CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 5		Page 6
1	Toronto, Ontario	1	boring. 09:02:54
2	Upon resuming on Friday, February 19, 2016	2	[Laughter.] 09:02:55
3	at 9:02 a m. 09:02:04	3	PRESIDENT: Well, by 09:02:56
4	PRESIDENT: Okay. Good 09:02:04	4	definition, perhaps. 09:02:57
5	morning, ladies and gentlemen. Welcome back. We 09:02:05	5	PROCEDURAL MATTERS: 09:03:33
6	are at Day 5 in the hearing of NAFTA case 09:02:08	6	PRESIDENT: Yes, 09:03:33
7	Windstream Energy LLC v. Government of Canada. 09:02:16	7	Mr. Spelliscy. 09:03:35
8	There was some indication last 09:02:20	8	MR. SPELLISCY: Thank you. 09:03:35
9	night that we might have a procedural issue that 09:02:24	9	This actually relates to an issue that I raised 09:03:38
10	the Respondent would like to raise. 09:02:27	10	after the examination of Ms. Powell yesterday, and 09:03:41
11	MR. SPELLISCY: Yes, we still 09:02:31	11	I said that if certain lines continued, I would 09:03:44
12	do. I did consult with my colleague Mr. Terry, 09:02:32	12	make an objection, and those lines continued, and 09:03:48
13	and and we had some discussions. I don't think 09:02:35	13	so now I will put my objection formally on the 09:03:50
14	that I could say we've been able to resolve it, so 09:02:38	14	record. And it relates to the fairly frequent 09:03:53
15	I would like to put our point on the record as 09:02:40	15	lament of the Claimant at this point that it 09:03:57
16	well. 09:02:43	16	doesn't have the documents, particularly from 09:03:59
17	MS. NETTLETON: Should we be 09:02:46	17	Mr. Guillet, to support his opinions. 09:04:03
18	on the video? 09:02:47	18	And at the end of a rushed 09:04:05
19	PRESIDENT: This is not 09:02:48	19	session yesterday with Mr. Guillet, we went 09:04:09
20	confidential, I assume? 09:02:49	20	through paragraph after paragraph with counsel 09:04:12
21	MR. SPELLISCY: No. It 09:02:51	21	putting to Mr. Guillet that he had not produced 09:04:14
22	happened on public session. 09:02:53	22	the documents, which Mr. Guillet explained were 09:04:18
23	PRESIDENT: Okay. We go on 09:02:53	23	either confidential, already in the possession of 09:04:21
24	feed. 09:02:53	24	the Claimant's own experts, Sgurr in particular, 09:04:23
25	MR. SPELLISCY: It might be 09:02:53	25	or public documents. 09:04:26

Page 7

17

24

25

1	With respect to the 09:04:28
2	confidential documents, though and this is 09:04:28
3	where where my concern arises and to me, it 09:04:31
4	is a point of what is good for the goose is good 09:04:33
5	for the gander because we had yesterday Ms. Powell 09:04:37
6	introduce evidence on her experience on financing, 09:04:40
7	which had not been in her expert reports, and as I 09:04:43
8	noted, we didn't object. I think it came out in 09:04:46
9	response to a question. I had no objection to it. 09:04:48
10	The issue is, of course, is that she has not put 09:04:52
11	into the record any evidence, any of the documents 09:04:54
12	on such opinions. 09:04:57
13	If the Tribunal considers that 09:04:59
14	having us walk through her testimony with her, 09:05:04
15	pointing out, again, what her oral testimony point 09:05:07
16	out and you don't have documents to support that, 09:05:12
17	and you don't have documents in the record to 09:05:14
18	support, then I would ask that Ms. Powell come 09:05:17
19	back and we'll do that. I wouldn't find that a 09:05:20
20	particularly useful exercise, but we can do that 09:05:22
21	if the Tribunal think that it's useful. 09:05:24
22	What I would just note is that 09:05:26
23	the Tribunal has already noted that these issues 09:05:28
24	go to the weight of the opinions offered. That's 09:05:30
25	already in the Tribunal's ruling. 09:05:33

I don't intend, and I 09:05:35 2 certainly would hope that this doesn't become a 09:05:37 3 refrain, but if it must, it must. But I would 09:05:39 4 point out that both sides have now -- and it's not 09:05:42 5 just with Ms. Powell. There's issues with the 09:05:45 6 documents presented by Sgurr, in our opinion. 09:05:48 7 There are issued with the documents presented by 09:05:51 8 4C in our opinion. 09:05:53 9 In terms of this, if -- if the 09:05:54 10 Tribunal wants, we can certainly do the same thing 09:05:56 with our witnesses. I don't find it particularly 09:05:58 useful. I think the Tribunal should take note 09:06:01 that the experts have offered opinions based 09:06:03 14 generally on their experience and that -- and note 09:06:05 15 that everything else will go to weight and that we 09:06:07 16 move on from this -- this refrain that they don't 09:06:09 have the evidence to support what they did. 09:06:13 18 I don't think it's true, but 09:06:15 19 you've also had Mr. Guillet here, who was able to 09:06:16 20 answer questions on cross. They have had his 09:06:18 21 report for months. We, of course, didn't get that 09:06:21 22 opportunity with Ms. Powell, who presented this at 09:06:23 23 the last minute. We had no notice. But, at the 09:06:25

same time, I would just ask that, if the Tribunal 09:06:28 is hearing this, that we have the same issues and 09:06:31

Page 8

5

CONFIDENTIAL AND RESTRICTED February 19, 2016

Page 9

	1
1	problems with the Claimant's production and that 09:06:34
2	they understand that it should go to weight on 09:06:36
3	both sides. 09:06:38
4	Thank you. 09:06:39
5	PRESIDENT: Mr. Terry. 09:06:40
6	MR. TERRY: Yes. A number of 09:06:42
7	points. With respect to Ms. Powell, my friend 09:06:44
8	indicated his issue yesterday evening to me, and I 09:06:48
9	checked with Ms. Powell, and she indicated that 09:06:52
10	she is certainly prepared to if my friend has 09:06:55
11	requests for any documents or other information 09:06:58
12	with respect to what she said, she is prepared to 09:07:01
13	provide that. In fact, if you she indicated to 09:07:03
14	me, if you look to her witness statement and you 09:07:06
15	look to her CV, you will see there a very long 09:07:08
16	list of the various lenders and other institutions 09:07:12
17	she's acted for with respect to these projects. 09:07:16
18	It's all publicly available information. It is 09:07:18
19	all there in relation to public reports with 09:07:21
20	respect to the projects as to who the equity and 09:07:23
21	debt finances financiers are. 09:07:25
22	So we are happy to provide 09:07:27
23	that information. Even though it's public, we're 09:07:29
24	happy to point out where it is, and we're also 09:07:31
25	happy to have Ms. Powell return and asked 09:07:34

Page 11

1 documentation so that our experts could examine 09:08:36 2 this and respond. And the same with BRG with 09:08:38 3 respect to one particular issue there. And you 09:08:41 4 made your ruling on that. I certainly -- my only 09:08:44 5 point, as I thought I really had to on the record 09:08:47 6 put this to the witness and give him an 09:08:50 7 opportunity to say, "Yes, I would provide further 09:08:52 8 information at the time." So that's why I felt it 09:08:56 9 was necessary to go through that yesterday. 09:08:59 10 With respect to -- the other 09:09:00 11 point I would make is -- is in my respectful 09:09:03 12 submission, there is a difference between the type 09:09:06 13 of information that Ms. Powell was giving about 09:09:08 14 the nature of the lenders who provided debt and 09:09:10 15 equity financing in relation to her practice as 09:09:15 16 opposed to the very granular information in the 09:09:17 17 Green Giraffe report. You will recall the various 09:09:21 18 tables. It had very specific information with 09:09:23 19 respect to transactions, which included not only 09:09:25 20 monetary figures but various dates when certain 09:09:28 21 things occurred at a sort of granular level. But 09:09:30 22 really for -- for someone to assess that and 09:09:34 23 someone to respond to that, you need to have the 09:09:36 24 underlying data. 09.09.38 25 That's really, I think, all I 09:09:41

	Page 10
1	questions with respect to that information. 09:07:36
2	As I say, last night was the 09:07:37
3	first time that that request was made. I 09:07:39
4	appreciate that this some of this additional 09:07:41
5	information came out in examination response to 09:07:44
6	Tribunal's questions and me asking further 09:07:46
7	questions there. As my friend noted, he didn't 09:07:49
8	object to that. So we are certainly happy to 09:07:51
9	comply with the with the procedural order, 09:07:55
10	which is the idea with respect to, where people 09:07:58
11	request information with respect to underlying 09:08:01
12	documents, it should be provided, and we certainly 09:08:03
13	have any request that my friends have made for 09:08:06
14	additional underlying documents from expert 09:08:10
15	reports, we have provided them. 09:08:12
16	I may note with respect to 09:08:13
17	Sgurr or 4C, this is the first time that I'm 09:08:15
18	hearing about any issues there, and there have 09:08:18
19	been no requests for any further underlying 09:08:20
20	documents. 09:08:23
21	On the other hand, with 09:08:23
22	respect to the report of Green Giraffe, 09:08:25
23	Mr. Guillet's report, as the Tribunal will recall, 09:08:27
24	we made very specific requests with respect to 09:08:29
25	various sections where we cited we needed further 09:08:33

Page 12

1 -- all I need to say on this. As I say, we're 09:09:45 2 happy to provide this information. Ms. Powell is 09:09:47 3 available any of the days next week if it makes 09:09:51 4 sense for her to attend. And, again, I would 09:09:54 5 point out to the Tribunal that this information as 09:09:56 6 to the various lenders is public information, and 09:10:00 7 much of it is set out already in the -- in the 09:10:03 8 expert report of Sarah Powell, in her curriculum 09:10:06 9 vitae. 09:10:09 10 PRESIDENT: Yes, 09:10:11 11 Mr. Spelliscy. 09:10:13 12 MR. SPELLISCY: Just a very 09:10:13 13 brief point on the nature of the information. I 09:10:16 14 think what -- what really sparked my concern was, 09:10:18 15 in Mr. Terry's questioning of Mr. Guillet 09:10:21 16 yesterday, he said to Mr. Guillet that, "Wouldn't 09:10:24 17 you agree with me that Sarah Powell has the best 09:10:28 18 position to provide an opinion on FIT financing 09:10:31 19 and the terms that you would get?" Now, Mr. 09:10:35 20 Guillet had a response to that, which was we can 09:10:37 21 all look back in the transcript and see. 09:10:38 22 But I think, on that, it's not 09:10:41 23 just a question of whether she has done. He has 09:10:43 24 now put Ms. Powell forward as knowledgeable and, 09:10:46 25 in fact, more knowledgeable than Mr. Guillet about 09:10:49

	Page 13		Page 1
1 fina	ncing, which was not something before. So 09:10:51	1	at least a daily schedule. 09:11:48
2 it's r	not a matter of knowing she has worked in the 09:10:54	2	So I think there are a lot of 09:11:49
3 fina	ncing thing. If he is going to be offering 09:10:57	3	questions up in the air as to whether or not 09:11:51
	that way, then as we noted in our response to 09:10:59	4	that's feasible, especially since, I think, for 09:11:53
5 the	motion, which surprises me, because we did 09:11:02	5	the information we'd ask for, she would have to 09:11:55
	tion Sgurr in our response to the motion and 09:11:04	6	get the consent of clients. 09:11:57
7 the	documents that were lacking there, then we're 09:11:07	7	PRESIDENT: Now, just two 09:11:59
8 goin	ng to be asking for things like, you know, we 09:11:08	8	reminders: There are already rulings in place, 09:12:01
9 wan	t to see exactly what they asked, for the deal 09:11:10	9	first, as to admission of new evidence. This was 09:12:04
0 shee	ets, the terms, all the underlying information, 09:11:13	10	debated during the prehearing conference call, and 09:12:07
1 whi	ch I would, really, in my view, not feel all 09:11:15	11	there was a deadline set for production of new 09:12:10
2 that	comfortable asking for because, for me, it's 09:11:18	12	evidence. If either party wishes to produce new 09:12:13
3 thire	1-party business confidential information, 09:11:20	13	documentary evidence, then the condition is you 09:12:15
4 whi	ch she will require the consent of her clients 09:11:22	14	would have to ask for the first consultant confer. 09:12:19
5 to w	vaive. 09:11:24	15	If there's no agreement, seek leave from the 09:12:22
6	If I was one of her clients, I 09:11:25	16	Tribunal. There would have to be rather 09:12:26
	Idn't give that consent, but if that's where 09:11:27	17	compelling reasons for new evidence because there 09:12:2
8 we'r	re going on this, then we can go there. 09:11:29	18	was already an agreement and on a deadline for any 09:12:32
9	As for, you know, whether we 09:11:32	19	new evidence. That's one thing. 09:12:35
0 can	do her next week, I think that's an open 09:11:33	20	The second is there's already 09:12:36
1 ques	stion. It would depend upon whether we get the 09:11:36	21	a ruling in place as to how the Tribunal deal 09:12:38
2 info	rmation in time. We're already running past 09:11:38	22	with will deal with and assess the evidence 09:12:41
	edule. Even though we're running long days, 09:11:40	23	underlying some of the expert reports, which was 09:12:46
4 we'r	re running past hours even though because of 09:11:43	24	which was not made available or produced 09:12:50
the the	Tribunal's willingness to sit late, we're on 09:11:45	25	because it was third party-confidential. There's 09:12:52
	Page 15		Page 1
1 a sy	-	1	-
-	stem in place for that. 09:12:56	1 2	procedural rules in place in the UNCITRAL rules 09:14:10
2	stem in place for that. 09:12:56 In our view, subject to what 09:12:57		procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13
2 3 my	stem in place for that. 09:12:56	2	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13
2 3 my 6 4 belie	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03	2 3	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17
2 3 my 6 4 belie 5 it is	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03	2 3 4	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17
2 3 my 6 4 belie 5 it is 6 the	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05	2 3 4 5	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20
2 3 my o 4 belie 5 it is 6 the j 7 und	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09	2 3 4 5 6	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20 these issues. Perhaps the practical guidance is 09:14:23
2 3 my o 4 belia 5 it is 6 the j 7 und 8 coul	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09 erlying evidence has not been produced. That 09:13:15	2 3 4 5 6 7	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20 these issues. Perhaps the practical guidance is 09:14:23 there is no need to do this with each expert, to 09:14:26
2 my o 4 belie 5 it is 6 the j 7 und 8 coul 9 sub	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09 erlying evidence has not been produced. That 09:13:15 Id be done in submissions, in the post-hearing 09:13:18 missions. That could be it could be 09:13:21 tified at that stage. 09:13:23	2 3 4 5 6 7 8	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20 these issues. Perhaps the practical guidance is 09:14:23 there is no need to do this with each expert, to 09:14:26 point out during the examination as to to which 09:14:29
2 my (4 belia 5 it is 6 the (7 und) 8 coul 9 sub(0 iden) 1	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09 erlying evidence has not been produced. 2 my (4 belie 5 it is 6 the (7 und) 8 coul 9 sub 0 iden 1 2 reas 3 und 4 info 5 certa 6 thin 7 to 8 part 9 part 0 und 1 neec 2 duri 3	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09 erlying evidence has not been produced. That 09:13:15 Id be done in submissions, in the post-hearing 09:13:18 missions. That could be it could be 09:13:21 tified at that stage. 09:13:23 If there is a particular 09:13:24 on for counsel to highlight some of the 09:13:26 erlying or the nature of the underlying 09:13:31 rmation that has been provided, you're 09:13:33 ainly free feel free to do so, but we don't 09:13:35 k it's necessary. What would be better is 09:13:45 y's submission, not supported by the 09:13:45 y's submission, not supported by the 09:13:52 d to do a paragraph-by-paragraph accounting 09:13:56 As to statements made by 09:13:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	procedural rules in place in the UNCITRAL rules 09:14:10 and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20 these issues. Perhaps the practical guidance is 09:14:23 there is no need to do this with each expert, to 09:14:26 point out during the examination as to to which 09:14:29 part of the expert report there is no underlying 09:14:33 evidence. 09:14:36 But this is all noted, and our 09:14:37 preference would be that this issue is addressed 09:14:42 in submissions because it goes to the weight of 09:14:44 the evidence offered by the witnesses and experts. 09:14:46 MR. TERRY: Thank you for that 09:14:52 guidance. And just, again, for the record, we 09:14:53 certainly remain able to assist our friends in 09:14:59 to pursue that. 09:15:02 MR. SPELLISCY: Thank you. 09:15:03 PRESIDENT: Okay. Thank you 09:15:04 very much. There was some indication that we - 09:15:05 that the Claimant may wish to call back 09:15:08
2 3 my (4 belie 5 it is 6 the (7 und 8 coul 9 sub 0 iden 1 2 reas 3 und 4 info 5 certa 6 thin 7 to 8 part 9 part 2 und 4 coul 9 sub 0 iden 1 2 reas 3 und 4 info 5 certa 9 part 9 aut 9 a	stem in place for that. 09:12:56 In our view, subject to what 09:12:57 colleagues have to say, the Tribunal doesn't 09:13:00 eve that, during the examination of witness, 09:13:03 necessary to go and point out item by item 09:13:05 parts of the expert report for which the 09:13:09 erlying evidence has not been produced. That 09:13:15 Id be done in submissions, in the post-hearing 09:13:18 missions. That could be it could be 09:13:21 tified at that stage. 09:13:23 If there is a particular 09:13:24 on for counsel to highlight some of the 09:13:26 erlying or the nature of the underlying 09:13:31 rmation that has been provided, you're 09:13:33 ainly free feel free to do so, but we don't 09:13:35 k it's necessary. What would be better is 09:13:41 s of the expert report which are in in that 09:13:45 y's submission, not supported by the 09:13:49 erlying documentation. But I don't think we 09:13:53 ng the examination of a of a witness. 09:13:56	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	and in PO 1 as to how to deal with those those 09:14:13 issues. 09:14:17 So it seems to us that we have 09:14:17 already a mechanism in place to deal with all of 09:14:20 these issues. Perhaps the practical guidance is 09:14:23 there is no need to do this with each expert, to 09:14:26 point out during the examination as to to which 09:14:29 part of the expert report there is no underlying 09:14:33 evidence. 09:14:36 But this is all noted, and our 09:14:37 preference would be that this issue is addressed 09:14:42 in submissions because it goes to the weight of 09:14:44 the evidence offered by the witnesses and experts. 09:14:46 MR. TERRY: Thank you for that 09:14:52 guidance. And just, again, for the record, we 09:14:53 certainly remain able to assist our friends in 09:14:56 providing additional information if they do want 09:14:59 to pursue that. 09:15:02 MR. SPELLISCY: Thank you. 09:15:03 PRESIDENT: Okay. Thank you 09:15:04 very much. There was some indication that we - 09:15:05

7

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 17		Page 18
1	we have a conclusion? 09:15:17	1	heard that response. And what and I'm happy to 09:16:30
2	MR. TERRY: I think we need to 09:15:18	2	either do that, or we had suggested some 09:16:35
3	probably consult a little bit more just to make 09:15:20	3	stipulation that could answer these these 09:16:38
4	sure, but I think we're heading toward a 09:15:22	4	questions. 09:16:39
5	conclusion, unless we actually haven't had a 09:15:24	5	What I think would make most 09:16:41
6	chance. I gave a proposal to my friend, but we 09:15:28	6	sense, from our perspective, is we're happy to go 09:16:43
7	haven't had a chance to discuss it since then. 09:15:31	7	ahead with the examination of Mr. Cecchini, but my 09:16:46
8	MR. NEUFELD: So we received a 09:15:33	8	colleague, Myriam Seers would be the one to do it. 09:16:49
9	proposal this morning for Mr. Cecchini to answer 09:15:34	9	She is not here right now. She is just working 09:16:52
10	certain questions. He is here this morning. He 09:15:39	10	with another witness in terms of preparing a 09:16:55
11	he was asked to to attend this morning and 09:15:45	11	cross-examination. 09:16:56
12	has made himself available. 09:15:49	12	So what I would suggest is 09:16:57
13	He is his availability, 09:15:51	13	that we go ahead with Mr 09:16:59
14	going forward, is is in doubt. His mother is 09:15:53	14	PRESIDENT: Mr. Roberts. 09:17:03
15	very ill, so he is heading up to Kingston, which 09:15:57	15	MR. TERRY: Mr. Roberts is 09:17:04
16	is a few hours away, over the weekend to help set 09:15:59	16	here, and then we can deal with if, in the 09:17:05
17	up the home for her to return from the hospital. 09:16:02	17	meantime, I might speak further with my friend, 09:17:08
18	And he is here. As of this 09:16:05	18	and if there are ways in which this information 09:17:10
19	morning, we were given these these questions at 09:16:09	19	can be stipulated without the need to call the 09:17:13
20	8:30 when we came in. He has consulted them now, 09:16:12	20	witness, we're certainly open to that as well. 09:17:15
21	and he is prepared to answer these questions as 09:16:15	21	PRESIDENT: Okay. So but 09:17:18
22	best he can. And I think that's probably the 09:16:17	22	hopefully this issue is sorted out in the course 09:17:20
23	preferred approach for him to for us to move 09:16:19	23	of the morning so that he doesn't need to wait the 09:17:22
24	forward with his evidence. 09:16:22	24	whole day. 09:17:24
25	MR. TERRY: Yes. I hadn't 09:16:26	25	MR. TERRY: Yes. We're very 09:17:24

Page 19

	C
1	sensitive to his issues. 09:17:26
2	PRESIDENT: Very good. So we 09:17:28
3	start with the start with the WSP and 09:17:29
4	Mr. Roberts. 09:17:31
5	Good morning, Mr. Roberts. 09:18:12
6	THE WITNESS: Good morning. 09:18:13
7	PRESIDENT: And welcome. To 09:18:14
8	begin with, if you could please state your full 09:18:20
9	name for the record and then read the declaration 09:18:23
10	of expert witness that you should have in front of 09:18:25
11	you. 09:18:28
12	THE WITNESS: Thank you. So 09:18:28
13	my name is Andrew Roberts, and I'll read this. I 09:18:29
14	solemnly declare upon my honour and conscience that 09:18:32
15	my evidence and my opinions will be in accordance 09:18:35
16	with my sincere belief. 09:18:37
17	AFFIRMED: ANDREW ROBERTS 09:18:41
18	PRESIDENT: Thank you very 09:18:41
19	much. And the parties have agreed that experts 09:18:42
20	would be able to make a brief presentation in lieu 09:18:47
21	of direct examination, but there could be a 09:18:53
22	combination of both as well. So is there going to 09:18:55
23	be any additional direct examination in addition 09:19:01
24	to the presentation by Mr. Roberts? 09:19:04
25	MR. TERRY: We just have, I 09:19:06

1 think, one question. 09:19:07 2 PRESIDENT: Okay. Do you want 09:19:08 3 to do it now to begin with or at the end? 09:19:09 4 MR. TERRY: Probably at the 09:19:11 5 end. 09:19:12 6 PRESIDENT: Okay. Mr. Roberts 09:19:13 7 please go ahead with your presentation. 09:19:14 8 THE WITNESS: Thank you. Good 09:19:16 9 morning. So this morning I'm going to give you a 09:19:17 10 short presentation over the next 15 or 20 minutes 09:19:19 11 or so on a permitting review for the Wolfe Island 09:19:21 12 Shoals program. It may be there may be material 09:19:25 13 that's not shown on there. 09:19:40 14 MR. TERRY: Can we just take a 09:19:41 15 break to see if we can fix this technical issue? 09:19:43 16 MS. NETTLETON: Yes. 09:19:46 17 PRESIDENT: Yes. The pictures 09:19:48 18 are nice, but it would be good to have the text as 09:19:49 19 well. 09:19:51 20 [Laughter.] 09:19:52 21 PRESENTATION BY ANDREW ROBERTS, WSP 09:20:35 22 PRESIDENT: Yes. 09:20:35 23 THE WITNESS: Okay. So it 09:20:37 24 looks like we fixed the problem here. So just a 09:20:37 25 brief agenda for the presentation: I'm going to 09:20:40

8

Page 20

	Page 21		Page 22
1	tell you a little bit about WSP and the kind of 09:20:43	1	for excuse me provides environmental 09:21:58
2	work that we do. I'm going to highlight some of 09:20:46	2	services and permitting services. 09:22:01
3	WSP's experience in renewable energy, particularly 09:20:49	3	This is a a list of some 09:22:04
4	here in Ontario. Then I'm going to give you some 09:20:53	4	highlighted projects that we've been involved in. 09:22:06
5	highlights from the schedule that we prepared as 09:20:56	5	So, globally, WSP has some experience with the 09:22:08
6	part of our work here for the project. We have a 09:20:58	6	permitting process for offshore wind in the U.K., 09:22:12
7	response to to some of the URS comments that 09:21:01	7	as well as some of the facility engineering for 09:22:15
8	were received. And then I'm going to give you a 09:21:04	8	offshore projects as well in the U.K. here in 09:22:18
9	detailed explanation of the Renewable Energy 09:21:06	9	Ontario, we've worked for a number of different 09:22:20
10	Approval regulation and its requirements and the 09:21:10	10	wind developers. I have highlighted a few here. 09:22:24
11	components that make up that submission. 09:21:12	11	So I'll tell you a little bit 09:22:29
12	So WSP is a global company 09:21:15	12	about myself and my role at WSP. So I'm the team 09:22:33
13	with with lots of employees across the world. 09:21:20	13	leader for approvals and permitting in WSP's 09:22:36
14	Here in Canada we have close to 9,000 employees. 09:21:23	14	environment division. And my role there is to 09:22:40
15	We work in many different areas in energy, and 09:21:27	15	design and manage environmental assessment 09:22:43
16	renewable energy is one of our specialty areas of 09:21:30	16	projects in several different areas, renewable 09:22:45
17	service. 09:21:32	17	energy being one, transmission and distribution, 09:22:48
18	We work in three sort of major 09:21:33	18	as well as municipal infrastructure projects. So 09:22:52
19	different areas in in wind energy and renewable 09:21:37	19	on a day-to-day basis, I coordinate 09:22:55
20	energy. So the first part is the development 09:21:40	20	multidisciplinary project teams that include 09:22:57
21	process and things like wind resource assessment 09:21:42	21	natural scientists, archaeologists, acoustic 09:23:00
22	as well as a facility engineering for all the 09:21:46	22	engineers, geoscientists, as well as consultation 09:23:03
23	components. We also provide construction services 09:21:49	23	experts. 09:23:06
24	and contract management during construction 09:21:52	24	In terms of my experience in 09:23:06
25	process, and as well we have we have a practice 09:21:54	25	renewable energy permitting, I've worked on 09:23:10

Page 23

	6
1	perhaps 30-plus projects relating to environmental 09:23:13
2	assessments and performance permitting for wind 09:23:16
3	and solar projects as well as providing advisory 09:23:19
4	services and risk reviews for renewable projects 09:23:22
5	here in Ontario as well as the United States. 09:23:26
6	General EA practice: I have 09:23:28
7	worked on 10-plus projects in transmission and 09:23:31
8	distribution, including transformer stations and 09:23:34
9	transmission lines as well as municipal 09:23:37
10	infrastructure projects, roads and bridges, and I 09:23:39
11	have some background as well in mining baseline 09:23:43
12	studies in Manitoba and New Brunswick. 09:23:45
13	I also have a role in terms of 09:23:48
14	environmental compliance, and we're currently 09:23:50
15	doing some work on five wind projects that are 09:23:53
16	under construction, and WSP is managing the 09:23:55
17	post-REA permits as well as managing the the 09:24:00
18	compliance with the permit conditions during 09:24:05
19	construction. I joined Genivar, which became WSP 09:24:07
20	in 2013, and I have been practising in 09:24:12
21	environmental-related projects for about 20 years. 09:24:17
22	And my educational background 09:24:20
23	is in urban planning and as well as applied 09:24:22
24	science and management. 09:24:25
25	So specific experience with 09:24:26

Page 24

	-
1	projects in the subject to the REA in Ontario, 09:24:30
2	I'm going to list a few here: Two projects in 09:24:34
3	Grey Highlands, Ontario; Settlers Landing, Snowy 09:24:38
4	Ridge, and then a list here for some other 09:24:43
5	projects. In these roles, I've done either 09:24:45
6	technical contributions or project management, so 09:24:47
7	a wide range of services. 09:24:50
8	Other projects in Ontario that 09:24:51
9	aren't subject to the to the REA process 09:24:55
10	includes the Nigig project, the Henvey Inlet Wind 09:24:57
11	Centre. It's a First Nations project in northern 09:25:03
12	Ontario. I was the project manager for that. 09:25:05
13	It's an interesting project. It's not subject to 09:25:08
14	the REA because of the First Nations ownership of 09:25:10
15	the project. It's more in line with what we call 09:25:13
16	a CEAA, or a Canadian Environmental Assessment Act 09:25:15
17	Screening. 09:25:18
18	And I've got a long background 09:25:20
19	as well with what we call Class 3 solar projects, 09:25:23
20	so ground-mount solar projects to 10 megawatts. 09:25:26
21	So I'd like to just show you a 09:25:31
22	summary of the schedule that we had produced as 09:25:34
23	part of the work. So based on our experience, 09:25:37
24	some reasonable assumptions, and a review of the 09:25:42
25	data that was presented to us as part of the 09:25:45

9

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 25		Page 26
1	project, and material that we got from other 09:25:48	1	In terms of the in terms of 09:27:02
2	subject matter experts, we saw no real material 09:25:50	2	the review by the MOE, we accounted for a 40-days 09:27:05
3	impediments to obtain a REA in the timeline set 09:25:54	3	completeness check, which is which has a 09:27:09
4	out. 09:25:57	4	service standard that is published, as well as a 09:27:11
5	We relied on inputs from a 09:25:58	5	six-month Ministry review once the application had 09:27:15
6	number of subject matter experts, including birds 09:26:00	6	been made. And, again, this is based on a service 09:27:18
7	and migratory birds, bats and migratory bats, fish 09:26:03	7	standard from the MOE. 09:27:20
8	and fish habitat, archeological studies, and the 09:26:06	8	So with that, presenting here 09:27:21
9	suite of coastal engineering water bodies and 09:26:10	9	the key milestones in the project schedule just as 09:27:27
10	other technical studies. So this is the 09:26:13	10	a highlight. So we don't need to review all of 09:27:31
11	graphic here is just a really sort of a rolled-up 09:26:15	11	them, but starting in February 2011 with the 09:27:34
12	version of the schedule that was produced as part 09:26:18	12	issuance of a draft project description report to 09:27:38
13	of the project. 09:26:20	13	start the program, with the completion of an 09:27:40
14	It shows the major components 09:26:23	14	appeal to the REA completed by February 2014. 09:27:45
15	of the program, including the mandatory public 09:26:25	15	So we reviewed some of the 09:27:50
16	information centres, the length of time for 09:26:28	16	comments in the URS second technical report, and I 09:27:57
17	publishing notices and reports, as well as review 09:26:31	17	have the following comments to make. 09:28:02
18	time for the responsible agency, which is the 09:26:35	18	So, in general, URS agreed 09:28:04
19	Ministry of the Environment. 09:26:39	19	with our scheduling assumptions in these three key 09:28:05
20	So the detailed project 09:26:41	20	areas, which are the scoping work to be done with 09:28:09
21	schedule was prepared in conjunction with Sgurr 09:26:47	21	agencies at the outset of the project, as well as 09:28:13
22	Energy, with our input, with input from Baird and 09:26:50	22	the consultation component and the timing for the 09:28:16
23	others, and it provides a reasonable and realistic 09:26:52	23	notifications and publishing of consultation or 09:28:20
24	time frame for completing the permitting work and 09:26:56	24	the materials before consultation as well as the 09:28:23
25	all the studies needed to apply for the REA. 09:26:59	25	ERT appeal happening and the period of time in 09:28:27
	Page 27		Page 28
1	which that takes to be to be resolved. 09:28:30	1	that are available for for birds and for bats 09:29:54
2	URS disagrees with WSP in the 09:28:34	2	and for for other biological studies. 09:29:57
3	following schedule assumptions. So the technical 09:28:38	3	So URS is claiming that so 09:30:00
4	review by the MOE, so, again, we based our 09:28:43	4	Genivar, WSP's predecessor, in our proposal to 09:30:07
5	scheduling assumptions on the 40-day completeness 09:28:46	5	Windstream to do the permitting work that we had 09:30:11
6	check and the six-month service guarantee or 09:28:48	6	suggested that there was a year of bat field 09:30:14
7	service standard for reviewing REA completion. 09:28:51	7	surveys that would be required in order for us to 09:30:17
8	These are the published numbers that the MOE 09:28:54	8	apply for the REA. 09:30:19

1	which that takes to be to be resolved. 09:28:30	1	that a
2	URS disagrees with WSP in the 09:28:34	2	and fo
3	following schedule assumptions. So the technical 09:28:38	3	
4	review by the MOE, so, again, we based our 09:28:43	4	Geniv
5	scheduling assumptions on the 40-day completeness 09:28:46	5	Winds
6	check and the six-month service guarantee or 09:28:48	6	sugge
7	service standard for reviewing REA completion. 09:28:51	7	surve
8	These are the published numbers that the MOE 09:28:54	8	apply
9	provides, and as a project planner, that's how we 09:28:57	9	
10	plan a project, in terms of a schedule. So we 09:29:01	10	reviev
11	would use those we would use that information 09:29:04	11	of the
12	to define the schedule. 09:29:06	12	prepa
13	The other point of 09:29:08	13	field s
14	disagreement is with field studies. So URS agrees 09:29:11	14	withir
15	with WSP regarding the amount of time it takes 09:29:14	15	consti
16	studies to go from the fieldwork to completion of 09:29:19	16	data.
17	of the reporting. But they disagree with us in 09:29:23	17	
18	terms of the length of time it takes to complete 09:29:27	18	only c
19	the field the field studies. 09:29:29	19	the ye
20	So URS claims that 12 months 09:29:31	20	any su
21	are required to to complete field studies. 09:29:34	21	hiberr
22	However, there's that's not our that's not 09:29:37	22	them
23	our opinion on on providing the studies. It's 09:29:42	23	
24	very rare we would do 365 days of fieldwork. We 09:29:45	24	brief o
25	typically focus on the specific survey windows 09:29:49	25	we in
		<u>.</u>	

that are available for for birds and for bats 09:29:54
and for for other biological studies. 09:29:57
So URS is claiming that so 09:30:00
Genivar, WSP's predecessor, in our proposal to 09:30:07
Windstream to do the permitting work that we had 09:30:11
suggested that there was a year of bat field 09:30:14
surveys that would be required in order for us to 09:30:17
apply for the REA. 09:30:19
I disagree with this. I have 09:30:21
reviewed that proposal, and though I wasn't part 09:30:23
of the company and, therefore, wasn't part of 09:30:26
preparing that, it clearly says that we're doing 09:30:29
field studies in two different survey windows 09:30:32
within the same year. And so that would 09:30:34
constitute a single year, one year's worth of 09:30:37
data. 09:30:40
We can only observe we can 09:30:40
only observe bats and birds at certain times of 09:30:43
the year. In particular, we would not be doing 09:30:47
any surveying during wintertime as as bats 09:30:48
hibernate during the winter, and we don't observe 09:30:51
them during that period of time. 09:30:53
So I'm going to give you a 09:30:54
brief overview of the full suite of studies that 09:31:00
we included in the project schedule and how they 09:31:04

-

		-	
	Page 29		Page 30
1	roll into the REA. So we have accounted for all 09:31:05	1	expected for a wind facility of this type, 09:32:15
2	the studies, including the public and municipal 09:31:08	2	starting with a project description report to kick 09:32:20
3	and aboriginal consultations, the archeological 09:31:11	3	the project off and then culminating with a 09:32:23
4	studies, the heritage assessments, the Natural 09:31:15	4	consultation report that happens at the end of the 09:32:27
5	Heritage Assessments, and the water body 09:31:18	5	project. 09:32:30
6	assessments. And in the next few slides, I'm 09:31:20	6	So, really, with the exception 09:32:30
7	going to provide a more detailed breakdown of each 09:31:23	7	of the consultation report and the project 09:32:32
8	stage of the preparation. 09:31:24	8	description report draft that happens at the 09:32:35
9	So really, in the REA process, 09:31:25	9	beginning of the project, the work can be done 09:32:36
10	there are, I would say, if you wanted to simplify 09:31:28	10	concurrently in between. So the rest of the 09:32:40
11	it, two main activities. One is a consultation 09:31:30	11	assessments are done essentially at the same time 09:32:44
12	activity, and there are regulatory timings for 09:31:33	12	by different disciplines and different teams. 09:32:47
13	posting of notices and also for publishing 09:31:37	13	So I'm just going to move back 09:32:49
14	material for various groups to review. 09:31:40	14	one slide. So we would have begun work on the 09:32:50
15	And we included these 09:31:42	15	project in February of 2011. We would expect the 09:32:54
16	mandatory consultation points in the project 09:31:44	16	draft reports to be completed in May 2012. And 09:32:57
17	schedule, and these these activities kind of 09:31:47	17	following the final public meeting, we would 09:33:01
18	book-end the substantive reporting work that gets 09:31:51	18	likely have finalized those reports in October 09:33:05
19	done in the middle. 09:31:54	19	2012 and then made the REA application at that 09:33:08
20	So the REA reporting itself, 09:31:56	20	time. 09:33:10
21	there are a number of reports that are required to 09:32:01	21	So there is another suite of 09:33:10
22	make a complete filing, depending on the class of 09:32:04	22	additional technical studies for offshore wind 09:33:15
23	the project. Rather than sort of listing all of 09:32:06	23	projects that were anticipated, and these are 09:33:18
24	them, they're all listed here, and it's a complete 09:32:09	24	consistent with the draft submission guidelines 09:33:20
25	listing of what's required and what would be 09:32:13	25	for offshore wind projects. 09:33:23
	Page 31		Page 32
1	These studies would have been 09:33:25	1	Just to be clear, if the 09:34:31
2	started in around March 2011, after scoping, and 09:33:26	2	question had been posed, is it more likely than 09:34:32
3	they likely would have been finalized by October 09:33:30	3	not that WWIS would have obtained a REA within the 09:34:35
4	2012, after the final public meeting. And the 09:33:33	4	timelines required by the FIT contract, would that 09:34:40
5	timing and duration of these studies in the 09:33:35	5	change your opinion? 09:34:43
6	schedule, they are including field windows for 09:33:37	6	A. Given all of the 09:34:45
7	some of the studies. They're consistent with 09:33:40	7	information that we've seen and the scheduling 09:34:46
8	Baird's experience in coastal engineering and 09:33:43	8	exercise that we have performed, more likely than 09:34:48

	1 450 51		1 uge 52
1	These studies would have been 09:33:25	1	Just to be clear, if the 09:34:31
2	started in around March 2011, after scoping, and 09:33:26	2	question had been posed, is it more likely than 09:34:32
3	they likely would have been finalized by October 09:33:30	3	not that WWIS would have obtained a REA within the 09:34:35
4	2012, after the final public meeting. And the 09:33:33	4	timelines required by the FIT contract, would that 09:34:40
5	timing and duration of these studies in the 09:33:35	5	change your opinion? 09:34:43
6	schedule, they are including field windows for 09:33:37	6	A. Given all of the 09:34:45
7	some of the studies. They're consistent with 09:33:40	7	information that we've seen and the scheduling 09:34:46
8	Baird's experience in coastal engineering and 09:33:43	8	exercise that we have performed, more likely than 09:34:48
9	related work. And here is a list of the of the 09:33:46	9	not the permit would have been achieved within 09:34:52
10	specific reports that would have been prepared as 09:33:48	10	those timelines. 09:34:55
11	part of the project. 09:33:50	11	Q. Thank you. 09:34:56
12	So that's all I have for the 09:33:53	12	PRESIDENT: Thank you very 09:35:00
13	presentation this morning. 09:33:54	13	much. 09:35:01
14	PRESIDENT: Thank you very 09:34:00	14	And cross-examination will be 09:35:01
15	much. Mr. Terry. 09:34:01	15	Ms. Wates. 09:35:02
16	EXAMINATION-IN-CHIEF BY MR. TERRY: 09:34:05	16	CROSS-EXAMINATION BY MS. WATES: 09:35:13
17	MR. TERRY: Good morning. I 09:34:05	17	Q. Good morning, 09:35:13
18	have just one question. In Canada's opening 09:34:09	18	Mr. Roberts. My name is Jenna Wates, and I'm 09:35:48
19	statement, there was a suggestion that the 09:34:12	19	counsel to the Government of Canada in this 09:35:51
20	conclusion in the expert reports, including yours, 09:34:16	20	arbitration. I'm going to ask you some questions 09:35:52
21	that there are no material impediments to 09:34:20	21	about the WSP report that the Claimant has filed 09:35:55
22	developing the project really meant whether 09:34:22	22	in this arbitration and that you just summarized 09:35:59
23	developing the project was possible. And he says 09:34:25	23	in your presentation. 09:36:02
24	that's a completely Canada stated that that was 09:34:28	24	If you don't understand any 09:36:03
25	a completely irrelevant question. 09:34:29	25	one of my questions, let me know, and I'll repeat 09:36:05

CONFIDENTIAL AND RESTRICTED February 19, 2016

	STREAM ENERGY ELC V. OOVERINMENT OF CANADA		1 cordary 19, 2010
	Page 33		Page 34
1	it or rephrase it, because it's important that we 09:36:08	1	Q. Okay. And so this was 09:37:10
2	understand each other. 09:36:10	2	after the Claimant again, just after the 09:37:11
3	And it's also important that 09:36:11	3	Claimant had filed its Memorial and received 09:37:13
4	you answer my questions clearly and directly. So 09:36:12	4	Canada's Counter-Memorial in this arbitration; 09:37:16
5	to the extent that the answer to the question is a 09:36:15	5	correct? 09:37:18
6	yes or a no, I'd appreciate if you could state 09:36:17	6	A. I don't know when they 09:37:19
7	that upfront, and then you can provide any 09:36:19	7	received 09:37:20
8	additional context you think is necessary, keeping 09:36:22	8	Q. Okay. 09:37:20
9	in mind that we're also on a $-$ on schedule today. 09:36:26	9	A. – the documents, no. 09:37:20
10	I will also refer to various 09:36:29	10	Q. That's fine. And your 09:37:21
11	documents in the record, which are provided in the 09:36:32	11	report responds to comments that were contained in 09:37:24
12	binder in front of you. I'll refer to them by 09:36:36	12	the first report of Canada's expert, URS, 09:37:27
13	both exhibit number for the record, and you can 09:36:39	13	regarding the risk associated with obtaining 09:37:29
14	just concern yourself with the tab numbers, and I 09:36:41	14	permits from the project; correct? 09:37:32
15	will direct you to to the documents as we go. 09:36:43	15	A. Yes, that's correct. 09:37:33
16	A. Okay. 09:36:45	16	Q. And you also developed 09:37:34
17	Q. So, now, on behalf of WSP 09:36:46	17	the permitting and approvals section of the 09:37:37
18	Canada, you provided the Claimant with the report, 09:36:54	18	overall project schedule that's contained in 09:37:40
19	dated June 2015 which was filed with the Rejoinder 09:36:57	19	Appendix 4 of the Sgurr Energy report, the second 09:37:42
20	Memorial in this arbitration; correct? 09:37:02	20	Sgurr Energy report, as I understand it. Is that 09:37:45
21	A. That's correct. 09:37:03	21	correct? 09:37:47
22	Q. You were retained on 09:37:04	22	A. I want to just make sure 09:37:48
23	March 25, 2015 according to your report; correct? 09:37:05	23	that it's here in the document. Oh, yes. We 09:37:50
24	A. Approximately that date, 09:37:08	24	we did the overall permitting schedule with the 09:37:54
25	yes. 09:37:09	25	rest of the team, as well, with the input from the 09:37:57
	Page 35		Page 36
1	subject matter experts. 09:38:00	1	point out that there you said that you stated 09:39:04
2	Q. Right. So you I think 09:38:01	2	in the second sentence that: 09:39:07
3	you said in your report this was prepared in 09:38:03	3	"The project schedule 09:39:08
4	consultation with or collaboration with Sgurr, 09:38:05	4	demonstrates that the 09:39:09
5	with Baird, Ocean COWI, and Weeks Marine; correct? 09:38:08	5	federal CEAA" 09:39:10
6	A. Yes. 09:38:14	6	So Canadian Environmental 09:39:10
7	Q. But the permitting and 09:38:14	7	Assessment Act 09:39:14
8	approval section of the schedule that the Claimant 09:38:15	8	" and the provincial 09:39:14
9	has put forward in this arbitration comes from 09:38:17	9	REA would more likely 09:39:15
10	from the reports that you've provided or the 09:38:19	10	than not have been 09:39:17
11	report that you provided, rather? 09:38:21	11	obtained within the 09:39:18
12	A. As well some of the other 09:38:22	12	three-year period to 09:39:19
13	reports that we refer to in our report, including 09:38:23	13	obtain regulatory 09:39:20
14	Reynolds and Kerlinger. 09:38:27	14	approvals." 09:39:20
15	Q. Okay. Thank you. Now, 09:38:29	15	Do you see that? 09:39:21
16	your report concluded that there are no material 09:38:35	16	A. On page 12? 09:39:22
17	impediments to the Claimant obtaining all permits 09:38:37	17	Q. Yes. In the second 09:39:23
18	required for the project within three years; 09:38:40	18	sentence, I believe. Perhaps I have the wrong 09:39:25
19	correct? 09:38:42	19	A. I don't see that on page 09:39:32
20	A. It would be slightly less 09:38:43	20	12. 09:39:33

19	correct? 09:38:42
20	A. It would be slightly less 09:38:43
21	than three years per the schedule. 09:38:44
22	Q. Okay. And on this point, 09:38:47
23	if you could turn to page 12 of your report. 09:38:49
24	A. Okay. 09:39:03
25	Q. And I'd just like to 09:39:03

21

22

23

24

25

apologies.

09:39:35

09:39:37

09:39:39

09:39:38

Q. -- reference. Sorry, 09:39:33

it's in the last paragraph on the page. My

Q. Yes.

A. Last paragraph.

ONFIDENTIAL AND RESTRICTED February 19, 2016

PCA Case No. 2013-22	CO
WINDSTREAM ENERGY LLC v. GOVERNMENT OF CANADA	

	Page 37		Page 38
1	A. Yes, I see that. 09:39:47	1	in front of me, so it's not in my report here. 09:40:54
2	Q. All right. So you said 09:39:48	2	Q. If you turn to Appendix 4 09:40:59
3	in your report there that it was more likely than 09:39:49	3	of the Sgurr Energy Report, on page 66, I believe. 09:41:00
4	not that the permits could have been obtained 09:39:52	4	A. Sixty-six? Okay. 09:41:03
5	within a three-year period, but as we saw in your 09:39:55	5	MS. SEERS: Ms. Wates, I 09:41:05
6	presentation this morning and in the consistent 09:39:59	6	actually have a large copy of the schedule. 09:41:06
7	with the schedule that is set out in appendix of 09:40:04	7	Perhaps it would be helpful for you and for 09:41:08
8	the Sgurr report 09:40:09	8	everyone if I could distribute it, if you would 09:41:10
9	A. Yes. 09:40:10	9	like. It's up to you. 09:41:13
10	Q this three-year period 09:40:10	10	MS. WATES: Sure. That would 09:41:14
11	is inclusive of six months to complete the 09:40:12	11	be great. Thank you. 09:41:15
12	Environmental Review Tribunal process for the 09:40:17	12	MS. SEERS: It's the very 09:41:17
13	Renewable Energy Approval; correct? 09:40:20	13	large envelope I took down. I apologize. 09:41:19
14	A. I believe so, yes. 09:40:22	14	MR. TERRY: It is the least we 09:41:22
15	Q. Okay. So I would just 09:40:23	15	can do, given the services that Donnie provides. 09:41:23
16	like to confirm on this issue, because we we 09:40:31	16	[Laughter.] 09:41:25
17	heard testimony yesterday from the Claimant's 09:40:34	17	MS. WATES: And if I could 09:41:30
18	expert, Ms. Powell, that, in her opinion, it would 09:40:37	18	maybe ask for indulgence for a copy for myself. I 09:41:32
19	be reasonable to assume that the REA could be 09:40:40	19	have the smaller version. 09:41:35
20	obtained within 36 months and that the six 09:40:43	20	[Reporter's Note: Ms. Seers passes out 09:41:38
21	months 09:40:46	21	documents.] 09:41:39
22	A. Okay. 09:40:46	22	MS. WATES: 09:42:01
23	Q. – ERT appeals process 09:40:47	23	Q. Now, the portion of the 09:42:01
24	would be on top of that. So 09:40:49	24	schedule that I'm referring to is on page 67. I'm 09:42:02
25	A. I don't have the schedule 09:40:53	25	looking at lines 9 sorry, line 9 is on page 66. 09:42:05
	Page 39		Page 40
1	A. Yes. 09:42:11	1	Q. Okay. And I guess I 09:43:15
2	Q. It shows that the REA 09:42:11	2	would just put it to you that yesterday we heard 09:43:17
3	activities began on February 11th, 2011. 09:42:13	3	from the Claimant's expert on environmental law 09:43:20
4	A. Mm-hmm. 09:42:15	4	that the six months for the ERT approval process 09:43:24
5	Q. And then turning to the 09:42:16	5	should be added at the end so that, in fact, it 09:43:30
6	next page, line 67 shows that the REA is issued on 09:42:18	6	would be a 42-month period to complete all of 09:43:33
7	July 24, 2013. 09:42:25	7	these activities. And if you could just tell me 09:43:35
8	A. Mm-hmm. 09:42:27	8	how does that impact, to the best of your 09:43:39
9	Q. And line 68 shows that 09:42:27	9	knowledge, the rest of the schedule, to the extent 09:43:42
10	the REA appeal period begins July 24, 2013 09:42:29	10	that the ERT appeal process is extended sorry, 09:43:45
11	A. Correct. 09:42:33	11	rather, the REA process is extended by six months 09:43:52
12	Q and ends August 12, 09:42:34	12	so that the ERT appeal process doesn't start until 09:43:55
13	2013. And on line 69 we see that the appeal 09:42:36	13	six months later, for a total of 42 months? 09:43:58
14	process itself begins August 12, 2013 and ends 09:42:45	14	A. Well, I would suggest 09:44:02
15	February 11, 2014. Do you see that? 09:42:48	15	that, based on the granularity of our schedule and 09:44:04
16	A. I see that. 09:42:50	16	all the work that we put into it, we're 09:44:07
17	Q. So just to confirm, then, 09:42:51	17	demonstrating that that's included in that time 09:44:09
18	the schedule that you provided and that's being 09:42:55	18	period for our schedule. 09:44:12
19	relied on by the Claimant in this arbitration 09:42:58	19	So I can't comment on someone 09:44:15

20 provides that the six months for the REA approvals 09:43:03 21 process is included in the total 36 months that 09:43:06 22 you're saying is what we should assume for the 09:43:10

23 permitting schedule. 09:43:12 24 A. Right. We have included 09:43:13 25 that. 09:43:15

else's testimony in terms of a thought about -- an 09:44:19 estimation of how long the schedule would take. 09:44:23

22 But based on our work and our review of the 09:44:26 23 project documentation and our understanding of 09:44:29 24 those windows, we have included all that into our 09:44:31 25 schedule work. 09:44:34

20

21

	Page 41		Page 42
1	Q. Okay. So then, I guess, 09:44:35	1	significant. I wouldn't agree. 09:45:41
2	I'd like to just ask if that's a point of 09:44:36	2	Q. Isn't it true that, in 09:45:48
3	clarification that should be corrected for the 09:44:39	3	fact, the timing of the construction, though, is 09:45:51
4	record, because as we just went through earlier, 09:44:40	4	and financial close is contingent on this 09:45:55
5	your report states that it would be reasonable to 09:44:44	5	issue? 09:45:59
6	assume that the permit could be obtained within 09:44:47	6	A. That's not in my area of 09:45:59
7	three years, but, in fact, now you are telling us 09:44:52	7	expertise in terms of that, those areas. 09:46:01
8	that it's 30 months? 09:44:55	8	Q. Okay. That's fine. We 09:46:03
9	A. That's fairly close to 09:44:55	9	can put that to someone it's more suited for then. 09:46:06
10	three years. It's again, it's it's a 09:44:58	10	Thank you. 09:46:09
11	three-year window for perhaps all the permits that 09:45:03	11	A. Sure. 09:46:10
12	might be required, including some of the permits 09:45:06	12	Q. Now, you mentioned you 09:46:24
13	that you would have to get after the REA was 09:45:08	13	mentioned a proposal that was submitted by a 09:46:35
14	issued, including local permits and things like 09:45:11	14	company called Genivar to the Claimant in response 09:46:39
15	that. 09:45:14	15	to a RFP. 09:46:42
16	Q. But I think you would 09:45:15	16	A. That's correct. 09:46:44
17	agree with me, though, even though it's only a 09:45:15	17	Q. If I can if you will 09:46:45
18	matter of six months, that can be quite 09:45:18	18	just bear with me for one moment. 09:46:57
19	significant when we're working with, you know, a 09:45:20	19	Okay. So and your report 09:47:00
20	five-year total time to reach the MCOD under the 09:45:23	20	indicates that Genivar was retained by Windstream 09:47:03
21	FIT contract. Wouldn't you agree? 09:45:27	21	also to conduct some electrical engineering work, 09:47:08
22	A. Six months, based on my 09:45:30	22	including applications for a System Impact 09:47:10
23	experience with other projects, in developing 09:45:32	23	Assessment and a customer impact assessment from 09:47:14
24	other projects, it's in a long time frame 09:45:35	24	the IESO and Hydro One for the project in 2009. 09:47:16
25	project, that would be not particularly 09:45:40	25	Is that correct? 09:47:19
	Page 43		Page 44
1	Page 43 A That's correct yes 09:47:20	1	Page 44
1 2	A. That's correct, yes. 09:47:20	1	A. Tab No. 8, okay. 09:48:08
	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21	2	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10
2	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23		A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13
2 3	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23	2 3	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17
2 3 4	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27	2 3 4	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20
2 3 4 5	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31	2 3 4 5	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20
2 3 4 5 6	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35	2 3 4 5 6	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23
2 3 4 5 6 7 8 9	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37	2 3 4 5 6 7 8 9	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26
2 3 4 5 6 7 8 9 10	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37	2 3 4 5 6 7 8 9 10	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27
2 3 4 5 6 7 8 9 10 11	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39	2 3 4 5 6 7 8 9 10 11	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28
2 3 4 5 6 7 8 9 10 11 12	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39 Q. But it was your firm 09:47:40	2 3 4 5 6 7 8 9 10 11 12	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30
2 3 4 5 6 7 8 9 10 11 12 13	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39 Q. But it was your firm 09:47:40 that, you indicated in your report, managed that 09:47:41	2 3 4 5 6 7 8 9 10 11 12 13	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33
2 3 4 5 6 7 8 9 10 11 12 13 14	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39 Q. But it was your firm 09:47:40 that, you indicated in your report, managed that 09:47:41 process? 09:47:44	2 3 4 5 6 7 8 9 10 11 12 13 14	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34
2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39 Q. But it was your firm 09:47:40 that, you indicated in your report, managed that 09:47:41 process? 09:47:44 A. That's correct, yes. 09:47:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. That's correct, yes. 09:47:20 Q. Okay. And are you aware 09:47:21 that Windstream obtained a Notification of 09:47:23 Conditional Approval of the connection for its 09:47:27 project? 09:47:28 A. Again, so the connection 09:47:29 process and application process is not my area of 09:47:31 expertise at all, and we have a different group 09:47:35 that deals with that, so I'm not aware of that 09:47:37 Q. Okay. 09:47:37 A that fact. 09:47:39 Q. But it was your firm 09:47:40 that, you indicated in your report, managed that 09:47:41 process? 09:47:44 A. That's correct, yes. 09:47:44 Q. Okay. So I'd just like 09:47:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:44$ Q. Okay. So I'd just like $09:47:45$ to take you to that document that I referred to, $09:47:46$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:44$ Q. Okay. So I'd just like $09:47:45$ to take you to that document that I referred to, $09:47:46$ the Notification of Conditional Approval. It's at $09:47:49$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that - $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that - $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$ record. $09:47:55$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:49
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$ record. $09:47:55$ A. Sorry, this this $09:47:57$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:49 the modification detailed 09:48:50
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:44$ Q. Okay. So I'd just like $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$ record. $09:47:55$ A. Sorry, this this $09:47:57$ binder here? $09:47:59$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 contained in the 09:48:26 Windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:48 conditional approval for 09:48:49 the modification detailed 09:48:50 in the attached 09:48:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$ record. $09:47:55$ A. Sorry, this this $09:47:57$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:48 conditional approval for 09:48:49 the modification detailed 09:48:50 in the attached 09:48:51 assessment report." 09:48:53
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. That's correct, yes. $09:47:20$ Q. Okay. And are you aware $09:47:21$ that Windstream obtained a Notification of $09:47:23$ Conditional Approval of the connection for its $09:47:27$ project? $09:47:28$ A. Again, so the connection $09:47:29$ process and application process is not my area of $09:47:31$ expertise at all, and we have a different group $09:47:35$ that deals with that, so I'm not aware of that $09:47:37$ Q. Okay. $09:47:37$ A that fact. $09:47:39$ Q. But it was your firm $09:47:40$ that, you indicated in your report, managed that $09:47:41$ process? $09:47:44$ A. That's correct, yes. $09:47:44$ Q. Okay. So I'd just like $09:47:45$ to take you to that document that I referred to, $09:47:49$ Tab 8 of your report, Exhibit C-0382, for the $09:47:51$ record. $09:47:55$ A. Sorry, this this $09:47:59$ Q. Yes, that binder. Sorry, $09:47:59$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Tab No. 8, okay. 09:48:08 Q. Exhibit C-0382. And in 09:48:10 the third paragraph, it states that the sorry, 09:48:13 if you flip to the excerpt that I have included 09:48:17 there, in the third paragraph, it states that: 09:48:20 "The IESO has granted 09:48:23 conditional approval for 09:48:24 the modification 09:48:26 windstream's project 09:48:27 proposal." 09:48:28 Do you see that? 09:48:30 A. Which paragraph? I'm 09:48:33 sorry, one more time? 09:48:34 Q. In the third paragraph. 09:48:36 A. Okay. Okay. I see it, 09:48:43 yes. 09:48:47 Q. "The IESO is, therefore, 09:48:47 pleased to grant 09:48:48 conditional approval for 09:48:49 the modification detailed 09:48:50 in the attached 09:48:51 assessment report." 09:48:53

	Page 45		Page 46
1	paragraph states that the final approval to 09:49:02	1	Q. And I have included here 09:49:59
2	connect the project to the grid will be granted 09:49:04	2	an excerpt from the System Impact Assessment 09:50:02
3	successfully upon completion of the IESO market 09:49:08	3	Report referred to in the letter. This is Exhibit 09:50:04
4	entry process, including satisfactory completion 09:49:10	4	C-0381 for the record. 09:50:07
5	of the requirements set out in a System Impact 09:49:13	5	This document was issued 09:50:10
6	Assessment Report. Do you see that? 09:49:16	6	November 8, 2010. Do you see that? 09:50:15
7	A. I do. 09:49:18	7	A. Yes. 09:50:17
8	Q. Okay. So recognizing 09:49:19	8	Q. But, again, you're not 09:50:17
9	that you weren't directly involved in the 09:49:22	9	this is you're not familiar with this 09:50:20
10	preparation of this document, but would you agree 09:49:24	10	A. No. 09:50:21
11	with me that, based on this letter, it's necessary 09:49:26	11	Q document? Okay. Then 09:50:22
12	to comply with the requirements of the System 09:49:30	12	I'd just ask you to turn to the next page, the 09:50:23
13	Impact Assessment in order to have this grid 09:49:33	13	excerpt that I have included. 09:50:27
14	connection be effective? 09:49:36	14	A. Okay. 09:50:29
15	A. So I would agree that 09:49:38	15	Q. And if you will just 09:50:29
16	that's what it says, but I don't understand or 09:49:40	16	follow along with me. The third paragraph there, 09:50:30
17	work in the assessment or the the market 09:49:44	17	the project of the project description, it 09:50:35
18	connection assessment work at all. 09:49:48	18	states that: 09:50:38
19	Q. Okay. That's fine. 09:49:48	19	"The development will 09:50:39
20	A. That's not my area of 09:49:49	20	consist of a total of 100 09:50:40
21	expertise. 09:49:51	21	Vestas V112 wind turbine 09:50:42
22	Q. That's fine. Thank you. 09:49:51	22	generators with the rate 09:50:45
23	Now if you can just turn to 09:49:53	23	of power output of 09:50:45
24	Tab 9 of your binder.09:49:54	24	3-megawatts each." 09:50:47
25	A. Okay. 09:49:58	25	Do you see that? 09:50:48

Page 47

	rage 47		rage 40
1	A. I see that. 09:50:49	1	being used isn't isn't relevant. 09:52:06
2	Q. But my understanding from 09:50:50	2	A. Correct. 09:52:10
3	the reports that have been filed in this 09:50:52	3	Q. But just to conclude on 09:52:10
4	arbitration is that the Claimant's project program 09:50:54	4	this point, based on the letter that we just 09:52:11
5	is actually based on Siemens' turbines, which 09:50:57	5	reviewed, it indicated that the grid connection 09:52:13
6	would be 2.3 megawatts each; correct? Is that 09:51:01	6	was contingent on the requirements set out in the 09:52:17
7	your understanding as well? 09:51:05	7	System Impact Assessment Report, which includes 09:52:21
8	A. I am not familiar with 09:51:06	8	using a 3-megawatt Vestas turbine, which I would 09:52:24
9	the technology selection for the project, no. 09:51:08	9	put to you is not the same turbine that is being 09:52:32
10	Q. In the course of 09:51:11	10	used in the in the project program that the 09:52:35
11	preparing your report, you didn't familiarize 09:51:24	11	Claimant advanced in this arbitration. 09:52:38
12	yourself with the technology that was being used 09:51:26	12	A. I would agree that's what 09:52:40
13	by the proponent? 09:51:29	13	it says, but I know that these just from 09:52:41
14	A. I did not, only to the 09:51:30	14	experience working with other folks in the office 09:52:46
15	extent that it's almost irrelevant for most of the 09:51:33	15	that do this work that these documents are updated 09:52:49
16	permitting activities that go on. The there is 09:51:36	16	and changed frequently. So that's all I can say. 09:52:51
17	a report that is generated, a technical report for 09:51:39	17	Q. But you're not able to 09:52:54
18	the wind turbines themselves. However, when 09:51:43	18	opine on the ease with which that grid connection 09:52:57
19	we're more concerned about completing the 09:51:48	19	would be able to be accommodated 09:53:02
20	fieldwork to site them and siting a different 09:51:50	20	A. No, no. 09:53:03
21	model turbine is is similar activity. The 09:51:53	21	Q with this change? 09:53:04
22	activities that we would do are quite the same. 09:51:57	22	A. I can't. 09:53:06
23	Q. So I I understand, 09:52:00	23	Q. Okay. Thank you. I 09:53:07
24	then, that your opinion is that, for the purposes 09:52:01	24	would like to just now ask you about some general 09:53:16
25	of the permitting aspects, the type of turbine 09:52:03	25	permitting issues and just very generally 09:53:18

Page 48

	Page 49		Page 5
1 speaking. The the regulatory regime that	09:53:22	1	Q. And in the last paragraph 09:54:15
2 applies to a specific offshore wind project, it	09:53:24	2	here you said: 09:54:22
3 depends on the jurisdiction that is, that it is	09:53:30	3	"The project should not 09:54:23
	9:53:34	4	be considered first of a 09:54:24
5 A. Yes. 09:53:35	;	5	kind because more than 50 09:54:26
	:53:36	6	offshore wind projects 09:54:29
7 Renewable Energy Approval, or REA, is a sp		7	have been developed 09:54:30
8 permitting process that's required in Ontario;		8	globally." 09:54:31
9 correct? 09:53:42		9	But all of these projects are 09:54:32
0 A. That's correct. 09:53:		10	outside of Ontario and, in fact, outside of North 09:54:33
		11	America; correct? 09:54:36
2 want to develop the offshore wind project you		12	A. That's correct. All of 09:54:37
3 to work with the regulator and the regulatory		13	those projects are. However, the the specific 09:54:38
4 regime in the specific jurisdiction; correct?	09:53:51	14	comment that we were responding to really kind of 09:54:41
5 A. That's correct. 09:53:		15	ignored the component parts that would make up the 09:54:4
	09:53:54	16	project itself, and all of these component parts 09:54:49
7 project would have been the first offshore with		17	have been permitted under separate regimes, under 09:54:51
8 project to be undertaken under the regulatory		18	separate systems, including submarine cables, wind 09:54:55
e ,	9:54:01	19	turbines themselves onshore, as well as in water 09:54:58
0 A. Specifically, yes. It 09:54		20	works like foundations for bridges or piers. 09:55:01
1 would have been the first project to be under		21	Q. So I understand that, 09:55:03
L L	9:54:07	22	from the technical perspective, your opinion is 09:55:05
3 Q. Okay. Now, if we could (23	that there's they're very similar? 09:55:09
	9:54:12	24	A. Yes. 09:55:12
25 A. Mm-hmm. 09:5	64:14	25	Q. But from the perspective 09:55:12
	Daga 51		
	Page 51		Page 5
¹ of the permitting regime, which you just told n	-	1	
	ne 09:55:13	1 2	in this arbitration, even though they were 09:56:20
2 varies by jurisdiction, this would, in fact, be a	ne 09:55:13		in this arbitration, even though they were 09:56:20

That's correct. 09:55:56 6 Q. But I understand from 09: 7 your report that WSP was not, in fact, awarded 18 mandate and that the firm Stantec was going to 19 selected by the Claimant as the permitting 10 consultant. Is that correct? 09:55 1 A. That's correct. WSP was 09:5 <td>ne 09:55:13 09:55:17 09:55:21 09:55:23 09:55:23 09:55:25 09:55:26 09:55:39 hat, 09:55:42 109:55:44 from 09:55:47 09:55:50 09:55:50 09:55:54 56 555:56 d the 09:55:59 the 09:56:02 09:56:05 56:07</td> <td>2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22</td> <td>in this arbitration, even though they were 09:56:20 selected as the permitting consultant of choice 09:56:22 for the project. 09:56:26 A. That's correct. 09:56:27 Q. Okay. Now, I would like 09:56:28 to show you the RFP, which you can find at Tab 1 09:56:29 of your binder. This is the RFP that WSP 09:56:33 responded to in 2010. It's dated October 8th, 09:56:42 2010. Do you see that? 09:56:46 A. I see that. 09:56:47 Q. Okay. And the proposal 09:56:48 that WSP made in response to this RFP, you 09:56:51 included it at Appendix 2 to your report in the 09:56:54 arbitration; correct? 09:56:57 A. That's correct. 09:56:58 Q. Okay. And I would note 09:56:59 also for the record that the Claimant filed the 09:57:00 proposal as Exhibit C-0865, and at times it's 09:57:03 referred to that way in your report, but I will 09:57:07 just refer you to the appendix of what you have 09:57:09 there 09:57:11 A. Okay. 09:57:11</td>	ne 09:55:13 09:55:17 09:55:21 09:55:23 09:55:23 09:55:25 09:55:26 09:55:39 hat, 09:55:42 109:55:44 from 09:55:47 09:55:50 09:55:50 09:55:54 56 555:56 d the 09:55:59 the 09:56:02 09:56:05 56:07	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in this arbitration, even though they were 09:56:20 selected as the permitting consultant of choice 09:56:22 for the project. 09:56:26 A. That's correct. 09:56:27 Q. Okay. Now, I would like 09:56:28 to show you the RFP, which you can find at Tab 1 09:56:29 of your binder. This is the RFP that WSP 09:56:33 responded to in 2010. It's dated October 8th, 09:56:42 2010. Do you see that? 09:56:46 A. I see that. 09:56:47 Q. Okay. And the proposal 09:56:48 that WSP made in response to this RFP, you 09:56:51 included it at Appendix 2 to your report in the 09:56:54 arbitration; correct? 09:56:57 A. That's correct. 09:56:58 Q. Okay. And I would note 09:56:59 also for the record that the Claimant filed the 09:57:00 proposal as Exhibit C-0865, and at times it's 09:57:03 referred to that way in your report, but I will 09:57:07 just refer you to the appendix of what you have 09:57:09 there 09:57:11 A. Okay. 09:57:11
2 varies by jurisdiction, this would, in fact, be a 3 first of a kind project from the permitting 4 perspective in Ontario; correct? 09 5 A. From the REA permitting 09 6 perspective, that's correct. 09:5 7 Q. Thank you. Now, in 09 8 addition to the System Impact Assessment report 9 that WSP prepared you weren't involved in th 10 but we just looked at it a few minutes ago in 11 November 2010, WSP responded to a request 12 for proposals to provide permitting and field 13 investigation services for the Claimant's project 14 correct? 09:55:56 5 A. That's correct. 09:55:56 6 Q. But I understand from 09: 7 your report that WSP was not, in fact, awarded mandate and that the firm Stantec was going to 9 selected by the Claimant as the permitting consultant. Is that correct? 09:55 1 A. That's correct. WSP was 09:52 2 not selected and it's my understanding that 09:52	ne 09:55:13 09:55:17 09:55:21 09:55:23 55:25 55:26 ort, 09:55:39 hat, 09:55:42 1 09:55:44 from 09:55:47 09:55:50 ot; 09:55:54 56 :55:56 d the 09:55:59 o be 09:56:02 09:56:05 56:07 9:56:08	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	in this arbitration, even though they were 09:56:20 selected as the permitting consultant of choice 09:56:22 for the project. 09:56:26 A. That's correct. 09:56:27 Q. Okay. Now, I would like 09:56:28 to show you the RFP, which you can find at Tab 1 09:56:29 of your binder. This is the RFP that WSP 09:56:33 responded to in 2010. It's dated October 8th, 09:56:42 2010. Do you see that? 09:56:46 A. I see that. 09:56:47 Q. Okay. And the proposal 09:56:48 that WSP made in response to this RFP, you 09:56:51 included it at Appendix 2 to your report in the 09:56:54 arbitration; correct? 09:56:57 A. That's correct. 09:56:58 Q. Okay. And I would note 09:56:59 also for the record that the Claimant filed the 09:57:00 proposal as Exhibit C-0865, and at times it's 09:57:03 referred to that way in your report, but I will 09:57:07 just refer you to the appendix of what you have 09:57:09 there 09:57:11 A. Okay. 09:57:11 Q today. Now, if we 09:57:12
2varies by jurisdiction, this would, in fact, be a3first of a kind project from the permitting4perspective in Ontario; correct?5A. From the REA permitting6perspective, that's correct.7Q. Thank you. Now, in8addition to the System Impact Assessment report9that WSP prepared you weren't involved in the9but we just looked at it a few minutes ago in1November 2010, WSP responded to a request3for proposals to provide permitting and field3investigation services for the Claimant's project4correct?9But I understand from9your report that WSP was not, in fact, awarded8mandate and that the firm Stantec was going to9selected by the Claimant as the permitting0consultant. Is that correct?9selected and it's my understanding that	ne 09:55:13 09:55:17 09:55:19 9:55:21 09:55:23 55:25 55:26 ort, 09:55:39 hat, 09:55:42 1 09:55:44 from 09:55:47 09:55:50 ort; 09:55:54 56 55:56 d the 09:55:59 o be 09:56:02 09:56:08 09:56:10 09:56:12	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	in this arbitration, even though they were 09:56:20 selected as the permitting consultant of choice 09:56:22 for the project. 09:56:26 A. That's correct. 09:56:27 Q. Okay. Now, I would like 09:56:28 to show you the RFP, which you can find at Tab 1 09:56:29 of your binder. This is the RFP that WSP 09:56:33 responded to in 2010. It's dated October 8th, 09:56:42 2010. Do you see that? 09:56:47 Q. Okay. And the proposal 09:56:48 that WSP made in response to this RFP, you 09:56:51 included it at Appendix 2 to your report in the 09:56:54 arbitration; correct? 09:56:57 A. That's correct. 09:56:58 Q. Okay. And I would note 09:56:59 also for the record that the Claimant filed the 09:57:00 proposal as Exhibit C-0865, and at times it's 09:57:03 referred to that way in your report, but I will 09:57:07 just refer you to the appendix of what you have 09:57:09 there 09:57:11 A. Okay. 09:57:11

	Page 53		Page 54
1	November 25, 2010. Do you see that? 09:57:27	1	offshore wind in Canada. 09:58:18
2	A. That's the date there, 09:57:29	2	Consequently, there are 09:58:20
3	yes. 09:57:30	3	inherent risks which must 09:58:21
4	Q. Yes. And this was before 09:57:31	4	be carefully evaluated 09:58:23
5	Genivar was merged with WSP; correct? 09:57:33	5	and managed. Otherwise, 09:58:24
6	A. That's correct. 09:57:35	6	there is potential for 09:58:26
7	Q. Okay. So if we turn to 09:57:36	7	serious project delays, 09:58:27
8	Section 1 of the proposal and look at page 3, 09:57:38	8	increases in capital 09:58:28
9	towards the bottom of the page, there is a section 09:57:46	9	cost, or even the risk of 09:58:29
10	called "our approach." 09:57:49	10	the project not obtaining 09:58:30
11 12	A. Mm-hmm, yes, I see it. 09:57:50	11	the necessary approvals." 09:58:32
12	Q. And it's stated there: 09:57:52	12	Do you see that. 09:58:33 A. I see that? 09:58:33
13 14	"As this is the first 09:57:53 project of its type, 09:57:54	13	
14	project of its type, 09:57:54 there are inherent risks 09:57:56	15	Q. Okay. So this is WSP's 09:58:34 advice to Windstream in 2010; correct? 09:58:36
15	which must be carefully 09:57:57	16	A. I would say what let's 09:58:42
10	evaluated and managed." 09:57:58	17	put this in the context of what the document is. 09:58:45
18	Do you see that? 09:57:59	18	The document is a proposal to provide services for 09:58:47
19	A. I do. 09:58:00	19	a project that we were competitive for. 09:58:53
20	Q. And now if we turn to 09:58:00	20	And so, if we can show, in a 09:58:56
21	Section 2.2 on page 5, in the first paragraph, 09:58:03	21	competitive advantage, that the team that we're 09:58:59
22	under this heading, WSP stated in 2010: 09:58:11	22	assembling is highly qualified, has experience in 09:59:01
23	"This project will be the 09:58:15	23	other projects, and we can manage risk, that is 09:59:04
24	first environmental 09:58:16	24	we're trying to we're trying to show our 09:59:08
25	assessment for an 09:58:17	25	credibility in order to complete the project. 09:59:12
	Page 55		Page 56
1	We're not providing advice to them in terms of you 09:59:15	1	
1 2	We're not providing advice to them in terms of you 09:59:15 need to do certain things. We're saving "This is 09:59:19	1 2	Q. And the first strategic 10:00:10
1 2 3	need to do certain things. We're saying, "This is 09:59:19	2	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11
2	need to do certain things. We're saying, "This is 09:59:19 our approach to it. This is how we're going to 09:59:23		Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:16

And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 and" 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:33
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	need to do certain things. We're saying, "This is 09:59:19 our approach to it. This is how we're going to 09:59:23 manage the project." 09:59:25 Q. Okay. And you're 09:59:26 expressing the view that it's implicitly it's 09:59:27 important to hire someone who can manage these 09:59:29 risks because it is a first of a kind, and there 09:59:32 are these inherent risks; correct? 09:59:34 A. I wouldn't necessarily 09:59:36 agree with that statement. I said we there are 09:59:37 risks implicit in any project. 09:59:41 Q. Okay. 09:59:43 A. And the background that 09:59:44 Genivar had in producing the projects or in 09:59:45 permitting them, we're trying to we're trying 09:59:49 to demonstrate to a potential client that we 09:59:53	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:16 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 and" 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:34
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:45$ permitting them, we're trying to we're trying $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:16 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 Later. 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:34 work may be required 10:00:34
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:45$ permitting them, we're trying to we're trying $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$ understand what development risks are; and we $09:59:57$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:16 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 Later. 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:34 work may be required 10:00:34 which could negatively 10:00:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$ understand what development risks are; and we $09:59:57$ understand how to manage those risks during the $10:00:00$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:16 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 Later. 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:33 methodology, additional 10:00:34 work may be required 10:00:36
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$ understand what development risks are; and we $09:59:57$ understand how to manage those risks during the $10:00:00$ project. $10:00:02$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:17 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 Later. 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:33 methodology, additional 10:00:34 work may be required 10:00:34 which could negatively 10:00:36 impact the project 10:00:36 schedule." 10:00:38
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$ understand what development risks are; and we $09:59:57$ understand how to manage those risks during the $10:00:00$ project. $10:00:02$ Q. Now, if we look at $10:00:02$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:17 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 and" 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:34 work may be required 10:00:34 which could negatively 10:00:36 impact the project 10:00:38 So you would agree with me 10:00:38
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:49$ to demonstrate to a potential client that we $09:59:55$ understand what the development process is; we $09:59:57$ understand what development risks are; and we $09:59:57$ understand how to manage those risks during the $10:00:00$ project. $10:00:02$ Q. Now, if we look at $10:00:02$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 and" 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:33 methodology, additional 10:00:34 work may be required 10:00:34 which could negatively 10:00:36 impact the project 10:00:38 So you would agree with me 10:00:38 that WSP I realize you don't like the word 10:00:41
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	need to do certain things. We're saying, "This is $09:59:19$ our approach to it. This is how we're going to $09:59:23$ manage the project." $09:59:25$ Q. Okay. And you're $09:59:26$ expressing the view that it's implicitly it's $09:59:27$ important to hire someone who can manage these $09:59:29$ risks because it is a first of a kind, and there $09:59:32$ are these inherent risks; correct? $09:59:34$ A. I wouldn't necessarily $09:59:36$ agree with that statement. I said we there are $09:59:37$ risks implicit in any project. $09:59:41$ Q. Okay. $09:59:43$ A. And the background that $09:59:44$ Genivar had in producing the projects or in $09:59:49$ to demonstrate to a potential client that we $09:59:53$ understand what the development process is; we $09:59:55$ understand what development risks are; and we $09:59:57$ understand how to manage those risks during the $10:00:00$ project. $10:00:02$ Q. Now, if we look at $10:00:02$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. And the first strategic 10:00:10 issue identified by WSP is by agencies of field 10:00:11 studies. Do you see that? 10:00:17 A. I do. 10:00:17 Q. And it's referring to 10:00:18 both federal and provincial regulatory agencies? 10:00:19 A. Correct. 10:00:22 Q. And in the bullet point, 10:00:23 it states that: 10:00:26 "There are a large number 10:00:27 of technical field 10:00:28 studies to be completed 10:00:29 and" 10:00:31 " if the agencies do 10:00:31 not accept the 10:00:34 work may be required 10:00:34 which could negatively 10:00:36 impact the project 10:00:38 So you would agree with me 10:00:38

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 57		Page 58
1	provincial regulators could reject any 10:00:50	1	Windstream. That's what it says there; right? 10:02:06
2	methodologies proposed by Windstream for 10:00:53	2	A. I would I would agree 10:02:08
3	conducting field studies. That's what it says 10:00:56	3	that there is some risk. The risk is is not 10:02:09
4	there; right? 10:00:58	4	zero. But in my experience with conducting 10:02:11
5	A. I would say, yes, it says 10:00:59	5	environmental assessments, methodologies, unless 10:02:16
6	that there. But the context is that all of the 10:01:01	6	they are egregiously wrong, are accepted but 10:02:19
7	studies that we're proposing to do have 10:01:05	7	fine-tuned. 10:02:23
8	well-established methodologies and environmental 10:01:08	8	Q. And at this time, there 10:02:23
9	assessment in the province in the previous 10:01:11	9	aren't any methodologies for for conducting 10:02:25
10	permitting system under the regulation. 10:01:13	10	field studies specific to offshore wind projects 10:02:30
11	So the idea is that you're 10:01:17	11	that have been approved by the regulatory 10:02:33
12	fine-tuning a process to meet specific goals for 10:01:19	12	agencies; correct? 10:02:35
13	those agencies. But not necessarily again, the 10:01:23	13	A. But the that's 10:02:36
14 15	context of producing a proposal is important in 10:01:29	14 15	correct, but the specific studies and 10:02:38
15	showing the potential client that we understand 10:01:35 what's going on and we're trying to we're 10:01:38	15	methodologies are are similar for for 10:02:40 onshore projects because they're outlined for us 10:02:45
10	what's going on and we're trying to we're 10:01:38 trying to let them know that we can manage this 10:01:43	17	onshore projects because they're outlined for us 10:02:45 in in the regulation, and they're outlined for 10:02:48
18	risk. We can we understand the risk. And I 10:01:46	18	us in some of the guidance documentation as well. 10:02:51
19	would say perhaps that statement is maybe inflated 10:01:48	19	So conducting a bird study is 10:02:53
20	in order to show what we're proposing to do, we 10:01:52	20	similar for am onshore project or an offshore 10:02:57
21	have an advantage over our competitors in the 10:01:56	21	project in terms of the types of data that are 10:03:00
22	market. 10:01:58	22	collected. So that's the comment that I have on 10:03:02
23	Q. But you're at least 10:01:58	23	that. 10:03:06
24	stating that there is a risk that the agencies 10:02:01	24	Q. But it's my 10:03:06
25	will not accept the methodologies proposed by 10:02:03	25	understanding, actually for example, you gave 10:03:09
	D 50

1	the example of birds just now. 10:03:11	1	Page 60 agencies of what is an offshore wind farm project. 10:04:06
2	the example of birds just now. 10:03:11 A. Yes. 10:03:13	2	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11
2 3	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13	2 3	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12
2 3 4	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15	2 3 4	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13
2 3 4 5	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17	2 3 4 5	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14
2 3 4 5 6	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20	2 3 4 5 6	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15
2 3 4 5 6 7	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23	2 3 4 5 6 7	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16
2 3 4 5 6 7 8	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27	2 3 4 5 6 7 8	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17
2 3 4 5 6 7 8 9	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31	2 3 4 5 6 7 8 9	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18
2 3 4 5 6 7 8 9 10	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34	2 3 4 5 6 7 8 9 10	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19
2 3 4 5 6 7 8 9 10 11	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36	2 3 4 5 6 7 8 9	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21
2 3 4 5 6 7 8 9 10 11 12	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39	2 3 4 5 6 7 8 9 10 11	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21
2 3 4 5 6 7 8 9 10 11 12 13	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41	2 3 4 5 6 7 8 9 10 11 12	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24
2 3 4 5 6 7 8 9 10 11 12 13 14	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41	2 3 4 5 6 7 8 9 10 11 12 13	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26
2 3 4 5 6 7 8 9 10 11 12 13	the example of birds just now. $10:03:11$ A. Yes. $10:03:13$ Q. But isn't it true that $10:03:13$ MNR hasn't established an approved methodology for $10:03:15$ conducting carcass searches on water? $10:03:17$ A. That is true, but that is $10:03:20$ a post-REA commitment, not a necessarily a $10:03:23$ commitment in terms of getting the REA approval. $10:03:27$ And our expectation was that an approved $10:03:31$ methodology would be developed as part of the $10:03:34$ the progress on the project. $10:03:36$ Q. But it wasn't in place at $10:03:39$ that time? $10:03:41$ A. It was not in place at $10:03:41$ the time. $10:03:42$	2 3 4 5 6 7 8 9 10 11 12 13 14	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:28
2 3 4 5 6 7 8 9 10 11 12 13 14 15	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:35
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	the example of birds just now. $10:03:11$ A. Yes. $10:03:13$ Q. But isn't it true that $10:03:13$ MNR hasn't established an approved methodology for $10:03:15$ conducting carcass searches on water? $10:03:17$ A. That is true, but that is $10:03:20$ a post-REA commitment, not a necessarily a $10:03:23$ commitment in terms of getting the REA approval. $10:03:27$ And our expectation was that an approved $10:03:31$ methodology would be developed as part of the $10:03:34$ the progress on the project. $10:03:36$ Q. But it wasn't in place at $10:03:41$ A. It was not in place at $10:03:41$ the time. $10:03:42$ Q. Okay. $10:03:42$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:35 for the onshore projects in the REA process. And 10:04:40
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	the example of birds just now. $10:03:11$ A. Yes. $10:03:13$ Q. But isn't it true that $10:03:13$ MNR hasn't established an approved methodology for $10:03:15$ conducting carcass searches on water? $10:03:17$ A. That is true, but that is $10:03:20$ a post-REA commitment, not a necessarily a $10:03:23$ commitment in terms of getting the REA approval. $10:03:27$ And our expectation was that an approved $10:03:31$ methodology would be developed as part of the $10:03:34$ the progress on the project. $10:03:36$ Q. But it wasn't in place at $10:03:41$ A. It was not in place at $10:03:41$ the time. $10:03:42$ Q. Okay. $10:03:42$ A. But we had full $10:03:43$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:35 for the onshore projects in the REA process. And 10:04:40 we understand that the ministry and agencies deal 10:04:45
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41 the time. 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:45	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:35 for the onshore projects in the REA process. And 10:04:40 we understand that the ministry and agencies deal 10:04:45 with this in a responsible manner and do their 10:04:48
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41 the time. 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:47	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:45 with this in a responsible manner and do their 10:04:48 best in order to in order to work out and work 10:04:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41 the time. 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:47 post-construction bird mortality. 10:03:51	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:40 we understand that the ministry and agencies deal 10:04:45 with this in a responsible manner and do their 10:04:48 best in order to in order to work out and work 10:04:51 with a proponent to to come to an outcome. 10:04:53
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41 the time. 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:47 post-construction bird mortality. 10:03:51 Q. If I can just take you to 10:03:53 the third issue at the bottom of the page 5 there. 10:03:55 A. Okay. 10:03:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:40 we understand that the ministry and agencies deal 10:04:45 with this in a responsible manner and do their 10:04:48 best in order to in order to work out and work 10:04:51 with a proponent to to come to an outcome. 10:04:53 Q. But, here, you're 10:04:56
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:41 A. It was not in place at 10:03:41 the time? 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:45 developed in order to make those assessments of 10:03:47 post-construction bird mortality. 10:03:51 Q. If I can just take you to 10:03:53 the third issue at the bottom of the page 5 there. 10:03:55 A. Okay. 10:03:59 Q. The third key strategic 10:04:00	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:35 for the onshore projects in the REA process. And 10:04:40 we understand that the ministry and agencies deal 10:04:45 with this in a responsible manner and do their 10:04:48 best in order to in order to work out and work 10:04:51 with a proponent to to come to an outcome. 10:04:56 acknowledging the possibility of delays 10:05:02
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	the example of birds just now. 10:03:11 A. Yes. 10:03:13 Q. But isn't it true that 10:03:13 MNR hasn't established an approved methodology for 10:03:15 conducting carcass searches on water? 10:03:17 A. That is true, but that is 10:03:20 a post-REA commitment, not a necessarily a 10:03:23 commitment in terms of getting the REA approval. 10:03:27 And our expectation was that an approved 10:03:31 methodology would be developed as part of the 10:03:34 the progress on the project. 10:03:36 Q. But it wasn't in place at 10:03:39 that time? 10:03:41 A. It was not in place at 10:03:41 the time. 10:03:42 Q. Okay. 10:03:42 A. But we had full 10:03:43 expectations that that a methodology would be 10:03:47 post-construction bird mortality. 10:03:51 Q. If I can just take you to 10:03:55 A. Okay. 10:03:59	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	agencies of what is an offshore wind farm project. 10:04:06 And it states that: 10:04:11 "This could result in 10:04:12 delays during the report 10:04:13 review stage or 10:04:14 misunderstanding of 10:04:15 impacts." 10:04:16 Do you see that? 10:04:17 A. I see that. 10:04:18 Q. So, in 2010, WSP 10:04:19 recognized the possibility that the agencies could 10:04:21 be delayed in reviewing the permitting 10:04:24 applications for the project, because they had a 10:04:26 poor understanding of what an offshore wind 10:04:28 project is; correct? 10:04:31 A. That that is correct, 10:04:32 similar to the issues faced by the first projects 10:04:40 we understand that the ministry and agencies deal 10:04:45 with this in a responsible manner and do their 10:04:48 best in order to in order to work out and work 10:04:51 with a proponent to to come to an outcome. 10:04:53 Q. But, here, you're 10:04:56

	Page 61		Page 62
1	type of project before in the regulatory system; 10:05:07	1	A. We have not. And the 10:06:07
2	correct? 10:05:09	2	context is important as well. When we're planning 10:06:11
3	A. We are acknowledging that 10:05:09	3	a project, we rely on the expected review time or 10:06:14
4	that is some uncertainty, yes. 10:05:11	4	the published review times for that. And it's our 10:06:17
5	Q. And yet in your report 10:05:13	5	understanding that their that the delays in 10:06:19
6	and in the presentation you gave today, it 10:05:16	6	those reviews are dealt with, again, responsibly 10:06:24
7	mentioned that let's see. It states that WSP 10:05:19	7	by the contract issuer as well when it's not 10:06:28
8	accounted for 40 days for a completeness check by 10:05:26	8	within the power of the proponent to to make 10:06:32
9	MOE. That's the screening the application to 10:05:30	9	any changes to those review guidelines. It's 10:06:35
10	make sure it meets the completeness requirements; 10:05:34	10	essentially out of the proponent's hands at that 10:06:39
11	correct? 10:05:37	11	point when it's when it is being reviewed. 10:06:41
12	A. That's correct. 10:05:37	12	Q. So I take it you're aware 10:06:43
13	Q. So you've allowed 40 days 10:05:38	13	of the potential force majeure provisions under 10:06:45
14	for that based on MOE's service standard. And you 10:05:39	14	the FIT contract, but that's not something that 10:06:49
15	have allowed for six months for Ministry review of 10:05:42	15	you have special expertise in dealing with, is it? 10:06:51
16	the completed REA application based on the 10:05:45	16	A. It's not I don't have 10:06:55
17	six-month service standard that they've published; 10:05:49	17	special expertise in it, but I've certainly been 10:06:56
18	correct? 10:05:52	18	around the industry long enough to know that that 10:06:58
19	A. That's correct. 10:05:52	19	is something that developers need to utilize from 10:07:01
20	Q. So even though even 10:05:52	20	time to time when they experience delays in the 10:07:05
21	though you've acknowledged the possibility that 10:05:54	21	review of their applications. 10:07:08
22	they will be delayed due to not being familiar 10:05:56	22	Q. Then I'm sure you're also 10:07:10
23	with this type of project, you haven't allowed any 10:06:01	23	aware that it's subject to a limit of 24 months 10:07:12
24	extra buffer time on top of the standard to 10:06:03	24	past the milestone date for the project? 10:07:16
25	account for that? 10:06:07	25	A. That, I'm not aware of 10:07:18
	Page 63		Page 64

Page 631so10:07:191Q. Sorry.10:08:222Q. Okay. But in the event10:07:202A. That's okay.10:08:233that a technical review or the initial screening10:07:233Q. Didn't mean to cut you10:08:244review is delayed, there's nothing that a10:07:264off. The six-month service standard, that's not10:085proponent or the proponent's consultant can do to10:07:295enforceable by by proponents; correct?10:08:316sort of speed up the process. You're kind of10:07:336A. It's correct. It's not10:08:317stuck with the Ministry timing, aren't you?10:07:357enforceable. It's not a statutory I think I am10:08:379stuck to a certain degree, but during that review10:07:399However, the MOE does place a10:08:3710period, if there are questions, technical10:07:4210very high value on this, and we know this because, 1011questions that arise, it's up to the proponent and 10:07:4411if a proponent doesn't respond to a question to10:08	
2Q. Okay. But in the event10:07:202A. That's okay.10:08:233that a technical review or the initial screening10:07:233Q. Didn't mean to cut you10:08:244review is delayed, there's nothing that a10:07:264off. The six-month service standard, that's not10:085proponent or the proponent's consultant can do to10:07:295enforceable by by proponents; correct?10:08:316sort of speed up the process. You're kind of10:07:336A. It's correct. It's not10:08:317stuck with the Ministry timing, aren't you?10:07:357enforceable. It's not a statutory I think I am10:08:338A. We are yes. We are10:07:378using the correct word time period.10:08:379stuck to a certain degree, but during that review10:07:4210very high value on this, and we know this because, 1011questions that arise, it's up to the proponent and10:07:4411if a proponent doesn't respond to a question to10:08	
13questions as quickly as possible, provide all the additional information that's needed and sometimes 10:07:52 clarifying points in a report that that perhaps 10:07:5513can't come up with an answer for something, the 10 the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on the MOE would, what they call, stop the clock on that review period.13can't come up with an answer for something, the 10 the MOE would, what they call, stop the clock on that review period.14information that's needed and sometimes clarifying points in a report that that perhaps would they have some comment on how you approached it.10:07:58 10:08:021617So there is some weight we wouldn't expect the MOE to be concerned about stopping the clock on on a review.10:09:06 201710:08:1220Q. Okay. Now I would like to turn to Section 5 of your report or, sorry, 10:09:02	37 37 37 37 37 37 37 37 37 38 46 10:08:49 0:08:52 10:08:55 0:09:00 10:09:03 06 3 0:10 :09:14 20

	Page 65		
1	A. Oh, of the actual report 10:09:27	1	
2	itself? 10:09:29	2	
3	Q. No, of the proposal 10:09:30	3	
4	still. 10:09:31	4	
5	A. The proposal, Section 5? 10:09:32	5	
6	Q. Appendix 2. And it 10:09:33	6	
7	restarts the numbering there with page 1. 10:09:36	7	
8	A. Okay. 10:09:38	8	i
9	Q. So this is the section of 10:09:38	9	
10	the proposal in 2010 that dealt with ecological 10:09:40	10	
11	fieldwork; correct? 10:09:45	11	
12	A. Yes. Okay. 10:09:47	12	
13	Q. And let's turn to page 4 10:09:49	13	
14	of this section. 10:09:51	14	
15	A. Okay. 10:09:53	15	
16	Q. And you'll see Section 10:09:53	16 17	
17	5.2 towards the end of the page. It addresses 10:09:55	17	
18	fisheries and benthic work specifically; correct? 10:09:59	18	
19	A. Okay. 10:10:03	20	
20	Q. And now if we turn to 10:10:04	$\begin{array}{c} 20\\21\end{array}$	
21	Page 5, about four paragraphs from the bottom, it 10:10:06	$\begin{vmatrix} 21\\22 \end{vmatrix}$	2
22	states that: 10:10:11	23	
23	"This is the first 10:10:13	23	
24	project of the kind in 10:10:14	25	
25	Canada. The level of 10:10:15	25	

CONFIDENTIAL A	ND	RESTRIC	CTED
	Feł	ruary 19	2016

	Page 66
1	study requirements 10:10:16
2	required by the 10:10:17
3	regulatory authorities 10:10:18
4	will be high." 10:10:19
5	Do you see that? 10:10:20
6	A. I do. 10:10:21
7	Q. And in the next paragraph 10:10:21
8	it states: 10:10:23
9	"Studies conducted for 10:10:24
10	offshore wind projects in 10:10:26
11	other parts of the world 10:10:27
12	or other studies that we 10:10:28
13	suspect may be required 10:10:29
14	include the effects of 10:10:31
15	electromagnetic fields 10:10:33
16	from transmission cables 10:10:34
17	on fish and the effects 10:10:35
18	of noise vibration from 10:10:36
19	windmills on fish." 10:10:40
20	And then in the next sentence 10:10:42
21	you'll see it says: 10:10:43
22	"It is uncertain whether 10:10:44
23	these studies will be 10:10:45
24	required." 10:10:46
25	Do you see that? 10:10:46

Page 67

1 1 A. I see that. 10:10:47 assessment methodologies are -- again, they're 10:11:45 2 2 Q. So, again, in 2010, you 10:10:48 common in environmental assessment practice. 10:11:49 3 told Windstream that it wasn't clear what studies 10:10:51 3 Q. Okay. Now, I would like 10:11:51 4 would be required for the fisheries and benthic 10:10:53 4 to turn to page 2 of your binder, please. For the 10:11:59 5 work. But just a few moments ago --10:10:57 5 record, this is Exhibit R-0529. 10:12:07 6 A. Right. 10:11:00 6 MR. BISHOP: Are we talking 10:12:16 7 Q. -- and appreciating that 10:11:00 7 about tabs here? 10:12:17 it's not you personally; it is WSP --8 10:11:01 8 MS. WATES: Tab 2. Tab 2. 10:12:20 9 A. Sure. 10:11:02 9 You should be aware that the printed version in 10:12:21 10 Q. -- but a few moments ago 10:11:03 10 your binder contains some confidential information 10:12:22 11 you said that the studies were well understood. 10:11:04 11 that's clearly marked with a box on page 2, but 10:12:25 12 So I'm just wondering how to reconcile those 10:11:06 12 since we're not referring to that, I'm just going 10:12:28 13 statements. 10:11:09 13 to stay in the public version -- or, sorry, stay 10:12:30 14 A. I would say that the 10:11:10 14 on the live feed. 10:12:35 15 specific sampling methodologies and assessment 10:11:11 15 BY MS. WATES: 10:12:36 16 methodologies are understood, I suppose. The 10:11:15 16 Q. This is an internal 10:12:36 17 comment is more in the context of the overall REA 10:11:18 17 Windstream document that the Claimant has produced 10:12:38 18 permitting system. 10:11:24 18 to Canada in this arbitration, entitled: 10:12:41 19 Q. But at the same time 10:11:24 19 "Windstream Wolfe Island 10:12:44 20 didn't just another part of the proposal that we 10:11:27 20 Shoals Inc. Claimant 10:12:44 21 looked at say that the ministries could, in fact, 10:11:29 21 Project Status and 10:12:48 22 reject the methodologies that are proposed? 10:11:33 22 Regulatory Issues." 10:12:48 23 A. They could reject it, 10:11:36 23 Do you see that? 10:12:49 24 but, again, as I said before, it's usually a 10:11:37 A. I see that. 24 10:12:49 25 fine-tuning of scope and -- but the actual 10:11:41 25 Q. And the bottom of page 1 10:12:50

Page 68

you see that?

looking?

Okay.

Page 69 1 refers to Windstream's FIT contract offer and the 10:12:51 Q. Okay. And on page 3, the 10:13:31 need to build in four years for a May 2014 start 10:12:53 2 fist bullet points states that: 10:13:32 3 date, which was the Milestone Date for Commercial 10:12:56 "One of the regulatory 10:13:33 4 uncertainties is that Operation after the original contract offer. Do 10:13:00 10:13:34 5 10:13:02 setback requirements 10:13:35 10:13:02 6 haven't been defined by A. I see that. 10:13:36 7 Q. Now, we're going to turn 10:13:03 MOE for offshore wind 10:13:38 8 projects." 10:13:39 10:13:05 9 10:13:09 Do you see that? 10:13:39 10 10:13:09 A. I do. 10:13:40 10:13:10 11 Q. And in the next bullet 10:13:40 12 10:13:12 point: 10:13:42 13 "MOE REA process, how 10:13:43 10:13:12 14 long will this process 10:13:45 10:13:14 15 take for offshore wind 10:13:15 10:13:46 16 10:13:16 projects?" 10:13:47 10:13:47

to page 2. It states at the bottom of the page here that: "One of the key concerns was a high degree of regulatory uncertainty with lots of unknowns." Do you see that? A. I'm sorry. Where am I Q. At the bottom of page 2. 10:13:17 A. Bottom of page 2? Yes. 10:13:18 10:13:21 Q. It states there: 10:13:21 "A high degree of 10:13:22 regulatory uncertainty, 10:13:23

10:13:25

10:13:26

10:13:27

lots of unknowns."

Do you see that?

A. I see that.

17 Do you see that? 18 A. I see that. 19 Q. And the last bullet point 10:13:49 20 on the page that I'd like to show you is -- sorry, 10:13:51 21 the second-last bullet, it states: 22 "We will push to achieve 23 COD within four years. 24 Unlikely based on

Page 71

25

	rage /1		rage 72
1	experience. Concerned 10:14:02	1	Q. Sorry. Thank you for 10:15:42
2	about what is beyond our 10:14:02	2	your indulgence just for a moment while I get 10:15:44
3	control. Also concerned 10:14:03	3	organized. 10:15:49
4	about being penalized for 10:14:05	4	I'd like, actually, to, sorry, 10:15:50
5	being a first mover." 10:14:06	5	go back to your report, the main WSP report 10:15:51
6	Do you see that? 10:14:08	6	A. Okay. 10:15:55
7	A. I see that. 10:14:09	7	Q and turn to page 12. 10:15:55
8	Q. So you would acknowledge 10:14:09	8	In the last paragraph before Section 3.2.1.2 10:16:02
9	that, at least from the Claimant's perspective, 10:14:12	9	A. Yes. 10:16:07
10	according to this document, it's describing itself 10:14:14	10	Q you stated that: 10:16:07
11	as a as a first mover, which would fit with the 10:14:18	11	"The key concept and 10:16:08
12	idea that it's the first of a kind project from a 10:14:21	12	definition of a project 10:16:10
13	permitting perspective; correct? 10:14:24	13	location in the REA 10:16:11
14	A. I would agree that that 10:14:26	14	regulation includes all 10:16:12
15	would indicate that it's a first of a kind project 10:14:28	15	physical aspects of the 10:16:14
16	under the REA regulation, yes. 10:14:30	16	project." 10:16:15
17	Q. Okay. Okay. Now I would 10:14:32	17	Do you see that? 10:16:16
18	like to turn to Tab 3 of your binder. 10:14:33	18	A. I do. 10:16:16
19	A. Okay. 10:14:37	19	Q. And you went on to say 10:16:17
20	Q. This tab contains some 10:14:44	20	that: 10:16:17
21	excerpts from the Environmental Protection Act 10:14:47	21	"There is no distinction 10:16:18
22	actually, if you will just give me a moment to 10:14:57	22	between onshore, 10:16:19
23	confer with my colleagues. 10:15:00	23	offshore, temporary, or 10:16:21
24	[Counsel confer.] 10:15:24	24	permanent aspects of the 10:16:23
25	BY MS. WATES: 10:15:24	25	project under the REA 10:16:25

	Page 73		Page 74
1	regulation." 10:16:25	1	A. Yes, they would be 10:17:09
2	Do you see that? 10:16:26	2	permitted separately. Windstream would not be the 10:17:11
3	A. I see that, yes. 10:16:26	3	proponent of those facilities. Those facilities 10:17:14
4	Q. And you were saying this 10:16:28	4	would be from a third party, from a cement 10:17:16
5	in response to URS' statement at paragraph 74(b) 10:16:29	5	manufacturer, that would not be considered part of 10:17:19
6	of its report, which is excerpted there further 10:16:33	6	the project location. 10:17:21
7	above on the page. It states: 10:16:36	7	The onshore components that 10:17:23
8	"The permitting for the 10:16:39	8	we're talking about here are a submarine cable to 10:17:25
9	construction of the 10:16:41	9	land transition as well as any ancillary equipment 10:17:30
10	onshore facilities 10:16:42	10	that would be required to make the connection to 10:17:34
11	necessary to store 10:16:43	11	the grid as well as any storage areas for 10:17:36
12	equipment during 10:16:45	12	transport or of the equipment. The regulation 10:17:41
13	construction and 10:16:45	13	is really clear that and sort of what we call 10:17:46
14	manufacture of the 10:16:46	14	lay-down area in construction where we would store 10:17:49
15	foundations is hardly 10:16:47	15	materials to stage them, to install them are 10:17:51
16	mentioned in the 10:16:48	16	included in the project location, because you are 10:17:56
17	Windstream submissions." 10:16:49	17	essentially disturbing those areas. 10:17:58
18	Do you see that? 10:16:50	18	Q. Okay. And so I guess I'd 10:18:00
19	A. I see that. 10:16:51	19	just like to clarify a point for the record, then, 10:18:01
20	Q. And so I'd just like to 10:16:52	20	because yesterday we also heard from Ms. Sarah 10:18:03
21	confirm for the record, then, in WSP's opinion, 10:16:53	21	Powell that her opinion is also that they would be 10:18:09
22	that the onshore whether or not the onshore 10:16:57	22	permitted separately. And she said that she was 10:18:11
23	manufacturing facilities for the gravity-based 10:17:02	23	correcting the URS report. 10:18:13
24	foundations would be permitted separately from the 10:17:04	24	But based on what you have 10:18:15
25	main project, REA process? 10:17:07	25	excerpted here, paragraph 74(b), URS was actually 10:18:18
	. r.J, r

	Page 75		Page 76
1	Page 75 saying that the Windstream submissions hardly 10:18:22	1	Page 76 So the jetty and grid connection, onshore 10:19:27
2		2	-
	saying that the Windstream submissions hardly 10:18:22	2 3	So the jetty and grid connection, onshore 10:19:27
2 3 4	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32	2 3 4	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34
2 3 4 5	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34	2 3 4 5	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would – they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34
2 3 4 5 6	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35	2 3 4 5 6	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38
2 3 4 5 6 7	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38	2 3 4 5 6 7	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41
2 3 4 5 6 7 8	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42	2 3 4 5 6 7 8	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43
2 3 4 5 6 7 8 9	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44	2 3 4 5 6 7 8 9	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47
2 3 4 5 6 7 8 9 10	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45	2 3 4 5 6 7 8 9 10	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47
2 3 4 5 6 7 8 9 10 11	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47	2 3 4 5 6 7 8 9 10 11	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48
2 3 4 5 6 7 8 9 10 11 12	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51	2 3 4 5 6 7 8 9 10 11 12	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50
2 3 4 5 6 7 8 9 10 11 12 13	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55	2 3 4 5 6 7 8 9 10 11 12 13	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50
2 3 4 5 6 7 8 9 10 11 12 13 14	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57	2 3 4 5 6 7 8 9 10 11 12 13 14	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51
2 3 4 5 6 7 8 9 10 11 12 13 14 15	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00	2 3 4 5 6 7 8 9 10 11 12 13 14 15	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:01	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:01 onshore and offshore. 10:19:04	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:57 addressed anywhere anywhere in your report, is 10:20:00
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting, I didn't see 10:20:05
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08 that they're together; they're separate? 10:19:11	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting, I didn't see 10:20:05 that. 10:20:07
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08 that they're together; they're separate? 10:19:11 A. They are well, URS, in 10:19:14	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting, I didn't see 10:20:05 that. 10:20:07 A. Onshore permitting is 10:20:08
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08 that they're together; they're separate? 10:19:11 A. They are well, URS, in 10:19:14 this particular comment, are are making really 10:19:16	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting is 10:20:08 done as part of the REA, and onshore permitting is 10:20:09
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08 that they're together; they're separate? 10:19:11 A. They are well, URS, in 10:19:14 this particular comment, are are making really 10:19:16 two comments. The first comment is about a 10:19:19	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting is 10:20:08 done as part of the REA, and onshore permitting is 10:20:09 also done as part of the REA, in terms of an 10:20:12
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	saying that the Windstream submissions hardly 10:18:22 addressed the onshore manufacturing permits. 10:18:26 Isn't that right? 10:18:31 A. That's what they're 10:18:32 that's what they're saying in the in our 10:18:34 response. And our scheduling activity was to 10:18:35 include a line item for the permits that would be 10:18:38 required from an existing cement manufacturing 10:18:42 facility. 10:18:44 Q. But in this response, 10:18:45 paragraph responding to URS pointing out that the 10:18:47 onshore permitting had hardly been addressed, you 10:18:51 had said they were ignoring the key concept and 10:18:55 definition of a project location under the REA, 10:18:57 which includes all physical aspects of the 10:19:00 project, and there's no distinction between 10:19:04 So just in terms of clarifying 10:19:04 for the record that your position here is not 10:19:08 that they're together; they're separate? 10:19:11 A. They are well, URS, in 10:19:14 this particular comment, are are making really 10:19:16	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	So the jetty and grid connection, onshore 10:19:27 components, they are part of the project, and they 10:19:29 would they are assessed as part of the project 10:19:32 location. 10:19:34 The manufacturing facility, 10:19:34 not part of the project, third party, completely 10:19:38 different proponent. And it would be the same 10:19:41 thing as asking a wind turbine manufacturer to 10:19:43 permit their facility as part of the REA 10:19:47 Q. And so here you're 10:19:47 A which we don't do. 10:19:48 Q. Sorry to interrupt. 10:19:50 A. That's okay. 10:19:50 Q. You're responding to URS' 10:19:51 comment that the onshore permitting was hardly 10:19:54 addressed, but that's not an issue that you've 10:19:57 addressed anywhere anywhere in your report, is 10:20:00 it? I mean, you said you included it in the 10:20:02 schedule, but the onshore permitting is 10:20:08 done as part of the REA, and onshore permitting is 10:20:09

CONFIDENTIAL AND RESTRICTED February 19, 2016

1post-REA.10:20:231the work that we do.10:21:162Q. But - sorry Im talking10:20:242Q. But you didn't consider10:21:173about now, this separate permitting process that10:20:263it necessary to set out the rationale that was10:21:184you said would apply to the onshore manufacturing10:20:284or the experience that was informing that schedule10:21:256A. Yes.10:20:326A. No, we didn't. No, it's10:21:287Q. I didn't see an10:20:337not in the report.10:21:298explanation of the timing for that process. You10:20:348Q. And I'm not sure if you10:21:309have included10:20:389are aware, but, to your knowledge, is this issue10:21:3011Q those activities in10:20:4011expert reports?10:21:3912the schedule, but there's no explanation in the10:20:4414Q. Thanks. You also you10:21:4114considered reasonable.10:20:4515mentioned permitting for the jetty, and that's not 10:21:4115A. No. The timelines are10:20:4716something I'm familiar with, so if you could just10:21:5116not considered in the report because we're10:20:4716carify what you meant with that, and whether or 10:21:4116components.10:20:5418not that would be included or not included, in10:21:51	
2Q. But sorry I'm talking10:20:242Q. But you didn't consider10:21:173about now, this separate permitting process that10:20:263it necessary to set out the rationale that was10:21:184you said would apply to the onshore manufacturing10:20:283it necessary to set out the rationale that was10:21:185facilities.10:20:326A. No, we didn't. No, it's10:21:256A. Yes.10:20:326A. No, we didn't. No, it's10:21:287Q. I didn't see an10:20:337not in the report.10:21:308explanation of the timing for that process. You10:20:348Q. And I'm not sure if you10:21:309have included10:20:389are aware, but, to your knowledge, is this issue10:21:3010A. Yes.10:20:3911expert reports?10:21:3811Q those activities in10:20:4012A. Not to my knowledge, no.10:21:3913report as to the timelines and why they were10:20:4213I don't know.10:21:4114considered reasonable.10:20:4414Q. Thanks. You also - you10:21:4115A. No. The timelines are10:20:4716something I'm familiar with, so if you could just10:21:5116not considered in the report because we're10:20:4716something I'm familiar with, so if you could just10:21:5117dealing, really, with the REA component a	
3about now, this separate permitting process that10:20:263it necessary to set out the rationale that was10:21:184you said would apply to the onshore manufacturing10:20:284or the experience that was informing that schedule10:21:255facilities.10:20:326A. Yes.10:20:326A. No, we didn't. No, it's10:21:287Q. I didn't see an10:20:337not in the report.10:21:29010:21:308explanation of the timing for that process. You10:20:349are aware, but, to your knowledge, is this issue10:21:309have included10:20:3810addressed anywhere else in any of the Claimant's10:21:3110A. Yes.10:20:3911expert reports?10:21:3911Q those activities in10:20:4414Q. Thanks. You also you10:21:4114considered reasonable.10:20:4515mentioned permitting for the jetty, and that's not10:21:4115A. No. The timelines are10:20:4716something Tm familiar with, so if you could just10:21:4115A. No. The timelines we're10:20:4716something Tm familiar with, so if you could just10:21:5117dealing, really, with the REA component and those10:20:5117clarify what you meant with that, and whether or10:21:41	
4you said would apply to the onshore manufacturing 10:20:284or the experience that was informing that schedule 10:215facilities.10:20:325so that URS could could respond to it?10:21:256A. Yes.10:20:326A. No, we didn't. No, it's 10:21:28not in the report.10:21:297Q. I didn't see an10:20:337not in the report.10:21:298explanation of the timing for that process. CONFIDENTIAL AND RESTRICTED February 19, 2016

			1001uug 19, 2010
	Page 81		Page 82
1	figure a way to explain this. We have a 10:24:17	1	had a project site that was defined and had 10:25:33
2	preliminary site layout provided to us. This is 10:24:23	2	turbine locations that were defined. And that is 10:25:36
3	the normal way that we are approached with a 10:24:26	3	the typical level of information that we receive 10:25:39
4	project, that the developer has done some 10:24:28	4	as a consultant doing this. 10:25:41
5	preliminary work, some basic screening work, and 10:24:30	5	Q. I guess just the last 10:25:44
6	provides us with a basic document that shows, 10:24:33	6	question on this point. In terms of the actual 10:25:48
7	"Here is what we're thinking for our project." 10:24:37	7	fieldwork you mentioned, for example, bats in 10:25:51
8	From there you develop a 10:24:40	8	your presentation I mean, you can't actually 10:25:54
9	project description report, which defines a 10:24:42	9	physically go and conduct that work until a later 10:25:56
10	project location. And you define that project 10:24:46	10	stage of the of the process; correct? 10:26:00
11	location based on a number of constraints that 10:24:49	11	A. Once a project area is 10:26:02
12	you're aware of from a basic level of desktop 10:24:52	12	defined really when we study bats, we study 10:26:06
13	understanding. And then the project progresses 10:24:55	13	it's not specific to, say, a turbine location. It 10:26:10
14	from there. 10:24:58	14	is more general in terms of a study area that it 10:26:13
15	The detailed reports are 10:25:00	15	would be conducted at. 10:26:17
16	really to determine they're part of that REA 10:25:03	16	Q. In terms of fish, for 10:26:17
17	process in order to determine what the potential 10:25:09	17	example, or other other life forms or 10:26:19
18	environmental impacts would be, what habitat is 10:25:11	18	environmental aspects that might be specific to 10:26:24
19	there, those types of items. 10:25:13	19	the project, those would need to be taken into 10:26:26
20	Q. But in this case, it's 10:25:15	20	correct? 10:26:29
21	not possible to prepare the project description 10:25:18	21	A. Typically, yes, they 10:26:30
22	report that would be submitted to the MOE, because 10:25:22	22	would be taken into account. But they are taken 10:26:31
23	you, in fact, can't state with any certainty where 10:25:25	23	into account in terms of that broader preliminary 10:26:34
24	the project site is; correct? 10:25:28	24	desktop review of the information. 10:26:38
25	A. The material that we saw 10:25:31	25	So if we detect from that that 10:26:39
	Page 83		Page 84
1	there's no habitat or the habitat is limited for 10:26:43	1	construction phase, from the operations phase, and 10:27:50
2	certain species, then that's a reasonable piece of 10:26:46	2	also perhaps from the decommissioning phase of the 10:27:53
3	information to move forward to start to formulate 10:26:50	3	project. 10:27:56
4	a project location. 10:26:55	4	Q. And, to your knowledge, 10:27:57
5	And then as we move the 10:26:57	5	has a draft project description report been 10:27:58
6	process along, those turbine locations are sited 10:26:59	6	prepared by the Claimant and submitted to MOE? 10:28:01
7	accordingly. 10:27:03	7	A. No. They wouldn't have 10:28:05
8	Q. But, again, that is not 10:27:04	8	prepared one if they had no project to prepare one 10:28:07
9	something that's been done yet. You're still at 10:27:05	9	for. So it's a formal document I wouldn't say 10:28:11
10	the preliminary level of the analysis? 10:27:07	10	a formal document. It's a document that's 10:28:14
11	A. Right. And remember that 10:27:10	11	contents are prescribed by the regulation that it 10:28:18
12	draft D R, the draft Project Description Report, 10:27:12	12	has to contain a certain amount of information. 10:28:20
13	it is a draft, and it goes to the MOE for review, 10:27:15	13	Q. And you mentioned also an 10:28:22
14	to say, "Here's what we're thinking of doing for 10:27:18	14	Aboriginal consultations list, I believe. 10:28:28
15	our project. We're kicking our project off." 10:27:21	15	A. Yes. 10:28:29
16	And that's the document that 10:27:23	16	Q. And this is something 10:28:29
17	they use in order to make some determinations, 10:27:24	17	that a proponent has to request from the Ministry 10:28:30
18	including who you need to contact in terms of 10:27:27	18	if they want to complete the REA process; correct? 10:28:32
19 20	First Nations aboriginal groups for the 10:27:30	19	A. That is correct. That's 10:28:35
20 21	consultation part. 10:27:32	20	the first sort of touch-point with the Notice of 10:28:36
21	So the project area itself, as 10:27:33 it's defined, would certainly have provided enough 10:27:37	21	Project to the MOE as well as providing this draft 10:28:39
22	information to get that from the Ministry. As 10:27:40	22	Project Description Report, and then the MOE makes 10:28:42
	10.27.40	1 00	

- information to get that from the Ministry. As 10:27:40
 well as a basic understanding of the general types 10:27:44
- 25 of environmental impacts you could expect from the 10:27:47

23

24

25

to consult with.

24

a determination of -- they call it the Minister's 10:28:45

list. You get the Minister's list of groups to -- 10:28:48

10:28:50

	Page 85		Page 86
1	Q. And these are 10:28:52	1	to that. 10:29:39
2	specifically Aboriginal or First Nations groups 10:28:53	2	MS. WATES: Yeah. We all 10:29:42
3	that might have an interest or a potential 10:28:56	3	stipulate to that. 10:29:43
4	interest in the project area; correct? 10:28:58	4	THE WITNESS: Then I would, 10:29:44
5	A. That's correct. 10:29:00	5	yes. Yes, I would agree. 10:29:45
6	Q. And, to your knowledge, 10:29:00	6	So that and that's 10:29:46
7	has the Claimant, Windstream, requested such a 10:29:03	7	consistent with our project schedule starting 10:29:47
8	list from the MOE in this case? 10:29:05	8	around that time. 10:29:49
9	A. No, they haven't. And 10:29:08	9	BY MS. WATES: 10:29:50
10	they would have no reason to if they had if 10:29:10	10	Q. And are you aware 10:29:50
11	the moratorium was put on the project just as they 10:29:13	11	well, if we if we look back to the RFP that 10:29:54
12	were about to, my understanding, go into starting 10:29:16	12	that was submitted, it was put out in October 10:29:58
13	the project. 10:29:20	13	2010. 10:30:01
14	Q. And, to your knowledge, 10:29:20	14	A. Okay. 10:30:01
15	when was the moratorium or the deferral 10:29:23	15	Q. Correct? 10:30:03
16	moratorium on offshore wind imposed? 10:29:27	16	A. Yes. 10:30:03
17	A. It would be the early 10:29:29	17	Q. And are you aware of when 10:30:04
18	February. I don't recall the exact date. 10:29:30	18	Windstream was awarded its FIT contract? 10:30:09
19	Q. Of which year? 10:29:33	19	A. I do not have that date, 10:30:12
20	A. It would be again, I 10:29:34	20	no. 10:30:14
21	don't recall the date. 10:29:37	21	Q. Are you aware of when the 10:30:14
22	Q. If I said it were 10:29:37	22	first FIT contracts were awarded? 10:30:18
23	February 11, 2011, would you 10:29:39	23	A. Somewhere, if I recall, 10:30:19
24	A. Then 10:29:39	24	around 2010/2009 area. I don't recall the dates 10:30:22
25	MR. TERRY: We wouldn't object 10:29:39	25	when they were first issued. 10:30:26
		1	

Page 87

1Q. Okay. So from the time10:30:281Q. But if the variance is10:31:322that Windstream was awarded a FIT contract to -10:30:30more than 10 metres, then you would have to apply10:31:343up to the deferral decision, to your knowledge, 10:30:34for an amendment to your REA; correct?10:31:364they never requested an aboriginal consultation10:30:38A. That's correct.10:31:395list?10:30:44Q. And that would need to be10:31:427Q. You mentioned also the10:30:52g. Creect?10:31:448possibility of addressing potential issues through 10:30:55Q. Okay. And you don't rule10:31:4510locations and other project infrastructure.10:30:58Q. Okay. And you don't rule10:31:4811Now, this is intended to cover10:31:01required through a mitigation measure of greater10:31:5112minor variations in the locations of the turbine10:31:1310:31:13A. No. Again, it's going to 10:31:5916orrect?10:31:22A. That's correct. That's a10:31:2317A. That's correct. That's a10:31:2310:31:2418stated in the REA condition as a variation of plus10:31:2319orminon deviation that is published as a condition10:31:2321A. That's correct. That's a10:31:2322common deviation that is published as a condition10:31:2323in the actual approval that you get from the MOE.10:31:23 <td< th=""><th></th><th>Page 87</th><th>Page of</th></td<>		Page 87	Page of
a unit of the deferral decision, to your knowledge, 10:30:34a mater an informet to your REA; correct?10:31:364 they never requested an aboriginal consultation10:30:34for an amendment to your REA; correct?10:31:395 list?10:30:415Q. And that would need to be 10:31:396 A. Not to my knowledge, no.10:30:445Q. And that would need to be 10:31:427 Q. You mentioned also the10:30:556A. That's correct.10:31:429 micrositing and removing or relocating turbine10:30:559Q. Okay. And you dont rule10:31:4510 locations and other project infrastructure.10:30:5810out, in your report, the possibility that a10:31:4511 mior adjustments in the turbine locations;10:31:0111required through a mitigation measure of greater10:31:5112 minor adjustments in the locations of the turbines10:31:0610:31:51required through a mitigation measure of greater10:31:5313 correct?10:31:0610:31:131010:31:57be something very site-specific once we get into10:32:0314 A. 10	A. That's correct. 10:32:52	10	February 11, 2011, ending September 8, 2011, 10:33:43
11	Q. And you spoke in your 10:32:53	11	approximately seven months? 10:33:47
12	presentation you address specifically the 10:32:54	12	A. Okay. 10:33:48
13	the bat studies, that you consider that time 10:32:58	13	Q. And line 31 indicates 10:33:48
14	reasonable. But taking into account the overlap 10:33:01	14	that the aquatic field studies begin June 7, 2011 10:33:50
15	that's in the schedule for some of these studies, 10:33:10	15	and end July 31, 2011, approximately two months. 10:33:54
16	it's a total of nine months that we're working 10:33:12	16	So you see all of those times? 10:33:58
17	with for all of the natural heritage studies; 10:33:16	17	A. I do. 10:33:59
18	correct? 10:33:18	18	Q. Okay. And taking into 10:34:00
19	A. If there's overlap 10:33:19	19	account the overlap that you see in the schedule 10:34:01
20	Q. We can look at that if 10:33:21	20	there, it spans the total natural heritage time 10:34:03
21	you'd like. 10:33:22	21	pans from February 11, 2011 to November 16, 2011; 10:34:08
22	A. Okay, sure. 10:33:22	22	correct? From the activity that begins the 10:34:12
23	Q. It' in the large schedule 10:33:23	23	earliest to the one that ends the latest? 10:34:16
24	that my friend provided to you. 10:33:26	24	A. Yes. Okay. Yes. 10:34:19
25	A. Yes. 10:33:28	25	Q. Okay. So we're dealing 10:34:19
	Page 91		Page 92
1			

		1
1	with a period of approximately nine months; 10:34:20	1
2	correct? 10:34:22	2
3	A. I'm looking at the 10:34:23	3
4	overlap here. It would be helpful if you could 10:34:29	4
5	refer to specific lines so that I can track 10:34:33	5
6	Q. Yes, line 27 10:34:36	6
7	A. Twenty-seven. 10:34:38	7
8	Q line 29 and line 31. 10:34:38	8
9	A. Okay. 10:34:44	9
10	Q. So it's the three areas 10:34:44	10
11	of of field studies that you have opined on, 10:34:46	11
12	the birds, bats, and fish, as I understand they're 10:34:48	12
13	referred to. 10:34:53	13
14	A. Yes. Right. Okay. 10:34:53	14
15	Well, the longest activity is line 27. That goes 10:34:54	15
16	the latest. And so it overlaps the other one. So 10:34:56	16
17	that is the period of time for those studies. 10:35:01	17
18	Q. Right. And it starts a 10:35:03	18
19	little bit later than the other ones; correct? 10:35:04	19
20	A. Yes. Right. Okay. 10:35:07	20
21	Q. So if we look at the 10:35:08	21
22	activity that starts the earliest, that's the bat 10:35:09	22
23	studies, February 11, 2011. 10:35:12	23
24	A. Okay. 10:35:12	24
25	Q. And the activity that 10:35:13	25

ends the latest is November 16, 2011, with the 10:35:14
bird studies. 10:35:18
A. Okay. Okay. I see that. 10:35:19
Q. Okay. So you'd agree 10:35:26
with me that there is approximately nine months? 10:35:27
A. Approximately. 10:35:29
Q allowed for field 10:35:30
studies in total; correct? 10:35:31
A. Yes. But it ends at the 10:35:33
same time regardless of when we're starting. It's 10:35:35
still ending latest in October November, I'm 10:35:38
sorry. 10:35:42
Q. Okay. So I'd just like 10:35:43
to see how this compares with the estimated time 10:35:44
in the proposal that WSP provided in 2010. So if 10:35:48
you can turn back to Appendix 2 of the WSP report 10:35:52
and look at Section 5. I'd like to look at the 10:36:00
bird studies specifically. 10:36:08
So looking at Section 5, page 10:36:12
1 10:36:15
A. Okay. 10:36:16
Q the fourth paragraph 10:36:16
under Section 5.1.1, Bird survey, it states that: 10:36:18
"The present proposal 10:36:23
aims for a one-year bird 10:36:24
·

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 93		Page 94
1	survey." 10:36:26	1	whether or not you're actually conducting field 10:37:32
2	A. Okay. 10:36:26	2	studies for all 12 months, it's a 12-month period; 10:37:34
3	Q. Do you see that? And 10:36:27	3	correct? 10:37:37
4	then page I'm sorry. 10:36:31	4	A. It would it would 10:37:37
5	A. Yes, I see that. 10:36:34	5	you would be sampling in or doing the work in the 10:37:40
6	Q. Okay. Page 3 of the 10:36:35	6	appropriate seasons during a one-year period, yes. 10:37:43
7	section in the fifth paragraph, under Section 5.2, 10:36:38	7	Q. Over the course of one 10:37:46
8	"Bat Survey," this is the one you were referring 10:36:45	8	year? 10:37:47
9	to in your presentation. I believe 10:36:46	9	A. Yes. 10:37:47
10	A. Okay. Yes. 10:36:48	10	Q. Okay. And in the 10:37:48
11	Q it says it performed 10:36:49	11	schedule that's been submitted for this 10:37:50
12	during a one-year survey. And you've clarified 10:36:50	12	arbitration, the period is shortened from 12 10:37:52
13	your opinion on that in the presentation, I 10:36:56	13	months to nine months; correct? 10:37:55
14	believe. 10:36:58	14	A. It still covers that's 10:37:57
15	So if we can turn to page 4 10:36:58	15	correct, but the period of the studies being done 10:38:01
16	now. We see, in Section 5.2, again, the fisheries 10:37:00	16	are hitting the survey windows that are required 10:38:05
17	and benthics work. And on pages 5 and 6, there's 10:37:04	17	that we have to do that work. 10:38:09
18	a list of points, and it sets out a schedule. 10:37:12	18	So we for birds, we 10:38:12
19	Point 2 on page 6 says: 10:37:16	19	typically look at spring and and fall. Spring 10:38:15
20	"Field inventory is 12 10:37:19	20	season is when they're migrating, and breeding 10:38:18
21	weeks over one year." 10:37:20	21	birds are there, and fall migration. So so 10:38:20
22	Do you see that? 10:37:21	22	it's encapsulated. So the actual time duration is 10:38:24
23	A. I do. 10:37:22	23	shorter, but it's still within that one year of 10:38:27
24	Q. So, in 2010, WSP proposed 10:37:23	24	data. 10:38:31
25	to conduct the field studies over you know, 10:37:29	25	Q. Okay. So one year of 10:38:32
	Page 95		Page 96
1	data for birds 10:38:35	1	Q. And now if we look at 10:39:41
2	A. Yes. 10:38:36	2	page 27, the third paragraph from the bottom of 10:39:43
3	Q according to the 10:38:36	3	the page, it states: 10:39:46
4	seasonality? 10:38:37	4	"Because of the potential 10:39:49
5	A. Yes. One I'm trying 10:38:38	5	for large year-to-year 10:39:50
6	to find a way to explain. It says one season or 10:38:41	6	variation in activities, 10:39:51
7	one two seasonal surveys within the span of a 10:38:44	7	preconstruction baseline 10:39:53
8	year. 10:38:48	8	surveys" 10:39:55
9	Q. I'd just like to show you 10:38:49	9	Sorry. 10:39:55
10	Exhibit C-1426 at Tab 4. It's a document called 10:38:50	10	" preconstruction 10:39:56

0	to find a way to explain. It says one season of 10.50.41
7	one two seasonal surveys within the span of a 10:38:44
8	year. 10:38:48
9	Q. I'd just like to show you 10:38:49
10	Exhibit C-1426 at Tab 4. It's a document called 10:38:50
11	"Wind Turbines and Birds: A Guidance Document for 10:38:50
12	Environmental Assessment," published by 10:39:01
13	Environment Canada and the Canadian Wildlife 10:39:02
14	Service in April 2007. 10:39:06
15	You're familiar with this 10:39:06
16	document? 10:39:08
17	A. I have some familiarity 10:39:08
18	with it, but, again, I rely, as a project manager, 10:39:11
19	on my biology team and and others for this 10:39:13
20	particular guidance. 10:39:18
21	Q. If we turn to page 26 of 10:39:25
22	the document and look at the title to Section 8.5, 10:39:27
23	it's called "Special Considerations Relating to 10:39:36
24	Offshore Projects." Do you see that? 10:39:39
25	A. I see that. 10:39:40

surveys --" 10:39:55 Sorry. 10:39:55 "-- preconstruction 10:39:56 baseline studies should 10:39:57 extend over at least two 10:39:58 years." 10:40:00 Do you see that? 10:40:00 A. Okay. I do see that, 10:40:01 yes. 10:40:03 Q. So, according to this 10:40:03

document, the guidance from Environment Canada and 10:40:07Canadian Wildlife Service is that bird studies10:40:12should be conducted over the course of two years10:40:16as opposed to one year; correct?10:40:18A. That's what the document10:40:21says, yes.10:40:22Q. And if we go back to the10:40:232010 WSP proposal at page -- Appendix 2 of your10:40:25

CONFIDENTIAL AND RESTRICTED

February 19, 2016

Page 97	Page
1 report and look at the first page of Section 5, 10:40:31	1 And there WSP is citing to the 10:41:19
2 and we will look at the beginning of the third 10:40:47	² Wind Turbines and Birds Guidance Document. Do you 10:4
³ paragraph. It states there 10:40:48	³ see that. 10:41:27
4 A. Sorry, we're in 10:40:52	4 A. I do. 10:41:27
5 Q. I'm in Appendix 2 of the 10:40:53	5 Q. And that's the exhibit 10:41:28
6 report, the 2010 proposal 10:40:55	6 that we that we just looked at; correct? 10:41:29
7 A. Okay. 10:40:56	7 A. Okay. Yes. 10:41:31
8 Q and Section 5 of the 10:40:57	8 Q. And just back in the main 10:41:32
9 proposal. 10:40:58	⁹ text of that paragraph, you stated: 10:41:34
A. Section 5. 10:40:59	10 "Since the installation 10:41:37
Q. It's where the page 10:41:00	11 of turbines foundation 10:41:38
¹² numbering restarts. 10:41:01	12 systems could begin 10:41:39
A. Yes, okay. 10:41:02	¹³ during summer of 2012" 10:41:40
4 Q. If we look at the 10:41:03	According to the RFP documents 10:41:43
beginning of the third paragraph there, it states: 10:41:04	15 at that time. 10:41:45
6 "Federal guidelines 10:41:07	16 A. Okay. 10:41:45
concerning bird surveys 10:41:07	17 Q. " the project timeline 10:41:46
8 for offshore wind 10:41:09	18 is not compatible with a 10:41:47
19 projects indicate that, 10:41:10	19 two-year bird survey." 10:41:48
20 because of the potential 10:41:11	20 And it indicates that: 10:41:50
for large year-over-year 10:41:12	21 "WSP's intent was to 10:41:51
variations in activities, 10:41:15	22 engage both CWS" 10:41:52
preconstruction baseline 10:41:16	²³ That is Canadian Wildlife. 10:41:55
studies should extend 10:41:17	A. Canadian Wildlife 10:41:56
over at least two years." 10:41:18	25 Services. 10:41:58
Page 99	Page 1
	8
1 O. Survey? Okay. Services. 10:41:58	
	¹ year of bird data. And, again, we relied on other 10:42:54
2 " and MNR early on in 10:41:59	¹ year of bird data. And, again, we relied on other 10:42:54
 2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03
 2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03 Q. Okay. But and you 10:43:04
 2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03 Q. Okay. But and you 10:43:04 mentioned that the Canadian Wildlife Service 10:43:09
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03 Q. Okay. But and you 10:43:04 mentioned that the Canadian Wildlife Service 10:43:09 represents a different and MNR, you know, 10:43:13
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03 Q. Okay. But and you 10:43:04 mentioned that the Canadian Wildlife Service 10:43:09 represents a different and MNR, you know, 10:43:13 they're different jurisdictions, federal and 10:43:14
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:05 8 A. I do. 10:42:05	 year of bird data. And, again, we relied on other 10:42:54 reports to support this and including Kerlinger 10:42:58 for for this information. 10:43:03 Q. Okay. But and you 10:43:04 mentioned that the Canadian Wildlife Service 10:43:09 represents a different and MNR, you know, 10:43:13 they're different jurisdictions, federal and 10:43:14 provincial; correct? 10:43:17
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:196represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:18
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:18
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14 2 studies and that you would have to negotiate 10:42:18	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:26
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14 2 studies and that you would have to negotiate 10:42:18 3 specifically to get it down to one year of bird 10:42:21	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:27
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14 3 specifically to get it down to one year of bird 10:42:21 4 studies; correct?	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:28
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14 2 studies and that you would have to negotiate 10:42:18 3 specifically to get it down to one year of bird 10:42:21 4 studies; correct? 10:42:23 5 A. That's correct. But 10:42:24	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:29
2 " and MNR early on in 10:41:59 3 the process and negotiate 10:42:00 4 a single year 10:42:01 5 preconstruction survey." 10:42:02 6 A. Yes. 10:42:04 7 Q. Do you see that? 10:42:04 8 A. I do. 10:42:05 9 Q. Okay. So what I 10:42:05 0 understand WSP, in 2010, is saying here that 10:42:11 1 regulators normally require two years of bird 10:42:14 2 studies and that you would have to negotiate 10:42:18 3 specifically to get it down to one year of bird 10:42:21 4 studies; correct? 10:42:23 5 A. That's correct. But 10:42:24 6 we're talking two jurisdictions here. So Canadian 10:42:25	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:30
 " and MNR early on in 10:41:59 the process and negotiate 10:42:00 a single year 10:42:01 preconstruction survey." 10:42:02 A. Yes. 10:42:04 Q. Do you see that? 10:42:04 A. I do. 10:42:05 Q. Okay. So what I 10:42:05 understand WSP, in 2010, is saying here that 10:42:11 regulators normally require two years of bird 10:42:14 studies and that you would have to negotiate 10:42:13 specifically to get it down to one year of bird 10:42:21 studies; correct? 10:42:23 A. That's correct. But 10:42:24 we're talking two jurisdictions here. So Canadian 10:42:25 Wildlife Service is the federal agency. So that 10:42:29 	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:3016required if it's engaged, it would be required10:43:3017in order to construct the project; correct?10:43:35
 " and MNR early on in 10:41:59 the process and negotiate 10:42:00 a single year 10:42:01 preconstruction survey." 10:42:02 A. Yes. 10:42:04 Q. Do you see that? 10:42:04 A. I do. 10:42:05 Q. Okay. So what I 10:42:05 understand WSP, in 2010, is saying here that 10:42:11 regulators normally require two years of bird 10:42:14 studies and that you would have to negotiate 10:42:21 studies; correct? 10:42:23 A. That's correct. But 10:42:24 we're talking two jurisdictions here. So Canadian 10:42:25 Wildlife Service is the federal agency. So that 10:42:32 	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:046represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2916required if it's engaged, it would be required10:43:3017in order to construct the project; correct?10:43:37
 " and MNR early on in 10:41:59 the process and negotiate 10:42:00 a single year 10:42:01 preconstruction survey." 10:42:02 A. Yes. 10:42:04 Q. Do you see that? 10:42:04 A. I do. 10:42:05 Q. Okay. So what I 10:42:05 understand WSP, in 2010, is saying here that 10:42:11 regulators normally require two years of bird 10:42:14 studies and that you would have to negotiate 10:42:21 studies; correct? 10:42:23 A. That's correct. But 10:42:24 we're talking two jurisdictions here. So Canadian 10:42:25 Wildlife Service is the federal agency. So that 10:42:32 requirement. 10:42:35 	1year of bird data. And, again, we relied on other $10:42:54$ 2reports to support this and including Kerlinger $10:42:58$ 3for for this information. $10:43:03$ 4Q. Okay. But and you $10:43:04$ 5mentioned that the Canadian Wildlife Service $10:43:04$ 6represents a different and MNR, you know, $10:43:13$ 7they're different jurisdictions, federal and $10:43:14$ 8provincial; correct? $10:43:17$ 9A. Yes. $10:43:18$ 10Q. And you mentioned the $10:43:18$ 11Canadian Environmental Assessment process, which I $10:43:12$ 12involve I understand is an environmental $10:43:26$ 13screening. Is that correct? $10:43:28$ 15Q. And this would be $10:43:29$ 16required if it's engaged, it would be required $10:43:35$ 18A. It would be required, $10:43:37$ 19yes. $10:43:38$
2" and MNR early on in $10:41:59$ 3the process and negotiate $10:42:00$ 4a single year $10:42:01$ 5preconstruction survey." $10:42:02$ 6A. Yes. $10:42:04$ 7Q. Do you see that? $10:42:04$ 8A. I do. $10:42:05$ 9Q. Okay. So what I $10:42:05$ 0understand WSP, in 2010, is saying here that $10:42:11$ 1regulators normally require two years of bird $10:42:14$ 3specifically to get it down to one year of bird $10:42:21$ 4studies; correct? $10:42:23$ 5A. That's correct. But $10:42:25$ 7Wildlife Service is the federal agency. So that $10:42:29$ 8would be the Canadian Environmental Assessment Act $10:42:32$ 9And it is a guideline. It's $10:42:36$	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:3016required if it's engaged, it would be required10:43:3719yes.10:43:3820Q. So to the extent that MNR10:43:38
2" and MNR early on in $10:41:59$ 3the process and negotiate $10:42:00$ 4a single year $10:42:01$ 5preconstruction survey." $10:42:02$ 6A. Yes. $10:42:04$ 7Q. Do you see that? $10:42:04$ 8A. I do. $10:42:05$ 9Q. Okay. So what I $10:42:05$ 0understand WSP, in 2010, is saying here that $10:42:11$ 1regulators normally require two years of bird $10:42:14$ 3specifically to get it down to one year of bird $10:42:21$ 4studies; correct? $10:42:23$ 5A. That's correct. But $10:42:24$ 6we're talking two jurisdictions here. So Canadian $10:42:25$ 7Wildlife Service is the federal agency. So that $10:42:29$ 8would be the Canadian Environmental Assessment Act $10:42:32$ 9And it is a guideline. It's $10:42:36$ 1not it's not a document that we're we're $10:42:39$	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:3016required if it's engaged, it would be required10:43:3719yes.10:43:3820Q. So to the extent that MNR10:43:3821only required one year of avian studies, if the10:43:41
2" and MNR early on in $10:41:59$ 3the process and negotiate $10:42:00$ 4a single year $10:42:01$ 5preconstruction survey." $10:42:02$ 6A. Yes. $10:42:04$ 7Q. Do you see that? $10:42:04$ 8A. I do. $10:42:05$ 9Q. Okay. So what I $10:42:05$ 0understand WSP, in 2010, is saying here that $10:42:11$ 1regulators normally require two years of bird $10:42:14$ 2studies and that you would have to negotiate $10:42:13$ 3specifically to get it down to one year of bird $10:42:23$ 5A. That's correct. But $10:42:24$ 6we're talking two jurisdictions here. So Canadian $10:42:25$ 7Wildlife Service is the federal agency. So that $10:42:32$ 9requirement. $10:42:35$ 9And it is a guideline. It's $10:42:39$ 9compelled to use, although so that's something $10:42:42$	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:3016required if it's engaged, it would be required10:43:3719yes.10:43:3820Q. So to the extent that MNR10:43:3821only required one year of avian studies, if the10:43:4122federal regulators required two, then that would10:43:45
2" and MNR early on in $10:41:59$ 3the process and negotiate $10:42:00$ 4a single year $10:42:01$ 5preconstruction survey." $10:42:02$ 6A. Yes. $10:42:04$ 7Q. Do you see that? $10:42:04$ 8A. I do. $10:42:05$ 9Q. Okay. So what I $10:42:05$ 0understand WSP, in 2010, is saying here that $10:42:11$ 1regulators normally require two years of bird $10:42:14$ 2studies and that you would have to negotiate $10:42:18$ 3specifically to get it down to one year of bird $10:42:21$ 4studies; correct? $10:42:23$ 5A. That's correct. But $10:42:25$ 6we're talking two jurisdictions here. So Canadian $10:42:25$ 8would be the Canadian Environmental Assessment Act $10:42:32$ 9requirement. $10:42:35$ 9And it is a guideline. It's $10:42:39$	1year of bird data. And, again, we relied on other10:42:542reports to support this and including Kerlinger10:42:583for for this information.10:43:034Q. Okay. But and you10:43:045mentioned that the Canadian Wildlife Service10:43:096represents a different and MNR, you know,10:43:137they're different jurisdictions, federal and10:43:148provincial; correct?10:43:179A. Yes.10:43:1810Q. And you mentioned the10:43:1811Canadian Environmental Assessment process, which I10:43:2613screening. Is that correct?10:43:2714A. That's correct.10:43:2815Q. And this would be10:43:3016required if it's engaged, it would be required10:43:3719yes.10:43:3820Q. So to the extent that MNR10:43:3821only required one year of avian studies, if the10:43:41

	D. 101		D 102
	Page 101		Page 102
1	see what room there was in the schedule between 10:43:52	1	on, Ms. Wates. 11:02:33
2	completing the first year of bird data work, and 10:43:57	2	BY MS. WATES: 11:02:35
3	if another year was required, we've got 12 months' 10:44:00	3	Q. Thank you. I just have 11:02:35
4	worth of review from and an appeal at the ERT. 10:44:04	4	one more brief set of questions. You referred to 11:02:38
5	So it seems to me there would be adequate time, 10:44:08	5	the 40-day screening review service standard. We 11:02:42
6	within that overall project schedule that you 10:44:11	6	talked about that. That's for screening 11:02:47
7	could get those studies to line up at the end, if 10:44:13	7	applications for the REA; correct? 11:02:50
8	the requirement was for an additional year of bird 10:44:16	8	A. Yes. 11:02:52
9	data. 10:44:19	9	Q. And the six-month service 11:02:52
10	PRESIDENT: Ms. Wates, how 10:44:22	10	standard for the technical review of applications, 11:02:54
11	long do you think you still need? We'll be 10:44:23	11	that you relied on both of those in making the 11:02:56
12	breaking fairly soon depending on how much you 10:44:28	12	schedule. We had discussed that; correct? 11:02:59
13	need. 10:44:31	13	A. That's correct. 11:03:01
14	MS. WATES: I think I should 10:44:32	14	Q. Now, you said that, for 11:03:10
15	only need another 10 to 15 minutes perhaps. But 10:44:33	15	the purpose of scheduling, you rely on the service 11:03:15
16	we can break and resume afterwards. 10:44:36	16	standards from the Ministry. But in your in 11:03:18
17	PRESIDENT: If it expedites 10:44:39	17	your experience as a permitting consultant, it can 11:03:20
18	matters. Okay. Let's break for because we 10:44:41	18	actually take much longer than that, can't it? 11:03:24
19	will still have, I suppose, redirect and possibly 10:44:44	19	A. It can take longer, and 11:03:26
20	questions from the Tribunal. So let's break for 10:44:48	20	on the other hand, it can take shorter as well. 11:03:28
21	15 minutes now, and we will continue at 11:00. 10:44:51	21	Q. But in terms of the 11:03:31
22	MS. WATES: Thank you. 10:44:54	22	service standards, it's possible that it can, in 11:03:34
23	Recess taken at 10:47 a.m. 10:47:02	23	fact, take much longer. 11:03:38
24	Upon resuming at 11:02 a m. 11:01:47	24	And the director, in fact, of 11:03:39
25	PRESIDENT: Okay. We will go 11:02:31	25	the approvals program of the REA has attested in 11:03:45

Page 103

	-
1	this arbitration that the screening time can take, 11:03:48
2	in fact, between one to nine months, with an 11:03:51
3	average of six months for Class 3 and 4 onshore 11:03:54
4	wind projects. Are you is that consistent with 11:03:57
5	your experience? 11:03:59
6	A. It's consistent with some 11:04:00
7	of our experience on projects. However, I would 11:04:02
8	like to say that, again, from a project-planning 11:04:05
9	perspective, we need to use the published 11:04:08
10	standards for our schedules. And that's what was 11:04:10
11	used for in this case. 11:04:14
12	Q. And, I mean, that's from 11:04:15
13	the screening perspective. But then from the 11:04:17
14	perspective of technical review, she's indicated 11:04:19
15	that it's taken between 5 and 20 months. Is that 11:04:24
16	also consistent with your experience? 11:04:29
17	A. Not in my experience in 11:04:32
18	terms of a 20-month turnaround, no. Certainly 11:04:34
19	sometimes on the shorter end of five months, yes. 11:04:37
20	Sometimes a little longer. It really depends on 11:04:40
21	the project and the issues that are there. 11:04:44
22	Q. So you have been involved 11:04:45
23	in onshore wind projects, for example, where the 11:04:47
24	technical review of the application by MOE took 11:04:49
25	longer than six months? 11:04:52

Page 104

1	A. Yes, in some cases. 11:04:54
2	Q. Significantly longer than 11:04:55
3	six months? 11:04:57
4	A. Sometimes. 11:04:57
5	Q. Approximately how long 11:04:59
6	would you say is the longest time that it's taken, 11:05:01
7	in your experience? 11:05:03
8	A. I have worked on many 11:05:04
9	projects, and I can't really recall in terms of a 11:05:06
10	specific time frame, to be honest with you, in 11:05:09
11	terms of the longest one, no. 11:05:13
12	Q. Maybe not specifically 11:05:15
13	the longest one, but on the upper end of the 11:05:17
14	range, if you were to estimate, in your 11:05:20
15	experience, doing permitting and working with the 11:05:22
16	Ministry, how long would you estimate it could 11:05:25
17	take? 11:05:31
18	A. Again, I really can't 11:05:32
19	give an estimate, because every project is going 11:05:34
20	to be different, and the types of questions and 11:05:37
21	things that the Ministry needs to review are going 11:05:39
22	to be different and, and sometimes it's a case 11:05:43
23	where a project has a lot of public opposition in 11:05:44
24	an area, and those comments need to be reviewed 11:05:49
25	very carefully. And that takes additional time. 11:05:52

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 105
1	Or there is a specific technical item that is 11:05:55
2	potentially problematic and needs to be reviewed. 11:06:00
3	So, again, I can't provide an estimate until we do 11:06:05
4	the work. 11:06:09
5	Q. Right. I appreciate that 11:06:10
6	it has to be assessed on a project-by-project 11:06:11
7	basis, but for the projects that you've already 11:06:14
8	dealt with the permitting for 11:06:17
9	A. Yes. 11:06:19
10	Q I'd like to just ask 11:06:19
11	again if you can you said it sometimes can take 11:06:22
12	longer than six months. 11:06:25
13	A. Yes. 11:06:26
14	Q. And I'd just like to 11:06:26
15	know, in your experience, what the upper end of 11:06:27
16	that range has been. You don't have to identify a 11:06:29
17	specific project, but for an onshore wind project 11:06:32
18	generally, one that's been more difficult, how 11:06:35
19	long has that technical review process taken? 11:06:37
20	A. It's taken additional 11:06:40
21	three to six months, depending on the project, 11:06:42
22	yes. 11:06:45
23	Q. So 10 months, then, if we 11:06:45
24	you said an additional three to six months? 11:06:49
25	A. Yes. 11:06:52

Page 106 1 Q. In fact -- I'm sorry. I 11:06:52 2 just want to correct that. Did you say three to 11:06:54 3 six months? 11:06:56 4 11:06:57 A. Yes. 5 Q. So then adding on the 11:06:57 additional six months, it would be 12 months, in 11:06:58 6 7 fact, one year of technical review? 11:07:00 8 A. Yes. 11:07:02 9 Q. Just checking my -- I'm 11:07:02 10 not a mathematician. I became a lawyer because 11:07:05 11 sometimes even basic math evades me. 11:07:09 12 PRESIDENT: That's in the 11:07:12 13 11:07:14 transcript. 14 BY MS. WATES: 11:07:15 15 Q. Okay. So in your 11:07:15 16 experience, it can take potentially as long as a 11:07:16 17 year. You mentioned that sometimes public 11:07:19 18 opposition can play into that process. 11:07:22 19 A. Yes. 11:07:25 20 Q. And I understand that 11:07:26 21 there's some public consultation involved. 11:07:28 22 A. Correct. 11:07:31 23 Q. So this public opposition 11:07:31 24 that you referred to, would it be coming in 11:07:34 25 through the public consultation process of the 11:07:36

Page 107

Daga 105

	-
1	REA? 11:07:38
2	A. Yes. 11:07:39
3	Q. Okay. And in the case of 11:07:40
4	the first offshore wind project in Ontario, 11:07:42
5	planned for 300 megawatts 11:07:45
6	A. Yes. 11:07:48
7	Q in your experience 11:07:48
8	dealing with onshore wind projects, would you 11:07:51
9	expect much public opposition to this project? 11:07:54
10	A. I would expect, actually, 11:07:56
11	less, only because onshore wind projects tend to 11:07:59
12	affect many different landowners and stakeholders. 11:08:03
13	And in this particular case, 11:08:07
14	we're far away from any property owners. So on 11:08:09
15	that aspect, I think the volume of comments that 11:08:12
16	would have to be dealt with by by 11:08:14
17	directly=affected stakeholders and property owners 11:08:18
18	would be much, much less. In terms of providing 11:08:20
19	comment on other aspects of the project, because 11:08:24
20	it's an offshore project, that's an unknown. But 11:08:26
21	so from that perspective, I would expect less 11:08:30
22	interest in the project from people that would be 11:08:33
23	directly affected or close to the turbines because 11:08:35
24	there really aren't very many people close by the 11:08:38
25	site. 11:08:41

	6
1	Q. Thank you. Are you 11:08:41
2	familiar with the environmental registry of the 11:08:42
3	Ontario Government? 11:08:46
4	A. Yes. 11:08:46
5	Q. And are you aware of the 11:08:47
6	EBR posting that was made to with the decision 11:08:50
7	of the deferral on February 11, 2011? 11:08:54
8	A. No, I haven't seen that 11:08:56
9	particular posting. 11:09:00
10	Q. Okay. Perhaps we could 11:09:00
11	pull that up so that we can just look at what 11:09:01
12	public comment there has been. 11:09:06
13	A. Okay. 11:09:08
14	MS. WATES: Donnie, would you 11:09:08
15	be able to pull up Exhibit C-0725? 11:09:09
16	BY MS. WATES: 11:09:09
17	Q. So we'll see this is 11:09:19
18	MOE's decision posting, dated February 11, 2011. 11:09:23
19	A. Okay. 11:09:28
20	Q. If we scroll down 11:09:28
21	that's good there the third paragraph: 11:09:30
22	"In light of the comments 11:09:35
23	received in response to 11:09:37
24	MOE and MNR's postings 11:09:38
25	and, in particular, the 11:09:39

Page 108

0

	Page 109		Page 110
1	identified need for 11:09:40	1	adequate protection, or 11:10:27
2	further study, Ontario is 11:09:41	2	there were significant 11:10:29
3	not proceeding with any 11:09:42	3	areas of scientific 11:10:30
4	development of offshore 11:09:43	4	uncertainty." 11:10:31
5	wind projects until the 11:09:44	5	So this is indicated as being 11:10:32
6	necessary scientific 11:09:46	6	the majority of respondents that MOE received 11:10:33
7	research is completed and 11:09:46	7	during the public consultation. 11:10:37
8	an adequately informed 11:09:48	8	So given the comments that 11:10:39
9	policy framework can be 11:09:49	9	were received by the MOE on this proposal, you 11:10:44
10	developed." 11:09:50	10	don't consider that there would be a high level of 11:10:47
11	And if we if we scroll down 11:09:52	11	engagement from the public and opposition to the 11:10:51
12	to the second page yes, keep going it says, 11:09:53	12	project on a project-specific basis? 11:10:54
13	"Comments received on the proposal: 1,403." Do 11:10:01	13	A. Project-specific basis, I 11:10:56
14	you see that. 11:10:04	14	think that proposal is maybe a little 11:10:59
15	A. I do. 11:10:04	15	different than the actual project itself. 11:11:01
16	Q. And if we keep scrolling, 11:10:05	16	And I have seen projects, 11:11:03
17	down, under "Effects of the Consultation on the 11:10:09	17	onshore projects, that have generated many more 11:11:06
18	Decision," it states that: 11:10:14	18	comments for their postings. So that level of 11:11:08
19	"A majority of 11:10:18	19	interest for a project of 300 megawatts would be 11:11:13
20	respondents expressed 11:10:19	20	about what we would expect for that. 11:11:17
21	concern that either the 11:10:19	21	Again, it's the specific 11:11:20
22	proposed 5-kilometre 11:10:20	22	landowner comments that we normally deal with that 11:11:23
23	exclusion zone may not be 11:10:21	23	are to us, are the more thorny issues to deal 11:11:25
24	far enough from the 11:10:26	24	with for the developer. 11:11:29
25	shoreline to provide 11:10:26	25	Q. Just one moment to confer 11:11:30

Page 111

	C C
1	with my colleagues. Those are all of our 11:11:35
2	questions for the witness. 11:11:44
3	PRESIDENT: Thank you, 11:11:47
4	Ms. Wates. 11:11:49
5	Any questions in redirect? 11:11:51
6	MS. SEERS: Yes, we do. If we 11:11:54
7	could ask the Tribunal's indulgence of a few 11:11:55
8	minutes to gather our thoughts and documents, that 11:11:57
9	would be much appreciated. 11:12:00
10	PRESIDENT: Five minutes? 11:12:02
11	MS. SEERS: Thank you. 11:12:04
12	Recess taken at 11:12 a.m. 11:12:05
13	Upon resuming at 11:14 a m. 11:14:09
14	PRESIDENT: Okay. We will go 11:14:12
15	on, Ms. Seers. 11:14:13
16	CROSS-EXAMINATION BY MS. SEERS: 11:14:13
17	Q. Yes. Good morning, 11:14:15
18	Mr. Roberts. Just a few questions for you. 11:14:16
19	A. Sure. 11:14:20
20	Q. You'll recall that 11:14:20
21	Ms. Wates asked you a question about delays by the 11:14:21
22	MOE in processing screening and technical reviews, 11:14:25
23	and she suggested to you that it had taken between 11:14:31
24	5 and 20 months turnaround in certain cases. 11:14:34
25	In your experience, how has 11:14:38

Page 112

the OPA dealt with the issue of excessive 11:14:39 2 permitting delays by the MOE in the context of the 11:14:43 3 FIT program? 11:14:46 4 A. So they deal with it in a 11:14:47 5 reasonable manner, when -- by either using force 11:14:49 6 majeure or using other tools to grant 11:14:53 7 across-the-board extensions for certain projects 11:14:56 8 to allow them to deal with these -- these delays 11:14:58 9 in a technical review, if there's an item that has 11:15:02 10 to be reviewed in detail. So that's the normal 11:15:07 tool they use, but they don't impose on the 11:15:11 12 developer to have to sort of eat that time. It's 11:15:13 13 looked after. It's been our experience. 11:15:18 14 Q. So it's not -- it's 11:15:20 15 not -- the developer doesn't get penalized for 11:15:22 16 that? 11:15:26 A. No, they don't get 11:15:26 18 penalized for that. They get penalized for things 11:15:27 19 that they do, if they're delaying things on their 11:15:30 20 own, but if this there acting reasonably, 11:15:34 21 producing what they need to do, working with the 11:15:37 22 regulators, then -- then they're not penalized for 11:15:39 23 that in terms of their contract. 11:15:41 24 Q. Okay. Has MOE -- and 11:15:47 25 this is, I suppose, a similar -- in a similar 11:15:48

		1	
	Page 113		Page 114
1	vein, but have MOE proponents and the OPA, in your 11:15:50	1	on the expert report of Dr. Paul Kerlinger; 11:17:11
2	experience, worked together in a pragmatic and 11:15:54	2	correct? 11:17:14
3	coordinated approach in dealing with these kinds 11:15:58	3	A. That's correct. And 11:17:15
4	of issues? 11:16:00	4	Dr. Kerlinger had proposed a number of different 11:17:16
5	A. It's difficult to answer, 11:16:01	5	methodologies in order to conduct those carcass 11:17:19
6	because a developer often only sees the government 11:16:05	6	searches post-construction. So one of those 11:17:22
7	as an agency and arms of the government. So they 11:16:08	7	methods or some combination thereof would would 11:17:25
8	in the past, they have acted reasonably in 11:16:13	8	seem to be reasonable to put forward as something 11:17:28
9	terms of giving that relief when there are are 11:16:15	9	to do the environmental monitoring. 11:17:32
10	difficulties with the process. 11:16:19	10	Q. Okay. Thank you. And I 11:17:34
11	Q. Right. Okay. Your 11:16:20	11	note for the record that Dr. Kerlinger's report 11:17:36
12	indulgence for one moment. I apologize. The rest 11:16:36	12	was submitted by the Claimant in this proceeding 11:17:39
13	is my own handwriting. 11:16:43	13	along with its Memorial and that the Respondent 11:17:42
14	You'll recall, Mr. Roberts, 11:16:45	14	has chosen not to cross-examine Dr. Kerlinger, but 11:17:45
15	that Ms. Wates asked you a question about 11:16:46	15	I will be handing or my colleague will be 11:17:48
16	post-construction monitoring for birds and 11:16:49	16	handing up Dr. Kerlinger's CV since his evidence 11:17:51
17	specifically about bird carcass searches. 11:16:51	17	has now been raised via Mr. Roberts. 11:17:56
18	A. Yes. 11:16:54	18	And I would ask you, 11:18:03
19	Q. And you answered that the 11:16:55	19	Mr. Roberts, could you please, with the benefit of 11:18:04
20	Ministry and agencies deal with this in a 11:16:56	20	Dr. Kerlinger's CV, who is not unfortunately in 11:18:08
21	responsible manner and do their best in order to 11:16:58	21	the room, could you perhaps, once everyone has 11:18:11
22	work with the proponent to come to an outcome. 11:17:00	22	their documents in order it should just be the 11:18:14
23	A. Yes. 11:17:02	23	CV. And I suppose you have been handed the report 11:18:25
24	Q. And so to be clear, for 11:17:02	24	itself as well. 11:18:32
25	the record, in preparing your report, you relied 11:17:08	25	MS. NETTLETON: I don't have 11:18:34
	Page 115		Page 116

1	sufficient copies for the Tribunal. I need the CV 11:18:36
2	as well. Thank you. 11:18:40
3	BY MS. SEERS: 11:18:43
4	Q. Okay. So with the 11:18:43
5	benefit of Dr. Kerlinger's CV, Mr. Roberts, would 11:18:45
6	you please briefly explain for the Tribunal 11:18:48
7	Dr. Kerlinger's experience and expertise in 11:18:52
8	connection with birds and the impact from offshore 11:18:54
9	wind turbines or wind turbines generally on birds. 11:19:00
10	A. So 11:19:03
11	MS. WATES: Excuse me. Sorry, 11:19:04
12	just before the witness answers that question, if 11:19:05
13	I can object. This, as Ms. Seers as my friend 11:19:07
14	stated, Dr. Kerlinger's report and his CV are 11:19:11
15	already in the record, and it's not clear to me 11:19:15
16	what the benefit of having the witness read into 11:19:19
17	the record 11:19:21
18	PRESIDENT: I tend to sustain 11:19:23
19	that objection. There was no questions about 11:19:24
20	Dr. Kerlinger's report on cross-examination. So 11:19:26
21	this is on record. I don't think we need to get 11:19:29
22	into this. 11:19:31
23	MS. SEERS: Okay. Thank you, 11:19:32
24	Mr. President. 11:19:32
25	For the clarity of the record, 11:19:33

there were questions about carcass searches, and 11:19:35 the matter is dealt with in Dr. Kerlinger's report 11:19:39 and Mr. Roberts -- Mr. Roberts' report addresses 11:19:41 that matter relying on Dr. Kerlinger's report, 11:19:47 who, of course, is not being cross-examined. 11:19:49 PRESIDENT: Go ahead. 11:19:53 BY MS. SEERS: 11:19:55 11:19:55 Q. You will recall also, Mr. Roberts, that Ms. Wates asked you a question 11:19:56 about fish and benthic life form studies. 11:19:59 A. Yes. 11:20:03 Q. And you noted that the 11:20:03 assessment of these matters by the Ministry are 11:20:05 understood. And to be clear, for the record, in 11:20:08 preparing your reports -- your report in 11:20:12 connection with fish and aquatic studies, you 11:20:14 relied on the expert opinions of Ms. Joanne Lane? 11:20:18 A. That's correct. It was 11:20:21 contained in Baird's report. 11:20:22 Q. Correct. So she has 11:20:23 submitted expert opinions in each of the two Baird 11:20:26 reports that are before the Tribunal in this 11:20:29 proceeding, as I understand it. 11:20:30 A. Yes. 11:20:32 Q. And I note, for the 11:20:32

Q. You'll recall,

Genivar proposal had studies conducted over

A. Yes.

Mr. Roberts, that Ms. Wates took you to references 11:21:24

Q. And you answered that the 11:21:32

in the Genivar proposal that referred to one-year 11:21:26

record, that Canada has also declined to 11:20:35	1	various season
cross-examine Ms. Lane, and I will save you the 11:20:37	2	A.
trouble of being handed her CV, but it is in the 11:20:40	3	Q.
appendices to the Baird report. 11:20:44	4	to the actual sc
And I would just confirm 11:20:47	5	project schedu
again, for the record, Mr. Roberts, that the 11:20:48	6	that Genivar p
questions that were put to you about fish studies 11:20:51	7	Appendix C to
and aquatic studies are within the expertise of 11:20:55	8	unfortunately
Ms. Lane, and you relied on that? 11:20:58	9	charts.
A. That is correct. 11:21:00	10	A.
Q. Okay. 11:21:01	11	Q.
MS. WATES: Again, just a 11:21:05	12	on the second
brief objection. For the record I was asking 11:21:06	13	Gantt chart, th
Mr. Roberts specifically about the content of the 11:21:08	14	accurate, a line
WSP proposal in 2010, which addressed these 11:21:12	15	A.
issues, and which was appended to his report. 11:21:15	16	Q.
MS. SEERS: Okay. 11:21:19	17	Ă.
BY MS. SEERS: 11:21:21	18	Q.

11:21:22

11:21:31

11:21:31

ns in the course of a year? 11:21:38 . That's correct. 11:21:40 And if I could take you 11:21:41 schedule, project -- proposed 11:21:42 ule -- or permitting project schedule 11:21:46 proposed, you will find that at 11:21:48 to the Genivar proposal. I 11:21:51 don't have it, so -- but it's Gantt 11:21:54 11:22:14 . Okay. 11:22:14 And if you look at line 6 11:22:14 l page of the appendix, so the second 11:22:20 here should be, if my notes are 11:22:24 ne entry for avian field surveys. 11:22:26 . Yes. Line 5. 11:22:31 Oh, line 5. Okay. 11:22:33 . Mm-hmm. 11:22:33 Q. And would you understand 11:22:35 that to mean bird field studies, avian field 11:22:36 20 studies? 11:22:39 21 A. Yes, that's right. 11:22:40 22 Q. Okay. And how many days 11:22:40 23 are stated to be reserved there for? 11:22:42 11:22:45 24 A. 186 days. Q. So about six months? 25 11:22:47

Page 119

11:21:34

19

1	A. Right. 11:22:49	1
2	Q. Give or take. And so do 11:22:49	2
3	you know why or can you I know you weren't 11:22:53	3
4	involved in preparing this proposal, but can you 11:22:57	4
5	offer up a possible explanation for us 11:22:59	5
6	non-biologists as to why something could be stated 11:23:02	6
7	to take six months in a Gantt chart and be 11:23:04	7
8	explained as taking a year in the verbiage that 11:23:08	8
9	accompanied the proposal? 11:23:11	9
10	A. Because those studies 11:23:12	10
11	conducted during that time period for two specific 11:23:14	11
12	windows in the spring and in the fall would 11:23:17	12
13	constitute a year of data, because those are the 11:23:20	13
14	survey windows that we use. We don't survey 11:23:23	14
15	during the wintertime. So the spring season is 11:23:25	15
16	important, and the fall season are important. The 11:23:28	16
17	other seasons are not important for for the 11:23:31	17
18	survey. 11:23:34	18
19	Q. Okay. And so just so 11:23:35	19
20	we're all clear for the non-biologists in the room 11:23:36	20
21	with, when biologists say "one year," they don't 11:23:40	20
22	necessarily mean what lay people understand to be 11:23:42	22
23	12 months; is that correct? 11:23:45	23
24	A. That's correct, yes. 11:23:46	23
25	Q. Now, Ms. Wates also asked 11:23:47	24
		25

Page 120

l	you a question about potential public opposition 11:23:54
2	to the project so-called NIMBY opposition, not in 11:23:57
3	my backyard. 11:24:03
Ļ	A. Yes. 11:24:04
5	Q. And you'll recall you 11:24:04
5	said that you would expect less NIMBY opposition 11:24:06
7	for this particular project. In light of the 11:24:09
3	location of this particular project, could you 11:24:14
)	maybe comment on why that would be in the context 11:24:18
)	of where it's physically located and what the 11:24:21
	surrounding area is like there? 11:24:24
2	A. So it is located far 11:24:27
3	offshore with the 5-kilometre buffer. It's away 11:24:30
ł	from it's away from people who would be 11:24:33
5	directly affected or have specific concerns about 11:24:35
5	the project in terms of perhaps how it looks or 11:24:38
7	or noise issues, the normal sort of things that 11:24:42
3	people get concerned about when a wind project is 11:24:45
)	proposed near them. 11:24:50
)	And the other item that we 11:24:50
l	hear about all the time is people are concerned 11:24:54
2	about property values with a project near them. 11:24:57
3	And so we would anticipate, based on the fact that 11:24:59
ŀ	there are very few land owners near the project, 11:25:03
5	that we would receive none of those complaints or 11:25:06
	-

	Page 121		Page 122
1	very few. 11:25:09	1	Q. So it's a scenic. In 11:26:14
2	Q. And are you aware, in 11:25:10	2	your experience, is it a common recreational area? 11:26:16
3	terms of the public opposition that had been 11:25:11	3	A. Yes. 11:26:21
4	expressed to certain offshore wind projects in 11:25:14	4	Q. And how about do you 11:26:21
5	certain parts of Ontario, are you aware of what 11:25:18	5	have any knowledge about other proposed offshore 11:26:24
6	the local attributes may have been for those areas 11:25:21	6	wind projects in the province perhaps in other 11:26:26
7	in the locations of those proposed projects? 11:25:25	7	lakes? 11:26:29
8	A. So the one that was sort 11:25:27	8	A. Not in the I'm aware 11:26:30
9	of topical because it was close to Toronto was one 11:25:29	9	of some of the ones that were proposed, but none 11:26:32
10	off the Scarborough Bluffs, and I don't recall the 11:25:32	10	of the specific details on those projects. 11:26:34
11	distance from the shoreline. But when viewing the 11:25:35	11	Q. Are you aware of any 11:26:36
12	artist's rendering of what they would look like, 11:25:40	12	proposed for the roughly around the Windsor 11:26:38
13	it was almost purely a visual a visual, 11:25:42	13	area, for example, or Learnington area? 11:26:40
14	esthetic-type of an argument that people are 11:25:49	14	A. That's not one of the 11:26:42
15	making. 11:25:51	15	ones I was familiar with, no. 11:26:44
16	Q. And for the benefit of 11:25:52	16	Q. Okay. Ms. Wates asked 11:26:46
17	the Tribunal members who are not from Toronto, 11:25:53	17	you a question about whether a project description 11:26:51
18	could you explain what the Scarborough Bluffs are? 11:25:55	18	report had been submitted by Windstream, and 11:26:54
19	A. Scarborough Bluffs are 11:25:57	19	perhaps I could ask my colleague to circulate the 11:26:57
20	it's a prominent shoreline of Lake Ontario. It's 11:25:59	20	document that will go along with this question 11:27:02
21	like a cliff sort of a thing made out of it's 11:26:02	21	while I pose it, but it's Exhibit C-0473, which is 11:27:06
22	quite scenic to go to go watch. There's a 11:26:05	22	a letter from Leah Deveaux at Ortech to 11:27:10
23	marina at the bottom of it. 11:26:08	23	Windstream, dated February 8, 2011. So that's 11:27:16
24	And there was a proposed 11:26:10	24	three days before the moratorium was made public 11:27:20
25	project offshore, and I don't recall the distance. 11:26:11	25	anyway. 11:27:25
	Page 123		Page 124

Stantec?

1	So I guess my question to you 11:27:37	1
2	in follow-up to Ms. Wates' question is: In the 11:27:39	2
3	but-for scenario in which your report is situated, 11:27:44	3
4	we're not talking your report doesn't 11:27:47	4
5	doesn't describe for us what actually happened to 11:27:50	5
6	the Windstream project. It I think it fair 11:27:52	6
7	to say seeks to describe what would have 11:27:56	7
8	happened to the Windstream project had the 11:27:58	8
9	moratorium not been imposed on it. 11:28:01	9
10	So in that but-for scenario, 11:28:05	10
11	in your experience, when would a project 11:28:13	11
12	description report have been submitted more likely 11:28:16	12
13	than not? 11:28:19	13
14	A. More likely than not 11:28:19	14
15	within the first month or two after the project 11:28:21	15
16	was awarded. 11:28:24	16
17	Q. Okay. And even in the 11:28:25	17
18	real world, though, this document that I've just 11:28:27	18
19	circulated, which I described as a letter from 11:28:31	19
20	Ortech to Windstream could you turn to page 2? 11:28:35	20
21	So this is a letter where 11:28:42	21
22	Ortech or Windstream's project managers make a 11:28:48	22
23	recommendation. You will see that. And they make 11:28:51	23
24	a recommendation for a REA project team; right? 11:28:56	24 25
25	And perhaps you could explain the recommendation 11:29:08	25
	· ·	

at the top for REA/permitting services, Option 1? 11:29:13 11:29:18 A. So Stantec were to be engaged immediately, be awarded the project, and 11:29:24 one of their very first tasks would have been to 11:29:27 complete the project description report in order 11:29:30 to submit that and the Notice of Project to the 11:29:34 MOE in order to get the Minister's list of 11:29:36 Aboriginal groups to be consulted. 11:29:40 Q. Are you familiar with 11:29:41 11:29:42 A. Yes. 11:29:44 Q. Can you describe for the 11:29:44 Tribunal who they are? 11:29:46 A. Stantec are -- again, 11:29:48 they're an international consult consulting 11:29:49 company, much like WSP. Stantec have done, I 11:29:51 would say, the bulk of the permitting work in

Ontario for wind power projects. They have an 11:30:00 excellent pedigree for doing this type of work. 11:30:05 Q. By the bulk of the 11:30:07 permitting work, do you mean a majority of the 11:30:08 permitting work? 11:30:11 A. I would say -- it would 11:30:12 be hard to make a percentage. 11:30:15 Q. A lot? 11:30:16

11:29:56

	Page 125		Page 12
1	A. I would say yes. Yes. A 11:30:17	1	And you said: 11:32:46
2 lot, yes.	11:30:19	2	"More likely than" 11:32:47
3	Q. And my last question is: 11:30:20	3	So just to clarify, we're 11:32:48
	have any reason to believe, sitting here 11:30:21	4	talking about the but-for scenario that begins 11:32:49
	nd looking at this document, that but for 11:30:24	5	February 11, 2011 11:32:51
	atorium, this would not have been carried 11:30:28	6	A. Right. Yes. 11:32:53
	that Stantec would not have completed the 11:30:32	7	Q that your report 11:32:53
	contemplated? 11:30:36	8	addresses? 11:32:54
9	A. No. Stantec would have 11:30:38	9	A. Right. 11:32:55
-	ted the work as contemplated, for sure, yes. 11:30:39	10	Q. Right. And then you 11:32:56
1	Q. If I may have one moment 11:30:42	11	said: 11:32:58
	er with my colleague. 11:30:43	12	"More likely than not 11:32:58
-	el confer.] 11:32:20	13	within the first month or 11:32:58
4	BY MS. SEERS: 11:32:22	14	two after the project was 11:33:00
5	Q. I'm bringing my mobile 11:32:22	15	awarded." 11:33:01
	pt here. My apologies. Just a minor 11:32:24	16 17	A. Awarded to the 11:33:02
7 point of 8	clarification.11:32:35A moment ago I asked you:11:32:37	17	consultant. 11:33:05 Q. Oh, so the after the 11:33:05
o 9	"So in the but-for 11:32:38	19	Q. Oh, so the after the 11:33:05 project, being the Stantec engagement, for 11:33:07
0	scenario, in your 11:32:40	20	example 11:33:10
1	experience, when would a 11:32:41	20	A. Yes. 11:33:10
2	project description 11:32:42	22	Q was awarded? 11:33:10
3	report have been 11:32:43	23	A. Yes. And in our 11:33:11
4	submitted, more likely 11:32:43	24	schedule, if I might refer to that, we have that 11:33:13
5	than not?" 11:32:45	25	draft being completed, yes, in the within the 11:33:19
	Page 127		Page 12
1			
1 first mo	onth or so of when the project starts. 11:33:22		500-megawatt projects, which is what the 11:35:58
	Q. And for the clarity of 11:33:26 ord, could I please ask you to identify the 11:33:27	23	Claimant's desire was. I strongly suggest that we 11:36:00
	t you referred to? It's a complex 11:33:30	4	not prolong this any more and that we rely on him 11:36:03 while he is here and deal with this evidence now. 11:36:06
5 docume	•	5	PRESIDENT: Yes. Assuming 11:36:12
6 GOODING	A. Yes. So the line is line 11:33:33	6	there are questions from the Claimant. 11:36:13
7 no. 10.	11:33:35	7	MR. TERRY: Yes, we have - 11:36:16
8	Q. Line no. 10 in the 11:33:35	8	sorry. We just need a moment to get organized. 11:36:18
9 Windst	ream project schedule. 11:33:36	9	My friend when we last spoke over the break 11:36:21
0	Thank you, Mr. Roberts. Those 11:33:42	10	there was a possibility this would be resolved 11:36:24
1 are my	questions. 11:33:43	11	without calling him, so we just need a moment to 11:36:26
- arc my	A. Thank you. 11:33:45	12	be able to clarify the questions. 11:36:29
	PRESIDENT: Thank you, 11:33:46	13	PRESIDENT: Okay. 11:36:31
2 3

has very graciously agreed to assist here, to pull 11:58:56
up the newest exhibit, so that's R-0660. 11:59:00
A. Mm-hmm. 11:59:00
Q. Okay. So, Mr. Cecchini, 11:59:09
as I understand it, in this letter, you have 11:59:14
provided some data points to Mr. Goncalves 11:59:16
A. Yes. 11:59:20
Q which ultimately, if 11:59:20
Donnie could scroll down, you ultimately use, to 11:59:25
conclude if you could scroll down more please, 11:59:33
thank you that as I understand the last 11:59:36
paragraph, you're concluding that 68 percent of 11:59:43
the total capacity of wind projects onshore 11:59:47
wind projects is delayed. Is that is that the 11:59:53
thrust of this letter? I think that is how 11:59:57
Mr. Goncalves interprets it, in any event, in his 12:00:00
Mil. Concurves interprets it, in any event, in ins 12.00.00

A. I would say that what the 12:00:03

12:00:03

report.

update to the letter that was submitted with

Canada's Rejoinder, which is R-0635, and that

letter submitted with Canada's Counter-Memorial, 11:58:38

So if we could ask Donnie, who 11:58:52

	Page 132
1	letter says is that, of the 20 projects that 12:00:05
2	remain in development, 19 of the 20 are past their 12:00:07
3	Milestone Date of Commercial Operation. 12:00:12
4	Q. Okay. 12:00:13
5	A. And those 19 represent 68 12:00:13
6	percent of the total capacity of the 20 projects. 12:00:17
7	So 16 represent 68 percent. One project which is 12:00:22
8	not delayed represents 32 percent. 12:00:25
9	Q. Okay. And that's the 12:00:27
10	A. That's the one you talked 12:00:30
11	to me about a few days ago. 12:00:31
12	Q. Right. Now, do those 12:00:33
13	figures account for extensions or force majeure, 12:00:35
14	or are you giving us figures that don't take into 12:00:39
15	account those things? 12:00:42
16	A. Those relate to their 12:00:42
17	Milestone Date of Commercial Operation as of the 12:00:44
18	time we compiled the letter. 12:00:47
19	Q. Okay. So 12:00:47
20	A. So that there's 19 of the 12:00:49
21	20 projects are past their Milestone Date of 12:00:51
22	Commercial Operation. 12:00:54
23	Q. So they're past their 12:00:54
24	Milestone Date of Commercial Operation as of the 12:00:56

date of the letter. 12:00:58

11:58:27

11:58:30

Right. 12:04:26 3 10 understand, sir, of this data th			1	
22 release. 12:01:41 22 entire list of the - you have the 19 projects 12:03:02 23 Q. Right. You provided that 12:01:42 23 24 information on Tuesday? 12:01:43 25 A. On Tuesday, yes. 12:01:46 Page 135 Page 136 Page 136 <t< td=""><td></td><td></td><td>1</td><td>· ·</td></t<>			1	· ·
23 Q. Right. You provided that 12:01:42 23 that are delayed. We didn't put in the one 12:03:05 24 information on Tuesday? 12:01:43 24 25 A. On Tuesday, yes. 12:01:46 25 Q. So you gave us - 12:03:10 Page 135 Page 136 1 A. We gave you a list of 19 12:03:11 1 A. We contracted in 12:04:01 2 O, So you gave us a list of 12:03:17 4 Q. Right. 12:04:09 4 Q. So you gave us a list of 12:03:17 4 Q. Right. 12:04:09 5 projects that were delayed, but you didn't give us 12:03:19 5 A for 70 wind power 12:04:10 6 a list of projects that were not delayed. Is 12:03:23 8 A. Okay. Over the five and 12:04:15 8 A. We didn't give you the 12:03:23 8 A. Okay. Over the five and 12:04:26 10 a laft years since the launch of the project, 12:04:26 12:04:26 11 Q. Neay. I am just trying 12:03:37 9 A. So 69 contracts were 12:04:26 12 Q. Nay. I am just trying 12:03:37 16 Q. Nay ing that 12:03:42 16 Q. Okay. I am just trying 12:03:37 Q. So you offered 70 12:04:26 </td <td></td> <td></td> <td></td> <td></td>				
24 information on Tuesday? 12:01:43 24 project that is not yet delayed. 12:03:08 25 A. On Tuesday, yes. 12:01:46 25 Q. So you gave us - 12:03:10 Page 135 1 A. We gave you a list of 19 12:03:11 1 A. We contracted in 12:04:01 2 0. So you gave us a list of 12:03:17 1 A. We contract din 12:04:09 4 Q. So you gave us a list of 12:03:17 4 Q. Right. 12:04:10 5 projects that were not delayed. Is 12:03:23 6 6 6 6 a list of projects that were not delayed. Is 12:03:23 7 Q. Right. 12:04:15 8 A. We didn't give you the 12:03:25 9 a half years since the launch of the project, 12:04:15 9 ne. The list that's attached includes the 19 12:03:28 10 allost six years now, one of those 70 was not 12:04:20 16 Q. Okay. Tam just trying 12:03:37 Q. So you offreed 70 12:04:36 17 to understand, sir, of this data that –it is 12:03:45 18 Q. So arey ou saying that 12:03:45 <td></td> <td></td> <td>1</td> <td></td>			1	
25 A. On Tuesday, yes. 12:01:46 25 Q. So you gave us - 12:03:10 Page 135 1 A. We gave you a list of 19 12:03:11 1 A. We contracted in 12:04:01 20 Q. So you gave us a list of 12:03:13 12:03:16 2 2010/2011 for 70 sorry, we issued contract 12:04:06 3 their MCOD. 12:03:17 5 A. We didn't give us a list of 12:03:17 5 A for 70 wind power 12:04:10 6 a list of projects that were not delayed. Is 12:03:23 7 A. Okay. Over the five and 12:04:15 8 A. We didn't give you the 12:03:23 7 A. Okay. Over the five and 12:04:16 9 one. The list that's attached includes the 19 12:03:23 7 A. Okay. Over the five and 12:04:26 11 Commercial Operation. 12:03:37 0. Right. 12:04:26 1 12 Q. So are you saying that 12:03:42 16 Q. So you grave us 12:03:41 12:04:36 12 Q. So are you saying that 12:03:42 18 Q. Total? 12:04:43 12 Q. So are you saying that<	24		24	
1A. We gave you a list of 19 $12:03:11$ 1A. We contracted in $12:04:01$ 2of the 20 projects, the 19 projects that are past $12:03:13$ $2010/2011$ for $70 - sorry, we issued contract12:04:063their MCOD.12:03:16Q. Right.12:04:094Q. So you gave us a list of12:03:174Q. Right.12:04:095projects that were delayed, but you didn't give us12:03:23A for 70 wind power12:04:106a list of projects that are past their Milestone Date of12:03:23A. Okay. Over the five and12:04:158A. We didn't give you the12:03:23B. A. Okay. Over the five and12:04:159one. The list that's attached includes the 1912:03:23A. Okay. Over the five and12:04:1610projects that are past their Milestone Date of12:03:27A. So 69 contracts were12:04:2611Commercial Operation.12:03:37Q. Right.12:04:2612Q. Okay. I am just trying12:03:37Q. So you offreed 7012:04:3316Q. Nay. I am just trying12:03:42A. Okay. Sure.12:04:3617A. Yes.12:03:4420Q. So you offreed 7012:04:3618difficult because we don't have it.12:03:4520A. Onshore wind.12:04:4420Q. So are you saying that12:03:4520A. Onshore wind.12:04:4420Q. So are you saying that12:03:50$	25	•	25	
2of the 20 projects, the 19 projects that are past 12:03:13 their MCOD.12:03:16 12:03:1622010/2011 for 70 sorry, we issued contract12:04:06 offers4Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were delayed. Is 12:03:21 that4Q. Right.12:04:097that12:03:23A. We didn't give you the 12:03:2312:03:21 that7Q. Right.12:04:158A. We didn't give you the projects that are past their Milestone Date of projects that are past their Milestone Date of 12:03:237Q. Right.12:04:159one. The list that's attached includes the 1912:03:238A. Okay. Over the five and 12:04:2612:04:2610Commercial Operation.12:03:379a half years since the launch of the project, a half years since the launch of the project, a ccepted.12:04:2611Q. Okay. I am just trying 12:03:37 to understand, sir, of this dat that it is 12:03:3911A. So 69 contracts were 12:04:2618difficult because we don't have it. there is so we do have the list of 19. Q. Can you maybe just 12:03:4512Q. Total?12:04:4320Q. So are you saying that 2:04:3612:03:462A. Onshore wind. Q. Total?12:04:4421A. Yes, yes. Q. Can you maybe just 12:03:5123Q. Okay?12:04:4523Q. Can you maybe just 12:03:5123Q. Okay?12:04:4524explain then how there were 70 projects he		Page 135		Page 136
3 their MCOD. 12:03:16 3 offers 12:04:09 4 Q. So you gave us a list of 12:03:17 4 Q. Right. 12:04:09 5 projects that were delayed, but you didn't give us 12:03:19 5 A for 70 wind power 12:04:10 6 a list of projects that were not delayed. Is 12:03:23 7 Q. Right. 12:04:15 8 A. We didn't give you the 12:03:23 8 A. Okay. Over the five and 12:04:15 9 one. The list that's attached includes the 19 12:03:23 8 A. Okay. Over the five and 12:04:15 9 one. The list that's attached includes the 19 12:03:28 9 a half years since the launch of the project, 12:04:20 10 Commercial Operation. 12:03:37 9 a So 69 contracts were 12:04:26 14 Q. Okay. I am just trying 12:03:38 16 Q. So are you saying that 12:03:42 18 Q. So you offered 70 12:04:36 19 A. Yes. 12:03:44 19 Q. So you offered 70 12:04:43 20 Q. So are you saying that 12:03:45 20 A. Onshore wind. 12:04:44 <		e		1 age 150
4 Q. So you gave us a list of 12:03:17 4 Q. Right. 12:04:09 5 projects that were delayed, but you didn't give us 12:03:19 5 A for 70 wind power 12:04:10 6 a list of projects that were not delayed. Is 12:03:21 6 projects that were greater than 500 kilowatts. 12:04:12 7 that - 12:03:23 7 Q. Right. 12:04:15 8 A. We didn't give you the 12:03:25 9 a half years since the launch of the project, 12:04:15 9 one. The list that's attached includes the 19 12:03:28 12:04:20 10 projects that are past their Milestone Date of 12:03:28 9 a half years since the launch of the project, 12:04:18 10 commercial Operation. 12:03:27 9 a half years since the launch of the project, 12:04:26 11 Commercial Operation. 12:03:37 10 almost six years now, one of those 70 was not 12:04:26 12 Q. Right. 12:04:26 12 12:04:26 14 want to take notes to make sure that 1 understand. 12:04:31 12:04:26 15 Q. Okay. Iam just trying 12:03:38 16 want to take notes to make sure that 1 understand. 12:04:36 16 Q. So are you saying that 12:	1	A. We gave you a list of 19 12:03:11	1	A. We contracted in 12:04:01
5projects that were delayed, but you didn't give us $12:03:19$ 5A for 70 wind power $12:04:10$ 6a list of projects that were not delayed. Is $12:03:23$ 7Q. Right. $12:04:15$ 7that $12:03:23$ 7Q. Right. $12:04:15$ 8A. We didn't give you the $12:03:23$ 8A. Okay. Over the five and $12:04:15$ 9one. The list that's attached includes the 19 $12:03:25$ 9a half years since the launch of the project, $12:04:16$ 10projects that are past their Milestone Date of $12:03:28$ 10almost six years now, one of those 70 was not $12:04:20$ 11Commercial Operation. $12:03:37$ 12Q. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23	2 3 4 5 6 7	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15
11 Commercial Operation. 11 accepted. 12:04:25 12 Q. Right. 12:04:26 13 A. So 69 contracts were 12:04:26 14 signed. In the intervening years 12:04:26 15 Q. Tim sorry to stop you. I 12:04:31 16 Q. Okay. I am just trying 12:03:37 15 17 to understand, sir, of this data that it is 12:03:39 17 18 difficult because we don't have it. 12:03:42 18 Q. So you offered 70 12:04:36 19 A. Yes. 12:03:44 19 contracts for onshore wind? 12:04:38 20 Q. So are you saying that 12:03:45 20 A. Onshore wind. 12:04:44 21 there is so we do have the list of 19. 12:03:46 21 Q. Total? 12:04:44 22 A. Yes, yes. 12:03:50 22 A. Total. 12:04:45 23 Q. Can you maybe just 12:03:53 24 A. Sixty-nine of the seventy 12:04:45 24 explain then how there were 70 projects help us 12:03:53 24 A. Sixty-nine of the seve	2 3 4 5 6 7 8	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23	2 3 4 5 6 7 8	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15
12 Q. Right. 12:04:26 13 A. So 69 contracts were 12:04:26 14 signed. In the intervening years 12:04:28 16 Q. Okay. I am just trying 12:03:37 16 Q. Okay. I am just trying 12:03:38 17 to understand, sir, of this data that it is 12:03:39 18 difficult because we don't have it. 12:03:42 19 A. Yes. 12:03:44 20 Q. So are you saying that 12:03:45 21 there is so we do have the list of 19. 12:03:46 21 A. Yes, yes. 12:03:50 22 A. Yes, yes. 12:03:51 23 Q. Can you maybe just 12:03:53 24 explain then how there were 70 projects help us 12:03:53	2 3 4 5 6 7 8 9	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25	2 3 4 5 6 7 8 9	A. We contracted in $12:04:01$ 2010/2011 for 70 sorry, we issued contract $12:04:06offers 12:04:09Q. Right. 12:04:09A for 70 wind power 12:04:10projects that were greater than 500 kilowatts. 12:04:12Q. Right. 12:04:15A. Okay. Over the five and 12:04:15a half years since the launch of the project, 12:04:18$
13A. So 69 contracts were12:04:2614Signed. In the intervening years12:04:2815Q. Okay. I am just trying12:03:3716Q. Okay. I am just trying12:03:3817to understand, sir, of this data that it is12:03:3918difficult because we don't have it.12:03:4219A. Yes.12:03:4420Q. So are you saying that12:03:4521there is so we do have the list of 19.12:03:4622A. Yes, yes.12:03:5023Q. Can you maybe just12:03:5124explain then how there were 70 projects help us12:03:5324A. Sixty-nine of the seventy12:04:46	2 3 4 5 6 7 8 9 10	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28	2 3 4 5 6 7 8 9 10	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:09 A for 70 wind power 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15 a half years since the launch of the project, 12:04:18 almost six years now, one of those 70 was not 12:04:20
16Q. Okay. I am just trying12:03:3714signed. In the intervening years12:04:2816Q. Okay. I am just trying12:03:3815Q. Im sorry to stop you. I12:04:3116Q. Okay. I am just trying12:03:3916want to take notes to make sure that I understand.12:04:3317to understand, sir, of this data that it is12:03:4218Q. So you offered 7012:04:3618difficult because we don't have it.12:03:4218Q. So you offered 7012:04:3619A. Yes.12:03:4419contracts for onshore wind?12:04:3820Q. So are you saying that12:03:4520A. Onshore wind.12:04:4321there is so we do have the list of 19.12:03:4621Q. Total?12:04:4422A. Yes, yes.12:03:5022A. Total.12:04:4423Q. Can you maybe just12:03:5123Q. Sixty-nine of the seventy 12:04:46	2 3 4 5 6 7 8 9 10 11 11 10 11 11 16 17 18	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation. 12:03:37 Q. Okay. I am just trying 12:03:38 to understand, sir, of this data that it is 12:03:39 difficult because we don't have it. 12:03:42	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:09 A for 70 wind power 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15 a half years since the launch of the project, 12:04:18 almost six years now, one of those 70 was not 12:04:20 accepted. 12:04:25 Q. Right. 12:04:26 A. So 69 contracts were 12:04:26 signed. In the intervening years 12:04:28 Q. I'm sorry to stop you. I 12:04:31 want to take notes to make sure that I understand. 12:04:33 A. Okay. Sure. 12:04:36 Q. So you offered 70 12:04:36
23Q. Can you maybe just12:03:5123Q. Okay?12:04:4524explain then how there were 70 projects help us12:03:5324A. Sixty-nine of the seventy12:04:46	2 3 4 5 6 7 8 9 10 11 11 11 16 17 18 19	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation. 12:03:37 Q. Okay. I am just trying 12:03:38 to understand, sir, of this data that it is 12:03:29 difficult because we don't have it. 12:03:44	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:09 A for 70 wind power 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15 a half years since the launch of the project, 12:04:18 almost six years now, one of those 70 was not 12:04:20 accepted. 12:04:25 Q. Right. 12:04:26 A. So 69 contracts were 12:04:26 signed. In the intervening years 12:04:28 Q. Tm sorry to stop you. I 12:04:31 want to take notes to make sure that I understand. 12:04:33 A. Okay. Sure. 12:04:36 Q. So you offered 70 12:04:38
24 explain then how there were 70 projects help us 12:03:53 24 A. Sixty-nine of the seventy 12:04:46	2 3 4 5 6 7 8 9 10 11 11 10 11 11 16 17 18 19 20 21	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:09 A for 70 wind power 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15 a half years since the launch of the project, 12:04:18 almost six years now, one of those 70 was not 12:04:20 accepted. 12:04:25 Q. Right. 12:04:26 A. So 69 contracts were 12:04:26 signed. In the intervening years 12:04:28 Q. Tm sorry to stop you. I 12:04:31 want to take notes to make sure that I understand. 12:04:33 A. Okay. Sure. 12:04:36 Q. So you offered 70 12:04:36 contracts for onshore wind? 12:04:43 Q. Total? 12:04:44
	2 3 4 5 6 7 8 9 10 11 11 10 11 11 16 17 18 19 20 21 22	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. We contracted in 12:04:01 2010/2011 for 70 sorry, we issued contract 12:04:06 offers 12:04:09 Q. Right. 12:04:09 A for 70 wind power 12:04:10 projects that were greater than 500 kilowatts. 12:04:12 Q. Right. 12:04:15 A. Okay. Over the five and 12:04:15 a half years since the launch of the project, 12:04:18 almost six years now, one of those 70 was not 12:04:20 accepted. 12:04:25 Q. Right. 12:04:26 A. So 69 contracts were 12:04:26 signed. In the intervening years 12:04:28 Q. I'm sorry to stop you. I 12:04:31 want to take notes to make sure that I understand. 12:04:33 A. Okay. Sure. 12:04:36 contracts for onshore wind? 12:04:38 A. Onshore wind. 12:04:43 Q. Total? 12:04:44 A. Total. 12:04:44
25 understand, please, what the information is. $12:03:58$ 25 were accepted. $12:04:47$	2 3 4 5 6 7 8 9 10 11 11 10 11 16 17 18 19 20 21 22 23	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. We contracted in $12:04:01$ $2010/2011$ for 70 sorry, we issued contract $12:04:06$ offers $12:04:09$ Q. Right. $12:04:09$ A for 70 wind power $12:04:10$ projects that were greater than 500 kilowatts. $12:04:12$ Q. Right. $12:04:15$ A. Okay. Over the five and $12:04:15$ a half years since the launch of the project, $12:04:18$ almost six years now, one of those 70 was not $12:04:20$ accepted. $12:04:25$ Q. Right. $12:04:26$ A. So 69 contracts were $12:04:26$ signed. In the intervening years $12:04:26$ Signed. In the intervening years $12:04:26$ Q. Tim sorry to stop you. I $12:04:31$ want to take notes to make sure that I understand. $12:04:33$ A. Okay. Sure. $12:04:36$ Q. So you offered 70 $12:04:36$ contracts for onshore wind? $12:04:44$ Q. Total? $12:04:44$ A. Onshore wind. $12:04:44$ Q. Okay? $12:04:45$
	2 3 4 5 6 7 8 9 10 11 11 10 11 16 17 18 19 20 21 22 23 24	A. We gave you a list of 19 12:03:11 of the 20 projects, the 19 projects that are past 12:03:13 their MCOD. 12:03:16 Q. So you gave us a list of 12:03:17 projects that were delayed, but you didn't give us 12:03:19 a list of projects that were not delayed. Is 12:03:21 that 12:03:23 A. We didn't give you the 12:03:23 one. The list that's attached includes the 19 12:03:25 projects that are past their Milestone Date of 12:03:28 Commercial Operation. 12:03:37 Q. Okay. I am just trying 12:03:38 to understand, sir, of this data that it is 12:03:44 Q. So are you saying that 12:03:44 Q. So are you saying that 12:03:45 there is so we do have the list of 19. 12:03:50 Q. Can you maybe just 12:03:51 explain then how there were 70 projects help us 12:03:53	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	A. We contracted in $12:04:01$ $2010/2011$ for 70 sorry, we issued contract $12:04:06$ offers $12:04:09$ Q. Right. $12:04:09$ A for 70 wind power $12:04:10$ projects that were greater than 500 kilowatts. $12:04:12$ Q. Right. $12:04:15$ A. Okay. Over the five and $12:04:15$ a half years since the launch of the project, $12:04:20$ accepted. $12:04:25$ Q. Right. $12:04:26$ A. So 69 contracts were $12:04:26$ Signed. In the intervening years $12:04:26$ Signed. In the intervening years $12:04:26$ Q. So you offered 70 $12:04:31$ want to take notes to make sure that I understand. $12:04:33$ A. Okay. Sure. $12:04:36$ Q. So you offered 70 $12:04:36$ Q. Total? $12:04:44$ A. Otal? $12:04:44$ Q. Total? $12:04:45$ A. Sixty-nine of the seventy $12:04:46$

	Page 137		Page 138
1	Q. Sixty-nine were accepted. 12:04:47	1	Q. And does that include, 12:05:28
2	So there were 69 contracts with the OPA? 12:04:49	2	sir, the six Korean Consortium projects? 12:05:31
3	A. With the OPA. 12:04:51	3	A. No. The Korean 12:05:35
4	Q. Okay. 12:04:51	4	consortium projects were not FIT projects and so 12:05:37
5	A. You're going to have to 12:04:53	5	are not included in this table. 12:05:40
6	bear with me because I'm trying to remember if it 12:04:54	6	Q. Okay. So 37 out of 57 12:05:42
7	is 11 or 12. 12:04:57	7	projects have achieved commercial operation? 12:05:49
8	Q. Yes. 12:04:57	8	A. Yes. 12:05:52
9	A. But I think it's 12 12:04:58	9	Q. And 20, the remaining 12:05:53
10	projects. 12:04:59	10	well, one is not delayed for the reasons we 12:05:56
11	Q. Twelve projects? 12:04:59	11	discussed elsewhere. 12:05:59
12	A were terminated in the 12:05:00	12	A. One was never signed. 12:06:02
13	intervening years. So since we signed those 12:05:03	13	Q. It's within its MCOD? 12:06:03
14	contracts, 12 projects are not in the are not 12:05:06	14	A. One is within its MCOD. 12:06:05
15	in place. 12:05:09	15	Q. Yes, okay. And the other 12:06:07
16	Q. So now we have 57 12:05:10	16	19 are past the MCOD? 12:06:09
17	A. Fifty-seven projects. 12:05:12	17	A. Are past their MCOD. 12:06:13
18	Q left? 12:05:13	18	Q. And are they under can 12:06:15
19	A. Of those 57 projects, 37, 12:05:14	19	you tell us whether they're under force majeure, 12:06:21
20	as of today, are in commercial operation. 12:05:17	20	whether they're subject to further extension? 12:06:23
21	Q. Okay. 12:05:19	21	They're not being cancelled, I assume? 12:06:26
22	A. Twenty are not. 12:05:20	22	A. Well, none of those 19 12:06:28
23	Q. So 37 out of 57 are in 12:05:22	23	have reached the point where we have a termination 12:06:30
24	commercial operation and have been built. 12:05:25	24	right under 9.1(j). 12:06:33
25	A. Yes. 12:05:28	25	Q. Okay. 12:06:35
	Page 139		Page 140
1	A. So that's the $$ what we 12:06:35	1	indicator of projects that are in the position to 12:07:23
2	call the long-stop date. That is the day that is 12:06:36	2	begin construction, because you can't get NTP 12:07:26
3	18 months past the MCOD, or perhaps longer, if 12:06:39	3	unless you have completed the approvals process. 12:07:30

2	call the long-stop date. That is the day that is 12:06:36	4
3	18 months past the MCOD, or perhaps longer, if 12:06:39	3
4	force majeure relief was granted. 12:06:44	4
5	Q. So that and that's the 12:06:45	5
6	date we've referred to as the supplier default 12:06:46	6
7	date. Just so 12:06:48	7
8	A. Yes. 12:06:49	8
9	Q. So they're not 12:06:50	9
10	approaching that. Are they still in development, 12:06:51	10
11	sir? 12:06:53	11
12	A. To the best of my 12:06:53	12
13	knowledge, generally, people tell me when they're 12:06:55	13
14	not in development. 12:06:57	14
15	Q. Yes. 12:06:58	15
16	A. And nobody has told 12:06:58	16
17	those 19 projects are still in development. 12:07:00	17
18	Q. Okay. And, roughly, do 12:07:02	18
19	you know how many of those are under construction? 12:07:04	19
20	A. Well, what I would use as 12:07:07	20
21	a kind of a judgment is that, if you look on that 12:07:09	21 22
22	list and I don't have the exact number. If you 12:07:14	22
23	look at the list, you will see NTP and pre-NTP. 12:07:17	23
24	Q. Yes. 12:07:20	24
25	A. Generally that is a good 12:07:21	25

indicator of proj	jects that are in the positi	ion to 12:07:23
begin constructi	ion, because you can't ge	t NTP 12:07:26
unless you have	e completed the approval	s process. 12:07:30
Q.	So you would expect the	at 12:07:32
	ts would be under constr	
	nmencing construction p	
	Or they're trying to get	-
	y're dealing with their ov	
issues.	12:0	
	Right. 12:	07:44
	But we have issued NT	P. 12:07:44
	cessarily mean they're un	
construction, ho		12:07:48
	They're at an advanced	
development sta		12:07:51
•	They're more advanced	
	•	12:07:53
than the pre-NT		
	Right. Let me consult	
the list. We wo		12:07:56
[Counsel confer		12:08:08
	E WITNESS: If you nee	
look at it.	1210	8:16
	. SEERS: Yes, yes. I	
	m I permitted to refer to	-
these projects so	o long as I don't refer to t	heir 12:08:24

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 141		Page 142
1	names? 12:08:28	1	been, for efficiency purposes, to refer to them by 12:09:45
2	MS. SQUIRES: The entire chart 12:08:30	2	number perhaps, and not identify them by name. I 12:09:48
3	is restricted access. So to the extent you're 12:08:31	3	leave that up to you. 12:09:52
4	referring to anything in the chart, it should be 12:08:34	4	MR. NEUFELD: Isn't it safer 12:09:54
5	we should clear the room. 12:08:35	5	to clear the room? 12:09:55
6	MS. SEERS: So I can't refer 12:08:37	6	PRESIDENT: Okay. So counsel 12:09:56
7	to, say, Project No. 1 on the list. 12:08:38	7	and experts will only remain. 12:09:59
8	THE WITNESS: I wouldn't be 12:08:40	8	MS. SEERS: Perhaps in the 12:10:01
9	able to because you have my list. 12:08:41	9	interim we can make a copy of this. 12:10:02
10	[Laughter.] 12:08:43	10	PRESIDENT: Yes, it would be 12:10:04
11	PRESIDENT: Let's go off 12:08:45	11	good for the witness to have a copy so he knows 12:10:06
12	stream. Let's go off stream first and then we 12:08:46	12	what we're talking about. 12:10:09
13	will discuss what the next step is, if any. 12:09:00	13	Can I please ask everybody 12:10:14
14	Now will you be able to ask 12:09:12	14	except counsel and experts to leave the room? 12:10:16
15	questions about the document without disclosing 12:09:13	15	Each counsel ensure only the authorized people are 12:10:21
16	the contents? 12:09:15	16	sitting on your side. 12:10:24
17	MS. SEERS: My proposal would 12:09:21	17	MS. SEERS: Sorry, can I just 12:10:46
18	have been to what I am looking at is a list of 12:09:22	18	a quick question. Can I ask him how many are 12:10:47
19	19 projects, and they're identified, and they 12:09:27	19	Off the record discussion 12:11:16
20	have there is information provided as to 12:09:30	20	PRESIDENT: Okay. Let's go 12:11:16
21	whether they are pre or post NTP, Notice to 12:09:31	21	on. It will be restricted at the highest level of 12:11:17
22	Proceed. 12:09:35	22	security. 12:11:28
23	And there is a date, contract 12:09:35	23	MR. SPELLISCY: I have been 12:11:34
24	date, milestone date, and then status, and 12:09:38	24	asked by the IESO to raise a request and that 12:11:34
25	contract capacity. So my proposal would have 12:09:42	25	The OPA has asked me for a 12:12:01

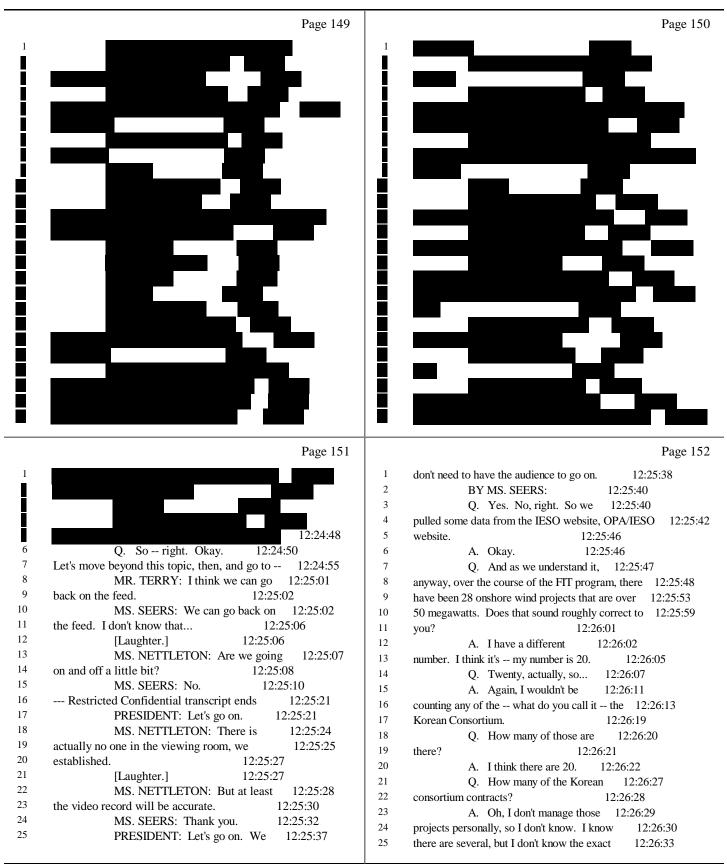

Page 143

	_
1	request. This information, particularly if we're 12:12:04
2	going to be talking about names, they feel is very 12:12:08
3	sensitive to them. They understand that we only 12:12:10
4	have a restricted access. They have made a 12:12:12
5	request that, if there isn't an objection, it 12:12:14
6	would be their preference that experts clear the 12:12:17
7	room as well, particularly the experts who are 12:12:19
8	obviously working in the permitting field. It is 12:12:21
9	a request. They understand. The information is 12:12:24
10	quite sensitive to them. 12:12:26
11	MS. SEERS: Could I perhaps 12:12:29
12	renew the proposal to refer to them by number on 12:12:30
13	the list? 12:12:32
14	PRESIDENT: Is that agreeable 12:12:41
15	referring only by number or not? 12:12:43
16	MR. SPELLISCY: I think the 12:12:48
17	IESO's concern is that it's sensitive to the 12:12:50
18	contractors who are on here, and they're very 12:12:53
19	concerned, especially since we do have experts who 12:12:55
20	are working in the Ontario market, that 12:12:57
21	information might be revealed to those experts 12:12:59
22	working in the Ontario market. 12:13:01
23	And so they're asking that, if 12:13:02
24	possible, if we could clear the room, except for 12:13:05
25	counsel. 12:13:06

1	PRESIDENT: Is that acceptable 12:13:06
2	to the Claimants? 12:13:07
3	MR. TERRY: That's acceptable. 12:13:09
4	MS. SEERS: Yes. 12:13:10
5	PRESIDENT: Then clear the 12:13:11
6	room. 12:13:12
7	MR. SPELLISCY: We appreciate 12:13:13
8	it. 12:13:14
9	Restricted Confidential transcript begins 12:14:22
10	PRESIDENT: Just for the 12:14:22
11	record, we are receiving a copy of a new exhibit 12:14:23
12	which will be R-658, if that's correct? 12:14:25
13	MS. SEERS: Yes, that's 12:14:30
14	correct. 12:14:32
15	PRESIDENT: Let's break for a 12:14:38
16	technical issue being sorted out. 12:14:39
17	EXHIBIT NO. R-658: 12:14:44
18	Letter dated February 16, 12:14:55
19	2016 12:14:57
20	[Reporter's note: Technical issue.] 12:15:08
21	PRESIDENT: We will go on. It 12:15:28
22	is perhaps a bit too confidential now: 12:15:44
23	DR. CREMADES: It is so 12:15:52
24	confidential we cannot read it. 12:15:52
25	[Laughter.] 12:15:54

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 153
1	number. 12:26:35
2	Q. Okay. Well, from the 12:26:35
3	data that we have been able to glean from the IESO 12:26:37
4	website I will just put it to you, and then you 12:26:39
5	can tell me if you agree. 12:26:42
6	A. Yes. 12:26:43
7	Q it would appear that 12:26:43
8	there are 28 projects, onshore wind projects over 12:26:45
9	50 megawatts, and it would appear that 26 of them 12:26:52
10	out of those 28 12:26:58
11	MR. SPELLISCY: Maybe we can 12:27:00
12	just pause because I don't think the Tribunal, the 12:27:01
13	witness, or anybody else has access to what you 12:27:03
14	are reading, and we can bring it. 12:27:05
15	MR. TERRY: Yep. Why don't we 12:27:09
16	bring up the website? 12:27:10
17	PRESIDENT: The website is not 12:27:18
18	on evidence 12:27:19
19	MS. SEERS: No. 12:27:21
20	MR. TERRY: By agreement of 12:27:23
21	counsel. 12:27:25
22	PRESIDENT: Okay. 12:27:26
23	MS. SEERS: Perhaps we can 12:27:26
24	our proposal would be to convert this into a 12:27:27
25	printed version perhaps and file it as an exhibit. 12:27:30

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 154
1	PRESIDENT: If that is agreed 12:27:32
2	between the parties. 12:27:33
3	MS. SEERS: Yes. So perhaps 12:27:34
4	scroll down. 12:27:41
5	MR. MARS: Go back to where 12:27:52
6	you were. Stop there. You have to open up the 12:27:54
7	little plus signs, you see '15, '14, 2013, and 12:27:56
8	the 12:28:00
9	BY MS. SEERS: 12:28:01
10	Q. So perhaps we should do 12:28:01
11	this year by year as efficiently as we can and try 12:28:05
12	to count the okay. So perhaps I think it 12:28:06
13	would be better to start at the bottom, though. 12:28:12
14	MR. GUILLORY: What year? 12:28:13
15	MS. SEERS: 2010. 12:28:18
16	MR. MARS: It would start 12:28:22
17	2012. 12:28:24
18	THE WITNESS: I have numbers, 12:28:26
19	actually, that I I actually know the numbers. 12:28:27
20	BY MS. SEERS: 12:28:30
21	Q. You actually know the 12:28:32
22	numbers? 12:28:33
23	A. I actually know the 12:28:33
24	numbers, and what you have there is combination of 12:28:34
25	different procurements, so those numbers won't be 12:28:37

Page 155

42

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 157		Page 158
1	questions. 12:30:57	1	THE WITNESS: My name is Mark 12:34:01
2	PRESIDENT: Thank you. So I 12:30:57	2	Kolberg. It's spelled incorrectly on my name tag. 12:34:03
3	believe neither party wants to keep Mr. Cecchini 12:31:01	3	I don't know if it is shown correctly here. It's 12:34:06
4	sequestered after this, so this concludes 12:31:06	4	without a H. 12:34:08
5	MR. TERRY: That's correct. 12:31:09	5	I solemnly declare upon my 12:34:08
6	PRESIDENT: And so this 12:31:09	6	honour and conscience that my evidence and my 12:34:08
7	concludes your examination. Thank you very much 12:31:10	7	opinions will be in accordance with my sincere 12:34:14
8	for your time, Mr. Cecchini. 12:31:12	8	belief. 12:34:16
9	THE WITNESS: Thank you. 12:31:14	9	AFFIRMED: MARK KOLBERG 12:34:17
10	DR. CREMADES: All the best 12:31:15	10	PRESIDENT: Thank you very 12:34:17
11	for your family. 12:31:16	11	much. You are here to defend two expert reports 12:34:17
12	PRESIDENT: Yes. Best wishes. 12:31:18	12	prepared by Baird. 12:34:21
13	Now we have half an hour left, 12:31:22	13	THE WITNESS: Yes. 12:34:21
14	so I would suggest we start with the expert 12:31:25	14	PRESIDENT: The first one 12:34:22
15	presentation. We have that before the lunch 12:31:29	15	dated August 13, 2014 and the second one June 16, 12:34:23
16	break. So it will be Mr. Kolberg. 12:31:30	16	2015. That's correct? 12:34:28
17	Okay. Good afternoon, 12:33:48	17	THE WITNESS: That is correct. 12:34:29
18	Mr. Kolberg. 12:33:50	18	PRESIDENT: And you have 12:34:31
19	THE WITNESS: Good afternoon. 12:33:51	19	prepared a short presentation that we should be 12:34:32
20	PRESIDENT: And welcome. 12:33:52	20	able to complete before the lunch break. 12:34:37
21	THE WITNESS: Thank you. 12:33:53	21	THE WITNESS: Oh, yes. Yes. 12:34:39
22	PRESIDENT: Can you please 12:33:54	22	PRESIDENT: Are there just 12:34:40
23	state your full name for the record and then read 12:33:56	23	to clarify the protocol, are there any questions 12:34:41
24	the declaration of an expert witness that you have 12:33:58	24	on direct from the Claimant that you would like to 12:34:44
25	in front of you? 12:34:00	25	put to the expert? 12:34:48

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 161		Page 162
1	where we are right now, North America, this is a 12:36:43	1	We have also prepared 12:37:49
2	showing of all of the projects we worked on in the 12:36:47	2	documents for Fisheries and Oceans Canada on 12:37:53
3	Great Lakes. This is my area where I work 12:36:51	3	habitat assessment and dredging impacts as well. 12:37:55
4	primarily, but as I mentioned, I do work 12:36:53	4	These are just some of the projects we have worked 12:37:58
5	internationally as well. 12:36:55	5	on. 12:38:00
6	We provide these services to a 12:36:55	6	Again, Baird, the company I 12:38:01
7	wide range of very notable clients including the 12:36:58	7	work for, for the International Joint Commission, 12:38:08
8	U.S. Army Corps of Engineers, the International 12:37:01	8	we were the lead group for the coastal working 12:38:12
9	Joint Commission, Federal Emergency Measures 12:37:05	9	group on Lake Ontario. Again, following up on 12:38:14
10	Agency, U.S. Bureau of Ocean Energy Management, 12:37:07	10	that, for FEMA, we did the Lake Ontario Wave and 12:38:18
11	formerly called Mineral Management Service. The 12:37:11	11	Surge Study, and presently we're working for 12:38:21
12	U.S. Department of Justice, we're expert witnesses 12:37:14	12	Environment Canada on the Great Lakes Integrated 12:38:23
13	to; expert witnesses to Canada Department of 12:37:16	13	Coastal Framework. 12:38:26
14	Justice. We worked with Fisheries and Oceans 12:37:18	14	I'm not going to go into all 12:38:26
15	Canada, the Ministry of Natural Resources, 12:37:20	15	of the projects I've worked on. Again, 33 years, 12:38:29
16	Ministry of the Environment, and conservation 12:37:22	16	that's all I do. My CV lists the many, many 12:38:31
17	authorities. 12:37:24	17	projects. 12:38:34
18	As experts, Baird was retained 12:37:24	18	I recently was the project 12:38:35
19	by the Ministry of Natural Resources to prepare a 12:37:30	19	manager for the biggest breakwater that has been 12:38:37
20	document back in 2011 called "Offshore Wind Power 12:37:32	20	built in the Great Lakes in the last we don't 12:38:39
21	Coastal Engineering Report." It was basically a 12:37:38	21	even know maybe 20, 30 years. I'm working on 12:38:42
22	synthesis of current knowledge at the time and 12:37:39	22	the remediation of sediments in Port Hope Harbour, 12:38:44
23	identifying what were what were people's 12:37:41	23	which is a \$1.5 billion dollar project. The 12:38:46
24	understanding in who are in the business, let's 12:37:44	24	Canadian government is cleaning up low-level 12:38:49
25	say, about what some of the issues might be. 12:37:47	25	radioactive waste in Port Hope, which is just down 12:38:52

Т

Page 163

	0
1	the shoreline here from Toronto. And a number of 12:38:55
2	other projects. 12:38:56
3	I think of particular 12:38:58
4	importance to this consideration is that Baird has 12:39:01
5	prepared more source water protection studies than 12:39:08
6	any other consultant in Ontario. Source water 12:39:12
7	protection studies are this precautionary tool 12:39:16
8	that MOE uses to identify zones to protect the 12:39:21
9	drinking water. We have done studies for over 50 12:39:25
10	municipal intakes in Ontario, an additional six in 12:39:29
11	the United States, actually. Through that 12:39:32
12	process, we developed a rapport with the Ministry 12:39:34
13	of Environment in terms of helping establish 12:39:37
14	technical rules to better the process. 12:39:39
15	And as part of our work, our 12:39:42
16	ongoing work, we do numerical modelling and 12:39:44
17	assessment of impacts to receiving water so the 12:39:48
18	release of contaminants to receiving water, 12:39:51
19	whether it be sewage, thermal discharge. 12:39:55
20	Presently we're working on the sewage treatment 12:39:57
21	plant, the main sewage treatment plant for 12:40:00
22	Toronto, which is going under a massive expansion 12:40:02
23	at the Ashbridges Bay treatment plant. 12:40:05
24	So these are the types of work 12:40:07
25	we do that are relative to this issue of 12:40:08

1	
1	contamination in drinking water. It's is 12:40:11
2	something we work in quite closely. 12:40:13
3	So something came up the other 12:40:15
4	day in Mr. Wilkinson's testimony about 12:40:20
5	precautionary the precautionary principle, 12:40:23
6	which I disagree with, not that it is being used 12:40:26
7	but the interpretation and how you define it. 12:40:29
8	There's no one definition of 12:40:32
9	precautionary principle. It's a it's an 12:40:34
10	approach, and I believe that that approach is 12:40:38
11	actually being applied in this process through 12:40:41
12	some of the things that MOE does already. They 12:40:44
13	have guidelines for source water protection. They 12:40:46
14	have guidelines for drinking water standards. 12:40:48
15	They have guidelines for levels of contaminants. 12:40:50
16	These are all precautionary principles, 12:40:52
17	precautionary approaches. 12:40:55
18	So this notion of a 12:40:56
19	precautionary principle, which is an overarching 12:40:58
20	belief in environmental studies, is being applied, 12:41:02
21	and then the onus the burden of proof on the 12:41:06
22	proponent is something we accept. We were 12:41:10
23	willing, through the course of this work, to do 12:41:13
24	the studies that are required. 12:41:15
25	So bottom line for that: We 12:41:17

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 165		Page 166
1	believe that the contaminant concentrations in the 12:41:19	1	occur naturally. So to say that there's 12:42:25
2	lake bed sediments at the project site are quite 12:41:21	2	contaminants in the sediment is true. Some of 12:42:27
3	low and disturbance of those sediments would 12:41:24	3	them are natural. Arsenic naturally occurs in the 12:42:29
4	actually not pose a problem for or cause a 12:41:26	4	sediments. So it's a question of what level 12:42:32
5	threat to the drinking water. 12:41:29	5	they're at. 12:42:34
6	Our report went into great 12:41:30	6	None of the contaminant levels 12:42:35
7	detail of how we derived this conclusion, based 12:41:35	7	in those two samples that we looked at that were 12:42:36
8	on, albeit, not 100 percent complete evidence. We 12:41:39	8	available are reach the level of what is called 12:42:38
9	have evidence, though. We have science to base 12:41:44	9	the severe effects level thresholds. So they're 12:42:41
10	our opinion on as to why we have this opinion. 12:41:46	10	small. So they're low-level contaminants. 12:42:44
11	So we believe that it's more 12:41:49	11	The second point is that we're 12:42:46
12	likely than not that this is going to be the case, 12:41:53	12	only dredging small amounts in relation to the 12:42:48
13	based on the information we have at hand. There 12:41:55	13	area that we're dealing with. The area of the 12:42:50
14	are samples that were available to anybody who 12:41:58	14	turbine layout is roughly 6,100 hectares, and 12:42:53
15	knows where to look for them that have been taken 12:42:00	15	we're dredging small volumes for each turbine. 12:42:57
16	at this site. So based on that, if you look at 12:42:02	16	So there's only a small volume 12:43:00
17	the contaminant levels, they're actually quite 12:42:05	17	that we're actually starting to disturb, and we're 12:43:02
18	low. Most of them are below the what's called 12:42:08	18	only shifting it. We're not lifting it through 12:43:04
19	the lowest effects level threshold, which if it's 12:42:10	19	the water column. We're just moving it to the 12:43:06
20	below that, you can literally just dump it in the 12:42:13	20	side. So it's a small volume, and above that 12:43:08
21	lake, and MOE doesn't really mind. It's clean, 12:42:15	21	small volume, less than 5 percent actually gets 12:43:11
22	considered to be clean. You can open-water dump 12:42:17	22	put up into the water column. Actually, the 12:43:14
23	it. 12:42:19	23	number that typically is used is 1 percent. We 12:43:17
24	Some of them are above 12:42:20	24	conservatively assume 5 percent might be put into 12:43:20
25	background level. Some of these contaminants 12:42:23	25	the water column. U.S. Army Corps of Engineers 12:43:23
	Page 167		Page 168
1	suggests it might be less than 1 percent. 12:43:25	1	would dilute those contaminants to a point where 12:44:34
2	The second point the third 12:43:27	2	you could actually drink the water. It meets the 12:44:37
3	point, then, is, of that small volume, of that 12:43:29	3	MOE drinking water standards. 12:44:40
4	small percentage, the actual contaminants, whether 12:43:32	4	It would not approach the 12:44:41
5	it be arsenic or mercury, actually most of it 12:43:35	5	no. Granted, these studies aren't complete, but 12:44:44
6	remain bound to the particle. It's just the 12:43:39	6	the evidence that we have before us suggests to 12:44:46

2	The second point the third 12:43:27
3	point, then, is, of that small volume, of that 12:43:29
4	small percentage, the actual contaminants, whether 12:43:32
5	it be arsenic or mercury, actually most of it 12:43:35
6	remain bound to the particle. It's just the 12:43:39
7	nature of it. They don't dissolve into the water. 12:43:41
8	Only a small fraction of the contaminants actually 12:43:44
9	dissolve into the water. 12:43:47
10	For our analysis, to come to 12:43:48
11	our final conclusion that it's not a problem, we 12:43:49
12	assumed 100 persons of the contaminants would 12:43:52
13	dissolve in the water, so, again, taking a 12:43:54
14	conservative view that we would lose those 12:43:57
15	contaminants to the actual dissolve in the water. 12:43:58
16	There is a long ways between 12:44:00
17	where the turbines are and where the nearest 12:44:03
18	intake is. On this graphic, you can see the 12:44:05
19	turbine layout. The closest one is 12 kilometres 12:44:08
20	away. The furthest one is 24. And there's an 12:44:11
21	incredible volume of water between the two. If 12:44:16
22	you do the math, which we did in our report, the 12:44:20
23	low-level contaminants, the small volume, the 12:44:23
24	small percentages, within about less than 1 12:44:27
25	percent of the volume of water available to us, we 12:44:32

would under those containing to a point where 12.11.51
you could actually drink the water. It meets the 12:44:37
MOE drinking water standards. 12:44:40
It would not approach the 12:44:41
no. Granted, these studies aren't complete, but 12:44:44
the evidence that we have before us suggests to 12:44:46
us, based on our expertise and experience, that 12:44:50
this would have been manageable, and we could have 12:44:52
demonstrated this. 12:44:55
This kind of construction 12:44:56
activity goes on around on the Great Lakes 12:45:01
where trenches are dredged; things are put in the 12:45:03
water that are much closer to intakes than is 12:45:08
being proposed at Wolfe Island Shoals. 12:45:11
For instance, here you can see 12:45:14
we're in Toronto. Offshore of Toronto, there is 12:45:16
Toronto Islands that little feature that sort of 12:45:20
sticks it doesn't go there. 12:45:22
There is a deep lake water 12:45:25
cooling pipe's open cut trench that was dug. That 12:45:27
material was dredged and simply piled up beside 12:45:29
it, and it's half a kilometre away from a drinking 12:45:32
water intake. 12:45:35
I mentioned the Ashbridges Bay 12:45:35
sewer waste water outfall that's labelled on that 12:45:38

	Page 169		Page 170
1	drawing on the top right corner. That's less than 12:45:41	1	Something else that came up 12:46:44
2	5 kilometres away from the main water intake. 12:45:43	2	that never had originally entered our report 12:46:48
3	Ten minutes? My good friend 12:45:46	3	because we didn't believe it to be an issue, but 12:46:51
4	Myriam. 12:45:51	4	in response to Mr. Wilkinson's evidence regarding 12:46:54
5	So it happens. So we use that 12:45:52	5	algae blooms, algae is driven by nutrients: 12:46:57
6	analysis desktop analysis to show the dilution 12:45:56	6	fertilizer from farms, leaky sewage systems, golf 12:47:01
7	of it just wouldn't be a concern. It doesn't 12:46:00	7	course runoff, urbanized areas, these kind of 12:47:06
8	indicate it's a concern to us. We also did some 12:46:02	8	things. 12:47:09
9	initial modelling. This was presented in the 12:46:04	9	And where you have warm 12:47:09
10	report. We have that figure there. 12:46:06	10	shallow water, it gets even worse. Like, in the 12:47:10
11	The green element there is 12:46:07	11	western end of Lake Erie, which is the next lake 12:47:13
12	actually the outer envelope of the sediment 12:46:12	12	down, very shallow at the west end. That's the 12:47:15
13	particles. It's actually releasing a model that 12:46:14	13	one that Mr. Wilkinson said you can see from 12:47:19
14	releases the particles near the bottom and then 12:46:17	14	space. You can. It's a big problem. 12:47:21
15	tracks where it would go based on the currents 12:46:19	15	We're talking about wind 12:47:23
16	that go back and forth. The first image there is 12:46:21	16	turbine towers. They have no nutrient value that 12:47:25
17	just upon release; after three days, because the 12:46:23	17	are contributing to the water column. So, 12:47:27
18	current are going back and forth; and then after 12:46:26	18	therefore, we're of the opinion that it does not 12:47:30
19	eight days. And we assume three days of dredging 12:46:28	19	increase the risk. 12:47:32
20	and then another eight days. By this point, those 12:46:31	20	I mentioned the MOE report. I 12:47:33
21	fine silt particles have already hit the bottom. 12:46:34	21	won't get into it. They did what we would have 12:47:36
22	These conclusions are 12:46:37	22	done in the modelling. MOE's own experts modelled 12:47:39
23	consistent with MOE's own modelling report that 12:46:38	23	it, and I'd just draw your attention to the last 12:47:43
24	was draft issued in 2012. That concluded the same 12:46:40	24	line: 12:47:45
25	thing. 12:46:44	25	"Based on the results of 12:47:46
	Page 171		Page 172
1	this assessment, it was 12:47:47	1	water. Rule 130 says you can do more. You can 12:48:45
2	concluded that any 12:47:47	2	evaluate more things by doing numerical modelling 12:48:51

		in decert i
concluded that any 12:47:47	2	evaluate
impacts from construction 12:47:48	3	and lool
of an offshore windmill 12:47:49	4	underst
would be quite small." 12:47:51	5	mechan
Now, they're not modelling 12:47:52	6	at what
this particular one, but they're doing the process 12:47:53	7	applied
and demonstrating the capabilities of experts to 12:47:54	8	
come to these conclusions. 12:47:59	9	compar
There's also a discussion 12:48:00	10	opinion
paper from MOE that said, if you should be outside 12:48:02	11	to highl
this 5 kilometre zone, then you are probably not 12:48:07	12	
going to have impacts. Well, we're 12 kilometres 12:48:12	13	contam
away from the nearest one. 12:48:15	14	large vo
This discussion paper also 12:48:17	15	conclud
said that, if you are outside that exclusion zone, 12:48:18	16	bacteria
you should do some site-specific studies and 12:48:20	17	kilomet
assess the potential impacts. This is what was 12:48:22	18	Walker
proposed to do in the project schedule. We would 12:48:25	19	of a mu
do those studies, get that information. So we 12:48:27	20	
were I put to you that we were doing what MOE 12:48:32	21	establis
thought we should be doing. 12:48:34	22	At Wall
Source water protection: This 12:48:35	23	Walker
is a mechanism that is a living mechanism. It's 12:48:39	24	they t
not static. It defines zones to protect the 12:48:43	25	again, N

te more things by doing numerical modelling 12:48:51 oking at other activities to get a better 12:48:54 standing. So that source water protection 12:48:56 nism, that precautionary principle of looking 12:48:58 t protects the drinking water, could be 12:49:01 d here. 12:49:03 12:49:04 This is an unfortunate rison, I believe, to Walkerton. In my 12:49:08 n, the two are so different that I just had 12:49:13 nlight some elements of it. 12:49:16 We're talking about low 12:49:18 ninant concentrations that are diluted by 12:49:20 volumes of water. The Walkerton inquiry 12:49:22 ded there were high levels of deadly 12:49:25 ia. We're in 20 metres of water, 12 to 24 12:49:27 etres away from the nearest intake. In 12:49:31 rton, it went directly into the intake well 12:49:34 unicipal water supply. 12:49:37 As I mentioned, we have 12:49:38 shed source water protection procedures. 12:49:40 lkerton, there was a failure. This was the 12:49:43 rton inquiry, Walkerton inquiry that said 12:49:45 they failed to use the chlorinators. And, 12:49:49 MOE has the capacity to review water 12:49:54

	Page 173		Page 174
1	quality studies, and Walkerton was concluded there 12:49:56	1	the St. Lawrence system are limited. They can 12:51:08
2	was ineffective MOE plan inspection. 12:49:58	2	only be so big because the locks are so big. So 12:51:10
3	Navigation: This has been 12:50:00	3	they're called seaway max. They're not the size 12:51:14
4	raised. We we contend that the 1,200- to 12:50:04	4	of ships you see on the ocean. They're two and a 12:51:17
5	1,500-metre-wide navigation channel, which is 12:50:09	5	half times narrower. They're one and a half times 12:51:19
6	shown as the on the left portion there, the 12:50:12	6	shorter. So they're not your PanMax or your 12:51:22
7	upper leg, which is adjacent to the turbine site, 12:50:14	7	Valemax or your T1 super class tankers that are in 12:51:24
8	the 1,200- to 1,500-metre-wide navigation 12:50:18	8	the open ocean. 12:51:28
9	allowance is sufficient. It compares to just 12:50:21	9	So just a quick comparison: 12:51:28
10	upstream where the where you have two-way 12:50:27	10	On the top right, there's the two-way lane traffic 12:51:31
11	traffic we talked one-way traffic two way 12:50:30	11	that is common, maybe 240 metres on the Great 12:51:34
12	traffic in channels that are 150 to 140 metres 12:50:32	12	Lakes St. Lawrence Seaway. Two-way ships going 12:51:39
13	wide. Typically it's less on the Great Lakes. 12:50:36	13	back and forth this way. Where, adjacent to the 12:51:40
14	You must understand that the 12:50:39	14	Windstream project, there's, at minimum, 1,200 12:51:43
15	Great Lakes St. Lawrence Seaway system is not the 12:50:41	15	metres and upwards of 1,500 metres for one-way 12:51:46
16	open ocean. It's an inland waterway that extends 12:50:43	16	traffic. Vessels are only allowed to go one way 12:51:48
17	some 3,700 kilometres from the Gulf of St. 12:50:47	17	in this section of the seaway. 12:51:51
18	Lawrence all the way up to Lake Superior. 12:50:50	18	So we add up the ship lane, 12:51:52
19	It's been established for 50 12:50:52	19	which, on the seaways, are 250 to 450 metres, and 12:51:55
20	years these type of widths for channels for safe 12:50:54	20	given a buffer an additional buffer of 800 to 12:52:00
21	operation. They're based on Canadian guidelines. 12:50:57	21	1,000 metres gives you your 1,200 to 1,500, which 12:52:04
22	Every vessel that's a vessel 12:50:58	22	is available on the seaway. 12:52:07
23	going through this system has to have a pilot on 12:51:01	23	Navigation through we don't 12:52:08
24	it, a person who knows the local condition. It's 12:51:02	24	believe is going to be a likely than not, it 12:52:11
25	a mandatory they be piloted, and the vessels on 12:51:05	25	won't be an issue that cannot be dealt with. That 12:52:15
		1	

Page 175

1	small speck in the middle there represents a small 12:52:17
2	pleasure craft in scale to the other turbines. 12:52:21
3	There's plenty of room to navigate through. Of 12:52:24
4	course, the turbines will be all marked in 12:52:26
5	accordance with Canadian and international 12:52:28
6	standards. 12:52:30
7	Quickly, applying a label 12:52:30
8	"first of kind," in my opinion, is not 12:52:37
9	particularly relevant or accurate. All the 12:52:38
10	elements of the marine component of this, which 12:52:41
11	I'm dealing with I don't deal with bats. I 12:52:44
12	deal with marine components. 12:52:47
13	Dredging, stone bedding, 12:52:49
14	concrete piers, these have all been used many, 12:52:51
15	many times in the Great Lakes. Even URS 12:52:53
16	acknowledges these are not untested technologies, 12:52:56
17	and these are combined. I mean, you typically 12:52:59
18	build something on a marine setting by dredging, 12:53:01
19	putting stone bedding, building something on top 12:53:05
20	of it. So this is a common approach. This has 12:53:05
21	been dealt with in our report. 12:53:08
22	And cabling, I mean, we talked 12:53:09
23	about cabling. There's lots of cables in the 12:53:11
24	Great Lakes. That's not it's not untested as 12:53:13
25	well. 12:53:15

1	So, in my opinion, it is – 12:53:15
2	applying this kind of label does no real 12:53:17
3	doesn't serve a purpose. 12:53:20
4	So the waves are understood. 12:53:21
5	There was some question that we don't understand 12:53:23
6	the waves. We have prepared the U.S for the 12:53:25
7	U.S. Army Corps of Engineers, which is the wave 12:53:30
8	standard for Lake Ontario, for the wave 12:53:33
9	information system. It's validated with measure 12:53:35
10	waves, and additional field studies are not 12:53:37
11	required. 12:53:40
12	Baltic waves where they have 12:53:41
13	wind turbines are similar to Lake Ontario. That 12:53:44
14	was shown in our first report. We're well aware 12:53:46
15	there's the point was made that the seas are 12:53:48
16	different somehow. We're well aware of that. In 12:53:50
17	the Great Lakes, there are more seas. In the 12:53:52
18	ocean, they're seas and swells. This difference 12:53:55
19	is well known, has been considered in all of our 12:53:58
20	deliberations. This is not something that's new 12:54:02
21	to us. 12:54:03
22	Obviously the Great Lakes are 12:54:03
23	less severe than the North Sea. This issue was 12:54:05
24	raised, and this is just this is true. 12:54:07
25	And the last point is there's 12:54:08

	Page 177	
1	no evidence to support a URS claim that there is 12:54:12	1
2	this issue of somehow rogue waves or confusing 12:54:14	2
3	seas that are somehow special to the Great Lakes. 12:54:18	3
4	This is I have no other way 12:54:21	4
5	of putting it. This is false. There is no 12:54:22	5
6	evidence to support that whatsoever. 12:54:24	6
7	There is a notion about the 12:54:26	7
8	wave impacts on the U.S. There's the wave array, 12:54:28	8
9	all those dates. The wave rows from our wave 12:54:33	9
10	hindcast shows the waves coming from the 12:54:36	10
11	southwest. So they don't direct to the U.S., and 12:54:39	11
12	by the time you go through the wind turbine array, 12:54:41	12
13	they really don't change. We're 8 kilometres away 12:54:43	13
14	from the U.S., and from our own studies that we 12:54:48	14
15	have done on the U.S. shore for the IJC, it's 12:54:50	15
16	almost all bedrock. It is not even sensitive to 12:54:54	16
17	any changes, even if there was a change. 12:54:56	17
18	Ice: I don't think there is 12:54:58	18
19	really a contention with ice. We all understand 12:55:00	19
20	Canada has ice. Canadians know ice. There's ice 12:55:04	20
21	codes. We don't believe that anybody's really 12:55:08	21
22	contending that there is not a good understanding. 12:55:10	22
23	There is no doubt that the schedule allows for a 12:55:12	23
24	detailed design. It has to be considered. 12:55:15	24
25	So, to summary I'm looking 12:55:18	25

Page 179

	1 450 179
1	Government of Canada, Mr. Spelliscy suggested that 12:56:30
2	the conclusion in expert reports that there are no 12:56:32
3	material impediments to developing the project 12:56:36
4	really meant whether developing the project was 12:56:39
5	possible. And he says that is a completely 12:56:41
6	irrelevant question to this arbitration. 12:56:46
7	So to be clear, Mr. Kolberg, 12:56:47
8	if the question had been posed to you: Is it more 12:56:49
9	likely than not that the coastal engineering 12:56:53
10	issues that are considered in your report, whether 12:56:57
11	you had answered the question on a more likely 12:57:02
12	than not standard as opposed to no material 12:57:04
13	impediment standard, would that change your 12:57:07
14	opinion? 12:57:09
15	A. Absolutely not. I think 12:57:10
16	I could just as readily use the term "more likely 12:57:12
17	than not" based on our expertise and experience in 12:57:14
18	the Great Lakes; that the issues more likely than 12:57:16
19	not would not would more likely than not would 12:57:19
20	have allowed the project to proceed. 12:57:22
21	Q. Thank you. 12:57:24
22	PRESIDENT: Thank you, 12:57:25
23	Ms. Seers. This will be a convenient time to 12:57:26
24	break for lunch. We will continue at two o'clock, 12:57:29
25	and if I could ask Mr. Kolberg not to speak with 12:57:31

CONFIDENTIAL AND RESTRICTED February 19, 2016 Page 178

	at Myriam with my time I believe myself and 12:55:21
	Baird are qualified to talk about the Great Lakes. 12:55:26
	I believe that there is evidence to show that the 12:55:29
	disturbance of the lake bed sediment from the 12:55:33
	Windstream construction would not be a threat to 12:55:35
i	drinking water; that applying the existing MOE 12:55:37
	precautionary principles, a science-based approach 12:55:40
	is being applied, and the onus is on the proponent 12:55:43
,	to prove that. We agree. 12:55:47
)	The navigation: There's a 12:55:48
	standard Great Lakes St. Lawrence Seaway ship lane 12:55:50
	and buffer, something that's unique to this area. 12:55:52
	To reiterate, I don't think 12:55:56
	"first of a kind" is an appropriate or useful 12:55:57
	label and the waves, coastal processes, and ice 12:56:00
i	conditions are reasonably well quantified and well 12:56:02
	understood to have proceeded into detail design. 12:56:05
	PRESIDENT: Thank you, 12:56:10
	Mr. Kolberg. 12:56:10
)	Ms. Seers, there was one 12:56:18
	question, I believe? 12:56:19
	EXAMINATION-IN-CHIEF BY MS. SEERS: 12:56:24
	BY MS. SEERS: 12:56:24
	Q. Thank you, Mr. Kolberg. 12:56:25
	In his opening statement on behalf of the 12:56:28

Page 180

1	anybody about your about your testimony during 12:57:34
2	the lunch break. 12:57:37
3	THE WITNESS: Absolutely. 12:57:38
4	PRESIDENT: A special room has 12:57:39
5	been reserved for you so you can enjoy your lunch 12:57:41
6	in peace and quiet. 12:57:47
7	THE WITNESS: For a change. 12:57:48
8	Thank you. 12:57:49
9	PRESIDENT: Yes. I thought 12:57:49
10	you might appreciate the opportunity. 12:57:50
11	Lunch recess taken at 12:57 p.m. 12:57:52
12	Upon resuming at 2:01 p.m. 14:01:59
13	PRESIDENT: Thank you. 14:02:01
14	Welcome back. And it will be cross-examination 14:02:02
15	conducted by Ms. Squires. 14:02:07
16	CROSS-EXAMINATION BY MS. SQUIRES: 14:02:10
17	Q. Good afternoon, 14:02:10
18	Mr. Kolberg. How are you? 14:02:13
19	A. I'm fine. Thank you very 14:02:14
20	much. 14:02:15
21	Q. Good. As Mr. President 14:02:15
22	has mentioned, my name is Heather Squires, and I'm 14:02:17
23	counsel for the Government of Canada in this 14:02:20
24	arbitration. I'm going to ask a few questions so 14:02:22
25	I can understand a bit better the contents of the 14:02:25

48

Page 184

Page 182

	1 age 101		1 age 10
1	expert reports you filed in the arbitration. 14:02:27	1	Now, you provided two reports 14:03:16
2	If you don't understand a 14:02:29	2	in this arbitration; correct? 14:03:19
3	question that I've asked, let me know. I can 14:02:30	3	A. Correct. 14:03:20
4	rephrase it, ask it again. It's important we 14:02:32	4	Q. And the first is dated 14:03:21
5	understand each other. 14:02:35	5	August 13, 2014; correct? 14:03:22
6	In that regard, it's also 14:02:35	6	A. Correct. 14:03:25
7	important if you could answer my questions, if 14:02:37	7	Q. And the second one was 14:03:25
8	they are a yes or no question, with that first, 14:02:39	8	filed June 16, 2015? 14:03:27
9	and then I can provide you time for relevant 14:02:41	9	A. Correct. 14:03:29
10	context and that sort of thing. 14:02:43	10	Q. Now, you were not 14:03:30
11	You'll also note that in front 14:02:46	11	retained by the Claimant prior to February 11, 14:03:32
12	of you there's a white binder. It has numerous 14:02:48	12	2011; correct? 14:03:35
13	documents in it. They're labelled by tab number, 14:02:50	13	A. No. 14:03:36
14	so I'll be referring to those throughout the 14:02:52	14	Q. Okay. Now, the section 14:03:38
15	course of the next hour and just so you know where 14:02:54	15	in the reports that you have provided, your 14:03:41
16	to find them. 14:02:57	16	sections in particular deal with drinking water 14:03:44
17	The documents will also appear 14:02:58	17	issues, the project layout as it pertains to the 14:03:46
18	on the screen here to your right. So some of them 14:02:59	18	shipping lanes, coastal processes, and wind, 14:03:49
19	might be small. It might be easier to look up, up 14:03:04	19	weather, and ice. Those are your particular areas 14:03:52
20	there. I'll leave it you to decide. 14:03:06	20	of the report; correct? 14:03:54
21	I don't think we'll be going 14:03:09	21	A. With respect to, when you 14:03:56
22	through any confidential today, but to the extent 14:03:10	22	say mine, Baird and Associates, yes. There was 14:03:58
23	that we are, we might need to cut you the feed, 14:03:11	23	components on marine archeology and fisheries 14:04:00
24	but you don't need to concern yourself with that 14:03:13	24	handled by other experts. 14:04:04
25	at all. 14:03:15	25	Q. Okay. So I just want to 14:04:05
		1	

Page 183

	1 age 105
1	start to ask you a couple of questions about your 14:04:07
2	comments on the project being a first of a kind. 14:04:09
3	And this morning you've heard 14:04:11
4	Mr. Roberts from WSP indicate that, in his 14:04:14
5	opinion, the project is first of a kind with 14:04:17
6	respect to permitting. Do you remember that? 14:04:19
7	A. Yes, I remember that. 14:04:21
8	Q. Okay. So you would also 14:04:22
9	agree with Mr. Roberts, then, that first of a kind 14:04:23
10	would make a permitting process somewhat 14:04:26
11	uncertain? 14:04:28
12	A. We're going to the 14:04:31
13	context here. I think that's the issue. In my 14:04:34
14	opinion "first of a kind" is a label that I don't 14:04:36
15	necessarily agree with, so if Mr. Roberts said so, 14:04:39
16	that's his opinion. My opinion the elements of 14:04:41
17	the project that are within my purview, which is 14:04:45
18	the coastal marine components, they're not first 14:04:48
19	of a kind. 14:04:52
20	Q. Okay. But in terms of 14:04:52
21	the permitting process, some of those components 14:04:54
22	that you are an expert in, so the coastal 14:04:56
23	processes, the clean water issues, those are a 14:05:00
24	part of the Renewable Energy Approval; correct? 14:05:02
25	A. I believe so, yes. 14:05:04

1	Q. All right. Let's move 14:05:05
2	on, then, to talk a bit about the comments you've 14:05:09
3	made on drinking water and possible contamination 14:05:11
4	to drinking water. And I would like to take you 14:05:14
5	to page 26 of your second report. 14:05:16
6	A. Yes. 14:05:28
7	Q. I'm going to look at the 14:05:28
8	first sentence under Section 4.3. 14:05:30
9	A. Yes. 14:05:33
10	Q. Now, you indicate here 14:05:33
11	that: 14:05:35
12	"It's expected that the 14:05:35
13	level of contaminants 14:05:36
14	entering the water column 14:05:38
15	as a result of 14:05:40
16	disturbance of sediment 14:05:40
17	due to preparation of the 14:05:40
18	project turbine 14:05:40
19	foundations would pose no 14:05:43
20	threat to drinking 14:05:44
21	water." 14:05:45
22	Is that correct? 14:05:45
23	A. That's what it says, yes. 14:05:46
24	O. And if we turn over to 14:05:47

	Page 185		Page 18
1	conclusion from specific project characteristics, 14:05:52	1	A. No. My report does not 14:06:48
2	such as the low concentration of contaminants in 14:05:55	2	conclude that, but I would probably have the same 14:06:49
3	the water in the project area, sorry, the total 14:05:57	3	conclusion in other other areas. 14:06:51
4	volume of dredge material, the short duration of 14:06:00	4	Q. So 14:06:54
5	dredging, those sort of things; correct? 14:06:03	5	A. But my report strictly 14:06:55
6	A. Yes. 14:06:05	6	deals with Windstream. 14:06:56
7	Q. So the conclusion that 14:06:06	7	Q. Okay. So you can let me 14:06:57
8	you've made in this report, then, is specific to 14:06:07	8	know whether you agree or not with the next 14:07:00
9	the Windstream project itself; correct? 14:06:10	9	statement, then, that, depending on the particular 14:07:03
10	A. Most certainly, yes. 14:06:12	10	circumstances of a project, there may, in fact, be 14:07:04
11	Q. So, now, you weren't here 14:06:13	11	issues with drinking water. 14:07:07
12	for it, but you're aware because you mentioned it 14:06:17	12	A. Well, certainly. If 14:07:09
13	in your presentation this morning, but Minister 14:06:20	13	there are if there are contaminants or if there 14:07:10
14	Wilkinson, the former Ministry of Environment, in 14:06:23	13	are particular issues that it's close by, yes. 14:07:12
15	his testimony, indicated that he had concerns with 14:06:25	15	That's a very open-ended statement, but I would 14:07:14
16	the impact offshore wind farms would have in the 14:06:27	16	agree with you. 14:07:16
17	Great Lakes in general as they pertained to 14:06:30	17	Q. Okay. Now, in your 14:07:17
18		18	
		10	presentation as well you mentioned and we can 14:07:18
19 20	So I want to clarify, then, exactly what you have 14:06:34		go back to it, if it helps the Tribunal. You 14:07:21
20	concluded in your report in the context of those 14:06:37	20	mention specifically on the slide entitled "Our 14:07:27
21	comments from him. 14:06:39	21	Conclusion's Consistent with MOE Approach and 14:07:31
22	You don't conclude in your 14:06:39	22	Conclusions." You refer to a report dated 14:07:34
23	report that water quality issues may not arise 14:06:42	23	December 2012, a Nettleton report that dealt with 14:07:35
24	with an offshore wind farm in any other area of 14:06:44	24	the Mike 3 model. Do you remember that? 14:07:39
25	the Great Lakes; correct? 14:06:47	25	A. Yes. 14:07:40
	Page 187		Page 18
1	Q. Now, you noted this study 14:07:41	1	started this report, I couldn't tell you. 14:08:32
2	was done by MOE. 14:07:42	2	Q. Okay. But, at minimum, 14:08:33
3	A. Yes. 14:07:45	3	they concluded it post that date I just spoke 14:08:34
4	Q. And given it's dated 14:07:46	4	about? 14:08:36
5	December 20 December 2012, you would agree 14:07:47	5	A. Post that date? Yes this 14:08:36
6	that, in fact, the Ministry of Environment did do 14:07:50	6	report concludes that. 14:08:38
7	studies on drinking water post the deferral on 14:07:53	7	Q. Okay. Now, you also 14:08:39
8	February 11, 2011; correct? 14:07:56	8	briefly touched on the issue with the drinking 14:08:40
9	A. I'm aware of this study, 14:07:58	9	water in Walkerton. Now, Mr. Kolberg, do you 14:08:42
10	and the date on it is December, as a draft, in 14:07:59	10	recall how many people died from drinking water 14:08:46
11	2012. 14:08:02	11	drinking water from their own taps in that in 14:08:48
12		12	that in that tragedy? 14:08:50
3	Q. Okay. Which would date 14:08:02 post the deferral? 14:08:03	13	A. The specific number? No. 14:08:51
13	1	14	Q. Does around seven or 14:08:53
	,	15	eight sound about right? 14:08:55
15	with the deferrals and the moratoriums, you would 14:08:07	16	A. I'm sure I'm sure 14:08:57
16	have to clarify that to me. This the date is 14:08:10	17	you're asking me so I'm sure you know the number, 14:08:5
17	pretty obvious on on this one. It is December 14:08:12	18	so I'm going to say, yes, it sounds right. 14:09:00
18	2012. And I'm not quite clear what the date 14:08:16	19	Q. And you would agree with 14:09:02
19	the other date you're asking me. 14:08:19	20	me that, seven or eight deaths from drinking 14:09:03
20	Q. It's February 11, 2011. 14:08:20	21	
21	· · · · · · · · · · · · · · · · · · ·	1 21	water, that's enough to make a politician sit up 14:09:06

25 cannot speak to what Mr. Wilkinson believes as a 14:09:15

21

22

23

24

25

It's -- everybody in this room, it's their

favourite date.

14:08:24

14:08:29

14:08:25

A. Then I think we all know 14:08:25

that it is after this date. When this report was 14:08:26

started and when the Ministry had their -- had

	Page 189		Page 190
1	politician. I can tell you what I believe. 14:09:17	1	earlier layout? 14:10:20
2	Technically there is no parallel between Walkerton 14:09:19	2	Q. Yes. 14:10:20
3	and this situation. I cannot enter 14:09:22	3	A. Yes. There was there 14:10:21
4	Mr. Wilkinson's mind. 14:09:24	4	was there was some encroachment into the 14:10:22
5	Q. Okay. I understand I 14:09:25	5	into the shipping lane. 14:10:24
6	understand that you don't want to draw the 14:09:27	6	Q. Okay. So now in your 14:10:25
7	parallel, and my point is more on that it's an 14:09:28	7	2015 layout, you've moved those turbines out of 14:10:26
8		8	• •
9	event someone might take notice to. But that's 14:09:30	9	II S II J
10	fine. 14:09:33	10	existing navigational route. Is that correct? 14:10:32
	Let's talk for a minute now 14:09:33		A. Me personally didn't move 14:10:34
11	about the project layout, and I want to get into 14:09:38	11	them, yes, but they had the layout was adjusted 14:10:35
12	some of the shipping lane issues. Now, the 14:09:40	12	in 2015 due to a number of reasons, I believe, but 14:10:39
13	project layout that we have before us, that is 14:09:47	13	certainly recognition of a shipping lane would 14:10:43
14	sorry, now, the project layout has been revised 14:09:50	14	have been one one aspect. 14:10:44
15	between the layout that was put forward in your 14:09:52	15	Q. Okay. Now, in your view 14:10:47
16	first report so I'll call that the 2010-2014 14:09:55	16	then, this modification, as it pertains to the 14:10:49
17	layout and the layout put forward in the time 14:09:58	17	shipping lane, is to ensure safe navigational 14:10:51
18	of your reply; correct. 14:10:01	18	passage; correct? I mean you wouldn't have that 14:10:54
19	A. Yes. There were changes 14:10:02	19	if this were in the shipping lane? 14:10:59
20	to the layout, yes. 14:10:03	20	A. No. Again, stating the, 14:11:01
21	Q. Okay. Now, those changes 14:10:04	21	obvious if they were in the shipping lane, that 14:11:02
22	result from the the project, as it was designed 14:10:07	22	would be an encumbrance, yes. 14:11:05
23	by Windstream at the time, had turbines placed in 14:10:11	23	Q. Okay. So up until the 14:11:08
24	an international shipping lane. Is that correct? 14:10:13	24	time that you pointed out this error in your first 14:11:09
25	A. The 2014 layout or the 14:10:15	25	report, because you did note there that they were 14:11:11
	Page 191		Page 192
1	in the shipping lane, Windstream was proceeding 14:11:12	1	we add what you said is an acceptable buffer of 14:12:12
2	with a project layout that actually had turbines 14:11:15	2	700 to 1,000 metres 14:12:15
3	placed in a shipping lane; correct? Up until 14:11:16	3	A. 800. 14:12:17
4	2014? 14:11:18	4	Q. 800, sorry, to 1,000 14:12:19
5	A. I couldn't speak to the 14:11:19	5	metres, then we land within that existing 14:12:19
6	- the inner thinking of Windstream with respect 14:11:20	6	navigational route. So we land somewhere between 14:12:22
7	to what they knew and didn't know and what they 14:11:23	7	the 1,200 and 1,500 of the navigational route. Is 14:12:24
8	were proposing. Certainly the layout that I saw 14:11:25	8	that correct? 14:12:27
9	in 2014 created an issue with shipping lanes. 14:11:28	9	
10	For all I know they may have 14:11:35	10	
11	already known that, but we certainly worked with 14:11:37		
12	them to point out an allowance for a shipping lane 14:11:39	11 12	then, that you've created is based on your opinion 14:12:30
13	that would, in our opinion, be workable. 14:11:43		of working the math so that it fits within that 14:12:32
14	Q. Okay. So I want to 14:11:45	13	that area? 14:12:35
15	explore a bit, then, your conclusions with regard 14:11:48	14	A. No. The the math 14:12:36
16	to that new layout and why you feel that is an 14:11:51	15	works out that a shipping lane of 250 to 450 14:12:39
17	appropriate shipping lane plus buffer, as you put 14:11:54	16	metres is very consistent with what is practiced 14:12:44
18	it 14:11:56	17	on the Great Lakes St. Lawrence Seaway System, and 14:12:46

18

19

20

21

22

23

24

25

it.

18

19

20

21

22

23

24

25

14:11:58

14:12:08

a buffer of 800 to 1,000 metres, in our opinion, 14:12:49

included within that existing navigational route? 14:12:55

itself is the 1,200 to 1,500 metres. So just so 14:13:03

Q. Okay. So the buffer is 14:12:54

14:12:57

14:12:58

is sufficient. The math worked out to be that.

Q. Okay. Now, so your

report does note that the navigational route

A. Yes.

14:11:56

And in your presentation this 14:11:57

conclusion that that existing navigation route is 14:12:00

there's a much smaller shipping lane. So I think 14:12:05

enough, because in other areas of the Great Lakes, 14:12:03

So if we take that amount and 14:12:10

morning, you indicated that you've come to the

you said around 250 to 450 metres.

14:12:52

14:13:00

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 193		Page 194
1	we're on the same page, that is the navigational 14:13:06	1	virtually everywhere on the Great Lakes St. 14:13:58
2	route width; correct? 14:13:09	2	Lawrence Seaway plus a buffer which which 14:14:02
3	A. That is the navigational 14:13:10	3	people would, I think, inherently know that you 14:14:03
4	allowance. Again, the semantics about what you 14:13:11	4	would want to separate yourself a little bit from 14:14:05
5	are calling a route and what I might call a route, 14:13:14	5	a from a wind turbine farm. 14:14:07
6	I'm not clear. 14:13:16	6	So I think you're comparing 14:14:08
7	Q. Well, the allowance, I 14:13:17	7	what someone could do today versus what someone 14:14:11
8	think, is what 14:13:18	8	would be allowed to do in the future with the 14:14:14
9	A. Yes. It's the allowance. 14:13:18	9	project. There's no doubt the project constrain 14:14:16
10	It includes the ship lane and a buffer. 14:13:19	10	the existing condition, but the allowance is 14:14:19
11	Q. Okay. But in that 14:13:21	11	appropriate for a navigation system. 14:14:23
12	navigational allowance, as you've put it, boats 14:13:22	12	Q. Okay. So, again, I just 14:14:26
13	can be found anywhere in that region; correct? 14:13:24	13	want to clarify, then, what your conclusion is. 14:14:28
14	You're not constrained to the middle of that? 14:13:27	14	So the navigational route itself is 1,200 to 1,500 14:14:31
15	A. No. I mean, the boat 14:13:30	15	metres wide? 14:14:34
16	can, if it wants to, can go anywhere it wants 14:13:33	16	A. Yes. The dimensions, as 14:14:35
17	really, but if it's being piloted, as mandatory on 14:13:35	17	shown on the figure I presented, are 1,200 right 14:14:36
18	the Great Lakes St. Lawrence Seaway, the vessel 14:13:38	18	where it exits the St. Lawrence Seaway system, 14:14:39
19	has to be it would be within that channel. 14:13:41	19	because there's a shoal right there that's 14:14:42
20	And what the the point 14:13:46	20	physically you can't go any any wider. And 14:14:45
21	we're making here is, as the project moved 14:13:47	21	then it spreads out a little bit. So generally 14:14:47
22	forward, could you provide a safe navigation 14:13:48	22	it's 1,500 metres, but to be fair, it is 1,200 to 14:14:49
23	allowance adjacent to a wind farm? And we're 14:13:50	23	1,500 metres. 14:14:53
24	saying, yes, you can, because you would have a 14:13:53	24	Q. Okay. So even if we take 14:14:53
25	ship lane that's consistent with what is done 14:13:55	25	the 1,200, then we so 1,200 to 1,500, boats 14:14:54
	Page 195		Page 196
1	as we've agreed boats can be funds anywhere within 14:14:57	1	A. No. Once again, I think 14:15:44
2	that area; correct? They're allowed to go 14:15:00	2	we're sort of mixing the present situation where 14:15:46
3	anywhere between 14:15:03	3	they have room to do that. But if the wind farm 14:15:50
4	A. Today? 14:15:03	4	was established and it went to the permitting 14:15:53
5	Q. Today. 14:15:04	5	agencies, we believe that the case can be made, 14:15:55
6	A. Yes. 14:15:04	6	more likely than not, that that the navigation 14:15:58
7	Q. And so your proposition 14:15:05	7	ship lane would be would be I'm going to use 14:16:02
8	that an adequate buffer can be obtained if, when 14:15:07	8	the word constrained to 250 to 450 metres, as it 14:16:05

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

1	as we've agreed boats can be funds anywhere within 14:14:57
2	2
	that area; correct? They're allowed to go 14:15:00
3	anywhere between 14:15:03
4	A. Today? 14:15:03
5	Q. Today. 14:15:04
6	A. Yes. 14:15:04
7	Q. And so your proposition 14:15:05
8	that an adequate buffer can be obtained if, when 14:15:07
9	those boats are going through that lane, they 14:15:10
10	to use your words, inherently know to stay towards 14:15:12
11	the middle? 14:15:15
12	A. Well, the actual ship 14:15:16
13	doesn't know anything. The pilot would be 14:15:18
14	constrained to a ship channel that is standard on 14:15:20
15	the Great Lakes St. Lawrence Seaway system, 250 to 14:15:24
16	450 metres wide for one-way vessel traffic. 14:15:27
17	Q. Yes. Right now they know 14:15:30
18	they 14:15:31
19	A. That would be asking 14:15:31
20	that would be asking no more of the pilot than the 14:15:33
21	pilot does anywhere on that system. 14:15:34
22	Q. That might be in 14:15:37
23	practice, but they do know, in fact, that they 14:15:38
24	could expand where they go in that route up to 14:15:40
25	1,200 to 1,500 metres; correct? 14:15:42
-	1,200 to 1,000 models, context. 1110112

the word constrained to 250 to 450 metres, as it 14:16:05 is almost everywhere on the seaway, and that the 14:16:08 pilots would now, in the future, when the turbines 14:16:11 are in place, would know that, and they wouldn't 14:16:13 willy-nilly drive all over the place. 14:16:16 Q. Okay. So then your 14:16:18 conclusion is that, for this project to proceed as 14:16:20 you have proposed, it would require the Canadian 14:16:24 authorities that deal with shipping routes to 14:16:27 agree to constrain it from the existing 1,200 to 14:16:29 1,500 meter to what you would feel would be more 14:16:32 consistent with what's in the Great Lakes. It 14:16:35 would require that? 14:16:37 A. There's no doubt this 14:16:38 would require a permit approval from the navigable 14:16:39 authorities. We're clear on that, and there's 14:16:44 time allowed for that in the schedule. Yes, 14:16:45 you're absolutely correct. 14:16:47

1

2

3

4

5

6

7

Page 198

Page 200

Page 197	
Q. And that permit would 14:16:48	1
require the constraining of the shipping lane? 14:16:49	2
A. That would require a 14:16:51	3
modification to the way it is right now. 14:16:53	4
Q. Okay. Just one second. 14:16:54	5
Okay. Now, I want to talk for 14:17:00	6
a minute about the the shipping channels in the 14:17:03	7
Creat Labor in compared and the different 14.17.06	9

/	a minute about the the snipping channels in the 14:17:
8	Great Lakes in general and the different 14:17:06
9	constraints that are on them. 14:17:07
10	And if we turn to page 52 of 14:17:09
11	your second report actually, sorry, we don't 14:17:12
12	need to go. We're going to go to page 55. 14:17:22
13	A. Okay. It's closer to the 14:17:23
14	end. Okay. 14:17:29
15	Q. Exactly. That's what 14:17:30
16	that's what you think. 14:17:30
17	[Laughter.] 14:17:31
18	THE WITNESS: I'm I'm here 14:17:31
19	as long as you need me. 14:17:32
20	BY MS. SQUIRES: 14:17:33
21	Q. Now, on page 55, you note 14:17:33
22	that: 14:17:36
23	"The navigational channel 14:17:37
24	of the 1,200 to 1,500 14:17:39
25	metres is substantially 14:17:40

wider than is typically 14:17:42 safely used for two-way 14:17:43 traffic vessels at many 14:17:44 other locations 14:17:46 throughout the Great 14:17:46 Lakes St. Lawrence Seaway 14:17:49 system." 14:17:49 Correct? 14:17:50 8 9 A. Yes. That -- that route 14:17:50 10 beside where the proposed project would be, at 14:17:53 11 1,200 to 1,500 metres, is wider than many, many, 14:17:55 12 many other places on the Great Lakes St. Lawrence 14:17:59 13 Seaway system, yes. 14:18:02 14 14:18:03 Q. Okay. Let's -- let's 15 turn the page to page 56 and have a look at a 14:18:03 16 couple of those. You provided some graphics. 14:18:06 17 A. Yes. 14:18:08 18 Q. So I want to start with 14:18:08 19 the example at Figure 5.2. 14:18:11 20 A. Five? Sorry? 14:18:14 21 Q. 5.2, so we're on the next 14:18:17 22 page. Sorry, yes, next page, the top image there. 14:18:19 23 A. Mm-hmm. 14:18:22 24 Q. So this is the shipping 14:18:23 25 lane or the navigational route or navigational 14:18:24

Page 199

	Tage 177
1	channel that's between the Detroit River Channel 14:18:26
2	in the Detroit River Channel between Windsor 14:18:30
3	and Detroit; correct? 14:18:33
4	A. Yes. 14:18:34
5	Q. And you indicate that 14:18:35
6	it's 700 metres wide? 14:18:35
7	A. At that particular point, 14:18:36
8	yes, it's 700 metres wide. 14:18:38
9	Q. Okay. And at that 14:18:39
10	particular point, it's constrained on one side by 14:18:40
11	the City of Windsor and one side by the City of 14:18:42
12	Detroit; correct? 14:18:44
13	A. Yes. 14:18:45
14	Q. Okay. Now if we turn to 14:18:45
15	Figure 5.5 on page 59, this is a particular part 14:18:47
16	of the shipping route in the channel on the St. 14:18:54
17	Clair River; correct? 14:18:58
18	A. Correct. 14:18:58
19	Q. And you note here that 14:18:59
20	it's 300 metres wide. 14:19:00
21	A. Yes. 14:19:01
22	Q. And, again, it's also 14:19:02
23	constrained one side by a community and the other 14:19:03
24	side by a naturally-occurring hazard or land mass; 14:19:06
25	correct? 14:19:10

A. Yes. It's land on one 14:19:10 side, and it's land on the other side, yes. 14:19:12 Q. Okay. Now, for both of 14:19:13 these, then, the shipping channel width is 14:19:15 determined by the presence of land on each side; 14:19:18 correct? It's not -- it's simply not possible to 14:19:20 have those shipping lanes wider; correct? 14:19:22 A. Correct. 14:19:24 Q. But if we're talking 14:19:24 about the decision on where to place a manmade 14:19:26 item, like a wind turbine, the regulatory 14:19:28 authorities actually have discretion on where they 14:19:31 can put it; correct? 14:19:33 A. Correct. I mean, the 14:19:34 regulatory agencies always have -- have -- they 14:19:37 can deny or approve as they see fit, I guess. 14:19:39 That's why they're called the regulatory 14:19:43 authority. 14:19:45 Q. Right. So when you 14:19:45 mention, then, that the positioning of the 14:19:46 turbines could be adjusted to provide for 14:19:48 sufficient width for seaway traffic in accordance 14:19:50 with these other examples, in those circumstances, 14:19:53 though, the regulatory authorities had no way to 14:19:56 make the shipping lanes wider; correct? 14:19:58

1

2

3

4

5

6

7

8

9

yes.

land, as we saw, yes.

ability to make it wider?

the first paragraph that:

10	report, when you indicated that the turbines could 14:20:16
11	be positioned safely, not only did you refer to 14:20:18
12	the existing seaway width but you also referred to 14:20:21
13	some standard international practices and Canadian 14:20:24
14	navigational regulations, so I'd like to look at 14:20:28
15	both of those things. 14:20:31
16	A. Mm-hmm. 14:20:31
17	Q. And let's talk about 14:20:33
18	international practice first, and we'll turn to 14:20:33
19	Tab 1 in your binder. This is Exhibit R-506 for 14:20:35
20	the record. 14:20:46
21	A. Yes. 14:20:50
22	Q. It's a document from the 14:20:51
23	United Kingdom's Maritime and Coast Guard Agency, 14:20:52
24	speaking specifically about offshore renewable 14:20:55
25	energy projects. Do you see that? 14:20:57

Page 203

	C
1	what it calls a turbine boundary. Do you see 14:21:42
2	that? 14:21:44
3	A. Mm-hmm. 14:21:44
4	Q. And there's a gap between 14:21:44
5	these two things identified as B on the graphic. 14:21:46
6	A. Mm-hmm. 14:21:48
7	Q. See that? And B on the 14:21:49
8	image, then, refers to what they call the turbine 14:21:51
9	boundary to the nearest shipping route edge; 14:21:54
10	correct? 14:21:56
11	A. Correct. 14:21:56
12	Q. So they're proceeding 14:21:57
13	from the outside edge of the existing navigational 14:21:58
14	channel in this report; correct? 14:22:00
15	A. They're they're 14:22:02
16	proceeding from the outside of the ship lane; yes. 14:22:03
17	Q. Okay. Now, if we just 14:22:06
18	turn to the next page 14:22:07
19	A. Mm-hmm. 14:22:09
20	Q it lists off distances 14:22:10
21	recommended for this boundary in the first column 14:22:11
22	there of that table; correct? 14:22:13
23	A. Yes. 14:22:15
24	Q. And it notes that, 14:22:15
25	anything less than 1 nautical mile from the edge 14:22:16

14:22:2)

1	of the shipping channel, they see that as high or 14:22:20
2	high risk. 14:22:22
3	A. That's what this table 14:22:23
4	says, yes. 14:22:24
5	Q. Yes, okay. And the risk 14:22:25
6	only becomes low when you get greater than 2 14:22:27
7	nautical miles; correct? 14:22:30
8	A. According to this table, 14:22:31
9	yes. 14:22:32
10	Q. That's all we're looking 14:22:32
11	to confirm, I know the table says that, so we're 14:22:34
12	good. 14:22:36
13	Now, let's turn to Tab 3 in 14:22:37
14	your binder. And this is Exhibit C-1414, for the 14:22:39
15	record. And this is the Revised Navigational Risk 14:22:47
16	Assessment for the Cape wind project off the coast 14:22:51
17	of Massachusetts; correct? 14:22:54
18	And we're going to turn to 14:22:55
19	page 4 of Appendix C, and I would tell everyone 14:22:56
20	the easiest way to find that is actually go to the 14:22:59
21	back of the report and come back a few pages. 14:23:01
22	Appendix C is the last appendix. 14:23:04
23	Donnie, if you need help 14:23:09
24	finding that it's page 125 in the PDF. 14:23:10
25	MR. GUILLORY: Thank you. 14:23:13

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 205		Page 200
1	THE WITNESS: I see 14:23:15	1	says. 14:23:53
2 8	attachment or appendix? 14:23:16	2	Q. And it further notes in 14:23:54
3	BY MS. SQUIRES: 14:23:16	3	the first paragraph under that heading that: 14:23:55
4	Q. It's in the appendix, 14:23:16	4	"The Middlegrunden wind 14:23:57
5	Appendix C. If it helps you, it's going to be on 14:23:18	5	farm in Copenhagen has a 14:23:59
6 t	the screen here as well. 14:23:20	6	0.25 nautical mile buffer 14:24:01
7	A. That's attachment C. 14:23:25	7	from the shipping 14:24:02
8	Q. Yes. 14:23:26	8	channel." 14:24:03
9	A. Oh, I thought you said B. 14:23:27	9	Do you see that? 14:24:03
10 (Okay. And what page, sorry? 14:23:29	10	A. Yes, yes. 14:24:04
1	Q. Page 4 of that appendix. 14:23:30	11	Q. And in the next 14:24:04
2	A. C-4. 14:23:32	12	paragraph, it notes that the Nysted offshore wind 14:24:05
3	Q. That's right. 14:23:34	13	farm in Denmark has a 1.0 nautical mile buffer 14:24:09
4	Now, if we look towards the 14:23:35	14	from the existing shipping channel in that area; 14:24:13
15 1	bottom if you can scroll down there, Donnie 14:23:38	15	correct? 14:24:15
	the last underlined sentence there notes that: 14:23:41	16	A. Yes. 14:24:16
17	"No examples were found 14:23:44	17	Q. So these are examples, 14:24:16
8	of an operating or 14:23:45	18	then, of international practice where a buffer 14:24:18
19	planned wind farm in 14:23:46	19	zone from the edge of the shipping lane has been 14:24:20
20	Europe that located the 14:23:47	20	employed or recommended; correct? 14:24:22
21	proposed facility 14:23:48	21	A. Yes. 14:24:25
22	directly adjacent to 14:23:49	22	Q. Now, I want to turn to $14:24:26$
23	shipping channels." 14:23:51	23	the Canadian navigation regulations that you 14:24:29
24	Correct? 14:23:52	24	talked about. And you've indicated that a 14:24:31
25	A. Yes, that's what that 14:23:52	25	navigational risk assessment would need to be 14:24:35
1	Page 207	1	Page 20
	completed for the project: correct? $14.24.37$	1	to go through a couple of sections in that And I 14.25.25
	completed for the project; correct? 14:24:37 A Yes As part of the 14:24:39	1 2	to go through a couple of sections in that. And I 14:25:25 appreciate you're not a lawyer but we'll take 14:25:27
2	A. Yes. As part of the 14:24:39	2	appreciate you're not a lawyer, but we'll take 14:25:27
2 3 a	A. Yes. As part of the 14:24:39 application to the regulatory authorities, a risk 14:24:41	2 3	appreciate you're not a lawyer, but we'll take14:25:27some time and go through those.14:25:29
2 3 a	A. Yes. As part of the14:24:39application to the regulatory authorities, a risk14:24:41assessment would be carried out.14:24:45	2	appreciate you're not a lawyer, but we'll take 14:25:27 some time and go through those. 14:25:29 A. I consider myself lucky. 14:25:31
2 3 a 4 a 5	A. Yes. As part of the14:24:39application to the regulatory authorities, a risk14:24:41assessment would be carried out.14:24:45Q. All right. And this is14:24:47	2 3 4 5	appreciate you're not a lawyer, but we'll take 14:25:27 some time and go through those. 14:25:29 A. I consider myself lucky. 14:25:31 Q. I can assure you I'm also 14:25:33
2 3 4 5	A. Yes. As part of the14:24:39application to the regulatory authorities, a risk14:24:41assessment would be carried out.14:24:45Q. All right. And this is14:24:47part of the Navigation Protection Act; correct?14:24:50	2 3 4	appreciate you're not a lawyer, but we'll take14:25:27some time and go through those.14:25:29A. I consider myself lucky.14:25:31Q. I can assure you I'm also14:25:33not a navigation lawyer, so we might be on the14:25:36
2 3 4 5 6 1 7	A. Yes. As part of the 14:24:39 application to the regulatory authorities, a risk 14:24:41 assessment would be carried out. 14:24:45 Q. All right. And this is 14:24:47 part of the Navigation Protection Act; correct? 14:24:50 A. The Navigation Protection 14:24:52	2 3 4 5 6	appreciate you're not a lawyer, but we'll take14:25:27some time and go through those.14:25:29A. I consider myself lucky.14:25:31Q. I can assure you I'm also14:25:33not a navigation lawyer, so we might be on the14:25:36same page here.14:25:39
2 3 4 5 6 1 7	A. Yes. As part of the14:24:39application to the regulatory authorities, a risk14:24:41assessment would be carried out.14:24:45Q. All right. And this is14:24:47part of the Navigation Protection Act; correct?14:24:50A. The Navigation Protection14:24:52Act is the encompassing legislation.14:24:54	2 3 4 5 6 7	appreciate you're not a lawyer, but we'll take14:25:27some time and go through those.14:25:29A. I consider myself lucky.14:25:31Q. I can assure you I'm also14:25:33not a navigation lawyer, so we might be on the14:25:36same page here.14:25:39A. Sorry, where am I going?14:25:40
2 3 4 5 6 1 7 8 9	A. Yes. As part of the14:24:39application to the regulatory authorities, a risk14:24:41assessment would be carried out.14:24:45Q. All right. And this is14:24:47part of the Navigation Protection Act; correct?14:24:50A. The Navigation Protection14:24:52Act is the encompassing legislation.14:24:54Q. Now, this this is a14:24:57	2 3 4 5 6 7 8	appreciate you're not a lawyer, but we'll take14:25:27some time and go through those.14:25:29A. I consider myself lucky.14:25:31Q. And this is 14:24:47 part of the Navigation Protection Act; correct? 14:24:50 A. The Navigation Protection 14:24:52 Act is the encompassing legislation. 14:24:54 Q. Now, this this is a 14:24:57 permit or authorization that would be required 14:24:58 from the federal government, not the provincial 14:25:00 government; correct? 14:25:02 A. It is a federal agency, 14:25:03 yes. 14:25:04	2 3 4 5 6 7 8 9 10 11 12 13 14	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:36$ same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ A. Of what tab? $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$
2 3 4 5 6 1 7 8 4 8 8 1 8 1 8 1 1 1 1 1 1 1 1 1 1 1 1 1	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$	2 3 4 5 6 7 8 9 10 11 12 13 14 15	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:36$ same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ A. Of what tab? $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$ Q. And for the record, this $14:25:46$
2 3 4 5 6 1 7 8 4 8 4 8 4 8 4 9 10 11 11 11 12 8 13 14 15 16 11 17 10 11 11 11 11 11 11 11 11 11	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ a. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:36$ same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$ Q. And for the record, this $14:25:46$ is R-004. $14:25:47$
2 3 4 5 6 1 7 8 9 10 11 12 8 13 14 15 16 17 18	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ a. It is a federal agency, $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:08$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:36$ same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ A. Of what tab? $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$ Q. And for the record, this $14:25:46$ is R-004. $14:25:47$ A. And, sorry, what $14:25:49$
2 3 4 5 6 1 7 8 9 10 11 12 8 13 14 15 16 17 18 18 19	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ government; correct? $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:09$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:36$ same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ A. Of what tab? $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$ Q. And for the record, this $14:25:46$ is R-004. $14:25:47$ A. And, sorry, what $14:25:49$ Q. Section 5 is on page 3. $14:25:50$
2 3 4 5 6 1 7 8 4 3 6 1 7 8 4 9 9 10 11 12 8 13 14 15 16 11 11 12 8 10 11 11 12 13 14 15 10 10 11 11 11 12 15 10 10 10 10 10 10 10 10 10 10	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ government; correct? $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:09$ Q. Now, to your knowledge, $14:25:09$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:30$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ Q. And for the record, this $14:25:43$ S. R-004. $14:25:47$ A. And, sorry, what $14:25:49$ Q. Section 5 is on page 3. $14:25:50$ A. Page 3 is a table of $14:25:56$
2 3 4 5 6 1 7 8 4 5 6 1 7 8 4 9 9 10 11 12 8 13 14 25 16 11 11 12 8 10 11 11 12 8 10 10 11 11 12 13 14 12 12 12 12 12 12 12 12 12 12	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ government; correct? $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:09$ Q. Now, to your knowledge, $14:25:09$ should Windstream proceed through that process, it $14:25:13$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ A. Tab 5? Okay. $14:25:43$ Q. And for the record, this $14:25:43$ is R-004. $14:25:47$ A. And, sorry, what $14:25:49$ Q. Section 5 is on page 3. $14:25:50$ A. Page 3 is a table of $14:25:56$ contents. $14:25:58$
2 3 4 5 6 1 7 8 4 9 9 10 11 12 8 14 15 16 11 17 18 19 20 5 5 10 12 13 14 22 5 5 10 10 10 10 10 10 10 10 10 10	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ government; correct? $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:09$ Q. Now, to your knowledge, $14:25:09$ should Windstream proceed through that process, it $14:25:13$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:30$ Same page here. $14:25:39$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:41$ 6 Section 5, sorry. $14:25:43$ Q. Which is on page 3, tab $14:25:43$ 5. $14:25:43$ Q. And for the record, this $14:25:43$ Section 5 is on page 3. $14:25:47$ A. And, sorry, what $14:25:49$ Q. Section 5 is on page 3. $14:25:50$ A. Page 3 is a table of $14:25:56$ contents. $14:25:58$ Q. There is two page 3s. $14:25:58$
2 3 4 5 6 1 7 8 9 10 11 12 8 14 15 16 11 17 18 19 20 5 21 22 5 5 19 10 10 11 11 12 13 10 10 10 10 10 10 10 10 10 10	A. Yes. As part of the $14:24:39$ application to the regulatory authorities, a risk $14:24:41$ assessment would be carried out. $14:24:45$ Q. All right. And this is $14:24:47$ part of the Navigation Protection Act; correct? $14:24:50$ A. The Navigation Protection $14:24:52$ Act is the encompassing legislation. $14:24:54$ Q. Now, this this is a $14:24:57$ permit or authorization that would be required $14:24:58$ from the federal government, not the provincial $14:25:00$ government; correct? $14:25:02$ A. It is a federal agency, $14:25:03$ yes. $14:25:04$ Q. So this permitting $14:25:04$ process is entirely separate from the Renewable $14:25:05$ Energy Approval? $14:25:09$ Q. Now, to your knowledge, $14:25:09$ should Windstream proceed through that process, it $14:25:15$ seeking approval under the Navigation Protection $14:25:18$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	appreciate you're not a lawyer, but we'll take $14:25:27$ some time and go through those. $14:25:29$ A. I consider myself lucky. $14:25:31$ Q. I can assure you I'm also $14:25:33$ not a navigation lawyer, so we might be on the $14:25:30$ A. Sorry, where am I going? $14:25:40$ Q. We are going to Section $14:25:40$ Q. We are going to Section $14:25:43$ A. Of what tab? $14:25:43$ Q. Which is on page 3, tab $14:25:43$ S. $14:25:43$ Q. And for the record, this $14:25:43$ Q. And for the record, this $14:25:47$ A. And, sorry, what $14:25:47$ A. And, sorry, what $14:25:50$ A. Page 3 is a table of $14:25:56$ contents. $14:25:58$ Q. There is two page 3s. $14:25:58$ A. Okay. Sorry. $14:26:00$

CONFIDENTIAL AND RESTRICTED
February 19, 2016

	Page 209		Page 210
1	of legislation. 14:26:06	1	notice goes out for individuals to comment on. 14:26:50
2	A. Yes. I'm on page 3. 14:26:07	2	A. Correct. 14:26:53
3	Q. All right. So if we look 14:26:08	3	Q. Okay. And now if we turn 14:26:53
4	at Section 5 there, it indicates that: 14:26:09	4	over to Section 6 on the next page, Section 6.1 14:26:56
5	"An owner who proposes to 14:26:12	5	indicates that: 14:27:03
6	construct within a 14:26:13	6	"The Minister will only 14:27:03
7	navigable water must give 14:26:15	7	issue the approval you 14:27:05
8	notice to the Minister." 14:26:17	8	can only construct the 14:27:07
9	Correct? 14:26:19	9	work 14:27:08
10	A. Yes. 14:26:20	10	Sorry. 14:27:08
11	Q. And that would be the 14:26:20	11	" once a Minister 14:27:09
12	Minister of Transport; correct? 14:26:22	12	issues that approval; 14:27:09
13	A. Yes. 14:26:23	13	correct? 14:27:10
14	Q. And if we move down to 14:26:23	14	A. Correct. Correct, sorry. 14:27:11
15	Section 5.6, it indicates there that: 14:26:25	15	Q. And Subsection 6.3 then 14:27:14
16	"Certain information must 14:26:34	16	says: 14:27:16
17	be provided to the 14:26:35	17	"The Minister can refuse 14:27:16
18	Minister." 14:26:36	18	to do that if he or she 14:27:17
19	Correct? 14:26:37	19	believes that it's not in 14:27:19
20	A. Correct. 14:26:37	20	the public interest." 14:27:20
21	Q. And then and that a 14:26:38	21	Correct? 14:27:21
22	notice, then, is posted in the Canada Gazette? 14:26:40	22	A. Correct, yes. 14:27:22
23	A. Yes. 14:26:43	23	Q. Okay. Now, Subsection 14:27:23
24	Q. And then Section 7 14:26:43	24	6.6 also indicates that: 14:27:26
25	sorry, Subsection 5.7 then indicates that that 14:26:46	25	"The Minister may, in 14:27:27
	Page 211		Page 212
1	giving that approval, if 14:27:28	1	A. There there would be 14:28:13
2	it wishes to exercise 14:27:29	2	discussions, yes. That would be the purpose of 14:28:13
3	that right, designate an 14:27:30	3	submitting an application and doing the risk 14:28:16

giving that approval, if 14:27:28	A. There there would be 14:28:13
it wishes to exercise 14:27:29	² discussions, yes. That would be the purpose of 14:28:13
that right, designate an 14:27:30	³ submitting an application and doing the risk 14:28:16
area contiguous with the 14:27:32	4 management study and presenting the evidence. 14:28:18
work that is necessary 14:27:34	5 Yes. 14:28:20
for safety of persons and 14:27:35	6 Q. Okay. And you indicated 14:28:21
navigation." 14:27:37	7 in your report that consultations would take place 14:28:22
Correct? 14:27:37	8 with interested stakeholders, for example, not 14:28:25
A. Correct. 14:27:38	⁹ just with Transport Canada, but with the St. 14:28:28
Q. So it contemplates having 14:27:39	10 Lawrence Seaway Management Corporation; correct? 14:28:32
some sort of buffer around the works, which in 14:27:40	11 A. Correct. 14:28:32
this case would be the wind farm; correct? 14:27:42	12 Q. Now, the St. Lawrence 14:28:33
A. Yes. 14:27:46	¹³ Seaway Management Corporation, that's a binational 14:28:36
Q. All right. Now, the 14:27:46	¹⁴ entity; correct? It's made up of I believe 14:28:37
Navigation Protection Act does not specify 14:27:48	15 it's agencies or state-owned enterprises from both 14:28:39
predetermined buffer zones or how those would be 14:27:51	¹⁶ Canada and the United States; correct? 14:28:43
in place; correct? 14:27:53	17 A. I'm not qualified to 14:28:44
A. That's correct. 14:27:54	18 answer what the composition of the St. Lawrence 14:28:46
Q. Okay. So when you 14:27:55	19 Seaway system is. 14:28:49
mentioned in your report, then, that turbines 14:27:57	20 Q. Okay. But you're 14:28:49
could be positioned in accordance with Canadian 14:28:01	21 you're aware of that corporation because you did 14:28:50
regulations, it's under the understanding that 14:28:03	22 refer to it in your report? 14:28:50
there's still a lot of discussions to be had with 14:28:06	23 A. Oh, definitely. 14:28:50
the regulatory authorities about how it actually 14:28:07	24 Definitely. I'm aware of the organization. I 14:28:52
will be implemented; correct? 14:28:11	²⁵ don't know of their corporate bylaws, though. 14:28:53

	1 age 215	1 age 214	
1	Q. Okay. But you it's 14:28:56	1 BY MS. SQUIRES: 14:29:45	
2	made up of both somebody from Canada and the 14:28:56	2 Q. We're not in 14:29:45	
3	United States; correct? 14:28:58	³ confidential, so you know. 14:29:46	
4	A. Again 14:29:00	4 [Laughter.] 14:29:47	
5	Q. It would seem reasonable 14:29:03	5 BY MS. SQUIRES: 14:29:47	
6	the entity that's managing a binational seaway 14:29:04	6 Q. Now, no offence to 14:29:47	
7	A. I'm not going to say 14:29:07	7 Mr. Bishop here. 14:29:51	
8	reasonable or unreasonable because I don't know. 14:29:10	8 [Laughter.] 14:29:51	
9	So if it is, it is. If it isn't, it isn't. I 14:29:11	9 MR. BISHOP: None taken. 14:29:52	
10	know there is different groups for different parts 14:29:13	10 THE WITNESS: He's from Texas. 14:29:56	
10	of the seaway. This one may or may not be. I'm 14:29:15	10 11 BY MS. SQUIRES: 14:29:57	
12	not I can't recall. 14:29:19	11 DT MS. SQURES. 14.29.57 12 Q. All right. Now, other 14:29:58	
12		12 Q. All right. Now, other 14.29.58 13 key stakeholders, then, would likely include 14:29:59	
13			
14	the extent that any of those groups, then, that 14:29:21		
	would be operating in the seaway or have any kind 14:29:23		
16	of management or control over the seaway involve 14:29:25	16 A. I would assume so, yes. 14:30:07 17 0 411114 Mark 14:20:00	
17	the United States, those consultations then 14:29:28	17 Q. All right. Now let's 14:30:08	
18	necessarily would involve discussions with them; 14:29:30	18 turn to Tab 2 in your binder. This is Exhibit 14:30:09	
19	correct? Or you would assume they would be 14:29:32	¹⁹ R-0611, for the record. And this is a document 14:30:18	
20	interested in providing their opinion? 14:29:34	20 from the World Shipping Council that was submitted 14:30:21	
21	A. I would be yes, I 14:29:36	21 to the Bureau of Ocean Energy Management for the 14:30:24	
22	would assume they would be interested in providing 14:29:37	22 United States Department of the Interior. Do you 14:30:26	
23	their opinion. I think the Americans do that, 14:29:39	23 see that? 14:30:29	
24	yes. 14:29:41	24 A. Yes. 14:30:29	
25	[Laughter.] 14:29:44	Q. And it relates to the 14:30:29	
	Page 215	Page 216	
1	Page 215	Page 216	
1	issuance of leases for offshore wind development. 14:30:30	1 essential to safe 14:31:14	
2	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32	1essential to safe14:31:142navigation because they14:31:15	
2 3	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:16	
2 3 4	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:17	
2 3 4 5	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:19	
2 3 4 5 6	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:20	
2 3 4 5 6 7	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:22	
2 3 4 5 6 7 8	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:228sort of engineering14:31:24	
2 3 4 5 6 7 8 9	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:228sort of engineering14:31:249issue."14:31:26	
2 3 4 5 6 7 8 9 10	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:228sort of engineering14:31:249issue."14:31:2610A. Yes.14:31:27	
2 3 4 5 6 7 8 9 10 11	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47	1 essential to safe 14:31:14 2 navigation because they 14:31:15 3 provide an area of open 14:31:16 4 water to which transiting 14:31:17 5 ships can divert if the 14:31:19 6 ship loses power, loses 14:31:20 7 steering, or suffers some 14:31:22 8 sort of engineering 14:31:24 9 issue." 14:31:26 10 A. Yes. 14:31:27 11 Q. Now, if we turn to page 14:31:27	
2 3 4 5 6 7 8 9 10 11 12	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47 international 14:30:48	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:228sort of engineering14:31:249issue."14:31:2610A. Yes.14:31:2711Q. Now, if we turn to page14:31:27124, they note there, again in bold and underlined14:31:30	
2 3 4 5 6 7 8 9 10 11 12 13	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47 international 14:30:48 containerized trade." 14:30:48	1essential to safe14:31:142navigation because they14:31:153provide an area of open14:31:164water to which transiting14:31:175ships can divert if the14:31:196ship loses power, loses14:31:207steering, or suffers some14:31:228sort of engineering14:31:249issue."14:31:2610A. Yes.14:31:2711Q. Now, if we turn to page14:31:27124, they note there, again in bold and underlined14:31:3013text that:14:31:39	
2 3 4 5 6 7 8 9 10 11 12 13 14	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. Do 14:31:01 you see that? 14:31:04 A. Mm-hmm, yes. 14:31:04	1 essential to safe $14:31:14$ 2 navigation because they $14:31:15$ 3 provide an area of open $14:31:15$ 4 water to which transiting $14:31:16$ 4 water to which transiting $14:31:16$ 4 water to which transiting $14:31:17$ 5 ships can divert if the $14:31:17$ 6 ship loses power, loses $14:31:20$ 7 steering, or suffers some $14:31:22$ 8 sort of engineering $14:31:24$ 9 issue." $14:31:26$ 10 A. Yes. $14:31:27$ 11 Q. Now, if we turn to page $14:31:30$ 13 text that: $14:31:39$ 14 "The majority of vessel $14:31:40$ 15 masters stated that a $14:31:42$ 16 2-nautical-mile limit or $14:31:43$ 18 the minimum buffer zone $14:31:43$ 19 between commercial $14:31:45$ 20 vessels and wind farms, $14:31:47$ 21 in their opinion.	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47 international 14:30:48 containerized trade." 14:30:48 Do you see that? 14:30:50 A. Yes. 14:30:50 Q. And if we look to the 14:30:51 bottom of page 2, in the bolded and underlined 14:30:55 between the proposed wind farm lease areas and the 14:30:59 existing Maritime traffic separation lanes. Do 14:31:01 you see that? 14:31:04 Q. And if we move to page 3, 14:31:05	1 essential to safe $14:31:14$ 2 navigation because they $14:31:15$ 3 provide an area of open $14:31:15$ 4 water to which transiting $14:31:16$ 4 water to which transiting $14:31:17$ 5 ships can divert if the $14:31:17$ 5 ship loses power, loses $14:31:20$ 7 steering, or suffers some $14:31:22$ 8 sort of engineering $14:31:24$ 9 issue." $14:31:26$ 10 A. Yes. $14:31:27$ 11 Q. Now, if we turn to page $14:31:30$ 13 text that: $14:31:39$ 14 "The majority of vessel $14:31:40$ 15 masters stated that a $14:31:42$ 16 2-nautical-mile limit or $14:31:43$ 18 the minimum buffer zone $14:31:43$ 19 between commercial $14:31:45$ 20 vessels and wind farms, $14:31:46$ 21 in their opinion." $14:31:48$ 23 A. Can I answer a quest	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47 international 14:30:48 containerized trade." 14:30:48 Do you see that? 14:30:50 A. Yes. 14:30:50 Q. And if we look to the 14:30:51 bottom of page 2, in the bolded and underlined 14:30:55 between the proposed wind farm lease areas and the 14:30:59 existing Maritime traffic separation lanes. Do 14:31:01 you see that? 14:31:04 Q. And if we move to page 3, 14:31:05 they note there in the second full paragraph that: 14:31:09	1essential to safe $14:31:14$ 2navigation because they $14:31:15$ 3provide an area of open $14:31:15$ 4water to which transiting $14:31:16$ 4water to which transiting $14:31:17$ 5ships can divert if the $14:31:17$ 6ship loses power, loses $14:31:20$ 7steering, or suffers some $14:31:20$ 8sort of engineering $14:31:24$ 9issue." $14:31:26$ 10A. Yes. $14:31:27$ 11Q. Now, if we turn to page $14:31:30$ 13text that: $14:31:39$ 14"The majority of vessel $14:31:40$ 15masters stated that a $14:31:42$ 172 nautical miles would be $14:31:43$ 18the minimum buffer zone $14:31:45$ 20vessels and wind farms, $14:31:46$ 21in their opinion." $14:31:48$ 23A. Can I answer a question $14:31:49$	
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	issuance of leases for offshore wind development. 14:30:30 Do you see that? 14:30:32 A. Yes. 14:30:33 Q. And if we turn over to 14:30:33 page 2, it indicates there in the first paragraph 14:30:35 that the: 14:30:41 "World Shipping Council 14:30:42 represents over 29 14:30:43 shipping companies that 14:30:44 carry over 95 percent of 14:30:45 the United States' 14:30:47 international 14:30:48 containerized trade." 14:30:48 Do you see that? 14:30:50 A. Yes. 14:30:50 Q. And if we look to the 14:30:51 bottom of page 2, in the bolded and underlined 14:30:55 between the proposed wind farm lease areas and the 14:30:59 existing Maritime traffic separation lanes. Do 14:31:01 you see that? 14:31:04 Q. And if we move to page 3, 14:31:05	1 essential to safe $14:31:14$ 2 navigation because they $14:31:15$ 3 provide an area of open $14:31:15$ 4 water to which transiting $14:31:16$ 4 water to which transiting $14:31:17$ 5 ships can divert if the $14:31:17$ 5 ship loses power, loses $14:31:20$ 7 steering, or suffers some $14:31:22$ 8 sort of engineering $14:31:24$ 9 issue." $14:31:26$ 10 A. Yes. $14:31:27$ 11 Q. Now, if we turn to page $14:31:30$ 13 text that: $14:31:39$ 14 "The majority of vessel $14:31:40$ 15 masters stated that a $14:31:42$ 16 2-nautical-mile limit or $14:31:43$ 18 the minimum buffer zone $14:31:43$ 19 between commercial $14:31:45$ 20 vessels and wind farms, $14:31:46$ 21 in their opinion." $14:31:48$ 23 A. Can I answer a quest	

Page 213

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 217		Page 218
1	Q. I'm going to get to a 14:31:52	1	So the examples that you have 14:33:02
2	question right now. 14:31:54	2	provided now, including this one here, are open 14:33:04
3	A. Well, I think I'm going 14:31:54	3	ocean. They're going back to that document. You 14:33:07
4	to point out that the Shipping Council are the 14:31:55	4	talked about the case in Denmark where they, I 14:33:10
5	shipping people. So they're going to give you the 14:32:00	5	noted there, they had 25,000 to 40,000 whatever 14:33:12
6	maximum. They're all relating back to this U.K. 14:32:02	6	the number was, a lot of vessel traffic. Seaway 14:33:15
7	document, which you originally started with there, 14:32:06	7	has, what, 1,700 a year? So the classification of 14:33:18
8	and I thought I was going to get a chance to 14:32:08	8	the system is different. It's a unique system. 14:33:22
9	provide an opinion, but I'm going to jump in here. 14:32:11	9	So to continue down this path 14:33:25
10	So everybody who builds on that is looking at a 14:32:15	10	that you are leading me, and I don't know where 14:33:29
11	U.K. document that was prepared for the United 14:32:17	11	it's ending, but certainly I wanted to get that 14:33:32
12	Kingdom context in the open ocean for vessels, as 14:32:21	12	point that the Great Lakes St. Lawrence Seaway 14:33:34
13	I mentioned in my presentation, that aren't 14:32:24	13	system is different. So it would require a 14:33:37
14	that are much larger than the vessels that can 14:32:27	14	different viewpoint than the U.K. guidelines, 14:33:39
15	reach that can get onto the seaway. 14:32:30	15	which you are building on here. 14:33:42
16	The seaway allows seaway max 14:32:32	16	Q. Okay. I agree with you. 14:33:43
17	vessels physically limited. They're only 23.8 14:32:34	17	It's fair to say that it's not the open ocean, 14:33:45
18	metres wide, 235 metres long, whereas the biggest 14:32:37	18	absolutely, and that the vessels are smaller. We 14:33:47
19	ships plying the waters are more two and a half 14:32:41	19	agree there. 14:33:49
20	times wider, one and a half times longer. 14:32:45	20	A. Okay. Good. 14:33:50
21	So the buffers that this U.K. 14:32:47	21	Q. But to the extent, then, 14:33:51
22	guideline talk talk about in the open ocean, in 14:32:50	22	that a buffer would be required, whether it's a 14:33:53
23	the North Sea, for much bigger vessels are not 14:32:53	23	large one or a small one, that's still a relevant 14:33:56
24	directly relevant to the unique condition of the 14:32:57	24	question regardless of where the boats are 14:33:58
25	Great Lakes St. Lawrence Seaway system. 14:33:00	25	operating; correct? 14:34:00
	Page 219		Page 220
1	A. Yes. And we we have 14:34:01	1	vessel that's allowable in in the Great Lakes 14:34:48
2	as you pointed out, we have a buffer of 800 to 14:34:03	2	is 27 feet or 8.3 metres or something like that. 14:34:50
3	1,000 metres in addition to the ship lane. 14:34:07	3	So it's not going to go where it's 6 metres buffer 14:34:54
4	Q. All right. And you refer 14:34:09	4	or no buffer. It will run aground before it hits 14:34:58
5	back to the U.K. report that I pointed to, or it 14:34:10	5	a turbine. 14:35:00
6	might have been in one of the other reports that 14:34:12	6	Q. But to the extent that 14:35:01
7	you indicated you didn't get a chance to respond 14:34:14	7	those examples in the U.K. are actually referring 14:35:02
8	to, so I will give you a chance now to respond if 14:34:15	8	to much smaller boats, then they would be relevant 14:35:04
9	you wish to elaborate further on my question. 14:34:18	9	to what you said, the St. Lawrence Seaway? 14:35:06
10	But if we take just the 14:34:20	10	A. No, I don't think I can 14:35:09
11	Middlegrunden wind farm in particular, that wind 14:34:21	11	agree with that. I think the U.K. guidelines are 14:35:10
12	farm is in fairly shallow water; correct? 14:34:24	12	based on vessel traffic where you'll actually 14:35:12
13	A. I don't recall all of the 14:34:27	13	going to have vessels, not it's not a guideline 14:35:16
14	details of that one. 14:34:28	14	for canoes and kayaks up the river. It's for 14:35:17
15	Q. Okay. To the extent that 14:34:28	15	ocean-going vessels. So it's intended to 14:35:21
16	a wind farm is in shallow water, you would expect 14:34:29	16	provide as you would note in that document, 14:35:24
17	those boats to be much smaller; correct? 14:34:32	17	it's a prescriptive it says right there it's 14:35:28
18	A. No, not necessarily. It 14:34:34	18	not a prescriptive tool. It's a template. 14:35:32
19 20	depends on the depth of the navigation channel. 14:34:35	19	And it says right in that 14:35:36
20	Q. Okay. So if well, if 14:34:37	20	document that it's supposed to be applied with 14:35:37

- 20 document that it's supposed to be applied with 14:35:37 21 intelligent flexibility. In my interpretation, in 14:35:40 22 14:34:40 my expertise, in my opinion, that intelligent 14:35:45 23 flexibility is what we're talking about when we 14:35:48 14:35:50
- 24 look at the Great Lakes St. Lawrence Seaway 25 14:34:45 system. 14:35:52

21

22

23

24

25

-- if it's in, say, between -- around six -- 4 to 14:34:37

14:34:42

14:34:43

6 metres of water, you would expect those to be

A. Well, those vessels

wouldn't even go there. The draft on a seaway

smaller vessels; correct?

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 221		Page 22
1	So to isolate the two and say 14:35:52	1	then you would have the buffer. The buffer is 14:36:55
2	one is applicable directly and have the World 14:35:55	2	there for them to go like that if they want. But, 14:36:57
3	Shipping Council say that that's what they agree 14:35:58	3	again, these are piloted vessels. These are 14:36:59
4	with, they have a vested interest, in my opinion, 14:35:59	4	qualified, experienced experts on the local area. 14:37:02
5	to agree with that. It's not even for the Great 14:36:02	5	They would do what was appropriate and what is 14:37:04
6	Lakes St. Lawrence Seaway system. 14:36:05	6	reasonable. 14:37:07
7	So there is no doubt. I think 14:36:06	7	Q. One final question before 14:37:08
8	we all agree you have to have a ship lane and a 14:36:08	8	I consult with my colleagues, and it's on that 14:37:09
9	buffer, and that has been provided. And I cannot 14:36:10	9	issue of piloted vessels. You would agree with me 14:37:11
0	guarantee that the Canadian Coast Guard would say 14:36:14	10	that, to the extent a vessel was piloted, that 14:37:14
1	that that's enough, but in our opinion, it's more 14:36:16	11	will help with manmade areas? These individuals 14:37:16
2	likely than not that that would be that's a 14:36:18	12	are trained in the area; they know the waterways. 14:37:18
3	workable solution. 14:36:21	13	But if a vessel is piloted and it runs out of 14:37:20
4	Q. And, again, to confirm 14:36:22	14	power, having a pilot will give you no help; 14:37:23
5	your opinion, it involves constraining that 14:36:23	15	correct? If there's a mechanical failure, the 14:37:25
16	existing navigational channel? 14:36:24	16	pilot will not help you? 14:37:28
7	A. Yes. It would demarcate 14:36:28	17	A. No. You would ask the 14:37:30
8	a position for the ships to go in a route that 14:36:31	18	mechanic to fix that. But, no, the pilot is there 14:37:31
9	they just finished coming out of the seaway at 150 14:36:34	19	to guide you through imagine you're a captain 14:37:34
20	metres wide for two vessels in 150 to 450 metres 14:36:37	20	on a vessel coming from Cape Town, South Africa. 14:37:38
21	for one vessel. So, in a way, they're not really 14:36:41	21	How much do you know about the Great Lakes St. 14:37:41
22	being constrained from what they just came from. 14:36:44	22	Lawrence Seaway system? You have to take on a 14:37:44
23	They're actually getting more space. But it is 14:36:46	23	pilot. 14:37:45
24	certainly now they can go like this. They 14:36:48	24	Now, the ship lane at 250 to 14:37:45
25	would just go normally down the ship lane, and 14:36:53	25	450 metres is the Canadian fits the Canadian 14:37:52
	Page 223		Page 22
_	-		-
1	standards for an adequate ship lane, and they have 14:37:56	1	is let me find the exhibit reference for the 14:39:39
	contemplated issues of loss of power possibly. In 14:37:59	2	record is C-1414, which is the Revised 14:39:43
23	addition to that, there's the buffer. So there is 14:38:03	3	Navigational Risk Assessment for the Cape wind 14:39:48
3 4	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05	3 4	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50
3 4 5	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08	3 4 5	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51
3 4 5 6	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12	3 4 5 6	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52
3 4 5 6 7	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15	3 4 5 6 7	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54
3 4 5 6 7 8	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19	3 4 5 6 7 8	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56
3 4 5 6 7 8 9	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21	3 4 5 6 7 8 9	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis.So I wanted to provide14:40:00
3 4 5 6 7 8 9 0	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23	3 4 5 6 7 8 9 10	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03
3 4 5 6 7 8 9 0 1	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50	3 4 5 6 7 8 9 10 11	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06
3 4 5 6 7 8 9 0 1 2	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52	3 4 5 6 7 8 9 10 11 12	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:06
3 4 5 6 7 8 9 0 1 2	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:55	3 4 5 6 7 8 9 10 11 12 13	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:06I did. I think I wanted to point out that the14:40:07
3 4 5 6 7 8 9 0 1 2 3	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:55 A. Thank you. 14:38:57	3 4 5 6 7 8 9 10 11 12 13 14	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:07reliance of many of these offshore wind projects14:40:10
3 4 5 6 7 8 9 0 1 2 3 4	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:55	3 4 5 6 7 8 9 10 11 12 13 14 15	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15
3 4 5 6 7 8 9 0 1 2 3 4 5	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:57 PRESIDENT: Thank you very 14:38:57 much, Ms. Squires. 14:38:58	3 4 5 6 7 8 9 10 11 12 13 14 15 16	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's – it's a14:40:18
3 4 5 6 7 8 9 0 1 2 3 4 5 6	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:57 PRESIDENT: Thank you very 14:38:57 much, Ms. Squires. 14:38:58 Any questions in redirect? 14:38:59	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's it's a14:40:18reasoned thing to do.14:40:23
3 4 5 6 7 8 9 0 1 2 3 4 5 6 7	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:57 PRESIDENT: Thank you very 14:38:57 much, Ms. Squires. 14:38:58	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's it's a14:40:18reasoned thing to do.14:40:23But we're not in the open14:40:24
3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:57 PRESIDENT: Thank you very 14:38:57 much, Ms. Squires. 14:38:58 Any questions in redirect? 14:38:59	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's it's a14:40:18reasoned thing to do.14:40:23But we're not in the open14:40:24ocean, and we're not there. So to look to that14:40:26
3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 9	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. That's that's an 14:38:08 event that happens. There's no doubt. And it's a 14:38:12 risk. But it's no greater risk than exists today. 14:38:15 Q. Okay. If you can just 14:38:19 give me one second, I'm just going to consult with 14:38:21 my colleagues. 14:38:23 That's it for me, Mr. Kolberg. 14:38:50 I will turn you over to your counsel and the 14:38:52 Tribunal's capable hands. 14:38:57 PRESIDENT: Thank you very 14:38:57 much, Ms. Squires. 14:38:59 MS. SEERS: Yes. 14:39:01	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think – I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's – it's a14:40:18reasoned thing to do.14:40:23But we're not in the open14:40:24ocean, and we're not there. So to look to that14:40:26and somehow imply that what they did there would14:40:26
3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0	addition to that, there's the buffer. So there is 14:38:03 a space. But, no, the pilot's not going to fix a 14:38:05 vessel that has lost power. SEERS: 14:39:08 Mr. Kolberg. 14:39:27	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Navigational Risk Assessment for the Cape wind14:39:48project, Nantucket Sound.14:39:50A. Yes.14:39:51Q. I don't believe, however,14:39:52you were provided with an opportunity to explain14:39:54the context of this document or the significance,14:39:56if any, to your analysis. So I wanted to provide14:40:00you with the opportunity to do so, if you would14:40:03like to.14:40:06A. Well, I think I think14:40:07reliance of many of these offshore wind projects14:40:10that are in the open ocean are looking to that14:40:15U.K. document as a template, and it's it's a14:40:18reasoned thing to do.14:40:24ocean, and we're not there. So to look to that14:40:26and somehow imply that what they did there would14:40:32St. Lawrence Seaway, I thought and, again, I14:40:36

	Page 225
1	role here was to provide a context for the Great 14:40:45
2	Lakes, Lake Ontario context. 14:40:47
3	Q. Right. Okay. 14:40:49
4	And you'll recall that 14:40:50
5	Ms. Squires asked you, I believe, a number of 14:40:51
6	questions that dealt with issues surrounding 14:40:54
7	consultations with various stakeholders and 14:40:58
8	regulatory approvals. 14:41:00
9	A. Yes, yes. 14:41:02
10	Q. In your experience, are 14:41:02
11	those the kinds of issues that would typically be 14:41:06
12	dealt with pragmatically with stakeholders and 14:41:08
13	regulators? 14:41:12
14	A. Well, in my opinion, 14:41:13
15	people who work for the regulators and agencies, 14:41:15
16	they're reasonable people. They have a job to do. 14:41:20
17	But when presented with fact-based arguments and 14:41:23
18	evidence that shows things are reasonable and can 14:41:29
19	be mitigated and can be dealt with, they deal with 14:41:31
20	them in a reasonable way. 14:41:34
21	And I have no reason to 14:41:37
22	believe that they would act they wouldn't act 14:41:39
23	in a reasonable and pragmatic manner. 14:41:42
24	MS. SEERS: Thank you. Those 14:41:45
25	are our questions. 14:41:45

1 PRESIDENT: Thank you, 14:41:48 2 Ms. Seers. No questions from the Tribunal. 14:41:49 3 THE WITNESS: Thank you. 14:41:55 4 PRESIDENT: Mr. Kolberg, so 14:41:56 5 that's the end of your examination. Thank you 14:41:57 6 14:41:59 very much. 7 THE WITNESS: Thank you. 14:42:00 8 PRESIDENT: So I suppose we 14:42:14 9 don't need a break. We can go straight with --14:42:15 10 continue straight with Mr. Rose. 14:42:17 11 Good afternoon, Mr. Rose. 14:43:53 12 THE WITNESS: Good afternoon. 14:43:55 13 PRESIDENT: Can I ask you to 14:43:55 14 state your full name for the record and then read 14:43:57 15 the expert's declaration that you have in front of 14:44:00 16 you? 14:44:05 17 THE WITNESS: Certainly. My 14:44:05 18 name is Marc Daniel Rose. I solemnly declare upon 14:44:06 19 my honour and conscience that my evidence and my 14:44:09 20 14:44:12 opinions will be in accordance with my sincere 21 belief. 14:44:14 22 AFFIRMED: MARC DANIEL ROSE 14:44:17 23 14:44:17 PRESIDENT: Thank you very 24 much. Your company, URS, has submitted two expert 14:44:18 25 reports. What was not clear to us whether you are 14:44:21

Page 227

1

2

3

4

5

6

7

8

9

1 here to defend both reports, because we understand 14:44:24 2 you were not involved in the preparation of the 14:44:27 3 first report, or only the second one. Can you 14:44:30 4 clarify that first? 14:44:32 5 THE WITNESS: So you are 14.44.33 6 correct; I was not involved in the preparation of 14:44:34 7 the first report. However, I have read it and 14:44:37 8 agree with the findings of that report, and I was 14:44:39 9 involved in the preparation of the second report. 14:44:43 10 10 PRESIDENT: And you are here 14:44:45 11 11 to defend both reports? 14.44.46 12 THE WITNESS: Yes. 14:44:48 12 13 PRESIDENT: Okay. Very good. 14:44:48 13 14 14 So we understand you have prepared a presentation. 14:44:51 15 Will there also be questions by counsel in 14.44.57 15 addition to the presentation? 16 14:45:00 16 17 14:45:02 17 MS. WATES: We don't 18 anticipate so, but we can see his presentation. 14:45:03 18 19 19 PRESIDENT: You reserve the 14:45:06 20 right to do so? 14:45:07 20 21 MS. WATES: Yes, exactly. 14:45:08 21 22 22 Thanks. 14:45:09 23 PRESIDENT: Very good. So, 14:45:09 23 24 24 Mr. Rose, please go ahead. 14:45:10 25 25 PRESENTATION BY MARC DANIEL ROSE, URS 14:45:13

THE WITNESS: So I'm -- I'm 14:45:13 giving a presentation or the start of a 14:45:14 presentation on behalf of myself and my two 14:45:16 colleagues, who are at the table at the back, 14:45:19 Gareth Clarke and Franz Barillaro. 14:45:21 So just to start, a little bit 14:45:23 about myself, I am a Registered Professional 14:45:29 Planner in Ontario with AECOM. And just to 14:45:32 clarify why AECOM is there and not URS, AECOM 14:45:35 purchased URS or acquired URS in late 2014, which 14:45:41 is part of the reason I wasn't involved in the 14:45:46 preparation of the first report. 14:45:48 So I worked for legacy AECOM. 14:45:50 We are now all considered AECOM, but for the 14:45:54 purposes of the report, we kept it simple and 14:45:57 called ourselves URS. 14:46:01 I have approximately 16 years 14:46:03 conducting environmental assessments in Ontario. 14:46:05 Ten of those are related to the power sector, 14:46:09 specifically wind, and some other types of power. 14:46:12 I'm also AECOM's power sector market lead in 14:46:18 Ontario, which is a business development role. So 14:46:21 my job right now is to secure business with 14:46:25 various power producers to do work like Renewable 14:46:28 Energy Approvals. 14:46:33

Page 228

	Page 229
1	Obviously I'm not wearing that 14:46:33
2	hat today. I'm wearing the hat of my experience 14:46:35
3	as a project manager, as a consultant project 14:46:38
4	manager for our clients, including Renewable 14:46:42
5	Energy Approval developers. 14:46:49
6	And in that role, I have 14:46:50
7	worked on 400 megawatts well, worked on 800 14:46:51
8	megawatts of onshore wind projects, successfully 14:46:56
9	permitted 400 megawatts of wind power projects 14:47:00
10	under the REA. Those were all FIT contracts. And 14:47:03
11	in that role, I was acting as consultant project 14:47:06
12	manager, and these included projects for NextEra, 14:47:09
13	which is one of the largest, if not the largest, 14:47:12
14	renewable energy developers in North America. 14:47:16
15	They have 10,000 megawatts of installed capacity. 14:47:19
16	So I worked on three of their projects starting in 14:47:22
17	2010, so the same time period we're talking about: 14:47:25
18	Bluewater, which is 60-megawatt project; Goshen, a 14:47:29
19	90-megawatt project; and Jericho, which is 150 14:47:32
20	megawatts, so what Sarah Powell would call 14:47:35
21	large-scale wind. 14:47:39
22	And more recently I worked 14:47:39
23	with Samsung and Pattern they were referred to 14:47:42
24	previously as part of that Korean Consortium on 14:47:45
25	a 100 megawatts onshore wind project that recently 14:47:49

Page 231

	-
1	I should also mention that I 14:48:52
2	was involved in Toronto Hydro's offshore 14:48:55
3	anemometer project, and we kind of talked around 14:48:59
4	this issue earlier today with the project on the 14:49:00
5	Scarborough Bluffs. So, in fact, it wasn't 14:49:03
6	actually a wind farm that was being proposed. The 14:49:04
7	project was to get approval to install the wind 14:49:07
8	the meteorological tower to measure the wind 14:49:12
9	speed. So I was involved in that project. 14:49:16
10	And then I also have 14:49:18
11	experience obtaining approvals and permits for 14:49:20
12	lake fill projects in the lake, primarily around 14:49:23
13	downtown Toronto. 14:49:26
14	So just as an overview of my 14:49:28
15	presentation, I'm going to start by talking about 14:49:31
16	our approach to reviewing the submission from 14:49:33
17	Windstream. We're then going to get into project 14:49:37
18	risks, and we have broken out the presentation at 14:49:41
19	this point. I'm going to be talking specifically 14:49:44
20	about development risks related to environmental 14:49:46
21	and permitting issues, and then I'm going to give 14:49:49
22	my testimony. 14:49:51
23	And Gareth Clarke and Franz, 14:49:52
24	who are presenting later I think they're Sunday 14:49:54
25	and Monday will then be presenting the rest of 14:49:57

	Page 230
1	received its REA approval. 14:47:52
2	I'm also acting as a project 14:47:55
3	director, so it's more of a strategic advisory 14:47:57
4	role, for an additional 400 megawatts of onshore 14:48:00
5	wind projects, and these that are projects 14:48:03
6	currently ongoing. One is another 100-megawatt 14:48:05
7	wind project for Samsung and Pattern, and the 14:48:08
8	second is a project we have heard about a couple 14:48:11
9	of times, the Henvey Inlet wind project, which is 14:48:14
10	a 300-megawatt onshore project. I imagine there's 14:48:17
11	some confusion at this point how so many 14:48:20
12	consultants are working on the same project. 14:48:22
13	[Laughter.] 14:48:25
14	THE WITNESS: So just by way 14:48:26
15	of explanation, this project has been going on 14:48:27
16	since about 2010, let's say. There's been three 14:48:29
17	developers. My understanding is Genivar had 14:48:35
18	worked with the original developer, which is 14:48:38
19	PRESIDENT: The next second 14:48:40
20	generation of experts. 14:48:41
21	THE WITNESS: Yes. Exactly. 14:48:42
22	Yes. And so AECOM is currently working with 14:48:43
23	Pattern Development, which is developing the 14:48:47
24	project right now and working through the 14:48:50
25	approvals process. 14:48:51

Page 232

1	the presentation, Gareth focusing on development 14:49:59
2	risks related to project design, construction 14:50:03
3	risk, and the project schedule. And Franz will be 14:50:06
4	talking about commercial and financial issues as 14:50:08
5	well as project costs. 14:50:12
6	So in terms of the URS 14:50:13
7	approach, we looked at three key issues: First 14:50:17
8	one being overall project risk, and what we were 14:50:22
9	really looking at is what were the development and 14:50:25
10	construction risks, including environmental and 14:50:27
11	permitting related, that Windstream faced in 14:50:30
12	developing the project as it was proposed at that 14:50:32
13	time? 14:50:35
14	And considering that, we also 14:50:36
15	thought about what is the impact on the schedule. 14:50:39
16	Would the project have had a reasonable chance of 14:50:43
17	reaching that MCOD date in accordance with the FIT 14:50:45
18	contract? 14:50:49
19	And the third are the costs 14:50:49
20	assumptions made in the Deloitte report 14:50:52
21	appropriate for a project of this type? And as I 14:50:54
22	mentioned, my test or my yeah my testimony is 14:50:57
23	really focusing on project risk and a little bit 14:51:02
24	how that influences project schedule. 14:51:05
25	So in getting into in the 14:51:08

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 233		Page 234
1	environmental and permitting issues, the first 14:51:20	1	note and I think we all know this by now the 14:52:30
2	point I would like to make and I don't think 14:51:22	2	provincial regulators had not finalized the 14:52:32
3	this is anybody's challenging this is that, at 14:51:24	3	guidance material for offshore wind. 14:52:35
4	the date that the project at the date we were 14:51:29	4	And Sarah Powell also talked a 14:52:37
5	assuming the project has restarted, there hadn't 14:51:33	5	lot about how this was intended to be a 14:52:40
6	been any actual fieldwork done to date. 14:51:36	6	streamlined process. The REA is supposed to move 14:52:42
7	And what that means is there's 14:51:38	7	things along quickly, and the way it typically 14:52:44
8	really no in-depth understanding of what the 14:51:41	8	does that is by providing a very prescriptive set 14:52:46
9	issues and risks are. 14:51:44	9	of requirements for the developers to follow so 14:52:50
10	So as you start to do 14:51:45	10	they know exactly what is expected of them. 14:52:55
11	fieldwork, you start to understand what the nature 14:51:47	11	In this case, that wasn't 14:52:57
12	of the site is like, what some of those issues 14:51:49	12	fully developed. There was a little bit of that 14:53:00
13	might be, and really get a better handle on what 14:51:52	13	information there in terms of the regulation about 14:53:02
14	impact that might have on schedule. 14:51:57	14	what was required. There wasn't a fully fleshed 14:53:05
15	We have also talked a fair 14:51:59	15	out set of guidance material. And, in fact, this 14:53:07
16	amount about this notion of first of a kind. I 14:52:02	16	is a similar situation that we found ourselves in 14:53:10
17	know Sarah Powell has acknowledged that this is a 14:52:05	17	developing onshore wind where the guidance 14:53:12
18	first of a kind for REA. That's certainly 14:52:07	18	material was coming, and it obviously came faster 14:53:16
19	sorry, for offshore wind under the REA, and that's 14:52:11	19	than it did for offshore, or it never came for 14:53:19
20	certainly our opinion. There is no offshore wind 14:52:14	20	offshore. And during that interim period, it was 14:53:21
21	project in Ontario and I'm sure you guys know 14:52:16	21	a little bit of a struggle to figure out exactly 14:53:24
22	that at this point that has gone through an REA 14:52:20	22	what was required. 14:53:27
23	process, or, for that matter, a federal 14:52:22	23	And so the overall conclusion 14:53:28
24	environmental assessment. 14:52:26	24	here related to this first of a kind nature of the 14:53:30
25	And it's also important to 14:52:27	25	project is that the overall approvals and 14:53:33

Page 235

1 permitting schedule would be drawn out. And I 14:53:35 2 take from that my own experience in dealing with 14:53:38 3 these three NextEra projects, and I mentioned the 14:53:41 4 size of them, so all fairly large, but still 14:53:44 5 smaller than what was proposed here. 14:53:46 6 Our original schedule that we 14:53:48 7 got in the RFP, we got that in around March 2010, 14:53:50 8 and it had asked for construction by mid-2011. 14:53:57 9 So that was obviously a very 14:54:01 10 aggressive schedule. It was early days in the 14:54:04 11 REA. I don't think anybody really appreciated how 14:54:07 12 complicated it would be, and Sarah Powell has 14:54:11 13 acknowledged that there was a steep learning curve 14:54:14 14 with the REA. And, in fact, in those three 14:54:16 15 examples, the shortest time we were able to get an 14:54:19 16 REA was three years, and I think the longest was 14:54:22 17 over four years, and those were all onshore, with 14:54:26 18 fairly good guidance material by around 2011/2012. 14:54:30 19 So talking about the permits 14:54:35 20 that would be required -- and I don't think 14:54:39 21 there's much of a debate about this -- there would 14:54:40 22 be permits required at both the provincial and the 14:54:44 23 federal level. The Renewable Energy Approval, 14:54:48 24 obviously being the big one at the provincial 14:54:50 25 level. There's also the Public Lands Act, which 14:54:55

Page 236 is related to the Crown land authorization that we 14:54:57

1	is related to the Crown land authorization that we 14:54:57
2	talked about. Oil and gas Oil, Gas, and Salt 14:54:59
3	Resources Act and possible permits under 14:55:03
4	endangered species. And on top of that we have 14:55:05
5	just heard about federal permits related to 14:55:07
6	navigable waters. There was approval required 14:55:11
7	under the Canadian Environmental Assessment Act 14:55:14
8	and, likely, permits or authorizations, certainly 14:55:17
9	for Fisheries Act and potentially for the Species 14:55:20
10	at Risk Act. 14:55:23
11	And the one thing I'd like to 14:55:24
12	point out is, if you look at the approval and 14:55:25
13	permitting requirements document that MNR put out, 14:55:29
14	it does actually link the two in the sense that it 14:55:33
15	says, for offshore specifically, you need to get 14:55:37
16	your federal permits related to navigable waters, 14:55:40
17	related to fisheries, related to species at risk 14:55:43
18	before we're going to give you a Renewable Energy 14:55:46
19	Approval. So it did tie them in that way. 14:55:49
20	So a few major issues that we 14:55:52
21	feel the Claimant failed to consider, first one 14:55:59
22	being the timing of the field studies. So when we 14:56:02
23	look at the original submission back from 2010, 14:56:05
24	the fieldwork schedule was approximately 12 14:56:10
25	months. That's now been shortened to nine months. 14:56:13

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 237		Page 238
1	Our feeling is that, given the unknowns of this 14:56:17	1	four years out just to get the Renewable Energy 14:57:26
2	process, given the fact it was the first time 14:56:20	2	Approval. So and part of that was due to 14:57:29
3	anybody had done a project like this, and 14:56:22	3	needing to go back and work with the regulators on 14:57:33
4	certainly based on our experience dealing with the 14:56:25	4	what their requirements were for fieldwork as well 14:57:35
5	regulators for onshore wind, they were being very 14:56:27	5	as data analysis, et cetera. 14:57:39
6	conservative in their requirements, and they were 14:56:30	6	I also note that no time was 14:57:40
7	asking for a fair amount of data, and it was 14:56:34	7	allowed for additional fieldwork following 14:57:43
8	certainly important, especially in this case, 14:56:37	8	confirmation of the final layout. The reality for 14:57:46
9	where the guidance wasn't clear, to be talking 14:56:39	9	these projects, certainly for onshore, and I 14:57:49
10	with them early on and making sure there was 14:56:42	10	suspect it's the same for offshore, is that things 14:57:52
11	buy-in to what that methodology was. So there's a 14:56:45	11	change. They are iterative processes. The 14:57:54
12	big question there as to whether they would have 14:56:48	12	layouts change. We just heard testimony from Mr. 14:57:58
13	accepted what was put forward. 14:56:50	13	Kolberg about how a navigable waters issue that 14:58:01
14	And what I would like to 14:56:53	14	came up was identified in 2014 changed the entire 14:58:06
15	mention is Mr. Roberts referred to the fact that 14:56:55	15	layout. 14:58:10
16	this was I think he called it a planning 14:57:00	16	So every time the layout 14:58:10
17	schedule, and a planning schedule to me means 14:57:02	17	changes, you have to re-examine whether you need 14:58:12
18	something you would put together at the beginning 14:57:04	18	to do additional fieldwork. You're redoing your 14:58:15
19	of the project to kind of sketch out how you're 14:57:06	19	noise reports. There may be all kinds of 14:58:19
20	going to try and hit the date you need to hit. 14:57:09	20	implications from that, and that was one of the 14:58:20
21	My experience, as I mentioned, 14:57:11	21	other reasons we experienced such a delay on these 14:58:22
22	with these NextEra projects, the date we were 14:57:15	22	other projects. It's very, everything is kind of 14:58:26
23	supposed to hit was a construction date of a year 14:57:19	23	tied together. So one thing changes, and you may 14:58:28
24	and a half after or less after permitting 14:57:21	24	end up having to do a bunch of other steps as a 14:58:31
25	started, and, in the end, we ended up three to 14:57:24	25	result. 14:58:35

Page 239

1	I'm not going to talk in 14:58:35	1	
2	detail about Navigable Waters Protection Act. My 14:58:37	2	fact
3	colleague Gareth is going to talk about that. We 14:58:40	3	disc
4	just note that it is required, and placement of 14:58:43	4	leve
5	turbines may be affected by the nearby shipping 14:58:47	5	kino
6	lane. It would have been a negotiation, again, 14:58:50	6	ana
7	like all these discussions with agencies, about 14:58:52	7	rela
8	what would have been approved. 14:58:55	8	ther
9	I do want to point out that, 14:58:57	9	rela
10	in terms of permitting the onshore foundation 14:59:02	10	coa
11	manufacturing facility, Sarah Powell and both 14:59:05	11	incl
12	Mr. Roberts acknowledged that this is separate 14:59:10	12	and
13	from the REA. That was URS' position in the first 14:59:12	13	inte
14	report, and so we still believe that is the case. 14:59:17	14	and
15	So our feeling is that Ms. Powell is actually 14:59:21	15	
16	correcting the opinion of WSP when it was 14:59:24	16	sayi
17	responding to our first report saying that, no, 14:59:30	17	just
18	everything should be linked here. 14:59:33	18	kno
19	Last point I want to make here 14:59:35	19	And
20	is that, with regard to fisheries windows and 14:59:37	20	that
21	this can influence when you do work in the water, 14:59:40	21	
22	because of effects, potential effects on fish and 14:59:43	22	pres
23	fish habitat, there could have been an impact on 14:59:46	23	
24	the construction schedule, and we identified that 14:59:48	24	Mr.
25	as a fairly high risk. 14:59:51	25	

So, in conclusion, given the 14:59:53 ct that there was really no fieldwork done, no 14:59:58 scussions had happened with the agencies at a 15:00:02 15:00:06 vel where there was any certainty about what nd of fieldwork would be required, what kind of 15:00:09 alysis would necessarily be required, especially 15:00:12 lated to the offshore components, we felt that 15:00:15 ere's many aspects of the project environmental 15:00:18 lated that are at a preliminary stage: so 15:00:22 astal processes, species at risk, certainly 15:00:27 cluding fish and fish habitat, cultural heritage 15:00:29 d archeology, migratory birds, radar 15:00:32 terference, bats, chemical contaminants, noise, 15:00:35 d the stakeholder issue. 15:00:38 And we're not -- we're not 15:00:40 ying that these all will pose a problem. But we 15:00:41 st don't know at this point or we wouldn't have 15:00:46 own at the point when the project had restarted. 15:00:48 d the Claimant's experts acknowledge the fact 15:00:52 at further technical work is required. 15:00:55 So with that, that ends my 15:00:59 esentation. 15:01:03 PRESIDENT: Thank you, 15:01:04 r. Rose. 15:01:05 MS. WATES: We don't have any 15:01:09

CONFIDENTIAL AND RESTRICTED February 19, 2016

1direct examination. $15.01:10$ 1Q. And I see from your CV, $15.01:58$ 2PRESIDENT: Thank you very $15.01:11$ 23much. 25

permitting portion for the transmission line, 15:04:48	5	like I mentioned, there's been three developers 15:05:23
which is approximately 90 kilometres. 15:04:51	6	who've worked on that project with Nigig. 15:05:26
Q. Okay. So but just to be 15:04:53	7	Q. Right. Okay. It's in an 15:05:28
clear, I just wanted to I am just looking to 15:04:54	8	ongoing 15:05:29
move forward through your experience 15:04:56	9	A. So, arguably, it started 15:05:30
A. Sure. 15:04:56	10	back, yes, 2010, and it's kind of evolved. And 15:05:32
Q and we don't if we 15:04:57	11	Pattern has now picked it up from Blue Earth, who 15:05:35
need to get into details, perhaps we can do so 15:04:59	12	picked it up from EDF GDF, I think, actually. 15:05:38
later. 15:05:01	13	Q. Okay. So it's been a bit 15:05:42
A. No problem. 15:05:01	14	of a long road? 15:05:43
Q. But I'm not looking to do 15:05:01	15	A. It's an evolution, yes. 15:05:44
that right now. 15:05:02	16	Q. It's a process. And 15:05:46
So what I understand though is 15:05:04	17	you're currently managing the REA and permitting 15:05:48
that is that proponent received a FIT contract for 15:05:06	18	process for the 100-megawatt Bell River wind 15:05:50
its project in 2010. Is that consistent with your 15:05:08	19	project for Samsung and Pattern as well? 15:05:55
understanding? 15:05:11	20	A. That's correct. And that 15:05:56
A. I don't actually know 15:05:12	21	received its REA earlier this year. 15:05:58
when they received the FIT contract. 15:05:13	22	Q. Right. Okay. So and 15:05:59
Q. You don't know? Okay. 15:05:13	23	it did that within the time frames of the 15:06:04
A. I do know they have one. 15:05:14	24	applicable PPA, I take it? 15:06:06
Q. It's just beginning this 15:05:15	25	A. Yes. Which is an 15:06:08

process that you're describing --

A. Sure.

Page 247

			1 uge = 17				
1	interesting poir	t. So I mentioned how of	ur 15:06:11				
2	original those three projects were worked on 15:06:13						
3	early on in the in the process. Those are 2010 15:06:16						
4	projects. It took quite a bit of time. 15:06:20						
5	WI	hat we have realized is, as	5 15:06:22				
6	developers th	ne developers have learne	d the 15:06:25				
7	process. Const	ultants have learned the p	rocess. 15:06:26				
8	The agencies h	ave certainly learned the	process. 15:06:28				
9	And we're able	to turn things around mu	ch quicker 15:06:31				
10	now than back	in 2010.	15:06:34				
11	Q.	And you list also in you	r 15:06:37				
12	CV, and you mention that you manage the REI and 15:06:39						
13	permitting proc	cess for the Bluewater, Je	richo, and 15:06:43				
14	Bornish projec	ts for NextEra?	15:06:47				
15	А.	That's correct.	15:06:49				
16	Q.	Now, am I right	15:06:49				
17	А.	Sorry, did you say	15:06:49				
18	Bornish?	15	:06:50				
19	Q.	Yes. Is that wrong?	15:06:50				
20	А.	That's not correct.	15:06:51				
21	Q.	Which are the three?	15:06:52				
22	А.	Bluewater, Goshen, and	15:06:53				
23	Jericho.	15:0	06:56				
24	Q.	Goshen? Okay.	15:06:56				
25	A.	Mm-hmm.	15:06:58				

Q. Now, am I right -- and I 15:06:58 may not be -- that those -- those projects had a 15:06:59 lot of complexities? Like, for example, I think 15:07:06 some of them had transmission issues associated 15:07:08 with them. Are you aware of that? 15:07:13 A. I wouldn't say there was 15:07:16 anything particularly onerous about the 15:07:17 transmission line. I don't believe -- Goshen had 15:07:19 a very short -- well, sorry. Goshen had about a 15:07:23 20-kilometre transmission line. I think Bluewater 15:07:27 had about the same. They're all within the 15:07:29 municipal right-of-way. 15:07:33 Q. Fairly standard? 15:07:35 A. I didn't see them -- I 15:07:36 didn't see the transmission being --15:07:37 Q. They're on farm land? 15:07:38 A. Yes, on farm land. 15:07:40 O. In an area with -- we 15:07:41 have been talking about NIMBYs, and that's 15:07:43 certainly an area where those -- those folks are 15:07:45 out in droves. Would you agree with that? A lot 15:07:47 of NIMBYs? 15:07:49 A. There are -- there area a 15:07:49

24 lot of folks who oppose projects in those areas, 15:07:51 25 15:07:54 yes.

15:05:17

Q. -- just beginning it now. 15:05:18

A. Just beginning? Well,

15:05:17

15:05:21

Page 246

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 249		Page 250
1	Q. And there was municipal 15:07:54	1	A. Yep. 15:08:48
2	opposition in the case of those projects as well? 15:07:55	2	Q. Okay. And that's complex 15:08:48
3	A. There was municipal 15:07:57	3	because there are particular rules that apply? 15:08:50
4	opposition. I'm not sure this has been explained. 15:07:58	4	A. I wouldn't say it's 15:08:53
5	I think it has. But the Renewable Energy Approval 15:08:01	5	complex. The rules are fairly straightforward. 15:08:54
6	process basically strips out any Planning Act 15:08:05	6	If you identify something at a desktop level, it's 15:08:56
7	approval. 15:08:07	7	called a Stage 1. You do a Stage 2 archeological 15:09:00
8	So previous to the REA being 15:08:08	8	assessment where you end up doing fieldwork. If 15:09:03
9	in place, a a municipality can could put in 15:08:10	9	it still becomes an issue, there are two more 15:09:06
10	place zoning or official plan official plan 15:08:14	10	stages of archeological assessment, with the Stage 15:09:09
11	requirements that would restrict where wind farms 15:08:20	11	4 being effectively removal of those artifacts, in 15:09:14
12	would go. That's been removed out of the REA. 15:08:22	12	which case you can basically go wherever you want, 15:09:18
13	That's part of this whole streamlining process. 15:08:25	13	so you can mitigate the impact. 15:09:20
14	Q. I think there am I 15:08:27	14	Q. There were radar issues, 15:09:23
15	right that there were archeology issues in those 15:08:30	15	I understand, from an airport? 15:09:26
16	projects? 15:08:32	16	A. For Goshen, I recall the 15:09:29
17	A. On some of those projects 15:08:33	17	radar issues. I don't recall off the top of my 15:09:31
18	there were, mm-hmm. 15:08:34	18	head for the other two projects. 15:09:33
19	Q. Yes. Because of 15:08:35	19	Q. Noise issues? 15:09:35
20	archeological what kind of archeological issues 15:08:36	20	A. There were definitely 15:09:36
21	that were in the farm land, kind of anyway, can 15:08:39	21	noise issues, yes. 15:09:37
22	you explain? 15:08:44	22	Q. All three of those 15:09:38
23	A. There were archeological 15:08:45	23	projects, though, got REAs? 15:09:39
24	finds, yes. 15:08:47	24	A. They did. 15:09:41
25	Q. Right. 15:08:48	25	Q. They all got appealed to 15:09:42
	Page 251		Page 252
1	the ERT? 15:09:43	1	Q even though they were 15:10:29
2	A. That's correct. 15:09:44	2	past their original MCODs? 15:10:30
3	Q. Those appeals got 15:09:45	3	A. Mm-hmm, they did. 15:10:32
4	dismissed? 15:09:46	4	Q. And that's because the 15:10:33
5	A. Mm-hmm. 15:09:47	5	OPA adopted a pragmatic approach in dealing with 15:10:34
6	Q. All of them. And the 15:09:48	6	project proponents to ensure that FIT contracts 15:10:38
7	projects got built. 15:09:50	7	that FIT projects got built even in the face of 15:10:42
8	A. They did. And as I 15:09:52	8	regulatory delays. Is that correct? 15:10:45
9	mentioned at the beginning, the original project 15:09:53	9	A. I would assume that's 15:10:47
10	schedule was, I believe I think the RFP came 15:09:55	10	correct. I don't know the OPA's process in and 15:10:50
11	out in February 2010, construction by June 2011. 15:09:59	11	out. 15:10:54
12	So things come up. I think that was my point 15:10:05	12	Q. Okay. I understand also 15:10:54
13	Q. Right. 15:10:09	13	that you assisted Ontario Power Generation with an 15:11:00

FIT contract, all three of them --

A. -- is onshore, offshore 15:10:09

out. The layout changes. You end up doing more 15:10:19

But they got built within the parameters of the 15:10:22

15:10:14

15:10:21

15:10:26

CONFIDENTIAL AND RESTRICTED February 19, 2016

Page 254

			Page 253
nuclear-generati	ing facility on the shore	es of Lake	15:11:25
Ontario, about a	in hour north of where	e Toronto is.	15:11:29
Q.	So it's a three	15:11:34	
A.	Or west I guess, not	15:11:3	5
north.	1	5:11:37	
Q.	West, yes. It's a	15:11:37	
3,500-megawatt nuclear power plant.		5:11:39	
А.	Mm-hmm.	15:11:41	l
Q.	Correct?	15:11:41	
А.	Yes.	15:11:42	
Q.	Located immediately	15:11	:42
adjacent to Lake	e Ontario?	15:11	:44

15:11:46

15:11:54

15:11:56

15:11:57

15:11:57

15:12:03

15:12:04

15:11:56

15:11:46

15:11:48

15:11:50

1 Q. You wouldn't disagree 15:12:04 2 that it's very close? 15:12:05 3 A. It's close. The site is 15:12:06 4 adjacent to the lake, yes. 15:12:07 5 Q. Okay. You mentioned 15:12:08 6 earlier that the guidance documents that MOE was 15:12:11 7 putting out in connection with the REA wasn't or 15:12:17 8 weren't clear in the early days for onshore wind; 15:12:21 9 right? 15:12:24 10 A. Well, there were no 15:12:25 11 guidance documents. 15:12:26 12 Q. There were no -- but you 15:12:27 13 -- okay. But you started the REA processes --15:12:27 14 A. We started the REA 15:12:30 15 15:12:33 process. 16 O. -- in any event? 15:12:33 A. Yes. And in fact --17 15:12:33 18 O. And you moved --15:12:33 19 A. -- for the NextEra 15:12:34 20 projects, I believe they started without FIT 15:12:36 21 contracts. 15:12:37 22 Q. Right. 15:12:37 23 A. So we were doing work 15:12:38 24 early on to try and understand what those 15:12:40 25 requirements were, talking with the agencies, and 15:12:42

Page 255

1 I would say before the guidance documents came out 15:12:46 2 and even as they were evolving, it was challenging 15:12:49 3 to figure out exactly what -- what the agencies 15:12:53 4 would want. 15:12:56 5 We would try and confirm the 15:12:57 6 expectations on field studies. We would do some 15:12:59 7 work. They would get back to us saying, it's not 15:13:02 8 exactly what we want, and the same thing happened 15:13:05 9 even while we were doing our assessment 15:13:07 10 identifying mitigation measures. 15:13:09 11 So this is another example of 15:13:11 12 this iterative process where it's not -- it's not 15:13:13 13 straightforward. It's -- there was a lot of 15:13:16 14 conversation, I guess, two days ago, about the 15:13:19 15 environmental assessment process and how this was 15:13:22 16 effectively an environmental assessment. 15:13:24 17 This is very prescriptive. So 15:13:27 18 they're looking for something specific. Under an 15:13:29 19 environmental assessment, at least for wind power, 15:13:32 20 the developer was doing a self-assessment. So 15:13:35 21 they basically came up with their own approach. 15:13:38 22 This was very different. 15:13:42 23 Q. So it sounds like, from 15:13:42 24 what you're describing, that you're -- you've got 15:13:44 25 kind of a good track record at getting projects 15:13:47

	-
1	built, even though things may be a little bit 15:13:50
2	difficult in the in the early days? 15:13:52
3	A. I would agree, yes. 15:13:54
4	Q. And so I assume, then, 15:13:55
5	that on the projects that you've worked on, I 15:13:57
6	think this is consistent with what you're saying, 15:13:59
7	that roadblocks were you know, they were dealt 15:14:02
8	with. You you didn't simply abandon the 15:14:05
9	project every time a regulator gave you a hard 15:14:08
10	time; right? 15:14:10
11	A. We would certainly work 15:14:11
12	through the roadblocks. 15:14:12
13	Q. Right. 15:14:12
14	A. I guess the question is: 15:14:14
15	How many road blocks do you come up with, and how 15:14:15
16	long does it take to resolve them. 15:14:18
17	Q. Right. But I'm guessing, 15:14:19
18	Mr. Rose, that, when roadblocks did come up, you 15:14:20
19	didn't throw up your hands and say, "Okay. This 15:14:24
20	project is dead." That's not what your clients 15:14:27
21	pay you for. 15:14:28
22	A. That's correct. 15:14:29
23	Q. You're working towards 15:14:30
24	actually getting these project built, and you did? 15:14:33
25	A. That's correct. 15:14:35

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 257		Page 258
1	Q. Right. Okay. Among your 15:14:36	1	amongst its members a lot of the players in the 15:15:32
2	professional we are still off feed. We can go 15:14:43	2	onshore and offshore wind development industry, 15:15:34
3	back on now. Thank you. 15:14:46	3	though; right? 15:15:36
4	Confidential transcript ends 15:14:56	4	A. I would agree with that 15:15:36
5	BY MS. SEERS: 15:14:56	5	statement. 15:15:37
6	Q. I understand that you are 15:14:56	6	Q. Siemens, for example, 15:15:38
7	a member of the Canadian Wind Energy Association? 15:14:58	7	Vestas, GE, EDF? 15:15:38
8	A. I am, yes. 15:15:02	8	A. Mm-hmm. 15:15:41
9	Q. And that's an 15:15:03	9	Q. So how active are you in 15:15:41
10	organization otherwise known as CanWEA? 15:15:05	10	CanWEA? 15:15:43
11	A. Mm-hmm, that's correct. 15:15:07	11	A. I participate in what 15:15:43
12	Q. We've heard a bit about 15:15:08	12	they call Ontario caucus calls or meetings where 15:15:46
13	it this week. 15:15:10	13	it's various I guess a monthly call with 15:15:51
14	A. Yes. 15:15:10	14	various members of the organization about policy 15:15:55
15	Q. That's an advocacy 15:15:11	15	issues that arise issues that arise. 15:15:59
16	association for the wind project development 15:15:12	16	Q. Are you aware, sir, are 15:16:03
17	industry in Ontario? 15:15:15	17	you aware that CanWEA is aware that the Government 15:16:04
18	A. That's correct. And I 15:15:15	18	of Canada, on Monday, in its opening statement, 15:16:13
19	belong to it as my role as a business developer. 15:15:16	19	announced for the first time that it is not 15:16:16
20	Q. Right. And that included 15:15:19	20	planning to proceed with offshore wind research? 15:16:19
21	the offshore wind development industry, at least 15:15:21	21	A. Just to clarify, you're 15:16:22
22	when there was one, before the moratorium? 15:15:23	22	asking me if I'm aware if CanWEA is aware of that? 15:16:24
23	A. I wasn't part of it, or 15:15:25	23	Q. I'm asking you 15:16:28
24	the firm wasn't part of it at that time. 15:15:27	24	A. Is that am I right? 15:16:30
25	Q. Okay. CanWEA counts 15:15:29	25	Q. Pardon me. I phrased the 15:16:31

Т

Page 259

	1 age 2.59
1	question very poorly. 15:16:33
2	A. Okay. 15:16:33
3	Q. I'm asking you if you 15:16:34
4	if you are aware of that. 15:16:35
5	A. I'm aware of it now. 15:16:36
6	Yes, I am. 15:16:37
7	Q. Okay. And are do you 15:16:38
8	know whether CanWEA is aware of that? 15:16:39
9	A. I have no idea whether 15:16:40
10	CanWEA is aware of it. 15:16:42
11	Q. Okay. That was the 15:16:43
12	thrust of my question. Okay. 15:16:44
13	And do you think this 15:16:46
14	announcement would surprise CanWEA's members? 15:16:47
15	A. I don't know. 15:16:50
16	Q. You don't know? Okay. 15:16:51
17	You say in your report that 15:16:53
18	the loss of six months of force majeure for the 15:16:54
19	ERT proceeding I think I have this right 15:16:58
20	will reduce the attractiveness of the project for 15:17:01
21	lenders. Is that what you say? 15:17:04
22	A. I'm not a lender expert, 15:17:07
23	so I don't want to talk to that. I think that 15:17:11
24	was 15:17:13
25	Q. But it's in your report. 15:17:14

1	A. There are lots of things 15:17:15
2	in my in the report. I don't necessarily speak 15:17:16
3	to all of to them all. If it is environmental 15:17:18
4	permitting related, I can speak to it. But 15:17:22
5	otherwise, it would have been Jerome from Green 15:17:24
6	Giraffe. 15:17:27
7	Q. No, this is in the URS 15:17:27
8	report. Should we speak to Mr. Barillaro about 15:17:29
9	that, then? 15:17:32
10	A. Yes, I would think so. 15:17:32
11	Q. Okay. We'll do that. I 15:17:33
12	take it, though we will see how that goes in a 15:17:37
13	few days. 15:17:39
14	MR. TERRY: Tell him not right 15:17:40
15	now, Mr. Barillaro. 15:17:41
16	[Laughter.] 15:17:42
17	BY MS. SEERS: 15:17:43
18	Q. I take it that, as an 15:17:43
19	environmental planner, you don't have any specific 15:17:45
20	expertise with respect to noise measurement, noise 15:17:47
21	modelling, or acoustics? 15:17:50
22	A. I would consider myself a 15:17:51
23	generalist. 15:17:53
24	Q. Right. 15:17:53
25	A. What I would say is, like 15:17:54

	Page 261		Page 262
1	Mr. Roberts explained, AECOM has a team of 15:17:56	1	Canada. My question is simply: You don't 15:18:53
2	internal experts, noise among them. 15:18:00	2	disagree that Mr. Ashtiani is an expert on noise? 15:18:57
3	Q. You're not one of them? 15:18:03	3	A. No, I do not disagree. 15:19:01
4	A. I'm not an expert. 15:18:04	4	Q. Okay. And if you turn to 15:19:03
5	Q. Okay. 15:18:04	5	Tab 2 15:19:04
6	A. I've been on numerous 15:18:05	6	A. Mm-hmm. 15:19:04
7	phone calls. I would say they're mostly phone 15:18:08	7	Q you'll see the CV of 15:19:10
8	calls with 15:18:11	8	Mr. Brian Howe, who also has submitted two expert 15:19:11
9	Q. Mr. Rose, I don't mean to 15:18:11	9	reports for Windstream in this proceeding, also 15:19:14
10	cut you off, but my question was very simple. 15:18:13	10	not being crossed. Same question: You don't 15:19:18
11	A. Okay. 15:18:13	11	disagree that Mr. Howe is an expert on noise, do 15:19:19
12	Q. You are not one of those 15:18:15	12	you? 15:19:21
13	experts? 15:18:16	13	MR. SPELLISCY: Before the 15:19:22
14	A. No. 15:18:16	14	witness answers, just a point of procedure. 15:19:23
15	Q. Okay. Could you turn up 15:18:16	15	There's no issue obviously that they haven't been 15:19:24
16	Tab 1 of your binder, please? Here you have the 15:18:19	16	called. I'm not sure what the insinuation is. 15:19:27
17	CV of Payam Ashtiani of Aercoustics, who has filed 15:18:22	17	The parties agreed beforehand that the failure to 15:19:30
18	an expert report in this proceeding on behalf of 15:18:27	18	call an expert would not draw any sort of 15:19:32
19	Windstream, but is not do you have it? It 15:18:30	19	inference whatsoever. 15:19:34
20	should be Tab 1. 15:18:34	20	We obviously had a limited 15:19:35
21	A. Tab 1? There we go. 15:18:47	21	amount of time. If we wanted to be here for two 15:19:37
22	Yes. 15:18:47	22	months instead of two weeks, potentially we could 15:19:40
23	Q. Okay. So Mr. Ashtiani on 15:18:48	23	have cross-examined all these people. 15:19:42
24	from Aercoustics has filed an expert report in 15:18:49	24	But if the insinuation is that 15:19:43
25	this proceeding, not being cross-examined by by 15:18:51	25	the person is not here for some particular reason, 15:19:47

Page 263

we fully reject it, and we have not accepted 15:19:49
what's in these reports. 15:19:52
MS. SEERS: No, Mr. Spelliscy, 15:19:53
I don't believe I was insinuating something. I'm 15:19:55
stating a matter of fact. 15:19:59
PRESIDENT: There's a point to 15:19:59
the objection. In this instance, I don't think we 15:20:02
need an expert to give an opinion whether somebody 15:20:03
else is an expert. 15:20:06
MS. SEERS: Well, okay. I 15:20:07
will simply then ask him whether he to confirm 15:20:07
that he is not an expert and that other experts 15:20:11
have, in fact, filed expert reports in this 15:20:14
proceeding. 15:20:17
MS. WATES: I'm sorry to 15:20:17
interrupt, for the record. You know, actually we 15:20:18
are presenting Mr. Rose as an expert in certain 15:20:21
areas perhaps he's not speaking to others. 15:20:25
MS. SEERS: And noise is not 15:20:25
one of them. 15:20:25
MS. WATES: But I'm just 15:20:26
asking, when you make comments like that, if you 15:20:27
could restrict it to the specific topics that 15:20:29
you're referring to. Thank you. 15:20:31
MS. SEERS: Okay. I was 15:20:32

	1 age 204
1	referring to noise, but thank you for that. 15:20:34
2	BY MS. SEERS: 15:20:38
3	Q. Let's move on to drinking 15:20:38
4	water. You are not an expert in drinking water? 15:20:39
5	A. I'm not an expert in 15:20:44
6	drinking water. 15:20:45
7	Q. Okay. 15:20:45
8	A. But this water is quite 15:20:46
9	good. 15:20:48
10	Q. And there are more CVs in 15:20:48
11	there, but no one wants to look at them, so that 15:20:49
12	is fine. We will just move on through the list. 15:20:52
13	You're not an expert in fish? 15:20:54
14	A. No I'm not an expert in 15:20:57
15	fish. 15:20:59
16	Q. You're not an expert in 15:20:59
17	birds? 15:21:00
18	A. No I'm not an expert in 15:21:00
19	birds. 15:21:03
20	Q. You're not an expert in 15:21:03
21	bats? 15:21:04
22	A. No. 15:21:04
23	Q. And you're not a lawyer? 15:21:05
24	A. Definitely not. 15:21:06
25	Q. You're probably feeling 15:21:07

(416)861-8720

	Page 265		Page 266
1	grateful for that right now. 15:21:08	1	A. Was that the onshore 15:22:13
2	A. That is for sure. 15:21:10	2	manufacturing facility was not part of the REA. 15:22:14
3	Q. So you mentioned this in 15:21:11	3	Q. I see. Okay. So you're 15:22:16
4	your presentation, and I'm, frankly, a little 15:21:13	4	maintaining that opinion that it is not? 15:22:17
5	perplexed. You say that URS is maintaining its 15:21:18	5	A. Yes, I agree. It's not 15:22:19
6	original conclusion that the onshore manufacturing 15:21:22	6	part of the REA. 15:22:20
7	facilities are subject to a REA, when you have 15:21:26	7	Q. Okay. Good. I'm glad 15:22:21
8	heard expert evidence and I think you were in 15:21:29	8	that confusion has been resolved. And I apologize 15:22:22
9	the room, Mr. Rose from Ms. Powell that says 15:21:31	9	if I misunderstood your presentation. 15:22:26
10	that's not the case. And the Ministry has also 15:21:35	10	A. That's okay. 15:22:28
11	confirmed that that's not the case. And you're 15:21:37	11	Q. If you turn up page 86 of 15:22:29
12	not a lawyer, and I'm not aware of any lawyer at 15:21:39	12	your second report, please, which is the schedule 15:22:31
13	URS who has given a legal opinion as to whether 15:21:42	13	regarding permitting. This is the one that 15:22:33
14	that that onshore foundation facility requires 15:21:46	14	starts has an assumed start date of February 15:22:51
15	a REA. 15:21:52	15	11, 2011. 15:22:54
16	So I would put to you, sir, 15:21:53	16	A. Okay. 15:22:56
17	that it's not appropriate for URS to be 15:21:54	17	Q. Do you see that? Okay. 15:22:56
18 19	maintaining that conclusion. 15:21:58	18 19	So the 15:22:58
20	A. Well, I would say a 15:22:01 couple of things. First thing, in my 15:22:02	20	A. Sorry, your page 87? 15:22:59 Q. Pardon me. 15:23:01
20	couple of things. First thing, in my 15:22:02 presentation and I don't know if we can go back 15:22:04	20	A. You're looking at the 15:23:06
21	to it I explicitly said our opinion in the 15:22:05	22	Gantt chart. 15:23:07
22	first report was that it was not part of the REA. 15:22:08	23	Q. I'm actually looking at 15:23:07
24	Q. Your opinion in the first 15:22:11	24	the Gantt chart, which I apologize is 15:23:09
25	report 15:22:13	25	A. Ninety-one. 15:23:09
1	Page 267 Q. – page 91. 15:23:11	1	Page 268 front of us, if you could do you have 15:24:16
2	A. Yes. 15:23:11	2	Windstream's schedule? There should be the large 15:24:17
3	Q. My mistake. Sorry about 15:23:12	3	version. 15:24:20
4	15 00 10		
	that. 15:23:13	4	A. Yes. 15:24:20
5	So I see it's very small 15:23:18	5	A. Yes. 15:24:20 Q. So in Windstream's 15:24:21
6	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20	5 6	A. Yes. 15:24:20 Q. So in Windstream's 15:24:21 schedule, it begins the permitting work begins 15:24:45
6 7	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25	5 6 7	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48
6 7 8	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28	5 6 7 8	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53
6 7 8 9	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32	5 6 7 8 9	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54
6 7 8 9 10	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34	5 6 7 8 9 10	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55
6 7 8 9 10 11	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36	5 6 7 8 9 10 11	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55contemplates the REA being issued July 24, 2013,15:24:56
6 7 8 9 10	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41	5 6 7 8 9 10	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55contemplates the REA being issued July 24, 2013,15:24:56at line 67, which was a little bit less compressed15:25:01
6 7 8 9 10 11 12	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:32 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41 Q. Okay. And so you've 15:23:42	5 6 7 8 9 10 11 12	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55contemplates the REA being issued July 24, 2013,15:24:56
6 7 8 9 10 11 12 13	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41	5 6 7 8 9 10 11 12 13	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55contemplates the REA being issued July 24, 2013, 15:24:56at line 67, which was a little bit less compressed15:25:01than the URS schedule. So you may have to find15:25:06it.15:25:08
6 7 8 9 10 11 12 13 14	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:32 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41 Q. Okay. And so you've 15:23:42 allowed three years and three months for 15:23:43	5 6 7 8 9 10 11 12 13 14	A. Yes.15:24:20Q. So in Windstream's15:24:21schedule, it begins the permitting work begins15:24:45at line 10, on February 11, 2011, also with the15:24:48project description report.15:24:53A. Mm-hmm.15:24:54Q. Right? And it15:24:55contemplates the REA being issued July 24, 2013, 15:24:56at line 67, which was a little bit less compressed 15:25:01than the URS schedule. So you may have to find15:25:06it.15:25:08
6 7 8 9 10 11 12 13 14 15	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41 Q. Okay. And so you've 15:23:42 allowed three years and three months for 15:23:43 permitting; right? 15:23:46	5 6 7 8 9 10 11 12 13 14 15	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$
6 7 8 9 10 11 12 13 14 15 16 17 18	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:28 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41 Q. Okay. And so you've 15:23:42 allowed three years and three months for 15:23:43 permitting; right? 15:23:46 A. Yes, that's correct. 15:23:48 Q. And you have allowed an 15:23:52 additional six months for the ERT appeal process. 15:23:54	5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins – the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$
6 7 8 9 10 11 12 13 14 15 16 17 18 19	So I see it's very small 15:23:18 unfortunately, but the permitting work begins on 15:23:20 February 11, 2011, I think, with the scoping work 15:23:25 at line 8. Do I read it correctly? 15:23:32 A. Yes. 15:23:32 Q. And then it contemplates 15:23:34 the REA being issued April 16, 2014, at line 11? 15:23:36 A. Mm-hmm. 15:23:41 Q. Okay. And so you've 15:23:42 allowed three years and three months for 15:23:43 permitting; right? 15:23:48 Q. And you have allowed an 15:23:52 additional six months for the ERT appeal process. 15:23:54 A. I'm sorry. How many? 15:24:00	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins – the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:09$ allows approximately two years and six months for $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	So I see it's very small $15:23:18$ unfortunately, but the permitting work begins on $15:23:20$ February 11, 2011, I think, with the scoping work $15:23:25$ at line 8. Do I read it correctly? $15:23:28$ A. Yes. $15:23:32$ Q. And then it contemplates $15:23:34$ the REA being issued April 16, 2014, at line 11? $15:23:36$ A. Mm-hmm. $15:23:41$ Q. Okay. And so you've $15:23:42$ allowed three years and three months for $15:23:43$ permitting; right? $15:23:48$ Q. And you have allowed an $15:23:52$ additional six months for the ERT appeal process. $15:23:54$ A. I'm sorry. How many? $15:24:00$ Q. I believe it's six $15:24:02$	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:09$ allows approximately two years and six months for $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$ the dates, but $15:25:18$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	So I see it's very small15:23:18unfortunately, but the permitting work begins on15:23:20February 11, 2011, I think, with the scoping work15:23:20February 11, 2011, I think, with the scoping work15:23:25at line 8. Do I read it correctly?15:23:32Q. And then it contemplates15:23:34the REA being issued April 16, 2014, at line 11?15:23:36A. Mm-hmm.15:23:41Q. Okay. And so you've15:23:42allowed three years and three months for15:23:43permitting; right?15:23:46A. Yes, that's correct.15:23:48Q. And you have allowed an15:23:52additional six months for the ERT appeal process.15:23:54A. I'm sorry. How many?15:24:00Q. I believe it's six15:24:02months.15:24:03	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$ the dates, but $15:25:18$ Q. Sound about right? $15:25:20$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	So I see it's very small $15:23:18$ unfortunately, but the permitting work begins on $15:23:20$ February 11, 2011, I think, with the scoping work $15:23:25$ at line 8. Do I read it correctly? $15:23:28$ A. Yes. $15:23:32$ Q. And then it contemplates $15:23:34$ the REA being issued April 16, 2014, at line 11? $15:23:36$ A. Mm-hmm. $15:23:41$ Q. Okay. And so you've $15:23:42$ allowed three years and three months for $15:23:43$ permitting; right? $15:23:46$ A. Yes, that's correct. $15:23:48$ Q. And you have allowed an $15:23:52$ additional six months for the ERT appeal process. $15:23:54$ A. I'm sorry. How many? $15:24:00$ Q. I believe it's six $15:24:02$ months. $15:24:03$ A. That's correct, yes. $15:24:04$	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:45$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$ the dates, but $15:25:18$ Q. Sound about right? $15:25:20$ A. I would assume that's $15:25:21$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	So I see it's very small $15:23:18$ unfortunately, but the permitting work begins on $15:23:20$ February 11, 2011, I think, with the scoping work $15:23:25$ at line 8. Do I read it correctly? $15:23:28$ A. Yes. $15:23:32$ Q. And then it contemplates $15:23:34$ the REA being issued April 16, 2014, at line 11? $15:23:36$ A. Mm-hmm. $15:23:41$ Q. Okay. And so you've $15:23:42$ allowed three years and three months for $15:23:43$ permitting; right? $15:23:46$ A. Yes, that's correct. $15:23:48$ Q. And you have allowed an $15:23:52$ additional six months for the ERT appeal process. $15:23:54$ A. I'm sorry. How many? $15:24:00$ Q. I believe it's six $15:24:02$ months. $15:24:03$ A. That's correct, yes. $15:24:04$ Q. Thank you. Now, for $15:24:07$	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$ the dates, but $15:25:18$ Q. Sound about right? $15:25:20$ A. I would assume that's $15:25:21$ correct. $15:25:22$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	So I see it's very small $15:23:18$ unfortunately, but the permitting work begins on $15:23:20$ February 11, 2011, I think, with the scoping work $15:23:25$ at line 8. Do I read it correctly? $15:23:28$ A. Yes. $15:23:32$ Q. And then it contemplates $15:23:34$ the REA being issued April 16, 2014, at line 11? $15:23:36$ A. Mm-hmm. $15:23:41$ Q. Okay. And so you've $15:23:42$ allowed three years and three months for $15:23:43$ permitting; right? $15:23:46$ A. Yes, that's correct. $15:23:48$ Q. And you have allowed an $15:23:52$ additional six months for the ERT appeal process. $15:23:54$ A. I'm sorry. How many? $15:24:00$ Q. I believe it's six $15:24:02$ months. $15:24:03$ A. That's correct, yes. $15:24:04$ Q. Thank you. Now, for $15:24:07$ comparison purposes, just so we all have the $15:24:10$	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:20$ A. I would assume that's $15:25:22$ Q. And then an additional $15:25:23$
6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	So I see it's very small $15:23:18$ unfortunately, but the permitting work begins on $15:23:20$ February 11, 2011, I think, with the scoping work $15:23:25$ at line 8. Do I read it correctly? $15:23:28$ A. Yes. $15:23:32$ Q. And then it contemplates $15:23:34$ the REA being issued April 16, 2014, at line 11? $15:23:36$ A. Mm-hmm. $15:23:41$ Q. Okay. And so you've $15:23:42$ allowed three years and three months for $15:23:43$ permitting; right? $15:23:46$ A. Yes, that's correct. $15:23:48$ Q. And you have allowed an $15:23:52$ additional six months for the ERT appeal process. $15:23:54$ A. I'm sorry. How many? $15:24:00$ Q. I believe it's six $15:24:02$ months. $15:24:03$ A. That's correct, yes. $15:24:04$ Q. Thank you. Now, for $15:24:07$	5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Yes. $15:24:20$ Q. So in Windstream's $15:24:21$ schedule, it begins the permitting work begins $15:24:45$ at line 10, on February 11, 2011, also with the $15:24:48$ project description report. $15:24:53$ A. Mm-hmm. $15:24:54$ Q. Right? And it $15:24:55$ contemplates the REA being issued July 24, 2013, $15:24:56$ at line 67, which was a little bit less compressed $15:25:01$ than the URS schedule. So you may have to find $15:25:06$ it. $15:25:08$ A. Yes, I see it. $15:25:09$ Q. You see it? Okay. So it $15:25:11$ permitting; right? $15:25:14$ A. I would have to calculate $15:25:16$ the dates, but $15:25:18$ Q. Sound about right? $15:25:20$ A. I would assume that's $15:25:21$ correct. $15:25:22$

	Page 269		Page 270
1	A. Mm-hmm. 15:25:26	1	months? 15:26:19
2	Q. Brings us to three years. 15:25:27	2	A. That's correct. 15:26:20
3	So I'm confused about your schedule, though, 15:25:29	3	Q. Okay. Are you aware 15:26:21
4	Mr. Rose, because I guess I'm wondering: Are 15:25:31	4	that, in November 2010, Windstream received a 15:26:24
5	you using hindsight and incorporating permitting 15:25:34	5	number of proposals from environmental consultants 15:26:27
6	delays into this schedule, or is this the schedule 15:25:38	6	to conduct the environmental permitting work for 15:26:31
7	that you would have put together in 2011? Is this 15:25:40	7	the project? 15:26:33
8	a hindsight schedule or no hindsight schedule? 15:25:45	8	A. I am aware. 15:26:34
9	A. I would say this is a 15:25:47	9	Q. Okay. And I'm going to 15:26:36
10	similar schedule to what Mr. Roberts prepared, 15:25:49	10	take you through some of those to see how they 15:26:38
11	so 15:25:52	11	compare 15:26:40
12	Q. A hindsight schedule? 15:25:52	12	A. Sure. 15:26:40
13	No? 15:25:52	13	Q because you would 15:26:40
14	A a planning schedule. 15:25:52	14	agree with me that those they were actually 15:26:41
15	So it doesn't really reflect 15:25:55	15	prepared in November 2010. So it's about three 15:26:43
16	all the risk that might happen. 15:25:58	16	months away from your from your schedule that 15:26:46
17	Q. Okay. But my question 15:26:00	17	you say you're preparing in the same sort of 15:26:50
18	is: Are you using 2015 knowledge to put together 15:26:01	18	no-hindsight mind-set that they were. 15:26:54
19	this schedule, or are you pretending you're back 15:26:04	19	So let's take a look at them. 15:26:58
20	in 2011? 15:26:07	20	If you turn to the Tab 7, you've got the first 15:27:00
21	A. I was pretending I'm back 15:26:08	21	one, which is from Stantec. 15:27:04
22	in 2011. 15:26:10	22	A. Mm-hmm. 15:27:06
23	Q. So you're pretending 15:26:10	23	Q. And you wouldn't disagree 15:27:07
24	you're back in 2011, and your opinion is that the 15:26:12	24	with me, Mr. Rose, that Stantec is one of the most 15:27:08
25	permitting would take three years and three 15:26:15	25	experienced environmental consultants in Ontario? 15:27:12
	Dec. 271	<u> </u>	D 072

Page 271

	-
1	A. I wouldn't disagree with 15:27:14
2	you, no. 15:27:16
3	Q. And they're, in fact, as 15:27:16
4	you will have heard earlier, the consultant that 15:27:19
5	Windstream was preparing to retain as of a few 15:27:22
6	days before the moratorium was announced? 15:27:24
7	A. I did hear that, yes. 15:27:29
8	Q. Okay. So the their 15:27:30
9	proposal for the record is C-0873, and the 15:27:33
10	schedule is at Appendix 2. And if everything went 15:27:36
11	according to plan, you will have a little sticky 15:27:40
12	there to help you find it. 15:27:43
13	A. Appendix oh, I see. 15:27:46
14	Q. Two. It should be a 15:27:47
15	longer sheet. 15:27:49
16	A. Yes. 15:27:50
17	Q. Okay. You should have a 15:27:51
18	red sticky and a longer yes, exactly. Okay? 15:27:55
19	A. Mm-hmm. 15:28:10
20	Q. So they have the project 15:28:10
21	starting in January 2011, so that's line 2. That 15:28:11
22	is really just a month off from our but-for 15:28:19
23	scenario schedule. 15:28:22
24	A. Mm-hmm. 15:28:22
25	Q. So it's not that that 15:28:23

1	far off. And they have the REA issued, if you go 15:28:24
2	down to line 50 MOE approval, they call it 15:28:28
3	in August 2012. 15:28:32
4	A. Mm-hmm. 15:28:34
5	Q. So they allow, again, 15:28:34
6	wearing their, you know, we're in November 2010 15:28:37
7	hat, not knowing that MOE is going to be causing 15:28:40
8	permitting delays in the future, they're saying 15:28:43
9	they should allow one year and seven months from 15:28:47
10	project start to the issuance of the REA; right? 15:28:49
11	A. It appears that way, yes. 15:28:53
12	Q. And so that's obviously 15:28:55
13	substantially less than what you've allowed and, 15:28:57
14	in fairness, also substantially less than what 15:28:59
15	Windstream has allowed in its schedule? 15:29:02
16	A. Mm-hmm, that's correct. 15:29:04
17	Q. Okay. If you go to Tab 15:29:05
18	8, please. And this is a proposal, which you cite 15:29:07
19	in your report actually, and we reviewed or 15:29:13
20	Ms. Wates reviewed earlier with Mr. Roberts. It's 15:29:16
21	dated November 25, 2010. 15:29:19
22	If you go to the sticky of the 15:29:22
23	appendix, this is a Gantt chart. They also have 15:29:25
24	the project starting in January. And we're going 15:29:33
25	to assume that's 2011, given when they were 15:29:39

	Page 273
1	writing it. And if you go down to line 21, you 15:29:42
2	see receipt of REA. 15:29:49
3	A. Mm-hmm. 15:29:51
4	Q. And that's in October 15:29:51
5	2012. 15:29:53
6	A. Okay. 15:29:54
7	Q. So that allows about one 15:29:55
8	year and nine months for the REA to be issued from 15:29:58
9	the time the project is initiated? 15:30:02
10	A. Mm-hmm. 15:30:05
11	Q. Correct? 15:30:06
12	A. That's correct. 15:30:06
13	Q. And also, obviously, 15:30:07
14	there's substantially less time than you've 15:30:08
15	allowed in your schedule and even that Windstream 15:30:10
16	has allowed in its schedule; correct? 15:30:12
17	A. That's correct. 15:30:14
18	Q. One more, Tab 9. SLR 15:30:15
19	pardon me. I should have asked you. Genivar, 15:30:20
20	experienced environmental consultants in Ontario, 15:30:22
21	in your view? 15:30:24
22	A. Yeah. They had done wind 15:30:26
23	or were doing wind at that time. 15:30:28
24	Q. And you in fact, you 15:30:30
25	cite their proposal in your report. So you must 15:30:31

Page 275

	Page 275	
1	the SLR folks split off. 15:31:26	1
2	Q. Okay. So you know them? 15:31:28	2
3	A. I know them, yes. 15:31:29	3
4	Q. Okay. They know what 15:31:30	4
5	they're doing? 15:31:31	5
6	A. Again, generally 15:31:32	6
7	speaking, I don't know them as a company that does 15:31:33	7
8	wind. 15:31:35	8
9	Q. Okay. If you go to the 15:31:37	9
10	last page, similar kind of Gantt-chart-type 15:31:37	10
11	schedule project schedule that you see in the 15:31:42	11
12	others. And they have they also have the REA 15:31:43	12
13	work starting in January 2011. That's on line 2, 15:31:47	13
14	REA process; right? 15:31:51	14
15	A. Mm-hmm. 15:31:54	15
16	Q. And if you go down to 15:31:54	16
17	line 13, you will see the review process ending in 15:31:59	17
18	July 2012? 15:32:01	18
19	A. Correct. 15:32:03	19
20	Q. Okay. And so that allows 15:32:04	20
21	about one year and six months for the REA process; 15:32:07	21
22	right? 15:32:10	22
23	A. That's correct. 15:32:11	23
24	Q. Again, I don't need to 15:32:12	24
25	repeat it again, but substantially less time than 15:32:13	25

14 15 16 17 18 19 20 21 22 23 24 25 for a company called Gartner Lee, and a bunch of 15:31:22

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 274
1	C C
1	consider them to have some degree of experience or 15:30:33
2	expertise? 15:30:36
3	A. Well, I think we were 15:30:37
4	doing that primarily because they were giving 15:30:38
5	evidence here. WSP is Genivar. 15:30:40
6	Q. Okay. So you were doing 15:30:43
7	it because Mr. Roberts is giving evidence? 15:30:44
8	A. Primarily. 15:30:45
9	Q. Even though Mr. Roberts 15:30:46
10	was not involved in the earlier proposal. 15:30:47
11	A. It's a Genivar product. 15:30:50
12	Q. Okay. 15:30:50
13	A. I would assume they would 15:30:51
14	stand by their product. 15:30:52
15	Q. Okay. Well, let's move 15:30:54
16	on to the next tab, which is SLR consulting 15:30:56
17	proposal. Also experienced environmental 15:31:00
18	consultants in Ontario? 15:31:03
19	A. They are, although I 15:31:05
20	don't know SLR for doing any wind. 15:31:07
21	Q. Okay. Well, they were 15:31:15
22	making this proposal for Windstream at the time? 15:31:16
23	A. Yeah. I mean, SLR 15:31:18
24	that was our old office location. I used to work 15:31:19
25	for a company called Gartner Lee and a bunch of 15:31:22

l	you have allowed in your schedule and that 15:32:16
2	Windstream allowed in its schedule? 15:32:18
3	A. That's correct. I guess 15:32:19
Ļ	the one point I would make is and we talked 15:32:20
5	about this. With the NextEra RFP, we got a 15:32:22
5	similar, I would say, even more aggressive RFP. 15:32:26
7	We responded to the RFP. 15:32:29
3	Q. Right. 15:32:29
)	A. Generally if you want to 15:32:31
)	win the work, you're going to show a timeline that 15:32:32
l	meets their requirements. 15:32:35
2	Q. Right. 15:32:35
3	A. And so it 15:32:39
Ļ	Q. But then you 15:32:39
5	A doesn't surprise me 15:32:39
5	that they're all showing a schedule that meets 15:32:40
7	Windstream's requirements at the time. 15:32:43
3	Q. But in your case with the 15:32:45
)	NextEra projects, again, you showed a schedule 15:32:47
)	that met the requirements. You got hired. You 15:32:48
l	got the 15:32:51
2	A. Correct. 15:32:51
3	Q. You worked with the 15:32:52
Ļ	agencies. You got the project built. 15:32:53
5	A. We did get the projects 15:32:55

	Page 277	
1	built in about three times as long as we initially 15:32:57	1
2	thought. 15:33:00	2
3	Q. Right. But the OPA 15:33:01	3
4	worked with you to accommodate the permitting 15:33:02	4
5	delays pragmatically; right? 15:33:05	5
6	A. Well, they didn't work 15:33:08	6
7	with us. They would've worked with the developer, 15:33:10	7
8	yes. 15:33:12	8
9	Q. They worked with your 15:33:12	9
10	client. They worked with NextEra. And you got 15:33:13	10
11	the projects built. 15:33:13	11
12	A. We did get those NextEra 15:33:14	12
13	projects built, yes. 15:33:17	13
14	Q. Okay. I'd like to talk 15:33:18	14
15	about the critical path for your schedule. 15:33:19	15
16	A. Sure. 15:33:22	16
17	Q. If you could go to C-96 15:33:22	17
18	pardon me. I apologize. It's Tab 9. I really 15:33:27	18
19	do apologize. I have an incorrect reference. 15:33:51	19
20	A. That's okay. 15:33:54	20
21	Q. With respect to 15:33:56	21
22	permitting, I understand that your schedule 15:33:57	22
23	assumes the same time periods roughly as the 15:33:59	23
24	Windstream schedule for a few items. So the 15:34:03	24
25	and correct me if I'm wrong, because I may be 15:34:08	25

	Page 278
1	wrong, but I think it assumes about the same time 15:34:09
2	periods for the scoping work; right? 15:34:12
3	A. I believe so. I would 15:34:14
4	have to look to check. 15:34:15
5	Q. Okay. But you don't 15:34:16
6	disagree with 15:34:18
7	A. Again, I would have to 15:34:21
8	Q. Can you look? 15:34:21
9	A. I can look, sure. 15:34:21
10	Q. Why don't we pull out the 15:34:22
11	schedule? 15:34:24
12	A. Sure. 15:34:24
13	Q. I think you have a 15:34:24
14	section which sets it out rather succinctly right 15:34:25
15	before the schedule. So the schedule is we 15:34:28
16	were on it. It was on page 91. And you've got 15:34:31
17	the REA work on starting on page 86, 15:34:34
18	permitting. 15:34:41
19	So you say: 15:34:50
20	"In line with 15:34:51
21	Windstream's assumptions, 15:34:52
22	URS assumes that this 15:34:53
23	work will start 15:34:54
24	immediately." 15:34:55
25	Then you are adopting, it 15:34:57

Page 279

	Page 279
1	looks like, the line 24 of the Windstream 15:34:58
2	schedule for a total of 56 days. So that's the 15:35:02
3	same amount of time; right. 15:35:06
4	A. That is correct. And I 15:35:07
5	would note the next line in that report, which 15:35:09
6	says: 15:35:12
7	"Subsequent work might be 15:35:12
8	required to refine the 15:35:14
9	scope of work for the 15:35:15
10	field studies." 15:35:16
11	And certainly, as I mentioned 15:35:17
12	during my presentation, that is certainly what we 15:35:19
13	typically experienced. 15:35:22
14	Q. Right. Okay. And you 15:35:24
15	still got the projects built? 15:35:25
16	A. Still got the projects 15:35:27
17	built. 15:35:29
18	Q. Okay. The real 15:35:29
19	discrepancy, I guess, though, is field studies; 15:35:32
20	right? 15:35:35
21	A. That would be correct. 15:35:36
22	Q. And I will get to field 15:35:38
23	studies, but just to run through the other items 15:35:40
24	that form the critical path, this is actually 15:35:42
25	quite critical in the critical path because it 15:35:44

informs when you get to the REA, which takes you 15:35:46
to the Notice to Proceed, which takes you to 15:35:49
financial close and construction; right? So it's 15:35:53
actually really quite material to the schedule 15:35:56
when you get to that REA; right? 15:35:59
A. Correct. 15:36:02
Q. Right. So if we shorten 15:36:02
that time frame, if the if it turns out the 15:36:04
Tribunal accepts an earlier REA date, for example, 15:36:09
in this but-for scenario, that actually has quite 15:36:11
a substantial impact on the following steps in the 15:36:14
critical path. Would you agree? 15:36:17
A. I would agree. 15:36:19
Q. Right. Okay. So we 15:36:20
needed to get this right. 15:36:21
A. Mm-hmm. 15:36:22
Q. And so I think the other 15:36:23
steps again, you will correct me if I'm wrong 15:36:27
here, but the steps that follow the field studies, 15:36:29

I also think, as I read it anyway, Windstream and 15:36:33 Windstream's experts and URS are on the same page, 15:36:38 roughly. 15:36:40 So you've got consultations, 15:36:40

which is the next item, and you say -- I think you 15:36:44 adopt the duration of the activities proposed by 15:36:46

	STREAM EVERGT LEC V. GOVERNMENT OF CANADA		1 coluary 19, 2010
	Page 281		Page 282
1	Windstream of five months; right? 15:36:49	1	changes like the one we discussed about 15:37:50
2	A. That's correct. 15:36:53	2	navigation. 15:37:52
3	Q. And then you've got the 15:36:53	3	So, yes, it starts with the 15:37:53
4	REA application, and I guess you have a comment in 15:36:58	4	field studies. It has broader implications. 15:37:55
5	there about the optimism of it, and yet you seem 15:37:01	5	Q. Okay. Well, just to 15:37:59
6	to have incorporated that time frame in your 15:37:05	6	identify the precise discrepancies, if you turn up 15:38:00
7	schedule; right? 15:37:07	7	Windstream's schedule, and just to be very 15:38:03
8	A. We have, and as you note, 15:37:10	8	because it's so critical to the critical path, to 15:38:05
9	we say that we think it's optimistic. 15:37:14	9	be very, very granular about what it is that we're 15:38:08
10	Q. Okay. But you're still 15:37:16	10	talking about here. Okay? 15:38:10
11	that's the schedule you're proposing? 15:37:17	11	A. Mm-hmm. 15:38:10
12	A. Mm-hmm. 15:37:18	12	Q. So if you look at the 15:38:11
13	Q. Then you have the ERT 15:37:19	13	Windstream or the Windstream's experts we 15:38:13
14	appeal, which shouldn't be controversial because 15:37:20	14	will just call it the Windstream schedule, but you 15:38:15
15	it's a six-month statutory appeal period. So 15:37:22	15	understand it is Windstream's experts that put it 15:38:16
16	really what we're arguing about here is a very 15:37:24	16	together; right? You understand that, sir? 15:38:19
17	discrete point, which is field studies. 15:37:27	17	A. Oh, sorry. Yes, I do 15:38:25
18	A. Mm-hmm. 15:37:29	18	understand that. 15:38:26
19	Q. And that is, I take it, 15:37:29	19	Q. I'm calling it the 15:38:26
20	birds studies, bat studies, fish studies, and 15:37:32	20	Windstream schedule. 15:38:28
21	maybe terrestrial studies. 15:37:36	21	A. Yes. 15:38:28
22	A. I would say generally. I 15:37:38	22	Q. I don't mean to suggest 15:38:29
23	think, as I mentioned before, it's a very 15:37:39	23	that Windstream put it together. 15:38:29
24	iterative process. We feel there hasn't been 15:37:42	24	A. I understand. 15:38:31
25	enough time allocated to account for layout 15:37:48	25	PRESIDENT: Ms. Seers, we 15:38:42
	Page 283		Page 284

version of this schedule.

1	could break at any time when it's convenient. 15:38:43	1
2	MS. SEERS: Sure. Certainly. 15:38:46	2
3	Should I well, this is a 15:38:49	3
4	PRESIDENT: No rush, but 15:38:50	4
5	whenever there is a change of subject. 15:38:51	5
6	MS. SEERS: This is actually, 15:38:53	6
7	unfortunately, rather technical, so if you would 15:38:54	7
8	rather have a break now, we can do that now and 15:38:57	8
9	come back to it. 15:38:59	9
10	PRESIDENT: Very good. So we 15:39:00	10
11	will break for 15 minutes and continue at 3:50. 15:39:02	11
12	MS. SEERS: Okay. Thank you. 15:39:09	12
13	Recess taken at 3:39 p m. 15:39:10	13
14	Upon resuming at 3:53 p.m. 15:53:57	14
15	PRESIDENT: Ms. Seers, please. 15:54:06	15
16	BY MS. SEERS: 15:54:08	16
17	Q. Thank you. We were about 15:54:09	17
18	to embark upon a review of various schedules, so 15:54:10	18
19	let's all bear with each other. It is a little 15:54:15	19
20	bit technical. 15:54:17	20
21	And so if you look at your 15:54:18	21
22	schedule, which, again, is at page 91 of your 15:54:25	22
23	second report, as I understand it, the 12 months 15:54:31	23
24	that you say are required for field studies are 15:54:39	24
25	lumped together into the schedule with field study 15:54:42	25

reports, subsequent activities, and MNR approval. 15:54:46 Is that correct? All in one lumped line? 15:54:50 A. I believe so. I'm more 15:54:53 familiar with, like, kind of a more detailed 15:54:54 15:54:58 Q. You're more familiar with 15:54:59

a more detailed version of the schedule? 15:55:00		
A. There yes. I recall 15:55:02		
seeing a broken out or similar more similar to 15:55:04		
what Windstream's experts had prepared. 15:55:07		
Q. Has that been made an 15:55:11		
appendix to your report or otherwise produced? 15:55:13		
A. I'm not sure. 15:55:15		
Q. You don't know? Okay. 15:55:16		
Well, I can tell you that we haven't seen it, so 15:55:17		
it hasn't been. 15:55:19		
A. Oh, okay. So use this. 15:55:19		
Q. So we're working with 15:55:21		
what we have here, which is what you put in your 15:55:22		
report. 15:55:24		
A. Sure. 15:55:25		
Q. So if I understand it, 15:55:25		
we're at line what I've just described is at 15:55:28		
line 9? 15:55:30		
A. Mm-hmm. 15:55:31		

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 285		Page 286
1	Q. So, really, you're 15:55:32	1	Q. And on this schedule, I 15:56:36
2	actually showing 657 days there. Is that right? 15:55:35	2	see that there is certain things happening on 15:56:37
3	A. That's correct. 15:55:42	3	above there with the Long Island various items 15:56:41
4	Q. So of those 657 days, 15:55:43	4	there. But, otherwise, that's really it looks 15:56:44
5	there's a year in there, 12 months, that are 15:55:47	5	like you're allowing for a year 15:56:46
6	that is consumed with 12 months of field studies 15:55:50	6	A. Mm-hmm. 15:56:48
7	where no subsequent permitting related work is 15:55:54	7	Q to go by where really 15:56:49
8	happening. Is that right? 15:55:58	8	all you're doing is going out and studying things, 15:56:51
9	A. Sorry, can you repeat 15:55:59	9	like birds and bats and fish. Is that right? 15:56:53
10	that again? 15:56:01	10	A. From this schedule, 15:56:59
11	Q. So of those 657 days in 15:56:01	11	that's how it appears, yes. 15:57:00
12	your schedule, in this line item here, line 12 15:56:07	12	Q. Your schedule? 15:57:01
13	pardon me, line 15:56:10	13	A. Mm-hmm. 15:57:02
14	A. Line 9? 15:56:11	14	Q. Right. Okay. And on the 15:57:03
15	Q 9, 12 months of that, 15:56:12	15	path here, if we're talking about the path in 15:57:08
16	so 365 days, is field studies; right? 15:56:15	16	terms of one task leading to another task leading 15:57:10
17	A. That's correct. 15:56:20	17	to another task, et cetera, that's what is holding 15:57:13
18	Q. And it doesn't you'll 15:56:20	18	up the following step, which looks like it's 15:57:16

Page	287

15:56:23

15:56:30

15:56:33

15:56:34

15:56:35

15:56:28

	-
1	before the appeal can be brought, you have to get 15:57:38
2	the REA. 15:57:41
3	So these are all the steps 15:57:43
4	have to happen sequentially, and so the the 15:57:45
5	field studies push you back. So let's look at the 15:57:48
6	field study component specifically, then. 15:57:50
7	A. Sure. 15:57:53
8	Q. Because I think that's 15:57:53
9	really, as we established, the only thing that we 15:57:54
10	disagree on, because the other time, as I 15:57:56
11	understand it, anyway you'll tell me if I'm 15:57:58
12	wrong that they're the same in this schedule. 15:58:00
13	A. Assuming that, as I 15:58:04
14	explained earlier, nothing else changes, layout 15:58:06
15	there's no other changes to the project. 15:58:10
16	Q. I am just comparing your 15:58:12
17	schedule and Windstream's schedule? 15:58:14
18	A. Sure. Based on the 15:58:15
19	schedule 15:58:16
20	Q. So they're the same 15:58:17
21	except for field studies? 15:58:17
22	A. Yes. I think the field 15:58:18
23	studies would be from a permitting perspective 15:58:19
24	Q. From a permitting 15:58:21
25	perspective, okay. And so just to so we know 15:58:22

correct me if I'm wrong, but it doesn't look like 15:56:22

anything else in the permitting rubric is

that's how it appears, yes.

happening at the same time. Is that right?

A. As the 12-month --

Q. As the field studies?

A. From this schedule,

6 11 6
above there with the Long Island various items 15:56:41
there. But, otherwise, that's really it looks 15:56:44
like you're allowing for a year 15:56:46
A. Mm-hmm. 15:56:48
Q to go by where really 15:56:49
all you're doing is going out and studying things, 15:56:51
like birds and bats and fish. Is that right? 15:56:53
A. From this schedule, 15:56:59
that's how it appears, yes. 15:57:00
Q. Your schedule? 15:57:01
A. Mm-hmm. 15:57:02
Q. Right. Okay. And on the 15:57:03
path here, if we're talking about the path in 15:57:08
terms of one task leading to another task leading 15:57:10
to another task, et cetera, that's what is holding 15:57:13
up the following step, which looks like it's 15:57:16
consultations, on line 10, and then the REA 15:57:21
application, on line 11, and then the ERT appeal. 15:57:24
And I take it the REA would have been issued at 15:57:29
the I guess at the end of the REA application. 15:57:32
It's not shown separately, but is that right? 15:57:34
A. That's correct. 15:57:36
Q. Because it would be 15:57:37

-
that you've allowed for 12 months, so 365 days. 15:58:24
Just to identify the discrepancy, if you look up 15:58:28
at Windstream's schedule, you will see line 27. 15:58:30
Just identify what these items are, because 15:58:35
Windstream's schedule is a lot more detailed, so 15:58:37
just to make sure we're comparing apples and 15:58:39
apples here. 15:58:43
A. Yes. 15:58:43
Q. On Windstream's schedule 15:58:43
you have line 27 is avian field surveys. Do 15:58:44
you see that? 15:58:48
A. I do. 15:58:48
Q. And that allows for eight 15:58:49
months of avian field surveys occurring from March 15:58:52
of 2011 to November 2011; right? 15:58:57
A. That's right. I would 15:59:02
just point out Mr. Roberts talked about spring and 15:59:04
fall survey windows. 15:59:09
Q. Right. So that's what is 15:59:11
being reflected here, the spring and the fall? 15:59:13
A. Yeah. And so what I was 15:59:14
going to say was that and if you look back at 15:59:16
the Genivar report, again WSP, same company, it 15:59:19
identified winter raptor surveys. Winter raptors 15:59:23
are hawks, owls. And that's typically something 15:59:27

	Page 289		Page 290
1	that is required under REA, and that happens in 15:59:30	1	terrestrial fieldwork, which is about two months. 16:00:23
2	usually January/February timeline. It's early 15:59:34	2	A. That's correct. 16:00:27
3	it's early winter. 15:59:40	3	Q. Right? Okay. So by my 16:00:27
4	Q. Okay. Well, we will get 15:59:42	4	calculation, the earliest of these studies begins 16:00:31
5	to the Genivar proposal in a moment 15:59:43	5	in about February 2011, for the bat field surveys, 16:00:33
6	A. Sure, sure. 15:59:45	6	and the latest ends in November 2011, for the 16:00:39
7	Q but I want to focus on 15:59:45	7	avian field surveys; right? 16:00:42
8	the Windstream schedule for now. So the avian 15:59:47	8	A. That's correct. 16:00:44
9	field surveys, that's the birds? 15:59:50	9	Q. It's about eight and a 16:00:44
10	A. That's correct. 15:59:52	10	half months. So we have eight and a half months 16:00:46
11	Q. Then we have a few lines 15:59:52	11	on this schedule, 12 months on your schedule; 16:00:49
12	down, line 29, we have the bat field surveys which 15:59:54	12	right? 16:00:52
13	is allows for about seven months; right? 15:59:58	13	A. Mm-hmm. 16:00:53
14	A. That's correct. 16:00:01	14	Q. Okay. Now and you 16:00:53
15	Q. And then line 31, you've 16:00:02	15	explained the need for 12 months for field studies 16:00:53
16	got aquatic field surveys, which is fish and those 16:00:05	16	and the aquatic study at paragraph 280 of your 16:00:56
17	other aquatic species. It allows about 54 days; 16:00:10	17	report; right? You want to pull it up? 16:00:59
18	right? 16:00:14	18	A. That's correct. 16:01:08
19	A. That's correct. 16:00:15	19	Q. So you start in I 16:01:15
20	Q. And I know you have 16:00:15	20	appreciate the discussion starts with fish, but I 16:01:19
21	something to say about that, so we'll get to that 16:00:16	21	would like to focus on birds first. So that's 16:01:20
22	later. I'm just really setting this out for the 16:00:18	22	actually paragraph 281. 16:01:23
23	record. 16:00:21	23	And in fairness to you, 16:01:32
24	A. Yes. 16:00:21	24	actually you don't mention birds specifically, but 16:01:36
25	Q. And line 35, you've got 16:00:21	25	if you go to the reference, which is to the 16:01:40
	Daga 201		Daga 202
1	Page 291		Page 292
1	Genivar proposal, so your reference, you say: 16:01:43	1	A. Public Meeting No. 1? 16:02:54
2	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46	2	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55
2 3	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47	2 3	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56
2 3 4	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49	2 3 4	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03
2 3 4 5	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50	2 3 4 5	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07
2 3 4 5 6	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51	2 3 4 5 6	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07
2 3 4 5 6 7	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52	2 3 4 5 6 7	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09
2 3 4 5 6	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53	2 3 4 5 6	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09 A. That's correct. 16:03:09
2 3 4 5 6 7 8 9	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53 your reference for that information is the Genivar 16:01:55	2 3 4 5 6 7 8 9	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09 A. That's correct. 16:03:09 Q. So that's not 16:03:10
2 3 4 5 6 7 8	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53 your reference for that information is the Genivar 16:01:55 proposal; right? 16:01:57	2 3 4 5 6 7 8	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09 A. That's correct. 16:03:09 Q. So that's not 16:03:10 obviously that's not 12 months; right? 16:03:12
2 3 4 5 6 7 8 9 10	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53 your reference for that information is the Genivar 16:01:55 proposal; right? 16:01:57 A. That's correct. 16:01:59	2 3 4 5 6 7 8 9 10	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09 A. That's correct. 16:03:09 Q. So that's not 16:03:10 obviously that's not 12 months; right? 16:03:12 A. That is not 12 months, 16:03:15
2 3 4 5 6 7 8 9 10 11	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53 your reference for that information is the Genivar 16:01:55 proposal; right? 16:01:57 A. That's correct. 16:01:59 Q. Okay. So let's go to 16:01:59	2 3 4 5 6 7 8 9 10 11	A. Public Meeting No. 1? 16:02:54 Q. Pardon me. It's page 2 16:02:55 of the Gantt chart which talks about these field 16:02:56 studies, so line 5, avian field studies. 16:03:03 A. Yes. 16:03:07 Q. So it says 186 days; 16:03:07 right? 16:03:09 A. That's correct. 16:03:09 Q. So that's not 16:03:10 obviously that's not 12 months; right? 16:03:12 A. That is not 12 months, 16:03:15 no. 16:03:17
2 3 4 5 6 7 8 9 10 11 12	Genivar proposal, so your reference, you say: 16:01:43 "URS' assumption of a 16:01:46 minimum field study 16:01:47 duration of 12 months is 16:01:49 further corroborated by 16:01:50 Genivar, now WSP." 16:01:51 A. Mm-hmm. 16:01:52 Q. So you're referring 16:01:53 your reference for that information is the Genivar 16:01:55 proposal; right? 16:01:57 A. That's correct. 16:01:59 Q. Okay. So let's go to 16:01:59 that, which we have seen already. But it's at Tab 16:02:01	2 3 4 5 6 7 8 9 10 11 12	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$
2 3 4 5 6 7 8 9 10 11 12 13	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:06	2 3 4 5 6 7 8 9 10 11 12 13	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$
2 3 4 5 6 7 8 9 10 11 12 13 14	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:06If you go to page 57, it16:02:24	2 3 4 5 6 7 8 9 10 11 12 13 14	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$
2 3 4 5 6 7 8 9 10 11 12 13 14 15	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:06If you go to page 57, it16:02:24	2 3 4 5 6 7 8 9 10 11 12 13 14 15	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:06If you go to page 57, it16:02:24should be flagged for you.16:02:29	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:27$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:06If you go to page 57, it16:02:24should be flagged for you.16:02:29A. Am I looking at the16:02:35	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:27$ A. The text does describe 12 $16:03:28$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Genivar proposal, so your reference, you say: $16:01:43$ "URS' assumption of a $16:01:46$ minimum field study $16:01:47$ duration of 12 months is $16:01:49$ further corroborated by $16:01:50$ Genivar, now WSP." $16:01:51$ A. Mm-hmm. $16:01:52$ Q. So you're referring $16:01:53$ your reference for that information is the Genivar $16:01:55$ proposal; right? $16:01:57$ A. That's correct. $16:01:59$ Q. Okay. So let's go to $16:01:59$ that, which we have seen already. But it's at Tab $16:02:01$ 8. It's Exhibit C-0865. $16:02:24$ should be flagged for you. $16:02:29$ A. Am I looking at the $16:02:35$ schedule again? $16:02:36$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months; $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:27$ A. The text does describe 12 $16:03:28$ months. I agree $16:03:30$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Genivar proposal, so your reference, you say: $16:01:43$ "URS' assumption of a $16:01:46$ minimum field study $16:01:47$ duration of 12 months is $16:01:49$ further corroborated by $16:01:50$ Genivar, now WSP." $16:01:51$ A. Mm-hmm. $16:01:52$ Q. So you're referring $16:01:53$ your reference for that information is the Genivar $16:01:55$ proposal; right? $16:01:57$ A. That's correct. $16:01:59$ Q. Okay. So let's go to $16:01:59$ that, which we have seen already. But it's at Tab $16:02:01$ 8. It's Exhibit C-0865. $16:02:24$ should be flagged for you. $16:02:29$ A. Am I looking at the $16:02:35$ schedule again? $16:02:37$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months; $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:22$ provided for 12 months; right? $16:03:22$ months: I agree $16:03:30$ Q. Can you show me where in $16:03:31$
$\begin{array}{c} 2 \\ 3 \\ 4 \\ 5 \\ 6 \\ 7 \\ 8 \\ 9 \\ 10 \\ 11 \\ 12 \\ 13 \\ 14 \\ 15 \\ 16 \\ 17 \\ 18 \\ 19 \\ 20 \end{array}$	Genivar proposal, so your reference, you say:16:01:43"URS' assumption of a16:01:46minimum field study16:01:47duration of 12 months is16:01:49further corroborated by16:01:50Genivar, now WSP."16:01:51A. Mm-hmm.16:01:52Q. So you're referring16:01:53your reference for that information is the Genivar16:01:55proposal; right?16:01:57A. That's correct.16:01:59Q. Okay. So let's go to16:01:59that, which we have seen already. But it's at Tab16:02:018. It's Exhibit C-0865.16:02:24should be flagged for you.16:02:29A. Am I looking at the16:02:35schedule again?16:02:37numbers. There was a page number when I was16:02:37	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:27$ A. The text does describe 12 $16:03:28$ months. I agree $16:03:30$ Q. Can you show me where in $16:03:31$ the text it describes 12 months? I think I can $16:03:33$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Genivar proposal, so your reference, you say: $16:01:43$ "URS' assumption of a $16:01:46$ minimum field study $16:01:47$ duration of 12 months is $16:01:47$ duration of 12 months is $16:01:49$ further corroborated by $16:01:50$ Genivar, now WSP." $16:01:51$ A. Mm-hmm. $16:01:52$ Q. So you're referring $16:01:53$ your reference for that information is the Genivar $16:01:55$ proposal; right? $16:01:57$ A. That's correct. $16:01:59$ Q. Okay. So let's go to $16:01:59$ that, which we have seen already. But it's at Tab $16:02:01$ 8. It's Exhibit C-0865. $16:02:24$ should be flagged for you. $16:02:35$ schedule again? $16:02:37$ numbers. There was a page number when I was $16:02:37$ numbers.numbers. There was a page number when I was $16:02:42$ A. Tm looking at the $16:02:40$ charts again?A. Tm looking at the Gantt $16:02:40$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:23$ months. I agree $16:03:30$ Q. Can you show me where in $16:03:31$ the text it describes 12 months? I think I can $16:03:33$ help you. $16:03:35$ A. You're going to have to $16:03:35$ give me a moment. $16:03:36$
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Genivar proposal, so your reference, you say: $16:01:43$ "URS' assumption of a $16:01:46$ minimum field study $16:01:47$ duration of 12 months is $16:01:49$ further corroborated by $16:01:50$ Genivar, now WSP." $16:01:51$ A. Mm-hmm. $16:01:52$ Q. So you're referring $16:01:53$ your reference for that information is the Genivar $16:01:55$ proposal; right? $16:01:57$ A. That's correct. $16:01:59$ Q. Okay. So let's go to $16:02:01$ 8. It's Exhibit C-0865. $16:02:06$ If you go to page 57, it $16:02:24$ should be flagged for you. $16:02:35$ schedule again? $16:02:37$ numbers. There was a page number when I was $16:02:37$ numbers. There was a page number when I was $16:02:30$ A. Tm looking at the Gantt $16:02:40$	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	A. Public Meeting No. 1? $16:02:54$ Q. Pardon me. It's page 2 $16:02:55$ of the Gantt chart which talks about these field $16:02:56$ studies, so line 5, avian field studies. $16:03:03$ A. Yes. $16:03:07$ Q. So it says 186 days; $16:03:07$ right? $16:03:09$ A. That's correct. $16:03:09$ Q. So that's not $16:03:10$ obviously that's not 12 months; right? $16:03:12$ A. That is not 12 months, $16:03:15$ no. $16:03:17$ Q. So your reference in your $16:03:17$ report for the 12 month field studies for birds is $16:03:19$ based on this proposal which is not actually $16:03:22$ provided for 12 months; right? $16:03:23$ months. I agree $16:03:30$ Q. Can you show me where in $16:03:31$ the text it describes 12 months? I think I can $16:03:33$ help you. $16:03:35$ A. You're going to have to $16:03:35$

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 293		Page 294
1	you cite 16:03:40	1	build this project on time, this is the 16:04:55
2	A. Sure. 16:03:41	2	information that you relied on to prepare that? 16:04:57
3	Q which is page 6, I 16:03:42	3	A. Let me just look for a 16:05:03
4	think. 16:03:46	4	second. So there's a paragraph on page 5 which 16:05:05
5	A. Yes, there is a reference 16:04:02	5	talks about this is one, two, three, four, 16:05:57
6	to two weeks over one year for field. 16:04:02	6	five, six: 16:06:01
7	Q. So it's section you 16:04:06	7	"This project is the 16:06:01
8	cite the section as so this document is 16:04:06	8	first of its kind in 16:06:03
9	confusing actually because the page numbers 16:04:09	9	Canada. The level of 16:06:04
10	restart by section. So if you go to Section 5.2, 16:04:11	10	study requirements 16:06:05
11	at page 6 of that section, you will see there is 16:04:14	11	required by the 16:06:05
12	a I see where you likely got this reference 16:04:24	12	regulatory authorities 16:06:06
13	from. There's a No. 2 there. Do you see that? 16:04:29	13	will likely be high. As 16:06:08
14	A. Yes, that's correct. 16:04:33	14	such, the scenario 16:06:09
15	Q. Field inventories, 12 16:04:34	15	presented involved one 16:06:10
16	weeks over a year. Do you see that? 16:04:36	16	year of field work to 16:06:12
17	A. I do. 16:04:40	17	complete a baseline that 16:06:13
18	Q. So is that the reference? 16:04:40	18	will cover at least one 16:06:14
19	Is that where you got your information? 16:04:42	19	year of different 16:06:15
20	A. I believe that would have 16:04:44	20	hydraulic biologic and 16:06:16
21	been the reference, yes. 16:04:45	21	meteorologic. 16:06:21
22	Q. So just to be very clear, 16:04:46	22	Q. So there's also that 16:06:21
23	when you were putting together this Gantt chart to 16:04:47	23	information, so that paragraph there and the one 16:06:21
24	put together the schedule for this proposal to 16:04:49	24	on the next page; right? 16:06:23
25	come to the conclusion that Windstream couldn't 16:04:53	25	A. Yeah. And I would add I 16:06:24
	Page 295		Page 296
1	did mention I'm not a biologist. We do have 16:06:25	1	Q. So if I were to put to 16:07:07
2	biologists on staff. 16:06:29	2	you, though, you were I think you were here 16:07:09
3	Q. Right. Right. But 16:06:30	3	when Mr. Roberts was testifying about this very 16:07:11
4	A. I did ask the question 16:06:30	4	topic this morning. 16:07:13
5	can I finish? 16:06:31	5	A. I was here. 16:07:14
6	Q. Sorry. 16:06:32	6	Q. So and Mr. Roberts' 16:07:15
7	A. I did ask the question, 16:06:33	7	evidence is that, actually, the explanation for 16:07:18
8	when we were reviewing this team of a biologist 16:06:34	8	this apparent discrepancy to lay people, like me, 16:07:21
9	who used to be employed at an agency, a relevant 16:06:36	9	between saying one year in the text of something 16:07:25

0	when we were reviewing this team of a biologist 10.00.34	0
9	who used to be employed at an agency, a relevant 16:06:36	9
10	agency I can't recall if it's DFO or MNR 16:06:41	10
11	what he would expect. And he said a four-season 16:06:45	11
12	sampling protocol. 16:06:49	12
13	Q. Right. Okay. But that 16:06:51	13
14	biologist is not 16:06:52	14
15	A. He is not here. 16:06:53	15
16	Q. So you are here. 16:06:54	16
17	A. I am here. 16:06:55	17
18	Q. And so I am asking you, 16:06:55	18
19	who signed this report and who is the expert 16:06:56	19
20	witness in this proceeding 16:06:58	20
21	A. Yes. 16:06:59	21
22	Q what if this is the 16:07:01	22
23	information that you relied upon. I guess you 16:07:03	23
24	also had a conversation with somebody else? 16:07:05	24
25	A. That's correct. 16:07:07	25

iying and then putting six months in a Gantt chart is 16:07:28 that, actually, for biologists, a year doesn't 16:07:31 mean 12 months; it means seasons. And I think 16:07:35 that's probably consistent with what you just 16:07:38 said? 16:07:41 A. I think he was -- and we 16:07:41 would have to go back to the transcript. I 16:07:42 thought he was referring to birds for that 16:07:44 particular discussion. 16:07:46 Q. Well, that's actually 16:07:47

what we're talking about. A. I thought we were talking 16:07:48 about fish. D. No. We're actually 16:07:50 talking about birds. A. Are we still talking 16:07:52

CONFIDENTIAL AND RESTRICTED February 19, 2016

Page 297				Page 298
16:07:54	1	proposal?	16:	08:38
g about 16:07:54	2		A however, if you look	16:08:38

1	about birds? 16:07:54	1
2	Q. Yes, we're talking about 16:07:54	2
3	birds, which is line 6 of the Gantt chart. 16:07:56	3
4	A. Okay. 16:07:58	4
5	Q. But do we need to start 16:08:00	5
6	over? 16:08:01	6
7	A. No, no. That's okay. 16:08:02	7
8	Q. So you did actually 16:08:04	8
9	this is actually fish, that paragraph there that 16:08:07	9
10	you took 16:08:11	10
11	A. Yes. You're right. 16:08:11	11
12	Q that you were talking 16:08:12	12
13	about actually. But you're right there. But when 16:08:13	13
14	we were looking at the Gantt chart, it was birds. 16:08:16	14
15	So, actually, if we're talking 16:08:18	15
16	about birds and you put a year, what is can you 16:08:21	16
17	point me to the reference? Because you cite this 16:08:25	17
18	proposal. 16:08:28	18
19	A. Sure. 16:08:28	19
20	Q. So I would like you to 16:08:29	20
21	point us to the reference where you got your 16:08:30	21
22	information. 16:08:32	22
23	A. So I don't think there's 16:08:33	23
24	anything specific in this proposal that talks 16:08:35	24
25	Q. There is nothing in this 16:08:37	25
		1

at wintering birds -- and this is the point I made 16:08:39 earlier about winter raptors -- there is a 16:08:41 section: 16:08:44 "Wintering birds, song 16:08:44 birds, raptors, water 16:08:46 fowl are not usually 16:08:48 expected to be of major 16:08:48 concern in the case of 16:08:49 offshore projects. 16:08:51 However, both Wolfe 16:08:52 Island and Amherst 16:08:53 Islands had some of the 16:08:55 highest recorded 16:08:55 densities of over 16:08:56 wintering raptors. 16:08:58 Favourable habitats for 16:08:59 the various species will 16:09:02 be identified during the 16:09:02 first year of 16:09:03 16:09:04 spring-to-fall surveys conducted on the study 16:09:06 area. Survey stations 16:09:07 will cover the whole

Page 299

1 A. But winter raptors are project area. 16:09:53 2 "During early winter --" required as part of the NHA. 16:09:55 3 Which I take to be the Q. Okay. Did you -- you're 16:09:57 following year. 4 aware, sir -- let's back up. 16:09:58 "-- four automatic survey 16:09:08 5 I think you confirmed already 16:10:00 stations will be set up 16:09:13 6 you're not a bird expert; right? 16:10:01 7 in order to verify the A. I am not a biologist. 16:10:02 16:09:14 8 Q. Okay. You're not a bird 16:10:04 presence of targeted key 16:09:15 9 biologist. Did you, in preparing this report that 16:10:05 specie of owls." 16:09:16 10 you filed in this case --16:10:07 16:09:18 Q. Okay. And so I take it 11 A. Hmm-hmm. 16:10:09 that your conclusion is that you need to account 16:09:20 12 Q. -- which talks about 16:10:10 for the presence of winter raptors for the purpose 16:09:22 13 birds and field studies for birds, were you aware 16:10:11 of putting together this schedule? 16:09:26 14 that there had been an expert report submitted by 16:10:14 A. Yes. 16:09:28 15 Windstream -- on behalf of Windstream, rather, by 16:10:17 Q. And your basis for is 16:09:29 16 a Dr. Paul Kerlinger? 16:10:19 that is this Genivar proposal given to Windstream 16:09:32 17 A. I heard it this 16:10:20 in 2010? 16:09:34 18 afternoon. 16:10:23 A. And my, you know, 16:09:35 O. You heard it this 19 16:10:24 knowledge of REA requirements and what is required 16:09:38 20 afternoon. So actually when you prepared your under the Natural Heritage Assessment. 16:09:42 21 expert report, you had not reviewed that expert 16:10:26 Q. Your knowledge of this 16:09:45 22 report from Dr. Kerlinger? 16:10:29 particular project area? 16:09:46 23 A. I don't recall. 16:10:31 A. I wouldn't say I'm overly 16:09:48 24

knowledgeable of this.

Q. Right.

16:10:25

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 301		Page 302
1	expert report? 16:10:36	1	getting into the details, unless you need to, with 16:12:10
2	A. I don't recall if I 16:10:37	2	the exception of some species, mostly during the 16:12:14
3	reviewed it. 16:10:38	3	migration season, virtually no raptors will be 16:12:17
4	Q. You don't recall if you 16:10:39	4	presents within the WIS turbine area. Do you see 16:12:20
5	reviewed it? Perhaps my colleagues can assist me 16:10:40	5	that? 16:12:22
6	in pulling up Dr. Kerlinger's report for the 16:10:43	6	A. I do see that. 16:12:22
7	witness and the Tribunal. I don't have copies. 16:10:45	7	Q. And I take it, since you 16:12:24
8	They should be in the first book of expert reports 16:10:50	8	are not a bird expert, you have no reason to 16:12:25
9	filed by the Claimant. The reference would be CER 16:10:54	9	disagree with that? 16:12:26
10	- Kerlinger. 16:11:01	10	A. I have no reason to 16:12:27
11	So we're going to be at 16:11:21	11	disagree with that. I guess what I would add is 16:12:29
12	paragraph 28 on page 11 of that report. 16:11:23	12	that that's likely not going to satisfy MNR that 16:12:32
13	You see paragraph 28, Mr. 16:11:37	13	you don't have to do studies. 16:12:35
14	Rose? 16:11:43	14	Q. Okay. 16:12:35
15	A. Oh, page 11. Sorry. I 16:11:44	15	A. And MNR the agencies 16:12:36
16	was on page 28. Yes, I see it. 16:11:46	16	are the ones who are going to determine whether 16:12:39
17	Q. It's called there's a 16:11:55	17	you need to do studies and what those studies look 16:12:41
18	called "Diurnal and Nocturnal Raptors." Do you 16:11:56	18	like. 16:12:43
19	see that? 16:12:01	19	And I've been on calls with 16:12:44
20	A. I do. 16:12:01	20	MNR, with our experts, some of whom have 30 years 16:12:46
21	Q. Same kind of raptors you 16:12:01	21	of biology experience, and, like lawyers, they 16:12:49
22	were just talking about? 16:12:04	22	don't always agree. 16:12:53
23	A. That's correct. 16:12:06	23	Q. Right. 16:12:54
24	Q. Okay. If you go to the 16:12:06	24	A. So sometimes you have an 16:12:55
25	bottom, the punch line, if you will, without 16:12:08	25	expert saying, "We don't need to do studies," and 16:12:58
	Page 303		Page 304
1	the MNR is going to tell you, we want to see the 16:13:01	1	habitat alteration 16:14:21
2	proof that show me you've done the studies and 16:13:04	2	assessment tool." 16:14:23
3	confirm with me that they're not there. 16:13:08	3	And your reference for that 16:14:24
4	Q. Okay. Why don't we move 16:13:10	4	information, sir, is a document from the 16:14:26
5	on to fish, which is right above in your 16:13:14	5	Department of Fisheries and Oceans website, which 16:14:29
6	discussion here, what you call "Environmental 16:13:20	6	is Exhibit R-0359, I believe. It's Footnote 128 16:14:31
7	Studies Program Risk," which really drives this 12 16:13:23	7	in your report. Is that correct? 16:14:40
8	months that you put in the schedule, which is 16:13:25	8	A. That is correct. 16:14:43
9	different than Windstream's. 16:13:30	9	Q. Okay. And I have 16:14:43
10	So I'm at, yes, paragraph 280. 16:13:57	10	included that document at Tab 10 of your binder, 16:14:44
11	So you say: 16:14:01	11	and I reviewed it, and I was just wondering if you 16:14:54
12	"A minimum of four 16:14:01	12	could help point us to the section of that 16:14:56
13	seasons of fieldwork 16:14:03	13	document that provides the information you lay out 16:14:58
14	extending over 12-months 16:14:04	14	in your report. It's a pretty short document. I 16:15:01
15	period would be expected 16:14:06	15	think I can help you. I have reviewed it. It's 16:15:37
16	by the Department of 16:14:07	16	not there. 16:15:39
17	Fisheries and Oceans for 16:14:08	17	A. I would agree with that 16:15:40
10		10	

projects that require

habitat."

offshore infills of fish

And you further state that:

to provide sufficient

16:14:09

16:14:17

16:14:12

16:14:10

16:14:12

"The timeline proposed by 16:14:14

Windstream is inadequate 16:14:16

information for the DFO's 16:14:18

18

statement.

16:15:53

16:15:56

16:15:59

16:16:01

16:15:41

Q. Now, if you turn the next 16:15:42

tab, you've got an excerpt, the next tab in your 16:15:43

of JoAnne Lane or the expert opinion of Joanne

Lane, submitted on behalf of Windstream in this

And I don't believe you

proceeding as part of the Baird report.

binder. You have an expert from the expert report 16:15:47

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 305		Page 306
1	disagreed with me that you are not a fish expert, 16:16:02	1	2011 (2 months)."
2	and Ms. Lane is a fish expert. 16:16:05	2	And then she allows six months 16:16:53
3	A. I know Ms. Lane. She is 16:16:07	3	for analysis reporting, discussions with the 16:16:56
4	a fish expert. 16:16:09	4	agencies, and preparation and submission of 16:16:57
5	Q. Right. Okay. And Ms. 16:16:10	5	applications for authorizations and permits; 16:16:58
6	Lane concludes, as you'll see and perhaps it's 16:16:11	6	right? 16:17:02
7	useful, given that we have conflicting information 16:16:15	7	A. That is correct. 16:17:02
8	here, to go through what Ms. Lane has to say. 16:16:18	8	Q. Okay. And then on page 16:17:03
9	She's got if you turn to page 90 of her report, 16:16:22	9	91, she gives examples of projects that she was 16:17:04
10	she states: 16:16:30	10	personally involved with where the timing was 16:17:07
11	"Habitat assessment would 16:16:31	11	consistent with the timing in the project schedule 16:17:11
12	form the focus of the 16:16:32	12	that she contributed to for this proceeding; 16:17:13
13	fieldwork, but would also 16:16:33	13	right? 16:17:17
14	include limited fish 16:16:34	14	A. That is correct. 16:17:18
15	sampling in near-shore 16:16:36	15	Q. She mentioned 16:17:20
16	areas where cables emerge 16:16:38	16	specifically, for example, the western beaches, 16:17:21
17	and near Pigeon Island at	17	water course facility, fieldwork analysis, and 16:17:23
18	the proposed location of	18	consultation had been done within six months. And 16:17:26
19	extension for substation.	19	the new nuclear the new nuclear project at 16:17:29
20	Underwater cameras would	20	Darlington, which I take it you also worked on in 16:17:33
21	be mobilized to film	21	a different capacity 16:17:36
22	habitat at depths and	22	A. Mm-hmm. 16:17:38
23	locations corresponding	23	Q on Lake Ontario which 16:17:38
~ /			

24

25

Ontario; right?

Page 307

1	A. That's correct. I would 16:17:46
2	note that neither of these projects are REAs. And 16:17:46
3	as I just mentioned, the REA, being a prescriptive 16:17:50
4	and streamlined process, it's the agencies that 16:17:54
5	are going to tell you what the field requirements 16:17:57
6	are. 16:17:59
7	Q. So your evidence is that 16:17:59
8	the REA, being a prescriptive and streamlined 16:18:01
9	process, would have taken longer than the DFO 16:18:03
10	process? 16:18:06
11	A. I think some of the fish 16:18:06
12	requirements would have been part of the REA 16:18:08
13	process. 16:18:09
14	Q. I understand that. 16:18:10
15	That's perhaps the case, but I want to know 16:18:11
16	whether your evidence is that the REA, being 16:18:12
17	prescriptive and streamline, whether that would 16:18:14
18	have led to the permitting process under the REA 16:18:17
19	with respect to fish being longer than the DFO's 16:18:20
20	process? 16:18:24
21	A. It's unknown without 16:18:24
22	talking to the agencies, and as far as I know, 16:18:25
23	nobody I mean, this this talks about March 16:18:28
24	to May to commence discussion with agencies. I 16:18:30
25	don't think we have the answer to that. I don't 16:18:33

to proposed locations of

turbines -- June to July

Page 308

16:17:40

16:17:44

1	know the answer. I don't think Joanne Lane knows 16:18:36
2	the answer. 16:18:38
3	Q. Well, Joanne Lane has 16:18:38
4	provided her opinion 16:18:40
5	A. That's correct. 16:18:40
6	Q and we don't disagree 16:18:41
7	she is the fish expert. 16:18:43
8	A. That's correct. And that 16:18:44
9	she would need to talk to the agencies to confirm 16:18:45
10	what the requirements are. 16:18:47
11	Q. I don't think there's a 16:18:48
12	dispute that 16:18:49
13	A. Okay. 16:18:50
14	Q cooperation amongst 16:18:51
15	agencies is. And we have been talking about 16:18:52
16	pragmatism and cooperation quite a lot the last 16:18:54
17	few days. 16:18:56
18	If you actually before we 16:18:57
19	move, there's more about fish, but I'd like to 16:19:00
20	just conclude this segment about field studies, 16:19:02
21	because we skipped over bats and terrestrial. 16:19:05
22	A. Sure. 16:19:08
23	Q. So if we go to bats, the 16:19:09
24	Windstream schedule for bats allows seven months 16:19:20
25	for bat field surveys. And I'm just trying to 16:19:24

involved 40 hectares of landfill into Lake

24

25

A. Sure. Sorry, which tab

A. Oh, the numbering starts 16:20:25

is it again? Is it eight?

Q. Tab 8.

Q. Three.

A. 5.1.2 on page?

Q. Yes. It's very

confusing. Andrew, you should tell your

predecessor firm that they have confusing

16:21:06

16:21:08

16:21:09

16:21:09

16:21:12

16:21:13

16:21:11

find the reference here because I know you have 16:19:26	1	So on page 3 and perhaps 16:20:34
one in your report. Oh, yes. So it's paragraph 16:19:28	2	you can point us to the information you were 16:20:37
282 of your report. 16:19:38	3	relying on when you prepared this report. 16:20:39
So here, again, you're relying 16:19:39	4	A. We were looking at, one, 16:20:44
on Genivar and you say: 16:19:42	5	two, three, four, the fifth fifth paragraph 16:20:46
"Genivar further suggests 16:19:45	6	down on page 3: 16:20:50
the need for a 12-month 16:19:46	7	"Pre-construction 16:20:50
survey period for bats 16:19:48	8	acoustic bat surveys will 16:20:53
compared to approximately 16:19:50	9	be performed during a 16:20:54
seven months as now 16:19:51	10	one-year survey." 16:20:55
suggested by Windstream." 16:19:52	11	Q. Okay. So that's the 16:20:55
And the Footnote 130 is to the 16:19:53	12	A. So I think what we were 16:20:58
Genivar proposal, Section 5.1.2, on page 3. So 16:19:57	13	just trying to point out is there is an 16:20:59
let's turn that up, please. 16:20:02	14	inconsistency between what Genivar had proposed 16:21:01

16:20:22

16:20:27

16:20:33

16:20:27

	1 460 011
1	A. Well, I think yeah, I 16:21:19
2	think the bats is reasonable at seven months. 16:21:19
3	Q. The bats is reasonable at 16:21:21
4	seven months. 16:21:23
5	A. Again, not being a 16:21:28
6	biologist, I'm not a bat expert. 16:21:29
7	Q. You're not a bat expert. 16:21:31
8	But in case we ever have the need for a bat 16:21:31
9	expert 16:21:34
10	A. Don't call me. 16:21:34
11	Q we also have a report 16:21:35
12	from Dr. Reynolds in the record if it's useful for 16:21:37
13	you to review it. 16:21:39
14	So and just to close the 16:21:41
15	loop on bats, just for the record, the Genivar 16:21:44
16	proposal on which you relied to put 12 months into 16:21:49
17	your schedule, if you turn up the Gantt chart that 16:21:52
18	is at the end, page 2. 16:21:56
19	And just before we go to this, 16:22:03
20	I mean, you I just want to confirm you actually 16:22:04
21	relied entirely on this proposal in putting 16:22:06
22	together this schedule with respect to bats; 16:22:09
23	right? You didn't have any other sources? 16:22:11
24	A. No, I didn't have any. 16:22:14
25	Q. You didn't have any other 16:22:15

sources. So really, I mean, could we -- you say 16:22:16 seven months is reasonable, but would the amount 16:22:19

16:21:17

16:21:15

Page 312

seven monuis i	s reasonable, but would	i une ann	ount	10.22.17
of time that's in	this Gantt chart be reas	sonable	16	:22:21
then, if that's w	hat you relied on? May	be you	can	16:22:23
it's line 7, bat	field surveys.	16:22	2:29	
A.	Sorry, which tab is it?	16:22	2:34	
Q.	So it's Tab 8.	16:22:3	6	
А.	Tab 8. 10	5:22:39		
Q.	And you will see the	16:2	22:39	
longer sheets w	ith the red flag at the to	p. That	t 16	5:22:40
is the Gantt cha	rt. Are you there?	1	6:22:	43
A.	Seven, you mean?	16:2	22:56	i
Q.	Yes, line 7. Bat field	16:22	2:57	
surveys. Is that	the bat field studies that	at we	16:2	2:59
have been talki	ng about?	16:	23:01	l
	That's correct.			
Q.	Okay. So how much t	time	16:23	3:03
do they actually	allow?	16:2	3:04	
	It's 120 days.			
Q.	So four months?	16:2	3:07	
A.	Yeah. 10	6:23:09		
	And you relied on this			
	in 12 months in your re	-	16	5:23:11
		5:23:15		
Q.	But now you have agr	eed 1	16:23	:15

originally and what they were now saying, and I 16:21:04

Q. Okay. Great. So you're 16:21:13

Q. You don't disagree with

A. So if that saves some

-- so you're changing your schedule so that the

Q. Yes, it does.

A. Okay.

bats, at least, can be seven months?

don't disagree with seven months.

seven months?

time.

Q. Okay. So just so we have 16:23:47

16:24:02

it for the record, the Genivar proposal, if you go 16:23:49

A. I would assume so, yes.

Q. Okay. That's 40 days?

to line 13, it refers to terrestrial fieldwork.

Is that terrestrial studies? Is that the same

CONFIDENTIAL AND RESTRICTED February 19, 2016

16:25:06

16:25:08

16:25:15

16:25:13

Q. Okay. And then you state 16:25:11

"Should the aquatic field 16:25:13

environmental issues, the 16:25:16

	Page 313		Page 314
1	that seven months is reasonable, because that's 16:23:17	1	A. Yes. 16:24:07
2	what is in Windstream's schedule; right? 16:23:19	2	Q. Okay. So if you had, in 16:24:07
3	A. Mm-hmm. 16:23:22	3	fact, relied on this, you would have put 40 days 16:24:10
4	Q. Okay. Just to close the 16:23:22	4	in your schedule? 16:24:12
5	loop, terrestrial remind me how much time you 16:23:25	5	A. Yes. 16:24:13
6	had allowed for terrestrial field studies in 16:23:28	6	Q. Okay. Let's move on to 16:24:13
7	your 16:23:32	7	the other discussion that you have about fish 16:24:23
8	A. I don't recall, not with 16:23:32	8	that's immediately following this discussion of 16:24:25
9	the level of detail shown in this. 16:23:33	9	the field studies. Now you move on, and you talk 16:24:29
10	Q. Did you did you 16:23:35	10	about timing restrictions, which is actually 16:24:33
11	consider terrestrial field studies? 16:23:36	11	could impact construction. So it's quite an 16:24:39
12	A. Yes, we did. 16:23:37	12	important topic, right, in the schedule? 16:24:42
13	Q. Okay. So but you don't 16:23:38	13	A. I would agree. 16:24:45
14	know what you relied on? 16:23:40	14	Q. Okay. So you mention at 16:24:46
15	A. Not 16:23:42	15	paragraph 286 that this issue is, in fact, so 16:24:50
16	Q. Did you maybe rely on the 16:23:43	16	important in your opinion that it bears mentioning 16:24:56
17	Genivar proposal? 16:23:45	17	twice because the consequences of this risk 16:25:01
18	A. I don't recall. 16:23:46	18	materializing are so significant as to warrant 16:25:04

19

20

21

22

23

24

25

that:

some repetition; right?

A. Yes.

survey identify

Page	315

16:23:59

	rage 515		
1	authorities, DFO and 16:25:18	1	Q. Okay. But you weren't
2	MNRF" 16:25:20	2	involved in the first report; right?
3	Which I take it to mean are 16:25:20	3	A. That's correct. 16:2
4	department of Fisheries and Oceans, the federal 16:25:22	4	Q. Okay. But you prepared
5	government, and Ministry of Natural Resources and 16:25:24	5	this report, this part of this report?
6	Forestry, the provincial government? 16:25:26	6	A. I was involved in 16
7	A. That's correct. 16:25:27	7	preparing this report. That's correct.
8	Q. " may limit 16:25:28	8	Q. Okay. I just want to 1
9	construction activities 16:25:28	9	know who so you're here answering que
10	during critical life 16:25:29	10	about it, so are you the person who's respon
11	processes of fish 16:25:31	11	for the accuracy of the information in this
12	species, including fish 16:25:32	12	section? 16:26:
13	spawning but also time 16:25:34	13	A. Yes. 16:26:
14	periods for migration and 16:25:35	14	Q. Okay. So I want to know,
15	young of year 16:25:36	15	then, from you, sitting here, what information
16	development." 16:25:37	16	relied on in preparing this section of your
17	And you mention timing 16:25:38	17	report? 16:26:2
18	windows; right? 16:25:39	18	A. Those are general timing
19	A. Mm-hmm. 16:25:40	19	windows proposed by MNR.
20	Q. Now, I don't see a 16:25:40	20	Q. They're general timing
21	reference to a document in this section of your 16:25:43	21	windows proposed by MNR?
22	report. Did I miss it? 16:25:46	22	A. Mm-hmm. 16
23	A. Well, there is a 16:25:49	23	Q. Okay. And you say that
24	reference to our first report, but there is no 16:25:52	24	further on, I think, you say the conclus
25	other reference. 16:25:54	25	I guess, of this portion of your report is:

Q. Okay. But you weren't 16:25:55
involved in the first report; right? 16:25:57
A. That's correct. 16:25:59
Q. Okay. But you prepared 16:26:00
this report, this part of this report? 16:26:01
A. I was involved in 16:26:03
preparing this report. That's correct. 16:26:04
Q. Okay. I just want to 16:26:06
know who so you're here answering questions 16:26:07
about it, so are you the person who's responsible 16:26:09
for the accuracy of the information in this 16:26:11
section? 16:26:13
A. Yes. 16:26:14
Q. Okay. So I want to know, 16:26:15
then, from you, sitting here, what information you 16:26:17
relied on in preparing this section of your 16:26:20
report? 16:26:22
A. Those are general timing 16:26:23
windows proposed by MNR. 16:26:24
Q. They're general timing 16:26:27
windows proposed by MNR? 16:26:28
A. Mm-hmm. 16:26:29
Q. Okay. And you say that 16:26:30
further on, I think, you say the conclusion, 16:26:35
I guess, of this portion of your report is: 16:26:42
Grand, in Frank,

19

20

21

22

23

24

25

thing?

CONFIDENTIAL AND RESTRICTED February 19, 2016

Page 317

1	"Until site studies have 16:26:44
2	been conducted, it is 16:26:45
3	difficult to assess the 16:26:47
4	risks to the project. 16:26:48
5	However, should this risk 16:26:49
6	materialize, the impact 16:26:50
7	on schedule would be very 16:26:52
8	high." 16:26:53
9	Right? 16:26:54
10	And I have to tell you, sir, 16:26:55
11	that I'm perplexed by that comment, because I take 16:26:56
12	it that you're not saying the risk is high. 16:26:59
13	You're saying you're just saying you have no 16:27:03
14	idea if the risk will materialize. But if it 16:27:05
15	didn't materialize, the impact would be high. Is 16:27:08
16	that what you're saying? 16:27:10
17	A. I think what we're saying 16:27:10
18	is, if the agencies applied those timing windows, 16:27:11
19	the risk would be high. 16:27:14
20	Q. If the agencies but 16:27:16
21	you don't know if they're going to apply them, so 16:27:17
22	you don't know 16:27:19
23	A. It's unknown until you've 16:27:20
24	done the site studies and until you've negotiated 16:27:21
25	with the agencies. 16:27:24

Page 318 1 Q. So in preparing this 16:27:25 2 report, though, you didn't really know which it 16:27:26 3 would be? 16:27:29 4 A. Like I said, without --16:27:31 5 this would be something you would consider knowing 16:27:33 6 it's a possibility. 16:27:35 7 Q. Okay. 16:27:36 8 A. So, I mean, you could 16:27:37 9 look at it the other way and say, "I could pretend 16:27:38 there's no timing windows," and then find yourself 16:27:40 10 11 in deep trouble when you actually try to build it. 16:27:43 12 Q. Okay. Did you look, in 16:27:45 13 preparing this portion of your report, at any of 16:27:48 14 the available information regarding what fish 16:27:50 15 species are likely to be present in the project 16:27:55 16 area? 16:27:57 17 A. I looked at the 16:27:58 18 information that was provided by Baird and Joanne 16:27:59 19 Lane. 16:28:03 20 Q. You looked at the 16:28:03 information that was provided by Baird and Joanne 16:28:05 21 22 Lane? 16:28:07 23 A. Mm-hmm. 16:28:08 24 Q. Okay. But -- well, let's 16:28:08 25 go to Joanne Lane's report, then? 16:28:09

Page 319

1

2

3

19

20

21

22

23

24

25

	-
1	A. Sure. Sure. 16:28:11
2	Q. So you I just want to 16:28:12
3	understand. You relied on Joanne Lane's report to 16:28:13
4	come to your conclusion, and yet she is the 16:28:15
5	expert, and you're not. But you come to a 16:28:18
6	different conclusion than her, having relied on 16:28:20
7	nothing other than her report, and certainly not 16:28:23
8	any additional expertise from you. 16:28:26
9	I'm just very I don't 16:28:28
10	understand, sir. Can you 16:28:30
11	A. Like I said, I'm relying 16:28:32
12	on the fact that site studies haven't been done; 16:28:34
13	that JoAnne Lane is hypothesizing about what is 16:28:37
14	likely there without doing the field studies 16:28:41
15	Q. Okay. 16:28:41
16	A and what the outcome 16:28:43
17	of discussions with two ministries might be in the 16:28:46
18	future based on those field studies. 16:28:51
19	Q. So but I take it you 16:28:52
20	don't disagree, sir, that Ms. Lane has substantial 16:28:54
21	knowledge and expertise in connection with the 16:28:58
22	fish species that are present in Lake Ontario? 16:29:01
23	A. She is a knowledgeable 16:29:05
24	fisheries biologist. 16:29:07
25	Q. Right. 16:29:07

A. However, she hasn't done 16:29:09 any studies in that -- as far as I'm aware, she 16:29:11 has not completed any fieldwork. 16:29:13 Q. No. And there's no, 16:29:14 there's no dispute there --16:29:17 A. Okay. 16:29:18 Q. -- that Windstream was 16:29:18 not permitted to conduct fieldwork, so none of the 16:29:19 expert reports contain, as far as I'm aware, 16:29:22 fieldwork. 16:29:24 But the task at hand was to -- 16:29:25 the task that we're all faced with in this portion 16:29:28 of this case, sir, is to ascertain likelihoods, 16:29:31 because that's the -- that's the exercise. 16:29:36 And so the question that was 16:29:38 posed to Ms. Lane was whether there were any 16:29:40 material impediments, and we have heard a lot 16:29:42 today about the likelihood test and so on, 16:29:45 whether -- so far that's been same. 16:29:50 And so, as I understand 16:29:53 Ms. Lane's report, what she did was she undertook 16:29:55 an analysis based on available information and her 16:29:58 own knowledge and expertise about the fish species 16:30:01 that were likely to be presents in the area, based 16:30:05 on knowledge that she has, and there are a lot of 16:30:08

Page 321 1 references in her report. 16:30:11 2 And so I take it. sir. that 16:30:12 3 you don't have any -- and I think you have 16:30:14 4 confirmed this -- you don't have any better 16:30:16 5 information that would conflict with the 16:30:18 6 information on which Ms. Lane relied? 16:30:21 7 A. I do not. 16:30:24 8 Q. Okay. And I don't think 16:30:25 9 I need to do this for the record, but, of course, 16:30:36 10 Ms. Lane's report actually directly responds to 16:30:38 11 the first URS report on these timing window 16:30:42 12 issues, and I think the record is there about that 16:30:45 13 16:30:50 issue. 14 The next topic I had in my 16:30:51 15 list is shipping lanes, but I think you mentioned 16:30:55 16 we should be speaking to Mr. Clarke about that. 16:30:57 17 A. Mr. Clarke would be, yes, 16:30:59 18 the right person. 16:31:02 19 Q. Paragraph 279 of your 16:31:03 20 report, if you could pull that up. So you --16:31:09 21 there is a paragraph there. I guess I just would 16:31:24 22 appreciate -- I guess I'm just also confused about 16:31:28 23 this paragraph. 16:31:32 24 You talk about -- I think it's 16:31:32 25 about intake protection zones. And I guess it's 16:31:36

Page 323

	1 uge 525
1	Can you please tell us who we 16:32:27
2	should be asking questions about this? 16:32:28
3	A. I think it would be 16:32:29
4	Gareth. 16:32:31
5	Q. Gareth? Okay. We will 16:32:31
6	ask him. 16:32:37
7	Paragraph 270, then, of your 16:32:38
8	report, are you the right person to be asking 16:32:45
9	questions about that paragraph? 16:32:48
10	A. Yes. 16:32:49
11	Q. First of a kind 16:32:50
12	permitting risks, so I guess the thrust of this 16:32:55
13	section and we heard this concept actually from 16:32:59
14	the side of Canada's experts quite a lot in this 16:33:01
15	proceeding of the the idea that something is 16:33:04
16	first of a kind and whether that makes whether 16:33:07
17	that's significant. 16:33:10
18	And so I guess what I would 16:33:12
19	like to ask you is: You're not suggesting, I take 16:33:13
20	it, that there's no experience with building 16:33:19
21	structures in Lake Ontario; right? 16:33:23
22	A. No, I'm not suggesting 16:33:25
23	that. 16:33:26
24	Q. Or permitting them? 16:33:26
25	A. No. 16:33:28

I		
	1	about drinking water ultimately. 16:31:40
	2	A. I'm sorry. Where are 16:31:41
	3	you? 16:31:43
	4	Q. At paragraph 279. There 16:31:43
	5	is a paragraph, and then there's on the next 16:31:46
	6	page, there's A to E. 16:31:48
	7	A. Mm-hmm. 16:31:50
	8	Q. So and the thrust of the 16:31:51
	9	discussion in these paragraphs is drinking water, 16:31:53
	10	I guess, and sediment. 16:31:55
	11	A. Yes. I I did not 16:31:58
	12	prepare Section 279. 16:32:01
	13	Q. Who prepared Section 279? 16:32:04
	14	A. I think that would have 16:32:06
	15	been Gareth or Franz. 16:32:07
	16	Q. I thought Mr. Barillaro 16:32:11
	17	was a financing expert. Is he also a drinking 16:32:12
	18	water expert? 16:32:19
	19	[Laughter.] 16:32:19
	20	THE WITNESS: As far as I am 16:32:21
	21	aware, he is not a drinking water expert. 16:32:22
	22	BY MR. SEERS: 16:32:23
	23	Q. It's an unusual 16:32:23
	24	combination of expertise, but perhaps not 16:32:25

combination of expertise,	but perhaps not	16:32:25
unprecedented.	16:32	2:26

Q. And you're not suggesting 16:33:28 that Ontario's no experience with wind turbines 16:33:29 obviously because of your personal experience? 16:33:32 A. That's correct. 16:33:34 Q. And you're not suggesting 16:33:34 that permitting gravity-based foundations in Lake 16:33:36 Ontario is not done or is novel? 16:33:40 16:33:43 A. I'm not aware. I can't speak to that. 16:33:46 Q. You are not aware of 16:33:47 that, so you can't speak to that at all? 16:33:48 A. No, I can't speak to 16:33:48 whether gravity-based foundations have been used 16:33:49 in Lake Ontario. 16:33:51 O. You don't know? 16:33:52 A. I don't know. 16:33:52 Q. Okay. Who at URS knows 16:33:53 that? 16:33:55 A. I don't know if that's a 16:33:55 Gareth question. 16:33:59 Q. So -- and you're also -- 16:34:01 you're not saying that Ontario doesn't have 16:34:13 experience laying underwater cable or permitting 16:34:14 underwater cable? 16:34:17 A. No, I'm not saying that. 16:34:19

	Page 325		Page 326
1	Q. And are you aware that 16:34:21	1	from a provincial perspective. I don't know about 16:35:12
2	the Wolfe Island project that's immediately 16:34:23	2	the the federal regulators. 16:35:17
3	adjacent to this proposed project has an 16:34:25	3	Q. You don't have any 16:35:20
4	underwater cable? 16:34:28	4	expertise with the federal regulators; right? 16:35:21
5	A. I am aware. 16:34:28	5	A. I wouldn't say I don't 16:35:23
6	Q. You're aware of that? 16:34:29	6	have expertise. I'm not aware if they were 16:35:25
7	Okay. So I guess I mean, I'm sure you'll 16:34:30	7	engaged in discussions. 16:35:26
8	disagree with me, but I think you'll you won't 16:34:34	8	Q. Well, exactly. You're 16:35:28
9	be surprised that this the proposition I am 16:34:37	9	not aware, so you can't give well, I would 16:35:29
10	going to put to you is that there is nothing 16:34:39	10	suggest that you can't give evidence about it if 16:35:30
11	really first of a kind about this. It's just that 16:34:41	11	you're not aware? 16:35:31
12	you're merging a lot of these various components 16:34:44	12	A. No, I'm not aware if they 16:35:32
13	together. 16:34:47	13	were involved in discussions on offshore wind in 16:35:33
14	A. You're merging these 16:34:48	14	Ontario. 16:35:37
15	various components together in an approvals 16:34:49	15	Q. Okay. I just have one 16:35:37
16	process that has not been used for offshore wind. 16:34:53	16	more question for you, then. In the I think 16:35:38
17	Q. Right. 16:34:55	17	you said that the schedule that you put together 16:35:41
18	A. And I think that was the 16:34:56	18	was based on no hindsight. So you are putting 16:35:45
19	difficulty. 16:34:57	19	yourself back in 2011? 16:35:48
20	Q. You don't disagree with 16:34:58	20	A. As best possible in 2015. 16:35:51
21	me, though, that the relevant regulators were 16:34:59	21	Q. As best possible. So I 16:35:53
22	working together with proponents at the time 16:35:04	22	take it, when we're asking questions of URS, then, 16:35:54
23	pragmatically to get projects built? 16:35:06	23	in connection with your reports, that we should 16:35:58
24 25	A. From what I heard from 16:35:08	24 25	assume that none of the post-2011 information was 16:36:01
25	Ms. Dumais, they were starting down that process, 16:35:10	23	known. Is that what we should assume? 16:36:07
	Page 327		Page 328
1	A. It's hard to pretend I 16:36:10	1	developed at the beginning of the project. 16:36:55
2	didn't know what was happening, but 16:36:12	2	Q. What is the can you 16:36:58
2 3	didn't know what was happening, but 16:36:12 Q. I appreciate that's the 16:36:14	2 3	
		1	Q. What is the can you 16:36:58
3	Q. I appreciate that's the16:36:14difficulty of the exercise.16:36:15A. I was yeah. I was16:36:16	3	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03
3 4 5 6	Q. I appreciate that's the16:36:14difficulty of the exercise.16:36:15A. I was yeah. I was16:36:16putting myself in the mindset of what was the16:36:16	3 4 5 6	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03
3 4 5 6 7	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19	3 4 5 6 7	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. 3 4 5 6 7 8	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22	3 4 5 6 7 8	Q. What is the can you16:36:58help us understand what you mean "planning16:37:00schedule." Are you saying this is a planning16:37:01schedule?16:37:03A. I'm referring to what16:37:03Mr. Roberts that was the language Mr. Roberts16:37:04used.16:37:09
3 4 5 6 7 8 9	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23	3 4 5 6 7 8 9	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09
3 4 5 6 7 8 9 10	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was – yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24	3 4 5 6 7 8 9 10	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10
3 4 5 6 7 8 9 10 11	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was – yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25	3 4 5 6 7 8 9 10 11	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13
3 4 5 6 7 8 9 10 11 12	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was – yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25	3 4 5 6 7 8 9 10 11 12	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15
3 4 5 6 7 8 9 10 11 12 13	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26	3 4 5 6 7 8 9 10 11 12 13	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15 with the knowledge we had on February 11, 2011. 16:37:19
3 4 5 6 7 8 9 10 11 12 13 14	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:29	3 4 5 6 7 8 9 10 11 12 13 14	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15 with the knowledge we had on February 11, 2011. 16:37:19 When we're asking questions of everyone on the 16:37:22
3 4 5 6 7 8 9 10 11 12 13 14 15	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31	3 4 5 6 7 8 9 10 11 12 13 14 15	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15 with the knowledge we had on February 11, 2011. 16:37:19 When we're asking questions of everyone on the 16:37:22 Windstream experts side, we're using current 16:37:25
3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was – yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to – okay. And 16:36:26 you appreciate that there's a difference there – 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31 experts for having used hindsight because they 16:36:34	3 4 5 6 7 8 9 10 11 12 13 14 15 16	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15 with the knowledge we had on February 11, 2011. 16:37:19 When we're asking questions of everyone on the 16:37:22 Windstream experts side, we're using current 16:37:25 information; right? 16:37:27
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31 experts for having used hindsight because they 16:36:34 took a bit of a different approach using the 16:36:36	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:19 When we're asking questions of everyone on the 16:37:22 Windstream experts side, we're using current 16:37:27 A. Well, like I said, you 16:37:29
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:31 experts for having used hindsight because they 16:36:34 took a bit of a different approach using the 16:36:38	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. What is the can you 16:36:58 help us understand what you mean "planning 16:37:00 schedule." Are you saying this is a planning 16:37:01 schedule? 16:37:03 A. I'm referring to what 16:37:03 Mr. Roberts that was the language Mr. Roberts 16:37:04 used. 16:37:09 Q. Okay. Well, I just want 16:37:09 to clarify. I suppose we have clarified for the 16:37:10 record, that when we're asking questions of URS, 16:37:13 we're talking about 2000 we're frozen in time 16:37:15 with the knowledge we had on February 11, 2011. 16:37:19 When we're asking questions of everyone on the 16:37:22 Windstream experts side, we're using current 16:37:27 A. Well, like I said, you 16:37:29 know, we were trying to think back to what the 16:37:32
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:31 experts for having used hindsight because they 16:36:34 took a bit of a different approach using the 16:36:38 knowing what we know now. 16:36:41	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Q. What is the can you $16:36:58$ help us understand what you mean "planning $16:37:00$ schedule." Are you saying this is a planning $16:37:01$ schedule? $16:37:03$ A. I'm referring to what $16:37:03$ Mr. Roberts that was the language Mr. Roberts $16:37:04$ used. $16:37:09$ Q. Okay. Well, I just want $16:37:09$ to clarify. I suppose we have clarified for the $16:37:10$ record, that when we're asking questions of URS, $16:37:13$ we're talking about 2000 we're frozen in time $16:37:15$ with the knowledge we had on February 11, 2011. $16:37:19$ When we're asking questions of everyone on the $16:37:22$ Windstream experts side, we're using current $16:37:25$ information; right? $16:37:27$ A. Well, like I said, you $16:37:29$ know, we were trying to think back to what the $16:37:32$ regulatory framework was. $16:37:35$
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31 experts for having used hindsight because they 16:36:36 benefit of hindsight in creating schedules, 16:36:38 knowing what we know now. 16:36:44	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Q. What is the can you $16:36:58$ help us understand what you mean "planning $16:37:00$ schedule." Are you saying this is a planning $16:37:01$ schedule? $16:37:03$ A. I'm referring to what $16:37:03$ Mr. Roberts that was the language Mr. Roberts $16:37:04$ used. $16:37:09$ Q. Okay. Well, I just want $16:37:09$ to clarify. I suppose we have clarified for the $16:37:10$ record, that when we're asking questions of URS, $16:37:13$ we're talking about 2000 we're frozen in time $16:37:15$ with the knowledge we had on February 11, 2011. $16:37:19$ When we're asking questions of everyone on the $16:37:22$ Windstream experts side, we're using current $16:37:25$ information; right? $16:37:27$ A. Well, like I said, you $16:37:29$ know, we were trying to think back to what the $16:37:32$ regulatory framework was. $16:37:35$ Q. I appreciate what and $16:37:35$
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to okay. And 16:36:26 you appreciate that there's a difference there 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31 experts for having used hindsight because they 16:36:34 took a bit of a different approach using the 16:36:38 knowing what we know now. 16:36:44 that. 16:36:45	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Q. What is the can you $16:36:58$ help us understand what you mean "planning $16:37:00$ schedule." Are you saying this is a planning $16:37:01$ schedule? $16:37:03$ A. I'm referring to what $16:37:03$ Mr. Roberts that was the language Mr. Roberts $16:37:04$ used. $16:37:09$ Q. Okay. Well, I just want $16:37:09$ to clarify. I suppose we have clarified for the $16:37:10$ record, that when we're asking questions of URS, $16:37:13$ we're talking about 2000 we're frozen in time $16:37:15$ with the knowledge we had on February 11, 2011. $16:37:19$ When we're asking questions of everyone on the $16:37:22$ Windstream experts side, we're using current $16:37:25$ information; right? $16:37:27$ A. Well, like I said, you $16:37:29$ know, we were trying to think back to what the $16:37:32$ regulatory framework was. $16:37:35$ Q. I appreciate what and $16:37:35$ that's what you said. $16:37:37$
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. I appreciate that's the 16:36:14 difficulty of the exercise. 16:36:15 A. I was – yeah. I was 16:36:16 putting myself in the mindset of what was the 16:36:16 regulatory framework at that time. What guidance 16:36:19 material was available at that time? 16:36:22 Q. Right. 16:36:23 A. What amendments to the 16:36:24 REA process? 16:36:25 Q. So you only referred, or 16:36:25 you tried, anyway, to only refer to – okay. And 16:36:26 you appreciate that there's a difference there – 16:36:29 and I think you criticized, in fact, Windstream's 16:36:31 experts for having used hindsight because they 16:36:34 took a bit of a different approach using the 16:36:38 knowing what we know now. 16:36:41 A. I don't recall saying 16:36:44 that. 16:36:45	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Q. What is the can you $16:36:58$ help us understand what you mean "planning $16:37:00$ schedule." Are you saying this is a planning $16:37:01$ schedule? $16:37:03$ A. I'm referring to what $16:37:03$ Mr. Roberts that was the language Mr. Roberts $16:37:04$ used. $16:37:09$ Q. Okay. Well, I just want $16:37:09$ to clarify. I suppose we have clarified for the $16:37:10$ record, that when we're asking questions of URS, $16:37:13$ we're talking about 2000 we're frozen in time $16:37:15$ with the knowledge we had on February 11, 2011. $16:37:19$ When we're asking questions of everyone on the $16:37:22$ Windstream experts side, we're using current $16:37:25$ information; right? $16:37:27$ A. Well, like I said, you $16:37:29$ know, we were trying to think back to what the $16:37:32$ regulatory framework was. $16:37:35$ Q. I appreciate what and $16:37:37$
3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. I appreciate that's the $16:36:14$ difficulty of the exercise. $16:36:15$ A. I was - yeah. I was $16:36:16$ putting myself in the mindset of what was the $16:36:16$ regulatory framework at that time.What guidance $16:36:22$ Q.Q. Right. $16:36:23$ A. What amendments to the $16:36:24$ REA process? $16:36:25$ Q. So you only referred, or $16:36:26$ you tried, anyway, to only refer to - okay.And16:36:29and I think you criticized, in fact, Windstream'sand I think you criticized, in fact, Windstream's $16:36:36$ benefit of hindsight in creating schedules, $16:36:36$ knowing what we know now. $16:36:41$ A. I don't recall saying $16:36:45$ Q. You don't recall - $16:36:45$	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Q. What is the can you $16:36:58$ help us understand what you mean "planning $16:37:00$ schedule." Are you saying this is a planning $16:37:01$ schedule? $16:37:03$ A. I'm referring to what $16:37:03$ Mr. Roberts that was the language Mr. Roberts $16:37:04$ used. $16:37:09$ Q. Okay. Well, I just want $16:37:09$ to clarify. I suppose we have clarified for the $16:37:10$ record, that when we're asking questions of URS, $16:37:13$ we're talking about 2000 we're frozen in time $16:37:15$ with the knowledge we had on February 11, 2011. $16:37:19$ When we're asking questions of everyone on the $16:37:22$ Windstream experts side, we're using current $16:37:25$ information; right? $16:37:27$ A. Well, like I said, you $16:37:29$ know, we were trying to think back to what the $16:37:32$ regulatory framework was. $16:37:35$ Q. I appreciate what and $16:37:37$ MR. SPELLISCY: I'm sorry. $16:37:37$

CONFIDENTIAL AND RESTRICTED February 19, 2016

	Page 329		Page 330
	going. So she is doing a great job. I can see in 16:37:45	1	Like I said, we know I know 16:38:36
2	the transcript. But I think it would be better if 16:37:47	2	what I know, so I can't unforget it. I was trying 16:38:40
3	question and answer, and that would be my 16:37:51	3	to look at what were the regulations in place at 16:38:43
Ļ	objection. 16:37:52	4	that time, in 2010 and 2011. 16:38:46
5	PRESIDENT: That's correct. 16:37:53	5	Q. Okay. Thank you. Those 16:38:49
5	So it's it's been a long day, but let's 16:37:53	6	are our questions today. Thank you. 16:38:52
,	question and then answer and vice versa. 16:37:56	7	PRESIDENT: That's the end of 16:39:00
8	MS. SEERS: Okay. 16:38:00	8	your cross? 16:39:02
)	BY MS. SEERS: 16:38:00	9	MS. SEERS: Yes. Thank you, 16:39:03
)	Q. Certainly. I apologize 16:38:01	10	Mr. President. 16:39:05
	if I interrupted you, sir. 16:38:02	11	PRESIDENT: Thank you very 16:39:06
2	A. No offence taken. 16:38:04	12	much, Ms. Seers. 16:39:07
3	Q. Were you finished your 16:38:05	13	Any questions in redirect? 16:39:08
ŀ	answer? 16:38:07	14	Would you like to have a short break to confer? 16:39:11
5	A. I don't remember where I 16:38:07	15	Five minutes. 16:39:13
5	was. 16:38:08	16	Recess taken at 4:39 p m. 16:39:14
7	Q. Okay. But I think we 16:38:08	17	Upon resuming at 4:50 p m. 16:50:58
3	were talking about we were simply confirming 16:38:10	18	PRESIDENT: Okay. So we go on 16:51:06
)	that, when we are engaging in this exercise of 16:38:12	19	and it will be Ms. Wates, please. 16:51:08
)	comparing these various expert reports, the ones 16:38:17	20	RE-EXAMINATION BY MS. WATES: 16:51:21
	that are from URS the two that are from URS, 16:38:20	21	Q. Hello, Mr. Rose. 16:51:21
2	utilized no hindsight, whereas can you confirm 16:38:27	22	A. Hello. 16:51:46
3	A. I wouldn't say they 16:38:31	23	Q. Just a few brief 16:51:46
ŀ	utilized no hindsight. And maybe I misunderstood 16:38:32	24	questions arising out of Ms. Seers' questions and 16:51:48
5	your previous question. 16:38:35	25	your responses. 16:51:53
	Page 331		Page 332
	Ms. Seers, she referred you to 16:51:54	1	way, so 16:53:19
2	a request for proposals that Windstream had put 16:52:00	2	Okay. Good. And if we can 16:53:30
3	out in October 2010 and a series of responses – 16:52:04	3	if we can just move to page 12 of the attachment. 16:53:33
ŀ	proposals that were received. Do you recall that? 16:52:08	4	And if we see in the top left-hand corner, it 16:53:48

	Wist beens, she referred you to 10.51.54	1	way, so 10.55.17
2	a request for proposals that Windstream had put 16:52:00	2	Okay. Good. And if we can 16:53:30
3	out in October 2010 and a series of responses 16:52:04	3	if we can just move to page 12 of the attachment. 16:53:33
4	proposals that were received. Do you recall that? 16:52:08	4	And if we see in the top left-hand corner, it 16:53:48
5	A. Yes. 16:52:10	5	gives the name of the attachment. Could you just 16:53:52
6	Q. If I can ask Donnie to 16:52:10	6	read that? 16:53:55
7	pull up this document, Exhibit C-0374. There is 16:52:16	7	A. "Project Information 16:53:56
8	no, there is not any confidential information, 16:52:31	8	Package for REA RFP for Wolfe Island Shoals 16:53:57
9	I believe, in this document. I'd just like to 16:52:33	9	Offshore Wind Farm." 16:54:03
10	make sure before we get started. 16:52:35	10	Q. Okay. And if we scroll 16:54:03
11	Okay. So if we can just 16:52:37	11	down to the page, we can stop there, and up a 16:54:06
12	review the first page. And if, Donnie, you can 16:52:39	12	little bit. If you could just read to yourself 16:54:15
13	blow up the information there. We will just 16:52:44	13	that section. 16:54:19
14	scroll down a bit more. 16:52:46	14	A. Section 7? 16:54:22
15	You see the date there that 16:52:47	15	Q. Yes. What is the timing 16:54:23
16	the RFP was issued? 16:52:49	16	of the construction of the facility that is 16:54:24
17	A. Yes, I do. 16:52:51	17	provided there? 16:54:26
18	Q. And that date is? 16:52:52	18	A. Construction begins in 16:54:28
19	A. October 8, 2010. 16:52:54	19	summer of 2012 and completed in the early spring 16:54:31
20	Q. And the date that the 16:52:56	20	of 2015. 16:54:33
21	responses were due? 16:52:57	21	Q. Now, I believe you said 16:54:35
22	A. November 26, 2010. 16:52:58	22	in your cross-examination, generally, if you want 16:54:42
23	Q. Okay. And if we turn to 16:53:00	23	to win the work, you are going to show a timeline 16:54:45
24	at Attachment B of this document, Donnie, page 16:53:06	24	that meets their requirements. Do you recall 16:54:48
25	12 of 16, but the numbering restarts along the 16:53:16	25	that? 16:54:50
		1	

1	Page 333	Page 33
1 A. I do recall that. 16:54:51	1	URS report? 16:56:01
2 Q. And so I'm just in 16:54:51	2	A. I did. 16:56:02
³ your opinion, would any proponent responding to	16:54:56 3	Q. And perhaps, actually, we 16:56:03
4 this RFP have given a schedule that did not meet 16	6:55:00 4	can pull up the presentation that Mr. Rose gave at 16:56:10
-	5:55:03 5	the beginning, Donnie. I would like to ask him a 16:56:13
6 construction in the summer of 2012? 16:55	5:06 6	question arising out of that presentation. If you 16:56:16
7 A. Not if they wanted to win 16:55:07	7	can just I'm not sure which side, but I think 16:56:19
⁸ the work. 16:55:09	8	towards the front. If we could scroll down one. 16:56:21
9 Q. Thank you. 16:55:10	9	Another one. 16:56:24
0 Now, Ms. Seers made much of 16:55:	:21 10	Okay. Great. If you can just 16:56:25
1 the fact that you're not a specialist in bats, 16:55:2.	5 11	review this slide and recall who specifically 16:56:31
2 birds, and fish. I'm sure you recall that. 16:55:28		questions related to the design of the project 16:56:38
³ A. I do recall. 16:55:31	13	schedule should be directed to. 16:56:40
4 Q. And you recall that you 16:55:32	14	A. That was to Gareth. 16:56:42
⁵ said at the beginning of your presentation that 16:5	55:35 15	Q. Thank you. Now, I 16:56:44
⁶ you are, in fact, a generalist 16:55:37	16	believe you have the two reports there in front of 16:56:50
7 A. That's correct. 16:55:38	17	you? 16:56:53
8 Q in the environmental 16:55:39	18	A. Yes. 16:56:54
9 permitting process; correct? 16:55:40	19	Q. I would like you to turn 16:56:54
0 A. Correct. 16:55:41	20	to the Rejoinder report, dated November 6, 2015. 16:56:57
Q. Okay. And did you 16:55:42	21	Do you have it there? 16:57:05
	55:47 22	A. I do. 16:57:05
	6:55:50 23	Q. If you could read turn 16:57:06
	6:55:54 24	to page 31, and Section 3.38 on environmental 16:57:08
being involved in the preparation of this second 16:		permitting. And if you could just read to 16:57:22
i	Page 335	Page 33
	<u> </u>	
1 yourself Sections 138 sorry, paragraphs 139 and 1	6:57:26 1	a specific line item for birds, bats, and fish 16:59:22
1 yourself Sections 138 sorry, paragraphs 139 and 1 2 140. 16:57:31	<u> </u>	a specific line item for birds, bats, and fish 16:59:22 individually? 16:59:26
1 yourself Sections 138 sorry, paragraphs 139 and 1 2 140. 16:57:31 3 A. Okay. 16:57:36	6:57:26 1 2 3	a specific line item for birds, bats, and fish 16:59:22 individually? 16:59:26 A. No, there is not. 16:59:27
1 yourself Sections 138 sorry, paragraphs 139 and 1 2 140. 16:57:31 3 A. Okay. 16:57:36 4 Q. And perhaps also we could 16:57:4	6:57:26 1 2 3 1 4	a specific line item for birds, bats, and fish 16:59:22 individually? 16:59:26 A. No, there is not. 16:59:27 Q. And I guess my question, 16:59:28
1 yourself Sections 138 sorry, paragraphs 139 and 1 2 140. 16:57:31 3 A. Okay. 16:57:36 4 Q. And perhaps also we could 16:57:4 5 review the URS schedule at page 91, if you just 16	6:57:26 1 2 3	a specific line item for birds, bats, and fish 16:59:22 individually? 16:59:26 A. No, there is not. 16:59:27 Q. And I guess my question, 16:59:28 then, would be: To the extent that you have a 16:59:35
1yourself Sections 138 sorry, paragraphs 139 and 12140.140.16:57:313A. Okay.40. very preliminary desktop studies.

Q. Okay. And in your

	Page 337		Page 338
1	have all been very permissive on redirect. I 17:00:17	1	And just because you've done 17:01:16
2	could have objected dozens of times myself. 17:00:20	2	pieces of permitting for various parts of that 17:01:18
3	MS. SEERS: Okay. Well, I 17:00:22	3	type of project, when you pull it all together, 17:01:21
4	okay. It's late in the day, but I raise the 17:00:23	4	it's a different project, and the agencies are not 17:01:23
5	objection. 17:00:24	5	going to see it as, oh, well, we permitted a 17:01:28
6	PRESIDENT: I think we have 17:00:24	6	foundation for something else. Therefore, we're 17:01:31
7	the answer. 17:00:25	7	comfortable with a wind farm. They're going to 17:01:33
8	MS. WATES: Okay. 17:00:26	8	want to understand what the project is that 17:01:36
9	MS. SEERS: Yes. Also quite 17:00:26	9	they're permitting, not these individual 17:01:39
10	submissive. 17:00:33	10	components. They're going to want to understand 17:01:41
11	BY MS. WATES: 17:00:33	11	it as a whole and what the impacts are. 17:01:43
12	Q. You had started to 17:00:33	12	Q. I just have one final 17:01:46
13	explain, as well, although weren't necessarily 17:00:34	13	question, which is perhaps a series of questions. 17:01:47
14	allowed to provide all the context, that about 17:00:36	14	How would you characterize the types of studies 17:01:56
15	your opinion as to whether or not this project 17:00:41	15	that Claimant's counsel described to you have been 17:02:02
16	could be considered first of a kind and why. And 17:00:44	16	conducted in this arbitration, in terms of bats, 17:02:04
17	I would just like for you to be able to provide 17:00:51	17	birds, and fish? 17:02:08
18	that additional context to the Tribunal. 17:00:53	18	A. To date, what types of 17:02:09
19	A. Sure. As I explained in 17:00:55	19	studies? 17:02:11
20	my presentation, first offshore wind farm in 17:00:58	20	Q. Yes, how would you 17:02:12
21	Ontario, first offshore wind farm under the REA. 17:01:03	21	characterize them? 17:02:13
22	We, certainly understood well, we had a 17:01:08	22	A. I'd say there's no field 17:02:14
23	reasonably good understanding of the requirements 17:01:11	23	studies completed, and anything would have been 17:02:16

24

25

so that you will have you will have them on 17:03:34
time for closing. 17:03:37 We also suggest that we 17:03:39 discuss already on Wednesday, if the parties are 17:03:41 ready, whether there is any need in the parties' 17:03:45 view for post-hearing submissions. We are not 17:03:48 suggesting in any way that, in the Tribunal's 17:03:51 view, there should be. But it would be good to 17:03:54 have the parties' reflections on the issue on 17:03:58 Wednesday rather than leaving that until Friday. 17:04:03 We can obviously revisit the issue on Friday 17:04:09 evening. But that is a request from the Tribunal. 17:04:12 Then, on Friday, we would 17:04:15 suggest we have the planning from the parties 17:04:18 three hours for each party and possibly half an 17:04:23 hour for rebuttal. 17:04:26 The Tribunal's suggestion is 17:04:29 we start early at eight o'clock so that we would 17:04:31 be able to finish by 3:30 at the latest in the 17:04:34 afternoon. That would facilitate certain 17:04:41
logistical arrangements on the part of the17:04:41Tribunal. And if that is agreeable to the17:04:43parties, that would be that would be17:04:49appreciated.17:04:52So unless there is anything,17:04:53

24

25

scenario.

	Page 341		Page 342
1	we leave these thoughts to you, and if we could 17:04:58	1	again, no need to give guidance now, but if we 17:06:09
2	then come back to this on Sunday. 17:05:01	2	were able to finish early on Wednesday, that the 17:06:12
3	MR. TERRY: Enjoy the weekend. 17:05:04	3	Tribunal questions might be available, if there 17:06:15
4	PRESIDENT: Anything else 17:05:06	4	are going to be questions, also somewhat early 17:06:17
5	either party would like to raise at this point? 17:05:07	5	that afternoon? 17:06:20
6	MR. TERRY: Nothing from us. 17:05:11	6	PRESIDENT: Yes. They will be 17:06:21
7	PRESIDENT: And the 17:05:13	7	available Wednesday, by the time we finish the 17:06:22
8	respondent? 17:05:13	8	session. 17:06:27
9	MR. NEUFELD: Nothing from us. 17:05:14	9	MR. TERRY: Excellent. Thank 17:06:27
10	PRESIDENT: Okay. You will 17:05:16	10	you very much. 17:06:28
11	receive the accounting in terms of time at the end 17:05:16	11	PRESIDENT: If not sooner, but 17:06:29
12	of today. I think we are pretty close to the time 17:05:21	12	we may leave them until Wednesday so that we hear 17:06:30
13	budget of six effective hours for each day. And 17:05:25	13	all the experts before we finalize the list of 17:06:33
14	we note that there is some buffer in the program 17:05:32	14	questions. 17:06:35
15	because, for Wednesday, only half a day is 17:05:34	15	Thank you very much. And on 17:06:36
16	planned. We do not encourage that there should be 17:05:38	16	that happy note, enjoy the rest of the evening and 17:06:38
17	any spillover on Sunday, Monday, or Tuesday, but 17:05:42	17	tomorrow. Thank you. 17:06:42
18	just to confirm there is some flexibility in terms 17:05:45	18	Whereupon hearing adjourned at 5:06 p m. 17:06:48
19	of the program as long as we finish on time on 17:05:49	19	
20	Wednesday. 17:05:53	20	
21	Of course, the incentive there 17:05:54	21	
22	is that the sooner we finish, the more you will 17:05:58	22	
23	have time for preparing your closing statements. 17:06:00	23	
24	MR. TERRY: And might I ask 17:06:04	24	
25	respectfully, may there be a possibility and 17:06:05	25
