the same objection that my colleague 17:17:05 is my responsibility in that sense, but most 17:18:08 23 Mr. Terry offered. 23 definitely, this was a flowing out from 17:18:12 24 He just actually -- I don't think 17:17:07 24 an initiative which I was quarterbacking on behalf 17:18:15 25 I had as clear an answer, he just actually confirmed 17:17:09 25 of the government, so I was at least, indirectly 17:18:18

	Page 376		Page 377
1	responsible for some of it, let's say. 17:18:21	1	your understanding as to what the relevant REA 17:19:53
2	BY MR. TERRY: 17:18:32	2	regulations were at the time. And this is a portion 17:19:58
3	Q. And I'm not going to spend any 17:18:32	3	of a table at the end of the renewable energy 17:20:06
4	more time on what the meaning of that paragraph is 17:18:34	4	regulations and I just want to direct you to what's 17:20:11
5	with this witness, but you did do you recall 17:18:36	5	referred to as the top of 12, "Offshore Wind 17:20:15
6	Mr. Smitherman, in the context of asking these 17:18:39	6	Facility Report." And it describes various things 17:20:20
7	questions, referring to the fact that you understood 17:18:42	7	that have to be done with respect to the preparation 17:20:24
8	they were there were other REA regulations and 17:18:44	8	of that report. 17:20:26
9	related regulations at the time? 17:18:48	9	Does this refresh your understanding 17:20:30
10	A. That there were other or others 17:18:50	10	as to the I'm not talking about the rules that 17:20:32
11	yet to be fully developed? Because that's what 17:18:52	11	might come into effect, but the rules that were in 17:20:35
12	I referred to earlier, sir. 17:18:54	12	existence at that time. As you know, the regulation 17:20:39
13	Q. Well, at the particular time here, 17:18:55	13	was promulgated on September 24th. 17:20:42
14	you will note here at the top of this paragraph, it 17:18:59	14	A. Well, I believe that this section, 17:20:44
15	says there are special rules for wind facilities 17:19:00	15	by section, by section created direction to 17:20:46
16	that include turbines in contact with surface water 17:19:02	16	developers around the work that they would need to 17:20:51
17	other than wetlands. I'd like to show you 17:19:05	17	do that would need to be completed as part of the 17:20:53
18	a document which the panel members have. It's 17:19:08	18	REA process. 17:20:56
19	C-103. 17:19:32	19	So this, to me, stands as evidence of 17:20:57
20	This again, was one of the documents 17:19:34	20	some level of preparedness related to offshore wind 17:21:01
21	that you use that you were previously working on 17:19:36	21	facilities, but as I mentioned before, it was my 17:21:07
22	with the previous witness, if you have it. It's 17:19:40	22	understanding that the Ministry and the Ministries 17:21:09
23	a copy and my friends have a copy. Yes. 17:19:45	23	and there were several that were involved, had the 17:21:12
24	Mr. Smitherman, if you could take 17:19:47	24	obligation and the opportunity associated with the 17:21:14
25	a moment, please, and my questions are directed to 17:19:49	25	implementation of the REA to get some aspects of it 17:21:17

Were there other aspects 17:21:24 that were 17:21:28 A. Well, I think that that, you know, 17:21:29 the timelines the timelines that we anticipated 17:21:31 in the development of the policy and the piece of 17:21:34 legislation were in in practical reality, were 17:21:37 too ambitious to the point that willy-nilly that 17:21:45 broadly, the government added time to the COD dates 17:21:50 of projects in recognition, I believe, of the 17:21:55 government's only failures to be as timely in their 17:21:58 response to REA proposals. 17:22:01 So, in a certain sense I guess I would 17:22:06 say, that while the expectation might be created by 17:22:10 some that everything was good to it go, but offshore 17:22:13 wind was under-developed, as I understand it, the 17:22:17 Ministry of the Environment and the other ministries 17:22:19 had lots of work to do on various of the other forms 17:22:22 of generation also. 17:22:24 Q. I'd like to take you to another 17:22:25	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	in front of you, Mr. Smitherman. If you go perhaps I'll 17:22:39 A. Thank you. 17:22:43 MR. TERRY: Thanks, Ms. Middleton. 17:22:46 BY MR. TERRY: 17:22:49 Q. And I'm simply going to take you 17:22:50 to page 32 of this document and I don't think 17:22:51 there's any issue between counsel that this was 17:22:54 an MNR document which was issued again in September 17:22:58 of 2009 called "The approval and permitting document 17:23:01 for renewable energy projects." And, again, similar 17:23:04 to if you have page 32, you will see the 17:23:07 description of offshore wind facility report. 17:23:11 I don't need to take you to this in detail, but 17:23:13 would this refresh your recollection as to the 17:23:17 nature of the regulations that were and 17:23:29 (Simultaneous speakers - unclear) 17:23:24 coincidence naturally, that all the dates are 17:23:26 aligned here, and this is also a reflection on the 17:23:28

12	A. Yes, well, we recognize obviously 17:24:23	12	I wrote about this in 2011 in a review, is that with 17:25:52
13	that the Green Energy Act and the associated 17:24:25	13	all due respect to the individuals that work there, 17:25:56
14	regulation had a fair number of moving parts and 17:24:26	14	REFO turned out, from my perspective, to be 17:25:58
15	there's always oftentimes at least, difficulty 17:24:29	15	toothless tiger, and ran the risk, I think, of just 17:26:01
16	when governments silos are expected to work in 17:24:31	16	being one more stop for people to drop in on, but 17:26:06
17	an aligned fashion. The renewable energy 17:24:34	17	I don't think was particularly was not effective 17:26:09
18	facilitation office emerged as an antidote to this 17:24:38	18	as envisioned at being able to rally everybody, all 17:26:11
19	problem with the expectation that it would be 17:24:43	19	these government ministries together and get the job 17:26:17
20	effective at helping to coordinate the responses of 17:24:46	20	done in as timely a way as was hoped and by 2011 - 17:26:20
21	various government ministries. 17:24:51	21	please pardon me if I'm going too far, but by 2011, 17:26:24
22	In fact, in the earliest discussions 17:24:53	22	the centre of the government, the Premier and the 17:26:28

1	Q. Finally, Mr. Smitherman, my friend 17:28:37	1	first sentence: 17:30:51
2	took you to a document that you had referred to in 17:28:40	2	"In order to maintain priority 17:30:52
3	your witness statement, but he didn't take you to 17:28:45	3	position within MNR's site release 17:30:53
4	the provision in the witness statement or another 17:28:47	4	process you must submit 17:30:56
5	document that he referred to at the same time, if 17:28:49	5	an application to the FIT program 17:30:57
6	I could refer you to your witness statement, please, 17:28:51	6	within the FIT launch period." 17:30:59
7	at just give me a moment at paragraph 29 17:28:54	7	[As read] 17:31:02
8	through to paragraph 31. If you could please review 17:29:09	8	And this to my one of the of those 17:31:02
9	that and I will also provide a copy to Ms. Seers 17:29:13	9	that had already that had already made 17:31:06
10	may have the document. 17:29:30	10	application in MNR's site release process, would be 17:31:09
11	Have you had an opportunity to review 17:30:06	11	taken as a pretty clear indication that 17:31:13
12	those? 17:30:08	12	prioritization was going to be provided for anybody 17:31:15
13	A. Yes. 17:30:08	13	who had a FIT contract and that would, I think that 17:31:18
14	Q. And a copy of the second document, 17:30:09	14	would that would be I think that would be 17:31:24
15	C-158 has been provided to you and could you please 17:30:12	15	taken as a directive, not a directive, but as 17:31:27
16	explain what you were saying in those paragraphs and 17:30:21	16	a suggestion, that one wishing to be a developer in 17:31:32
17	the basis on which you made your statements in 17:30:24	17	that sphere should seek to obtain a Feed-in-Tariff 17:31:37
18	paragraphs 29, 30 and 31? 17:30:28	18	contract and that prioritization around the Crown 17:31:45
19	A. Well, I think firstly is to make 17:30:31	19	land process would be based on a site release 17:31:47
20	the point that with respect to the dates it 17:30:32	20	process would be prioritized. A contract was top of 17:31:47
21	reflects, again, this nature of the coordination 17:30:34	21	the list. A FIT contract would mean top of the 17:31:53
22	against amongst not against, amongst 17:30:36	22	list. 17:31:56
23	government amongst government ministries and 17:30:40	23	Q. Finally, Mr. Smitherman, you had 17:31:56
24	I think noteworthy in Section 29, in the part of the 17:30:42	24	mentioned in your answers certain extensions that 17:31:57
25	letter that is pulled out there, the first the 17:30:45	25	were granted in the context of a FIT contracts and 17:32:06
	ictici that is punca out there, the first the 17.50.45		were granted in the context of a 141 contracts and 17.32.00

10	trying to answer your question is to say that – is 17:41:05	10	that I believe you are referring to at the board of 17:42:32
11	to say that I am sympathetic to the view that there 17:41:08	11	trade, just before the introduction of the Bill, and 17:42:36
12	was an opportunity to appropriately implement this 17:41:13	12	at the legislature at the point of introduction of 17:42:39
13	project and Ontario did not, to my measure, fully 17:41:16	13	the Bill, the piece of legislation I was speaking 17:42:43
14	fully comply with the expectations that were placed 17:41:23	14	on behalf of the government and the opportunity for 17:42:46
15	upon it, and so I think that that contributed very, 17:41:28	15	all of those government ministries to be involved in 17:42:50
16	very dramatically to the circumstance that emerged. 17:41:31	16	that conversation by that point was very, very 17:42:52
17	DR. CREMADES: Thank you very much. 17:41:35	17	well-developed because by the time an individual 17:42:54
18	THE WITNESS: Thank you. 17:41:38	18	like me as a government Minister, can bring a piece 17:42:57
19	MR. BISHOP: I have a few questions. 17:41:39	19	of legislation to the floor of the legislature, it's 17:43:00
20	Several of your speeches have been introduced into 17:41:43	20	gone through a very extensive internal review and 17:43:04
21	evidence, speeches that you gave promoting the 17:41:46	21	a tremendous amount of documentation associated with 17:43:06
22	Green Energy initiative in Ontario. 17:41:50	22	that. So, I would say we weren't all sitting 17:43:09
23	In the course of preparing those 17:41:56	23	around, holding the pen and collaborating on the 17:43:12
24	speeches, did you have input from the other 17:41:59	24	communication, but the thrust of the communications 17:43:15
25	ministries or did you prepare the speeches simply 17:42:02	25	was a governmentally-supported communications and 17:43:17

BISHOP: And I'm asking how it 17:45:25 worked generally, because I know you weren't there 17:45:26 at the time. 17:45:29 THE WITNESS: I wasn't there at the 17:45:30 similar circumstance or magnitude, the person that 17:45:35 government, that's the Premier or one or two of his 17:45:37

So, I think it's fair to 17:43:36 say by the time I was making those speeches, this 17:43:38 was designed to be reflective of a broadly-based 17:43:41 government priority and I think that, and 17:43:45 infrastructure renewal were the two main government 17:43:48 initiatives of the day because we were responding to 17:43:51 the what no-one is talking about here is why was 17:43:54 Ontario motivated to do this? We were responding to 17:43:57 the threatened collapse of the North American auto 17:44:00 sector, which Ontario is exceedingly dominant in, 17:44:03 and we were trying to put a Green Energy product in 17:44:07 the window that would create jobs and attract 17:44:09 foreign investment, and we were trying to also 17:44:14 partnership with the Federal Government with a view 17:44:15 towards more economic activity. These were the 17:44:20 government's big priority and Premier McGuinty 17:44:23	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	and sort of purpose built it for me and mandated me 17:44:33 to go out and work on those things. 17:44:36 MR. Based on your knowledge 17:44:42 of how the various ministries work together and the 17:44:48 Government of Ontario work together, do you have 17:44:50 a view as to how the government would have worked in 17:44:56 coming to a decision on the moratorium, for example? 17:45:03 That is to say, could one ministry make the decision 17:45:06 to impose the moratorium or did it have to be 17:45:11 a consensus of government ministers? How did it 17:45:18 work? 17:45:22 THE WITNESS: Well, in the model of 17:45:23 government that we operate in 17:45:25 worked generally, because I know you weren't there 17:45:26 at the time. 17:45:29 THE WITNESS: I wasn't there at the 17:45:30 similar circumstance or magnitude, the person that 17:45:32 declares the consensus is the head of the 17:45:37 most senior staff. 17:45:40

Page 396 1 my Premier who mandated me to do so, and without his 17:45:46 2 mandate, couldn't have done any of that, and 17:45:50 3 similarly no government minister, with the possible 17:45:54 exception in some circumstances of the Attorney General, has very much authority to go out on their 17:45:58 6 own on a significant initiative like that. 17:46:01 17:46:05 It's not credible to suggest that 8 anything other than some form of consensus -- there 17:46:07 9 might have been a consensus among a relatively small 17:46:10 10 number of people, sir -- but consensus can be 11 declared by the head of the government. Invariably 17:46:15 12 him or his most senior staff would have been 17:46:20 13 involved in the decision of a magnitude of that 17:46:23 14 17:46:25 taken in February of 2011. MR. BISHOP: Again I know you have 17:46:29 16 left at the end of 2009, but during 2010 and early 17:46:30 17 2011, did you have any involvement with the 17:46:33 18 government or personal information, personal 17:46:38 19 knowledge of the decisions that were being taken? 17:46:42 20 THE WITNESS: On the first part of 17:46:47

I wasn't seeking to -- the guy that left is not that 17:47:06 necessarily good at hanging around and badgering 17:47:09 those that remained.

On the other hand though, the broad, 17:47:14 broad, broad network of people that I had -- the 17:47:15 broad network that I have, including people 17:47:20 throughout ranks of the government -- this is not 17:47:22 just government for me, this is my political family. 17:47:24 Many of these people I've known for 20 or 30 years 17:47:28 so, invariably, a significant bit of a scuttlebutt 17:47:30 in internal intrigue was coming my way pretty much 17:47:36 at all times. 17:47:41

MR. BISHOP: Okay. Thank you. 17:47:44 PRESIDENT: You mentioned that there 17:47:46 was extensive work that went into the preparation of 17:47:46 the Green Energy Act and, you know, various ministries, participated in that analysis. 17:47:55

What kind of economic analysis did you 17:47:58 undertake when preparing the Act, in terms of the 17:48:00 impact of the shift to renewable energy, in terms of 17:48:06 the price of electricity, how it would develop over 17:48:11 17:48:14 the years?

THE WITNESS: The information -- so, 17:48:16 as I mentioned to you before, sir, that in bringing 17:48:17 a piece of legislation forward, to get the support 17:48:20

for it at the policy level, I would be obligated as 17:48:23 a Minister to provide to my cabinet colleagues 17:48:26 a compendium of information that would be 17:48:29 substantial. 17:48:32

your question, no, I was definitely off -- I would 17:46:52

based on how it all turned out, sir, but the second 17:47:00

I don't know if that's a good analogy 17:46:59

say I was off trying to fry bigger fish.

matter, so no, I wasn't directly involved and

On the economic points that you raise, 17:48:33 we would have had a report with respect to the 17:48:35 anticipated implication on electricity pricing and 17:48:37 we certainly also, sir, had a report that has 17:48:41 developed from our sister ministry, the Ministry of 17:48:44 Finance which took the expected capital expenditure 17:48:45 and extrapolated that to create a job number of 50,000 anticipated, associated with the Green Energy 17:48:53 Act. So, certainly in the package that came forward 17:49:01 to cabinet, compendium information would have been 17:49:03 there on economics both in terms of rates -- cost of 17:49:07 electricity and also jobs. 17:49:10

PRESIDENT: Would you remember what 17:49:13 the increase in the price of electricity would have 17:49:14 been, once the program was under way or it would be 17:49:16 17:49:20 implemented?

THE WITNESS: Sure. From the best of 17:49:21 my memory, the projection that we made was 2 to 3 per cent per year. 17:49:27

PRESIDENT: And was that based on 17:49:29 a particular assumption in terms of what percentage 17:49:31 1 of electricity would be produced from renewable 17:49:35

2 sources? 17:49:38 3 THE WITNESS: Yes, I think it was -- 17:49:40 4 it was -- and I think actually in -- like if you 17:49:41 5 were to ask 100 experts of, you know, what was the 17:49:44

impacts of the Green Energy Act on electricity pricing you are going to get 110 different answers 17:49:50 because some people will have an A and a B. 17:49:53

Of course that cost -- but at the same 17:49:56 time lots of people look to use Green Energy to 17:50:00 criticize electricity prices, which have rising - 17:50:03 which have been rising here in Ontario.

To the very best of my recollection, 17:50:10 sir, it was anticipated at 2 to 3 per cent per year. 17:50:12 PRESIDENT: And would you know whether 17:50:17

that expectation has been met or whether it's been 17:50:17 more or less? 17:50:20

THE WITNESS: I think most people 17:50:21 would say met and exceeded, but probably -- but 17:50:22 probably if I was given the opportunity to debate 17:50:26 them on point, they would have been throwing a whole 17:50:30 bunch of other expenditures under the umbrella of 17:50:33

23 Green Energy. 24 It is very, very difficult in Ontario 17:50:37

to get a conversation about real electricity because 17:50:38

	Page 400		Page 401
1	only the Feed-in-Tariff model has a transparent 17:50:42	1	acceptable as a price for the additional investment 17:51:59
2	pricing element. 17:50:45	2	and improvement in the system? 17:52:02
3	We have a regulator which approves 17:50:46	3	THE WITNESS: Yes, sir, and I think 17:52:04
4	certain of price the prices for other forms of 17:50:49	4	it's especially important to know that the context 17:52:05
5	electricity, but a lot of time the actual cost, the 17:50:56	5	in Ontario at that time is that our Premier, 17:52:08
6	all-in cost is a bit of a masquerade because you 17:50:59	6	Premier McGuinty had campaigned in 2003, which is 17:52:11
7	have an operating implication here and a capital 17:51:02	7	the election that he won, sir, on closing Ontario's 17:52:15
8	implication over here. 17:51:03	8	coal-fired generating stations which accounted for 17:52:19
9	So, I think that the consensus might 17:51:10	9	about 15 per cent of Ontario's energy supply, and we 17:52:22
10	be, because the politics has dictated, that the 17:51:12	10	had North America's largest coal-fired power plant 17:52:25
11	Green Energy Act has been the source of 17:51:14	11	on Lake Erie, so, it's also fair to say that in 17:52:29
12	a significant price increase in Ontario, but 17:51:16	12	eliminating coal from anybody's anybody's 17:52:33
13	I believe a significant amount of that being counted 17:51:18	13	portfolio, anything that you choose to replace it 17:52:36
14	under Green Energy is for grid enhancement and 17:51:21	14	with is going to be more expensive. So, I think 17:52:38
15	improvement which were necessary for reliability. 17:51:24	15	there was a certain resignation to the risks that 17:52:41
16	Because through 2003 and after the blackout which 17:51:28	16	modernizing and evolving more renewable sources 17:52:48

22	Sometimes those, in my opinion, sir, 17:51:47	22	governments intervene with some fiscal measure, but 17:53:06
23	got thrown under the Green Energy cost ledger. 17:51:49	23	largely speaking, it's a system where the ratepayers 17:53:10
24	PRESIDENT: And the 2 to 3 per cent 17:51:54	24	pay. 17:53:13
25	was something that was considered politically 17:51:56	25	PRESIDENT: Okay. Just one more 17:53:13

15	independence, that otherwise is not particularly 17:56:23	severely restricted by the nature of the central 17:57:30

17	Ontario. 17:56:29	17 system here 17:57:37
18	Q. Now I think though that you said 17:56:30	Q. So, that I understand then, what 17:57:38
19	just now in answering my question, that this is on 17:56:32	19 your testimony is is that a Minister may make 17:57:39
20	policy initiatives and what you would do is you 17:56:34	a determination within his mandate and then he 17:57:42
21	would phone the centre and say "This is my decision" 17:56:37	would what we would say in our get a signal 17:57:45
22	and clear it with them; is that what you said? 17:56:42	22 check from the centre; is that correct? 17:57:48
23	A. What I said was that Ministers are 17:56:44	A. Yes, but it can work the other way 17:57:50
24	not acting independently, and they would be 17:56:47	too. So, as a Minister I might be receiving 17:57:52

TERRY: Yes, that's correct. 17:59:54 PRESIDENT: And enjoy the evening.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	either to implement it, to argue about it or to 17:57:57 quit. 17:58:01 Q. Okay. 17:58:04 A. Not why I left, gentlemen. 17:58:04 Q. It was the elephant in the room. 17:58:06 But so you would agree with me then that in certain 17:58:08 situations the Minister might determine the path 17:58:14 that Minister wants to take, and then would 17:58:16 discuss it, I assume, with his other related 17:58:19 Ministers first through meetings, and then 17:58:23 potentially check the centre. But that doesn't mean 17:58:25 that every time there is a decision it's coming top 17:58:27 down; you would agree with me? 17:58:30 A. Every time there's a decision of 17:58:32 significance it's coming with an intervention from 17:58:38 a thousand different ways that the intervention 17:58:41 might occur and who the initiator was and who they 17:58:43 talked to before communicating it, et cetera. But 17:58:47 it could be as few as two people. It could be the 17:58:49 Chief of Staff to the Premier, having a one-minute, 17:58:53	two of them coming together and saying "What the 17:59:06 hell should we do?" And concluding together what the 17:59:09 right approach was going forward, but the central 17:59:13 command and control would be a consistent element, 17:59:15 no matter the pathway. 17:59:18 Q. I think that answers all my 17:59:21 questions. Thank you. 17:59:22 A. Thank you. 17:59:23 PRESIDENT: Anything from Claimant, 17:59:26 Mr. Terry? 17:59:27 MR. TERRY: Nothing from me, thanks. 17:59:32 PRESIDENT: Thank you very much. 17:59:33 Thank you very much, sir. That concludes your 17:59:34 examination. 17:59:37 THE WITNESS: Thank you very much. 17:59:39 PRESIDENT: And that brings the 17:59:42 hearing to an end today. We will continue tomorrow 17:59:43 morning at 9:00 o'clock and I understand it will be 17:59:46 Mr. Roeper. Thank you. 17:59:50 MR. TERRY: Yes, that's correct. 17:59:54 PRESIDENT: And enjoy the evening.
